§ 421.748 *Maturity and satisfaction.* Extended reseal loans will mature on demand but not later than July 31, 1957. The producer must pay off his loan, plus interest, on or before maturity or deliver the mortgage corn in accordance with the instructions of the county committee. If the producer desires to deliver the corn he should, prior to maturity, give the county committee notice in writing of his intention to do so. The producer may, however, pay off his loan and redeem his corn at any time prior to delivery of the corn to CCC or removal of the corn by CCC. Credit will be given at the applicable settlement value according to grade and/or quality for the total quantity eligible for delivery. Delivery of corn will be accepted only from bin(s) in which the corn under extended reseal loan is stored. The provisions of § 421.418 (a), (c), and (e) (2), (3), and (4) and of § 421.493 (a) shall be applicable: *Provided,* That, if upon delivery, the corn is of a quality which does not meet sanitation requirements (§ 421.741 (b)) in effect at the time the loan was extended, the corn, in the event of failure to meet the requirements of § 421.741 (b) (1), shall be sold for feed, or for industrial uses other than food or beverages, and, in the event of failure to meet the requirements of § 421.741 (b) (2), shall be sold for seed (in accordance with applicable State seed laws and regulations), fuel, or industrial uses where the end product will not be consumed by man or animals, and in each instance covered by this proviso, the settlement value shall be the same as the sales price: *Provided further,* That if CCC is unable to sell such corn for the use specified above, the settlement value shall be the market value, if any, as determined by CCC, as of the date of delivery.

§ 421.749 *Support rates.* (a) The support rate for an extended reseal loan shall remain the same as for the original loan.

(b) Any discounts or premiums established for variation in classification and quality as shown in § 421.494 (b), shall be applicable in determining the settlement value.

Issued this 7th day of June 1956.

[SEAL] WALTER C. BERGER,
*Acting Executive Vice President,*
*Commodity Credit Corporation.*

[1955 C. C. C. Grain Price Support Bulletin 1, Supp. 3, Corn]

## PART 421—GRAINS AND RELATED COMMODITIES

### SUBPART—1955-CROP CORN RESEAL LOAN PROGRAM

A reseal loan program has been announced for 1955-crop corn. The 1955 C. C. C. Grain Price Support Bulletin 1 (20 F. R. 3017 and 4563) issued by the Commodity Credit Corporation and containing the general requirements with respect to price support operations for grains and related commodities produced in 1955, supplemented by supplements 1 and 2, Corn (20 F. R. 4101, 7413, and 7977) containing the specific requirements for the 1955-crop corn price support program, is hereby further supplemented as follows:

Sec.
421.1147 Applicable sections of 1955 C. C. C. Grain Price Support Bulletin 1, and Supplements 1 and 2, Corn.
421.1148 Availability.
421.1149 Eligible producer.
421.1150 Eligible corn.
421.1151 Approved storage.
421.1152 Approved forms.
421.1153 Quantity eligible for reselling.
421.1154 Additional service charges.
421.1155 Transfer of producer's equity.

Sec.
421.1156 Set-offs.
421.1157 Storage and track-loading payments.
421.1158 Maturity and satisfaction.
421.1159 Support rates.

AUTHORITY: §§ 421.1147 to 421.1159 issued under sec. 4, 62 Stat. 1070, as amended; 15 U. S. C. 714b. Interpret or apply sec. 5, 62 Stat. 1072, secs. 101, 401, 63 Stat. 1051, 1054; 15 U. S. C. 714c, 7 U. S. C. 1441, 1421.

§ 421.1147 *Applicable sections of 1955 C. C. C. Grain Price Support Bulletin 1, and Supplments 1 and 2, Corn.* The following sections of the 1955 C. C. C. Grain Price Support Bulletin 1, as amended, and Supplements 1 and 2, Corn, as amended, published in 20 F. R. 3017, 4563, 4101, 7413 and 7977, shall be applicable to the 1955 Corn Reseal Loan Program: § 421.1001 *Administration;* § 421.1005 *Approved lending agencies;* § 421.1008 *Liens;* § 421.1011 *Interest rate;* § 421.1013 *Safeguarding the commodity;* § 421.1014 *Insurance on farm-storage loans;* § 421.1015 *Loss or damage to the commodity;* § 421.1016 *Personal liability of the producer;* § 421.1017 *Release of the commodity under loan;* § 421.1019 *Foreclosure;* § 421.1020 *Purchase of Notes;* § 421.1140 *Determination of quantity.* Other sections of the 1955 C. C. C. Grain Price Support Bulletin 1, as amended, and Suplements 1 and 2, Corn, as amended, shall be applicable to the extent indicated in this subpart.

§ 421.1148 *Availability* — (a) *Area and scope.* The reseal program will be available wherever corn is grown in the continental United States except in angoumois moth areas designated by the ASC State Committee: *Provided, however,* That such program will be available only where the ASC State committee determines that there may be a shortage of storage space and that corn can be safely stored on the farm for the period of the reseal loan. This program provides, under certain circumstances, for the extension of 1955-crop farm-storage loans and the making of farm-storage loans on 1955-crop corn covered by purchase agreements. Neither warehouse-storage loans nor purchase agreements will be available to producers under this program.

(b) *Time.* (1) The producer who desires to participate in the reseal loan program must file an application for a farm-storage reseal loan at the office of the ASC county committee.

(2) In the case of a farm-storage loan, the producer will be required to apply for extension of his loan before the final date for delivery specified in the delivery instructions issued to him by the office of the ASC county committee.

(3) The producer who signed a purchase agreement on farm-stored corn is required, under the 1955 Corn Price Support Program, to notify the office of the ASC county committee not later than July 31, 1956, if he intends to sell the corn to CCC. If the producer has notified the office of the ASC county committee, on or before July 31, 1956 of his intention to sell the corn to CCC, or to participate in this program, he may obtain a farm-storage loan on the corn. The loan documents must be executed by the producer on or before the final date for delivery specified in the delivery instructions, or on or before September 30, 1956, if the producer has not requested or received delivery instructions. The loan documents must be presented for disbursement within 15 days after execution. Disbursement of loans will be made to producers by approved lending agencies under an agreement with CCC, or by ASC county offices by means of sight drafts drawn on CCC. Payment in cash, credit to the producer's account, or the drawing of a check or draft shall constitute disbursement. The producer shall not present the loan documents for disbursement unless the corn is in existence and in good condition. If the corn was not in existence and in good condition at the time of disbursement, the total amount disbursed under the loan shall be promptly refunded by the producer. In the event the amount disbursed exceeds the amount authorized under this subpart, the producer shall be personally liable for repayment of the amount of such excess.

(c) *Source.* A producer desiring to participate in the reseal loan program should make application to the office of the ASC county committee which approved his loan or purchase agreement. Disbursements of loans completed on corn covered by purchase agreements shall be made to producers by ASC county offices by means of sight drafts drawn on CCC or by approved lending agencies under agreements with CCC.

§ 421.1149 *Eligible producer.* An eligible producer shall be any individual, partnership, association, corporation, or other legal entity, a State, political subdivision of a State or any agency thereof, who produced the corn in 1955 as landowner, landlord, tenant, or sharecropper and who either completed a farm-storage loan or signed a purchase agreement on farm-storage corn of the 1955 crop.

§ 421.1150 *Eligible corn*—(a) *Requirements of eligibility.* The corn (1) must meet the requirements set forth in § 421.1138 (a), (b), (c), and (e) of 1955 C. C. C. Grain Price Support Bulletin 1, Supplement 1, Corn; (2) must grade No. 3 or better, or No. 4 on the factor of test weight only, but otherwise No. 3 or better, and must contain not in excess of 15.5 percent moisture in the case of ear corn nor in excess of 13.5 percent moisture in the case of shelled corn; (3) must be under price support loan or purchase agreement; and (4) must, in addition, meet the sanitation requirements set forth in paragraph (b) of this section.

(b) *Sanitation requirements.* The corn (1) must be of a quality which meets the sanitation requirements, if any, of the Federal Food and Drug Administration in effect at the time the loan is made or extended, and (2) must not contain mercurial compounds or other substances poisonous to man or animals.

(c) *Inspection*—(1) *Extended farm-storage loans.* If a producer makes application to extend his farm-storage loan, the commodity loan inspector shall, with the producer, reinspect the corn and structure in which the corn is stored. If recommended by either the commodity loan inspector or the producer, a sample of the corn shall be taken and submitted for grade anaysis.

(2) *Corn covered by purchase agreement.* If a producer makes application for a farm-storage loan on corn covered by a purchase agreement, the commodity loan inspector shall inspect the corn and storage structure, obtain a sample if the corn and structure appear eligible, and proceed in the regular manner for the inspection of a commodity to be placed under loan.

(d) *Determination of quality.* Quality determinations shall be made as set forth in § 421.1141: *Provided,* That determinations, if any, with respect to sanitation requirements specified in paragraph (b) of this section shall be made in accordance with instructions issued by CCC.

§ 421.1151 *Approved storage.* Corn covered by any loans extended and any new loans completed must be stored in structures which meet the requirements for farm-storage loans as provided in § 421.1006 (a). Consent for storage for any loans extended or new loans completed must be obtained by the producer for the period ending September 30, 1957, if the structure is owned or controlled by someone other than the producer, or if the lease expires prior to September 30, 1957.

§ 421.1152 *Approved forms.* (a) The approved forms, which together with the provisions of this subpart govern the rights and responsibilities of the producer, shall consist of Producer's Note and Supplemental Loan Agreement, Commodity Loan Form A, secured by a Commodity Chattel Mortgage on Commodity Loan Form AA, and such other forms and documents as may be prescribed by CCC. Notes and chattel mortgages must have State and documentary revenue stamps affixed thereto where required by law. Loan documents executed by an administrator, executor or trustee will be acceptable only where legally valid.

(b) Where required by State law, a new producer's note and chattel mortgage shall be completed when a farm-storage loan is extended.

§ 421.1153 *Quantity eligible for resealing.* (a) The quantity of corn eligible for reseal on an extended farm-storage loan, will be the quantity shown on the original note and chattel mortgage, less any quantity delivered or redeemed.

(b) A producer may obtain a loan on not in excess of the quantity of corn specified in the purchase agreement, minus any quantity of the corn under such purchase agreement (1) which has been previously placed under loan or (2) on which he exercises his option to sell to CCC.

§ 421.1154 *Additional service charges.* (a) When a farm-storage loan is extended, the producer will not be required to pay an additional service charge.

(b) At the time a farm-storage loan is made to the producer on corn covered by a purchase agreement, the producer shall

pay an additional service charge of ½ cent per bushel on the number of bushels placed under loan, or $1.50 whichever is greater. No refund of service charges will be made.

§ 421.1155 *Transfer of producer's equity.* The producer shall not transfer either his remaining interest in or his right to redeem the corn mortgaged as security for a loan under this program. A producer who wishes to liquidate all or part of his loan by contracting for the sale of the corn must obtain written prior approval of the county committee on Commodity Loan Form 12 to remove the corn from storage when the proceeds of the sale are needed to repay all or any part of the loan. Any such approval shall be subject to the terms and conditions set out in Commodity Loan Form 12, copies of which may be obtained by producers or prospective purchasers at the office of the ASC county committee.

§ 421.1156 *Set-offs.* If the producer is indebted to CCC on any accrued obligation, or if any installment or installments on any loan made available by CCC on farm-storage facilities or mobile drying equipment are delinquent, or are payable under the provisions of the note evidencing such loan out of the proceeds of the price support loan, he must designate CCC or the lending agency holding such note as the payee of the proceeds of the price support loan to the extent of such indebtedness or installments, but not to exceed that portion of the proceeds remaining after deduction of loan service charges and amounts due prior lienholders. If the producer is indebted to any other agency of the United States and such indebtedness is listed on the county debt register, he must designate such agency as the payee of the proceeds as provided in this section. Indebtedness owing to CCC or to a lending agency as provided in this section shall be given first consideration after claims of prior lienholders. Where the producer has an outstanding loan(s), made under the Farm Storage Facility Loan Program or the Mobile Drying Equipment Loan Program, any storage payment due the producer for storage of the corn in farm-storage structures shall be applied (a) to any delinquent amount(s), (b) to the borrower's storage facility loan installment or mobile drying equipment loan installment which is due and payable when the storage payment is due and (c) to any extended installment(s), each including interest. Any amount of such storage payment not so applied, together with all other payments for services due the producer, shall be subject to set-off in the same manner as provided in this section for loan proceeds. Compliance with the provisions of this section shall not constitute a waiver of any right of the producer to contest the justness of the indebtedness involved either by administrative appeal or by legal action.

§ 421.1157 *Storage and track-loading payments*—(a) *Storage payment.* A reseal storage payment will be made as follows:

(1) Storage payment for full reseal period: A storage payment computed at the rate of 16 cents per bushel will be made to the producer on the quantity involved if he (i) redeems corn from the loan on or after July 31, 1957, (ii) delivers corn to CCC on or after July 31, 1957, or (iii) delivers corn to CCC prior to July 31, 1957, pursuant to demand by CCC for repayment of the loan solely for the convenience of CCC if the corn was not damaged or otherwise impaired.

(2) Prorated storage payment: A prorated storage payment computed at the rate of 0.00053 cent per bushel a day, but not to exceed 16 cents per bushel, according to the length of time the quantity of corn involved was in store after September 30, 1956, will be made to the producer (i) in the case of loss assumed by CCC under the provisions of the loan program, (ii) in the case of corn redeemed from the loan prior to July 31, 1957, and (iii) in the case of corn delivered to CCC prior to July 31, 1957, pursuant to CCC's demand and not solely for the convenience of CCC, or upon request of the producer and with the approval of CCC: *Provided, however,* That no storage payment will be made with respect to corn so delivered to CCC which is damaged or otherwise impaired due to negligence on the part of the producer. In the case of losses assumed by CCC, the period for computing the storage payment shall end on the date of the loss; and in the case of redemption, on the date of repayment.

(3) In no case will any storage payment be made where the producer has made any false representation in the loan documents or in obtaining the loan, or where the corn has been abandoned, or where there has been conversion on the part of the producer.

(b) *Track-loading payment.* A track-loading payment of 3 cents per bushel will be made to the producer on corn delivered to CCC in accordance with instructions of the county committee, on track at a country point.

§ 421.1158 *Maturity and satisfaction.* (a) Loans will mature on demand but not later than July 31, 1957. The producer must pay off his loan, plus interest, on or before maturity or deliver the mortgaged corn in accordance with the instructions of the county committee. If the producer desires to deliver the corn he should, prior to maturity, give the county committee notice in writing of his intention to do so. The producer may, however, pay off his loan and redeem his corn at any time prior to the delivery of the corn to CCC or removal of the corn by CCC. Credit will be given at the applicable settlement value according to grade and/or quality for the total quantity eligible for delivery. Delivery of corn will be accepted only from bin(s) in which the corn under reseal loan is stored. The provisions of § 421.1018 (a), (c), (f), and (g), and of § 421.1145 (a) shall be applicable thereto: *Provided,* That, if upon delivery, the corn is of a quality which does not meet sanitation requirements (§ 421.1150 (b)) in effect at the time the loan was extended or at the time the loan was made on corn covered by a purchase agreement, the corn, in the event of failure to meet the requirements of § 421.1150 (b) (1), shall be sold for feed, or for industrial uses other than food and beverages, and, in the event of failure to meet the requirements of § 421.1150 (b) (2), shall be sold for seed (in accordance with applicable State seed laws and regulations), fuel, or industrial uses where the end product will not be consumed by man or animals, and in each instance covered by this proviso, the settlement value shall be the same as the sales price: *Provided further,* That if CCC is unable to sell such corn for the use specified above, the settlement value shall be the market value, if any, as determined by CCC, as of the date of delivery.

§ 421.1159 *Support rates.* (a) The support rate for an extended farm-storage loan shall remain the same as for the original loan and the support rate for corn covered by a purchase agreement placed under a farm-storage loan shall be the same as the support rate established for the corn in § 421.1146 (a) (1) and (2).

(b) Any discounts or premiums established for variation in classification and quality as shown in § 421.1146 (b) shall be applicable in determining the settlement value.

Issued this 7th day of June 1956.

[SEAL] WALTER C. BERGER,
*Acting Executive Vice President,*
*Commodity Credit Corporation.*

[1956 C. C. C. Grain Price Support Bulletin 1, Supp. 1, Rye]

## PART 421—GRAINS AND RELATED COMMODITIES

### SUBPART—1956-CROP RYE LOAN AND PURCHASE AGREEMENT PROGRAM

A price support program has been announced for the 1956 crop of rye. The 1956 C. C. C. Grain Price Support Bulletin 1 (21 F. R. 3997), issued by the Commodity Credit Corporation and containing regulations of a general nature with respect to price support operations for certain grains and related commodities produced in 1956 is supplemented as follows:

Sec.
421.1976 Purpose.
421.1977 Availability of price support.
421.1978 Eligible rye.
421.1979 Warehouse receipts.
421.1980 Determination of quantity.
421.1981 Determination of quality.
421.1982 Maturity of loans.
421.1983 Determination of support rates.
421.1984 Warehouse charges.
421.1985 Settlement.

AUTHORITY: §§ 421.1976 to 421.1985 issued under sec. 4, 62 Stat. 1070, as amended; 15 U. S. C. 714b. Interpret or apply sec. 5, 62 Stat. 1072, secs. 301, 401, 63 Stat. 1053, 1054, 15 U. S. C. 714c, 7 U. S. C. 1447, 1421.

§ 421.1976 *Purpose.* Sections 421.1976 to 421.1985 state additional specific regulations which, together with the general regulations contained in the 1956 C. C. C. Grain Price Support Bulletin 1 (§§ 421.1601 to 421.1622) apply to loans and purchase agreements under the 1956-Crop Rye Price Support Program.

§ 421.1977 *Availability of price support*—(a) *Method of support.* Price support will be made available through farm-storage and warehouse-storage loans and through purchase agreements.

(b) *Area.* Farm-storage and warehouse-storage loans and purchase agreements will be available wherever rye is grown in the continental United States, except that farm-storage loans will not be available in areas where the State committee determines that rye cannot be safely stored on the farm.

(c) *Where to apply.* Application for price support should be made at the office of the county committee which keeps the farm-program records for the farm.

(d) *When to apply.* Loans and purchase agreements will be available from the time of harvest through January 31, 1957, and the applicable documents must be signed by the producer and delivered to the county committee not later than such date. Applicable documents include the Producer's Note and Loan Agreement for warehouse-storage loans, the Producer's Note and Supplemental Loan Agreement and the Commodity Chattel Mortgage for farm-storage loans, and the Purchase Agreement for purchase agreements.

(e) *Eligible producer.* An eligible producer shall be an individual, partnership, association, corporation, estate, trust, or other business enterprise or legal entity, and whenever applicable a State, political subdivision of a State, or any agency thereof, producing rye in 1956 as landowner, landlord, tenant, or sharecropper. Two or more eligible producers may obtain a joint loan on eligible rye harvested by them if stored in the same farm-storage facility. In the case of joint loans, each person signing the note shall be held jointly and severally responsible for the loan. Where the county office has experienced difficulties in settling farm-storage loans with a producer, the county committee shall determine that he is not eligible for a farm-storage loan. He shall be eligible, however, to obtain a warehouse-storage loan or sign a purchase agreement.

§ 421.1978 *Eligible rye.* Rye to be eligible for price support must meet all of the applicable requirements set forth in this section.

(a) The rye must have been produced in the continental United States in 1956 by an eligible producer.

(b) At the time the rye is placed under loan or delivered under a purchase agreement:

(1) The beneficial interest in the rye must be in the eligible producer tendering the rye for loan or for delivery under a purchase agreement, and must always have been in him, or must have been in him and a former producer whom he succeeded before the rye was harvested.

(2) To meet the requirements of succession to a former producer, the rights, responsibilities and interest of the former producer with respect to the farming unit on which the rye was produced shall have been substantially assumed by the person claiming succession. Mere purchase of the crop prior to harvest, without acquisition of any additional interest in the farming unit, shall not constitute succession. The county committee shall determine whether the requirements with respect to succession have been met.

(c) Rye, at the time it is placed under loan, and rye under purchase agreement which is in approved warehouse storage prior to notification by the producer of his intention to sell to CCC, must meet the following requirements:

(1) The rye must be rye grading No. 2 or better, or rye grading No. 3 on the factor of "test weight" only, but otherwise grading No. 2 or better.

(2) Rye grading Tough, Light Smutty, Smutty, Light Garlicky, Garlicky, or Weevily, or containing in excess of 1 percent ergot, or containing mercurial compounds or other substances poisonous to man or animals, shall not be eligible, except that rye represented by warehouse receipts grading Tough will be eligible if the warehouseman certifies on the supplemental certificate or on a statement attached to the warehouse receipt "Rye grading Tough has been processed at the request of the eligible producer, and delivery will be made of the same country-run quality, quantity, and grade not Tough and no lien for processing will be claimed by the warehouseman from Commodity Credit Corporation or any subsequent holder of said warehouse receipt."

(3) If offered as security for a farm-storage loan, the rye must have been stored in the granary at least 30 days prior to its inspection for measurement, sampling, and sealing, unless otherwise approved by the State committee.

(d) Rye under purchase agreement stored in other than approved warehouse storage must in order to be eligible for sale to CCC, meet the requirements of paragraph (c) (1) and (2) of this section on the basis of a pre-delivery inspection performed by a representative of the county committee in accordance with regulations to be subsequently issued. Rye which does not meet the requirements of paragraph (c) (1) and (2) on the basis of the pre-delivery inspection referred to above shall also be eligible for sale to CCC only if the producer complies with the conditions to be specified in § 421.1985, and the rye on the basis of the inspection made at the time of delivery meets the requirements set forth in paragraph (c) (1) and (2) of this section.

§ 421.1979 *Warehouse receipts.* Warehouse receipts, representing rye in approved warehouse storage to be placed under loan or delivered under a purchase agreement, must meet the following requirements of this section:

(a) Warehouse receipts must be issued in the name of the producer, must be properly endorsed in blank so as to vest title in the holder and must be receipts issued on a warehouse approved by CCC under the Uniform Grain Storage Agreement which indicate that the rye is insured, or must be receipts issued on warehouses operated by Eastern common carriers under tariffs approved by the Interstate Commerce Commission for which custodian agreements are in effect.

(b) (1) Each warehouse receipt, or the warehouseman's supplemental certificate (in duplicate), properly identified with the warehouse receipt, must show: (i) Gross weight or bushels, (ii) grade (including special grades), (iii) percentage of ergot for rye containing in excess of 3/10 of 1 percent of ergot, (iv) test weight, (v) dockage, and (vi) any other grading factor(s) when such factor(s) and not test weight determine the grade and (vii) whether the rye arrived by rail, truck or barge. In the case of warehouse receipts issued for rye delivered by rail or barge, the grading factors on the warehouse receipt must agree with the inbound inspection certificate for the car or barge when such certificate is issued.

(2) If the warehouseman has processed the rye as provided in § 421.1978 (c) (2), the supplemental certificate must show the numerical grade and the grading factors resulting from the rye being processed. Where the grade and grading factors shown on the supplemental certificate do not agree with the warehouse receipt, the factors shown on the supplemental certificate shall take precedence.

(c) A separate warehouse receipt must be submitted for each grade of rye.

(d) The warehouse receipt may be subject to liens for warehouse charges only to the extent indicated in §421.1984.

(e) Warehouse receipts representing rye which has been shipped by rail or water from a country shipping point to a designated terminal point or shipped by rail or water from a country shipping point to a storage point and stored in transit to a designated terminal point, must be accompanied by registered freight bills, or by a certificate containing similar information in a form prescribed by the CSS commodity office which shall be signed by the warehouseman and which may be part of the supplemental certificate.

§ 421.1980 *Determination of quantity.* (a) The quantity of rye placed under farm-storage loan may be determined either by weight or by measurement. The quantity of rye placed under a warehouse-storage loan or delivered under a farm-storage loan or under a purchase agreement shall be determined by weight.

(b) When the quantity is determined by weight, a bushel shall be 56 pounds of rye free of dockage. In determining the quantity of sacked rye by weight, a deduction of ¾ of a pound for each sack shall be made.

(c) When the quantity of rye is determined by measurement, a bushel shall be 1.25 cubic feet of rye testing 56 pounds per bushel. The quantity determined shall be the following percentages of the quantity determined for 56-pound rye:

| For rye testing: | Percent |
|---|---|
| 56 pounds or over | 100 |
| 55 pounds or over, but less than 56 pounds | 98 |
| 54 pounds or over, but less than 55 pounds | 96 |
| 53 pounds or over, but less than 54 pounds | 95 |
| 52 pounds or over, but less than 53 pounds | 92 |

(d) The percentage of dockage shall be determined and the weight of such dockage shall be deducted from the gross weight of the rye in determining the net quantity available for loan or purchase.

§ 421.1981 *Determination of quality.* (a) The grade, grading factors and all other quality factors shall be determined in accordance with the methods set forth in the Official Grain Standards of the United States for Rye, whether or not such determinations are made on the basis of an official inspection.

(b) The quantity of ergot shall be stated in terms of tenths of one percent and where applicable, the word "Ergoty" shall be added to, and made a part of, the grade designation.

§ 421.1982 *Maturity of loans.* Loans mature on demand but not later than February 28, 1957, in Alabama, Arkansas, Delaware, Florida, Georgia, Kentucky, Louisiana, Maryland, Mississippi, New Jersey, North Carolina, Pennsylvania, South Carolina, Tennessee, Virginia, and West Virginia, and not later than April 30, 1957, in all other States. The maturity date for a loan shall be the maturity date for the State where the rye is stored.

§ 421.1983 *Determination of support rates.* Basic support rates for rye will be set forth in 1956 C. C. C. Grain Price Support Bulletin 1, Supplement 2, Rye. Support rates will be established for rye stored in approved warehouse storage at designated terminal markets, and for rye stored in approved country warehouses and in approved farm storage. The support rate for the quality of rye placed under a loan or delivered under a purchase agreement shall be the applicable basic support rate adjusted in accordance with the provisions of this section and 1956 C. C. C. Grain Price Support Bulletin 1, Supplement 2, Rye.

(a) *Support rates at designated terminal markets.* (1) (i) Rye eligible for loan or purchase at the support rates established at designated terminal markets must have been shipped on a domestic interstate freight rate basis. On any rye shipped at other than the domestic interstate freight rate, the support rate at the designated terminal market shall be reduced by the difference between the rate of freight paid (plus tax) and the domestic interstate freight rate (plus tax).

(ii) The support rates established for designated terminal markets will apply to rye which has been shipped by rail or water from a country shipping point to one of the designated terminal markets, as evidenced by paid freight bills duly registered for transit privileges: *Provided,* That in the event the amount of paid in freight is insufficient to guarantee the minimum proportional domestic interstate freight rate from the terminal market, there shall be deducted from the applicable terminal support rate the difference between the amount of freight actually paid in and the amount required to be paid in to guarantee outbound movement at the minimum proportional domestic interstate freight rate.

(2) (i) When shipped by rail or water and stored at any designated terminal market, rye for which neither registered freight bills nor registered freight certificates are presented to guarantee outbound movement at the minimum proportional domestic interstate freight rate shall have a support rate equal to the applicable terminal rate minus 8 cents per bushel.

(ii) For rye received by truck and stored at any designated terminal market, the support rate shall be determined by making a deduction from the applicable terminal rate as follows:

| Terminal located in: | Amount of deduction (cents per bushel) |
|---|---|
| Area I: Arizona, California, Idaho, Nevada, Oregon, Utah, Washington | 12½ |
| Area II: Minnesota, Montana, North Dakota, South Dakota (also Superior, Wis.) | 12½ |
| Area III: Colorado, Illinois, Iowa, Kansas, Missouri, Nebraska, Wyoming, Wisconsin (except Superior) | 13 |
| Area IV: Arkansas, Connecticut, Delaware, Indiana, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Michigan, New Hampshire, New Jersey, New Mexico, New York, Ohio, Oklahoma, Pennsylvania, Rhode Island, Texas, Vermont, Virginia, West Virginia | 14 |
| Area V: Alabama, Florida, Georgia, Mississippi, North Carolina, South Carolina, Tennessee | 14 |

(b) *Support rates for rye in approved warehouse storage at other than designated terminal markets.* (1) The support rate for rye stored in approved warehouses (other than those situated in the designated terminal markets) which is shipped by rail or water, shall be determined by deducting from the appropriate designated terminal market rate an amount equal to the transit balance, if any (plus tax), of the through-freight rate from point of origin for such rye to such terminal market: *Provided,* That on any rye shipped at other than the domestic interstate freight rate the support rate shall be further reduced by the difference between the rate of freight paid (plus tax) and the domestic interstate freight rate (plus tax) from the point of origin of such rye to the point of storage: *And provided further,* That in the case of rye stored at any railroad transit point, taking a penalty by reason of out-of-line movement or for any other reason, to the appropriate designated market, there shall be added to such transit balance an amount equal to any out-of-line costs or other costs incurred in storing rye in such position.

(2) The warehouse receipts must be accompanied by the original paid freight bills or certificates of the warehouseman and other required documents as set forth in § 421.1979.

(c) *Discounts.* The basic support rates shall be adjusted by all applicable discounts listed in 1956 C. C. C. Grain Price Support Bulletin 1, Supplement 2, Rye.

§ 421.1984 *Warehouse charges.* (a) Warehouse receipts and the rye represented thereby stored in approved warehouses operating under the Uniform Grain Storage Agreement may be subject to liens for warehouse handling and storage charges not to exceed the Uniform Grain Storage Agreement rates from the date the rye is deposited in the warehouse for storage. Where the date of deposit (the date of the warehouse receipt if the date of deposit is not shown) on warehouse receipts representing rye stored in warehouses operating under the Uniform Grain Storage Agreement is on or before February 28, or April 30, 1957, the applicable date to be determined in accordance with § 421.1982, there shall be deducted in computing the amount of the loan or purchase price the storage charges per bushel as shown in the following table unless written evidence is submitted with the warehouse receipt that all warehouse charges except receiving and loading out charges have been prepaid through February 28 or April 30, 1957, the applicable maturity date to be determined in accordance with § 421.1982.

| Amount of deduction (cents per bushel) | Area I [1] Date of deposit (all dates inclusive) | Area II [2] and Area III [3] Date of deposit (all dates inclusive) | Area IV [4] For States having maturity dates not later than Apr. 30, 1957; date of deposit (all dates inclusive) | Area IV [4] For States having maturity dates not later than Feb. 28, 1957; date of deposit (all dates inclusive) | Area V [5] Date of deposit (all dates inclusive) |
|---|---|---|---|---|---|
| 16 | Prior to May 9, 1956 | Prior to May 25, 1956 | Prior to June 9, 1956 | | |
| 15 | May 9–May 31, 1956 | May 25–June 15, 1956 | June 9–June 29, 1956 | Prior to Apr. 30, 1956 | Prior to May 14, 1956. |
| 14 | June 1–June 23, 1956 | June 16–July 7, 1956 | June 30–July 20, 1956 | Apr. 30–May 20, 1956 | May 14–June 2, 1956. |
| 13 | June 24–July 16, 1956 | July 8–July 29, 1956 | July 21–Aug. 10, 1956 | May 21–June 10, 1956 | June 3–June 22, 1956. |
| 12 | July 17–Aug. 8, 1956 | July 30–Aug. 20, 1956 | Aug. 11–Aug. 31, 1956 | June 11–July 1, 1956 | June 23–July 12, 1956. |
| 11 | Aug. 9–Aug. 31, 1956 | Aug. 21–Sept. 11, 1956 | Sept. 1–Sept. 21, 1956 | July 2–July 22, 1956 | July 13–Aug. 1, 1956. |
| 10 | Sept. 1–Sept. 23, 1956 | Sept. 12–Oct. 3, 1956 | Sept. 22–Oct. 12, 1956 | July 23–Aug. 12, 1956 | Aug. 2–Aug. 21, 1956. |
| 9 | Sept. 24–Oct. 16, 1956 | Oct. 4–Oct. 25, 1956 | Oct. 13–Nov. 2, 1956 | Aug. 13–Sept. 2, 1956 | Aug. 22–Sept. 10, 1956. |
| 8 | Oct. 17–Nov. 8, 1956 | Oct. 26–Nov. 16, 1956 | Nov. 3–Nov. 23, 1956 | Sept. 3–Sept. 23, 1956 | Sept. 11–Sept. 30, 1956. |
| 7 | Nov. 9–Dec. 1, 1956 | Nov. 17–Dec. 8, 1956 | Nov. 24–Dec. 14, 1956 | Sept. 24–Oct. 14, 1956 | Oct. 1–Oct. 20, 1956. |
| 6 | Dec. 2–Dec. 24, 1956 | Dec. 9–Dec. 30, 1956 | Dec. 15, 1956–Jan. 4, 1957 | Oct. 15–Nov. 4, 1956 | Oct. 21–Nov. 9, 1956. |
| 5 | Dec. 25, 1956–Jan. 16, 1957 | Dec. 31, 1956–Jan. 21, 1957 | Jan. 5–Jan. 25, 1957 | Nov. 5–Nov. 25, 1956 | Nov. 10–Nov. 29, 1956. |
| 4 | Jan. 17–Feb. 8, 1957 | Jan. 22–Feb. 12, 1957 | Jan. 26–Feb. 15, 1957 | Nov. 26–Dec. 16, 1956 | Nov. 30–Dec. 19, 1956. |
| 3 | Feb. 9–Mar. 3, 1957 | Feb. 13–Mar. 6, 1957 | Feb. 16–Mar. 8, 1957 | Dec. 17, 1956–Jan. 6, 1957 | Dec. 20, 1956–Jan. 8, 1957. |
| 2 | Mar. 4–March 26, 1957 | Mar. 7–Mar. 28, 1957 | Mar. 9–Mar. 29, 1957 | Jan. 7–Jan. 27, 1957 | Jan. 9–Jan. 28, 1957. |
| 1 | Mar. 27–Apr. 30, 1957 | Mar. 29–Apr. 30, 1957 | Mar. 30–Apr. 30, 1957 | Jan. 28–Feb. 28, 1957 | Jan. 29–Feb. 28, 1957. |

[1] Area I includes: Arizona, California, Idaho, Nevada, Oregon, Utah, Washington.
[2] Area II includes: Minnesota, Montana, North Dakota, South Dakota (also Superior, Wisconsin).
[3] Area III includes: Colorado, Illinois, Iowa, Kansas, Missouri, Nebraska, Wyoming, Wisconsin (except Superior).
[4] Area IV includes: Arkansas, Connecticut, Delaware, Indiana, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Michigan, New Hampshire, New Jersey, New Mexico, New York, Ohio, Oklahoma, Pennsylvania, Rhode Island, Texas, Vermont, Virginia, West Virginia.
[5] Area V includes: Alabama, Florida, Georgia, Mississippi, North Carolina, South Carolina, Tennessee.

(b) Warehouse receipts and the rye represented thereby stored in approved warehouses operated by Eastern common carriers may be subject to liens for warehouse elevation (receiving and delivering) and storage charges from the date of deposit at rates approved by the Interstate Commerce Commission. There shall be deducted in computing the loan or purchase price the amount of the approved tariff rate for storage (not including elevation), which will accumulate from the date of deposit through February 28 or April 30, 1957, whichever date is applicable as determined in accordance with § 421.1982, unless written evidence is submitted with the warehouse receipt that the storage charges have been prepaid. The county committee shall request the CSS commodity office to determine the amount of such charges. Where the producer presents evidence showing that elevation charges have been prepaid, the amount of the storage charges to be deducted shall be reduced by the amount of the elevation charges prepaid by the producer.

§ 421.1985 *Settlement* — (a) *Settlement value.* (1) In the case of eligible rye delivered to CCC from farm-storage under the loan program, settlement shall be made at the applicable support rate determined in accordance with §§ 421.1983 and 421.1618 (d). The support rate shall be for the grade and quality of the total quantity of rye eligible for delivery. If, upon delivery, the rye under farm-storage loan is of a grade or quality for which no support rate has been established, the settlement value shall be computed at the support rate established for the grade and quality of the rye placed under loan, less the difference, if any, at the time of delivery, between the market price for the grade and quality placed under loan and the market price of the rye delivered, as determined by CCC: *Provided, however,* That if such rye is sold by CCC in order to determine its market price the settlement value shall not be less than such sales price: *And provided further,* That if upon delivery the rye contains mercurial compounds or other substances poisonous to man or animals, such rye shall be sold for seed (in accordance with applicable State seed laws and regulations), fuel or industrial uses where the end product will not be consumed by man or animals, and the settlement value shall be the same as the sales price, except that if CCC is unable to sell such rye for the use specified above, the settlement value shall be the market value, if any, as determined by CCC, as of the date of delivery.

(2) Provisions applicable to the predelivery inspection of rye under purchase agreement and the basis for settlement with the producer on rye delivered to CCC under purchase agreement will be issued as an amendment to this supplement.

(b) *Storage deduction for early delivery.* (1) No deduction for storage shall be made for farm-stored rye under loan or purchase agreement authorized to be delivered to CCC prior to the loan maturity date for the State, except where it is necessary to call the loan through fault or negligence on the part of the producer or where the producer requests early delivery and the county committee approves the early delivery and determines such early delivery is solely for the convenience of the producer.

(2) The deduction for storage shall be made in accordance with the schedule of deductions for warehouse charges in § 421.1984.

(c) *Refund of prepaid handling charges.* In case a warehouseman charges the producer for the receiving or the receiving and loading out charges on rye under loan or purchase agreement stored in a warehouse under the Uniform Grain Storage Agreement, the producer shall, upon delivery of the rye to CCC, be reimbursed or given credit by the county office for such prepaid charges in an amount not to exceed the charges authorized under the Uniform Grain Storage Agreement, provided the producer furnishes to the county committee written evidence signed by the warehouseman that such charges have been paid.

(d) *Storage payment where CCC is unable to take delivery of rye stored in other than an approved warehouse under loan or purchase agreement.* The producer may be required to retain rye stored in other than an approved warehouse under loan or purchase agreement for a period of 60 days after the applicable maturity date without any cost to CCC. However, if CCC is unable to take delivery of such rye within the 60-day period after maturity, the producer shall be paid a storage payment upon delivery of the rye to CCC: *Provided, however,* That a storage payment shall be paid a producer whose rye is stored in other than an approved warehouse under purchase agreement only if he has properly given notice of his intention to sell the rye to CCC and delivery cannot be accepted within the 60-day period after maturity. The period for earning such storage payment shall begin the day following the expiration of the 60-day period after the applicable maturity date and extend through the final date of delivery, or the final date for delivery as specified in the delivery instructions issued to the producer by the county office, whichever is earlier. The storage payment shall be computed at the rate of $0.00043 per bushel per day in Area I; $0.00045 per bushel per day in Area II; $0.00046 per bushel per day in Area III; $0.00047 per bushel per day in Area IV; and $0.00049 per bushel per day in Area V for the rye accepted for delivery or sale to CCC.

(e) *Track loading payment.* A track-loading payment of 3 cents per bushel shall be made to the producer on rye delivered to CCC on track at a country point.

Issued this 7th day of June 1956.

## PART 474—FARM-STORAGE FACILITIES

### SUBPART—1956 PROGRAM TO FINANCE THE PURCHASE OF MOBILE DRYING EQUIPMENT FOR FARM COMMODITIES

This bulletin states the requirements with respect to the Program to Finance the Purchase of Drying Equipment for Farm Commodities formulated by Commodity Credit Corporation (hereinafter referred to as "CCC") and the Commodity Stabilization Service (hereinafter referred to as "CSS"). The program will be carried out by CSS under the general supervision and direction of the Executive Vice President, CCC.

Sec.

474.561 Administration.
474.562 Availability of loans.
474.563 Approved lending agencies.
474.564 Eligible borrowers.
474.565 Eligible equipment.
474.566 Terms and conditions of loan.
474.567 Disbursement of loans.
474.568 Service charges.
474.569 Sale or conveyance of security.

AUTHORITY: §§ 474.561 to 474.569 issued under sec. 4, 62 Stat. 1070, as amended, 15 U. S. C., 714b. Interpret or apply secs. 4, 5, 62 Stat. 1070, as amended, 1072; 15 U. S. C. 714b, 714c.

§ 474.561 *Administration.* The program will be administered by CSS, under the general direction and supervision of the Executive Vice President, CCC, and in the field will be carried out by State and county Agricultural Stabilization and Conservation committees (hereinafter called State and county committees). State and county committees do not have authority to modify or waive any provisions of this subpart or amendments or supplements to this subpart. Employees of County ASC Committees shall execute instruments in accordance with delegations of authority published in 21 F. R. 2957.

§ 474.562 *Availability of loans*—(a) *Area.* Loans will be available in any State of the continental United States.

(b) *Time.* Loan applications may be submitted from July 1, 1956 through June 30, 1957.

(c) *Source.* Loans may be obtained directly from CCC or through approved lending agencies. Approved forms and documents will be made available through offices of county committees. Applications for loans shall, in either case, be made to the county committee. Disbursement of loans will be made by approved lending agencies under agreements with CCC, or by drafts drawn on CCC by the county office.

§ 474.563 *Approved lending agencies.* An approved lending agency shall be any bank, partnership, individual, or other legal entity which has entered into a lending agency agreement for storage equipment loans, on the form prescribed by CCC.

§ 474.564 *Eligible borrowers.* Loans for the purchase of eligible equipment will be made to eligible borrowers. An eligible borrower shall be a person who (a) is a tenant, share landlord, or landowner-operator who produces one or more of the eligible commodities listed in § 474.565 and (b) has facilities for the storage of one or more of such eligible commodities suitable for adaptation to artificial drying and needs such eligible equipment in connection with the utilization of such facilities. The term "person" means an individual, partnership, corporation, or other legal entity. If two or more individuals join together in the purchase of eligible equipment, they must join as partners and each such individual shall be liable jointly and severally with respect to the loan.

§ 474.565 *Eligible equipment.* (a) Loans will be made only for the purchase of eligible equipment. Eligible equipment shall be mobile drying equipment (such as air-circulators, ventilators, tunnels and power-fans, or any combination thereof, and mechanical driers of a mobile type), which will be used in connection with the conditioning of corn, oats, barley, grain sorghums, wheat, rye, soybeans, flaxseed, rice, dry edible beans, dry peas, peanuts, cottonseed, hay seeds, pasture seeds, and winter cover crop seeds produced by the borrower.

(b) Loans will not be available (1) for the refinancing, repair, remodeling or maintenance of existing eligible equipment (2) for the purchase of secondhand eligible equipment, or (3) for the use in connection with the conditioning of commodities which the borrower intends to purchase, or condition, or store for others, or (4) where it appears that the equipment may be attached to, or become a part of, or made use of, in connection with any commercial operation, including but not limited to elevators, warehouses, drying or processing plants.

§ 474.566 *Terms and conditions of loan*—(a) *Term of loan.* The maximum term of the loan will be for a period of approximately three years, except that the term of an individual loan may be extended and reextended for terms of not to exceed one year each if the county committee determines in writing that the borrower is unable to meet the current payment when due because of catastrophic loss of crops or other comparable conditions beyond the control of the borrower. Loans will be payable in equal annual principal payments with interest at four percent per annum on the unpaid balance. Loans will be secured by chattel mortgages on the mobile drier and/or equipment, or by other security instrument approved by CCC. The cost of recording or filing of all documents required in connection with the loan shall be paid by the borrower. Upon approval of the application for loan, the county committee will execute a commitment for the loan. Unless the loan has been totally disbursed the loan commitment shall become null and void in four months after its date unless extended in writing by the county committee on or before its expiration date.

(b) *Amount of loan.* (1) The maximum amount loaned on any single mobile drier, or any mobile equipment shall not exceed the maximum amount authorized by the State committee and in no event shall exceed seventy-five percent of the delivered and assembled out-of-pocket cost paid by the borrower for such drier or equipment. The borrower shall be required to furnish receipted bills showing the cost of the drier or any mobile equipment, and amount of downpayment, before the loan is disbursed.

(2) County committees may approve loan applications, issue loan commitments and make disbursement of loans, without prior approval of the State committee, except as specifically provided herein, of any amount not in excess of $3,000. Applications for mobile drying equipment loans in the amount of $3,000 or over, shall be submitted through the State committee to the Deputy Administrator for Operations CSS, for review and approval prior to the issuance of a commitment.

(c) *Repayment of loan.* Payment will be due annually in equal payments beginning on the first anniversary date of the disbursement of the loan, and a like payment plus interest shall be due on each anniversary date thereafter until the principal, together with interest thereon, has been paid in full. Unless an extension is granted, in writing, failure to pay any installment by the twelfth month after such date or extension shall mature all installments then unpaid, and the entire unpaid amount of the note, without demand, notice, or other action shall become immediately due and payable and the borrower shall be personally liable for the entire amount remaining unpaid on the loan. Upon breach by the maker of the note of any covenants or agreements on his part to be performed under this subpart, or under the chattel mortgage or other security instruments securing the note, or under any other instruments executed in connection with the loan, or if the drier or eligible equipment is used in connection with any commercial operation including but not limited to elevator, warehouse, drying, or processing plants during the life of the loan, the holder, at its option, may declare the entire indebtedness immediately due and payable. Any unpaid amount on a delinquent loan or any past due amount on any annual payment may be deducted and paid out of any amounts due the borrower under any program carried out by the Department of Agriculture, excepting amounts due the borrower out of appropriated funds when the loan is held by a lending agency. Any payments for storage of commodities in farm storage structure under a price support or reseal program due from Commodity Credit Corporation to a borrower shall be applied (1) to any delinquent amount(s), and, (2) to the borrower's mobile drying equipment loan installment which is due and payable when the storage payment is due, and (3) to any extended installment(s), each including interest. The loan may be paid in part or in full by the borrower at any time before maturity. Upon payment of a loan secured by a mortgage which is held by CCC, the county committee shall be requested to release or obtain the release of such instruments of record. The chairman of each county committee is authorized to act as agent of CCC in releasing or obtaining the release of such instruments. Upon payment of loans secured by mortgages held by a lending agency, the lending agency should be requested to release such mortgage.

(d) *Insurance.* The borrower shall be required to provide insurance for the life or the loan and for the face value of the loan with coverage for fire and other hazards common to the area for such equipment as determined necessary by the county committee. The insurance policy shall contain a loss payable clause in favor of the holder of the note and CCC, as their interests may appear, and the cost shall be borne by the borrower. If any insurance is not in effect at any time during the life of the loan, or extension thereof, the loan shall be called immediately.

§ 474.567 *Disbursement of loans.* Loans will be disbursed to borrowers by lending agencies under agreement with CCC or directly by CCC. Direct loans to borrowers may be disbursed by means of sight drafts issued by county ASC offices.

§ 474.568 *Service charges.* A service charge of $5.00 or one percent of the amount of the loan, whichever is greater, shall be paid by the borrower at the time the application is made. If the loan is rejected or is not completed, the minimum fee of $5.00 shall be retained by the county committee and the balance returned to the applicant.

§ 474.569 *Sale or conveyance of security.* When a borrower desires to sell or convey the mobile drying equipment without repaying the loan in full, he shall apply to the Chairman of the county committee for approval of the sale or conveyance on behalf of CCC. If such approval is granted, the borrower and his purchaser shall execute an assumption agreement in form prescribed by CCC under which the borrower remains liable for the balance of the indebtedness and the purchaser assumes the balance of the indebtedness and agrees to comply with all the terms, conditions, covenants, and agreements set out in the security instruments. Approval of the transaction on behalf of CCC shall be shown by signature of the Chairman of the county committee in the space provided in the assumption agreement. The Chairman of each county committee is authorized to approve such transactions on behalf of CCC with respect to mobile drying equipment located within the county, by executing the consent provision in the assumption agreement. The assumption agreement form may be obtained from the county committee office.

Issued this 7th day of June, 1956.

[SEAL] WALTER C. BERGER,
*Acting Executive Vice President,*
*Commodity Credit Corporation.*

# TITLE 7—AGRICULTURE

## Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders), Department of Agriculture

[Plum Order 1, Amdt. 1]

## PART 936—FRESH BARTLETT PEARS, PLUMS, AND ELBERTA PEACHES GROWN IN CALIFORNIA

### REGULATION BY GRADES AND SIZES

*Findings.* 1. Pursuant to the marketing agreement, as amended, and Order No. 36, as amended (7 CFR Part 936), regulating the handling of fresh Bartlett pears, plums, and Elberta peaches grown in the State of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and upon the basis of the recommendations of the Plum Commodity Committee, established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitations of shipments of plums of the variety hereinafter set forth, and in the manner herein provided, will tend to effectuate the declared policy of the act.

2. It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this amendment until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.), because the time intervening between the date when information upon which this amendment is based became available and the time when this amendment must become effective in order to effectuate the declared policy of the Agricultural Marketing Agreement Act of 1937, as amended, is insufficient; and this amendment relieves restrictions on the handling of Beauty plums grown in the State of California, when packed in a container designated as a special plum box.

It is, therefore, ordered as follows:

The provisions in paragraph (b) of § 936.524 (Plum Order 1; 21 F. R. 3451) are hereby amended to read as follows:

(b) *Order.* (1) During the period beginning at 12:01 a. m., P. s. t., June 13, 1956, and ending at 12:01 a. m., P. s. t., November 1, 1956, no shipper shall ship from any shipping point during any day any package or container of Beauty plums unless such plums grade at least U. S. No. 1 and, except to the extent otherwise permitted under this paragraph,

(i) If the plums are packed in a standard basket, they are of a size not smaller than a size that will pack a 4 x 5 standard pack;

(ii) If the plums are packed in a special plum box, they are of a size not smaller than a size that will pack a 7-row standard pack; or

(iii) If the plums are packed in any container other than a standard basket or special plum box, ninety (90) percent, by count, of the plums measure $1^{10}/_{16}$ inches in diameter and of the remainder of the plums none measures less than $1^{7}/_{16}$ inches in diameter: *Provided,* That, no lot of plums shall be considered as failing to meet this requirement if one package of such plums contains not more than one (1) percent, by count, of plums that are smaller than $1^{7}/_{16}$ inches in diameter.

(2) During each day of the aforesaid period, any shipper may ship from any shipping point a quantity of such plums, by number of packages or containers, which are of a size smaller than the size prescribed in subparagraph (1) of this paragraph if said quantity does not exceed one hundred (100) percent of the number of the same type of packages or containers of plums shipped by such shipper which meet the size requirement of said subparagraph (1) of this paragraph and all such smaller plums meet the applicable one of following requirements:

(i) If the plums are packed in a standard basket, they are of a size not smaller than a size that will pack a 5 x 5 standard pack;

(ii) If the plums are packed in a special plum box, they are of a size not smaller than a size that will pack a $7\frac{1}{2}$ row standard pack; or

(iii) If the plums are packed in any container other than a standard basket or special plum box, ninety (90) percent, by count, of the plums measure $1^{8}/_{16}$ inches in diameter and of the remainder of the plums none measures less than $1^{5}/_{16}$ inches in diameter: *Provided,* That, no lot of plums shall be considered as failing to meet this requirement if one package of such plums contains not more than one (1) percent, by count, of plums that are smaller than $1^{5}/_{16}$ inches in diameter.

(3) If any shipper, during any day of the aforesaid period, ships from any shipping point less than the maximum allowable quantity of such plums that may be of a size smaller than the size prescribed in subparagraph (1) of this paragraph, the quantity of such undershipment may be shipped by such shipper only from such shipping point during the next two succeeding calendar days in addition to any other quantities of such plums that such shipper is authorized to ship.

(4) As used in this section, "U. S. No. 1," "fairly uniform in size," "diameter," and "standard pack" shall have the same meaning as set forth in the revised United States Standards for plums and prunes (fresh) (§§ 51.1520 to 51.1530 of this title); "standard basket" shall mean the standard basket set forth in paragraph 1 of section 828.1 of the Agricultural Code of California; "special plum box" shall mean the special plum box set forth in section 828.15 of the Agricultural Code of California; "7-row standard pack" shall mean that the top layer of the pack contains 52 plums and all plums in the pack are of fairly uniform size; "$7\frac{1}{2}$ row standard pack" shall mean that the top layer of the pack contains 56 plums and all plums in the pack are of fairly uniform size; and, except as otherwise specified, all other terms shall

have the same meaning as when used in the amended marketing agreement and order.

(5) Section 936.143 sets forth the requirements with respect to the inspection and certification of shipments of fruit covered by this section. Such section also prescribes the conditions which must be met if any shipment is to be made without prior inspection and certification. Notwithstanding that shipments may be made without inspection and certification, each shipper shall comply with all grade and size regulations applicable to the respective shipment.

Nothing contained herein shall be construed (1) as affecting or waiving any right, duty, obligation, or liability which has arisen or which, prior to the effective time of the provisions hereof, may arise in connection with any provision of said Plum Order 1; or (2) as releasing or extinguishing any violation of said Plum Order 1 which has occurred or which, prior to the effective time of the provisions hereof, may occur.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

[Plum Order 3, Amdt. 1]

PART 936—FRESH BARTLETT PEARS, PLUMS, AND ELBERTA PEACHES GROWN IN CALIFORNIA

REGULATION BY GRADES AND SIZES

*Findings.* 1. Pursuant to the marketing agreement, as amended, and Order No. 36, as amended (7 CFR Part 936), regulating the handling of fresh Bartlett pears, plums, and Elberta peaches grown in the State of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and upon the basis of the recommendations of the Plum Commodity Committee, established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitations of shipments of plums of the variety hereinafter set forth, and in the manner herein provided, will tend to effectuate the declared policy of the act.

2. It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this amendment until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this amendment is based became available and the time when this amendment must become effective in order to effectuate the declared policy of the Agricultural Marketing Agreement Act of 1937, as amended, is insufficient; and this amendment relieves restrictions on the handling of Santa Rosa plums grown in the State of California when packed in a container designated as a special plum box.

It is, therefore, ordered as follows:

The provisions in paragraph (b) of § 936.526 (Plum Order 3; 21 F. R. 3486) are hereby amended to read as follows:

(b) *Order.* (1) During the period beginning at 12:01 a. m., P. s. t., June 13, 1956, and ending at 12:01 a. m., P. s. t., November 1, 1956, no shipper shall ship any package or container of Santa Rosa plums unless such plums grade at least U. S. No. 1 and

(i) If the plums are packed in a standard basket, they are of a size not smaller than a size that will pack a 4 x 5 standard pack;

(ii) If the plums are packed in a special plum box, they are of a size not smaller than a size that will pack a 7-row standard pack; or

(iii) If the plums are packed in any container other than a standard basket or special plum box, ninety (90) percent, by count, of the plums measure $1^{19}/_{16}$ inches in diameter and of the remainder of the plums none measures less than $1^{7}/_{16}$ inches in diameter: *Provided*, That, no lot of plums shall be considered as failing to meet this requirement if one package of such plums contains not more than one (1) percent, by count, of plums that are smaller than $1^{7}/_{16}$ inches in diameter.

(2) Section 936.143 sets forth the requirements with respect to the inspection and certification of shipments of fruit covered by this section. Such section also prescribes the conditions which must be met if any shipment is to be made without prior inspection and certification. Notwithstanding that shipments may be made without inspection and certification, each shipper shall comply with all grade and size regulations applicable to the respective shipment.

(3) As used in this section, "U. S. No. 1," "fairly uniform in size," "diameter," and "standard pack" shall have the same meaning as set forth in the revised United States Standards for plums and prunes (fresh) (§§ 51.1520 to 51.1530 of this title); "standard basket" shall mean the standard basket set forth in paragraph 1 of section 828.1 of the Agricultural Code of California; "special plum box" shall mean the special plum box set forth in section 828.15 of the Agricultural Code of California; "7-row standard pack" shall mean that the top layer of the pack contains 52 plums and all plums in the pack are of fairly uniform size; and, except as otherwise specified, all other terms shall have the same meaning as when used in the amended marketing agreement and order.

Nothing contained herein shall be construed (1) as affecting or waiving any right, duty, obligation, or liability which has arisen or which, prior to the effective time of the provisions hereof, may arise in connection with any provision of said Plum Order 3; or (2) as releasing or extinguishing any violation of said Plum Order 3 which has occurred or which, prior to the effective time of the provisions hereof, may occur.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Dated: June 8, 1956.

[SEAL] FLOYD F. HEDLUND,
*Acting Director, Fruit and Vegetable Division, Agricultural Marketing Service.*

[Plum Order 4, Amdt. 1]

PART 936—FRESH BARTLETT PEARS, PLUMS, AND ELBERTA PEACHES GROWN IN CALIFORNIA

REGULATION BY GRADES AND SIZES

*Findings.* 1. Pursuant to the marketing agreement, as amended, and Order No. 36, as amended (7 CFR Part 936), regulating the handling of fresh Bartlett pears, plums, and Elberta peaches grown in the State of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and upon the basis of the recommendations of the Plum Commodity Committee, established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitations of shipments of plums of the variety hereinafter set forth, and in the manner herein provided, will tend to effectuate the declared policy of the act.

2. It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this amendment until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this amendment is based became available and the time when this amendment must become effective in order to effectuate the declared policy of the Agricultural Marketing Agreement Act of 1937, as amended, is insufficient; and this amendment relieves restrictions on the handling of Formosa plums grown in the State of California, when packed in a container designated as a special plum box.

It is, therefore, ordered as follows:

The provisions in paragraph (b) of § 936.527 (Plum Order 4; 21 F. R. 3487) are hereby amended to read as follows:

(b) *Order.* (1) During the period beginning at 12:01 a. m., P. s. t., June 13, 1956, and ending at 12:01 a. m., P. s. t., November 1, 1956, no shipper shall ship any package or container of Formosa plums unless such plums grade at least U. S. No. 1 and

(i) If the plums are packed in a standard basket, they are of a size not smaller than a size that will pack a 4 x 5 standard pack;

(ii) If the plums are packed in a special plum box, they are of a size not smaller than a size that will pack a 7-row standard pack; or

(iii) If the plums are packed in any container other than a standard basket or special plum box, ninety (90) percent, by count, of the plums measure $1^{19}/_{16}$ inches in diameter and of the remainder of the plums none measures less than $1^{7}/_{16}$ inches in diameter: *Provided*, That, no lot of plums shall be considered as failing to meet this requirement if one package of such plums contains not more than one (1) percent, by count, of plums that are smaller than $1^{7}/_{16}$ inches in diameter.

(2) Section 936.143 sets forth the requirements with respect to the inspection and certification of shipments of fruit covered by this section. Such section also prescribes the conditions which must be met if any shipment is to be made without prior inspection and certification. Notwithstanding that shipments may be made without inspection and certification, each shipper shall comply with all grade and size regulations applicable to the respective shipment.

(3) As used in this section, "U. S. No. 1," "fairly uniform in size," "diameter," and "standard pack" shall have the same meaning as set forth in the revised United States Standards for plums and prunes (fresh) (§§ 51.1520 to 51.1530 of this title); "standard basket" shall mean the standard basket set forth in paragraph 1 of section 828.1 of the Agricultural Code of California; "special plum box" shall mean the special plum box set forth in section 828.15 of the Agricultural Code of California; "7-row standard pack" shall mean that the top layer of the pack contains 52 plums and all plums in the pack are of fairly uniform size; and, except as otherwise specified, all other terms shall have the same meaning as when used in the amended marketing agreement and order.

Nothing contained herein shall be construed (1) as affecting or waiving any right, duty, obligation, or liability which has arisen or which, prior to the effective time of the provisions hereof, may arise in connection with any provision of said Plum Order 4; or (2) as releasing or extinguishing any violation of said Plum Order 4 which has occurred or which, prior to the effective time of the provisions hereof, may occur.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Dated: June 8, 1956.

[SEAL] FLOYD F. HEDLUND,
*Acting Director, Fruit and Vegetable Division, Agricultural Marketing Service.*

[Plum Order 5, Amdt. 1]

PART 936—FRESH BARTLETT PEARS, PLUMS, AND ELBERTA PEACHES GROWN IN CALIFORNIA

REGULATION BY GRADES AND SIZES

*Findings.* 1. Pursuant to the marketing agreement, as amended, and Order No. 36, as amended (7 CFR Part 936), regulating the handling of fresh Bartlett pears, plums, and Elberta Peaches grown in the State of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.) and upon the basis of the recommendations of the Plum Commodity Committee, established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of plums of the variety hereinafter set forth, and in the manner herein provided, will tend to effectuate the declared policy of the act.

2. It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this amendment until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this amendment is based became available and the time when this amendment must become effective in order to effectuate the declared policy of the Agricultural Marketing Agreement Act of 1937, as amended, is insufficient; and this amendment relieves restrictions on the handling of Climax plums grown in the State of California, when packed in a container designated as a special plum box.

It is, therefore, ordered as follows:

The provisions in paragraph (b) of § 936.528 (Plum Order 5; 21 F. R. 3487) are hereby amended to read as follows:

(b) *Order.* (1) During the period beginning at 12:01 a. m., P. s. t., June 13, 1956, and ending at 12:01 a. m., P. s. t., November 1, 1956, no shipper shall ship any package or container of Climax plums unless such plums grade at least U. S. No. 1 with a total tolerance of five (5) percent for defects not considered serious damage in addition to the tolerances permitted for such grade, and

(i) If the plums are packed in a standard basket, they are of a size not smaller than a size that will pack a 4 x 5 standard pack;

(ii) If the plums are packed in a special plum box, they are of a size not smaller than a size that will pack a 7-row standard pack; or

(iii) If the plus are packed in any container other than a standard basket or special plum box, ninety (90) percent, by count, of the plums measure $1^{19}/_{16}$ inches in diameter and of the remainder of the plums none measures less than $1^{7}/_{16}$ inches in diameter: *Provided*, That no lot of plums shall be considered as failing to meet this requirement if one package of such plums contains not more than one (1) percent, by count, of plums that are smaller than $1^{7}/_{16}$ inches in diameter.

(2) Section 936.143 sets forth the requirements with respect to the inspection and certification of shipments of fruit covered by this section. Such section also prescribes the conditions which must be met if any shipment is to be made without prior inspection and certification. Notwithstanding that shipments may be made without inspection and certification, each shipper shall comply with all grade and size regulations applicable to the respective shipment.

(3) As used in this section, "U. S. No. 1," "serious damage," "fairly uniform in size," and "standard pack" shall have the same meaning as set forth in the revised United States Standards for plums and prunes (fresh) (§§ 51.1520 to 51.1530 of this title); "standard basket" shall mean the standard basket set forth in paragraph 1 of section 828.1 of the Agricultural Code of California; "special plum box" shall mean the special plum box set forth in section 828.15 of the Agricultural Code of California; "7-row standard pack" shall mean that the top layer of the pack contains 52 plums and all plums in the pack are of fairly uniform size; "diameter" means the shortest distance measured through the center of a plum at a right angle to a line running from the stem to the blossom end; and, except as otherwise specified, all other terms shall have the same meaning as when used in the amended marketing agreement and order.

Nothing contained herein shall be construed (1) as affecting or waiving any right, duty, obligation, or liability which has arisen or which, prior to the effective time of the provisions hereof, may arise in connection with any provision of said Plum Order 5; or (2) as releasing or extinguishing any violation of said Plum Order 5 which has occurred or which, prior to the effective time of the provisions hereof, may occur.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Dated: June 8, 1956.

# TITLE 24—HOUSING AND HOUSING CREDIT

## Chapter III — Public Housing Administration, Housing and Home Finance Agency

PART 300—GENERAL PROCEDURAL PROVISIONS

TESTIMONY OR PRODUCTION OF RECORDS BY EMPLOYEES OF PHA

§ 300.4 *Testimony or production of records by employees of the PHA—(a) Definitions and scope.* For purposes of this section, the term:

(1) "Testify" means to testify in administrative or court proceedings with respect to information obtained by a PHA employee in the course of the performance of his official duties.

(2) "Records" means any official files, documents, or other records of the PHA.

(3) "Produce records" means to produce records in administrative or court proceedings.

The procedure set forth in this section does not relate to attachment or garnishment proceedings involving debtor-employees of the PHA (19 F. R. 1851).

(b) *Approval to testify or produce records.* No employee of the PHA shall testify or produce records, whether pursuant to subpoena or subpoena duces tecum or otherwise, without the prior approval of the appropriate official designated below:

(1) The Deputy Commissioner is authorized to grant such approval in all cases.

(2) The Regional Director is authorized to grant such approval with respect to Regional Office and project employees under his jurisdiction and with respect to records in the Regional or project offices under his jurisdiction.

(c) *Submission of affidavit.* (1) Before approval to testify or to produce records will be granted, the litigant or other party in interest or his attorney shall submit an affidavit setting forth the nature of the proceeding, the administrative body or court before which the proceeding is being conducted, the parties involved, the interest of the party seeking the information and/or records, the matters with respect to which the testimony of the officer or employee is desired and/or identification of the records sought to be produced, facts as to the service of any process compelling such testimony or requiring the production of records including the time and place of appearance designated in such process, and any other pertinent facts.

(2) In cases where the testimony of a Regional Office or project employee or the production of Regional Office or project records is desired, the affidavit shall be submitted to the appropriate Regional Attorney. In cases where the testimony of a Central Office employee or the production of Central Office records is desired, the affidavit shall be submitted to the General Counsel.

(3) Approval to testify or to produce records will, in all cases, be limited to the matters set forth in the affidavit, or to such portions thereof as the PHA approving officer may deem consistent with the public interest.

(d) *Appearances by PHA employees.* (1) Whenever a PHA employee is served with a subpoena or is otherwise directed or requested to testify or to produce records, he will notify the General Counsel or the Regional Attorney, as the case may be, and if no affidavit has been submitted, the General Counsel or the Regional Attorney will notify the litigant or other party in interest or his attorney that approval to testify or produce records cannot be granted unless an affidavit is submitted in accordance with this section.

(2) Whenever a subpoena has been served and action by the approving officer has not been taken prior to the time specified in the subpoena for appearance in response thereto (whether because no affidavit was submitted or because action by the approving official on the affidavit is pending), the employee shall, unless otherwise instructed by the approving officer, appear in response to the subpoena and respectfully decline to testify or to produce records on the grounds that such action is prohibited unless approved in accordance with this section, and that no affidavit has been submitted in accordance with this section, or that action by the approving officer on such an affidavit is still pending, as the case may be.

(3) Whenever the approving officer has declined to grant approval to testify or to produce records, as to all or part of the matters covered by a subpoena, the employee shall, unless otherwise instructed by the approving officer, appear in response to the subpoena and, with the respect to those matters for which approval has not been granted, respectfully decline to testify or to produce records on the grounds that such action is prohibited unless approved in accordance with this section and that such approval has been refused.

(Sec. 8, 50 Stat. 891; 42 U. S. C. 1408)

Approved: June 5, 1956.

[SEAL] CHARLES E. SLUSSER, *Commissioner.*

[F. R. Doc. 56-4645; Filed June 12, 1956; 8:46 a. m.]

## TITLE 31—MONEY AND FINANCE: TREASURY

### Subtitle A—Office of the Secretary of the Treasury

PART 3—CLAIMS REGULATIONS

MISCELLANEOUS AMENDMENTS

1. Subparagraphs (1) and (2) of § 3.41 (a) of Title 31 are amended to read as follows:

(1) Claims arising on or after May 27, 1941, for damage to or loss or destruction of real or personal property, or for reasonable medical, hospital, or burial expenses, actually incurred on account of personal injury or death caused by the wrongful act or omission of military personnel or civilian employees of the Coast Guard while acting within the scope of their employment, except claims arising on or after January 1, 1945, which are cognizable under the Federal Tort Claims Act.

(2) Claims arising on or after May 27, 1941, for damage to or loss of real or personal property, or for reasonable medical, hospital, or burial expenses, actually incurred on account of personal injury or death although not shown to have been caused by any particular act or omission of military personnel or civilian employees of the Coast Guard while acting within the scope of their employment if otherwise incident to non-combat activities of the Coast Guard.

2. Paragraph (a) of § 3.42 of Title 31 is amended by deleting subparagraphs (1), (2), (3), (4), and (5) and by substituting therefor the following:

(1) Any claim for damage, loss, destruction, injury, or death which was proximately caused, in whole or in part, by any negligence or wrongful act on the part of the claimant, his agent, or his employee.

(2) Any claim for damages on account of personal injury or death, other than for reasonable medical, hospital, and burial expenses actually incurred as a result thereof.

(3) Any claim for reimbursement for medical or hospital services furnished at the expense of the United States or, in the case of burial, for such portion of the expense thereof as may be otherwise paid by the United States.

(4) Any claim for personal injury or death of military personnel or civilian employees of the Coast Guard if such injury or death occurs incident to their service.

(5) Any claim of either military or civilian personnel of the Coast Guard for damages to, or loss, destruction, capture, or abandonment of, personal property which occurred as an incident to their service and which are administered under the so-called Coast Guard Personnel Claims Act (63 Stat. 534; 14 U. S. C. 490) and the Coast Guard Comptroller Manual.

(6) Any claim arising on or after January 1, 1945, the cause of which has been determined to be the negligent or wrongful act or omission of an employee of the Government (as defined in § 3.1 (f)) while acting within the scope of his office or employment and which is in all other respects within the cognizance of the Federal Tort Claims Act.

(7) Any foreign claim for damage, injury or death caused by the Coast Guard or personnel of the Coast Guard arising at any time while the Coast Guard shall be operating as a part of the Navy and which are administered under the act of January 2, 1942, 55 Stat. 880, as amended by the act of April 22, 1943, 57 Stat. 66 (31 U. S. C. 224d–i).

(8) Any admiralty claims for damages caused by a Coast Guard vessel arising at any time while the Coast Guard shall be operating as a part of the Navy and which are administered under the act of July 3, 1944, 58 Stat. 726 (46 U. S. C. 797) and the act of December 5, 1945, 59 Stat. 596 (34 U. S. C. 600a–b).

(9) Any claim for damages to or loss or destruction of property founded in contract, express or implied, with the exception of claims arising from the bailment of personal property to the Government and from the use and occupancy of real property as set forth in §§ 3.47 and 3.48.

(10) Any claim for the rent of real or personal property.

3. The first sentence of § 3.50 of Title 31 is amended to read as follows:

§ 3.50 *Other non-combat activities.* As provided in § 3.41 (a) (2) claims for damage to or loss or destruction of, property, or for personal injury or death, although not shown to have been caused by any particular act or omission of military personnel or civilian employees of the Coast Guard while acting within the scope of their employment, are payable under the provisions of this subpart if otherwise incident to non-combat activities of the Coast Guard. * * *

(R. S. 161, sec. 2, 42 Stat. 1066, 57 Stat. 372, as amended; 5 U. S. C. 22, 31 U. S. C. 251, 223 b–d)

[SEAL] DAVID W. KENDALL, *Acting Secretary of the Treasury.*

[F. R. Doc. 56-4656; Filed, June 12, 1956; 8:48 a. m.]

## TITLE 32—NATIONAL DEFENSE

### Chapter XIV—The Renegotiation Board

Subchapter B—Renegotiation Board Regulations Under the 1951 Act

PART 1453—MANDATORY EXEMPTIONS FROM RENEGOTIATION

CONTRACTS THAT DO NOT HAVE DIRECT AND IMMEDIATE CONNECTION WITH NATIONAL DEFENSE

Section 1453.5 (b) is amended by deleting subparagraph (16), *Bureau of Reclamation*, and inserting in lieu thereof the following:

(16) *Bureau of Reclamation.* All contracts to the extent that they obligate funds of the Bureau of Reclamation, and were entered into on or before June 30, 1950; all contracts to the extent that they obligate funds of the Bureau of Reclamation, and were entered into after June 30, 1950, and (i) obligated funds appropriated or allotted for purposes other than for one of the projects, or units of the Missouri River Basin project, on List A set forth below, or (ii) in the case of any project or unit on List A, were for work or materials required for the construction or operation of irrigation works located elsewhere than on the site of the main power facility, as determined by the Bureau of Reclamation; and all contracts to the extent that they obligate funds of the Bureau of Reclamation appropriated or allotted for one of the projects or units on List A marked with an asterisk, and were entered into after December 31, 1954. The Board has determined that contracts related to the following projects and units on List A are directly and immediately connected with defense, and therefore cannot be exempted, except to the extent indicated above, for the reason that such projects and units have as part of their purposes the increase of power facilities for defense. New projects having as part of their purpose the increase of power facilities for defense may be added to the list if authorized and approved.

LIST A

| *Project* | *Location* |
|---|---|
| *Boise Project, Anderson Ranch Dam | Idaho. |
| Boulder Canyon Project Hoover Dam and Power Plant | Arizona-Nevada. |
| Central Valley Project | California. |
| Colorado-Big Thompson Project | Colorado. |
| *Columbia Basin Project | Washington. |
| Davis Dam Project (Parker Davis Project) | Arizona-Nevada. |
| *Eklutna Project | Alaska. |
| Fort Peck Project | Montana. |
| *Hungry Horse Project | Montana. |
| *Kendrick Project | Wyoming. |
| Missouri River Basin Project: | |
| *Angostura Unit | South Dakota. |
| *Boysen Unit | Wyoming. |
| *Canyon Ferry Unit | Montana. |
| *Kortez Unit | Wyoming. |
| *Missouri Diversion Unit Transmission Division | Montana. |
| Glendo Unit | Wyoming. |
| Yellowtail Unit | Montana. |
| Palisades Project | Idaho. |
| Rio Grande Project, Power Division | New Mexico-Texas. |
| *Shoshone Project | Wyoming. |
| *Weber Basin Project | Utah. |
| *Yakima Project, Kennewick Division | Washington. |

(Sec. 109, 65 Stat. 22; 50 U. S. C. App. Sup. 1219)

Dated: June 8, 1956.

THOMAS COGGESHALL, *Chairman.*

## TITLE 33—NAVIGATION AND NAVIGABLE WATERS

### Chapter I—Coast Guard, Department of the Treasury

Subchapter A—General

[CGFR 56-22]

PART 8—REGULATIONS, UNITED STATES COAST GUARD RESERVE

MISCELLANEOUS AMENDMENTS

By virtue of the authority contained in the act of July 9, 1952 (66 Stat. 481), as amended, and Title 14, U. S. Code, the following amendments are hereby prescribed and shall become effective upon publication in the FEDERAL REGISTER.

GENERAL—ADMINISTRATION AND ORGANIZATION

POLICY

1. A new sentence is hereby added to paragraph (a) of § 8.1106 as follows: "The Commandant shall designate which training units of the Coast Guard Reserve are units of the Ready Reserve."

PROCUREMENT

GENERAL REQUIREMENTS

2. A new paragraph (e) is hereby added to § 8.2102 as follows:

(e) Prior to his taking of the oath, each applicant shall have explained to him the military obligation which he will be undertaking by his appointment or enlistment and the amount and degree of participation required by law and these regulations in this part.

SPECIAL ENLISTMENT PROGRAMS

3. A new § 8.2401 is hereby added as follows:

§ 8.2401 *Two year active duty programs.* (a) Any male person who has not been ordered to report for induction into the Armed Forces under the Universal Military Training and Service Act, as amended, and who has been found to be qualified to perform active duty in the Coast Guard, and who has reached the age of 17 years but has not reached the age of 26 years may be enlisted in the Coast Guard Reserve for a period of 6 years under the provisions of section 261 of the Armed Forces Reserve Act, as amended.

(b) The Commandant may restrict enlistments under paragraph (a) of this section to any age group within the age limits prescribed therein.

(c) Each person enlisted pursuant to this section shall be initially placed in the Ready Reserve and shall be required during his 6 year enlistment to:

(1) Perform active duty in the Coast Guard for a period of not more than two years unless sooner released by the Commandant on grounds of personal hardship or as the needs of the service may require.

(2) Unless sooner transferred to the Standby Reserve under the screening regulations, participate satisfactorily in an accredited training program of the Ready Reserve while on inactive duty for a period which, when added to the period of active duty performed, totals 5 years. The remainder of his 6 year enlistment shall be as a member of the Standby Reserve unless he agrees to remain in the Ready Reserve.

(d) The Commandant shall determine the time within which the two-year period of active duty must be performed. Each applicant shall be informed thereof prior to his enlistment.

4. A new § 8.2402 is hereby added as follows:

§ 8.2402 *Three to six months training program.* (a) When authorized by law and whenever the President so provides, any of the following male persons who are physically, mentally, and otherwise qualified for service in the Coast Guard may be enlisted in units of the Ready Reserve pursuant to section 262 of the Armed Forces Reserve Act, as amended, under such regulations as may be prescribed and within such quotas as may be approved by the Secretary of Defense provided that the authorized strength of the Ready Reserve of the Coast Guard is not exceeded thereby:

(1) Applicants who are under the age of 18½ years who have not been ordered to report for induction into the Armed Forces under the Universal Military Training and Service Act, as amended.

(2) Under such regulations as the President may prescribe, applicants who do not meet the requirements of subparagraph (1) of this paragraph but who

have critical skills and are engaged in civilian occupations in any critical defense-supporting industry or in any research activity affecting national defense.

(b) Each applicant accepted under this section shall be enlisted for a period of 8 years. He shall be initially placed in the Ready Reserve and shall be required during his 8 year enlistment to:

(1) Perform an initial period of active duty for training of not less than three nor more than six months. The length of such training shall be as prescribed by the Secretary of Defense.

(2) Unless sooner transferred to the Standby Reserve under the screening regulations, participate satisfactorily in an accredited training program of the Ready Reserve while on inactive duty for a period which, when added to the initial period of active duty for training, totals eight years.

(c) The Commandant is hereby empowered to exercise and implement any authority conferred upon the Secretary of the Treasury as may be contained in the authorization, regulations, and approval referred to in paragraph (a) of this section.

5. A new subdivision (vii) is hereby added to § 8.4407 (d) (2) as follows:

(vii) Any other official chosen by the voters of an entire state, territory or possession.

6. A new sentence is hereby added to subdivision (i) of § 8.4407 (d) (8) as follows: "At such time as the Reservist ceases to qualify for consideration as an apprentice, he shall be considered for transfer to the Ready Reserve."

(Sec. 4, 62 Stat. 605, as amended, 63 Stat. 545, sec. 251, 66 Stat. 495; 50 U. S. C. App. 454, 14 U. S. C. 635, 50 U. S. C. 1002)

Approved: May 24, 1956.

[SEAL] DAVID W. KENDALL,
*Acting Secretary of the Treasury.*

Concurred in: May 31, 1956.

ALBERT PRATT,
*Acting Secretary of the Navy.*

## TITLE 47—TELECOMMUNICATION

### Chapter I—Federal Communications Commission

[Rules amdt. 3-14]

PART 3—RADIO BROADCAST SERVICES

EDITORIAL CHANGES

The Commission has under consideration the desirability of making certain editorial changes in Part 3 of its rules and regulations.

The amendments adopted herein are editorial in nature, and, therefore, prior publication of Notice of Proposed Rule Making under the provisions of section 4 of the Administrative Procedure Act is unnecessary, and the amendments may become effective immediately.

The amendments adopted herein are issued pursuant to authority contained in sections 4 (i), 5 (d) (1) and 303 (r) of the Communications Act of 1934, as amended, and section 0.341 (a) of the Commission's rules and regulations.

*It is ordered*, That, effective June 18, 1956, Part 3 of the Commission's rules and regulations is revised as set forth below:

1. Section 3.46 is amended by changing the word "small" in the last sentence of paragraph (c) to "shall". Section 3.46 (c) as amended reads as follows:

(c) The station equipment shall be so operated, tuned, and adjusted that emissions are not radiated outside the authorized band which cause or are capable of causing interference to the communications of other stations. Spurious emissions, including radio frequency harmonics, and audio frequency harmonics, shall be maintained at as low a level as practicable at all times in accordance with good engineering practice. In the event interference is caused to other stations by modulating frequencies in excess of 7500 cycles or spurious emissions, including radio frequency harmonics and audio frequency harmonics outside the band plus or minus 7500 cycles of the authorized carrier frequency, the licensee or permittee shall install equipment or make adjustments which limit the emissions to within this band or to such an extent above 7500 cycles as to reduce the interference to where it is no longer objectionable.

2. Section 3.606 is amended by adding Ch. 19 to Houghton, Michigan. This channel was inadvertently omitted when the January 1956 edition was printed.

3. Section 3.606 is amended by changing the spelling of "Crousville," Tennessee to "Crossville".

(Sec. 4, 48 Stat. 1066, as amended; 47 U. S. C. 154. Interpret or apply sec. 303, 48 Stat. 1082, as amended; sec. 5, 66 Stat. 713; 47 U. S. C. 303, 155)

Adopted: June 7, 1956.

Released: June 8, 1956.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
*Secretary.*

## DEPARTMENT OF AGRICULTURE

### Agricultural Marketing Service

[7 CFR Part 52]

CANNED CLINGSTONE AND FREESTONE PEACHES

UNITED STATES STANDARDS FOR GRADES

ADDITIONAL TIME FOR FILING DATA, VIEWS, OR ARGUMENTS

On May 2, 1956, proposed revisions of the United States Standards for Grades of Canned Clingstone Peaches and Canned Freestone Peaches were published in the FEDERAL REGISTER (21 F. R. 2882, 2889).

In consideration of comments and suggestions received indicating the need for further study of the proposals, notice is hereby given of an additional period of time until December 31, 1956, within which written data, views, or arguments may be submitted by interested parties for consideration in connection with the aforesaid proposed revisions of the United States Standards for Grades of Canned Clingstone Peaches and Canned Freestone Peaches.

Dated: June 8, 1956.

[SEAL] ROY W. LENNARTSON,
*Deputy Administrator, Marketing Services.*

# NOTICES

## DEPARTMENT OF THE INTERIOR

### Bureau of Land Management

[Classification No. 56-1]

OREGON

SMALL TRACT OPENING

MAY 31, 1956.

1. Pursuant to authority delegated to me by Bureau Order No. 541, dated April 21, 1954 (19 F. R. 2473), as amended, I hereby classify the following described revested Oregon and California Railroad lands totaling 120 acres in Jackson County, Oregon, as suitable for lease for homesite purposes under the Small Tract Act of June 1, 1938 (52 Stat. 609; 43 U. S. C. 682a), as amended, subject to the provisions of section 24 of the Federal Power Act, as amended.

WILLAMETTE MERIDIAN, OREGON

T. 39 S., R. 3 E.,
Sec. 11: W½NW¼, NW¼SW¼.

2. Classification of the above described lands by this order segregates them from all appropriations, including locations under the mining laws, except as to applications under the Small Tract Act and applications under the mineral leasing laws.

Lots Nos. 1, 2, and 11 in Tract B are embraced in valid existing Special Land Use Permits issued prior to the order restoring the land from power site reserves. These lots are not by this order opened for application under the Small Tract Act.

3. The lots available for lease are located near the head of Keene Creek of the Klamath River drainage, about twenty-one miles east of Ashland, Oregon, via seven miles of dirt road going north from State Highway No. 66 at Greensprings Summit. The lots are situated on the east shore of Hyatt Reservoir. The topography is gently west sloping with steeper slopes lying east of the tracts. The elevation is about 5,025 feet above sea level. The soil is gray brown, silt loam and vegetation consists of Douglas fir and species of pine with an undercover of various brush and grasses.

Domestic water is available from existing springs for some lots and other water may be developed by wells. The area is remote from city schools, stores, and other facilities. The nearest general marketing center is Ashland. Rural schools and country stores are available within a radius of ten miles. The snowfall is heavy and generally the land is inaccessible by ordinary means of travel during the winter and early spring months. There is no evidence of metallic or nonmetallic minerals.

4. Eighteen individual lots in two tracts have been marked on the ground, varying in size from 0.47 acres to 0.88 acres. A plat showing the location of each of the tracts and the lotting of them can be secured for $1.00 from the Manager, Land Office, 1001 N. E. Lloyd Boulevard, P. O. Box 3861, Portland 8, Oregon. The annual rental of each lot is $25.00. Rights-of-way for access to the lots will be reserved on adjoining public land. The United States reserves for itself, its contractors, and permittees the right to enter on the leased areas to administer the land for sustained yield timber management purposes under the act of August 28, 1937 (50 Stat. 874; 43 U. S. C. 1181a).

5. Leases will be issued for a term of three years. To maintain their rights under their leases, lessees will be required to construct substantial improvements on their lands. Failure to do so will result in nonrenewal of the lease. Leases will be renewable at the discretion of the Bureau of Land Management and the renewal leases will be subject to such terms and conditions as are deemed necessary in the light of the circumstances existing at the time of renewal.

6. Persons who have previously acquired a tract under the Small Tract Act are not qualified to lease a lot in these tracts at the drawing unless they can make a showing satisfactory to the Bureau of Land Management that the lease of another tract is warranted in the circumstances.

7. Upon allowance of an application and before the commencement of construction, it is advisable for the permittee to confer with the District Forester concerning plans and specification of improvements. The improvements referred to in paragraph 5 above must meet the following requirements:

(a) Buildings must be placed on a permanent foundation consisting of concrete, brick, pumice blocks, or stone masonry. Pitch of the roof and the size and spacing of rafters and ceiling joists must be adequate to withstand the heavy snow pack. Chimneys must be constructed from ground level and shall consist of pumice or concrete blocks, bricks, stone masonry, or comparable fire resistant materials.

(b) All buildings must be constructed in a workmanlike manner of attractive, properly finished materials in harmony with surroundings.

(c) Each dwelling must have a floor space of not less than 500 square feet and have at least two doors as a means of access.

(d) All dwellings must be provided with sanitation facilities in accordance with or better than required by the laws of the State of Oregon. Outside conveniences must be constructed flyproof with precautions provided against pollution of domestic water and the Hyatt Reservoir. All lessees must comply with laws of the State of Oregon as to fire protection, building construction, and public health. In addition, each dwelling must be provided with a 50 gallon barrel containing water for fire protection.

(e) Without special written authorization from the District Forester, no building shall be placed closer than fifteen feet from the boundaries of the leased lot area.

(f) No green trees may be cut without approval of District Forester.

(g) No burning of debris may be done during the fire season without authority of the State Forest Patrol.

8. The lots in Tracts A and B shown on the plat now filed in the Land Office, Portland, and the Bureau of Land Management, District Forester's Office, City Hall Building, Medford, Oregon, except those named in paragraph 2 above, are now open to the filing of drawing-entry cards (Form 4-775) only by persons entitled to veteran's preference.

In brief, persons entitled to such preference are, (a) honorably discharged veterans who served in the armed forces of the United States for a period of at least ninety days after September 15, 1940, (b) surviving spouse or minor orphan children of such veterans, and (c) with the consent of the veteran, the spouse of living veterans. The 90-day requirement does not apply to veterans who were discharged on account of wounds or disability incurred in the line of duty or the surviving spouse or minor children of veterans killed in the line of duty. Drawing-entry cards (Form 4-775) are available upon request from the Manager, Land Office, or the District Forester, Medford.

Drawing-entry cards will be accepted if filled out in compliance with the instructions on the form and filed with the Manager, Land Office, prior to 10:00 a. m., July 16, 1956. A drawing will be held on that date or shortly thereafter. Any person who submits more than one card will be declared ineligible to participate in the drawing. Tracts will be assigned to entrants in the order that their names are drawn. All entrants will be notified of the results of the drawing. Successful entrants will be sent copies of the lease forms (Form 4-776) with instructions as to their execution and return and as to payment of fees and rentals.

9. Inquiries concerning these lands shall be addressed to Manager, Land Office, 1001 NE. Lloyd Boulevard, P. O. Box 3861, Portland 8, Oregon.

VIRGIL T. HEATH,
*State Supervisor.*

[F. R. Doc. 56-4641; Filed, June 12, 1956; 8:45 a. m.]

ALASKA

NOTICE OF PROPOSED WITHDRAWAL AND RESERVATION OF LANDS

The Territorial Department of Lands has filed an application, Serial No. Anchorage 029775, for the withdrawal of the lands described below, from all forms of appropriation under the public land laws including the mining laws.

The applicant desires the land for public service sites for public recreational and camp ground purposes.

For a period of 60 days from the date of publication of this notice, persons having cause may present their objections in writing to the undersigned official of the Bureau of Land Management, Department of the Interior, Box 480, Anchorage, Alaska.

If circumstances warrant it, a public hearing will be held at a convenient time and place, which will be announced.

The determination of the Secretary on the application will be published in the FEDERAL REGISTER. A separate notice will be sent to each interested party of record.

The lands involved in the application are:

1. Lot 3 (22.8 acres) Sec. 16, T. 18 N., R. 1 E., S. M.
2. E½NE¼NE¼NW¼ (5 acres) Sec. 15, T. 18 N., R. 1 E., S. M.
3. Lot 1 (49.57 acres) Sec. 13, T. 17 N., R. 1 E., S. M.
4. What will be when surveyed, the land portion of the N½SE¼, Sec. 12, T. 17 N., R. 4 W., S. M. (approximately 40 acres).

ROGER R. ROBINSON,
*Operations Supervisor.*

[F R. Doc. 56-4242; Filed, June 12, 1956; 8:45 a. m.]

ALASKA

NOTICE OF PROPOSED WITHDRAWAL AND RESERVATION OF LANDS

The Territorial Department of Lands has filed an application, Serial No. Fairbanks 013100, for the withdrawal of the lands described below, from all forms of appropriation under the public land laws including the mining and mineral leasing laws and the Materials Act.

The applicant desires the land for public service sites for public recreational and camp ground purposes.

For a period of 60 days from the date of publication of this notice, persons having cause may present their objections in writing to the undersigned official of the Bureau of Land Management, Department of the Interior, Box 480, Anchorage, Alaska.

If circumstances warrant it, a public hearing will be held at a convenient time and place, which will be announced.

The determination of the Secretary on the application will be published in the FEDERAL REGISTER. A separate notice will be sent to each interested party of record.

The lands involved in the application are:

PAXSON LAKE AREA

TRACT 1 (SEVEN MILE LAKE)

A tract of unsurveyed land located on the south shore of an un-named lake commonly known as "Seven Mile" Lake at approximate latitude 63°5'40" north and longitude 145°37'00" west, described as follows: Starting at Point No. 1 located on a point on the south shore of the lake; thence in a westerly direction along the shore of the lake a distance of 7½ chains to Point No. 2; thence in a southerly direction a distance of 7½ chains to Point No. 3; thence in an easterly direction a distance of 7½ chains to Point No. 4; thence in a northerly direction a distance of approximately 7½ chains to point of beginning on the shore of the lake, containing approximately 5 acres.

BIG DELTA AREA

TRACT B (QUARTZ AND LOST LAKES)

Fairbanks Meridian:
Township 8 South, Range 10 East,
Section 19: (unsurveyed), that portion SW¼SE¼ and E½SE¼SW¼ above mean high water.

Containing approximately 45 acres.

ROGER R. ROBINSON,
*Operations Supervisor.*

## DEPARTMENT OF AGRICULTURE

### Office of the Secretary

ARIZONA

DISASTER ASSISTANCE; DELINEATION OF DROUGHT AREA

Pursuant to Public Law 875, 81st Congress, the President determined on May 24, 1956, that a major disaster occasioned by drought existed in the State of Arizona.

Pursuant to the authority delegated to me by the Administrator, Federal Civil Defense Administration (18 F. R. 4609; 19 F. R. 2148, 5364; 20 F. R. 4664), and for the purposes of section 2 (d) of Public Law 38, 81st Congress, as amended by Public Law 115, 83d Congress, and section 301 of Public Law 480, 83d Congress, the following areas in the State of Arizona were determined on May 24, 1956, to be affected by the above-mentioned major disaster.

Arizona: Cochise, Graham, Mohave, Yavapai.

That part of Coconino County lying North and West of the Colorado River.

Done at Washington, D. C., this 7th day of June 1956.

[SEAL] TRUE D. MORSE,
*Acting Secretary.*

[F. R. Doc. 56-4652; Filed, June 12, 1956; 8:47 a. m.]

MICHIGAN

DESIGNATION OF AREAS FOR PRODUCTION EMERGENCY LOANS

For the purpose of making production emergency loans pursuant to section 2 (a) of Public Law 38, 81st Congress (12 U. S. C. 1148a-2 (a)), as amended, it has been determined that in the following counties in the State of Michigan a production disaster has caused a need for agricultural credit not readily available from commercial banks, cooperative lending agencies, or other responsible sources.

Michigan: Clinton, Genesee, Gratiot, Saginaw, Shiawassee.

Pursuant to the authority set forth above, production emergency loans will not be made in such counties after December 31, 1956, except to applicants who previously received such assistance and who can qualify under established policies and procedures.

Done at Washington, D. C., this 7th day of June 1956.

[SEAL] TRUE D. MORSE,
*Acting Secretary.*

## DEPARTMENT OF COMMERCE

### Federal Maritime Board

REDERIAKTIEBOLAGET RAGNE ET AL.

NOTICE OF AGREEMENT FILED FOR APPROVAL

Notice is hereby given that the following described agreement has been filed with the Board for approval pursuant to section 15 of the Shipping Act, 1916, 39 Stat. 733, 46 U. S. C. 814.

Agreement No. 8036-1, between Rederiaktiebolaget Ragne and And. Smith Rederiaktiebolag modifies approved Swedish Chicago Line joint service agreement (No. 8036) by substituting the name of And. Smith Rederiaktiebolag for Rederiaktiebolaget Ferlef as a party to the joint service. Agreement No. 8036 covers the trade between Newfoundland ports, United States and Canadian ports on the Great Lakes, St. Lawrence River and adjacent waters (but not including transportation within the purview of the coastwise laws of the United States), and Swedish, Norwegian, Danish, Finnish, Russian and other Baltic ports; and ports in England, Scotland, Wales and Ireland.

Interested parties may inspect this agreement and obtain copies thereof at the Regulation Office, Federal Maritime Board, Washington, D. C., and may submit, within 20 days after publication of this notice in the FEDERAL REGISTER, written statements with reference to the agreement and their position as to approval, disapproval, or modification, together with request for hearing should such hearing be desired.

Dated: June 8, 1956.

By order of the Federal Maritime Board.

[SEAL] GEO. A. VIEHMANN,
*Assistant Secretary.*

[F. R. Doc. 56-4679; Filed, June 12, 1956; 8:53 a. m.]

ELLERMAN & BUCKNALL STEAMSHIP ASSOCIATED LINES AND BULL INSULAR LINE, INC.

NOTICE OF AGREEMENT FILED FOR APPROVAL

Notice is hereby given that the following described agreement has been filed with the Board for approval pursuant to section 15 of the Shipping Act, 1916, 39 Stat. 733, 46 U. S. C. 814.

Agreement No. 8088, between the carriers comprising the Ellerman & Bucknall Steamship Associated Lines joint service (American and Indian Line), and Bull Insular Line, Inc., covers the transportation of gunny sacks, hessian cloth and jute under through bills of lading from India and Pakistan to Puerto Rico, with transhipment at New York, Baltimore or Philadelphia. Agreement No. 8088, upon approval, will supersede and cancel approved transhipment agreement No. 8014.

Interested parties may inspect this agreement and obtain copies thereof at the Regulation Office, Federal Maritime Board, Washington, D. C., and may submit, within 20 days after publication of this notice in the FEDERAL REGISTER, written statements with reference to the agreement and their position as to approval, disapproval, or modification, together with request for hearing should such hearing be desired.

Dated: June 8, 1956.

By order of the Federal Maritime Board.

[SEAL] GEO. A. VIEHMANN,
*Assistant Secretary.*

[F. R. Doc. 56-4680; Filed, June 12, 1956; 8:53 a. m.]

SWEDISH CHICAGO LINE ET AL.

NOTICE OF AGREEMENT FILED FOR APPROVAL

Notice is hereby given that the following described agreement has been filed with the Board for approval pursuant to section 15 of the Shipping Act, 1916, 39 Stat. 733, 46 U. S. C. 814.

Agreement No. 8077, between the carriers comprising the Swedish Chicago Line joint service, the carriers comprising the Fjell Line joint service, and Oranje Lijn (Maatschappij Zeetransport) N. V., pertains to the trade between ports of the Great Lakes of the United States and Canada, the St. Lawrence River and Seaway, Newfoundland and the Canadian Maritimes, and ports in Ireland, the United Kingdom and Continental Europe. The agreement provides that Swedish Chicago Line shall not directly or indirectly operate as a common or private carrier of cargo to or from the ports of London or Glasgow, except westbound from London as a common carrier of automobiles and tractors only; that neither Fjell Line nor Oranje Line shall directly or indirectly operate as a common or private carrier of cargo to or from the ports of Liverpool, Manchester, the Bristol Channel or Ireland; and that the parties will consult and cooperate so as to avoid conflicting sailings westbound from Copenhagen.

Interested parties may inspect this agreement and obtain copies thereof at the Regulation Office, Federal Maritime Board, Washington, D. C., and may submit, within 20 days after publication of this notice in the FEDERAL REGISTER, written statements with reference to the agreement and their position as to approval, disapproval, or modification, together with request for hearing should such hearing be desired.

Dated: June 8, 1956.

By order of the Federal Maritime Board.

*Assistant Secretary.*

[F. R. Doc. 56-4681; Filed, June 12, 1956; 8:53 a. m.]

OZEAN-LINIE G. M. B. H. AND HUGO STINNES O. H.

NOTICE OF AGREEMENT FILED WITH THE BOARD FOR APPROVAL

Notice is hereby given that the following described agreement has been filed with the Board for approval pursuant to section 15 of the Shipping Act, 1916, 39 Stat. 733, 46 U. S. C. 814.

Agreement No. 8089 between Ozean-Linie G. m. b. H. and Hugo Stinnes O. H., provides for the establishment and maintenance of a joint cargo service with limited passenger accommodations under the trade name "Ozean/Stinnes-Lines", in the trades between ports of the United States and Europe (not including transportation within the purview of the coastwise laws of the United States). This agreement, upon approval, will supersede and cancel present joint service agreement No. 7839, between Ozean Linie G. m. b. H. and Hugo Stinnes O. H./"Brenntag", Brennstoff-, Chemikalien und Transport G. m. b. H., in the same trades.

Interested parties may inspect this agreement and obtain copies thereof at the Regulation Office, Federal Maritime Board, Washington, D. C., and may submit, within 20 days after publication of this notice in the FEDERAL REGISTER, written statements with reference to the agreement and their position as to approval, disapproval, or modification, together with request for hearing should such hearing be desired.

Dated: June 8, 1956.

By order of the Federal Maritime Board.

## FEDERAL COMMUNICATIONS COMMISSION

[Docket No. 11227; FCC 56M-569]

MUNICIPAL BROADCASTING SYSTEM (WNYC) AND MIDWEST RADIO-TELEVISION, INC. (WCCO)

ORDER SCHEDULING HEARING

In re application of City of New York Municipal Broadcasting System (WNYC), New York, New York, Docket No. 11227, File No. BSSA-266; for special service authorization to operate additional hours from 6:00 a. m. (e. s. t.) to sunrise New York City and from sunset Minneapolis, Minnesota, to 10:00 p. m. (e. s. t.)

In re petition of Midwest Radio-Television, Inc. (WCCO), Minneapolis, Minnesota, to cancel SSA and deny or withhold action on application for extension of SSA without hearing; and, in any event, to hold any hearing on limited, noncomparative issues.

Pursuant to oral request of counsel for City of New York Municipal Broadcasting System (WNYC) and for Midwest Radio-Television, Inc. (WCCO):

*It is ordered,* This 6th day of June 1956, that the further hearing in the above-entitled matter will commence at 2 p. m., on June 26, 1956, in Washington, D. C.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
*Secretary.*

[F. R. Doc. 56-4660; Filed, June 12, 1956; 8:49 a. m.]

[Docket No. 11256 etc.; FCC 56-523]

GREAT SOUTH BAY BROADCASTING CO., INC., ET AL.

ORDER DESIGNATING APPLICATIONS FOR CONSOLIDATED HEARING ON STATED ISSUES

In re applications of Great South Bay Broadcasting Company, Inc., Islip, New York, Docket No. 11256, File No. BP-9200; S. Richard Stern and Jimmey S. Stern, d/b as Stern Broadcasting Company, Ridgewood, New Jersey, Docket No. 11731, File No. BP-9713; G. Russell Chambers, tr/as The Eastern Shore Broadcasting Company (WDVM), Pocomoke City, Maryland; Docket No. 11738, File No. BP-10114; American Family Broadcasting Company, Ridgewood, New Jersey, Docket No. 11733, File No. BP-10214; for construction permits.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 6th day of June 1956;

The Commission having under consideration the above-captioned applications for construction permits for new standard broadcast stations to operate on 540 kilocycles, daytime only, by Great South Bay Broadcasting Company, Inc., at Islip, New York, with a power of 250 watts; by S. Richard Stern and Jimmey S. Stern, d/b as Stern Broadcasting Company, at Ridgewood, New Jersey with a power of 1 kilowatt, directional antenna; and by the American Family Broadcasting Company at Ridgewood, New Jersey with a power of 500 watts, directional antenna; and for a construction permit by G. Russell Chambers, tr/as The Eastern Shore Broadcasting Company, to increase the power of Station WDVM, Pocomoke City, Maryland, from 500 watts to 1 kilowatt, daytime only, on 540 kilocycles; and

It appearing that each of the applicants is legally, technically, financially and otherwise qualified, except as may appear from the issues specified below, to construct and operate its proposed station, but that the proposals are interlinked with mutual interference problems; that the proposals of The American Family Broadcasting Company, Stern Broadcasting Company and Great South Bay Broadcasting Company, Inc., would result in mutually destructive interference; that the Stern proposal would receive interference from the existing operation of Station WDVM (The Eastern Shore Broadcasting Company); that the proposal of the American Family Broadcasting Company would involve mutual interference with the proposal of The Eastern Shore Broadcasting Company; that the proposals of the Great South Bay Broadcasting Company, Inc. and The Eastern Shore Broadcasting Company would involve mutual interference in addition to that which each agreed to accept from the other when the present operation of Eastern Shore Broadcasting Company (WDVM) was authorized on January 19, 1955, for 500 watts, File No. BP-9484; and that the proposed operation of Station WDVM is not in compliance with the 1950 North American Regional Broadcast Agreement since it does not afford adequate protection to Station CBK, Watrous, Saskatchewan, Canada, the Class I-A assignment on this frequency; and

It further appearing that, pursuant to section 309 (b) of the Communications Act of 1934, as amended, the subject applicants were notified by letter dated January 27, 1956, of the aforementioned deficiencies and that the Commission was unable to conclude that a grant of any of these applications would be in the public interest; and

It further appearing that a timely reply was received from each of the applicants; and

It further appearing that the American Family Broadcasting Company amended its application on February 27, 1956 to reduce power from 1 kilowatt to 500 watts and to change the directional antenna pattern, and indicated that as a result slight mutual interference with the existing operation of Station WDVM would obtain; and

It further appearing that the American Family Broadcasting Company submitted, on May 15, 1956, additional financial data, from which it has been determined that the applicant is financially qualified to construct and operate its proposed station; and

It further appearing that in the event that the proposal of WDVM should receive favorable action in the hearing provided for below, it should be placed in the pending file until ratification and entry into force of the North American Regional Broadcast Agreement.

It further appearing that in view of the foregoing the Commission is of the

opinion that a hearing on these applications is necessary;

*It is ordered,* That, pursuant to section 309 (b) of the Communications Act of 1934, as amended, the said applications are designated for hearing in a consolidated proceeding, at a time and place to be specified in a subsequent order, upon the following issues:

1. To determine the areas and populations which would receive primary service from the operations proposed by Great South Bay Broadcasting Company, Inc.; Stern Broadcasting Company; and the American Family Broadcasting Company, and the availability of other primary service to such areas and populations.

2. To determine the areas and populations which may be expected to gain or lose primary service from the proposed operation of Station WDVM, and the availability of other primary service to such areas and populations.

3. To determine whether the operation proposed by the American Family Broadcasting Company would cause interference to the existing operation of Station WDVM, Pocomoke City, Maryland; or any other existing standard broadcast station and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other primary service to such areas and populations.

4. To determine in light of section 307 (b) of the Communications Act of 1934, as amended, which of the operations proposed in the above-captioned applications would best provide a fair, efficient and equitable distribution of radio service.

5. To determine which of the operations proposed by the American Family Broadcasting Company and the Stern Broadcasting Company would better serve the public interest in light of the evidence adduced under the foregoing issues and record made with respect to the significant differences between the applicants as to:

(a) The background and experience of each applicant to own and operate its proposed station.

(b) The proposal of each applicant with respect to the management and operation of its proposed station.

(c) The programming service proposed in each application.

6. To determine, in light of the evidence adduced pursuant to the foregoing issues, which, if any, of the applications should be granted.

*It is further ordered,* That in the event the proposal of WDVM should receive favorable action in the hearing provided for above, said application will be placed in the pending file until ratification and entry into force of the 1950 North American Regional Broadcast Agreement.

Released: June 8, 1956.

## JOE TOM EASLEY

### ORDER DESIGNATING APPLICATION FOR HEARING ON STATED ISSUES

In re application of Joe Tom Easley, Eagle Pass, Texas, Docket No. 11730, File No. BFP-262; for permit to transmit programs to a foreign radio station.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 6th day of June 1956;

The Commission having under consideration the above-captioned application of Joe Tom Easley for a permit to transmit radio programs from Eagle Pass, Texas to Station XEMU, Piedras Negras, Coahuilla, Mexico, File No. BFP-262; and

It appearing that the applicant is technically, financially and otherwise qualified, except as may appear from the issues specified below, to transmit programs as proposed, but since it appears that he is a representative of an alien, a grant of his application is precluded by the provisions of section 310 of the Communications Act of 1934, as amended which provides that an alien or the representative of an alien may not be a licensee of this Commission; and

It further appearing that, pursuant to section 309 (b) of the Communications Act of 1934, as amended, the subject applicant was advised by letter, dated March 23, 1956, of the aforementioned deficiency and that the Commission was unable to grant the application; and

It further appearing that the applicant filed a reply on April 25, 1956, in which he stated that "I am not a representative of an alien or a foreign government"; that "I am the representative of Radio Station XEMU"; and

It further appearing that section 310 (a) (1) of the act provides that station licenses "required hereby" shall not be granted to or held by any alien or the representative of any alien; that section 310 of the act is construed as applicable to authorizations under section 325 of the act, pursuant to which the subject application was filed; that the applicant is a representative of Station XEMU, which is licensed to Alfonso L. Bres; that franchises to operate broadcast stations in Mexico may be granted only to Mexican nationals by birth or to Mexican corporations; and it would therefore appear that the subject applicant is a representative of an alien; and

It further appearing that in view of the foregoing we are of the opinion that a hearing is necessary;

*It is ordered,* That, pursuant to section 309 (b) of the Communications Act of 1934, as amended, that the subject application is designated for hearing, at a time and place to be specified in a subsequent order, upon the following issues:

1. To determine whether the applicant is the representative of an alien.

2. To determine whether, in the light of evidence adduced in response to the foregoing issue, a grant of the application would serve the public interest.

Released: June 8, 1956.

[Docket No. 11734; FCC 56-525]

## 1360 BROADCASTING CO., INC. (WEBB)

### MEMORANDUM OPINION AND ORDER DESIGNATING APPLICATION FOR HEARING ON STATED ISSUES

In re application of 1360 Broadcasting Company, Inc. (WEBB), Dundalk, Maryland, Docket No. 11734, File No. BP-10275; for construction permit.

1. The Commission has before it for consideration a "Petition For Reconsideration and Protest" filed on May 10, 1956, pursuant to sections 309 (c) and 405 of the Communications Act of 1934, as amended, by the Southern Maryland Broadcasters Incorporated, licensee of Station WKIK, Leonardtown, Maryland (1370 kc, 1 kw, D) and directed to the Commission's action of April 11, 1956, in granting without a hearing the above-captioned application of the 1360 Broadcasting Company for a construction permit to increase the daytime power of Station WEBB, Baltimore, Maryland from 1 to 5 kilowatts; and an "Opposition To Petition For Reconsideration And Protest" filed on May 21, 1956, by 1360 Broadcasting Company, Inc. (hereinafter referred to as WEBB).

2. The above-captioned application was granted after a determination had been made by the Commission that the proposed operation of Station WEBB would not cause objectionable interference to any existing or proposed station.

3. In the subject petition and supporting engineering affidavit, the Southern Maryland Broadcasters Incorporated (hereinafter referred to as WKIK) alleges that the distance between the WKIK and WEBB transmitter sites is 68.6 miles; that the path between the transmitter sites lies mostly over land; that each station provides substantial coverage to the "eastern shore" of the Chesapeake Bay area over propagation paths of high conductivity; that the total land area within the WKIK 0.5 mv/m contour is 1,954 square miles, with a total population of 103,097; that the present operation of WEBB causes interference within the normally protected service area of WKIK, which interference area consists of 91 square miles of land and has a population of 6,519 representing 6.3 percent of the population within WKIK's normally protected contour (0.5 mv/m); and that the proposed operation of Station WEBB would increase the land area interference to 279 square miles having a total population of 19,164 and representing 18.6 percent of the population within WKIK's normally protected contour (0.5 mv/m). In these circumstances, WKIK requests that the Commission reconsider its action in granting the subject WEBB application; that said application be designated for hearing; and that WKIK be made a party to the proceeding.

4. WKIK has specified the following issues on which it desires an opportunity at a hearing to present evidence:

1. To determine whether operation of Station WEBB as proposed would result in objectionable interference to Station WKIK and the availability of other broadcast services to such areas;

2. To determine whether WKIK renders program services especially designed to meet the needs of the area which would be subjected to interference by Station WEBB and the availability of such service from other sources;

3. To determine whether in light of the facts adduced above, the action of the Commission granting the application of WEBB should be set aside and the application designated for hearing.

5. In its opposition WEBB states that field intensity measurements made in September 1954, on Station WKIK and submitted with WEBB's original application for construction permit, showed that the five kilowatt operation of WEBB would not cause objectionable interference to Station WKIK; that WKIK used Figure M-3 of the Commission's rules and regulations and assumed an inverse field at one mile of 195 mv/m to establish the conductivity throughout the area in question whereas the actual measurements on file show a lower conductivity and an inverse field for WKIK of 175 mv/m; that additional measurements taken by WEBB in May, 1956, also show the inverse field of WKIK in all directions to be 175 mv/m instead of 195 mv/m as assumed in the WKIK petition; that on all land paths the conductivity is considerably less than that shown on Figure M-3 of the rules; that the measurements show that no interference will be caused to WKIK on the "western shore" of the Chesapeake Bay area where its principal 0.5 mv/m contour lies; that the WKIK signal on the "eastern shore" of the Chesapeake Bay area is carried within a "second" WKIK 0.5 mv/m contour up the Bay rather than directly across as a result of a "fanning out" phenomenon which results in a small amount of interference in a small swampland area tour; that it is the principal 0.5 mv/m contour on the "western shore" of the Chesapeake Bay area which defines the primary service area of WKIK and which is entitled to protection from objectionable interference; and that there will be no loss of service to the general public through the area in question, since, wherever service is lost by WKIK, it is gained by WEBB.

6. In view of the facts that the protestant is licensee of standard broadcast Station WKIK, Leonardtown, Maryland; that it has alleged that WKIK will receive interference within its 0.5 mv/m normally protected contour from the proposed operation of WEBB; and that WEBB has not controverted completely WKIK's allegations of interference we find the protestant to be "a party in interest" within the meaning of section 309 (c) of the Communications Act of 1934, as amended. In re Benton Broadcasting Service, 9 Pike and Fischer RR 93, 94. We further find that the facts, matters, and things relied upon by the protestant with respect to its Issues 1 and 3 have been specified with sufficient particularity to warrant designating the above-captioned application for hearing. Issues 1 and 3 as specified by the protestant have been rephrased and redesignated as Issues 2 and 4 in the hearing provided for below. In addition, we are specifying an issue, No. 1, to obtain necessary information as to the areas and populations that would gain or lose primary service from the proposed operation of Station WEBB. Since we are adopting Issues 2 and 4 below and are specifying Issue 1, the burden of proceeding with the introduction of evidence and the burden of proof as to these issues will be placed upon the applicant. With respect to the issue specified as number 2 by the protestant and included in the hearing provided for below as Issue 3, we find that the protestant has made only a bare allegation that it renders a program service specially designed to meet the needs of the interference area in question and that it has submitted no facts in support of the allegation. Accordingly, the Commission is not adopting this issue, and the burden of proceeding with the introduction of evidence and the burden of proof as to Issue 3 will be placed on the protestant.

7. In view of the foregoing, *It is ordered,* That the subject Petition for Reconsideration and Protest is granted to the extent provided for below; and that, pursuant to section 309 (c) of the Communications Act of 1934, as amended, effective immediately, the effective date of the grant of the above-captioned application is postponed pending a final determination by the Commission in the hearing described below; and that the above-captioned application is designated for hearing at the offices of the Commission in Washington, D. C., upon the following issues:

1. To determine the areas and populations that would gain or lose primary service from the proposed operation of Station WEBB and the availability of other primary service to such areas and populations.

2. To determine whether the proposed operation of Station WEBB would cause interference to Station WKIK, Leonardtown, Maryland, or any other existing standard broadcast station; and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other primary services to such areas and populations.

3. To determine whether WKIK renders a program service especially designed to meet the needs of the area which would be subjected to interference by Station WEBB and the availability of such service from other stations.

4. To determine whether, in the light of the evidence adduced under the foregoing issues, a grant of the subject application would serve the public interest.

*It is further ordered,* That Southern Maryland Broadcasters, Inc., licensee of Station WKIK, Leonardtown, Maryland, and the Chief, Broadcast Bureau, are made parties to the above-ordered hearing; and that:

1. The hearing shall commence at 10:00 a. m. on July 27, 1956, before an Examiner to be designated in a subsequent order.

2. The parties to the proceeding herein shall have fifteen (15) days after the issuance of the Examiner's decision to file exceptions thereto and seven (7) days thereafter to file replies to any such exceptions.

3. The parties intending to participate in the hearing shall file their appearances not later than June 18, 1956.

Adopted: June 6, 1956.

Released: June 8, 1956.

## NORTHERN NATURAL GAS CO.

### ORDER RECONVENING HEARING

On January 30, 1956, the Presiding Examiner adjourned the hearing which had commenced on January 23, 1956, in the above consolidated dockets, pursuant to Commission order issued January 12, 1956. The said order specified, among other things, the following procedure:

Northern shall present its evidence respecting all matters and issues involved in decision upon the authorizations requested and before cross examination of the various witnesses presented, the Presiding Examiner shall recess the hearing pending further order of the Commission respecting such cross examination and the presentation of such other matters as may be appropriate.

Subsequent to the adjourned hearing, motions have been filed designed to expedite the hearing by various parties, to which answers and objections have been made by other parties.

The Commission finds: The proceedings should be expedited and to that end the hearing should be reconvened for consideration of all matters and issues, including the various interests of the parties.

The Commission orders: The hearing in the above-entitled consolidated proceedings be and the same hereby is reconvened to commence on June 26, 1956, at 10:00 a. m., e. d. s. t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters in the issues presented by the above entitled proceedings.

Issued: June 8, 1956.

By the Commission.

[Docket No. 3980 etc.]

F. G. BLACKWOOD ET AL.

FINDINGS AND ORDER SEVERING PROCEEDING AND ISSUING CERTIFICATES OF PUBLIC CONVENIENCE AND NECESSITY

In the matters of F. G. Blackwood, James E. Davis, W. J. Hilseweck, and Reed D. Voran, Trustees, Docket No. G-3980; F. G. Blackwood, Jno. W. Nichols, W. W. Whiteman, Jr., and W. J. Hilseweck, Docket No. G-3981; Cornell Oil Company, Docket No. G-4076; R. Olsen Oil Company, Docket No. G-4429; Amerada Petroleum Corporation, Docket Nos. G-4485 through G-4487, inclusive; Western Natural Gas Company, Docket Nos. G-4536 and G-4537, G-4539 through G-4542, inclusive, and G-4547 and G-4548; Benedum-Trees Oil Company, Docket No. G-4664; Johnston Oil and Gas Company, Docket No. G-4688; George J. Darneille, Docket No. G-4732; Claude R. Lambe, Docket No. G-4738; Albuquerque Associated Oil Company, Docket No. G-4843; Thomas J. Quigley et al., Docket No. G-4852; Ralph E. Davis, Docket No. G-4876; Lester F. Colby and Lester F. Colby, Trustee for Laverne W. Colby and Dorothy Colby Felty, Docket No. G-5209; Claud E. Aikman, Docket Nos. G-5381 and G-5382.

Each of the above Applicants has filed an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, authorizing Applicants to render services as hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in their respective applications, which are on file with the Commission and open for public inspection.

Applicants, with the exception of Docket Nos. G-4485, G-4486, G-4487, and G-4540, produce and sell natural gas as hereinafter described, which is sold to El Paso Natural Gas Company for transportation in interstate commerce for resale.

Applicants in Docket Nos. G-4485, G-4486, G-4487, and G-4540 produce and propose to sell natural gas as hereinafter described to El Paso Natural Gas Company for transportation in interstate commerce for resale.

*Docket No. G- and Location of Field*

3980 and 3981; Dollarhide Field, Andrews County, Tex.
4076; Spraberry Trend Area, Upton, Midland, and Reagan Counties, Tex.
4429; Blinberry Pool, Lea County, N. Mex.
4485, 4486 and 4487; Eumont Field, Lea County, N. Mex.
4536, 4539, 4541, 4542 and 4548; Langlie-Mattix Field, Lea County, N. Mex.
4537; Jalmet Field, Lea County, N. Mex.
4540; Blanco Field, San Juan County, N. Mex.
4547; West Kutz Canyon, Blanco and South Blanco Pictured Cliff Fields, San Juan County, N. Mex.
4664; Spraberry Trend Area, Midland and Upton Counties, Tex.
4688; Blanco Gas Field, San Juan County, N. Mex.
4732; Sweetie Peck Field, Midland County, Tex.
4738; Blanco-Mesaverde Field in North and East San Juan County, N. Mex.
4843; Gallegos Canyon Unit Pictured Cliffs participating area in San Juan County, N. Mex.
4852; Blanco Gas Field, San Juan County, N. Mex.
4876; South Blanco Pictured Cliffs Field, San Juan County, N. Mex.
5209; Gallegos Canyon Unit, participating area, Kutz Field, San Juan County, N. Mex.
5381; Langlie-Mattix Field, Lea County, N. Mex.
5382; Eumont Field, Lea County, N. Mex.

Applicant, Albuquerque Associated Oil Company, in Docket No. G-4843, has subsequently filed in another docket to abandon the services for which authority is requested in these proceedings; it therefore appears necessary that the application above be severed from these proceedings and disposed of at a later date.

Pursuant to due notice, a public hearing was held in Washington, D. C., on June 4, 1956, respecting the matters involved in and the issues presented by the applications. No petition to intervene or protest to the granting of the applications has been received. Staff counsel made an unopposed motion that Docket No. G-4843 be severed from these proceedings and also moved orally at the hearing that the intermediate decision procedure be omitted and the Commission render a decision herein pursuant to § 1.30 (c) (1) of the Commission's rules of practice and procedure.

The Commission finds:

(1) Applicants, with the exception of Applicants in Docket Nos. G-4485, G-4486, G-4487 and G-4540, independent producers of natural gas, are engaged in the sale of natural gas in interstate commerce for resale for ultimate public consumption, subject to the jurisdiction of the Commission, and are, therefore, "natural-gas companies" within the meaning of the Natural Gas Act.

(2) Applicants, in Docket Nos. G-4485, G-4486, G-4487 and G-4540, are independent producers of natural gas and upon commencement of the sale authorized herein will be engaged in the sale of natural gas in interstate commerce for resale for ultimate public consumption, subject to the jurisdiction of the Commission, and will, therefore, be "natural-gas companies" within the meaning of the Natural Gas Act.

(3) The sales of natural gas hereinbefore described by Applicants, with the exception of Applicants in Docket Nos. G-4485, G-4486, G-4487 and G-4540, as more fully described in the applications, are made in interstate commerce, subject to the jurisdiction of the Commission, and such sales by Applicants, together with the operation of any facilities subject to the jurisdiction of the Commission necessary therefor, are subject to the requirements of subsections (c) and (e) of section 7 of the Natural Gas Act.

(4) The sales of natural gas by Applicants in Docket Nos. G-4485, G-4486, G-4487 and G-4540, as more fully described in the applications, will be made in interstate commerce, subject to the jurisdiction of the Commission, and such sales by Applicants, together with the construction and operation of any facilities subject to the jurisdiction of the Commission necessary therefor, are subject to the requirements of subsections (c) and (e) of section 7 of the Natural Gas Act.

(5) Applicants are able and willing properly to do the acts and to perform the services proposed and to conform to the provisions of the Natural Gas Act, and the requirements, rules and regulations of the Commission thereunder.

(6) The sales of natural gas by Applicants, together with the construction and operation of any facilities subject to the jurisdiction of the Commission necessary therefor, is required by the public convenience and necessity, and certificates therefor should be issued as hereinafter ordered and conditioned.

(7) A request during the public hearing by Staff counsel for omission of the intermediate decision procedure under §1.30 (c) of the Commission's rules of practice and procedure was unopposed by any party of record and, not having been denied by the Commission, is granted pursuant to § 1.30 (c) (1) of said rules.

The Commission orders:

(A) Certificates of public convenience and necessity be and are hereby issued, upon the terms and conditions of this order, authorizing the sales by Applicants of natural gas in interstate commerce for resale, together with the operation of any facilities, subject to the jurisdiction of the Commission, used for the sale of natural gas in interstate commerce, as hereinbefore described and as more fully described in the applications and exhibits in this proceeding.

(B) The matter of Albuquerque Associated Oil Company in Docket No. G-4843 be and the same is hereby severed from these proceedings.

(C) Certificates issued herein shall be deemed accepted and of full force and effect unless refused in writing and under oath by Applicants within 30 days from issuance of this order.

(D) The certificates are not transferable and shall be effective only so long as Applicants continue the acts or operations hereby authorized in accordance with the provisions of the Natural Gas Act and the applicable rules, regulations and orders of the Commission.

(E) The grant of the certificates herein shall not be construed as a waiver of the requirements of section 4 of the Natural Gas Act, or of section 154 of the Commission's rules and Regulations thereunder requiring the filing of rate schedules for the services herein authorized, and is without prejudice to any findings or orders which have been or may hereafter be made by the Commission in any proceeding now pending or hereafter instituted by or against the Applicants. Further, our action in this proceeding shall not foreclose nor prejudice any future proceedings or objection relating to the operation of any price or related provision in the gas purchase contracts herein involved.

Issued: June 8, 1956.

By the Commission.

[SEAL] LEON M. FUQUAY, *Secretary.*

[F. R. Doc. 56-4668; Filed, June 12, 1956; 8:50 a.m.]

[Docket No. G-4769]

EL PASO NATURAL GAS CO.

ORDER FIXING DATE OF HEARING

By order issued herein on November 15, 1954, the Commission entered upon a public hearing concerning the lawfulness of rates, charges and classifications contained in El Paso Natural Gas Company's FPC Gas Tariff, Original Volume No. 1, as proposed to be changed by First Revised Sheets Nos. 11-A, 27-B and 27-E, Third Revised Sheets Nos. 34 and 36, Fourth Revised Sheet No. 8, Fifth Revised Sheets Nos. 4, 6, and 11, and Seventh Revised Sheets Nos. 10, 13, 14-A and 15 which were tendered by El Paso for filing on October 14, 1954. By the same order the Commission also suspended and deferred the use of said First Revised Sheets Nos. 11-A, 27-B, and 27-E, Third Revised Sheets Nos. 34 and 36, Fourth Revised Sheet No. 8, Fifth Revised Sheets Nos. 4, 6, and 11 and Seventh Revised Sheet No. 10, until April 15, 1955, and until such further time as they might be made effective in the manner prescribed by the Natural Gas Act.

Seventh Revised Sheets Nos. 13, 14-A and 15 providing for the sale of natural gas for resale for industrial use only were not subject to suspension under the provisions of the Natural Gas Act, as amended. On December 20, 1954, El Paso filed Eighth Revised Sheets Nos. 13, 14-A and 15 which by order of the Commission issued January 21, 1955, were permitted to take effect as of November 15, 1954.

On March 14, 25 and 28, 1955, El Paso tendered for filing certain additional revised tariff sheets and requested that they be permitted to become effective on April 15, 1955. These filings included Ninth Revised Sheets Nos. 13, 14-A and 15, Fourth Revised Sheet No. 17, Second Revised Sheet No. 18, Original Sheet No. 18-A, Fifth Revised Sheet No. 19, First Revised Sheet No. 27-C, Eighth Revised Sheet No. 10, Sixth Revised Sheet No. 11 and Second Revised Sheet No. 11-A, to El Paso's FPC Gas Tariff, Original Volume No. 1.

On March 14, 1955 El Paso filed a motion to make effective as of April 15, 1955, the revised sheets which were suspended by the order of November 15, 1954, subject to refund of any portion of the increased rates and charges found by the Commission to be not justified.

By order issued April 25, 1955, the rates, charges and classifications set forth in Fifth Revised Sheets Nos. 4, 6 and 19, Fourth Revised Sheets Nos. 8 and 17, Eighth Revised Sheet No. 10, Sixth Revised Sheet No. 11, Second Revised Sheets Nos. 11-A and 18, Ninth Revised Sheets Nos. 13, 14-A and 15, Original Sheet No. 18-A, First Revised Sheets Nos. 27-B, 27-C and 27-E, and Third Revised Sheets Nos. 34 and 36 to El Paso's FPC Gas Tariff, Original Volume No. 1 were made effective as of April 15, 1955 subject to refund of the portion of the increased rates or charges found by the Commission not justified.

Fourth Revised Sheet No. 17, Second Revised Sheet No. 18, Original Sheet No. 18-A, and Fifth Revised Sheet No. 19 contain rate schedules for the sale of natural gas for resale for irrigation pumping use only. Sales for this purpose were previously made under El Paso's "Non-residential" service schedules. In proposing the schedules of reduced rates and charges for irrigation pumping sales, El Paso stated that it would file revised sheets providing the same level of rates and charges for irrigation pumping sales as for "Non-Residential Service" under Eighth Revised Sheet No. 10, Sixth Revised Sheet No. 11, and Second Revised Sheet No. 11-A, if the Commission established lower rates for the latter service than the former, and would refund the difference between the proposed rates and charges for irrigation pumping sales and those established by the Commission for "Non-Residential Service", if the latter are lower. Accordingly, the order of April 25, 1955, provided for a refund of the difference between the rates and charges set forth for irrigation sales and the applicable rate determined for "Non-Residential Service" by the Commission in this proceeding, if such rates are lower than those for irrigation sales.

On December 19 and 29, 1955, and on January 5 and 19, 1956, El Paso tendered for filing certain additional revised tariff sheets, including First Revised Sheet No. 27-D and Second Revised Sheets Nos. 27-B, 27-C and 27-E to its FPC Gas Tariff, Original Volume No. 1. First Revised Sheet No. 27-D and Second Revised Sheets Nos. 27-B and 27-C were permitted to take effect as of January 20, 1956 and Second Revised Sheet No. 27-E as of February 10, 1956, all subject to the terms and conditions of the order of the Commission issued April 25, 1955 and to the terms and conditions of the undertaking filed by El Paso pursuant thereto.

The Commission orders:

(A) Pursuant to the authority contained in sections 4, 5 and 15 of the Natural Gas Act, a public hearing be held commencing July 11, 1956, at 10:00 a. m., e. d. s. t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the lawfulness of El Paso Natural Gas Company's FPC Gas Tariff, Original Volume No. 1, as proposed to be changed by the aforesaid revised sheets tendered for filing on October 14, 1954, March 14, 25 and 28, 1955, December 19 and 29, 1955, and January 5, and 19, 1956.

(B) Interested State commissions may participate as provided by § 1.8 and 1.37 (f) of the Commission's rules of practice and procedure (18 CFR 1.8 and 1.37 (f)).

Issued: June 7, 1956.

By the Commission.

[SEAL] LEON M. FUQUAY, *Secretary.*

[Docket No. G-8636]

RUDCO OIL AND GAS CO.

ORDER VACATING ORDER SUSPENDING PROPOSED CHANGES IN RATES, REJECTING RATE FILING, AND TERMINATING PROCEEDING

Rudco Oil and Gas Company (Applicant), by letter dated May 14, 1956, requested the Commission to reject a rate filing tendered by it on February 28, 1956.

The tendered filing is designated as Supplement No. 1 to Applicant's FPC Gas Rate Schedule No. 6, consisting of a purported increase in rate of 1 cent per Mcf—from 7.5 cents to 8.5 cents per Mcf—for the sale of residue natural gas from the Edmond Gasoline Plant, West Edmond Field, Oklahoma, to Cities Service Gas Company (Cities Service), subject to the jurisdiction of the Commission. By order issued March 22, 1955, the Commission suspended and deferred the use of the above-designated supplement until May 1, 1955, and until such further time as such supplement might be made effective in the manner prescribed by the Natural Gas Act. Applicant has not filed any motion to make the proposed rate changes effective, subject to refund.

By order issued March 29, 1956, the Commission consolidated the proceeding concerning the lawfulness of the rate filing tendered by Applicant and thirteen other proceedings with the proceeding in Docket No. G-8549, In the Matter of Stanolind Oil and Gas Company, and fixed June 4, 1956, as the date for commencement of hearing in the consolidated proceedings. All of the proceedings involve sales of gas in interstate commerce to Cities Service of residue gas from gasoline plants in the Edmond Field.

In support of its May 14, 1956, request, Applicant states that its FPC Gas Rate Schedule No. 6 was intended to cover sales of gas to Cities Service from the Hunton and Trindle gasoline plants in the West Edmond Field, and that it made an improper filing in applying for a rate increase for sales of gas from the Edmond Gasoline Plant. It appears that Applicant is a signatory to the basic contract covering the sales of natural gas from the Hunton and Trindle gasoline plants, but such contract has no provi-

sion for an increase above 7.5 cents per Mcf.

Applicant's sales to Cities Service from the Edmond Gasoline Plant are made under a contract dated July 5, 1945, as amended, between Phillips Petroleum Company (Phillips) and Continental Oil Company (Continental), sellers, and Cities Service, buyer. The basic contract is on file with the Commission as Phillips' FPC Gas Rate Schedule No. 68 and Continental's FPC Gas Rate Schedule No. 91. Included in the proceedings consolidated with Docket No. G–8549 is the proceeding upon the lawfulness of the rates proposed by Continental, as reflected by Supplement No. 10 to Continental's FPC Gas Rate Schedule No. 91 (Docket No. G–8625). Applicant is not a signatory to the contract.

The Commission finds:

(1) Applicant's Supplement No. 1 to its FPC Gas Rate Schedule No. 6 is not intended to cover the sale of residue natural gas from the Edmond Gasoline Plant to Cities Service, such filing was improperly made, and should be rejected as improper.

(2) The order of the Commission issued March 22, 1955, suspending the proposed changes in rates tendered by Applicant on February 28, 1955, should be vacated, and the proceeding thereon should be terminated.

The Commission orders:

(A) Rudco Oil and Gas Company's Supplement No. 1 to its FPC Gas Rate Schedule No. 6 be and it is hereby rejected.

(B) The order of the Commission issued March 22, 1955, suspending the proposed changes in rates reflected in Rudco Oil and Gas Company's Supplement No. 1 to its FPC Gas Rate Schedule No. 6 as tendered for filing on February 28, 1955, be and it is hereby vacated.

(C) The proceeding upon the lawfulness of Rudco Oil and Gas Company's Supplement No. 1 to its FPC Gas Rate Schedule No. 6 as tendered for filing on February 28, 1955, be and it is hereby terminated.

Issued: June 7, 1956.

By the Commission.

[Docket No. G–10450]

PERMIAN BASIN PIPELINE CO.

NOTICE OF APPLICATION AND DATE OF HEARING

JUNE 8, 1956.

Take notice that Permian Basin Pipeline Company (Applicant), a Delaware corporation with principal office at 2223 Dodge Street, Omaha, Nebraska, filed, on April 30, 1956, in Docket No. G–1928, an application pursuant to section 7 (b) of the Natural Gas Act, redesignated by the Commission as Docket No. G–10450, authorizing Applicant to remove and relocate certain existing authorized natural gas facilities as hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in the application which is on file with the Commission and open for public inspection.

Applicant proposes to remove five (5) of fourteen (14) of its existing 1,350 horsepower compressor units now located at its Spraberry Compressor Station as authorized in Docket No. G–1928 and to relocate and operate the same at its proposed gasoline plant in Andrews County, Texas, as authorized in Docket No. G–9688.

Applicant states that the volumes of casinghead gas now available in the Spraberry area are considerably below the volumes contemplated in Docket No. G–1928 and hence the five units are no longer needed at the Spraberry Station; that the relocation of these units will enable Applicant to utilize more fully its existing facilities and thereby provide more efficient and economical operation of its pipeline system; that the removal and relocation of these units will avoid an expenditure of approximately $700,000 by Applicant and that the economies and savings realized from this proposal will accrue to Applicant's customers.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on Monday, July 9, 1956, at 9:30 a. m., e. d. s. t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such application: *Provided, however,* That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of § 1.30 (c) (1) or (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before June 28, 1956. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

[SEAL] LEON M. FUQUAY, *Secretary.*

[Docket No. G–10524]

MICHIGAN WISCONSIN PIPE LINE CO.

ORDER SUSPENDING PROPOSED REVISED TARIFF SHEET AND FIXING DATE OF HEARING

Michigan Wisconsin Pipe Line Company (Michigan Wisconsin) on May 15, 1956, submitted for filing Fourth Revised Sheet No. 5 to its FPC Gas Tariff, Original Volume No. 1, proposing an increase in rates and charges of $4,074,531, or 8.4 percent per annum over and above the rates contingently effective under Docket No. G–8511. Michigan Wisconsin requests an effective date of June 15, 1956, for the proposed filing.

The proposed increase in rates and charges is predicated primarily on claimed costs associated with (a) the introduction into Michigan Wisconsin's system of large volumes of gas from its affiliate, American Louisiana Pipe Line Company; (b) construction of facilities to transport such additional supply of gas; and (c) a proposed 6¼ percent rate of return.

The Public Service Commission of Michigan, the Public Service Commission of Wisconsin, and six customer companies have filed statements opposing the proposed increase.

Michigan Wisconsin has not fully supported its proposed increase in several respects, including, but not limited to, estimated sales volumes, cost of purchased gas, rate of return, Federal income taxes, working capital requirements, pricing of gas stored underground, and amortization of claimed increased purchased gas costs for prior periods.

The increased rates and charges provided in the revised tariff sheet tendered for filing by Michigan Wisconsin on May 15, 1956, have not been shown to be justified and may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds: It is necessary and proper in the public interest, and to aid in the enforcement of the provisions of the Natural Gas Act, that the Commission enter upon a hearing concerning the lawfulness of the proposed change in rates and charges and that the above-designated revised tariff sheet be suspended and the use thereof deferred as hereinafter ordered.

The Commission orders:

(A) Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 4, 5, 15 and 16 of the Natural Gas Act and the Commission's general rules and regulations, including rules of practice and procedure (18 CFR Chapter 1) a public hearing hereby is set to commence on July 23, 1956 at 10:00 a. m., e. d. s. t. in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D. C. concerning the lawfulness of the proposed change in rates and charges.

(B) Pending such hearing and decision thereon, Michigan Wisconsin's proposed Fourth Revised Sheet No. 5 to its FPC Gas Tariff, Original Volume No. 1 hereby is suspended and the use thereof deferred until November 15, 1956, and until such further time thereafter as it may be made effective in the manner prescribed by the Natural Gas Act.

(C) Michigan Wisconsin shall serve upon each party to this proceeding copies of the testimony and exhibits it proposes to offer at the hearing provided in paragraph (A) above, including five (5) copies thereof upon Commission Staff Counsel. Such copies of the testimony and exhibits shall be served at such time as to permit delivery to all parties, including Staff Counsel, not later than July 16, 1956.

(D) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) of the Commission's rules of practice and procedure (18 CFR 1.8 and 1.37 (f)).

Issued: June 7, 1956.

By the Commission.

[Project No. 2199]

PUBLIC UTILITY DISTRICT NO. 1 OF SKAMANIA COUNTY, WASHINGTON

NOTICE OF APPLICATION FOR PRELIMINARY PERMIT

JUNE 8, 1956.

Public notice is hereby given that the Public Utility District No. 1 of Skamania County, Washington, has filed application under the Federal Power Act (16 U. S. C. 791a–825r) for preliminary permit for proposed Project No. 2199 which would be located on Little White Salmon River, tributary of Columbia River, in the region of White Salmon and Stevenson, Skamania County, Washington, and would consist of an earth-fill dam and storage reservoir located in N½ sec. 26, T. 4 N., R. 9 E., Willamette Meridian, a diversion dam located in NW¼ sec. 12, T. 3 N., R. 9 E., Willamette Meridian, flume, tunnel, canal, forebay, penstocks, and a powerhouse with initial installation of two 10,000-kva generators, each connected to a 15,800-horsepower turbine with plans for an additional unit in the future.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure of the Commission (18 CFR 1.8 or 1.10). The last date upon which protests may be filed is July 27, 1956. The application is on file with the Commission for public inspection.

## INTERSTATE COMMERCE COMMISSION

[Notice 116]

MOTOR CARRIER APPLICATIONS

JUNE 8, 1956.

Protests consisting of an original and two copies to the granting of an application must be filed with the Commission within 30 days from the date of publication of this notice in the FEDERAL REGISTER and a copy of such protest served on the applicant. Each protest must clearly state the name and street number, city and state address of each protestant on behalf of whom the protest is filed (49 CFR 1.240 and 1.241). Failure to seasonably file a protest will be construed as a waiver of opposition and participation in the proceeding unless an oral hearing is held. In addition to other requirements of Rule 40 of the general rules of practice of the Commission (49 CFR 1.40), protests shall include a request for a public hearing, if one is desired, and shall specify with particularity the facts, matters, and things relied upon, but shall not include issues or allegations phrased generally. Protests containing general allegations may be rejected. Requests for an oral hearing must be supported by an explanation as to why the evidence cannot be submitted in forms of affidavits. Any interested person, not a protestant, desiring to receive notice of the time and place of any hearing, prehearing conference, taking of depositions, or other proceeding shall notify the Commission by letter or telegram within 30 days of publication of this notice in the FEDERAL REGISTER. Except when circumstances require immediate action, an application for approval, under section 210a (b) of the act, of the temporary operations of Motor Carrier properties sought to be acquired in an application under section 5 (2) will not be disposed of sooner than 10 days from the date of publication of this notice in the FEDERAL REGISTER. If a protest is received prior to action being taken, it will be considered.

APPLICATIONS FOR MOTOR CARRIERS OF PROPERTY

No. MC 263 Sub 82, filed June 1, 1956, GARRETT FREIGHTLINES, INC., 2055 Pole Line Road, P. O. Box 349, Pocatello, Idaho. Applicant's attorney: Maurice H. Greene, P. O. Box 1554, Boise, Idaho. For authority to operate as a *common carrier,* over a regular route, transporting: *General commodities,* except those of unusual value, Class A and B explosives, livestock, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment, between Denver, Colo., and the site of the Guided Missile Plant of Glenn L. Martin Company near Kassler, Colo., from Denver over U. S. Highway 85 to junction Colorado Highway 75, thence over Colorado Highway 75 to junction unnumbered highways, thence over unnumbered highways to the site of the Guided Missile Plant of Glenn L. Martin Company, near Kassler, and return over the same route, serving no intermediate points.

No. MC 730 Sub 70, filed May 29, 1956, PACIFIC INTERMOUNTAIN EXPRESS CO., a corporation, 299 Adeline Street, Oakland, Calif. For authority to operate as a *common carrier,* transporting: *General commodities,* except those of unusual value, Class A and B explosives, livestock, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment (other than those requiring refrigeration), serving the site of the Glenn L. Martin Company's plant, located approximately ten (10) miles south of Denver, Colo., near Kassler, Colo., as an off-route point in connection with applicant's regular route operations to and from Denver, Colo. Applicant is authorized to conduct operations in California, Colorado, Idaho, Illinois, Kansas, Missouri, Montana, Nevada, Oregon, Utah, Washington, and Wyoming.

No. MC 1124 Sub 130, filed May 31, 1956, HERRIN TRANSPORTATION COMPANY, a Corporation, 2301 McKinney Avenue, Houston, Tex. Applicant's attorney: Leroy Hallman, First National Bank Building, Dallas 2, Tex. For authority to operate as a *common carrier,* over regular routes, transporting: *General commodities,* including Class A and B explosives, but excluding those of unusual value, household goods as defined by the Commission, and commodities in bulk, serving the site of the Sohio Petroleum Corporation Plant near Beggs, La., and on Louisiana Highway 10, and approximately 11 miles north of Opelousas, La., as an off-route point in connection with carrier's regular route operations between Opelousas, and Ville Platte, La., over U. S. Highway 167.

No. MC 7746 Sub 79, filed May 18, 1956, UNITED TRUCK LINES, INC., East 915 Springfield Avenue, Spokane, Wash. Applicant's attorney: George R. LaBissoniere, 835 Central Building, Seattle 4, Wash. For authority to operate as a *common carrier,* transporting: *General commodities,* including *commodities requiring special equipment,* but excluding articles of unusual value, livestock, Class A and B explosives, commodities in bulk, and household goods as defined by the Commission, serving the Noxon, Mont., dam site near Noxon, and construction sites within fifteen (15) miles thereof, as off-route points in connection with applicant's regular route operations (1) between Spokane, Wash., and Missoula, Mont., over U. S. Highway 10, and (2) between Missoula, Mont., and Coram, Mont., over U. S. Highway 93. Applicant is authorized to conduct operations in Idaho, Montana, Oregon, and Washington.

No. MC 8989 Sub 159, filed May 28, 1956, HOWARD SOBER, INC., 2400 West St. Joseph Street, P. O. Box 1228, Lan-

sing, Mich. Applicant's attorney: Albert F. Beasley, Investment Building, 15th and K Streets NW., Washington 5, D. C. For authority to operate as a *common carrier*, over irregular routes, transporting: *Automobiles, trucks, busses, and parts thereof*, in secondary movements, in truckaway service, from Baltimore, Md., to points in Minnesota; and *damaged shipments of the commodities specified* on return movements. Applicant is authorized to conduct operations throughout the United States.

No. MC 11185 Sub 96 (CORRECTION), published page 3706, issue of May 30, 1956. The name of the corporation shown as J–T TRANSPORT, INC., was in error. The correct corporate name is *J–T TRANSPORT COMPANY*, INC.

No. MC 28961 Sub 15, filed May 23, 1956, McDUFFEE MOTOR FREIGHT, INC., High School Avenue and Woodlawn Street, Lebanon, Ky. Applicant's attorney: Robert M. Pearce, 711 McClure Building, Frankfort, Ky. For authority to operate as a *common carrier*, transporting: *General commodities*, except those of unusual value, Class A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment between Louisville, Ky., and Columbia, Ky. from Louisville over U. S. Highway 31W to Elizabethtown, Ky., thence over Kentucky Highway 61 to Columbia, and return over the same route, serving no intermediate points, with service at Columbia, Ky., for purpose of joinder only, as an alternate route, for operating convenience only, in connection with carrier's regular route operations between (1) Louisville and Lebanon, Ky., (2) Lebanon and Columbia, Ky., (3) Columbia and Wolf Creek Dam, Ky., and (4) Columbia and Russell Springs, Ky. Applicant is authorized to conduct operations in Kentucky and Ohio.

No. MC 29120 Sub 52, filed May 21, 1956, WILSON STORAGE AND TRANSFER CO., a Corporation, 110 North Reid Street, Sioux Falls, S. Dak. for authority to operate as a *common carrier*, over irregular routes, transporting: *Meats, meat products*, and *meat by-products*, as defined by the Commission, from Spencer and Estherville, Iowa, to Chicago, Ill., and the commercial zone thereof as defined by the Commission.

No. MC 29120 Sub 53, filed May 29, 1956, WILSON STORAGE AND TRANSFER CO., 110 North Reid Street, Sioux Falls, S. Dak. For authority to operate as a *common carrier*, transporting: *General commodities*, except those of unusual value, Class A and B explosives, household goods as defined by the Commission, commodities in bulk, and commodities requiring special equipment, serving Big Bend Dam Site located approximately forty-two (42) miles southeast of Pierre, S. Dak., as an off-route point in connection with applicant's authorized regular route operations. Applicant is authorized to conduct operations in South Dakota, Minnesota, and Iowa.

No. MC 30311 Sub 11, filed May 28, 1956, FREIGHT, INC., 408 Wellington Street, P. O. Box 1311, Akron, Ohio. Applicant's attorney: Drew L. Carraway, Suite 618 Perpetual Building, 1111 E Street NW., Washington 4, D. C. For authority to operate as a *common carrier*, transporting: *General commodities*, except those of unusual value, Class A and B explosives, household goods as defined by the Commission, commodities in bulk, and commodities requiring special equipment, serving the site of the Chevrolet Division of General Motors Corporation approximately six (6) miles southwest of Warren, Ohio, as an off-route point in connection with applicant's authorized regular route operations. Applicant is authorized to conduct operations in Illinois, Indiana, Iowa, Ohio, and Nebraska.

No. MC 31600 Sub 408, filed May 25, 1956, P. B. MUTRIE MOTOR TRANSPORTATION, INC., Calvary Street, Waltham, Mass For authority to operate as a *common carrier*, over irregular routes, transporting: *Tanning extract*, in bulk, in tank vehicles, from Erie, Pa., to Bellows Falls, Vt.

No. MC 36509 Sub 8, filed May 31, 1956, LOOMIS ARMORED CAR SERVICE, INC., 114 Cherry Street, Seattle, Wash. Applicant's attorneys: George H. Hart, Central Building, Seattle 4, Wash., and Peter Platten, 1035 Land Title Building, Philadelphia 10, Pa. For authority to operate as a *contract carrier*, over irregular routes, transporting: *Coin* and *bullion* for the Bureau of the Mint, U. S. Treasury Department, the Federal Reserve Banks and their respective branches and the U. S. Treasury Department, between Seattle, Wash., Portland, Oreg., San Francisco, Calif., Helena, Mont., and Salt Lake City, Utah. Applicant is authorized to conduct operations in Oregon and Washington.

No. MC 37578 Sub 15, filed May 31, 1956, JOSEPH W. TREHAN, INCORPORATED, 715 Mahoning Avenue, Youngstown, Ohio. Applicant's representative: G. H. Dilla, 3350 Superior Avenue, Cleveland 14, Ohio. For authority to operate as a *common carrier*, transporting: *General commodities*, except those of unusual value, Class A and B explosives, household goods as defined by the Commission, commodities in bulk, and commodities requiring special equipment, serving the site of the Chevrolet Division of General Motors Corporation located approximately six (6) miles southwest of Warren, Ohio, as an off-route point in connection with applicant's authorized regular route operations. Applicant is authorized to conduct operations in Ohio, Pennsylvania, and West Virginia.

No. MC 40007 Sub 45, filed May 31, 1956, RELIABLE TRANSPORTATION COMPANY, a Corporation, 4817 Shelia Street, Los Angeles 22, Calif. For authority to operate as a *common carrier*, over irregular routes, transporting: *Liquid petroleum wax*, in bulk, in tank vehicles, from Richmond, Calif., to points in Arizona.

No. MC 41404 Sub 13, filed May 25, 1956, C. E. WELDON, doing business as ARGO COLLIER TRUCK LINES, Fulton Highway, Martin, Tenn. Applicant's attorney: Joseph M. Scanlan, 111 West Washington Street, Chicago 2, Ill. For authority to operate as a *common carrier*, over irregular routes, transporting: *Baking powder, bread making compounds, dessert preparations, coffee, coffee extracts*, and *tea*, from Chicago, Ill., to Paducah and Fulton, Ky., and points in Alabama, Georgia, Louisiana, Mississippi, and Tennessee.

No. MC 46280 Sub 35, filed May 4, 1956, DARLING FREIGHT, INC., 4000 Division Avenue South, Grand Rapids, Mich. Applicant's attorney: Robert A. Sullivan, 2606 Guardian Building, Detroit 26, Mich. For authority to operate as a *common carrier*, over irregular routes, transporting: *Scrap metals*, in bulk, between Angola, Columbia City and Syracuse, Ind., and Chicago, Ill., on the one hand, and, on the other, Belding, Mich.

No. MC 50002 Sub 28, filed May 31, 1956, T. CLARENCE BRIDGE and HENRY W. BRIDGE, doing business as BRIDGE BROTHERS, Anderson and Bridge Streets, P. O. Box 588, Lamar, Colo. Applicant's attorney: C. Zimmerman, 503 Schweiter Building, Wichita 2, Kans. For authority to operate as a *common carrier*, over irregular routes, transporting: *Petroleum* and *petroleum products*, in bulk, in tank vehicles, from points in Adams, Logan, Morgan, Phillips, Sedgwick, Washington, Weld, and Yuma Counties, Colo., to points in Kansas on and west of U. S. Highway 183. Applicant is authorized to conduct operations in Colorado, Kansas, Nebraska, Oklahoma, and Texas.

No. MC 50069 Sub 173, filed June 4, 1956, REFINERS TRANSPORT & TERMINAL CORPORATION, 2111 Woodward Avenue, Detroit 1, Mich. For authority to operate as a *common carrier*, over irregular routes, transporting: *Petroleum* and *petroleum products*, in bulk, in tank vehicles, from New Goshen, Ind., and points within five miles thereof, to points in Illinois.

No. MC 52657 Sub 485 (CORRECTION), published page 3707, issue of May 30, 1956. The name of the corporation shown as ARGO AUTO CARRIERS, INC., was in error. The correct corporate name is *ARCO* AUTO CARRIERS, INC.

No. MC 52920 Sub 22, filed May 14, 1956, PACIFIC HIGHWAY TRANSPORT, INC., Sixth Avenue, South and Holgate Streets, Seattle, Wash. Applicant's attorney: William B. Adams, Pacific Building, Portland 4, Oreg. For authority to operate as a *common carrier*, over regular routes, transporting: (1) *General commodities, including household goods* as defined by the Commission, *commodities in bulk*, and *those requiring special equipment*, but excluding commodities of unusual value and Class A and B explosives, between Woodland, Wash., and the Swift Creek Dam Site near Yale, Wash., from Woodland over Washington Highway 1–S to junction unnumbered County Road, near Yale, Wash., thence over unnumbered County Road to the Swift Creek Dam Site, near Yale, and return over the same route, serving points within six miles of the Swift Creek Dam Site as intermediate and off-route points. (2) *General commodities*, except Class A and B explosives, household goods as defined by the Commission, petroleum products in tank trucks, and commodities requiring special equipment (other than such equipment for use in transporting machinery, tanks, and other commodities requiring the use of flat-bed trucks), serving the Swift Creek Dam Site, near Yale, Wash., and points within six miles thereof; as off-route points in connection with carrier's regular route operations between Portland, Oreg., and Bellingham, Wash., over U. S. Highway 99. Applicant is authorized to conduct operations in Oregon and Washington.

No. MC 54435 Sub 25, filed May 25, 1956, MICHIGAN MOTOR FREIGHT LINES, INC., 4800 Oakman Boulevard, Dearborn, Mich. Applicant's attorney: Walter N. Bieneman, Guardian Building, Detroit 26, Mich. For authority to operate as a *common carrier*, transporting: *General commodities*, except those of unusual value, Class A and B explosives, livestock, household goods, as defined by the Commission, commodities in bulk, and those requiring special equipment, serving the site of the new plant of the Chevrolet Division of General Motors Corporation, located approximately six (6) miles southwest of Warren, Ohio in Lordstown Township, Trumbull County, Ohio, as an off-route point in connection with applicant's regular route operations (1) between Warren, Ohio and Youngstown, Ohio, over U. S. Highway 422, and (2) between Akron, Ohio and Youngstown, Ohio, over Ohio Highway 18. Applicant is authorized to conduct operations in Illinois, Indiana, Kentucky, Michigan and Ohio.

No. MC 56082 Sub 15, filed March 12, 1956, published in the May 16, 1956 issue, page 3240 amended, DAVIS & RANDALL, INC., Chautauqua Road, Fredonia, N. Y., P. O. Box 209, Dunkirk, N. Y. Applicant's attorney: Kenneth T. Johnson, Bank of Jamestown Building, Jamestown, N. Y. For authority to operate as a *common carrier*, over irregular routes, transporting: *Malt beverages*, from Natick Township, Middlesex County, Mass., to points in New York, New Jersey, Pennsylvania, and Maryland; *empty cans* and *can lids* from Hillside, N. J., and Paterson, N. J., to Natick Township, Middlesex County, Mass.; *caps* and *crowns* from Wilmington, Del., North Bergen, N. J., Baltimore, Md., and Brooklyn, N. Y., to Natick Township, Middlesex County, Mass.; *empty containers or other such incidental facilities* used in transporting the above-named commodities on return. Applicant is authorized to conduct operations in New York, Pennsylvania, and Ohio.

No. MC 59317 Sub 5, filed June 4, 1956, E. C. BISOM, 211 West Third Street, North, Newton, Iowa. Applicant's attorney: William A. Landau, 1307 East Walnut Street, Des Moines 16, Iowa. For authority to operate as a *common carrier*, over irregular routes, transporting: *Household appliances*, and *parts for such appliances* when moving with the appliances of which they are a part (except washing machines, household laundry driers and ironers and parts thereof), from Newton, Iowa, to points in Minnesota, Illinois, Nebraska, South Dakota, and Wisconsin.

No. MC 59583 Sub 70, filed May 25, 1956, THE MASON & DIXON LINES, INCORPORATED, Eastman Road, Kingsport, Tenn. Applicant's attorney: Clifford E. Sanders, 321 East Center Street, Kingsport, Tenn. For authority to operate as a *common carrier*, transporting: *General commodities*, except those of unusual value, Class A and B explosives, household goods as defined by the Commission, commodities in bulk, and commodities requiring special equipment, serving Tennga, Ga., as an off-route point in connection with applicant's authorized regular route operations over U. S. Highway 41 and as an intermediate point in connection with applicant's authorized regular route operations between Knoxville, Tenn., and Cartersville, Ga., over U. S. Highway 411. Applicant is authorized to conduct operations in Tennessee, Georgia, Virginia, New Jersey, New York, Maryland, Delaware, Pennsylvania, North Carolina, South Carolina, and the District of Columbia.

No. MC 65451 Sub 13, filed May 28, 1956, ALABRAM FREIGHT LINES, 546 West Madison Street, Phoenix, Ariz. For authority to operate as a *common carrier*, transporting: *General commodities*, except those of unusual value, Class A and B explosives, household goods as defined by the Commission, commodities in bulk, and commodities requiring special equipment, (1) serving the site of the Rare Metals Plant located approximately five (5) miles east of Tuba City, Ariz., as an off-route point in connection with applicant's authorized regular route operations; (2) between points in Coconino County, Ariz., North of U. S. Highway 66 over irregular routes, restricted (a) against service at points on U. S. Highway 66 except as otherwise authorized and (b) against service at points on Arizona Highway 64. Applicant is authorized to conduct operations in Arizona, Texas, and New Mexico.

No. MC 64983 Sub 55, filed June 8, 1956, READER BROTHERS, INC., Water and Tasker Streets, Philadelphia 48, Pa. For authority to operate as a *common carrier*, over irregular routes, transporting: *Petroleum* and *petroleum products*, in bulk, in tank vehicles, from Delaware City, Del., to points in Connecticut, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New York, North Carolina, Ohio, Pennsylvania, Rhode Island, South Carolina, Vermont, Virginia, West Virginia, and the District of Columbia. Applicant is authorized to conduct operations in Delaware, Maryland, New York, Pennsylvania, and the District of Columbia.

No. MC 75651 Sub 42, filed May 28, 1956, R. C. MOTOR LINES, INC., 2500 Laura Street, Jacksonville, Fla. For authority to operate as a *common carrier*, transporting: *General commodities*, except those of unusual value, Class A and B explosives, household goods as defined by the Commission, commodities in bulk, and commodities requiring special equipment, serving Rockville, Md., as an off-route point in connection with applicant's authorized regular-route operations. ## DEPARTMENT OF JUSTICE

### Office of Alien Property

[Vesting Order SA–60]

COMMERCIUM, S. A.

In re: Debt owing to Commercium, S. A. also known as Sophie Commercium, S. A.; F–11–54.

Under the authority of Title II of the International Claims Settlement Act of 1949, as amended (69 Stat. 562), Executive Order 10644, November 7, 1955 (20 F. R. 8363), Department of Justice Order No. 106–55, November 23, 1955 (20 F. R. 8993), and pursuant to law, after investigation, it is hereby found and determined:

1. That the property described as follows: That certain debt or other obligation of Champion Spark Plug Company, Toledo 1, Ohio, arising out of an account payable entitled "'Sophie' (Commercium, S. A.), Sofia, Bulgaria," maintained by the aforesaid corporation, together with any and all rights to demand, enforce and collect the same,

is property within the United States which was blocked in accordance with Executive Order 8389, as amended, and remained blocked on August 9, 1955, and which is and as of September 15, 1947, was, owned directly or indirectly by Commercium, S. A., also known as Sophie Commercium, S. A., Sofia, Bulgaria, a national of Bulgaria as defined in said Executive Order 8389, as amended.

2. That the property described herein is not owned directly by a natural person.

There is hereby vested in the Attorney General of the United States the property described above, to be administered, sold, or otherwise liquidated, in accordance with the provisions of Title II of the International Claims Settlement Act of 1949, as amended.

It is hereby required that the property described above be paid, conveyed, transferred, assigned and delivered to or for the account of the Attorney General of the United States in accordance with directions and instructions issued by or for the Assistant Attorney General, Director, Office of Alien Property, Department of Justice.

The foregoing requirement and any supplement thereto shall be deemed instructions or directions issued under Title II of the International Claims Settlement Act of 1949, as amended. Attention is directed to section 205 of said Title II (69 Stat. 562) which provides that:

Any payment, conveyance, transfer, assignment, or delivery of property made to the President or his designee pursuant to this title, or any rule, regulation, instruction, or direction issued under this title, shall to the extent thereof be a full acquittance and discharge for all purposes of the obligation of the person making the same; and no person shall be held liable in any court for or in respect of any such payment, conveyance, transfer, assignment, or delivery made in good faith in pursuance of and in reliance on the provisions of this title, or of any rule, regulation, instruction, or direction issued thereunder.

Executed at Washington, D. C., on June 7, 1956.

For the Attorney General.

[SEAL] DALLAS S. TOWNSEND, *Assistant Attorney General, Director, Office of Alien Property.*

## TITLE 3—THE PRESIDENT

### EXECUTIVE ORDER 10670

ESTABLISHING A FLAG FOR THE UNITED STATES ARMY

WHEREAS the Secretary of the Army has adopted, and has recommended that I approve, an official flag for the United States Army, the design of which accompanies and is hereby made a part of this order, and which is described as follows:

UNITED STATES ARMY FLAG—The flag for the United States Army is 4 feet 4 inches hoist by 5 feet 6 inches fly, of white silk or rayon, with yellow fringe, 2½ inches wide. In the center of the flag is the central design of the seal of the Department of the Army (without the Roman numerals) in ultramarine blue, above a scarlet scroll with the designation "UNITED STATES ARMY" in white, and beneath the scroll are the Arabic numerals "1775";

AND WHEREAS it appears that such flag is of suitable design and appropriate for adoption as the official flag of the United States Army:

NOW, THEREFORE, by virtue of the authority vested in me as President of the United States, I hereby approve such flag as the official flag of the United States Army.

On such official flags of the United States Army as the Secretary of the Army may designate, there shall be displayed below the spearhead of the flagstaff one streamer for each of the officially recognized campaigns in which the United States Army has participated. There shall be embroidered on each streamer the name of the campaign and the year in which it occurred.

FEDERAL REGISTER

Published daily, except Sundays, Mondays, and days following official Federal holidays, by the Federal Register Division, National Archives and Records Service, General Services Administration, pursuant to the authority contained in the Federal Register Act, approved July 26, 1935 (49 Stat. 500, as amended; 44 U. S. C., ch. 8B), under regulations prescribed by the Administrative Committee of the Federal Register, approved by the President. Distribution is made only by the Superintendent of Documents, Government Printing Office, Washington 25, D. C.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $1.50 per month or $15.00 per year, payable in advance. The charge for individual copies (minimum 15 cents) varies in proportion to the size of the issue. Remit check or money order, made payable to the Superintendent of Documents, directly to the Government Printing Office, Washington 25, D. C.

The regulatory material appearing herein is keyed to the CODE OF FEDERAL REGULATIONS, which is published, under 50 titles, pursuant to section 11 of the Federal Register Act, as amended August 5, 1953. The CODE OF FEDERAL REGULATIONS is sold by the Superintendent of Documents. Prices of books and pocket supplements vary.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER, or the CODE OF FEDERAL REGULATIONS.

**CFR SUPPLEMENTS**

**(As of January 1, 1956)**

**The following Supplement is now available:**

**Title 39 (Rev., 1955) ($4.25)**

***Previously announced:*** **Title 3, 1955 Supp. ($2.00); Titles 4 and 5 ($1.00); Title 7: Parts 1–209 ($1.25), Parts 900–959 (Rev., 1955) ($6.00), Part 960 to end (Rev., 1955) with Supplement ($5.85); Title 8 ($0.50); Title 9 ($0.70); Titles 10–13 ($0.70); Title 14: Parts 1–399 ($2.50), Part 400 to end ($1.00); Title 15 ($1.00); Title 16 ($1.25); Title 17 ($0.60); Title 18 ($0.50); Title 19 ($0.50); Title 20 ($1.00); Title 21 (Rev., 1955) ($5.50); Titles 22 and 23 ($1.00); Title 24 ($0.75); Title 25 ($0.50); Title 26: Parts 1–79 ($0.35), Parts 80–169 ($0.50), Parts 170–182 ($0.30), Parts 183–299 ($0.35), Part 300 to end, Ch. I, and Title 27 ($1.00); Titles 28 and 29 ($1.25); Titles 30 and 31 ($1.25); Title 32: Parts 1–399 ($0.60), Parts 400–699 ($0.65), Parts 700–799 ($0.35), Parts 800–1099 ($0.40), Part 1100 to end ($0.35); Title 32A (Rev., 1955) ($1.25); Title 33 ($1.50); Titles 35–37 ($1.00); Titles 40–42 ($0.65); Title 43 ($0.50); Title 46: Parts 1–145 ($0.60), Part 146 to end ($1.25); Title 49: Parts 1–70 ($0.60), Parts 71–90 ($1.00), Parts 91–164 ($0.50), Part 165 to end ($0.65)**

**Order from Superintendent of Documents, Government Printing Office, Washington 25, D. C.**

the Executive Vice President, CCC, and in the field will be carried out by State and county Agricultural Stabilization and Conservation committees (hereinafter called State and county committees). State and county committees do not have authority to modify or waive any provisions of this subpart or amendments or supplements to this subpart. Employees of County ASC Committees shall execute instruments in accordance with delegations of authority published in 21 F. R. 2957.

§ 474.522 *Availability of loans*—(a) *Area.* Loans will be available in any State of the continental United States.

(b) *Time.* Loan applications may be submitted from July 1, 1956, through June 30, 1957.

(c) *Source.* Loans may be obtained directly from CCC or through approved lending agencies. Approved forms and documents will be made available through the offices of county committees. Application for loans shall, in either case, be made to the county committee. Disbursements of loans will be made by approved lending agencies under agreements with CCC, or by drafts drawn on CCC by the county office.

§ 474.523 *Approved lending agencies.* An approved lending agency shall be any bank, partnership, individual, or other legal entity which has entered into a lending agency agreement for storage loans, on the form prescribed by CCC.

§ 474.524 *Eligible borrowers.* Loans will be made only to eligible borrowers. An eligible borrower shall be any person, who as tenant, share-landlord, or landowner-operator produces one or more of the eligible commodities listed in § 474.525 (a). The term "person" means an individual, partnership, corporation or other legal entity. If two or more individuals join together in the purchase and erection or construction of an eligible storage facility they must join as partners and each such individual shall sign all documents, and shall be liable jointly and severally with respect to the loan.

§ 474.525 *Eligible structures.* (a) Loans will be made only for the purchase of eligible structures. Eligible structures shall be new farm storage facilities of movable or immovable type, and additions to existing immovable facilities which meet the requirements for eligible storage under the CCC price support loan programs and which have not been purchased or partially constructed prior to the date the application is approved, and used farm storage facilities which CCC previously acquired by foreclosure or other means under this program, provided such facilities are to be used for the storage of cottonseed, corn, wheat, rye, oats, barley, grain sorghums, soybeans, flaxseed, rice, dry edible beans, dry peas, peanuts, pasture seeds, hay seeds or winter cover crop seeds produced by the eligible borrower on that farm with respect to which application is made. Loans for the construction of immovable facilities for cottonseed, soybeans, dry edible beans, dry peas, peanuts, pasture seeds, hay seeds or winter cover crop seeds, will be approved only in areas for which the State committee determines that existing privately owned storage facilities for such commodity or commodities in the area concerned are not adequate. The term "storage facility" includes that operating equipment which the county committee determines is necessary for the proper handling and conditioning of the agricultural commodity to be stored and without which the facility cannot be operated.

(b) Loans will not be available (1) for the refinancing, repair, remodeling, or maintenance of existing facilities, (2) for the purchase of secondhand facilities (except as specifically provided in this subpart), (3) to provide storage facilities for commodities which the borrower intends to purchase or store for others, (4) to provide storage facilities which the borrower intends to lease to others, (5) for purchase and erection or construction of facilities for storage of commodities produced by anyone on land other than that with respect to which application is made, or (6) to provide a facility where it appears, because of the type of construction, design, size, equipment, location, or otherwise, that the structure may be attached to, or become part of, or made use of, in connection with any commercial operation, including but not limited to elevators, warehouses, driers and processing plants. Any facility which is located in working proximity to any commercial operation shall be deemed to be a part of such operation for the purposes of this program.

(c) No structure shall be deemed eligible unless the county committee has determined that the storage facility is needed and that the bushel capacity proposed is in keeping with the additional farm storage requirements of the producer for the storage of eligible commodities taking into consideration existing permanent storage facilities of the producer. Storage capacity to store one year's crop shall be considered sufficient for cottonseed and storage capacity to store one year's crop plus one crop year's carryover shall be considered sufficient for all other eligible commodities.

§ 474.526. *Terms and conditions of loans*—(a) *Term of loan.* The maximum term of the loan will be approximately four years from the first anniversary date of the first disbursement of the loan, except that the term of an individual loan may be extended and re-extended for terms of not to exceed one year each if the county committee determines in writing that the borrower is unable to meet the current payment when due, because of catastrophic loss of crops or other comparable condition beyond the control of the borrower. Loans will be secured by chattel mortgages on the storage facilities, real estate mortgage, deed of trust, or other security instrument approved by CCC, on the borrower's farm or other property on which the facility is to be located; or on a sufficient acreage of the farm which, in the judgment of the county committee, will make the site easily accessible for use of other farmers in the area, and constitutes a salable unit. In case of chattel mortgage loans only, a severance agreement must be executed and acknowledged by all persons having an interest in the land on which the structure will be placed, except that a severance agreement will not be required if the storage structure is movable, is not attached to a permanent foundation and is not in excess of 2500 bushels capacity, and in the case of a structure for storage of cottonseed, 60 ton capacity. The cost of recording or filing all documents required in connection with the loan shall be paid by the borrower. Upon approval of the application for loan, the county committee will execute a commitment for the loan. Unless the loan has been totally disbursed, the loan commitment shall become null and void in four months after its date unless extended in writing by the county committee on or before its expiration date. Every application for a farm storage facility loan secured by a chattel mortgage shall be accompanied by an instrument, duly acknowledged for recording purposes, under which the owner of the premises on which the facility is to be located consents that if the farm storage facility is acquired by CCC through foreclosure or other means, such facility shall, at the option of CCC, remain on the property for a period not to exceed six months at no expense to CCC.

(b) *Amount of loan.* (1) The maximum amount loaned on any new storage facility shall not exceed the maximum amount authorized by the State committee and in no event shall exceed eighty percent of the actual out-of-pocket cost paid by the borrower, whichever is less. The borrower shall be required to furnish receipted bills, furnishing information including but not limited to showing the cost of the structure, equipment if any, and amount of down-payment, before the loan is disbursed. The cost incurred shall include the expenditures of the borrower which are necessary for the purchase, delivery, and erection of the facility, and the cost of that operating equipment which the county committee determines is necessary for the proper handling and conditioning of the eligible commodity to be stored and without which the facility cannot be operated. In computing the cost incurred, the labor performed by the applicant and other labor usually employed on the farm, the cost of all equipment placed in the facility which is not necessary for its operation, and the cost of permanent foundations for movable facilities shall be excluded.

(2) The county committee may approve loan applications, issue loan commitments, and make disbursement of loans, without prior approval of the State Committee, except as specifically provided herein, on any amount not in excess of $2,500. All loans in excess of $2,500 must be approved by the State Committee or designated employee of the State Committee prior to the issuance of loan commitment. Each application for a loan on a movable storage facility in the amount of $15,000 or over, and each application for a loan on an immovable storage facility in the amount of $25,000 or over, shall be forwarded by the county committee, together with its recommendations, to the State Committee and the State Committee shall forward such applications with its recommendations to the Deputy Administrator for Operations. A loan on a movable storage facility in an amount ranging from $15,000 to $25,000 shall not be made unless it is approved by the Deputy Administrator for Operations, and no loan commitment shall be issued in connection with such a loan prior to such approval. If the application is for a loan in excess of $25,000, the application shall be submitted by the Deputy Administrator for Operations to the Board of Directors of CCC. A loan in excess of $25,000 shall not be made unless approved by the Board of Directors, and no loan commitment shall be issued in connection with an application for a loan in excess of $25,000 unless the loan has been approved by the Board of Directors.

(3) The maximum amount loaned on any farm storage facility which CCC has previously acquired by foreclosure or other means under the program shall not exceed the maximum amount authorized by the State Committee and in no event shall exceed eighty percent of the price of purchase from Commodity Credit Corporation.

(4) In computing the capacity of the storage facility two and one-half cubic feet shall be considered equivalent to one bushel of ear corn, ninety cubic feet equivalent to one ton of cottonseed, and one and one-fourth cubic feet equivalent to one bushel of all other commodities.

(c) *Repayment of loan.* The principal of the loan shall be repayable in equal annual installments with interest

at four percent per annum on the unpaid balance. The first installment including interest shall be payable during the twelve months period beginning on the first anniversary date of the first disbursement of the loan, out of amounts due the borrower under any price support loan or purchase agreement operation carried out by the Department of Agriculture, and a like installment shall be similarly payable during the twelve months following each anniversary date thereafter until the principal together with the interest thereon has been paid in full. Payment out of such amounts shall be obtained by deduction therefrom, except that such deduction shall not exceed that portion of the proceeds remaining after deduction of service charges and amounts due prior lienholders. Unless an extension is granted by Commodity Credit Corporation in writing, each installment must be paid out of price support proceeds, in cash, or otherwise not later than the end of the applicable twelve months pay period, and failure to pay any installment by the thirtieth day after the end of such period, or extension thereof, shall mature all installments then unpaid and the entire unpaid amount of the note, without demand, notice, or other action, shall become immediately due and payable and the borrower shall be personally liable for the entire amount remaining unpaid on the loan. Any delinquent loan may be deducted and paid out of any amounts due the borrower under any program carried out by the Department of Agriculture, excepting amounts due the borrower out of appropriated funds, i. e. funds other than CCC funds, when the loan is held by a lending agency. Any payments for storage of commodities in farm storage structure under a price support or resale program due from Commodity Credit Corporation to a borrower shall be applied (1) to any delinquent amount(s), and, (2) to the borrower's storage facility loan installment which is due and payable when the storage payment is due, and (3) to any extended installment(s), each including interest. Upon breach by the maker of the note of any covenants or agreements on his part to be performed under this Bulletin, or under the mortgage or other security instrument securing the note, or under any other instruments executed in connection with the loan, or if the facility is used in connection with any commercial operation including but not limited to elevators, warehouses, driers or processing plants, during the life of the loan, the holder, at its option may declare the entire indebtedness immediately due and payable. The loan may be paid in full or in part by the borrower at any time before maturity. Upon payment of farm storage facility loans secured by mortgages or deeds to secure debts which are held by CCC or secured by deeds of trust under which CCC is beneficiary, the county committees should be requested by the borrower to release or obtain the release of such instruments of record. Upon payment of loans secured by instruments held by a lending agency or under which a lending agency is beneficiary, the lending agency should be requested by the borrower to release or obtain the release of such instrument or instruments.

(d) *Insurance.* Insurance shall be required on all immovable storage facility loans, regardless of the amount of the loan and with coverage for fire and other hazards existent in the area. Insurance shall also be required on all movable facility loans on which the amount loaned was $1,000 or more, and on loans under $1,000, when required by the State committee of any State. All insurance shall be maintained during the life of the loan and for the face value of the loan, and the cost shall be borne by the borrower, and the policy shall contain a clause making any loss thereunder payable to CCC, and to any other holder of the note secured by the storage facility as their interests may appear. If any insurance is not in effect at any time during the life of the loan or extension thereof, the loan shall be called immediately.

(e) *Maintaining storage facility.* The borrower shall be required to maintain the storage facility in condition and keep it available for storage until the loan is paid in full. The borrower shall not use the facility for any purpose other than the storage of the comomdities listed in § 474.525 (a) in the production of which he has an interest without the written consent of the county committee, except that landlords may rent the facility, for the storage of any of such commodities, together with the land on which the commodity to be stored in such facility is produced.

§ 474.527 *Disbursement of loan.* In the case of movable storage facilities, disbursement will be made in full at the time of completion of the facility and after the facility has been inspected and approved by the county committee or designated employee. In the case of immovable storage facilities, disbursement will be made either in full at the time of completion and approval of the facility by the county committee or designated employee or on a partial advance plan as elected by the borrower in his application for a loan. Under the partial advance plan, the proceeds of the loan will be disbursed in the following manner: 10 percent upon the execution of the security instrument, an additional 20 percent when the construction is one-half completed, an additional 20 percent when the construction is three-fourths completed, and the remainder when the construction is fully completed. Final and complete disbursement of the loan proceeds on movable or immovable structures will not be made under any plan until the borrower furnishes satisfactory evidence of the payment of any debts on the facility in excess of the amount discharged with the loan.

§ 474.528 *Service charge.* There shall be collected from the applicant at the time the application is made, a service charge of $5.00 or one (1) percent of the loan, whichever is greater, but in no case shall the charge be less than $5.00. If the loan is rejected or is not completed, the minimum charge of $5.00 shall be retained by the county committee and the balance returned to the applicant.

§ 474.529 *Sale or conveyance of security.* When the borrower desires to sell or convey the facilities or other property securing a loan without repaying the loan in full, he shall apply to the Chairman of the county committee for approval of the sale or conveyance on behalf of CCC. If such approval is granted, the borrower and the purchaser shall execute an assumption agreement in form prescribed by CCC under which the borrower remains liable for the balance of the indebtedness and the purchaser assumes the balance of the indebtedness and agrees to comply with all the terms, conditions, covenants, and agreements set out in the security instruments. Approval of the transaction on behalf of CCC shall be shown by signature of the Chairman of the county committee in the space provided in the assumption agreement. The Chairman of each county committee is authorized to approve such transactions on behalf of CCC with respect, to facilities located within the county, by executing the consent provision in the assumption agreement. The assumption agreement form may be obtained from the county committee office.

Issued this 11th day of June 1956.

[SEAL] WALTER C. BERGER,
*Acting Executive Vice President,*
*Commodity Credit Corporation.*

# TITLE 7—AGRICULTURE

## Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders), Department of Agriculture

### PART 922—VALENCIA ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

#### DETERMINATION RELATIVE TO EXPENSES AND FIXING OF RATE OF ASSESSMENT FOR THE 1955–56 FISCAL YEAR

Notice was published in the May 24, 1956, daily issue of FEDERAL REGISTER (21 F. R. 3460) that consideration was being giving to the proposals regarding the expenses and the fixing of the rate of assessment for the 1955–56 fiscal year under Order No. 22 (7 CFR Part 922), regulating the handling of Valencia oranges grown in Arizona and designated part of California, effective March 31, 1954, under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.). After consideration of all relevant matters presented, including the proposals set forth in such notice which were submitted by the Valencia Orange Administrative Committee (established pursuant to said order), it is hereby found and determined that:

§ 922.203 *Expenses and rate of assessment for the 1955–56 fiscal year*—(a) *Expenses.* The expenses necessary to be incurred by the Valencia Orange Administrative Committee, established pursuant to the provisions of the aforesaid order, to enable such committee to perform its functions, in accordance with the provisions thereof, during the 1955–56 fiscal year (November 1, 1955, through October 31, 1956), will amount to $176,022.00.

(b) *Rate of assessment.* The rate of assessment, which each handler who first handles oranges shall pay as his pro rata share of the aforesaid expenses in accordance with the applicable provisions of said order is hereby fixed at seven and one-half mills ($0.0075) per carton of oranges handled by such handler as the first handler thereof during the 1955–56 fiscal year.

It is hereby further found that it is impracticable and contrary to the public interest to postpone the effective time hereof until 30 days after publication in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) in that (1) shipments of oranges from Arizona and designated part of California are now being made; (2) the rate of assessment is applicable to all oranges handled during the 1955–56 fiscal year; (3) the provisions hereof do not impose any obligation on a handler until such handler handles oranges; and (4) it is essential that the specification of the assessment rate be issued immediately so that the aforesaid assessments may be collected and thereby enable the Valencia Orange Administrative Committee to perform its duties and functions in accordance with said order.

As used in this section, "handle," "handler," "oranges," and "fiscal year" shall have the same meaning as is given to each such term in said order; and "carton" shall mean the standard one-half orange, grapefruit or lemon box set forth as standard container number 58 in section 828.83, as amended, of the Agricultural Code of California.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Dated: June 11, 1956.

[SEAL] ROY W. LENNARTSON,
*Deputy Administrator.*

[F. R. Doc. 56-4699; Filed, June 13, 1956; 8:48 a. m.]

### PART 936—FRESH BARTLETT PEARS, PLUMS, AND ELBERTA PEACHES GROWN IN CALIFORNIA

#### FINDINGS AND DETERMINATIONS RELATIVE TO EXPENSES TO BE INCURRED AND FIXING OF RATES OF ASSESSMENT FOR THE 1956–57 SEASON

On May 24, 1956, notice of proposed rule making was published in the FEDERAL REGISTER (21 F. R. 3460) regarding the expenses and the fixing of the rates of assessment for the 1956–57 season pursuant to the marketing agreement, as amended, and Order No. 36, as amended (7 CFR Part 936), regulating the handling of fresh Bartlett pears, plums, and Elberta peaches grown in the State of California. This regulatory program is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.). After consideration of all relevant matters presented, including the proposals which were submitted by the Control Committee (established pursuant to said amended marketing agreement and order) and set forth in the aforesaid notice, it is hereby found and determined that:

§ 936.210 *Expenses and rates of assessment for the 1956–57 season*—(a) *Expenses.* The expenses likely to be incurred by the Control Committee during the 1956–57 season beginning March 1, 1956, and ending February 28, 1957, both dates inclusive, for the maintenance and functioning of such committee and the respective commodity committees, established pursuant to the provisions of the aforesaid amended marketing agreement and order, are as follows:

(1) Bartlett pears, $23,154.45;

(2) Early varieties of plums, $18,513.23;

(3) Late varieties of plums, $19,789.84; and

(4) Elberta peaches, $19,477.48.

(b) *Rates of assessment.* The following rates of assessment, which each handler shall pay in accordance with the applicable provisions of said amended marketing agreement and order, are hereby fixed as the respective handler's pro rata share of the aforesaid expenses:

(1) 8½ mills ($0.0085) per standard western pear box of Bartlett pears, or its equivalent in other containers or in bulk;

(2) 9 mills ($0.009) per standard four-basket crate of early varieties of plums, or its equivalent in other containers or in bulk;

(3) 9 mills ($0.009) per standard four-basket crate of late varieties of plums, or its equivalent in other containers or in bulk, and

(4) 4 mills ($0.004) per California peach box of Elberta peaches, or its equivalent in other containers or in bulk.

It is hereby further found that it is impracticable and contrary to the public interest to postpone the effective date hereof until 30 days after publication in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) in that (1) the respective rates of assessment are applicable to all fresh Bartlett pears, early varieties of plums, late varieties of plums, and Elberta peaches shipped during the 1956–57 season; (2) shipments of plums have already commenced and shipments of Elberta peaches are expected to begin on or about June 25, 1956, with shipments of Bartlett pears following on or about July 15, 1956; (3) the provisions hereof do not impose any obligation on a handler until such handler ships plums, Elberta peaches or Bartlett pears; and (4) it is essential that the specification of the assessment rates be issued immediately so that the aforesaid assessment may be collected and thereby enable the said Control Committee and commodity committees to perform their duties and functions in accordance with said amended marketing agreement and order.

Terms used in the amended marketing agreement and order shall, when used herein, have the same meaning as is given to the respective term in said amended marketing agreement and order.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Dated: June 11, 1956.

[SEAL] ROY W. LENNARTSON,
*Deputy Administrator.*

# TITLE 16—COMMERCIAL PRACTICES

## Chapter I—Federal Trade Commission

[Docket 6136]

### PART 13—DIGEST OF CEASE AND DESIST ORDERS

#### PREMIER PILLOW CORPORATION ET AL.

Subpart—*Misbranding or mislabeling:* § 13.1185 *Composition:* § 13.1200 *Content.*

(Sec. 6, 38 Stat. 721; 15 U. S. C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended; 15 U. S. C. 45) [Cease and desist order, Premier Pillow Corp. et al., Brooklyn, N. Y., Docket 6136, May 25, 1956]

*In the Matter of Premier Pillow Corporation, a Corporation, and Louis Silverman, Samuel Shipper, and Isador Shipper, Individually*

This proceeding was heard by a hearing examiner on the complaint of the Commission, charging a corporate manufacturer of feather and down pillows and its officers, with principal office in Brooklyn, N. Y., with labeling certain of their pillows as "All New Material Consisting of" variously "Crushed Goose Feathers", "Crushed Duck Feathers", "Crushed Duck Quill", or "Crushed Goose Quill"; when analysis of the content of the pillows showed that they were not accurately labeled within the 15 percent tolerance specified in the feather industry trade practice rules.

After answer and hearings in due course, respondents filed a motion to dismiss the proceeding for lack of public interest, which was granted by the hearing examiner in an initial decision. On appeal, the initial decision was vacated and set aside, the case remanded, and a further hearing held at which respondents waived their right to presentation of evidence in their behalf.

Based on the entire record, the hearing examiner made his initial decision, including findings of fact [1], conclusions [1], and order to cease and desist, which became, on May 25, 1956, the decision of the Commission.

The order to cease and desist is as follows:

*It is ordered,* That the respondents, Premier Pillow Corporation, a corporation, and Louis Silverman, Samuel Shipper, and Isador Shipper, individually, and as officers of said corporation, and their representatives, agents, and employees, directly or through any corporate or other device, in connection with the offering for sale, sale, or distribution in commerce, as "commerce" is defined in the Federal Trade Commission Act, of feather and down products, including pillows, do forthwith cease and desist

[1] Filed as part of original document.

from misrepresenting in any manner, or by any means, directly or by implication, the identitiy of the kind or type of filling material contained in any such products, or of the kinds or types, and proportions of each, when the filling material is a mixture of more than one kind or type.

By "Decision of the Commission", etc., report of compliance was required as follows:

*It is ordered,* That respondents Premier Pillow Corporation, a corporation, and Louis Silverman, Samuel Shipper, and Isador Shipper, individually, shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with the order to cease and desist.

By the Commission, Commissioner Kern not participating.

Issued: May 25, 1956.

[Docket 6507]

## PART 13—DIGEST OF CEASE AND DESIST ORDERS

### TRION, INC.

Subpart—*Advertising falsely or misleadingly:* § 13.170 *Qualities or properties of product or service.*

(Sec. 6, 38 Stat. 721; 15 U. S. C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended; 15 U. S. C. 45) [Cease and desist order, Trion, Inc., McKees Rocks, Pa., Docket 6507, May 29, 1956]

This proceeding was heard by a hearing examiner on the complaint of the Commission—charging a corporate manufacturer with home office in McKees Rocks, Pa., with representing falsely in advertising in newspapers and periodicals, by circulars, and otherwise, through use of such statements as "Fewer Colds and Other Diseases", "Over 90 percent of air-borne bacteria and virus is removed", etc., that use of its "Trion Electric Air Cleaner" device would afford protection from colds and other respiratory infections—and an agreement containing a consent order to cease and desist disposing of all the issues without hearing.

On this basis, the hearing examiner made his initial decision and order to cease and desist which became, on May 29, 1956, the decision of the Commission.

The order to cease and desist is as follows:

*It is therefore ordered,* That the respondent Trion, Inc., a corporation, its officers, agents, representatives, and employees, directly or through any corporate or other device, in connection with the sale, offering for sale or distribution of a device designated as Trion Electronic Air Cleaner, or any other device of substantially similar character, whether sold under the same name or any other name, do forthwith cease and desist from, directly or indirectly:

1. Disseminating or causing to be disseminated by means of the United States mails, or by any other means in commerce, as "commerce" is defined in the Federal Trade Commission Act, any advertisement which represents directly or by implication that the use of respondent's device will afford protection from or will effectively prevent the spread of colds or similar respiratory infections;

2. Disseminating or causing to be disseminated, any advertisement by any means for the purpose of inducing, or which is likely to induce, directly or indirectly, the purchase in commerce, as "commerce" is defined in the Federal Trade Commission Act, of respondent's device, which advertisement falls to comply with the requirements set forth in paragraph 1 hereof.

By "Decision of the Commission", etc., report of compliance was required as follows:

*It is ordered,* That the respondent herein shall, within sixty (60) days after service upon it of this order, file with the Commission a report in writing setting forth in detail the manner and form in which it has complied with the order to cease and desist.

By the Commission.

Issued: May 29, 1956.

[Docket 6511]

## PART 13—DIGEST OF CEASE AND DESIST ORDERS

### FALLS YARN MILLS, INC., ET AL.

Subpart—*Invoicing products falsely:* § 13.1108 *invoicing products falsely:* Wool Products Labeling Act. Subpart—*Misbranding or mislabeling:* § 13.1190 *Composition:* Wool Products Labeling Act; § 13.1212 *Formal regulatory and statutory requirements:* Wool Products Labeling Act.[1] Subpart—*Neglecting, unfairly or deceptively, to make material disclosure:* § 13.1845 *Composition:* Wool Products Labeling Act; § 13.1852 *Formal regulatory and statutory requirements:* Wool Products Labeling Act.[1]

(Sec. 6, 38 Stat. 721; 15 U. S. C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended, secs. 2-5, 54 Stat. 1128-1130; 15 U. S. C. 45, 68-68 (c)) [Cease and desist order, Falls Yarn Mills, Inc., et al., Woonsocket, R. I., Docket 6511, May 24, 1956]

*In the matter of Falls Yarn Mills, Inc., a Corporation, and John Cavedon, Sr., Individually and as an Officer of Said Corporation, and John Cavedon, Jr., Individually*

This proceeding was heard by a hearing examiner on the complaint of the Commission—charging a corporation and its officers, with place of business in Woonsocket, R. I., with labeling and invoicing cones of yarn as "65 percent 70-80 Lambs' Wool—30 percent mink 5 percent nylon" when the cones contained substantially less than 30 percent mink fur fibers—and an agreement between counsel providing for entry of a consent order.

On this basis, the hearing examiner made his initial decision and order to cease and desist, which became on May 24, 1956, the decision of the Commission.

The order to cease and desist is as follows:

*It is ordered,* That respondent, Falls Yarn Mills, Inc., a corporation, and its officers; respondent John Cavedon, Jr., individually and as an officer of said corporation, and respondent John Cavedon, Sr., individually and as an officer of said corporation, and respondents' representatives, agents and employees, directly or through any corporate or other device, in connection with the introduction or manufacture for introduction into commerce, or the offering for sale, sale, transportation or distribution in commerce, as "commerce" is defined in the Federal Trade Commission Act and the Wool Products Labelling Act of 1939, of yarns or any other wool products, as such products are defined in and subject to the Wool Products Labeling Act of 1939, which products contain, purport to contain, or in any way are represented as containing "wool", "reprocessed wool" or "reused wool", as those terms are defined in said act, do forthwith cease and desist from misbranding such products by

1. Falsely or deceptively stamping, tagging, labeling or otherwise identifying such products as to the character or amount of the constituent fibers included therein;

2. Failing to securely affix to or place on each such product a stamp, tag, label or other means of identification showing in a clear and conspicuous manner:

(a) The percentage of the total fiber weight of such wool product, exclusive of ornamentation not exceeding five percentum of said total fiber weight, of (1) wool, (2) reprocessed wool, (3) reused wool, (4) each fiber other than wool where said percentages by weight of such fiber is five percentum or more, and (5) the aggregate of all other fibers;

(b) The maximum percentage of the total weight of such wool product of any nonfibrous loading, filling, or adulterating matter;

(c) The name or the registered identification number of the manufacturer of such wool product or of one or more persons engaged in introducing such wool product into commerce, or in the offering for sale, sale, transportation, distribution or delivery for shipment thereof in commerce, as "commerce" is defined in the Wool Products Labeling Act of 1939:

*Provided,* That the foregoing provisions concerning misbranding shall not be construed to prohibit acts permitted by paragraphs (a) and (b) of section 3 of the Wool Products Labeling Act of 1939, and

*Provided, further,* That nothing contained in this order shall be construed as limiting any applicable provisions of said act or the rules and regulations promulgated thereunder.

*It is further ordered,* That Falls Yarn Mills, Inc., a corporation, and its officers, and John Cavedon, Jr., individually and as an officer of said corporation, and John Cavedon, Sr., individually and as an officer of said corporation, and respondents' representatives, agents and employees, directly or through any corporate or other device, in connection with the offering for sale, sale or distribution of yarn or any other products in commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from: Misrepresenting the constituent fibers of which their products are composed or the percentages or amounts thereof, in sales invoices, shipping memoranda or in any other manner.

By "Decision of the Commission", etc., report of compliance was required as follows:

*It is ordered,* That respondents Falls Yarn Mills, Inc., a corporation, and John Cavedon, Sr., individually and as an officer of said corporation, and John Cavedon, Jr., individually and as an officer of said corporation, shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with the order to cease and desist.

By the Commission.

Issued: May 24, 1956.

# TITLE 26—INTERNAL REVENUE, 1954

## Chapter I—Internal Revenue Service, Department of the Treasury

### Subchapter A—Income Tax

[T. D. 6183]

## PART 1—INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1953

### SPECIAL DEDUCTIONS FOR CORPORATIONS

On April 20, 1955, notice of proposed rule making regarding the regulations for taxable years beginning after December 31, 1953, and ending after August 16, 1954, except where otherwise provided therein, under sections 241 through 248 of the Internal Revenue Code of 1954, was published in the FEDERAL REGISTER (20 F. R. 2618). After consideration of all such relevant matter as was presented by interested persons regarding the rules proposed, the following regulations, which supersede paragraph (7) of Treasury Decision 6118, approved December 30, 1954, are hereby adopted:

Sec.
1.241 Statutory provisions; allowance of special deductions.
1.241-1 Allowance of special deductions.
1.242 Statutory provisions; partially tax-exempt interest.
1.242-1 Deduction for partially tax-exempt interest.
1.243 Statutory provisions; dividends received by corporations.
1.243-1 Deduction for dividends received by corporations.
1.243-2 Special rules for certain distributions.
1.244 Statutory provisions; dividends received on certain preferred stock.
1.244-1 Deduction for dividends received on certain preferred stock.
1.244-2 Computation of deduction.
1.245 Statutory provisions; dividends received from certain foreign corporations.
1.245-1 Deduction for dividends received from certain foreign corporations.
1.246 Statutory provisions; rules applying to deductions for dividends received.
1.246-1 Deductions not allowed for dividends from certain corporations.
1.246-2 Limitation on aggregate amount of deductions.
1.247 Statutory provisions; dividends paid on certain preferred stock of public utilities.
1.247-1 Deduction for dividends paid on preferred stock of public utilities.
1.248 Statutory provisions; organizational expenditures.
1.248-1 Election to amortize organizational expenditures.

AUTHORITY: §§ 1.241 to 1.248-1, issued under sec. 7805, 68A Stat. 917; 26 U. S. C. 7805. Interpret or apply secs. 247, 248, 68A Stat. 75, 76; 26 U. S. C. 247, 248.

§ 1.241 *Statutory provisions; allowance of special deductions.*

SEC. 241. *Allowance of special deductions.* In addition to the deductions provided in part VI (sec. 161 and following), there shall be allowed as deductions in computing taxable income the items specified in this part.

§ 1.241-1 *Allowance of special deductions.* A corporation, in computing its taxable income, is allowed as deductions the items specified in part VIII of subchapter B of chapter 1 (sections 242 through 248) in addition to the deductions provided in part VI (section 161 and following).

§ 1.242 *Statutory provisions; partially tax-exempt interest.*

SEC. 242. *Partially tax-exempt interest—*(a) *Allowance of deduction.* There shall be allowed to a corporation as a deduction the amount received as interest on obligations of the United States or on obligations of corporations organized under Act of Congress which are instrumentalities of the United States, but only if—

(1) Such interest is included in gross income; and

(2) Such interest is exempt from normal tax under the Act authorizing the issuance of such obligations.

(b) *Cross reference.* For reduction of deduction under subsection (a) on account of amortizable bond premium, see section 171.

§ 1.242-1 *Deduction for partially tax-exempt interest.* A corporation is allowed a deduction under section 242 (a) in an amount equal to certain interest received on obligations of the United States, or on obligations of corporations organized under acts of Congress which are instrumentalities of the United States. The interest for which a deduction shall be allowed is interest which is included in gross income and which is exempt from normal tax under the act, as amended and supplemented, which authorized the issuance of the obligations.

§ 1.243 *Statutory provisions; dividends received by corporations.*

SEC. 243. *Dividends received by corporations—*(a) *General rule.* In the case of a corporation, there shall be allowed as a deduction an amount equal to 85 percent of the amount received as dividends (other than dividends described in paragraph (1) of section 244, relating to dividends on the preferred stock of a public utility) from a domestic corporation which is subject to taxation under this chapter.

(b) *Special rules for certain distributions.* For purposes of subsection (a)—

(1) Any amount allowed as a deduction under section 591 (relating to deduction for dividends paid by mutual savings banks, etc.) shall not be treated as a dividend.

(2) A dividend received from a regulated investment company shall be subject to the limitations prescribed in section 854.

§ 1.243-1 *Deduction for dividends received by corporations.* (a) A corporation is allowed a deduction under section 243 (a) for dividends received from a domestic corporation which is subject to taxation under chapter 1 of the Internal Revenue Code. The deduction for a taxable year, except as provided in subsection (b) of section 243 and in section 246, is an amount equal to 85 percent of such dividends received by the corporation during the taxable year. To determine the amount of the distribution to a recipient corporation and the amount of the dividend, see §§ 1.301-1 and 1.316-1.

(b) The deduction allowed by section 243 shall be determined without regard to any dividends described in paragraph (1) of section 244 (relating to dividends on the preferred stock of a public utility). That is, such deduction shall be determined without regard to any dividends received on the preferred stock of a public utility which is subject to taxation under chapter 1 of the Internal Revenue Code and with respect to which a deduction is allowed by section 247 (relating to dividends paid on certain preferred stock of public utilities). For a deduction with respect to such dividends received on the preferred stock of a public utility, see section 244. If a deduction for dividends paid is not allowable to the distributing corporation under section 247 with respect to the dividends on its preferred stock, such dividends received from a domestic public utility corporation subject to taxation under chapter 1 of the Internal Revenue Code are includible in determining the deduction allowed by section 243 (a).

(c) For limitation of dividends received deduction, see section 246 and the regulations thereunder.

§ 1.243-2 *Special rules for certain distributions—*(a) *Dividends paid by mutual savings banks, etc.* In determining the deduction provided in section 243 (a), any amount allowed as a deduction under section 591 (relating to deduction for dividends paid by mutual savings banks, cooperative banks, and domestic building and loan associations) shall not be considered as a dividend.

(b) *Dividends received from regulated investment companies.* In determining the deduction provided in section 243

(a), dividends received from a regulated investment company shall be subject to the limitations provided in section 854.

§ 1.244 *Statutory provisions; dividends received on certain preferred stock.*

SEC. 244. *Dividends received on certain preferred stock.* In the case of a corporation, there shall be allowed as a deduction an amount computed as follows:

(1) First determine the amount received as dividends on the preferred stock of a public utility which is subject to taxation under this chapter and with respect to which the deduction provided in section 247 for dividends paid is allowable.

(2) Then multiply the amount determined under paragraph (1) by the fraction—

(A) The numerator of which is 14 percent, and

(B) The denominator of which is that percentage which equals the sum of the normal tax rate and the surtax rate for the taxable year prescribed by section 11.

(3) Finally ascertain the amount which is 85 percent of the excess of—

(A) The amount determined under paragraph (1), over

(B) The amount determined under paragraph (2).

§ 1.244–1 *Deduction for dividends received on certain preferred stock.* A corporation is allowed a deduction under section 244 for dividends received on certain preferred stock of certain public utility corporations subject to taxation under chapter 1 of the Internal Revenue Code. The deduction is allowable only for dividends received on the preferred stock of a public utility with respect to which the deduction for dividends paid provided in section 247 (relating to dividends paid on certain preferred stock of public utilities) is allowable to the distributing corporation.

§ 1.244–2 *Computation of deduction.* (a) Section 244 provides a specific rule for the computation of the deduction for dividends received on the preferred stock of a public utility. The deduction computed under section 244 is subject to the limitation provided in section 246.

(b) The computation of the deduction provided in section 244 may be illustrated by the following examples:

*Example (1).* Corporation A, which files its income tax returns on the calendar year basis, received in 1954 $100,000 as dividends on the preferred stock of Corporation B, a public utility corporation which is subject to taxation under chapter 1 of the Internal Revenue Code. The deduction provided in section 247 is allowable to Corporation B, the distributing corporation, with respect to these dividends. The corporation normal tax rate and the surtax rate for the calendar year 1954 are 30 percent and 22 percent, respectively. The deduction allowable to Corporation A under section 244 for the year 1954 with respect to these dividends is $62,115.38, computed as follows:

| | |
|---|---|
| Dividends received on preferred stock of Corporation B | $100,000.00 |
| Less: The fraction specified in section 244 (2) 1½₂ × $100,000 | 26,923.08 |
| Amount subject to 85 percent deduction | 73,076.92 |
| Deduction: 85 percent of $73,076.92 | 62,115.38 |

*Example (2).* Assume the facts are the same as in example (1) except that the year involved is a taxable year for which the corporation normal tax rate and the surtax rate are 25 percent and 22 percent, respectively. The deduction allowable to Corporation A under section 244 for that taxable year is $59,680.85, computed as follows:

| | |
|---|---|
| Dividends received on preferred stock of Corporation B | $100,000.00 |
| Less: The fraction specified in section 244 (2) 1¹⁄₁₇ × $100,000 | 29,787.23 |
| Amount subject to 85 percent deduction | 70,212.77 |
| Deduction: 85 percent of $70,212.17 | 59,680.85 |

§ 1.245 *Statutory provisions; dividends received from certain foreign corporations.*

SEC. 245. *Dividends received from certain foreign corporations.* In the case of dividends received from a foreign corporation (other than a foreign personal holding company) which is subject to taxation under this chapter, if, for an uninterrupted period of not less than 36 months ending with the close of such foreign corporation's taxable year in which such dividends are paid (or, if the corporation has not been in existence for 36 months at the close of such taxable year, for the period the foreign corporation has been in existence as of the close of such taxable year) such foreign corporation has been engaged in trade or business within the United States and has derived 50 percent or more of its gross income from sources within the United States, there shall be allowed as a deduction in the case of a corporation—

(1) An amount equal to the percent (specified in section 243 for the taxable year) of the dividends received out of its earnings and profits specified in paragraph (2) of the first sentence of section 316 (a), but such amount shall not exceed an amount which bears the same ratio to such percent of such dividends received out of such earnings and profits as the gross income of such foreign corporation for the taxable year from sources within the United States bears to its gross income from all sources for such taxable year, and

(2) An amount equal to the percent (specified in section 243 for the taxable year) of the dividends received out of that part of its earnings and profits specified in paragraph (1) of the first sentence of section 316 (a) accumulated after the beginning of such uninterrupted period, but such amount shall not exceed an amount which bears the same ratio to such percent of such dividends received out of such accumulated earnings and profits as the gross income of such foreign corporation from sources within the United States for the portion of such uninterrupted period ending at the beginning of such taxable year bears to its gross income from all sources for such portion of such uninterrupted period.

§ 1.245–1 *Deduction for dividends received from certain foreign corporations.* (a) A corporation is allowed a deduction under section 245 for dividends received from a foreign corporation (other than a foreign personal holding company as defined in section 552) which is subject to taxation under chapter 1 of the Internal Revenue Code if, for an uninterrupted period of not less than 36 months ending with the close of the foreign corporation's taxable year in which the dividends are paid, such foreign corporation has been engaged in trade or business within the United States and has derived 50 percent or more of its gross income from sources within the United States. If the foreign corporation has been in existence less than 36 months as of the close of the taxable year in which the dividends are paid, then the applicable uninterrupted period to be taken into consideration in lieu of the uninterrupted period of 36 or more months is the entire period such corporation has been in existence as of the close of such taxable year. An uninterrupted period which satisfies the twofold requirement with respect to business activity and gross income may start at a date later than the date on which the foreign corporation first commenced an uninterrupted period of engaging in trade or business within the United States, but the applicable uninterrupted period is in any event the longest uninterrupted period which satisfies such twofold requirement.

(b) The deduction provided in section 245 for a taxable year, except as provided in section 246, is the sum of the amounts computed under paragraphs (1) and (2) of section 245.

(c) The determination of earnings and profits distributed in any taxable year shall be made in accordance with the principles of section 316 (a). For the determination of the source of income, see part I of subchapter N of chapter 1 (sections 861 through 864) and the regulations thereunder.

(d) The application of section 245 may be illustrated by the following examples:

*Example (1).* Corporation A (a foreign corporation filing its income tax returns on a calendar year basis) whose stock is 100 percent owned by Corporation B (a domestic corporation filing its income tax returns on a calendar year basis) for the first time engaged in trade or business within the United States on January 1, 1943, and qualifies under section 245 for the entire period beginning on that date and ending on December 31, 1954. Corporation A had accumulated earnings and profits of $50,000 immediately prior to January 1, 1943, and had earnings and profits of $10,000 for each taxable year during the uninterrupted period from January 1, 1943, through December 31, 1954. It derived for the period from January 1, 1943, through December 31, 1953, 90 percent of its gross income from sources within the United States and in 1954 derived 95 percent of its gross income from sources within the United States. During the calendar years 1943, 1944, 1945, 1946, and 1947 Corporation A distributed in each year $15,000; during the calendar years 1948, 1949, 1950, 1951, 1952, and 1953 it distributed in each year $5,000; and during the year 1954, $50,000. An analysis of the accumulated earnings and profits under the above statement of facts discloses that at December 31, 1953, the accumulation amounted to $55,000, of which $25,000 was accumulated prior to the "uninterrupted period" and $30,000 was accumulated during the uninterrupted period. (See section 316 (a) and paragraph (c) of this section.) For 1954 a deduction under section 245 of $31,025 ($8,075 on 1954 earnings of the foreign corporation, plus $22,950 from the $30,000 accumulation at December 31, 1953) for dividends received from a foreign corporation is allowable to Corporation B with respect to the $50,000 received from Corporation A, computed as follows:

(i) $8,075, which is $8,500 (85 percent—the percent specified in section 243 for the calendar year 1954—of the $10,000 of earnings and profits of the taxable year) multiplied by 95 percent (the portion of the gross income of Corporation A derived during the taxable year 1954 from sources within the United States), plus

(ii) $22,950, which is $25,500 (85 percent—the percent specified in section 243 for the calendar year 1954—of $30,000, the part of the earnings and profits accumulated after the beginning of the uninterrupted period) multiplied by 90 percent (the portion of the gross income of Corporation A derived from sources within the United States during that portion of the uninterrupted period ending at the beginning of the taxable year 1954).

*Example (2).* If in example (1), Corporation A for the taxable year 1954 had incurred a deficit of $10,000 (shown to have been incurred before December 31) the amount of the earnings and profits accumulated after the beginning of the uninterrupted period would be $20,000. If Corporation A had distributed $50,000 on December 31, 1954, the deduction under section 245 for dividends received from a foreign corporation allowable to Corporation B for 1954 would be $15,300, computed by multiplying $17,000 (85 percent—the percent specified in section 243 for the calendar year 1954—of $20,000 earnings and profits accumulated after the beginning of the uninterrupted period) by 90 percent (the portion of the gross income of Corporation A derived from United States sources during that portion of the uninterrupted period ending at the beginning of the taxable year 1954).

§ 1.246 *Statutory provisions; rules applying to deductions for dividends received.*

SEC. 246. *Rules applying to deductions for dividends received*—(a) *Deduction not allowed for dividends from certain corporations.* The deductions allowed by sections 243, 244, and 245 shall not apply to any dividend from—

(1) A corporation organized under the China Trade Act, 1922 (see sec. 941); or

(2) A corporation which, for the taxable year of the corporation in which the distribution is made, or for the next preceding taxable year of the corporation, is—

(A) A corporation exempt from tax under section 501 (relating to certain charitable, etc., organizations) or section 521 (relating to farmers' cooperative associations); or

(B) A corporation to which section 931 (relating to income from sources within possessions of the United States) applies.

(b) *Limitation on aggregate amount of deductions*—(1) *General rule.* Except as provided in paragraph (2), the aggregate amount of the deductions allowed by sections 243, 244, and 245 shall not exceed 85 percent of the taxable income computed without regard to the deductions allowed by sections 172, 243, 244, 245, and 247.

(2) *Effect of net operating loss.* Paragraph (1) shall not apply for any taxable year for which there is a net operating loss (as determined under section 172).

§ 1.246–1 *Deductions not allowed for dividends from certain corporations.* The deductions provided in sections 243 (relating to dividends received by corporations), 244 (relating to dividends received on certain preferred stock), and 245 (relating to dividends received from certain foreign corporations), are not allowable with respect to any dividend received from:

(a) A corporation organized under the China Trade Act, 1922 (15 U. S. C. ch. 4) (see section 941); or

(b) A corporation which is exempt from tax under section 501 (relating to certain charitable, etc., organizations) or section 521 (relating to farmers' cooperative associations) for the taxable year of the corporation in which the distribution is made or for its next preceding taxable year; or

(c) A corporation to which section 931 (relating to income from sources within possessions of the United States) applies for the taxable year of the corporation in which the distribution is made or for its next preceding taxable year.

§ 1.246–2 *Limitation on aggregate amount of deductions*—(a) *General rule.* The sum of the deductions allowed by sections 243 (relating to dividends received by corporations), 244 (relating to dividends received on certain preferred stock), and 245 (relating to dividends received from certain foreign corporations), except as provided in section 246 (b) (2) and in paragraph (b) of this section, is limited to 85 percent of the taxable income of the corporation. The taxable income of the corporation for this purpose is computed without regard to the net operating loss deduction allowed by section 172, the deduction for dividends paid on certain preferred stock of public utilities allowed by section 247, and the deductions provided in sections 243, 244, and 245. For definition of the term "taxable income", see section 63.

(b) *Effect of net operating loss.* If the shareholder corporation has a net operating loss (as determined under section 172) for a taxable year, the limitation provided in section 246 (b) (1) and in paragraph (a) of this section is not applicable for such taxable year. In that event, the deductions provided in sections 243, 244, and 245 shall be allowable for all tax purposes to the shareholder corporation for such taxable year without regard to such limitation. If the shareholder corporation does not have a net operating loss for the taxable year, however, the limitation will be applicable for all tax purposes for such taxable year. In determining whether the shareholder corporation has a net operating loss for a taxable year under section 172, the deductions allowed by sections 243, 244, and 245 are to be computed without regard to the limitation provided in section 246 (b) (1) and in paragraph (a) of this section.

§ 1.247 *Statutory provisions; dividends paid on certain preferred stock of public utilities.*

SEC. 247. *Dividends paid on certain preferred stock of public utilities*—(a) *Amount of deduction.* In the case of a public utility, there shall be allowed as a deduction an amount computed as follows:

(1) First determine the amount which is the lesser of—

(A) The amount of dividends paid during the taxable year on its preferred stock, or

(B) The taxable income for the taxable year (computed without the deduction allowed by this section).

(2) Then multiply the amount determined under paragraph (1) by the fraction—

(A) The numerator of which is 14 percent, and

(B) The denominator of which is that percentage which equals the sum of the normal tax rate and the surtax rate for the taxable year specified in section 11.

For purposes of the deduction provided in this section, the amount of dividends paid shall not include any amount distributed in the current taxable year with respect to dividends unpaid and accumulated in any taxable year ending before October 1, 1942. Amounts distributed in the current taxable year with respect to dividends unpaid and accumulated for a prior taxable year shall for purposes of this subsection be deemed to be distributed with respect to the earliest year or years for which there are dividends unpaid and accumulated.

(b) *Definitions.* For purposes of this section and section 244—

(1) *Public utility.* The term "public utility" means a corporation engaged in the furnishing of telephone service or in the sale of electrical energy, gas, or water, if the rates for such furnishing or sale, as the case may be, have been established or approved by a State or political subdivision thereof or by an agency or instrumentality of the United States or by a public utility or public service commission or other similar body of the District of Columbia or of any State or political subdivision thereof.

(2) *Preferred stock.* The term "preferred stock" means stock issued before October 1, 1942, which during the whole of the taxable year (or the part of the taxable year after its issue) was stock the dividends in respect of which were cumulative, limited to the same amount, and payable in preference to the payment of dividends on other stock. Stock issued on or after October 1, 1942, shall be deemed for purposes of this paragraph to have been issued before October 1, 1942, if it was issued (including issuance either by the same or another corporation in a transaction which is a reorganization (as defined in section 368 (a)), a transaction to which section 371 (relating to insolvency reorganizations) applies, or a transaction subject to part VI of subchapter O (relating to exchanges in SEC obedience orders), or the respectively corresponding provisions of the Internal Revenue Code of 1939) to refund or replace bonds or debentures issued before October 1, 1942, or to refund or replace other preferred stock (including stock which is preferred stock by reason of this sentence), but only to the extent that the par or stated value of the new stock does not exceed the par, stated, or face value of the bonds or debentures issued before October 1, 1942, or the other preferred stock, which such new stock is issued to refund or replace. The determination of whether stock was issued to refund or replace bonds or debentures issued before October 1, 1942, or to refund or replace other preferred stock, shall be made under regulations prescribed by the Secretary or his delegate.

§ 1.247–1 *Deduction for dividends paid on preferred stock of public utilities*—(a) *Amount of deduction.* (1) A deduction is provided in section 247 for dividends paid during the taxable year by certain public utility corporations (see paragraph (b) of this section) on certain preferred stock (see paragraph (c) of this section). This deduction is an amount equal to the product of a specified fraction times the lesser of (i) the amount of the dividends paid during the taxable year by a public utility on its preferred stock (as defined in paragraph (c) of this section), or (ii) the taxable income of the public utility for such taxable year (computed without regard to the deduction allowed by section 247). The specified fraction for any taxable year is the fraction the numerator of which is 14 and the denominator of which is the sum of the corporation normal tax rate and the surtax rate for such taxable year specified in section 11. Since section 11 provides that for the calendar year 1954 the corporation normal tax rate is 30 percent and the surtax

rate is 22 percent, the sum of the two tax rates is 52 percent and the specified fraction for the calendar year 1954 is 1⅓₂. If, for example, section 11 should specify that the corporation's normal tax rate is 25 percent and the surtax rate is 22 percent for the calendar year, the sum of the two tax rates will be 47 percent and the specified fraction for the calendar year will be 1⅓₇. If Corporation A, a public utility which files its income tax return on the calendar year basis, pays $100,000 dividends on its preferred stock in the calendar year 1954 and if its taxable income for such year is greater than $100,000 the deduction allowable to Corporation A under section 247 for 1954 is $100,000 times 1⅓₂, or $26,923.08. If in 1954 Corporation A's taxable income, computed without regard to the deduction provided in section 247, had been $90,000 (that is, less than the amount of the dividends which it paid on its preferred stock in that year), the deduction allowable under section 247 for 1954 would have been $90,000 times 1⅓₂, or $24,230.77.

(2) For the purpose of determining the amount of the deduction provided in section 247 (a) and in subparagraph (1) of this paragraph, the amount of dividends paid in a given taxable year shall not include any amount distributed in such year with respect to dividends unpaid and accumulated in any taxable year ending before October 1, 1942. If any distribution is made in the current taxable year with respect to dividends unpaid and accumulated for a prior taxable year, such distribution will be deemed to have been made with respect to the earliest year or years for which there are dividends unpaid and accumulated. Thus, if a public utility makes a distribution with respect to a prior taxable year, it shall be considered that such distribution was made with respect to the earliest year or years for which there are dividends unpaid and accumulated, whether or not the public utility states that the distribution was made with respect to such year or years and even though the public utility states that the distribution was made with respect to a later year. Even though it has dividends unpaid and accumulated with respect to a taxable year ending before October 1, 1942, a public utility may, however, include the dividends paid with respect to the current taxable year in computing the deduction under section 247. If there are no dividends unpaid and accumulated with respect to a taxable year ending before October 1, 1942, a public utility may include the dividends paid with respect to a prior taxable year which ended after October 1, 1942, in computing the deduction under section 247; such public utility in addition may include the dividends paid with respect to the current taxable year in computing the deduction under section 247. However, if local law or its own charter requires a public utility to pay all unpaid and accumulated dividends before any dividends can be paid with respect to the current taxable year, such public utility may not include any distribution in the current year in computing the deduction under section 247 to the extent that there are dividends unpaid and accumulated with respect to taxable years ending before October 1, 1942.

(3) If a corporation which is engaged in one or more of the four types of business activities (called utility activities in this section) enumerated in section 247 (b) (1) (the furnishing of telephone service or the sale of electrical energy, gas, or water) is also engaged in some other business that does not fall within any of the enumerated categories, the deduction under section 247 is allowable only for such portion of the amount computed under section 247 (a) as is allocable to the income from utility activities. For this purpose, the allocation may be made on the basis of the ratio which the total income from the utility activities bears to total income from all sources (total income being considered either gross income or gross receipts, whichever method results in the higher deduction). However, if such an allocation reaches an inequitable result and the books of the corporation are so kept that the taxable income attributable to the utility activities can be readily determined, particularly where the books of the corporation are required by governmental bodies to be so kept for rate making or other purposes, the allocation may be made upon the basis of taxable income. No such apportionment will be required if the income from sources other than utility activities is less than 20 percent of the total income of the corporation, irrespective of the method used in determining such total income.

(b) *Public utility.* As used in section 247 and this section, public utility means a corporation engaged in the furnishing of telephone service, or in the sale of electric energy, gas, or water if the rates charged by such corporation for such furnishing or sale, as the case may be, have been established or approved by a State or political subdivision thereof or by an agency or instrumentality of the United States or by a public utility or public service commission or other similar body of the District of Columbia or of any State or political subdivision thereof. If a schedule of rates has been filed with any of the above bodies having the power to disapprove such rates, then such rates shall be considered as established or approved rates even though such body has taken no action on the filed schedule. Rates fixed by contract between the corporation and the purchaser, except where the purchaser is the United States, a State, the District of Columbia, or an agency or political subdivision of the United States, a State, or the District of Columbia, shall not be considered as established or approved rates in those cases where they are not subject to direct control, or where no maximum rate for such contract rates has been established by the United States, a State, the District of Columbia, or by an agency or political subdivision thereof. The deduction provided in section 247 will not be denied solely because part of the gross income of the corporation consists of revenue derived from such furnishing or sale at rates which are not so regulated, provided the corporation establishes to the satisfaction of the Commissioner (1) that the revenue from regulated rates and the revenue from unregulated rates are derived from the operation of a single interconnected and coordinated system within a single area or region in one or more States, or from the operation of more than one such system and (2) that the regulation to which it is subject in part of its operating territory in one such system is effective to control rates within the unregulated territory of the same system so that the rates within the unregulated territory have been and are substantially as favorable to users and consumers as are the rates within the regulated territory.

(c) *Preferred stock.* (1) For the purposes of section 247 and this section, preferred stock means stock (i) which was issued before October 1, 1942, (ii) the dividends in respect of which (during the whole of the taxable year, or the part of the taxable year after the actual date of the issue of such stock) were cumulative, nonparticipating as to current distributions, and payable in preference to the payment of dividends on other stock, and (iii) the rate of return on which is fixed and cannot be changed by a vote of the board of directors or by some similar method. However, if there are several classes of preferred stock, all of which meet the above requirements, the deduction provided in section 247 shall not be denied in the case of a given class of preferred stock merely because there is another class of preferred stock whose dividends are to be paid before those of the given class of stock. Likewise, it is immaterial for the purposes of section 247 and this section whether the stock be voting or nonvoting stock.

(2) Preferred stock issued on or after October 1, 1942, under certain circumstances will be considered as having been issued before October 1, 1942, for purposes of the deduction provided in section 247. If the new stock is issued on or after October 1, 1942, to refund or replace bonds or debentures which were issued before October 1, 1942, or to refund or replace other stock which was preferred stock within the meaning of section 247 (b) (2) (or the corresponding provision of the Internal Revenue Code of 1939), such new stock shall be considered as having been issued before October 1, 1942. If preferred stock is issued to refund or replace stock which was preferred stock within the meaning of section 247 (b) (2) (or the corresponding provision of the Internal Revenue Code of 1939), it shall be immaterial whether the preferred stock so refunded or replaced was issued before, on, or after October 1, 1942. If stock issued on or after October 1, 1942, to refund or replace stock which was issued before October 1, 1942, and which was preferred stock within the meaning of section 247 (b) (2) (or the corresponding provision of the Internal Revenue Code of 1939), is not itself preferred stock within the meaning of section 247 (b) (2) (or the corresponding provision of the Internal Revenue Code of 1939), no stock issued to refund or replace such stock can be considered preferred stock for purposes of the deduction provided in section 247.

(3) In the case of any preferred stock issued on or after October 1, 1942, to refund or replace bonds or debentures issued before October 1, 1942, or to refund or replace other stock which was preferred stock within the meaning of section 247 (b) (2) (or the corresponding provision of the Internal Revenue Code of 1939), only that portion of the stock issued on or after October 1, 1942, will be considered as having been issued before October 1, 1942, the par or stated value of which does not exceed the par, stated, or face value of such bonds, debentures, or other preferred stock which the new stock was issued to refund or replace. In such case no shares of the new stock issued on or after October 1, 1942, shall be earmarked in determining the deduction allowable under section 247, but the appropriate allocable portion of the total amount of dividends paid on such stock will be considered as having been paid on stock which was issued before October 1, 1942.

(4) The provisions of section 247 (b) (2) may be illustrated by the following example:

*Example.* A public utility has outstanding 1,000 bonds which were issued before October 1, 1942, and each of which has a face value of $100. On or after October 1, 1942, each of such bonds is retired in exchange for 1⅒ shares of preferred stock issued on or after October 1, 1942, and having a par value of $100 per share. Only 10/11 of the dividends paid on the preferred stock thus issued in exchange for the bonds will be considered as having been paid on stock which was issued before October 1, 1942. Likewise, if preferred stock which is issued on or after October 1, 1942, has no par value but a stated value of $50 per share and such stock is issued in a ratio of three shares to one share to refund or replace preferred stock having a par value of $100 per share, only two-thirds of the dividends paid on the new shares of stock will be considered as having been paid on stock which was issued before October 1, 1942.

(5) Whether or not preferred stock issued on or after October 1, 1942, was issued to refund or replace bonds or debentures issued before October 1, 1942, or to refund or replace other preferred stock, is in each case a question of fact. Among the factors to be considered is whether such stock is new in an economic sense to the corporation or whether it was issued merely to take the place, directly or indirectly, of bonds, debentures, or other preferred stock of such corporation. It is not necessary that the new preferred stock be issued in exchange for such bonds, debentures, or other preferred stock. The mere fact that the bonds, debentures, or other preferred stock remain in existence for a short period of time after the issuance of the new stock (or were retired before the issuance of the new stock) does not necessarily mean that such new stock was not issued to refund or replace such bonds, debentures, or other preferred stock. It is necessary to consider the entire transaction, including the issuance of the new preferred stock, the date of such issuance, the retirement of the old bonds, debentures, or preferred stock, and the date of such retirement, in order to determine whether such new stock really was issued to take the place of bonds, debentures, or other preferred stock of the corporation or whether it represents something essentially new in an economic sense in the corporation's financial structure. If, for example, a public utility, which has outstanding bonds issued before October 1, 1942, issues new preferred stock on October 1, 1954, in order to secure funds with which to retire such bonds and with the money paid in for such stock retires the bonds on November 1, 1954, such stock may be considered as having been issued to refund or replace bonds issued before October 1, 1942. Whether the money used to retire the bonds can be traced back and identified as the money paid in for the stock will have evidentiary value, but will not be conclusive, in determining whether the stock was issued to refund or replace the bonds. Similarly, whether the amount of money used to retire the bonds was smaller than, equal to, or greater than that paid in for the stock, or whether the entire issue of bonds is retired, will be important, but not decisive, in making such determination.

(6) Preferred stock issued on or after October 1, 1942, by a corporation to refund or replace bonds or debentures of a second corporation which were issued before October 1, 1942, or to refund or replace other preferred stock of such second corporation, may be considered as having been issued before October 1, 1942, if such new stock was issued (i) in a transaction which is a reorganization within the meaning of section 368 (a) or the corresponding provisions of the Internal Revenue Code of 1939; or (ii) in a transaction to which section 371 (relating to insolvency reorganizations), or the corresponding provisions of the Internal Revenue Code of 1939, is applicable; or (iii) in a transaction which is subject to the provisions of Part VI of Subchapter O (relating to exchanges and distributions in obedience to orders of the Securities and Exchange Commission) or to the corresponding provisions of the Internal Revenue Code of 1939. Whether the stock actually was issued to refund or replace bonds or debentures of the second corporation issued before October 1, 1942, or to refund or replace preferred stock of such second corporation, shall be determined under the same principles as if only one corporation were involved. A corporation may issue stock to refund or replace its own bonds, debentures, or other preferred stock in a transaction which is a reorganization within the meaning of section 368 (a) or the corresponding provisions of the Internal Revenue Code of 1939, in a transaction to which section 371 or the corresponding provisions of the Internal Revenue Code of 1939 is applicable, or in a transaction which is subject to the provisions of Part VI of Subchapter O of this chapter or to the corresponding provisions of the Internal Revenue Code of 1939. The provisions of this paragraph, in addition, are applicable in case a corporation issues stock on or after October 1, 1942, to refund or replace its own bonds, debentures, or other preferred stock even though the issuance of such stock may not fall within one of the categories enumerated above.

(7) Even though stock issued on or after October 1, 1942, is considered as having been issued before October 1, 1942, by reason of having been issued to refund or replace bonds or debentures issued before October 1, 1942, or to refund or replace other preferred stock, such stock will not be deemed to be preferred stock within the meaning of section 247 (b) (2), and no deduction will be allowable in respect of dividends paid on such stock, unless the stock fulfills all the other requirements of a preferred stock set forth in section 247 (b) (2) and in this paragraph.

§ 1.248 *Statutory provisions; organizational expenditures.*

SEC. 248. *Organizational expenditures*—(a) *Election to amortize.* The organizational expenditures of a corporation may, at the election of the corporation (made in accordance with regulations prescribed by the Secretary or his delegate), be treated as deferred expenses. In computing taxable income, such deferred expenses shall be allowed as a deduction ratably over such period of not less than 60 months as may be selected by the corporation (beginning with the month in which the corporation begins business).

(b) *Organizational expenditures defined.* The term "organizational expenditures" means any expenditure which—

(1) Is incident to the creation of the corporation;

(2) Is chargeable to capital account; and

(3) Is of a character which, if expended incident to the creation of a corporation having a limited life, would be amortizable over such life.

(c) *Time for and scope of election.* The election provided by subsection (a) may be made for any taxable year beginning after December 31, 1953, but only if made not later than the time prescribed by law for filing the return for such taxable year (including extensions thereof). The period so elected shall be adhered to in computing the taxable income of the corporation for the taxable year for which the election is made and all subsequent taxable years. The election shall apply only with respect to expenditures paid or incurred on or after the date of enactment of this title.

§ 1.248–1 *Election to amortize organizational expenditures*—(a) *In general.* (1) Section 248 (a) provides that a corporation may elect for any taxable year beginning after December 31, 1953, to treat its organizational expenditures, as defined in subsection (b) of section 248 and in paragraph (b) of this section, as deferred expenses. A corporation which exercises such election must, at the time it makes the election, select a period of not less than 60 months, beginning with the month in which it began business, over which it will amortize its organizational expenditures. The period selected by the corporation may be equal to or greater, but not less, than 60 months, but in any event it must begin

with the month in which the corporation began business. The organizational expenditures of the corporation which are treated as deferred expenses under the provisions of section 248 and this section shall then be allowed as a deduction in computing taxable income ratably over the period selected by the taxpayer. The period selected by the taxpayer in making its election may not be subsequently changed but shall be adhered to in computing taxable income for the taxable year for which the election is made and all subsequent taxable years.

(2) If a corporation exercises the election provided in section 248 (a), such election shall apply to all of its expenditures which are organizational expenditures within the meaning of subsection (b) of section 248 and paragraph (b) of this section. The election shall apply, however, only with respect to expenditures incurred before the end of the taxable year in which the corporation begins business (without regard to whether the corporation files its returns on the accrual or cash method of accounting or whether the expenditures are paid in the taxable year in which they are incurred), if such expenditures are paid or incurred on or after August 16, 1954 (the date of enactment of the Internal Revenue Code of 1954).

(3) The deduction allowed under section 248 must be spread over a period beginning with the month in which the corporation begins business. The determination of the date the corporation begins business presents a question of fact which must be determined in each case in light of all the circumstances of the particular case. The words "begins business," however, do not have the same meaning as "in existence." Ordinarily, a corporation begins business when it starts the business operations for which it was organized; a corporation comes into existence on the date of its incorporation. Mere organizational activities, such as the obtaining of the corporate charter, are not alone sufficient to show the beginning of business. If the activities of the corporation have advanced to the extent necessary to establish the nature of its business operations, however, it will be deemed to have begun business. For example, the acquisition of operating assets which are necessary to the type of business contemplated may constitute the beginning of business.

(b) *Organizational expenditures defined.* (1) Section 248 (b) defines the term "organizational expenditures." Such expenditures, for purposes of section 248 and this section, are those expenditures which are directly incident to the creation of the corporation. An expenditure, in order to qualify as an organizational expenditure, must be (i) incident to the creation of the corporation, (ii) chargeable to the capital account of the corporation, and (iii) of a character which, if expended incident to the creation of a corporation having a limited life, would be amortizable over such life. An expenditure which fails to meet each of these three tests may not be considered an organizational expenditure for purposes of section 248 and this section.

(2) The following are examples of organizational expenditures within the meaning of section 248 and this section: legal services incident to the organization of the corporation, such as drafting the corporate charter, by-laws, minutes of organizational meetings, terms of original stock certificates, and the like; necessary accounting services; expenses of temporary directors and of organizational meetings of directors or stockholders; and fees paid to State of incorporation.

(3) The following expenditures are not organizational expenditures within the meaning of section 248 and this section:

(i) Expenditures connected with issuing or selling shares of stock or other securities, such as commissions, professional fees, and printing costs. This is so even where the particular issue of stock to which the expenditures relate is for a fixed term of years;

(ii) Expenditures connected with the transfer of assets to a corporation.

(4) Expenditures connected with the reorganization of a corporation, unless directly incident to the creation of a corporation, are not organizational expenditures within the meaning of section 248 and this section.

(c) *Time and manner of making election.* The election provided by section 248 (a) and paragraph (a) of this section shall be made in a statement attached to the taxpayer's return for the taxable year in which it begins business. Such taxable year must be one which begins after December 31, 1953. The return and statement must be filed not later than the date prescribed by law for filing the return (including any extensions of time) for the taxable year in which the taxpayer begins business. The statement shall set forth the description and amount of the expenditures involved, the date such expenditures were incurred, the month in which the corporation began business, and the number of months (not less than 60 and beginning with the month in which the taxpayer began business) over which such expenditures are to be deducted ratably.

[SEAL] RUSSELL C. HARRINGTON,
*Commissioner of Internal Revenue.*

Approved: June 8, 1956.

DAN THROOP SMITH,
*Special Assistant to the Secretary in Charge of Tax Policy.*

## TITLE 8—ALIENS AND NATIONALITY

### Chapter I—Immigration and Naturalization Service, Department of Justice

PART 235a—PREEXAMINATION OF ALIENS WITHIN THE UNITED STATES

PART 280—IMPOSITION AND COLLECTION OF FINES

PART 292—ENROLLMENT AND DISBARMENT OF ATTORNEYS AND REPRESENTATIVES

MISCELLANEOUS AMENDMENTS

The following amendments to Chapter I of Title 8 of the Code of Federal Regulations are hereby prescribed:

1. The first sentence of § 235a.1 *Application* is amended by deleting the date "January 1, 1955" and inserting in lieu thereof the date "January 1, 1956".

2. Section 280.15 is amended to read as follows:

§ 280.15 *Notice of final decision to collector of customs.* At such time as the decision under this part is final, the regional administrative officer shall be furnished a copy of the decision by the district director. The regional administrative officer shall notify the collector of customs who was furnished a copy of the Notice of Intention to Fine of the final decision made in the case. Such notification need not be made if the regional administrative officer has been previously furnished with a notice of collection of the amount of the penalty by the collector of customs.

3. Paragraph (b) of § 292.61 *Procedure for suspension or disbarment; effect* is amended to read as follows:

(b) The respondent, either with or without counsel, and the regional commissioner, by the Service officer within the purview of § 6.1 (e) of this chapter, shall have the privilege of appearing before the Board for oral argument at a time specified by the Board.

(Sec. 103, 66 Stat. 173; 8 U. S. C. 1103)

This order shall become effective on the date of its publication in the FEDERAL REGISTER. Compliance with the provisions of section 4 of the Administrative Procedure Act (60 Stat. 238; 5 U. S. C. 1003) as to notice of proposed rule making and delayed effective date is unnecessary in this instance because the rules prescribed by the order, other than that which relieves restrictions and is clearly advantageous to persons affected thereby, relate to agency management.

Dated: June 11, 1956.

J. M. SWING,
*Commissioner of Immigration and Naturalization.*

# PROPOSED RULE MAKING

## DEPARTMENT OF THE TREASURY

### Internal Revenue Service

### [ 26 CFR (1954) Part 1 ]

INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1953

NOTICE OF PROPOSED RULE MAKING

Notice is hereby given, pursuant to the Administrative Procedure Act, approved June 11, 1946, that the regulations set forth in tentative form below are proposed to be prescribed by the Commissioner of Internal Revenue with the approval of the Secretary of the Treasury or his delegate. Prior to the final adoption of such regulations, consideration will be given to any data, views, or arguments pertaining thereto which are submitted in writing, in duplicate, to the Commissioner of Internal Revenue, Attention: T:P, Washington 25, D. C., within the period of 30 days from the date of publication of this notice in the FEDERAL REGISTER. The proposed regulations are to be issued under the authority contained in sections 171 and 7805 of the Internal Revenue Code of 1954 (68A Stat. 61, 917; 26 U. S. C. 171, 7805).

[SEAL] RUSSELL C. HARRINGTON,
*Commissioner of Internal Revenue.*

The following regulations are hereby prescribed under section 171 of the Internal Revenue Code of 1954, and are effective for taxable years beginning before December 31, 1953, and ending after August 16, 1954:

Sec.
1.171 Statutory provisions; itemized deductions for individuals and corporations; amortizable bond premium.
1.171-1 Amortizable bond premium.
1.171-2 Bond premium and amortizable bond premium.
1.171-3 Election with respect to taxable and partially taxable bonds.
1.171-4 Definition.

§ 1.171 *Statutory provisions; itemized deductions for individuals and corporations; amortizable bond premium.*

SEC. 171. *Amortizable bond premium*—(a) *General rule.* In the case of any bond, as defined in subsection (d), the following rules shall apply to the amortizable bond premium (determined under subsection (b)) on the bond:

(1) *Interest wholly or partially taxable.* In the case of a bond (other than a bond the interest on which is excludable from gross income), the amount of the amortizable bond premium for the taxable year shall be allowed as a deduction.

(2) *Interest wholly tax-exempt.* In the case of any bond the interest on which is excludable from gross income, no deduction shall be allowed for the amortizable bond premium for the taxable year.

(3) *Adjustment of credit or deduction for interest partially tax-exempt*—(A) *Individuals.* In the case of any bond the interest on which is allowable as a credit under section 35, the amount which would otherwise be taken into account in computing such credit shall be reduced by the amount of the amortizable bond premium for the taxable year.

(B) *Corporations.* In the case of any bond the interest on which is allowable as a deduction under section 242, such deduction shall be reduced by the amount of the amortizable bond premium for the taxable year.

(4) *Cross reference.* For adjustment to basis on account of amortizable bond premium, see section 1016 (a) (5).

(b) *Amortizable bond premium*—(1) *Amount of bond premium.* For purposes of paragraph (2), the amount of bond premium, in the case of the holder of any bond, shall be determined—

(A) With reference to the amount of the basis (for determining loss on sale or exchange) of such bond,

(B) With reference to the amount payable on maturity or on earlier call date (but in the case of bonds described in subsection (c) (1) (B) issued after January 22, 1951, and acquired after January 22, 1954, only if such earlier call date is a date more than 3 years after the date of such issue), and

(C) With adjustments proper to reflect unamortized bond premium, with respect to the bond, for the period before the date as of which subsection (a) becomes applicable with respect to the taxpayer with respect to such bond.

In no case shall the amount of bond premium on a convertible bond include any amount attributable to the conversion features of the bond.

(2) *Amount amortizable.* The amortizable bond premium of the taxable year shall be the amount of the bond premium attributable to such year. In the case of a bond described in subsection (c) (1) (B) issued after January 22, 1951, and acquired after January 22, 1954, which has a call date not more than 3 years after the date of such issue, the amount of bond premium attributable to the taxable year in which the bond is called shall include an amount equal to the excess of the amount of the adjusted basis (for determining loss on sale or exchange) of such bond as of the beginning of the taxable year over the amount received on redemption of the bond or (if greater) the amount payable on maturity.

(3) *Method of determination.* The determinations required under paragraphs (1) and (2) shall be made—

(A) In accordance with the method of amortizing bond premium regularly employed by the holder of the bond, if such method is reasonable;

(B) In all other cases, in accordance with regulations prescribing reasonable methods of amortizing bond premium prescribed by the Secretary or his delegate.

(c) *Election as to taxable and partially taxable bonds*—(1) *Eligibility to elect; bonds with respect to which election permitted.* This section shall apply with respect to the following classes of taxpayers with respect to the following classes of bonds only if the taxpayer has elected to have this section apply:

(A) *Partially tax-exempt.* In the case of a taxpayer other than a corporation, bonds with respect to the interest on which the credit provided in section 35 is allowable; and

(B) *Wholly taxable.* In the case of any taxpayer, bonds the interest on which is not excludable from gross income but with respect to which the credit provided in section 35, or the deduction provided in section 242, is not allowable.

(2) *Manner and effect of election.* The election authorized under this subsection shall be made in accordance with such regulations as the Secretary or his delegate shall prescribe. If such election is made with respect to any bond (described in paragraph (1)) of the taxpayer, it shall also apply to all such bonds held by the taxpayer at the beginning of the first taxable year to which the election applies and to all such bonds thereafter acquired by him and shall be binding for all subsequent taxable years with respect to all such bonds of the taxpayer, unless, on application by the taxpayer, the Secretary or his delegate permits him, subject to such conditions as the Secretary or his delegate deems necessary, to revoke such election. In the case of bonds held by a common trust fund, as defined in section 584 (a), or by a foreign personal holding company, as defined in section 552, the election authorized under this subsection shall be exercisable with respect to such bonds only by the common trust fund or foreign personal holding company. In case of bonds held by an estate or trust, the election authorized under this subsection shall be exercisable with respect to such bonds only by the fiduciary.

(d) *Bond defined.* For purposes of this section, the term "bond" means any bond, debenture, note, or certificate or other evidence of indebtedness, issued by any corporation and bearing interest (including any like obligation issued by a government or political subdivision thereof), but does not include any such obligation which constitutes stock in trade of the taxpayer or any such obligation of a kind which would properly be included in the inventory of the taxpayer if on hand at the close of the taxable year, or any such obligation held by the taxpayer primarily for sale to customers in the ordinary course of his trade or business.

(e) *Dealers in tax-exempt securities.* For special rules applicable, in the case of dealers in securities, with respect to premium attributable to certain wholly tax-exempt securities, see section 75.

§ 1.171-1 *Amortizable bond premium*—(a) *In general.* Under section 171, bond premium is amortizable by the owner of the bond (as defined in § 1.171-4) in accordance with subparagraph (1) or (2) of this paragraph as follows:

(1) Amortization of bond premium is mandatory with respect to—

(i) Fully tax-exempt bonds (the interest on which is excludable from gross income), whether the owner is a corporation, individual, or other taxpayer; and

(ii) Partially tax-exempt bonds owned by a corporation.

(2) Amortization of bond premium is optional, at the election of the taxpayer, with respect to—

(i) Fully taxable bonds, whether the owner is a corporation, individual, or other taxpayer; and

(ii) Partially tax-exempt bonds owned by taxpayers other than corporations.

(b) *Operation.* (1) In the case of a fully tax-exempt bond, the amortizable bond premium for the taxable year is simply an adjustment to the basis or adjusted basis of the bond. Thus, if such premium is $1, the basis or adjusted basis of the bond is reduced by $1. No deduction is allowable on account of such amortizable bond premium.

(2) In the case of a fully taxable bond to which section 171 is applicable, the amortizable bond premium is applied both as an adjustment to the basis or

adjusted basis of the bond and as a deduction in computing taxable income.

(3) In the case of a partially tax-exempt bond, the amortizable bond premium for the taxable year is used for the following purposes:

(i) As an adjustment to the basis or adjusted basis of the bond;

(ii) As a deduction in computing taxable income;

(iii) In the case of individuals, estates, or trusts, as a reduction of the amount which would otherwise be taken into account in computing the credit against the tax provided under section 35; or

(iv) In the case of corporations, as a reduction of the amount allowed under section 242 as a deduction in computing taxable income.

(4) The application of the provisions of subparagraph (3) of this paragraph relating to a partially tax-exempt bond may be illustrated by the following example:

*Example.* In the case of an individual who has elected to amortize the premium on a partially tax-exempt bond, if the interest on such bond with an adjusted basis of $1,024 is $30 for the taxable year, and the amortizable bond premium thereon is $4 for the taxable year, then the $30 is included in gross income, the $4 is allowable as a deduction, the adjusted basis of $1,024 is reduced by $4 to $1,020, and a credit amounting to $0.75 (3 percent of $30 minus $4) is allowed against the tax for such taxable year. In the case of a corporation, which is required to amortize the premium on such bond, no credit is allowed against the tax, but the deduction under section 242 on account of the interest is $26 ($30 minus $4).

(5) In the case where no specific deduction is permitted under section 171 (a) for amortization of bond premium as such, because the tax is computed for the taxpayer under section 3 by use of the optional tax tables, or because the taxpayer elects under section 144 to take the standard deduction, it shall be deemed, if the taxpayer has elected to amortize bond premium in accordance with the provisions of section 171, that the deduction for amortization of bond premium has been allowed for the purpose of determining the adjusted basis of the bond.

(c) *Bonds owned by decedents*—(1) *Decedents using cash receipts and disbursements method of accounting.* (i) Where a decedent who used the cash receipts and disbursements method of accounting owned fully taxable bonds to which section 171 applies—

(*a*) The interest accruing thereon during the period ending with his death is, by reason of section 691, included upon its receipt in the gross income of the estate or legatee, whichever acquires the right to receive such interest, and

(*b*) The amount of amortizable bond premium properly allowable for such period is a deduction for such period to the decedent and is not allowable as a deduction to the estate or legatee.

(ii) Where a decedent who used the cash receipts and disbursements method of accounting owned partially tax-exempt bonds to which section 171 applies—

(*a*) The interest accruing thereon during the period ending with his death is, by reason of section 691, included upon its receipt in the gross income of the estate or legatee, whichever acquires the right to receive such interest, and

(*b*) The amount of the amortizable bond premium properly allowable for such period is a deduction for such period to the decedent, as in the case of a fully taxable bond, and

(*c*) The amount of the amortizable bond premium shall not be applied to reduce the estate's or legatee's credit or deduction for such interest for such period.

(2) *Illustration.* The provisions of subparagraph (1) (ii) of this paragraph relating to a partially tax-exempt bond may be illustrated by the following example:

*Example.* At the time of his death in 1954, D owned a partially tax-exempt bond to which section 171 applies. For the period beginning January 1, 1954, and ending with D's death on September 30, 1954, the accrued interest on such bond is $25 and the amortizable bond premium is $2. D's estate has the right to receive such interest. D's executor, in making the income tax return for D's last taxable year (January 1 to September 30, 1954), may take into account a deduction of $2 on account of the amortizable bond premium for such year. D's estate includes the $25 interest in its gross income upon receipt and, for purposes of the income tax, receives a credit under section 35 of $.75 (3 percent of $25). In computing such credit, the $25 interest is not reduced on account of the amortizable bond premium which was a deduction allowable for the last taxable year of the decedent.

(3) *Decedent using the accrual method of accounting.* Where a decedent using the accrual method of accounting owned fully taxable bonds and partially tax-exempt bonds to which section 171 applies—

(i) In the case of fully taxable bonds, both the interest accruing thereon during the period ending with his death and the deduction on account of the amortizable bond premium for such period are taken into account in computing the taxable income of the decedent; and

(ii) In the case of partially tax-exempt bonds, the rule as to the accrued interest and the amortization deduction is the same as in subdivision (i) of this subparagraph, and the amount which would otherwise be taken into account in computing the decedent's credit against tax for such interest is required to be reduced by the amount of the amortizable bond premium for the period ending with the decedent's death.

§ 1.171–2 *Bond premium and amortizable bond premium*—(a) *In general.* (1) Except as otherwise provided in this section, bond premium on any bond to which section 171 applies is the excess of the amount of the basis (for determining loss on sale or exchange under section 1011) of the bond over the amount payable at maturity or, in the case of a callable bond, the earlier call date. For determination of applicable call date, see paragraph (b) of this section.

(2) (i) In the case of wholly taxable bonds described in section 171 (c) (1) (B) issued after January 22, 1951, and acquired after January 22, 1954, the earlier call date may be used in computing the bond premium only if such earlier call date is a date more than 3 years after the date of original issue. For determining whether such earlier call date is a date more than 3 years after the date of original issue, consideration will be given to the terms under which the bond is issued. Where the bond is subject to a call date which falls within 3 years of the date of original issue, the amount of amortizable bond premium may be computed only with respect to the amount payable at maturity, regardless of when such bond was acquired by the taxpayer. For example, assume that the taxpayer acquired at the date of issue a $100 bond for $112, callable at any time thereafter upon 30 days' notice. The bond was issued on January 1, 1955. The premium of $12 attributable to such bond may be amortized only with reference to the maturity date of the bond. Similarly, assume that in 1957 the taxpayer acquired a $100, 20-year bond for $115. The bond was issued on January 1, 1954, and was callable 2 years after the date of issuance or, if not then called, 10 years after the date of issuance. The premium of $15 attributable to such bond may be amortized only with reference to the maturity date of the bond.

(ii) In the case of a wholly taxable bond described in section 171 (c) (1) (B) issued after January 22, 1951, and acquired after January 22, 1954, which has a call date not more than 3 years after the date of such issue, the amount of the bond premium attributable to the taxable year in which the bond is called shall include an amount equal to the excess of the amount of the adjusted basis (for determining loss on sale or exchange) of such bond as of the beginning of the taxable year over the amount received on redemption of the bond or (if greater) the amount payable on maturity. For adjustments proper to reflect unamortized bond premium for the period before the date as of which section 171 becomes applicable to the bond in the hands of the taxpayer, see subparagraph (4) of this paragraph. For example, if a fully taxable bond, issued on January 1, 1954, and acquired by the taxpayer on January 1, 1955, at a price of $109, matures in 10 years from the date of issue (9 years from the date of acquisition) but is callable at $105 on 30 days' notice, section 171 (b) (1) (B) requires that the bond be amortized to maturity, that is, at the rate of $1 per year. If the bond is called on December 31, 1956, for $105, then $3, the excess of the adjusted basis of $108 ($109 less $1 deducted in 1955) over the amount received on redemption, $105, may be deducted for the year 1956.

(3) Where a taxpayer acquires fully taxable bonds having a call date occurring within a short period after the date of acquisition and where such taxpayer—

(i) Has acquired such bonds as a part of an arrangement pursuant to which he subsequently sells, exchanges, or otherwise disposes (including a charitable contribution of such bonds which qualifies for a deduction under section 170) of such bonds, and

(ii) Cannot expect to derive any economic advantage under the arrangement independent of the Federal income tax consequences arising from the deduction of the amortizable bond premium under section 171, then

for the purposes of section 171, the amount of bond premium with respect to such bonds shall be determined with reference to the maturity date of such bonds and not with reference to such call date in computing amortizable bond premium for any taxable year.

(4) If the date as of which the basis of the bond was established precedes the first taxable year with respect to which section 171 applies to the bond, proper adjustments shall be made to reflect unamortized bond premium on such bond for the period including the holding period (as determined under section 1223) before the date as of which section 171 first becomes applicable to the bond in the hands of the taxpayer. For instance, an adjustment will be required in the case of a taxpayer who has made an election under section 125 of the Internal Revenue Code of 1939, or who makes an election after August 16, 1954, with respect to bonds not with interest coupons or not in registered form which were acquired before December 31, 1953.

(5) The rule relating to adjustments set forth in subparagraph (4) of this paragraph above may be illustrated by the following examples:

*Example (1).* On January 1, 1956, T, who makes his income tax returns on the calendar year basis, owns a fully taxable $100 bond, maturing on January 1, 1966. T purchased this bond on January 1, 1946, for $120. T elects to have section 171 apply to such bond for 1957 and subsequent taxable years. In determining the amount of bond premium to be amortized over the remaining 9 years of the life of the bond, T is required, but solely for such purpose, to treat the bond as if he had amortized the bond premium thereon during the prior 11 years under this section, and to make the proper adjustment in the original bond premium. Accordingly, T would treat $11 as having been amortized during the first 11 years and would be required to amortize the remaining $9 over the following 9 years. When the bond is redeemed on January 1, 1966, for $100, only the $9 attributable to the last 9 years will actually have been amortized and the basis of the bond will have been reduced only by that amount. The $11 attributable to the first 11 years will have been treated as an adjustment to the original bond premium but will not have been amortized nor will the basis of the bond have been reduced by that amount. Consequently, T will have a capital loss in the year of redemption on account of the $11 attributable to the period January 1, 1946, to January 1, 1957.

*Example (2).* On January 1, 1956, X's father gave him a fully taxable $100 bond maturing on January 1, 1966. X's father had purchased the bond on January 1, 1946, for $120. The fair market value of the bond at the time of the gift was $127. X makes his income tax returns on the calendar year basis and elects to amortize the bond premium on the bond during the period 1956–66. Under section 1015, the cost of the bond to X's father constitutes the basis of the bond in X's hands for determining loss, since such cost is lower than the fair market value of the bond at the time of the gift, and, under section 1223, X's holding period is deemed to include the 10 years during which his father held the bond. X is required to treat the bond as if the bond premium thereon had been amortized during his father's holding period. Thus, X is required to amortize $10 over the period January 1, 1956, to January 1, 1966, and in the year of redemption will have a capital loss on account of the $10 attributable to his father's holding period.

*Example (3).* Y, who makes his income tax returns on the calendar year basis, owns a fully tax-exempt $100 bond maturing on January 1, 1961. He purchased this bond on January 1, 1941, for $120. On December 31, 1954, Y sells the bond for $108 and realizes a gain of $1, computed as follows:

| | |
|---|---|
| (i) Total bond premium ($120–$100) | $20 |
| (ii) Amount of bond premium amortizable if held to maturity (total bond premium minus unamortized bond premium attributable to 1941 (a year to which section 125 of the Internal Revenue Code of 1939 was not applicable), $20–$1) | 19 |
| (iii) Amount of bond premium amortized from Jan. 1, 1942, through Dec. 31, 1954 ($1 for each such year) | 13 |
| (iv) Adjusted basis of bond at close of 1954 ($120–$13) | 107 |
| (v) Gain $108–$107 | 1 |

(6) Amortizable bond premium on any bond to which section 171 applies is that part of the bond premium on the bond which is attributable to the taxable year.

(b) *Callable and convertible bonds.* (1) The fact that a bond is callable or convertible into stock does not, in itself, prevent the application of section 171. For purposes of such section, in the case of a callable bond the earlier call date will be considered as the maturity date, except as provided in paragraph (a) (2) and (3) of this section. The amount due on the earlier date will be considered as the amount payable on maturity unless it is determined under a different method of amortization regularly employed by the taxpayer that another amount shall be the amount payable on maturity. Hence, in the case where a bond premium is to be amortized to the earlier call date, the bond premium on such bond is required to be spread over the period from the date as of which the basis for loss of the bond is established down to the earlier call date, rather than to the maturity date. The earlier call date may be the earliest call date specified in the bond as a day certain, the earliest interest payment date if the bond is callable at such date, the earliest date at which the bond is callable at par, or such other call date, prior to maturity, specified in the bond as may be selected by the taxpayer. Where a deduction for amortizable bond premium may be determined with respect to alternative call dates, the amount of amortizable bond premium calculated with reference to a particular call date must be calculated thereafter with reference to the same call date. However, if, upon such call date originally selected, the bond has not in fact been called, the bond premium then unamortized may be amortized to a succeeding call date or to maturity. Thus, assume a $100 bond is acquired at time of issue for $125. The bond is callable in five years at $115 and in 10 years at $110. The taxpayer may amortize $10 of premium during the first five years, and, if the bond is not then called, an additional $5 of premium during the next five years. If the bond is not called at the end of ten years, the remaining $10 of premium may be amortized to maturity.

(2) A convertible bond is within the scope of section 171 if the option to convert on a date certain specified in the bond rests with the holder thereof. However, for the purpose of determining the amount of amortizable bond premium on a convertible bond for the taxable year, the amount of bond premium shall not include any amount attributable to the conversion features of the bond. For the purpose of this rule, the term "convertible bond" includes a bond issued with detachable stock-purchase warrants.

(3) The value of the conversion features of a particular bond shall be ascertained by reference to the assumed price at which such bond would be purchased on the open market if without conversion features, and by subtracting such assumed price from the cost of the bond. The assumed price of the bond without conversion features shall be ascertained by comparison to the yields on which bonds of similar character, not having conversion features, are sold on the open market and adjusting the price of the bond in question to this yield. This adjustment may be made by the use of standard bond tables. In selecting quotations for comparative purposes, bonds of the same classification and grade shall be used.

(4) The application of the principles set forth in this paragraph may be illustrated as follows:

*Example.* T purchased for $115 a $100 bond, maturing in 10 years, on which interest is payable semiannually at the rate of 3 percent a year. This bond is convertible into common stock at the option of the holder. It is found that bonds of the same character, not having conversion features, were sold on the open market on or about the time of T's purchase on a basis to yield 2.6 percent. By recourse to a standard bond table, it is found that the cost of a 3 percent, 10-year, $100 bond to yield 2.6 percent would have been $103.50. Since the taxpayer paid $115 for the convertible bond, the difference between $115 and $103.50, or $11.50, represents the value of the conversion features of the bond at the time of purchase. The balance of $3.50 represents the bond premium subject to amortization under section 171.

(5) If a convertible bond acquired on or before June 15, 1950, is held during the taxable year, the amortizable bond premium shall be computed as if the provisions for the determination of the bond premium without the inclusion of any amount attributable to the conversion features of the bond were applicable for each year for which the bond was held prior to such taxable year. Thus, if T, in the example in subparagraph (4) of this paragraph, had acquired the bond on January 1, 1949, and if T makes his income tax returns on the basis of the calendar year, the amortizable bond premium for 1955 would be $0.35, determined as follows:

| | |
|---|---|
| Bond premium not attributable to conversion feature | $3.50 |
| Amortizable bond premium for 1949 and 1950, determined by reference to bond premium not attributable to conversion feature | .70 |
| Portion of bond premium amortizable over remaining life of bond | 2.80 |

| | |
|---|---|
| Amortizable bond premium for each of the remaining 8 years, including the taxable year 1955 (one-eighth of $2.80) | $0.35 |

(c) *Capitalized expenses.* (1) In the case of a bond to which section 717 otherwise applies, on which the bond premium is attributable only to capitalized expenses (such as buying commissions), if a taxpayer—

(i) Regularly employs a reasonable method of amortization under which capitalized expenses are amortized, or

(ii) Is required by the regulations to use the method of amortization prescribed by paragraph (e) of this section, or

(iii) Regularly employs a reasonable method of amortization but does not amortize capitalized expenses,

such taxpayer is permitted, but is not required, to amortize capitalized expenses in accordance with such method.

(2) In the case of a bond to which section 171 applies and on which there is bond premium exclusive of capitalized expenses—

(i) If a taxpayer regularly employs a reasonable method of amortization under which capitalized expenses are treated as being part of the bond premium for purposes of amortization, such capitalized expenses must be treated as being a part of the bond premium for the purposes of section 171.

(ii) If a taxpayer is required by regulations to use the method of amortization prescribed by paragraph (e) of this section, he must treat capitalized expenses as being part of the bond premium for purposes of section 171.

(iii) If a taxpayer regularly employs a method of amortization under which capitalized expenses are not treated as being part of the bond premium for the purposes of amortization, he is permitted, but is not required, to treat such capitalized expenses as being part of the bond premium for the purposes of section 171.

(d) *Taxable years in which interest not received or accruable.* In the case of a taxpayer who makes his income returns on the cash receipts and disbursements method or one who makes his returns on the accrual method and who owns a bond to which section 171 applies and in respect of which no interest is received or accrued by the taxpayer during the taxable year, if the taxpayer—

(1) Regularly employs a reasonable method of amortization under which the bond premium on such bond for such taxable year is amortized, or

(2) Is required by the regulations to use the method of amortization prescribed by paragraph (e) of this section, or

(3) Regularly employs a reasonable method of amortization under which the bond premium on such bond for such taxable year is not amortized,

such taxpayer is permitted, but not required, to amortize bond premium on the bond for such taxable year in accordance with such method.

(e) *Methods of amortization.* (1) The determination of the bond premium and amortizable bond premium on any bond to which section 171 applies shall be made in accordance with:

(i) The method of amortization regularly employed by the taxpayer, if such method is reasonable; or

(ii) In all other cases, the method of amortization prescribed by this section.

A method of amortization, for example, the composite method described in § 1.1016–12, will be deemed "regularly employed" by a taxpayer if the method was consistently followed in taxable years beginning before January 1, 1954, or if for taxable years beginning on or after such date a taxpayer who has never previously taken a deduction for amortization initiates in the first taxable year for which such deduction is taken a reasonable method of amortization and consistently follows such method thereafter. A taxpayer who regularly employs a method of amortization may be one, for example, who is subject to the jurisdiction of a State or Federal regulatory agency and who, for the purposes of such agency, amortizes the bond premium on his bonds in accordance with a method prescribed or approved by such agency. However, it is not necessary that the taxpayer be subject to the jurisdiction of such an agency or that the method be prescribed or approved by such agency. It is sufficient if the taxpayer regularly employs a method of amortization and if such method is reasonable.

(2) The bond premium to be amortized shall be determined under the following method:

(i) The amortizabe bond premium on such bond attributable to the taxable year under paragraph (a) (6) of this section shall be an amount which bears the same ratio to the bond premium on the bond as the number of months in the taxable year during which the bond was held by the taxpayer bears to the number of months from the beginning of the taxable year (or, if the bond was acquired in the taxable year, from the date of acquisition) to the date of maturity or earlier call date. For the purposes of this subdivision, a fractional part of a month shall be disregarded unless it amounts to more than half of a month, in which case it shall be considered as a month.

(ii) For purposes of subdivision (i) of this subparagraph, the bond premium as of any date on any bond to which section 171 applies shall be determined in accordance with paragraph (a) of this section by ascertaining the excess of the amount of the basis of the bond, as determined under section 1011 (adjusted to date for amortizable bond premium under section 1016) over the amount payable at maturity or, in the case of a callable bond, the earlier call date (except as otherwise provided in subparagraphs (2) and (3) of paragraph (a) of this section.)

(3) The application of the provisions of this paragraph relating to method of amortization may be illustrated by the following example:

*Example.* (i) A taxpayer on June 20, 1954, acquires at a cost of $119 a $100 bond issued January 1, 1944, maturing January 1, 1964, with a 90-day call date. The amortizable bond premium as of the last day of 1954 is computed as follows:

| | |
|---|---|
| Bond premium at date of acquisition | $19 |
| Number of months in 1954 during which bond is held by the taxpayer | 6 |
| Number of months from date of acquisition to date of maturity | 114 |
| Amortizable bond premium ($\frac{6}{114}\times\$19$) equals | $1 |

(ii) The bond premium on the last day of 1954 would be computed as follows:

| | |
|---|---|
| Bond premium at date of acquisition (or first day of taxable year) | $19 |
| Amortizable bond premium for period during which bond was owned in 1954 | 1 |
| Bond premium on last day of taxable year | 18 |

(4) For the method of amortization in the case of individual mortgages purchased, acquired, or originated at a premium by mutual savings banks, building and loan associations, and cooperative banks, see section 1016 and § 1.1016–12.

§ 1.171–3 *Election with respect to taxable and partially taxable bonds.*—(a) *In general.* In the case of a corporation, the election provided in section 171 may be made only with respect to fully taxable bonds. In the case of a taxpayer other than a corporation, the election provided in such section may be made with respect to the following classes: (1) fully taxable bonds only, or (2) partially tax-exempt bonds only, or (3) both fully taxable bonds and partially tax-exempt bonds. Such election shall be made by the taxpayer by claiming a deduction for the bond premium in his return for the first taxable year to which he desires the election to be applicable. No other method of making such election will be recognized. If the election is so made, the taxpayer should attach to his return a statement showing the computation of the deduction. The election shall apply to all bonds in respect of which it was made owned by the taxpayer at the beginning of the first taxable year to which the election applies and also to all bonds of such class (or classes) thereafter acquired by him, and shall be binding for all subsequent taxable years. Upon application by the taxpayer, the Commissioner may permit him to revoke the election, subject to such conditions as the Commissioner deems necessary. In the case of bonds owned by a partnership, common trust fund, or foreign personal holding company, the election shall be exercisable by such partnership (as provided in section 703 (b)), common trust fund, or foreign personal holding company.

(b) *Election with respect to corporation mortgages, etc.* The election to deduct amortizable bond premium applies to premiums on corporation mortgages, securities, and any other evidences of indebtedness, without coupons attached and not in registered form. If a deduction for amortizable bond premium was claimed in a return filed for a taxable year beginning after December 31, 1953, and ending after August 16, 1954, and such deduction did not include amortizable bond premium for all bonds to which the election properly applied, any election attributable under section 171 to the deduction of such amortizable bond premium shall not constitute a proper election unless such election is perfected in amended returns to be filed no later than 90 days after the promulgation of regulations under section 171. Each such amended return shall contain a statement showing a recomputation of the deduction on the basis of the amortization of all bonds to which the election applies in accordance with the provisions of section 171 (c) (2) and this section.

(c) *Partially tax-exempt bonds owned by estates, trusts, partnerships, etc.* If a trust owning partially tax-exempt bonds elects to amortize the bond premium thereon under section 171, the credits of the trust and the credits and deductions of the beneficiaries on account of such interest are required to be reduced by the portion of the amortization deduction attributable to their shares of such interest. See section 642 (a) (1). A similar rule is applied in the case of partially tax-exempt bonds owned by estates, common trust funds, partnerships, and foreign personal holding companies.

§ 1.171–4 *Definition.* (a) The term "bond", as used in section 171, means any bond, debenture, note, or certificate or other evidence of indebtedness, issued by any corporation and bearing interest (including any like obligation issued by a government or political subdivision thereof), but the term does not include any such obligation which constitutes stock in trade of the taxpayer or any such obligation of a kind which would properly be included in the inventory of the taxpayer if on hand at the close of the taxable year, or any such obligation held by the taxpayer primarily for sale to customers in the ordinary course of his trade or business. This definition of a bond (without coupons or not in registered form) applies to bonds held or acquired, for years beginning after December 31, 1953, and ending after August 16, 1954.

(b) For taxable years ending on or before August 16, 1954, the term "bond", as defined in paragraph (a) of this section, applies only to a bond, debenture, note, or certificate or other evidence of indebtedness with interest coupons or in registered form.

(c) Since bonds owned by dealers in securities are excluded from the definition in this section, section 171 has no application to such dealers. See, however, § 1.75–1.

[F. R. Doc. 56–4703; Filed June 13, 1956; 8:49 a. m.]

## INTERSTATE COMMERCE COMMISSION

### [ 49 CFR Parts 145, 148, 311 ]

[Ex Parte No. 204]

PASSENGER FARES, RATES, AND CHARGES OF COMMON CARRIERS BY RAILROAD, BY WATER, AND JOINTLY BY RAIL-MOTOR, MOTOR-WATER, AND RAIL-MOTOR-WATER

CONSTRUCTION, FILING AND POSTING OF TARIFFS

JUNE 5, 1956.

These rules are proposed in accordance with the provisions of section 4 (a) of the Administrative Procedure Act (60 Stat. 237, 5 U. S. C. 1003), and under authority of sections 6, 217 (a), and 306 (b) of the Interstate Commerce Act.

Interested parties may file with this Commission, on or before October 5, 1956, written statements of facts, opinions, or arguments concerning the herein proposed rules. Any written statement so filed shall conform to the specifications provided in Rule 15 of the Commission's general rules of practice (49 CFR 1.15). An original, signed, and seven copies shall be furnished for use of the Commission. No formal hearing with respect to the proposed rules is contemplated, but informal conferences with designated officials of this Commission may be had.

The proposed rules, representing revisions of all rules now contained in the Commission's Tariff Circulars Nos. 18–A and 23, are set forth below. It is intended that the proposed rules supersede the rules now contained in those two tariff circulars (49 CFR Parts 145, 148, Subparts B and D, and Part 311); and in view of the almost total revision of the rules as now published, explanations have been omitted. It is believed, however, that the nature and purpose of proposed rules will be easily understood by those conversant with the present rules.

It will be noted that the proposal is in codified form, in which form it is intended the regulations be published in the tariff circular.

Notice to the public will be given by depositing a copy of this notice in the Office of the Secretary of the Commission for inspection, and by filing a copy with the Director of the Federal Register.

By the Commission, Division 2.

[SEAL] HAROLD D. MCCOY, *Secretary.*

Regulations issued by the Interstate Commerce Commission under authority of section 6 of part I, section 217 of part II, and section 306 of part III of the Interstate Commerce Act to govern the construction, filing, and posting of passenger tariffs by common carriers by railroad and by water, and tariffs containing joint rail-motor, motor-water, or rail-motor-water fares or charges.

PART 145—PASSENGER SERVICE SCHEDULES

Sec.
145.0 General provisions; definitions.
145.1 Form, size, and printing.
145.2 Indicating changes in tariff or amendment.
145.3 Title page arrangement.
145.4 Content of tariffs.
145.5 Fares maintained for emergency or basing purposes.
145.6 Loose-leaf tariffs.
145.7 Cancelation or transfer of fares or other provisions.
145.8 Amendment procedure.
145.9 Discontinuance and restoration of service.
145.10 Index of tariffs.
145.11 Filing tariffs; rejections.
145.12 Tariffs issued through an agent.
145.13 Powers of attorney.
145.14 Concurrences.
145.15 Filing of powers of attorney and concurrences.
145.16 Certificate stating correct name of carrier to be filed.
145.17 Transfer of authority from one agent to another agent.
145.18 Procedure when one publishing agent succeeds another.
145.19 I. C. C. numbers of tariffs issued by a new agent or alternate agent.
145.20 Powers of attorney and concurrences in special situations.
145.21 Amendment and revocation of powers of attorney and concurrences.
145.22 Round-trip excursion fares.
145.23 Fares in special car or train service.
145.24 Newly inaugurated sleeping-car or parlor-car service.
145.25 Temporary rates for sleeping cars or parlor cars.
145.26 Newly constructed lines of railroad and newly established service by water carriers.
145.27 Transportation of circus and show outfits.
145.28 Party-fare tickets.
145.29 Round-trip tickets on certificate plan.
145.30 Validation of round-trip passenger tickets.
145.31 Emergency extension of time limit of tickets and granting stopovers.
145.32 Free transportation of caretakers in connection shipments of property.
145.33 Ocean carriers' fares to or from foreign countries.
145.34 Posting of tariffs.
145.35 Applications for authority to make changes in tariffs.

PASSENGER FARE SCHEDULES

§ 145.0 *General provisions; definitions.*—(a) *Conformation to rules; reissue.* On and after ----------, all tariffs filed with the Commission publishing fares, charges, rules or regulations incident to the transportation of passengers or of commodities handled in passenger service shall conform to these regulations. The Commission may direct the reissue of any tariff, power of attorney or concurrence at any time or may reject same for failure to comply with the rules in this part.

(b) *Definitions.*—(1) *Local fare.* The term "local fare", as used herein, means a fare for service by one carrier only. A local tariff is one which contains fares or charges for service by one carrier only.

(2) *Joint fare or joint charge.* The terms "joint fare" or "joint charge" as used herein, mean a fare or charge for service by two or more carriers that is made by agreement between such carriers.

(3) *Joint tariff.* Joint tariffs are those which contain joint fares or charges.

(c) *Tariff includes amendments.* Except where the context indicates the contrary, the word "tariff" as used herein also includes supplements and other amendments to tariffs.

(d) *Reference to section designations, shortcut method.* For convenience, that portion of a section designation appearing to the right of the decimal point in this tariff circular (this part) may be used in referring to such section in correspondence with the Commission; for example, § 145.4 (f) (1) may be referred to as section 4 (f) (1).

§ 145.1 *Form, size, and printing.*—(a) *Form and size.* All tariffs must be in book, pamphlet, single-sheet or loose-leaf form, of size 8 by 11 inches, except that tariffs and supplements also in-

tended for use in collecting passenger fares and charges on trains may be in book or pamphlet form smaller in size than 8 by 11 inches.

(b) *Paper; size of type.* Tariffs must be plainly printed on paper of durable quality and in type not less than 6-point bold or full face, except as provided in § 145.8 (i) as to vacation notice, and except, further, that not less than 4-point full face type may be used for reference marks. Explanation of reference marks must be in type not less than 6-point bold or full face.

(c) *Method of printing.* Stereotype, planograph, mimeograph or other similar durable process may be used, provided the copies posted and filed are clear and legible in every respect. Reproduction by hectograph or similar process, typewritten sheets or proof sheets must not be used for posting or filing.

(d) *Alterations.* Erasures or alterations must not be made in tariffs filed with the Commission or posted at stations.

(e) *Margin.* A margin of not less than five-eighths of an inch with no printing thereon must be allowed at the binding edge of each tariff.

(f) *Tables, ruling of.* When tables of numerals are used, the page shall be vertically ruled in columns of sufficient width to accommodate the matter to be shown therein (including reference marks) without crowding.

(g) *Pages, numbering.* Except as provided in § 145.6 (e), the pages of a tariff shall be consecutively numbered. The title page shall be considered as page 1, but shall not be numbered; and the interior pages shall be numbered beginning with 2, except that in looseleaf tariffs the title page shall be designated as "Title Page" and the next page as page 1.

§ 145.2 *Indicating changes in tariff or amendment*—(a) *Reference marks.* All tariffs, supplements, and loose-leaf pages must indicate any change in existing fares, rates, charges, rules, regulations, or practices by use of uniform reference marks in connection with the change. The reference marks used shall be those specified for the purpose in § 145.4 (d).

(b) *General changes indicated at top of page.* (1) When a change of the same character is made in all or in substantially all of the fares or rates in a tariff or supplement, or a page thereof, the fact and the nature of such change may be indicated in distinctive type at the top of the title page of such issue, or at the top of each page, respectively, in substantially the following manner:

All fares in this issue are increases
or
All fares on this page are reductions, except as otherwise provided in connection with the fares.

(2) Fares which are not changed or changes not consistent with the notation shall be appropriately symbolized.

§ 145.3 *Title page arrangement.* The title page of every tariff and of every supplement shall show in the order named:

(a) *I. C. C. number and cancelations.* On the upper right-hand corner, the I. C. C. number of the tariff and immediately thereunder the I. C. C. number or numbers of tariffs or supplements canceled thereby. If the number of publications canceled is so large as to make it impracticable to enter them on the title page, the cancelation notice must be shown on page 2 and specific reference thereto shown on the title page directly under the I. C. C. number. Separate series of I. C. C. numbers must be used for freight and passenger tariffs.

(b) *Name of carrier or agent.* The name of the issuing carrier or the name of the agent issuing under power of attorney. See § 145.4 (b) (1).

(c) *Kind of tariff.* Whether tariff or supplement contains local or joint, local and joint fares, rates or charges; whether it applies for passengers, baggage, milk, or other kind of service; whether fares are one-way, round-trip, proportional, or basing; and whether it contains all-rail, rail-motor, all-water, or rail-water, motor-water, etc. fares or charges, or any combination of such types of fares or charges.

(d) *Territory.* The territory or points from and to which the tariff applies, briefly stated.

(e) *Effective date.* (1) Date of issue and effective date. Every publication which contains fares or other provisions effective upon a date different from the general effective date of such publication must show on its title page the following notation: "Effective _____, 19__ (except as otherwise provided herein)" or "(except as provided in Item ____)" or "(except as provided on page ____)."

(2) A provision in a tariff or supplement that it or any part of it will expire with a given date is not a guaranty that the tariff or supplement or such part thereof will remain effective until and including that date. Such provision, if used, will be held to mean that the tariff or supplement or specified part of it will expire with the date named, unless the date is changed on statutory notice, or under special permission. Where used, the expiration notice must read: "Expires with _____, unless sooner canceled, changed or extended."

(f) *Issuing officer or agent.* At the bottom of the title page, the name, title, and mail address of the individual actually responsible for compiling and filing the schedule. If the tariff is issued by a natural person as agent, his name must be shown with the title of "Agent." If issued by a corporation or association as agent, the name and title of the person responsible for the actual compilation and filing must be shown.

§ 145.4 *Content of tariffs.* Tariffs shall contain:

(a) *Table of contents.* A full and complete statement, alphabetically arranged, of general subject headings and the exact location where they will be found. If a tariff contains so small a volume of matter that its title page or interior arrangement clearly discloses its contents, the table of contents may be omitted.

(b) *Names of participating carriers.* (1) A list of the correct names of all carriers participating therein, subdivided according to (i) initial carriers, and (ii) intermediate and terminating carriers, each subdivision alphabetically arranged, together with the form and number of power of attorney or certificate of concurrence, except as provided in subparagraphs (2) and (3) of this paragraph. If there be not more than 10 participating carriers, their names and power of attorney and concurrence forms and numbers may be shown on the title page. Reference to the forms and numbers of powers of attorney and concurrences may be omitted, provided this information is furnished to the Commission in an acceptable form.

(2) Where a tariff of round-trip excursion fares makes reference by I. C. C. number to a tariff of one-way fares for fares on which such round-trip fares are based, as provided in paragraph (f) (7) of this section, the tariff of round-trip excursion fares may state under the caption "Participating Carriers" that the carriers parties to the tariff of round-trip excursion fares are those which are parties to the tariff of one-way fares referred to, identifying the latter tariff by issuing carrier or agent and I. C. C. number.

(3) Where all-rail fares also are applicable as joint rail-motor fares under arrangements referred to in paragraph (g) (3) of this section, it will not be necessary in the tariff providing the fares to list the names of the motor carriers which participate in the fares only by arrangements published in the joint rail-motor routing and honoring tariff, but the tariff making reference to the joint rail-motor routing and honoring tariff, under the caption "Participating Carriers," shall contain the following statement:

Motor carriers participating in this tariff are those shown as parties to (name of joint rail-motor routing and honoring tariff) No. ____, Agent _____ I. C. C. No. _____, over whose routes, as shown therein, fares in this tariff are applicable under the provisions of Rule _____. Here refer to rule in which provision authorized in § 145.4 (g) (3) is published.

(c) *Index of stations.* (1) An alphabetical index of points from which fares, rates or charges apply, and a separate alphabetical index of points to which fares, rates or charges apply, with reference to the location in the tariff of the fares, rates or charges from or to such points. When fares, rates or charges apply in both directions, the points of origin and destination may be shown in one index.

(2) If throughout the tariff points of origin or destination are shown alphabetically by states or by carriers and such states or carriers are alphabetically arranged, or if throughout the tariff points of origin or destination are shown in continuous alphabetical order, no index of such alphabetically arranged points of origin or destination will be required, but the table of contents must refer to the pages on which points are shown. If there be not more than twelve points of origin and twelve points of destination, they may be shown on the title page of the tariff, and the index omitted.

(d) *Explanation of reference marks and abbreviations.* (1) Explanation of reference marks and abbreviations used in the tariff or supplement, or a statement of where such explanations will be found, except that commonly used abbreviations of State names may be omitted, and except further that abbreviations of the names of participating carriers may be explained in the list of such carriers, provided a statement to that effect is included under the Explanation of Abbreviations. If the explanation of a reference mark does not appear on the page on which the reference mark is used, that page shall show where the explanation is given. A supplement shall contain an explanation of all reference marks appearing in the supplement, but need contain the explanation only of those abbreviations appearing in the supplement which are not explained in the original tariff (if explained in a prior supplement, the explanation must be repeated).

(2) The following reference marks shall be used, and shall be used only, for the purposes indicated:

† or r to denote reductions.
♦ or i to denote increases.
● or n to denote no change in fare or rate.
+ or X to denote intrastate application only.
□ to denote reissued matter. (See § 145.8 (d).)
b to indicate basing fare only.

(e) *Rules and regulations.* (1) Rules and other governing provisions, with the title or subject of each to be shown in distinctive type. Under this heading, all of the rules, regulations, explanatory statements, or other conditions which in any way affect the application of the fares, rates or charges shall be clearly and explicitly stated, except that a special rule affecting a particular fare, rate or charge shall be shown in connection with and on the same page with such fare, rate or charge.

(2) Except as provided in paragraph (f) (3) of this section, no rule or regulation shall be included which authorizes substituting for any fare, rate, charge or route named in the tariff, a fare, rate, charge or route provided in any other tariff.

(3) Where it is not desirable to include general governing rules and regulations in a passenger fare tariff, such rules and regulations may be separately published in a tariff filed by an individual carrier or by an agent. When rules or regulations are thus separately published, a fare tariff may be made subject thereto only by specific reference thereto by I. C. C. number.

(4) When tariffs of joint fares make reference to separate publications for governing rules and regulations, such separate publications must be concurred in by all of the carriers parties to such joint fares.

(5) A "Miscellaneous Regulations" rule may be included in a joint tariff for the purpose of applying in connection therewith specific rules of one or more participating carriers when such rules are not generally applicable to all of the carriers. The rule should read substantially as follows:

Except as otherwise specifically provided herein, the fares authorized in this tariff are subject to the rules and regulations shown in other tariffs of the issuing and participating carriers to this tariff, lawfully on file with the Interstate Commerce Commission, which in any way affect the measure of the service or charges shown in this tariff.

(6) For the purpose of providing through fares from and to all stations on the lines of the carriers within the territory covered by the application of the tariff, a tariff may contain a rule reading substantially as follows:

A fare to a destination or from a point of origin not shown in this tariff will be made by adding the fare shown in this tariff to or from an intermediate point on the route of travel to a fare of like class from or to the intermediate point shown in another tariff lawfully on file with the Interstate Commerce Commission, but if the fare so made exceeds the fare of like class to or from a point beyond on the same through line, as shown in this tariff, the latter fare will apply.

(f) *Fares, rates or charges.* (1) An explicit statement of the fares, rates or charges for transportation, in cents or in dollars and cents per passenger or other unit, all arranged in simple and systematic manner, as outlined in subparagraphs (2) to (9), inclusive, of this paragraph. Complicated plans or ambiguous terms must not be used.

(2) A tariff, in providing one-way adult fares, must show the exact fares, in one sum, from and to the points from and to which it applies or the exact fares, in one sum, between the principal points, together with explicit rules and bases from which to determine the fares from and to other points.

(3) A station located on the border of two territories covered by two joint tariffs may be included in one or the other of such tariffs and the basis for fares from or to such point stated as:

(i) A specific amount added to or from an intermediate station shown in the same tariff, but not to exceed the corresponding fare to or from a station beyond on the same through route, as published in the other tariff (see note); or

(ii) A specific amount added to the fare to or from an intermediate point, as shown in the other tariff (see note), but not to exceed the corresponding fare to or from a point beyond on the same through route, as shown in the same tariff.

NOTE: When reference is made in the published basis to a fare published in another tariff, such reference must show the I. C. C. number of the tariff in which the fare is published, together with the name of the issuing agent or carrier.

(4) Children's fares may be stated in terms specifically related to adult fares.

(5) Except as otherwise provided in this paragraph, a tariff containing other types of fares (including round-trip fares), or excess-baggage rates and charges may show the exact fare, rate or charge, or publish them by means of appropriate tables based on the one-way fares. Tariffs of fares, rates or charges, other than excess baggage rates, based upon the one-way fares must give reference to the I. C. C. number or numbers of tariffs containing the one-way fares.

(6) A tariff of commutation fares, in lieu of the above-named methods of publication, may provide fares by means of a table based upon the distance in miles between stations, and include in the tariff a table showing the distances between stations or make reference by I. C. C. number to the tariff containing such distances.

(7) Tariffs naming temporary round-trip fares, which tariff is to be effective for a period not exceeding one year, may state such fares in terms specifically related to the one-way fares. Such tariffs must refer specifically by I. C. C. number to the tariffs of one-way fares on which the round-trip fares are based.

(8) Tariffs for sleeping car accommodations must contain specific rates for at least one class of accommodation. Rates for other sleeping car accommodations may be stated in terms specifically related to such specific rates. Rates for parlor car accommodations must be published in such manner that they can be readily ascertained.

(9) All other fares, rates or charges for the transportation of passengers or property not specified in subparagraphs (2) to (8) inclusive, of this paragraph must be published in such manner that they can be readily ascertained, and the service for which they apply must be definitely stated.

(10) The publication of fares, rates or charges which duplicate or conflict with those published in the same or some other tariff for application over the same route is not permissible.

(g) *Routes.* (1) The routes over which fares or rates apply, showing the names of the carriers and junction points; except that the routes may be shown directly in connection with the fares or rates, or in lieu of publication in the tariff naming fares or rates, such routes may be published in a separate tariff or tariffs which must be specifically referred to by I. C. C. number in the tariff naming the fares or rates.

(2) A tariff providing temporary roundtrip fares, which tariff is to be effective for a period not exceeding one year, wherein such fares are provided by means of an appropriate table based on one-way fares or are stated in terms specifically related to one-way fares, may authorize the application of the temporary round-trip fares over routes, including reverse of routes, applicable in connection with the one-way fares on which based, and also over additional routes specifically provided in the tariff of temporary round-trip fares.

(3) A tariff containing all-rail fares which also are applicable as joint rail-motor fares from and to, or between, the same points, may refer to a joint agency tariff for routing and regulations governing the honoring of tickets over joint rail-motor routes by a statement amongst the rules governing the application of fares (see paragraph (e) of this section), reading substantially as follows:

Fares published in this tariff apply over routes shown in connection therewith and also are applicable as joint fares for transportation over routes composed of rail and motor carriers shown as parties to this tariff between points of origin and destination shown herein via the several junction points of such rail and motor carriers, to the extent

and under conditions provided in ----------

(Name of joint rail-motor routing and honoring tariff)

No. ---, Agent ---------- I. C. C. No. ---

§ 145.5 *Fares maintained for emergency of basing purposes*—(a) *Fares where no regular service.* When fares are published from and to points where passenger service is not regularly operated, such fares shall be symbolized to indicate that no regular service is operated but fares are maintained for emergency purposes.

(b) *Basing fares.* (1) Where desired, fares published in one tariff may be reproduced in other tariffs as basing fares only, for the construction of through fares.

(2) A tariff containing basing fares must specify clearly the extent and manner of their use. In making up a combination fare, all limitations which a tariff places upon the use of the basing, proportional or arbitrary fare must be fully observed.

§ 145.6 *Loose-leaf tariffs*—(a) *Title page.* The title page of a loose-leaf tariff shall be designated in the upper left-hand corner thereof as "Original Title Page," and shall be printed on one side of the leaf only. The pages following the title page shall be consecutively numbered as "Original Page 1," "Original Page 2," etc. Such pages may be printed on both sides but if so printed, the entire leaf must be reissued in accordance with paragraph (c) of this section whenever a change is made on either side.

(b) *Pages following title page.* Each page of a loose-leaf tariff following the title page must show at the top of the page the name of the issuing carrier, or of the issuing agent (identified as "Agent"). If the issuing agent is a corporation or association, there also shall be shown the full name of the bureau, committee or regional association, if any, under whose auspices the schedule is compiled and filed. At the top of the page also shall be shown the page number and I. C. C. number of the tariff. Each page also shall show the date of issue, the effective date, the name, title, and mail address of the individual actually responsible for compiling and filing the schedule. If the tariff is issued by an individual agent, his name must be shown with the title of "Agent". If issued by a corporation or association as agent, the name and title of the person responsible for the actual compilation and filing must be shown.

(c) *Amendments, by revised pages.* Changes in and additions to loose-leaf tariffs shall be made by reprinting the page upon which change or addition is made, and such changed page shall be designated as a revised page and shall direct the cancellation of the page which it replaces; for example, "1st Revised Page 1 cancels Original Page 1" or "4th Revised Page 3 cancels 3d Revised Page 3." If the leaf is printed on both sides, both pages must be reissued and each designated as a revised page whenever a change is made on either side. Changes shall be indicated as required by § 145.2, and if a page is reissued without change, the notation "No change on this page" shall appear at the top of the page. When a revised title page is issued, the following notation shall be shown in connection with the effective date, "Original tariff effective ----------."

(Date)

(d) *Matter brought forward without change.* (1) Matter in a loose-leaf tariff that has been in effect for thirty days or more need not be indicated as reissued matter, but may be republished as effective on thirty days' notice. Matter that has not been in effect for thirty days when brought forward must be shown as "Reissue: Effective ----------

(Date)

on Revised Page ----."

(2) When a revised page is issued which omits matter heretofore published on the page which it cancels, and such matter is published on another page, the revised page must make specific reference to the page on which the matter will be found, and the page to which reference is made must contain the following notation in connection with such matter:

For ----------

(Here insert fares, rates, rules, regulations, etc., as the case may be)

in effect prior to the effective date hereof see page ----.

Subsequently revised pages of the same number must omit this notation insofar as this particular matter is concerned.

(e) *Pages to accommodate expanded matter.* If, in a loose-leaf tariff, it becomes necessary to add an intervening page in order to accommodate expanded matter, such page shall be given the same number with a letter suffix; for example, "Original Page 4–A," "Original Page 4–B," etc. Change in matter on such revised pages may be made by issuing revised pages bearing the same number and letter suffix; for example, "1st Revised Page 4–A cancels Original Page 4–A."

(f) *Additional pages at end of tariff.* If, after a loose-leaf tariff has been filed with the Commission, it is desired to file additional pages thereto, such pages may be filed, and numbered beginning with the next successive page number. For example, if a tariff contains 150 pages, page 151 must not be designated as an additional page but as Original Page 151.

(g) *No supplement, except as indicated.* No supplement shall be issued to a loose-leaf tariff except for the purposes authorized in §§ 145.7 (a) (2), 145.8 (g), 145.8 (h), 145.8 (i), and 145.9 (a).

(h) *Check sheets.* (1) A check sheet shall be included in each loose-leaf tariff and shall be designated as "Original Check Sheet." This check sheet shall contain a numerical list of all effective pages, and must be kept current; that is, a revised check sheet listing the added or revised pages must accompany such pages when they are filed with the Commission, however, if each revised page of the tariff bears a consecutive "correction number" beginning with the number 1, the check sheet may omit the numerical list of effective pages and, instead, list correction numbers numerically so that each revised page, as received, may be checked by its "correction number."

(2) Fares, rules or other tariff matter may not appear on the reverse side of a check sheet.

(3) When all changes made by a supplement to a loose-leaf tariff have been incorporated in the tariff proper by revision of the appropriate pages, the supplement shall be canceled. Such cancelation must be made by reissue of the check sheet and by adding in the upper right-hand corner immediately following the words "cancels ---- Revised Check Sheet" the words "also cancels Supplement No. ----."

§ 145.7 *Cancelation of transfer of fares or other provisions*— (a) *Cancelation of entire tariff.* (1) When a tariff is canceled by a new tariff, the cancelation notice must not be given by supplement but by notice in the new tariff as provided in § 145.3 (a).

(2) For the purpose of canceling entirely the fares and arrangements named in a tariff (including a loose-leaf tariff) not reissued, or when a later issue failed to cancel the previous issue and such issue is canceled for the purpose of perfecting the records, the tariff must be canceled by a supplement thereto, without regard to the provisions of § 145.8 (e). Such supplement must show specific reference to the I. C. C. number of the tariff where fares or other provisions will be found thereafter or shall state that no such fares or other provisions will be in effect.

(b) *Transfer of portion of contents from one tariff to another.* If a tariff or supplement or loose-leaf page is issued which is to displace a part of another tariff which is in effect at the time, and which tariff is not thereby canceled in full, it shall specifically state the portion of such other tariff which is thereby canceled, and such other tariff shall at the same time be correspondingly amended, effective on the same date, in the regular way, and shall indicate where fares or other provisions canceled therein thereafter will be found.

(c) *Notice to specify where fares can be found.* When a tariff is canceled in whole or in part by a supplement thereto, the supplement must show where the fares or other matter thereafter will be found or what fares thereafter will apply. When a tariff is to be canceled by another tariff or by a supplement to another tariff which does not contain all of the fares shown in the tariff to be canceled, i. e., omits points of origin or destination, or fares, rates, charges, rules, regulations or routes, contained in such previous issue, the canceling (new) tariff or supplement shall explain the omission and must state where the fares not shown therein thereafter will be found, or what fares thereafter will apply, with the statement properly symbolized as required by § 145.2 (a).

(d) *Reestablish canceled matter by republication.* When a tariff, a supplement, or a loose-leaf page, or any part thereof, is canceled or expires and such cancelation or expiration has become effective, such tariff matter may not be reinstated except by republication with a new effective date.

(e) *Procedure in canceling portion of tariff.* When withdrawing an item, rule or other tariff matter, the canceled matter need not be reproduced except to the extent necessary to identify the matter that is thereby canceled. Such cancelation must be brought forward in successive supplements as reissued matter.

(f) *Transfer of fares from carrier's to agent's tariff and from agent's to carrier's tariff.* If a tariff issued by an agent is intended to displace a tariff issued by one of his (or its) principals, the tariff to be displaced may be canceled by supplement thereto, with reference to the agent's tariff for fares in the future, or the agent's tariff may cancel the principal's tariff in accordance with paragraph (a) of this section. If, however, matter in an agent's tariff is intended to displace similar matter in a principal's tariff, but not to displace such tariff completely, cancelation shall be made in the manner shown in paragraph (b) of this section, and the carrier must issue a supplement to its tariff to cancel such matter. Such supplement must refer to the agent's tariff for future fares or other provisions.

(2) A carrier must not publish in its individual tariff fares or other matter intended to displace the fares or other matter published in a tariff of a duly authorized agent, unless the tariff is accompanied by a supplement issued by the agent canceling the fares or other matter in his (or its) tariff effective on the same date, as required by paragraph (b) of this section.

(g) *Concurrence does not confer authority to cancel.* A concurrence does not confer authority upon a carrier to cancel tariffs of the concurring carrier, and tariffs issued under concurrences must not assume to do so. Such cancelations must be made by the carrier which issued the tariff that is to be canceled.

§ 145.8 *Amendment procedure*—(a) *Definitions and form.* (1) A change in, or addition to, a tariff shall be known as an amendment, and, excepting amendments to tariffs of less than three pages and amendments to tariffs in loose-leaf form, shall be published in a supplement to the tariff.

(2) Supplements to a tariff shall be numbered consecutively as issued, beginning with number 1. Each supplement shall specify on its title page the supplement or supplements, tariff or tariffs that it cancels, and shall state which supplements contain all changes. Supplements filed under authority of paragraphs (g), (h), (i) of this section, and § 145.9 (a), and blanket or special supplements that do not change fares, rates, charges, rules or regulations must be shown separately and the nature of each such supplement must be clearly indicated.

(3) The matter contained in each supplement shall be arranged in the same general manner and order as in the tariff which it amends, and when stations are given index numbers the same index number must be assigned to the same station in all supplements to the tariff.

(4) When an amendment is made in a numbered item or other unit, such item or other unit must be published in a supplement in its entirety as amended. Supplements affecting change in, or cancelation of, matter published in numbered units must specifically provide for cancelation of previously effective matter by reference to the number of the unit it cancels, and if the unit to be canceled is in a supplement, the new supplement must also give reference by number to the previous supplement. Where matter is not published in numbered units, the changed provision must be published in the supplement in its entirety, and reference must be made to the page or pages of the tariff or supplement on which the matter to be canceled is shown.

(b) *Amendment canceling fares on abandoned lines.* When amending tariffs for the purpose of canceling fares to or from points on, or fares via, abandoned lines under authority of certificates and orders issued in the Commission's finance dockets or when canceling fares to and from points on lines over which passengers service has been discontinued, such cancelation may be accomplished by a general-term statement specifically naming the points from and to which such fares are canceled without showing in detail and in its entirety as amended, each item or other provision that is affected thereby. Such amendment may be published in a special supplement without observing the provisions of paragraph (e) of this section: *Provided,* That the matter in the special supplement is brought forward into a regular supplement when it again becomes necessary to supplement the tariff for purposes other than as provided for in this paragraph.

(c) *Cancelation of fares when participating carrier eliminated.* (1) When a participating carrier is eliminated by supplement or by revised page of a loose-leaf tariff, the tariff must be amended on the same effective date to provide for the concelation of fares and other provisions in connection with that carrier. This may be done either by appropriate amendment of the individual items or other provisions, or by a notation immediately following the statement that the carrier has been eliminated, reading:

This has the effect of canceling all fares and other provisions published in connection with this carrier in this tariff.

(2) When this notation is used in a supplement, the notation must be brought forward as reissued matter, together with reference to the supplement in which the change first appeared.

(3) When the notation method is used in a loose-leaf tariff, subsequent revised pages containing the list of participating carriers must bear reference to such elimination so long as the name of the eliminated carrier appears elsewhere in the tariff, the reference to be shown in the following manner:

----------

(Show name of carrier here)

eliminated as a participating carrier in this tariff and all fares and other provisions published in connection with that carrier canceled effective ---------- See ---- Revised Page ----.

(d) *Reissued matter, how designated.* Except as provided in § 145.6, when matter that has not been in effect for thirty days is brought forward without change from a previous tariff, also when matter is brought forward without change from one supplement to another, such matter must be designated "Reissued" in distinctive type and must show the original effective date of the supplement or tariff from which reissued; or must be uniformly indicated by a rectangle, in which is shown the letter T if reissued from a previous tariff or from a supplement to a previous tariff, or a numeral representing the number of the supplement in which the matter was originally established when reissued from a prior supplement to the same tariff.

*Examples.* [T] Reissue, effective ------ (Date)

in I. C. C. No. --; or [3] Reissue, effective ------ (Date) in Supplement 3. Reissues of items or other matter which became effective in a prior tariff or supplements on dates other than the general effective date shown on the title page thereof may be indicated by showing a letter suffix or other symbol in connection with, and as a part of, the letter T or numeral in rectangles herein authorized. When the reissued matter became effective in a supplement to another tariff, the I. C. C. number of that tariff also must be given.

(e) *Amount of supplemental matter permitted.* Except as authorized in §§ 145.7 (a), paragraphs (b), (f), (g), (h), and (i) of this section, 145.9 (a), 145.10 and 145.22, the following shall govern the number of supplements and the volume of supplemental matter permitted to be effective at any one time:

| Number of pages in tariff (including title page) | Number of effective supplements | Number of pages in supplements (including title page) |
|---|---|---|
| Not more than 2 pages | None | None. |
| 3 pages and not more than 4 pages | 1 | 2. |
| 5 pages and not more than 12 pages | 1 | Not more than 4 pages. |
| 13 pages or more | 2, one of which may not exceed 4 pages. | 33⅓ percent of the number of pages in the tariff. (See Note.) |

NOTE: If the number of pages in the supplement which brings the volume of matter up to 33⅓ percent of the number of pages in the tariff is not evenly divisible by 4, it may exceed the volume authorized to the extent necessary to bring the number of pages of such supplement to the next multiple of 4.

(f) *Supplement to tariff not yet effective.* (1) If a tariff is filed on statutory notice canceling another tariff and, after such filing, a supplement to the tariff to be so canceled should be issued prior to the general effective date of the new tariff, fares in that supplement would not remain in effect for thirty days as required by law, because the cancelation of the tariff also cancels the supplements to it. In such case, and confined to changes or additions necessary to be made in both the old and the new tariff, a supplement making the same changes in or additions to both tariffs may be issued as a supplement to both tariffs, bearing both I. C. C. num-

bers. The required number of copies of this supplement must be posted and filed for each tariff as though the supplement to each tariff was a separate publication. In issuing a supplement in accordance with this paragraph the requirements of paragraph (e) of this section, as to number of supplements and volume of supplemental matter, need not be observed with respect to the tariff to be canceled.

(2) Fares or provisions which have been established in a previous tariff and reproduced or reissued without change in a new tariff may be changed upon lawful notice, after they have been in effect for thirty days, by a supplement to the new tariff, effective not earlier than the general effective date of the new tariff, by indicating in the supplement effecting the change that the matter which is to be amended was brought forward without change from I. C. C. No ____ (previous tariff), and showing the date such matter became effective therein.

(g) *Complete adoption notice.* (1) When the name of a carrier is changed, or when its operating control is transfered to another carrier, the carrier which will thereafter operate the properties shall file (see § 145.11) and post (see § 145.34) an adoption notice, numbered in its I. C. C. series, reading substantially as follows:

The _____
(Correct name of adopting carrier)
whereby adopts, ratifies and makes its own, in every respect as if the same had been originally filed and posted by it, all passenger tariffs, rules, notices, concurrences, traffic agreements, divisions, authorities, powers of attorney, or other instruments whatsoever, including supplements or amendments thereto, filed with the Interstate Commerce Commission by or heretofore adopted by the _____ prior to _____
(Correct name of old carrier)
_____
(Date)

(2) In addition to the above adoption notice, the adopting carrier shall file immediately a consecutively numbered supplement (individual or blanket) to each of the tariffs in the I. C. C. series of its predecessor, including any tariffs to which the predecessor has issued, or before the effective date of the adoption notice may issue, a supplement in accordance with this paragraph, reading as follows:

Effective _____
(Here insert date shown in the adoption notice)
this tariff, or as amended, became the tariff of the _____
(Correct name of new carrier)
as per its adoption notice I. C. C. No. _____.

Such supplements must contain no other matter, must bear reference to this section, and may be issued without observing the provisions of paragraph (e) of this section.

(3) Succeeding supplements to adopted tariffs filed by the adopting carrier must be numbered consecutively following the number of the supplement announcing adoption, and also shall show in connection with the I. C. C. number that the number is in the series of the carrier that issued the original tariff. New tariffs reissuing or succeeding such tariffs shall be numbered in the I. C. C. series of the adopting carrier, and in directing the cancelation of an adopted tariff, shall identify it by using the name or initials of the carrier in whose I. C. C. series it was issued.

(4) Tariffs issued by other carriers in which the carrier absorbed, taken over, operated by another carrier, or whose name is changed, is named as a participating carrier, shall be amended on statutory notice to eliminate the name of the old carrier and to show the name of the new carrier by the first subsequent supplement. Such supplement also shall contain the following provision:

The _____
(Correct name of adopting carrier)
by its adoption notice I. C. C. No. ____ having taken over tariffs, etc., of the _____
_____
(Correct name of adopted carrier)
the _____
(Correct name of adopting carrier)
is hereby substituted for the _____
_____
(Correct name of adopted carrier)
wherever it appears in this tariff.

(5) Similar adoption notice numbered consecutively in the I. C. C. series of the adopted carrier must be filed immediately by a receiver or trustee when he assumes possession and control of a carrier's lines, and such person's name shall be shown on the title page as a part of the carrier's correct name. When such possession and operating control is terminated the carrier taking over the properties shall file an adoption notice and also shall file supplements announcing adoption as prescribed in the foregoing subparagraph of this paragraph.

(6) Notices of adoption should be filed with the Commission immediately, and, if possible, on or before the date shown therein. Copies must be sent immediately to each agent or carrier to which power of attorney or concurrence has been given by the old carrier and to each carrier from which a concurrence has been received by the old carrier. The notice must refer to this section, and its effective date must be the date (as shown in the body of the notice) on which the change in name or operation occurs. If prior approval of such change is necessary, reference also must be made to the order of the Commission.

(7) Concurrences and powers of attorney adopted by a carrier, a receiver or a trustee must be replaced and superseded within 120 days by new concurrences and powers of attorney issued by and numbered in the series of the new carrier, except that if desired the receiver or trustee may number concurrences and powers of attorney in the old series. The cancelation reference to the former concurrence or power of attorney must include name or initials of the former issuing carrier. Concurrences and powers of attorney which will not be replaced by new issues must be regularly revoked on the notice and in the manner prescribed in § 145.21 (b).

(8) If a carrier ceases operation without having a successor, its tariffs, concurrences, and powers of attorney must be regularly canceled on statutory notice, unless otherwise specifically provided by order of the Commission; and when canceled on less than statutory notice, the cancelation notice must show that cancellation is made on account of discontinuance of operation, and must refer to the authority of the Commission permitting such discontinuance.

(h) *Partial adoption notice.* (1) When the operating control of only a part of a carrier's properties is transferred to another carrier, the carrier which will thereafter operate the properties shall file (see § 145.11) and post (see § 145.34) an adoption notice, numbered in its I. C. C. series, reading substantially as follows:

The _____
(Correct name of adopting carrier)
hereby adopts, ratifies, and makes its own, in every respect as if the same had been originally filed and posted by it, all passenger tariffs, rules, notices, concurrences, traffic agreements, divisions, authorities, powers of attorney, or other instruments whatsoever, including supplements or amendments thereto, filed with the Interstate Commerce Commission by or heretofore adopted by the _____
(Correct name of old carrier)
prior to _____
(Date)
insofar as said instruments apply from, to, at, or via the following stations _____
_____
(Naming them)

(2) If on the transferred portion, there is a junction point which will remain a station of the old carrier as well as being established as a station of the new carrier, a notation may be provided in connection with the name of such point, as shown in the adoption notice and the supplements required by subparagraph (3) of this paragraph, reading substantially as follows:

This does not have the effect of eliminating _____ as a station on _____
(Correct name of old carrier)
but has the effect of establishing said station also as a station on _____
_____
(Correct name of adopting carrier)

(See also subparagraphs (3) and (5) of this paragraph.)

(3) In addition to the above adoption notice, the old carrier shall immediately file, under proper concurrence from the adopting carrier, a supplement (individual or blanket) to each of its tariffs covered by the adoption notice containing a provision reading as follows:

Effective _____
(Here insert effective date of adoption as shown in the adoption notice)
this tariff or as amended insofar as it contains fares, rules, and/or regulations applying from, to, at, or via the following stations _____
(Naming them)
became the tariff of the _____
_____
(Correct name of adopting carrier)
as stated in its adoption notice I. C. C. No. _____.

Such supplement must contain no other matter, must bear reference to this section, and may be issued without observing the provisions of paragraph (e) of this section. When the circumstances covered by subparagraph (2) of this paragraph are present, the notation directed in that subparagraph shall be added to the above notice.

(4) Fares and other provisions published by the old carrier applying between points on the transferred portion shall as quickly as possible be published in tariffs of the adopting carrier; and, effective on the same date, the old carrier shall cancel the corresponding fares and other provisions from its tariffs, with reference to the I. C. C. number of the adopting carrier for fares and other provisions applying thereafter.

(5) Tariffs issued by other carriers or agents, in which the carrier absorbed, taken over, or operated in part by another carrier is named as a participating carrier, shall be amended on statutory notice to add the new carrier as a participating carrier by the first subsequent supplement. Such supplement also shall contain the following provision:

The _____
(Correct name of adopting carrier)
by its adoption notice I. C. C. No. ____, having taken over tariffs, etc., of the _____
_____
(Correct name of old carrier)
insofar as they contain fares, charges, rules, or regulations applying from, to, at, or via the following stations _____,
(Naming them)
the _____
(Correct name of adopting carrier)
is hereby substituted for the _____
_____
(Correct name of old carrier)
wherever the latter appears in this tariff in connection with said stations and provisions. When the circumstances covered by subparagraph (2) of this paragraph are present, the notation directed in that subparagraph shall be added to the above notice.

(6) Similar adoption notice numbered in the I. C. C. series of the carrier must be filed immediately by a receiver or trustee when he assumes possession and control of part of a carrier's lines. When the receivership or trusteeship is terminated, the carrier taking over the properties shall file an adoption notice, and, if a change is also made in the name of the carrier, supplements announcing adoption as prescribed in the foregoing subparagraphs of this paragraph.

(7) Notices of adoption should be filed with the Commission immediately, and if possible, on or before the date shown therein. Copies must be sent immediately to each agent or carrier to which power of attorney or concurrence has been given by the adopted carrier. The notice must refer to this section, and its effective date must be the date (as shown in the body of the notice) on which the change in name or operation occurs. If prior approval of such change is necessary, reference also must be made to the order of the Commission.

(i) *Suspension of tariff schedules.* (1) Upon receipt of an order suspending any tariff or portion thereof, the carrier or agent who filed such tariff shall immediately file with the Commission a supplement, not bearing any effective date, which shall contain a reproduction of the pertinent portions of the Commission's order of suspension (including the paragraph prohibiting changes in the suspended matter), followed by a statement that by reason of the Commission's order (i) the use and application of the suspended publication or portion thereof (which must be identified with certainty) is either indefinitely deferred or deferred for the period prescribed in the Commission's suspension order and (ii) the schedules which were to be changed by the suspended publication (which schedules also must be identified with certainty) will remain in effect and will not be changed so long as effectiveness of the suspended matter is deferred (if deferred only for the term of the Commission's order the date must be specified), except by order or special permission of the Commission.

(2) If the responsible carrier or publishing agent has elected to file a supplement deferring the suspended matter only for the period prescribed by the Commission's order, and if prior to the expiration of that order the Commission formally or informally requests that a further deferment be made, the carrier or publishing agent may, under the authority of this section, issue a supplement effecting such further deferment. Where suspended matter has previously been deferred under the authority of this section, the carrier or publishing agent may, when requested by the Commission and prior to the date to which the matter is postponed, issue a supplement under the authority of this section further postponing the effective date of the matter originally suspended. Supplements issued should be filed on statutory notice if practicable and otherwise on shorter notice, but the notice shall be as long as time will reasonably permit and in no event less than one day. Where the effectiveness of matter originally suspended by the Commission has been voluntarily postponed beyond the term of the Commission's order, no change may be made during the period of such voluntary postponement in the tariff matter which was originally held in force by the Commission's suspension order, except by order or special permission of the Commission.

(3) Where, following the entry of a report and order in an investigation and suspension proceeding, a further order is entered in such proceeding postponing the effective date or requirement of the original order, the carrier or publishing agent, under authority of this section, may issue a supplement effecting such further deferment of the suspended schedule, and may also issue supplements to announce postponement of effective date of canceling supplements or cancelation notices filed following the entry of a report and order in an investigation and suspension proceeding to and including a date immediately preceding the effective date fixed in the postponing order. Further, where, pursuant to the provisions of section 17(8) of the Interstate Commerce Act, the filing of an application for rehearing, reargument, or reconsideration, stays the order fixing the effective date of a requirement or other action in an investigation and suspension proceeding, as evidenced by notice of the Commission to the parties, the carrier or publishing agent, under authority of this section, may issue a supplement effecting further deferment of the schedule under suspension or under voluntary postponement, and also may issue a supplement to announce postponement of the effective date of a cancelation supplement or notice that was filed following the entry of the report and order in such investigation and suspension proceeding. (Postponement should be to, and including, the last day of the suspension period prescribed in the suspension order, except where the responsible carrier or publishing agent elects to defer the use of the suspended schedules beyond the statutory period of suspension, in which event postponement should be until the date upon which the supplement announcing such postponement is canceled.) Supplements issued should be filed on statutory notice if practicable, and otherwise on shorter notice, but the notice shall be as long as time will reasonably permit and in no event less than one day.

(4) When the Commission has suspended a supplement in whole or in part, it sometimes occurs that prior to the filing of the supplement announcing suspension, a later supplement is filed which purports to reissue the suspended matter. In such instances the suspension supplement required by subparagraph (1) of this paragraph shall also (i) specifically cancel from the later supplement such reissued matter, and (ii) amend the cancelation notice on the title page of said supplement so as to except the suspended matter from the cancellation. Tardiness in filing supplements announcing suspension may result in the rejection by the Commission of the supplement which cancels the suspended matter.

(5) When the Commission suspends an entire tariff, the previous tariff and effective supplements are continued in effect and will remain in force during the period of suspension or until lawfully canceled or reissued. Except as to loose-leaf tariffs and tariffs of less than three pages, supplements containing additions to and/or changes in fares or other provisions which were not sought to be changed by the suspended tariff may be filed to the previous tariff without regard to the volume of supplemental matter which the effective supplements in the aggregate may contain. If the volume of supplemental matter permitted by paragraph (e) of this section has been exceeded under authority of this paragraph and the Commission orders the cancelation of the suspended tariff, the volume of supplemental matter must be brought within the requirements of paragraph (e) of this section by schedule filed within ninety days, or such tariff must be reissued in accordance with the following: If consisting of less than 100 pages, by schedule filed within ninety days, and if consisting of 100 or more pages, by schedule filed within one hundred and twenty days, from date upon which the suspended tariff is canceled.

(6) When the Commission suspends an entire supplement, the supplement will not be counted in the number of supplements nor in the volume of supplemental matter permitted by paragraph (e) of this section; nor in the event of suspension of a portion of a supplement will that supplement be so counted after

all matter therein except the suspended portions has been reissued in or canceled by a subsequent supplement. Such subsequent supplement shall cancel the supplement containing the suspended matter "except portions under suspension in I. & S. Docket No. ____, viz (identifying the suspended portion by item and page number)."

(7) When a tariff (not a supplement), any portion of which is under suspension, is canceled, the new tariff may either: (i) cancel the previous tariff "except portions under suspension in I. & S. Docket No. ____, viz (identifying the suspended matter and the matter held in force by the suspension order by item and page number)," or (ii) cancel the previous tariff entirely and bring forward without change the matter held in force by the order of suspension, followed immediately by the matter under suspension. The matter held in force by the order of suspension must be identified as such and shown as expiring with the date to which the suspended matter has been postponed. The suspended matter immediately following must likewise be identified as such and shown as effective on the day following the expiration of the matter held in force by the order of suspension.

(8) When an order of suspension relates to a portion of a new tariff or a supplement thereto, intended to supersede completely a readily identifiable prior tariff item (or other unit), such matter as is continued in effect by the order of suspension may be published (see note following subparagraph (9)) in the supplement announcing suspension. When so published the following notation must be provided in connection therewith, either as a note or as the explanation of a reference mark:

The matter subject to this [note or reference mark as the case may be] is reissued from tariff I. C. C. No. ____ and is continued in effect by the terms of the order of suspension in I. & S. Docket No. ____, and, unless it is sooner canceled, changed or extended, will expire with ____. (The date to be shown will be the date to which the suspended matter has been postponed.)

(9) When an order suspends a particular fare or fares or a portion of matter in an item (or other unit) in a new tariff and the matter remaining in effect in a prior tariff thereby becomes an integral part of such item (or other unit) of the new tariff, the entire item (or other unit) of the new tariff may be republished in the supplement announcing the suspension, provided there is shown in such item (or other unit) (i) the matter continued in effect by reason of the order of suspension, (ii) the suspended matter, and (iii) all other provisions of the item (or other unit) without change and appropriately indicated as reissued from the new tariff (see note following this subparagraph). The matter held in force by the order of suspension must be identified as such and shown as expiring with the date to which the suspended matter has been postponed. The suspended matter immediately following likewise must be identified as such and shown as effective on the day following the expiration of the matter held in force by the order of suspension. When the effective date of suspended matter has been indefinitely postponed, that fact must be stated by appropriate language.

NOTE: The form of publication permitted by the immediately preceding subparagraphs (8) and (9) of this paragraph may be used only when it permits complete cancellation of the tariff containing the matter continued in effect by the order of suspension. It may not be used in loose-leaf tariffs nor where the application of matter continued in effect depends in whole or in part upon other provisions, such as station grouping, rules or regulations, which differ from those in the new tariff and which cannot be brought forward in the supplement announcing suspension.

(10) When a revised (not an original) loose-leaf page, a portion of which is under suspension, is reissued, the new revised page shall (i) include the matter continued in effect by reason of the order of suspension, (ii) cancel the page previously containing such matter, and (iii) cancel the loose-leaf page containing the suspended matter "except portions under suspension in I. & S. Docket No. ____, viz (identifying the suspended portion by item and page number)."

(11) Neither a suspended tariff provision nor a provision held in force by reason of an order of suspension may be changed or canceled except by order or permission of the Commission.

(12) When the Commission vacates an order of suspension, or when suspended matter has been voluntarily postponed beyond the term of the Commission's order, and the Commission finds the suspended matter justified, a supplement may be filed making the suspended or postponed matter effective on one day's notice unless the Commission directs otherwise.

(13) When an order which suspended a tariff in its entirety is vacated or the Commission formally finds that the suspended tariff is justified, the vacating supplement filed under authority of this section also may include as reissues, any changes or additions which in the interim have been made in the tariff which was held in force by the order of suspension. If by special permission a new tariff has been filed during the period of suspension, canceling the tariff proposed to be canceled by the suspended tariff, any changes or additions published in the new tariff which are not included in the suspended tariff likewise may be included in the vacating supplement as reissued items, but in such cases the vacating supplement also must cancel the new tariff. No other matter may be included in vacating supplements. When reissued matter is published in a vacating supplement, the vacation notice must be printed in not less than 8-point type, either on the title page or immediately preceding the particular tariff matter to which the notice applies.

(14) When a tariff has been canceled, except portions under suspension, by a new tariff, and the Commission vacates its suspension order and/or formally finds the suspended matter justified, after the new tariff has become effective, a supplement may be filed to the new tariff on not less than one day's notice (unless the Commission directs otherwise), republishing and establishing the suspended matter and canceling the matter which was effective during the period of suspension, together with the matter under suspension in the former issue. When the Commission vacates its suspension order and/or formally finds the suspended matter justified before the new tariff becomes effective, a vacating supplement as provided in this section should be filed to the old tariff, and a supplement also should be filed to the new tariff on not less than one day's notice (unless the Commission directs otherwise), establishing therein the matter which was under suspension in the old tariff. A supplement common to both tariffs as authorized by § 145.8 (f) may be issued for this purpose.

(15) When the Commission suspends matter in a tariff or supplement thereto and thereafter orders its cancelation, the cancelation shall become effective upon not less than one day's notice (unless the Commission directs otherwise), by supplement to or reissue of the tariff. When the Commission orders suspended matter canceled and the final date for compliance is subsequent to the date to which the matter has been postponed, carriers should endeavor to make the cancelation in time to prevent the fares or other provisions which have been found not justified from becoming effective. If this is not done and the suspended matter becomes temporarily effective, it is necessary, when cancelation is effected, to republish and reestablish the matter which was continued in force by reason of the order of suspension.

(16) Every suspension, vacating, and cancelation supplement issued under authority of this section must bear on its title page the following notation:

Issued under authority of § 145.8 (1) of Tariff Circular No. 24 and in compliance with decision of the Interstate Commerce Commission in I. & S. Docket No. ____ of (date)." Postponement supplements issued under authority of this section must show on the title page "Issued upon ____ days' notice under authority of paragraph (1) of this section of Tariff Circular No. 24."

(17) Supplements issued under authority of § 145.8 (i) will not be counted against number of effective supplements or the volume of supplemental matter permitted under paragraph (e) of this section, but must be listed among the effective supplements as required by paragraph (a) (2) of this section.

(18) The provisions of the foregoing subparagraphs of this paragraph relating to suspension, postponement, vacating, and cancelation supplements also will govern in connection with tariffs issued in loose-leaf form, except that such supplements must not contain any other matter. All changes made in loose-leaf tariffs must be published on revised pages (see § 145.6).

§ 145.9 *Discontinuance and restoration of service*—(a) *Statement in tariff; announcement supplements.* (1) Tariffs containing fares applying in connection with any carrier whose service is discontinued for a portion of each year must provide for discontinuance and restoration of service over such carrier or carriers from and to the affected points by

stating that the fares provided therein and in supplements thereto, or fares applying in connection with certain carriers (naming them), are valid for passage only during the period when service over those carriers is available, and (i) stating the specific dates when services will be discontinued and restored in circumstances where specific dates can be determined; or (ii) in instances where specific dates cannot be determined, by stating that supplements to the tariff announcing discontinuance and restoration of service will be issued and filed with the Interstate Commerce Commission and posted at stations not less than one day prior to the date upon which service will be restored or discontinued.

(2) Supplements announcing the restoration or discontinuance of service under this section may be filed on not less than one day's notice, with reference made thereon to this section. Only one such supplement may be in effect at one time; it may not contain any other matter, and may be issued without observing the requirements of § 145.8 (e).

(b) *Reissuing or changing fares.* (1) Fares subject to discontinuance and restoration of service may be filed and made effective initially, or reissued or changed, on lawful notice at any time, regardless of whether service is available at that time. A tariff to which supplements will be issued to announce the discontinuance and restoration of service, which contains such fares for the first time or which reissues such fares from another tariff, and is to become effective during the time service is inoperative or discontinued, must state that such fares, because of lack of service, are inoperative when the tariff first becomes effective. If the tariff is to become effective on the date service is to be restored, in lieu of issuing a supplement announcing the beginning or restoration of service, it shall state, in connection with and immediately following the statement relative to discontinuance and restoration of service, that the effective date of service is the same as that shown on the title page of the tariff, and therefore no supplement announcing the beginning or restoration of service will be issued for that year (naming the year).

(2) A tariff which becomes effective during the period service is available and which contains changes in or reissues of fares as to which service was announced in the prior tariff or a supplement thereto need not be supplemented to announce availability of service for that year.

§ 145.10 *Index of tariffs*—(a) *Tariffs to be included.* Each carrier, except as otherwise provided, shall publish under proper I. C. C. number, post and file, a complete index of all tariffs issued by it or to which it is a party as an initial carrier which are in effect on the date of issue of the index or which have been filed with the Commission to become effective at a later date.

EXCEPTION: A carrier which issues not more than five tariffs in its own I. C. C. series need not file an index if such tariffs contain only local fares, rates and charges and the rules and regulations applicable in connection therewith.

(b) *Contents.* (1) The index shall show: I. C. C. number; full or abbreviated name of issuing carrier, tariff-publishing bureau or agent; a brief description of the character of the tariff; a concise statement of the territory from and to which the tariff applies.

(2) Tariffs which remain in effect for a period less than thirty days may be omitted from the index.

(3) If the carrier so desires, lists of its intrastate tariffs, division sheets, official circulars, and the numbers of its tariffs or division sheets may be shown in the index.

(c) *Numerical list of carrier's I. C. C. numbers.* The index also shall contain a complete list of the effective tariffs of the carrier's own I. C. C. series arranged in numerical order, except that if the total number of effective tariffs is less than 20, such list may be omitted.

(d) *Joint index.* A carrier may issue for itself and its family lines under proper form of concurrence a joint index. In similar manner, an agent, acting under power of attorney for each of a group of carriers, may issue a joint or consolidated index of tariffs of such carriers. The joint or consolidated index must contain all information for each participating carrier that is required to be shown in a separate index of the carrier's issue.

(e) *Revisions and supplements.* The index shall be revised to reflect changes, either by reissue each three months, or by supplement which need not be issued oftener than every three months and reissue of the index at least every twenty-four months. Supplements must show additions, changes, and cancelations made in the index itself or in prior supplements by reference to the pages, or index number, if used, where the entry is to be added or where the changed or canceled entry appears. Supplements may be issued without regard to volume of supplemental matter permitted by § 145.8 (e), and not more than three supplements may be in effect at any time.

(f) *Notation on title page; no effective date.* The title page of an index (or a supplement thereto) must bear the notation: "This index (or as amended by this supplement) contains list of tariff publications in effect ____ (Date, the same as date ____ or which have been filed to of issue) become effective at a later date as shown within." The title page shall bear date of issue but no effective date. Section 145.11 (b) requiring thirty days filing notice does not apply to indexes or supplements thereto.

(g) *Consolidated passenger and freight index.* One index containing both passenger and freight tariffs may be filed; in which event, the information required by the regulations governing each type of index must be shown in separate sections, the index must be given an I. C. C. number in both the freight and passenger series, and four copies must be filed with the Commission. The regulations governing the issuing of supplements and reissue of the index applying to the freight tariff index will govern the supplementing and reissue of a passenger and freight tariff index.

§ 145.11 *Filing Tariffs; rejections*—(a) *Who may file.* Tariffs shall be published and filed by carriers either directly or through duly authorized tariff-publishing agents. When filed directly by a carrier, the concurrence (or power of attorney as authorized in § 145.13 (f)), and when filed by an agent, the power of attorney, of every carrier participating therein must be filed or on file with the Commission. (See §§ 145.12 to 145.15, inclusive.)

(b) *Agent shall file under own I. C. C. number.* A tariff publishing agent must file tariffs under his (or its) own single series of I. C. C. numbers and not in the series of any of his (or its) principals. If the agent is a corporation or an unincorporated association (see § 145.12 (a)), having jurisdiction over two or more tariff-publishing organizations, bureaus, or committees, the tariffs issued through each such tariff-publishing organization may bear a separate series of I. C. C. numbers.

(c) *Tariffs to bear consecutive I. C. C. numbers.* I. C. C. numbers shall be assigned to tariffs in consecutive numerical order and, insofar as possible, tariffs should be filed with the Commission in that order. If for any reason a tariff is filed with the Commission, the I. C. C. number of which is not consecutive with the last tariff filed, such tariff should be accompanied by a memorandum explaining as to the missing number or numbers.

(d) *One filing for all participating carriers.* Tariffs must be filed with the Commission by the issuing carrier or agent, and such filing will constitute filing for all of the carriers parties thereto. The agent or carrier that issues a joint tariff shall at once send copies thereof to each carrier that is named as a party thereto. (See § 145.34 relating to posting requirements.)

(e) *Conflict between tariffs, avoidance.* A carrier that grants authority to an agent or to another carrier to publish and file certain of its fares or other provisions must not in tariffs of its own issue publish fares or other provisions which conflict with or duplicate those published by such agent or carrier. (See § 145.4 (f) (10).)

(f) *Period of notice.* (1) The act requires that all changes in fares, rates or charges, or in rules that affect fares, rates or charges, shall be filed with the Commission at least thirty days before the date they are to become effective unless otherwise authorized by the Commission. Manifestly it is impossible for the Commission to check the contents of tariffs to determine whether statutory notice has been given. Therefore, except as otherwise authorized by the Commission, thirty days' notice to the public and to the Commission must be given as to every tariff publication filed with the Commission, regardless of whether or not changes are effected thereby.

(2) (i) A supplement in which all changes are made on less than statutory notice under authority of these rules, special permission or other order of the Commission, and which supplement also contains provisions reissued without change may show on its title page the

short-notice effective date so authorized for the changed matter, provided all reissued matter shows the original effective date.

(ii) The notation required by § 145.3 (e) (1) "Except as otherwise provided herein" must be shown in connection with the effective date on the title page of the supplement.

(g) *Changes, 30 days' effectiveness required; expiration dates.* (1) After notice of a change in fares, rates or other tariff provisions has been published and filed, the new fares, rates or other provisions, unless they can be changed or canceled on thirty days' notice before their purported effective date, must be allowed to go into effect, and cannot be changed or canceled for at least thirty days after the date when the fares, rates or other provisions have become effective, except as otherwise authorized by rule, decision or order of the Commission.

(2) A tariff or a part thereof may provide that it will expire with a date specified therein and which is at least thirty days subsequent to the date upon which it becomes effective, and this will be legal notice of the cancelation of such tariff or part of a tariff, except that the expiration date of a tariff or a part thereof issued under authority of §§ 142.22 and 145.25 may be less than thirty days subsequent to the date upon which it becomes effective.

(3) A tariff or a part thereof which provides that it will expire upon a specified date, and that is not issued under authority of § 145.22, may be amended in the regular way and upon lawful notice, even though such amendment will not remain in effect for thirty days prior to the date of expiration.

(h) *Liability of carrier not relieved by filing of tariffs.* The law affirmatively imposes upon each carrier the duty of filing with the Commission and posting for public inspection all of its tariffs and amendments thereto in the manner prescribed in the act or in any rule which may be promulgated by the Commission. A penalty is provided for failure to do so or for using any fare or charge which is not contained in its lawfully filed tariffs. The receipt and filing of a tariff or supplement does not relieve the carrier from liability for violation of the act or of regulations issued thereunder.

(i) *Promulgation of fares prescribed by Commission.* (1) Fares, rates, charges, rules or regulations prescribed by the Commission in its decisions and orders in formal cases shall be promulgated by the carriers against which such orders are entered, in duly published and posted tariffs, loose-leaf pages, or supplements, and notice shall be sent to the Commission that its decision (or order) in Docket No. ____, has been complied with in item ____, page ____, of _____ tariff, I. C. C. No. ____ or supplement No. ____ to ____ tariff, I. C. C. No. ____.

(2) Unless otherwise specified in the decision or order in the case, such tariff, loose-leaf page, or supplement must be made effective upon statutory notice to the Commission and to the public. Whether made effective on less than statutory notice under special permission authority granted in the decision or order in the case, or upon statutory notice, when an entire tariff or supplement is issued in compliance with a decision or order, such tariff or supplement shall bear on its title page the notation "In compliance with decision (or order) of Interstate Commerce Commission in Docket No. ____." Whenever possible, the notation should include reference to the volume and page number of the report of the Interstate Commerce Commission. If the decision or order of the Commission affects only portions of the tariff or supplements, the notation shall be shown in connection with each portion so affected.

(j) *Number of copies; address; filing hours.* (1) Two copies of each tariff shall be filed with the Commission, both copies to be filed together under one letter of transmittal. They must be addressed to the Interstate Commerce Commission, Washington 25, D. C., with the envelope marked as containing "Tariffs."

(2) No tariff will be received by the Commission unless it is delivered to it free of all charges, including claims for postage.

(3) (Here to be inserted whatever regulation, if any, is approved in Ex Parte No. 199. Office Hours for Filing Freight and Passenger Tariffs and Schedules.)

(k) *Letter of transmittal.* (1) All tariff publications filed with the Commission shall be accompanied by a letter of transmittal 8 x 10½ inches in size, in form substantially as follows:

[Correct name of carrier]

[Post Office Address]

---

(Date)

Transmittal No. ----------

*To the Interstate Commerce Commission, Washington 25, D. C.*

Accompanying schedule is sent you for filing in compliance with the requirements of the Interstate Commerce Act, issued by ----------, and bearing tariff ____, I. C. C. ____; Supp. ____ to I. C. C. ____; ____ Revised Page ____ to I. C. C. ____; effective ----------, 19__; and is concurred in by all carriers named therein as participants under continuing concurrences or authorizations now on file with the Interstate Commerce Commission, except the following named carriers, whose concurrences are attached hereto:

---

---

---

(Signed) ----------

(Title) ----------

(2) A separate letter may accompany each schedule, or the form may be modified to provide for filing under one letter as many schedules as can be conveniently entered. In filing blanket supplements a copy of the blanket supplement may be attached to the letter of transmittal as a part thereof in lieu of listing in the body of the letter of transmittal each supplement and tariff supplemented. When this is done, the statement "(See exhibit attached)" should be inserted in the body of the letter of transmittal where supplement numbers usually are listed. Separate letters must be used for freight and passenger schedules.

NOTE: If receipt for accompanying schedule is desired, the letter of transmittal must be sent in duplicate, and one copy showing the date of receipt by the Commission will be returned to the sender.

(l) Not used.

(m) *Rejection of tariffs or notices of revocation.* (1) Any tariff or schedule tendered for filing, which fails to give lawful notice of changes in fares, rates, charges or other provisions which it proposes to establish, or which fails to meet the requirements of these regulations, or violates any order of the Commission or of a court, is subject to rejection by the Commission. When a tariff or schedule is rejected, the Commission, acting through a designated administrative officer, will inform the carrier or the agent who tendered it for filing, in writing, of the reasons for rejection, and will return the rejected tariff or schedule to such carrier or agent.

(2) The number assigned to the tariff or schedule that has been rejected may not again be used. The rejected tariff or schedule may not be referred to in any subsequent tariff or schedule as having been canceled, amended or withdrawn, but the tariff or schedule that is published in its stead must bear the following notation: "Issued in lieu of (here identify the rejected schedule or tariff), rejected by the Commission."

(3) A notice of the revocation, complete or partial, of a concurrence or power of attorney which, if it were to become effective, would require the establishment of fares, rates or charges in violation of an order of the Commission or of a court, or of the regulations in this part, may be rejected in the same manner as a tariff or schedule, and any such notice of revocation which would require the establishment of fares, rates or charges of doubtful lawfulness may be suspended.

(n) *Tariffs filed not returned, unless rejected.* Tariff publications received for filing will not be returned unless rejected in accordance with paragraph (m) of this section.

§ 145.12 *Tariffs issued through an agent*—(a) *Agents: natural persons, corporations, or associations.* If a carrier desires to issue a tariff or tariffs through an agent, it may do so by filing with the Commission an appropriate power of attorney to the designated agent. Agents may be either natural persons, corporations, or unincorporated associations whose articles of association (or other form of agreement) have been approved by the Commission in a proceeding pursuant to the provisions of Section 5a, Part I, of the Interstate Commerce Act. An officer or employee of an incorporated tariff-publishing agent may not act as an agent in his individual capacity for the publication of tariffs.

(b) *Designation of issuing officer.* When an association or corporation has been appointed an issuing agent, the executive head thereof shall at once notify the Commission of the name of the individual who is to be responsible for the actual compilation and filing of each I. C. C. series of tariffs issued by the agent. There may be only one issuing officer for each such series of tariffs, and the same individual may not act as issuing officer for more than one series without the special permission of the Commission. When an issuing officer is replaced, the Commission shall be immediately notified in like manner of his successor.

(c) *Alternate agent.* When a natural person is authorized by power of attorney to act as a tariff-publishing agent, such instrument shall designate another natural person to act as alternate agent in the event of the death or disability of the principal agent. On or before the date of filing of the first tariff or supplement by the alternate agent under the authority granted in the instrument, such alternate agent shall notify the Commission in writing that death or disability of the principal agent has occurred and that he, the alternate agent, will thereafter act until the appointment of a new principal agent. The term "disability" as used in the instrument means resignation, permanent transfer to other duties, or other permanent absence of the principal agent. After an alternate agent has once exercised the authority granted by the instrument, the principal agent may not thereafter act under that instrument.

§ 145.13 *Powers of attorney* — (a) *Publishing agent.* (1) A power of attorney shall be used by a carrier to give to a publishing agent, but not to another carrier, authority to publish and file passenger tariffs and supplements for it, except that a carrier may give a power of attorney to another carrier in the circumstances and subject to the conditions stated in paragraph (f) of this section. Powers of attorney given to publishing agents may be either unlimited or limited, and in the case of corporations or unincorporated associations comprised of more than one bureau, committee or regional organization, the power of attorney may consist of multiple instruments, such instruments to define separately the authority to be exercised by each component bureau, committee or regional organization.

(2) A carrier may not have in effect at the same time an unlimited power of attorney and a limited power of attorney in favor of the same agent for use by the same bureau, committee, or regional organization.

(b) *Unlimited power of attorney form.* (1) An unlimited power of attorney, when given to a publishing agent, authorizes the agent to file any passenger tariff in which the carrier giving the power is a participating carrier. Form PA1 confers unlimited authority to publish local fares and charges for the carrier issuing the power and to publish joint fares and charges for such carrier and such other carriers as have issued the necessary authority.

(2) The following form of power of attorney, PA1, shall be used to give such unlimited powers:

POWER OF ATTORNEY

(c) *Limited power of attorney form.* (1) A power of attorney may be limited in any appropriate manner provided the limitations are specifically and unambiguously expressed in the instrument. For example, the agent may be authorized to publish only local fares, only joint fares, only specified rates and charges, or fares and charges in a specified territory, or only specified tariffs or types of tariffs.

(2) The following power of attorney, Form PA2, shall be used to give such limited authority:

(d) *Manner of execution.* (1) In the blank space for the name of the carrier in Forms PA1, PA2, and PA3, there must be shown, if the carrier is an individual, the individual name followed by the trade name, if any. If the carrier is a partnership, the correct names of all partners must be given, followed by the trade name, if any. If the carrier is a corporation, the correct corporate name must be used.

(2) If the carrier is an individual, the power of attorney must be signed by the individual. If a partnership, the power of attorney must be signed individually by each partner. If the carrier is a corporation, the power of attorney must be signed by the president, a vice president or any other authorized official of the carrier. However, before the signature of an employee other than the president or a vice president on a power of attorney will be recognized by the Commission, the carrier must file with the Commission, over the signature of the president or a vice president, a statement reciting that the individual is authorized to sign powers of attorney. The statement must include a specimen signature of the individual or individuals so designated. The authority to sign powers of attorney may be conferred, in the manner described, on more than one official of the carriers. If the carrier is being operated by trustees or receivers, the power of attorney must be signed by each trustee or receiver individually or by his or their designee. Trustees or receivers may invest others with the authority to sign in the same manner as the president or vice president of a corporation may confer the authority on subordinate officials.

(3) If the agent appointed by either PA1 or PA2 is a corporation or an unincorporated association, the last full paragraph of the form shall be omitted.

(e) *Joint agents.* If an agent does not hold the requisite authority to publish a particular tariff, the authority to do so may be obtained by pooling the authority held by him with that held by one or more other agents, and the tariff may be published jointly by both or all such agents in the I. C. C. series of each. For example, if one agent has authority to publish fares only from territory A to territory B, and another agent has authority to publish fares only from territory B to territory A, the fares may be published in a single tariff on a "between" basis and filed with the Commission as a joint tariff of both agents under the I. C. C. series of each.

(f) *Carrier acting for another carrier.* (1) A power of attorney may be given by small carriers to large carriers with which they connect, or by subsidiary to parent carriers, authorizing the large or

parent carriers to publish tariffs, to give and receive concurrences, and to give powers of attorney to agents, all in behalf of the small or subsidiary carrier. The authority granted may be unlimited, as in the form which follows (Form PA-3), or it may be limited in any appropriate manner, provided the limitations are specifically and unambiguously expressed in the instrument. When a PA3 form of power of attorney has been given, the granting carrier may not thereafter do in its own behalf anything which it has authorized the grantee carrier to do in its stead. Concurrences and powers of attorney given by the grantee carrier, however, will be deemed to be given on its own behalf only, unless the instrument expressly recites that it is given or is also given, in behalf of the carrier for which it holds power of attorney. A PA3 form of power of attorney will be construed as authorizing the grantee carrier to give a concurrence to itself in behalf of the granting carrier.

(2) The following form of power of attorney, Form PA3, shall be used by a carrier to give authority to another carrier. When the authority is to be limited in any way, the form should be altered to the extent necessary.

That the [name of granting carrier] has made, constituted, and appointed, and by these presents does make, constitute, and appoint [name of grantee carrier] its true and lawful attorney and agent (1) to issue in its name, place and stead powers of attorney to tariff-publishing agents, (2) to give and receive in its name, place and stead concurrences in tariffs of other carriers, and (3) to publish and file, or cause to be published and filed, passenger tariffs and supplements thereto and successive reissues thereof, in which the undersigned carrier is a participant, all as required of common carriers by existing laws and regulations established thereunder. And the undersigned carrier does hereby give and grant unto its said attorney and agent, full, sole and exclusive power and authority to do and perform all and every act and thing above specified for and on behalf of the undersigned carrier as fully, to all intents and purposes, as if the same were done and performed by the undersigned carrier itself, and does hereby assume full responsibility for the acts and failures to act of its attorney and agent.

§ 145.14 *Concurrences.* (a) A carrier desiring to become a participant in a tariff or tariffs issued by another carrier (not by an agent) may do so by filing with the Commission a limited or unlimited concurrence (except as provided in § 145.13 (f)) in one of the four following forms. In forms PC2 and PC4 the limitations must be specifically and unambiguously expressed.

(1) Form PC1, which follows, is unlimited and covers all passenger tariffs applying on traffic moving from, to, via or at points on the line of the carrier giving the concurrence:

(b) Concurrences shall be personally signed by any official of the issuing carrier.

(c) If a carrier has been authorized by power of attorney to issue concurrences in behalf of one or more small or subsidiary carriers (See § 145.13 (f)), the carrier holding such authority may by a single instrument issue a concurrence in its own behalf and in behalf of any or all of such small or subsidiary carriers.

§ 145.15 *Filing of powers of attorney and concurrences.* (a) If a power of attorney or concurrence is issued subsequent to the date of the filing of the tariff with the Commission, the original instrument shall be forwarded directly to the Commission with a copy to the issuing agent or carrier, but if it is issued prior to or concurrently with the issuance of the tariff, the original instrument may either be forwarded directly to the Commission, or it may be sent to the carrier or agent issuing the tariff and be transmitted by it or him to the Commission with the tariff. (For exceptions see §§ 145.17 and 145.18 (a).)

(b) Powers of attorney, concurrences, amendments thereto and revocation notices shall be printed or typed on paper of good quality, 8 x 10½ inches, and must show the date on which they are issued. Each power of attorney and concurrence shall bear a form and serial number, the serial numbers to run consecutively for each form of instrument. Concurrences issued by a carrier jointly in its own behalf and in behalf of one or more other carriers (see § 145.13 (f)) may, if desired, be issued under a separate series of numbers. The form and serial numbers shall be shown on the upper right-hand corner, and immediately thereunder shall be shown the form and number of the power of attorney or concurrence, if any, which is canceled thereby. If the instrument to be canceled contains more authority or is broader in scope than the new instrument, such new instrument must in addition to the date of issue, bear an effective date at least 60 days after the date on which it is received by the Commission. When the new instrument is the same or broader in scope than the instrument which it cancels, it becomes effective when filed with the Commission. The instrument also shall show, in the lower left-hand corner, the name, title and address of the person to whom the duplicate is sent.

§ 145.16 *Certificate stating correct name of carrier to be filed.* When a corporate or partnership carrier files its first tariff, power of attorney or concurrence, it also shall file a certificate stating the precisely correct name of the carrier as it appears in the charter or articles of incorporation, or in the articles of co-partnership, as the case may be. If, for example, the article "The" is a part of the carrier's name, if the conjunction "and" appears therein as "&", or if the word "Company" is abbreviated to "Co.", the certificate must so indicate.

§ 145.17 *Transfer of authority from one agent to another agent.* (a) When it is desired to transfer authority from one agent to another agent superseding the former agent as to all such agent's effective tariffs, the transfer shall be accomplished by filing a new power of attorney naming the agent (and alternate when the new agent is a natural person) thereafter to serve, which shall specifically cancel the previous instrument or instruments, by including the following in the power of attorney to the new agent:

This power of attorney cancels the following power(s) of attorney:

| Power of attorney form and number | In favor of |
|---|---|
| (Insert power of attorney forms and numbers) | (Insert name of agent and alternate) |

(b) Under all other conditions the power of attorney must be revoked in accordance with § 145.21 (b).

(c) The originals of such powers of attorney shall not be sent immediately to the Commission, but shall be forwarded to the new agent, who, after all the necessary instruments shall have been secured, shall file all of the originals with the Commission at one time. The new agent may file no tariffs with the Commission until the powers of attorney from all of the carriers shown therein as participants have been so filed.

§ 145.18 *Procedure when one publishing agent succeeds another.* (a) When powers of attorney have been issued to a natural person and his alternate, and death or disability of either the principal agent or the alternate occurs, new powers of attorney shall be filed with the Commission within 180 days, canceling the previous instruments and designating the new agent (and also his alternate if the new agent is a natural person) thereafter to serve. If the filing of the new instruments is occasioned by the death or disability of the former alternate, the new instruments may, if desired, continue the former principal agent and designate a new alternate only. Likewise if death or disability of the principal agent has occurred it is permissible to continue the former alternate agent in the new instruments and designate a new principal agent only. As soon as the instruments appointing the new agent are filed the alternate agent who in the interim has acted may no longer do so. The new powers of attorney shall not be forwarded directly to the Commission, but shall be collected by the new agent and forwarded to the Commission together, as provided in § 145.17. The new agent may not file a tariff for any carrier until that carrier's power of attorney to him is on file with the Commission.

(b) In the first amendment to each tariff issued by the alternate agent after the death or disability of the principal agent, there shall be shown a statement reading substantially as follows: "On and after (show here the date on which the principal agent ceased to act) this publication shall be considered as the issue of ----------, Alternate Agent".

(c) A new agent, on or after the filing of his or its authorities, shall include in the next supplement to each of the effective tariffs previously taken over by the alternate agent a statement reading substantially as follows: "On and after (show here the date on which the new authorities are filed with this Commission), this publication shall be considered as the issue of ----------, Agent".

§ 145.19 *I. C. C. numbers of tariffs issued by a new agent or alternate agent.* Tariffs issued by a new agent may be, and those issued by an alternate agent must be, numbered in the I. C. C. series of the former agent. If it is desired to number the tariffs of a new agent in a different I. C. C. series, this may be done as to new or reissued tariffs, but amendments (supplements or revised pages) to tariffs issued by the former agent must be continued in the original series.

§ 145.20 *Powers of attorney and concurrences in special situations*—(a) *Joint concurrences.* If joint concurrences are issued in behalf of two or more carriers by the same traffic officer, all concurrences in each series must be issued on behalf of all such carriers, except as to concurrences interchanged between those carriers. If concurrences in a single series are issued separately for different carriers, separate files in that series must be maintained for each carrier, and concurrences of each carrier must be issued in consecutive numerical order as required by § 145.15(b).

(b) *When operation discontinued or taken over by another carrier.* Powers of attorney and concurrences issued in favor of a carrier which has discontinued operations should be revoked within 120 days after such discontinuance. If its operations have been taken over by another carrier, all effective powers of attorney and concurrences should be canceled within 120 days either by new issues or revocation notices.

NOTE: This rule applies, among other situations, when an incorporated carrier is placed in the hands of trustees or receivers and is thereafter reorganized. When trustees or receivers are appointed they normally assume, and the corporation discontinues, operations; and thereafter, following reorganization, operations again pass from the receivers or trustees to the reorganized corporation.

(c) *Forms for joint rail-motor tariffs.* Powers of attorney and concurrences authorizing the publication of joint rail-motor tariffs and supplements shall be issued on the standard PA and PC forms described in §§ 145.13 and 145.14. Such powers of attorney and concurrences must bear the following notation in the upper portion of the document: "Joint Rail-Motor Power of Attorney" or "Joint Rail-Motor Concurrence."

§ 145.21 *Amendment and revocation of powers of attorney and concurrences*—(a) *Amendments.* (1) A power of attorney on Forms PA2 or PA3 or a concurrence on Forms PC2 or PC4 may be amended by issuing an "Amendment to Power of Attorney," or "Amendment to Concurrence," respectively. However, only four amendments to any one power of attorney or concurrence will be permitted. The amendment must specify with particularity the exact change in the scope of the powers or the authority conferred, by appropriate reference by number to the power of attorney or concurrence affected, by identification by I. C. C. and agent's or carrier's number of the tariff or tariffs affected, and by a detailed description of the traffic or territory affected.

(2) If an amendment to a power of attorney or to a concurrence reduces the scope of the original instrument, such amendment must bear in addition to the date of issue, an "effective" date at least 60 days after the date on which it is received by the Commission. If the amendment adds to or increases the scope of the original power of attorney or concurrence, no notice is required and it becomes effective when filed with the Commission. (See paragraph (e) of this section.)

The form of an "Amendment to Power of Attorney" is as follows:

AMENDMENT TO POWER OF ATTORNEY

Amendment No. --
To PA ---- No. --

---
(Name of Carrier)

---
(Mail Address)

---
(Date)

*Know All Men by These Presents:*

Effective ----------, the undersigned
(Date)

hereby amends the above-numbered power of attorney, in the following respects:

---

---
(Name of Carrier)

By ----------
Its ----------
(Title)

Duplicate mailed to:
(Name of Agent or Carrier)
(Address)

The form of an "Amendment to Concurrence" is as follows:

Amendment No. --
To PC ---- No. --

---
(Name of Carrier)

---
(Mail Address)

---
(Date)

*To the Interstate Commerce Commission, Washington 25, D. C.*

The undersigned hereby amends PC -- No. -- in the following respects:

---

---

---
(Name of Carrier)

By ----------
Its ----------
(Title)

Duplicate mailed to:
(Name of Carrier)
(Address)

(b) *Revocations.* A power of attorney or a concurrence may be revoked upon not less than 60 days' notice by filing a Notice of Revocation with the Commission and serving at the same time a copy thereof on the agent, in the case of powers of attorney on Forms PA1 and PA2, or on the carrier in whose favor the instrument was executed, in the case of concurrences or powers of attorney on PA3. Such notice shall not bear a separate serial number, but shall specify the form and number of the power of attorney, or the form and number of the concurrence, to be revoked, shall name the agent, and alternate agent, if any, or the carrier, in whose favor the instrument was executed, and shall specify a date upon which revocation is to become effective. (See § 145.21 (e).)

(c) *Corresponding revision of tariff.* When a power of attorney or concurrence is revoked, corresponding revision of the tariff or tariffs must be made not later than the effective date stated in the notice of revocation. If the tariff or tariffs are not so amended, the fares, rates and other provisions therein remain effective and must be protected by the carrier or carriers responsible for their continued maintenance.

(d) *Forms for revocations.* Revocation notices shall be in one of the following forms, as appropriate:

REVOCATION NOTICE

(Power of Attorney)

---
(Name of Carrier)

(e) *Amendment or revocation, manner of execution.* (1) An amendment to, or a revocation of a power of attorney shall be executed in the same manner as powers of attorney, and a statement of the kind specified in § 145.13 (d) shall be filed with the Commission to designate persons authorized to sign such amendments or revocations. The statement filed in accordance with § 145.13 (d) may include in the one instrument designations and specimen signatures of persons authorized to sign powers of attorney, amendments to powers of attorney, and revocations of powers of attorney.

(2) An amendment to, or a revocation of a concurrence shall be executed in the same manner as concurrences. (See § 145.14 (b).)

§ 145.22 *Round-trip excursion fares*—(a) *10-day limit or less.* Round-trip excursion fares limited to a designated period of not more than 10 days may be established upon posting a tariff one day in advance of the effective date at the stations where tickets for such excursion will be sold and mailing two copies thereof to the Commission.

(b) *Over 10- but not over 30-day limit.* Round-trip fares for an excursion limited to a designated period of more than 10 days and not more than thirty days may be established upon posting a tariff three days in advance of the effective date at the stations where tickets for such excursion will be sold and mailing two copies to the Commission.

(c) *"Designated period" defined.* The term "designated period" used in this section means the period beginning with the first day on which the transportation can first be used and ending with, and including, the day upon which the return trip must be completed.

(d) *Supplement permitted.* Except as provided in paragraph (e) of this section, no supplement may be issued to any tariff filed under the authority of this section except for the purpose of canceling the tariff, and the title page of the tariff must so state. Every such tariff must bear the notation on its title page, "Issued under authority of this section."

(e) *Series of excursion fares in one tariff.* (1) A series of temporary round-trip excursion fares limited for designated periods as set forth in paragraphs (a) and (b) of this section, the effectiveness of which extends over a period exceeding thirty days but not more than one year, may be published in the same tariff and established as provided in paragraph (b) of this section as to certain of the fares and accompanying provisions, and on statutory notice as to the remainder. For example, tariff is filed with the Commission, March 2, to be effective March 7, 14, 21, 28, April 4, 11, 18, and 25, with final return limit of eight days in addition to date of sale. From March 7, to final return limit of ticket sold April 25, is 58 days. In connection with the sale dates of March 7, 14, 21, and 28, the tariff must indicate by appropriate symbol that insofar as it is effective on those dates it is issued under authority of this section. The tariff insofar as it is effective on the dates of April 4, 11, 18 and 25, is filed on statutory notice, and no notation to that effect is necessary.

(2) Changes in tariffs issued under authority of subparagraph (1) of this paragraph may be made by supplement bearing reference to this section provided the tariff consists of three or more pages and only one supplement is in effect at one time, or by reissue of the tariff, by filing and posting such changes not later than three days before they are to become effective, for the following purposes:

(i) Change or add dates of sale, but the effectiveness of the tariff, as amended, shall not extend over a period of one year.

(ii) Extend return limit.

(iii) Add additional selling stations or destinations, routes or privileges.

(iv) Reduce fares.

§ 145.23 *Fares in special car or train service*—(a) *Between competitive points.* In order to avoid maintenance of fares between rail-competitive points for application over routes infrequently used because of limited, or absence of, passenger train service, tariffs of one-way fares, subject to a three-day period of sales in each case and applicable only to movements of passengers by special car or special train service, may be filed and posted on one day's notice; provided that each such fare is the same as a fare on file with the Commission and in effect over another rail route; and provided further, that the fares filed under authority of this paragraph may not apply over any route which exceeds 135 percent of the short-line passenger mileage from origin to destination.

(b) *From and to local points.* From and to points on one railroad, when origin or destination is a local point, or when both origin and destination are local points, on that railroad, from and to which no regular passenger train service is operated and no fares are published, tariffs of one-way fares, subject to a three-day period of sales and which are restricted only to movements of passengers by special car or special train service, may be filed and posted on one day's notice, provided that each such fare is on the same basis as the carrier's one-way fares of the same class regularly maintained from and to other points on its line in the same territory.

(c) Publications issued under authority of this section shall bear on the title page the following notation: "Issued on one day's notice under authority of this section."

§ 145.24 *Newly inaugurated regular sleeping-car or parlor-car service.* Rates and charges, including those for additional occupancy at termini or at stations en route for newly inaugurated regular service in sleeping cars or parlor cars, to and from points to and from which no rates and charges are in effect, may be filed and posted on one day's notice, provided such rates and charges are on the same basis as those of the carrier for the same type accommodations regularly maintained from and to other points in the same territory. Provisions published under authority of this section must contain a notation in connection therewith reading as follows: "Issued on one day's notice under authority of this section."

§ 145.25 *Temporary rates for sleeping cars or parlor cars.* (a) A tariff containing temporary rates and charges for sleeping car and/or parlor car accommodations effective for a period not exceeding four months may be made effective upon posting one day in advance of the effective date at the stations where tickets for such accommodations will be sold and mailing two copies thereof to the Commission, subject to the following conditions:

(1) Rates and charges in such tariff shall apply only to transportation in (i) a through car in special service (see note) from and to points between which, or over routes over which, no through service is maintained and no through rates are in effect, or (ii) a through car in special service (see note) in which the privilege of stopover, side-trip, or additional occupancy at termini or at stations en route is permitted and the charges therefor are explicitly shown.

(2) Rates in such tariff shall be (i) the same as on file with the Commission and in effect from and to the same points over another rail route, (ii) either the lowest sum of intermediate rates from origin to destination over the route of movement or over another rail route, or (iii) on the same basis as rates of the carrier from and to other points in the same territory.

NOTE: As used in this section, "through car" means a car which moves through from origin to destination from and to which the fares and/or charges apply; and "special service" means sleeping-car or parlor-car service other than that ordinarily offered in regularly scheduled trains.

(b) Tariffs issued under authority of this section may be in a separate series of I. C. C. numbers, and each tariff must bear on its title page the notation, "Issued under authority of this section."

§ 145.26 *Newly constructed lines of railroad and newly established service by water carriers*—(a) *Notice.* Charges applicable at, and fares, rates, charges, rules and regulations applicable from and to points on newly constructed lines of railroad, including branches and extensions of existing railroads, or ports reached by water carrier when new water-carrier service has been inaugurated, may be established in the first instance on not less than one day's notice. Such fares, rates, charges, rules or regulations, when established, may be changed only in accordance with the act.

(b) *Limitation.* No fare or other provisions may be filed under authority of this rule, the effective date of which is more than sixty days after the effective date of the first fare or other provision established from, to, or at any point on the same line of newly constructed railroad or embraced in the same grant of authority for new service by water carrier, as the case may be.

(c) *Tariff notation.* Provisions published under authority of this section must contain a notation in connection therewith reading as follows:

Issued on one day's notice under authority of this section. Fares (or other provisions) established in the first instance (from, to, between, or at, as the case may be), stations on railroad (or reached by water carrier, as the case may be).

Where all of the provisions in a tariff or supplement are issued under authority of this section, the above notation may be shown on the title page.

§ 145.27 *Transportation of circus and show outfits.* Rates for specified movements of circuses and other show outfits may be established on not less than one day's notice to the Commission. Such tariffs must bear reference to this section and must publish the charges specifically, showing the number and kind of cars moved, or may consist of a proper title page reading "as per copy of contract attached," and to it may be attached a copy of the contract under which the circus is moved. Tariffs containing such rates need not be posted at stations. As far as practicable, general rules or regulations governing the fixing of such rates should be regularly published, posted, and filed upon statutory notice.

§ 145.28 *Party-fare tickets.* (a) Party fares must not be restricted in their application to use by any class or classes of persons, but their use must be open to all; and no statement such as "account High School" (or any organization) shall appear on the title page of, or elsewhere in, a tariff providing for such fares.

(b) A party-fare tariff that provides per capita fares which decrease as the minimum number in the party increases, must contain a provision that the maximum charge for any party shall not exceed the total minimum charge for a larger party.

(c) Party fares are primarily for a group traveling together; however, in connection with round-trip party fares, in lieu of one-round-trip-ticket, there may be issued one ticket for the going trip and individual tickets for the return trip, if desired.

§ 145.29 *Round-trip tickets on certificate plan.* (a) Round-trip tickets on the certificate plan may be issued at reduced fares and their use confined to the delegates to a particular convention or to the members of a particular association or society, upon the condition that a certain number of such tickets shall be presented for validation for return trip before the reduced fare for return trip will be granted to any ticket holder. The Commission suggests that the requirement be that not less than one hundred tickets shall be presented for validation for return trip before reduced fare will be granted to any ticket holder. Validation need not be required when it is obvious that the convention or meeting will be attended by a large number and there will be no question that the number using railroad service will exceed the minimum number which might be required. Tariffs of fares and regulations governing issuance and use of round-trip tickets on certificate plan must be filed and posted.

§ 145.30 *Validation of round-trip passenger tickets*—(a) *Validation for original purchaser.* A requirement that a round-trip passenger-fare ticket shall

be validated for the original purchaser by carrier's agent at a given point is a condition affecting the value of the service, and must be published in the tariff under which the ticket is sold, and when published, must be observed. The tariff may provide for validation at numerous points, and it may provide for validation at any point intermediate to the original destination named in the ticket.

(b) *Avoid conflicting conditions in ticket and tariff.* The conditions stated upon the ticket should not conflict with the tariff provisions, but, if in any case there should be conflict between the tariff provisions and the conditions stated on the ticket, the tariff provisions must govern.

(c) *When illness or death occurs.* A carrier may provide in its tariff a rule that in case of illness or death of passenger or member of his family who is traveling with him, a specified officer of the carrier may validate round-trip tickets held by such passengers at a point short of that at which the tickets otherwise would be validated.

(d) *Failure to validate ticket.* A carrier may incorporate in its tariff a rule that when a passenger is compelled to pay the regular return fare because of his failure to have his round-trip ticket validated at the designated point, the carrier will refund the extra fare upon the filing with it of an affidavit by the holder of the round-trip ticket, certifying that the ticket has been used in accordance with all of the conditions of the tariff, except as to the matter of validation.

§ 145.31 *Emergency extension of time limit of tickets and granting stop-overs.* (a) (1) Carriers may provide in their tariffs that the time limit for the use of a passenger ticket may be extended in case of illness of the passenger holding such ticket. The tariff must give the title of the person who shall have authority to give such extension, and such person shall be required by the carrier to keep a memorandum of each instance in which such extension is given, and the data upon which it is allowed. Such information shall be made available to the Commission when requested. Only such illness as makes travel dangerous to the health of the traveler will justify the extension herein provided for.

(2) The extension also may be granted to one or more members of the family of the ill passenger when they are traveling with him, and to persons who are subject to an established quarantine. Stop-over privileges for a limited time may be granted for the same causes and under the same conditions and restrictions as justify extension of time limit of tickets.

(b) A carrier also may provide in its tariffs that whenever, because of washout, wreck, or other obstruction to its tracks, public calamity, the act of God, or of the public enemy, a passenger is delayed on its lines so that the limit of such passenger's ticket has expired or has elapsed to such an extent as to curtail his stopover privileges, the conductor or other specified agent will give, by endorsement on ticket or otherwise, certificate of such detention, and that such certificate will operate to extend the limit of such ticket to the extent of detention so certified, and that such extension will be honored by succeeding conductors on its lines. It also may provide that like certificates of detention and extension given by other carriers will be honored on its lines; but no carrier may so extend any part of a ticket reading over lines other than its own, except when provision therefor is contained in a joint tariff to which it and each other carrier affected is a party.

§ 145.32 *Free transportation of caretakers in connection with shipments of property.* (a) Section 1 (7) of the act provides that free transportation may be furnished "to necessary caretakers of livestock, poultry, milk, and fruit." This provision in the statute is construed to mean necessary caretakers of livestock, poultry, milk, or fruit that is loaded and ready for movement, or the movement of which is actually contracted for or that is actually in transit, and may include free or reduced-fare transportation for the return of such necessary caretakers. This transportation may be in the form of free pass or reduced-fare transportation, but in any event it must be the same for all under like circumstances. Authority for such free or reduced transportation must be published in the tariff governing the transportation of the commodity, which also must contain such policing regulations as will prevent the misuse of this provision. Tariffs may provide that caretaker sent out to return with shipment that is arranged for or that is in transit will be required to pay fare going and that such fare will be refunded if person so sent does return as actual caretaker of shipment for which he is sent. But a tariff rule which provides that if a person goes out over the line with the intention of purchasing livestock and returns within a certain time with a certain number of cars of livestock, the carrier will refund to him the fare paid on outgoing trip is improper and unlawful.

(b) The Commission is of the opinion that the term "fruit" as used in section 1 (7) of the act includes perishable vegetables, and that bees in hives and live fish may be included in the term "livestock" when shipped under conditions that make caretakers "necessary."

(c) When an express company provides in its tariff for free transportation for caretakers in charge of livestock, poultry, milk, or fruit, and the railroad company over whose lines such express company operates provides in its tariff that such caretakers may be permitted to ride in passenger car, the tariff of the express company and that of the railroad company must give reference to each other.

§ 145.33 *Ocean carriers' fares to or from foreign countries.* Carriers subject to these regulations may not join with ocean carriers in publishing joint fares, rates or charges to or from foreign countries. As a matter of convenience to the public, however, carriers subject to these regulations may publish as information in their tariffs in connection with the fare, rate or charge to or from the port, the steamship charge to or from points in a foreign country. When this is done, such steamship charges may be changed without notice, but the fares, rates or charges of the carriers subject to these regulations to or from the port are subject to all of the provisions of the Interstate Commerce Act and the Commission's tariff-publishing rules. Tariffs containing such steamship charges must not be concurred in by the ocean carriers.

§ 145.34 (a) *Posting of tariffs defined.* The term "post" as used in this section means the maintenance of a file of tariffs in the custody of an agent of the carrier in a complete, accessible, and usable form, and keeping such file of tariffs available to the public upon request during ordinary business hours. The term "tariff" as used in this section includes tariff supplements or amendments.

(b) *Carriers required to post tariffs at stations.* (1) Each railroad, sleeping car company and each common carrier by water shall post at each station at which passengers are received for transportation and at which an agent is employed all tariffs (including those filed for it by tariff-publishing agents or by other carriers with its concurrence) which contain fares applying from that station or which contain terminal or other charges applicable at that station, together with all other tariffs needed to determine the application of such fares or charges. There shall also be posted at each such station an index of the carrier's passenger tariffs in form as provided in § 145.10.

(2) Each common carrier by motor vehicle shall post at each station or office at which passengers are received for transportation and at which an agent is employed all tariffs containing joint motor-rail, motor-water, and/or motor-rail-water fares applying from or at such station or office.

(c) *Relief from requirements.* If any tariff so posted (other than a tariff index) has not been used for a substantial length of time, the posting of that tariff, including reissues thereof, may be discontinued until such time as a request is made to the carrier's agent to have it reposted. It shall then be reposted within 20 days and thereafter kept posted.

(d) *Location of complete public files of tariffs.* (1) Each railroad and sleeping car company and each common carrier by water shall post at its principal office a complete set of all tariffs which it issues or to which it is a party, together with an index thereto, and each rail carrier with 5,000 miles or more of first main track (including branch lines but excluding yard, terminal and industrial tracks) shall also post at not less than one additional point, a complete set of tariffs which it issues or to which it is a party. In determining the number of miles of first main track operated, family lines may be considered as a unit and subsidiary carriers as a part of the controlling carrier. A small carrier which has authorized its principal connecting carrier to file tariffs on its behalf may have its tariffs included in the complete public tariff file of such connecting carrier without such small carrier maintaining a separate complete public file.

(2) Each common carrier by motor vehicle shall post at its principal office a complete set of tariffs containing joint motor-rail, motor-water, and/or motor-rail-water fares which it issues or to which it is a party.

(e) *Selection of posting places.* When posting places in addition to the principal office are required, railroads will select posting places which, in their judgment, will best serve and promote the convenience of the public in using the tariffs. The places selected shall be cities directly served by the railroad. Each railroad will advise the Commission by letter of the posting places selected and of any changes thereafter made. The Commission may, after reasonable investigation and without formal hearing, designate posting places in addition to or in substitution of those selected by the carrier.

(f) *Time of posting.* Each tariff must be posted at least 30 days before its effective date, excepting those as to which the Commission has authorized a shorter period of notice to the public. Each carrier shall require the agent at every station or office at which tariffs are posted to write or stamp on each tariff the date on which it was posted.

(g) *Tariff files to be accessible to the public.* Each file of tariffs shall be in charge of an agent of the carrier. Each carrier shall require and instruct such agent to afford inquirers an opportunity to examine any of such tariffs without asking the inquirer to assign any reason therefor, and, upon request, to lend assistance to seekers of information therefrom with all promptness possible and consistent with proper performance of other duties.

(h) *Notice required to be posted.* Each carrier shall also cause to be displayed continuously in a conspicuous public place at each station or office at which tariffs are required to be posted, a notice printed in large type reading as follows:

With only such exceptions as have been authorized by the Interstate Commerce Commission, all tariffs which contain fares and charges applying from or at this station are on file at this office, together with an index of all of this company's passenger tariffs. The tariffs and index may be inspected by any person upon application and without the assignment of any reason for such inspection. The agent on duty in this office will lend any assistance desired in securing information therefrom.

If the request is made for a tariff naming fares from this station, the posting of which has been discontinued because of nonuse, the agent will arrange to have it reposted within 20 days and thereafter keep it posted.

In addition a complete file of all of this company's tariffs, with indexes thereof, is maintained and kept available for public inspection at:

---

(Here indicate the place or places where complete tariff files are maintained, including the street address and, where appropriate, the room number)

(i) *Check-up on files of tariffs.* Each carrier shall place in effect a system of supervision that will insure the continued maintenance in proper and readily accessible form of tariff files required at each station and also at each office where complete files are maintained. Such stations and offices must be furnished at least once a year with a list of all of the tariffs which should be in their files. Upon receipt of the list the agent or employee in charge will immediately check the tariffs on hand against the list and report any deficiencies. Evidence of improper maintenance of files at any station or office may incur the prescription of detailed instructions to the carrier by the Commission necessary to insure compliance with these regulations.

§ 145.35 *Applications for authority to make changes in tariffs*—(a) *Fares changed on less than statutory notice.* (1) Sections 6, 217, and 306 of the act authorize the Commission in its discretion and for good cause shown, to permit changes in fares on less than statutory notice. The Commission will exercise this authority only in cases where actual emergency and real merit are shown. Desire to meet the fares or charges of a competing carrier which has given the full statutory notice of change in fares or charges will not of itself be regarded as good cause for allowing changes in fares or charges on a notice of less than thirty days. Clerical or typographical errors in tariffs constitute good cause for the exercise of this authority, but every application based thereon must plainly specify the omissions or mistakes, together with a full statement of the circumstances attending such omission or error, and must be presented with reasonable promptness after issuance of the defective tariff.

(2) Frequently carriers file applications requesting authority to make changes on short notice when an outstanding order of the Commission in a proceeding requires publication on thirty days' notice. Such requests in effect are requests for modification of the order and should be filed as petitions in the proceeding to which the order relates, and not as applications under sections 6, 217 or 306 of the Interstate Commerce Act.

(b) *Authority necessary to make applications.* Applications for permission to make tariff changes on less than statutory notice or waiver of any provision of this part must be made by the agent or carrier that holds authority to file the proposed changes. If the application requests permission to make changes in joint tariffs, it must state that it is filed for and on behalf of all carriers parties to the schedules in which the change is proposed.

(c) *Partial use of permission prohibited.* It sometimes occurs that carriers or their agents do not use the full authority extended by special permissions. When passing upon special permission applications, the Commission gives consideration to all of the facts and circumstances set forth in the application and, if approved, the special permission is issued with the understanding that all of its terms will be complied with and all of the authority dealing with the same subject matter will be used. Therefore, if all related matter authorized by a special permission will not be published, and more limited authority is desired, a new application complying with the provisions of this section and making reference to the previous authority, must be filed.

(d) *Application in duplicate.* Applications (including amendments thereto and exhibits made a part thereof) for permission to make tariff changes on less than statutory notice or under waiver of any provision of this part, shall be made in duplicate on paper 8 by 10½ inches, and addressed to the Secretary of the Interstate Commerce Commission, Washington 25, D. C. (Motor carriers also are required to send one copy to the District Director.) Such applications shall be in substantially the following form, shall be numbered consecutively, and must bear the signature of the president, vice president, traffic manager, assistant traffic manager, general freight agent (or their equivalents, if the carrier does not designate its officials by those titles).

FORM OF APPLICATION

---
(Place and date)

*To the Interstate Commerce Commission, Washington 25, D. C.*

----------, Agent, for and on behalf of all carriers parties to his (or its) tariff bearing I. C. C. No. -- (or the ----------,
(Name of carrier)
by ----------, its ----------)
(Name of officer) (Title of officer)

does hereby make application to the Interstate Commerce Commission for permission under section 6 (other sections to be cited if involved) of the Interstate Commerce Act, to put in force the following fares (or rates, charges, rules or regulations), to become effective ---------- days after filing thereof with the Commission:

(State fully, either specifically or by reference to an accompanying exhibit, the fares and/or other tariff provisions which it is desired to put into effect, (if rates or charges, the articles or service to which they apply) and the points of origin and destination. If permission is sought to establish a rule or regulation, the exact wording must be shown.)

And to depart from the provisions of the following sections of Tariff Circular 24 when making such publication, viz: ----------

Applicant further represents that the said fares (or rates, charges, rules or regulations) will be published in (a designated tariff) and will supersede the fares (or rates, charges, rules or regulations) on like traffic from and to the points above named which are set forth in (a designated tariff provision).

(Here state specifically or by reference to an accompanying exhibit, the present fares or other provisions which it is desired to change, together with the I. C. C. numbers in which published and the effect of the proposed change.)

(State the basis on which the proposed fares, rates and/or charges are constructed, if the application seeks less than statutory notice. If it is proposed to change a rule or regulation, state fully the nature and purpose of the change.)

(State the relation existing between points of origin and destination covered by the application and any point of origin or destination not covered by the application, if the application seeks less than statutory notice.)

And your petitioner further bases such request upon the following facts, which present certain special circumstances and conditions justifying the request herein made:

(State fully all other circumstances and conditions which are relied upon as justifying

the application and which may aid the Commission in determining the question presented. If authority is sought to make publication under waiver of the provisions of Tariff Circular 24 (this part), state why it is believed that those provisions cannot or should not be fully complied with. If short notice is requested, state why the change was not published upon statutory notice.)

---
(Correct name of carrier, if filed by a carrier)

---
(Signature of agent, or of officer if filed by a carrier)

## SECURITIES AND EXCHANGE COMMISSION

### [ 17 CFR Part 240 ]

GENERAL RULES AND REGULATIONS, SECURITIES EXCHANGE ACT OF 1934

RECORDS OF NON-RESIDENT BROKERS AND DEALERS

Notice is hereby given that the Securities and Exchange Commission has under consideration a proposal to adopt § 240.17a-7 (Rule X-17A-7) to require non-resident brokers and dealers, registered or applying for registration pursuant to section 15 of the Securities Exchange Act of 1934, to maintain copies of their books and records in the United States or to file an undertaking to make them available on request. The proposed action would be taken pursuant to the Securities Exchange Act of 1934, particularly sections 17 (a) and 23 (a) thereof.

Rule X-17A-3 requires all registered brokers and dealers to make and keep current specified books and records relating to their business, and Rule X-17A-4 provides that the books and records shall be maintained "in an easily accessible place" during specified periods. However, the Commission does not have a rule designed to make accessible to it the books and records of foreign brokers and dealers registered with the Commission.

The proposed rule would require each non-resident broker or dealer, as defined in the rule, to maintain in the United States at a place designated by him in a written "notice" filed with the Commission, complete and current copies of the books and records he is required to maintain pursuant to Rules X-17A-3 and X-17A-4 unless he files with the Commission a written "undertaking", in substantially the form provided for in the rule, to furnish to the Commission, upon demand, copies of any, all, or any part of his books and records specified in the demand. Non-resident brokers or dealers registered or applying for registration when the rule becomes effective would be required to file the "notice" or the "undertaking" within 30 days thereafter. Non-resident brokers and dealers who apply for registration after it becomes effective would have to submit the "notice" or the "undertaking" with their application for registration.

The text of the proposed rule is as follows:

§ 240.17a-7 *Records of non-resident brokers and dealers.* (a) (1) Except as provided in paragraph (b) of this section, each non-resident broker or dealer registered or applying for registration pursuant to section 15 of the Securities Exchange Act of 1934, as amended, shall keep, maintain, and preserve, at a place within the United States designated in a notice from him as provided in subparagraph (2) of this paragraph, true, correct, complete and current copies of the books and records which he is required to make, keep current, maintain and preserve pursuant to §§ 240.17a-3 and 240.17a-4 (Rules X-17A-3 and X-17A-4).

(2) Except as provided in paragraph (b) of this section, each non-resident broker or dealer subject to this section shall furnish to the Commission a written notice specifying the address of the place within the United States where the copies of the books and records required to be kept and preserved by him pursuant to subparagraph (1) are located. Each non-resident broker or dealer registered or applying for registration when this section becomes effective shall file such notice within 30 days after such section becomes effective. Each non-resident broker or dealer who files an application for registration after this section becomes effective shall file such notice with such application for registration.

(b) Notwithstanding the provisions of paragraph (a) of this section, a non-resident broker or dealer subject to this rule need not keep or preserve within the United States copies of the books and records referred to in said paragraph (a) of this section, if:

(1) Such broker or dealer files with the Commission, at the time or within the period provided by paragraph (a) (2) of this section, a written undertaking in form acceptable to the Commission and signed by a person thereunto duly authorized, to furnish to the Commission, upon demand, at its principal office in Washington, D. C., or at any Regional Office of the Commission designated in such demand, true, complete and current copies of any or all of the books and records which he is required to make, keep current or preserve pursuant to §§ 240.17a-3 and 240.17a-4 (Rule X-17A-3 and Rule X-17A-4), or any part thereof which may be specified in such demand. Such undertaking shall be in substantially the following form:

The undersigned hereby undertakes to furnish at his own expense to the Securities and Exchange Commission at its principal office in Washington, D. C. or at any Regional Office of said Commission specified in a demand for copies of books and records made by or on behalf of said Commission, true, correct, complete, and current copies of any or all, or any part, of the books and records which the undersigned is required to make, keep current or preserve pursuant to any provision of the general rules and regulations of the Securities and Exchange Commission under the Securities Exchange Act of 1934. This undertaking shall be suspended during any period when the undersigned is making, keeping current, and preserving copies of said books and records at a place within the United States in compliance with § 240.17a-7 (Rule X-17A-7) under the Securities Exchang Act of 1934. This undertaking shall be binding upon the undersigned and the heirs, successors and assigns of the undersigned, and the written irrevocable consents and powers of attorney of the undersigned, its general partners and managing agents filed with the Securities and Exchange Commission shall extend to and cover any action to enforce the same

and

(2) Such broker or dealer furnishes to the Commission at his own expense within 14 days after written demand therefor forwarded to him by registered mail at his last address of record filed with the Commission and signed by the Secretary of the Commission or such other person as the Commission may authorize to act in its behalf, true, complete and current copies of any or all books and records which such broker or dealer is required to make, keep current or preserve pursuant to §§ 240.17a-3 and 240.17a-4 (Rule X-17A-3 and Rule X-17A-4), or any part thereof which may be specified in said written demand. Such copies shall be furnished to the Commission at its principal office in Washington, D. C. or at any Regional Office of the Commission which may be specified in said written demand.

(c) For purposes of this section the following definitions shall apply:

(1) The term "broker" shall have the meaning set out in section 3 (a) (4) of the Securities Exchange Act of 1934;

(2) The term "dealer" shall have the meaning set out in section 3 (a) (5) of the Securities Exchange Act of 1934;

(3) The term "non-resident broker or dealer" shall mean (i) in the case of an individual, one who resides in or has his principal place of business in any place not subject to the jurisdiction of the United States; (ii) in the case of a corporation, one incorporated in or having its principal place of business in any place not subject to the jurisdiction of the United States; (iii) in the case of a partnership of other unincorporated organization or association, one having its principal place of business in any place not subject to the jurisdiction of the United States.

All interested persons are requested to submit views and comments on the proposed rule in writing to the Securities and Exchange Commission, Washington 25, D. C., on or before June 29, 1956. Unless the person submitting any such comments or suggestions requests in writing that they be held confidential, they will be public records available for public inspection.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
*Secretary.*

JUNE 5, 1956.

# NOTICES

## DEPARTMENT OF THE INTERIOR

### Bureau of Land Management

NEW MEXICO

RESTORATION ORDER UNDER FEDERAL POWER ACT

JUNE 6, 1956.

Pursuant to determination DA-44-New Mexico of the Federal Power Commission and in accordance with Order No. 541, section 2.5, of the Director, Bureau of Land Management, approved April 21, 1954, 19 F. R. 2473, it is ordered as follows:

The lands hereinafter described, so far as they are withdrawn and reserved for power purposes, are hereby restored to disposition under the public land laws, subject to the provisions of section 24 of the Federal Power Act of June 10, 1920 (41 Stat. 1075; 16 U. S. C. 818), as amended.

NEW MEXICO PRINCIPAL MERIDIAN, NEW MEXICO

T. 29 N., R. 12 W.,
Sec. 28, SE¼SW¼, SW¼SE¼.

The lands described aggregate 80 acres.

The subject lands are located approximately 7 miles east of Farmington, New Mexico, and are included in Temporary Power Site Reserve No. 59 created November 18, 1909, and made permanent by Executive Order of July 2, 1910. The lands are located in San Juan County and lie immediately south of the San Juan River. They are bottom-lands lying approximately ten feet above the San Juan River. The soils are gravelly to medium textured and the topography varies from relatively smooth first bottom terrace lands to rough and hilly. Value for farming is doubtful. The lands will not be subject to occupancy or disposition until they have been classified.

The lands described in this order shall be subject to application by the State of New Mexico for a period of 90 days from the date of publication of this order in the FEDERAL REGISTER for right-of-way for public highways or as a source of material for construction and maintenance of such highways, in accordance with and subject to the provisions of section 24 of the Federal Power Act, as amended.

This order shall not otherwise become effective to change the status of such lands until 10:30 a. m. on the 91st day after the date of publication. At that time, the lands shall become subject to application, petition, location, and selection, subject to valid existing rights, the provisions of existing withdrawals, the requirements of applicable laws, and the 90-day preference-right filing period for veterans and others entitled to preference under the act of September 27, 1944 (58 Stat. 747; 43 U. S. C. 279-284), as amended.

Information showing the periods during which and the conditions under which veterans and others may file applications for these lands may be obtained on request from the Manager, Land Office, Bureau of Land Management, P. O. Box 1251, Santa Fe, New Mexico.

ADLAI S. BAKER,
*Acting State Supervisor.*

NEW MEXICO

RESTORATION ORDER UNDER FEDERAL POWER ACT

JUNE 7, 1956.

Pursuant to determination DA-45—New Mexico of the Federal Power Commission and in accordance with Order No. 541, section 2.5, of the Director, Bureau of Land Management, approved April 21, 1954, 19 F. R. 2473, it is ordered as follows:

The lands hereinafter described, so far as they are withdrawn and reserved for power purposes, are hereby restored to disposition under the public land laws, subject to the provisions of section 24 of the Federal Power Act of June 10, 1920 (41 Stat. 1075; 16 U. S. C. 818), as amended.

NEW MEXICO PRINCIPAL MERIDIAN, NEW MEXICO

T. 29 N., R. 12 W.,
Sec. 28, NW¼SW¼.

The lands described contain 40 acres.

The subject lands are located approximately 7 miles east of Farmington, New Mexico and are included in Temporary Power Site Reserve No. 59 created November 18, 1909, and made permanent by Executive Order of July 2, 1910. The San Juan River flows across the northern part of the above described land. The remainder of the land is bottom-land lying approximately ten feet above the San Juan River. The soils are gravelly to sandy loam in texture, and the topography is relatively smooth to rough. A large arroyo traverses the center of the tract from south to north emptying into the San Juan River. The land does not appear to be suitable for farming; it is primarily suitable for grazing. The land will not be subject to occupancy or disposition until it has been classified.

The lands described in this order shall be subject to application by the State of New Mexico for a period of 90 days from the date of publication of this order in the FEDERAL REGISTER for right-of-way for public highways or as a source of material for construction and maintenance of such highways, in accordance with and subject to the provisions of section 24 of the Federal Power Act, as amended.

This order shall not otherwise become effective to change the status of such lands until 10:30 a. m., on the 91st day after the date of publication. At that time, the lands shall become subject to application, petition, location, and selection, subject to valid existing rights, the provisions of existing withdrawals, the requirements of applicable laws, and the 90-day preference-right filing period for veterans and others entitled to preference under the act of September 27, 1944 (58 Stat. 747; 43 U. S. C. 279-284), as amended.

Information showing the periods during which and the conditions under which veterans and others may file applications for these lands may be obtained on request from the Manager, Land Office, Bureau of Land Management, P. O. Box 1251, Santa Fe, New Mexico.

ADLAI S. BAKER,
*Acting State Supervisor.*

[Doc. 129]

ARIZONA

SMALL TRACT CLASSIFICATION NO. 47

JUNE 6, 1956.

1. Pursuant to authority delegated by Document No. 43, Arizona effective May 19, 1955 (20 F. R. 3514-15), the following described lands which were classified by Document No. 88, Arizona, Small Tract Classification No. 47, dated December 22, 1955 (20 F. R. 10114), are hereby opened to lease and sale for residence and/or business sites under the Small Tract Act:

GILA AND SALT RIVER MERIDIAN

T. 14 S., R. 12 E.,
Sec. 34: Lots 5 to 26 inclusive.
Sec. 34: Lots 29 to 69 inclusive.

The lands described comprise 318.30 acres subdivided into 63 small tracts none of which are covered by applications from persons entitled to preference under 43 CFR 257.15 (a).

2. The tracts are located approximately six miles west of Tucson, Pima County, Arizona. The Ajo-Tucson Highway (Arizona State Highway 86) is the south boundary of lots 66, 67, and 69 and the north boundary of lot 68. Elevation is approximately 2,500 feet above sea level and the topography is from flat to undulating. The climate is arid with an annual precipitation of about 12" and the temperature varies from a high of about 110° F. to a low of about 15° F. The soil is sandy and supports a coarse vegetative cover which consists principally of desert shrubs. Culinary water is not available from any known source, but probably could be developed from wells at a depth of from 150 to 300 feet. Electricity is available from a power line along the Ajo road.

3. (a) The size of the tracts are from 1.96 to 5.56 acres with the majority containing approximately 5 acres. All tracts are appraised at $250.00 per tract, except lots 66 and 67 which are appraised at $350.00 each and lot 68 which is appraised at $550.00.

(b) The advance three year rental for all tracts appraised at $250.00, if leased for a residence, is $37.50. The advance three year rental for lots 66 and 67, if leased for a residence, is $52.50. The

advance three year rental of lot 68, if leased for a residence, is $82.50.

(c) The advance three year rental for all business sites is $60.00, except lot 68 which is $82.50. However, if the gross business exceeds $2,000.00 per annum, the rental will be calculated in accordance with the schedule incorporated in the lease.

(d) The residence and the necessary outbuildings, including garage, shall be of masonry material, including adobe or of frame stucco. The residence must be suitable for year-round occupancy and contain a floor area of not less than 850 square feet. It must be of substantial construction to withstand the elements and on a full solid foundation. The residence must be built in a workmanlike manner out of attractive materials and properly finished. No building shall be placed at a distance of less than 75 feet from a boundary line fronting upon a street or road, nor of a distance less than 30 feet to any other boundary line.

(e) A trailer house will not be considered as a residence, but it may be used for a period of time, not to exceed one year, while a residence is being constructed.

(f) All sewage disposal plants and appurtenances shall be by underground septic tank, and shall conform to the standards of the Pima County Health Department, or any other law enforcing agencies having jurisdiction thereof.

(g) Rights-of-way 33 feet in width for streets, roads, and public utilities will be reserved as follows: Along the north side of lots 5 to 26 inclusive and lots 29 to 67 inclusive and lot 69; along the east side of lots 5, 7, 9, 11, 13, 15, 17, 19, 22, 24, 26, 30, 32, 34, 36, 37, 39, 41, 43, 45, 47, 49, 51, 54, 56, 58, 60, 62, 64, 66, 68, and 69; along the south side of lots 5 to 26 inclusive, lots 29 to 66 inclusive and lot 68; along the west side of lots 6, 8, 10, 12, 14, 16, 18, 20, 21, 23, 25, 29, 31, 33, 35, 38, 40, 42, 44, 46, 48, 50, 52, 53, 55, 57, 59, 61, 63, 65, and 67.

4. Leases will be issued for a term of three years and will contain an option to purchase clause in accordance with 43 CFR 257.13. Lessees who comply with general terms and conditions of their leases will be permitted to purchase their tracts at the appraised price provided that during the period of their leases they either, (a) construct improvements as specified in paragraph 3 (d) (e) (f) in accordance with the conditions set forth, or (b) file a copy of an agreement in accordance with 43 CFR 257.13 (d). Leases will not be renewable unless failure to construct the required improvement is justified under the circumstances and non-renewal would work an extreme hardship on the lessee. All mineral rights will be reserved to the United States.

5. (a) Applicants must file, in duplicate, with the Manager, Land Office, Room 251 Main Post Office Building, Phoenix, Arizona, application Form 4–776 filled out in compliance with the instructions on the form and accompanied by any showings of documents required by those instructions. Copies of the application form can be secured from the above-named official.

(b) The applications must be accompanied by a filing fee of $10.00 plus the advance rental specified in paragraph 3 (b) (c). Failure to transmit these payments with the application will render the application invalid. Advance rentals will be returned to unsuccessful applicants. All filing fees will be retained by the United States.

6. (a) All valid applications from persons entitled to veterans' preference filed prior to 10:00 a. m., July 12, 1956 will be considered as simultaneously filed at that time.

(b) All valid applications from persons entitled to veterans' preference filed after 10:00 a. m., July 12, 1956 will be considered in the order of filing.

(c) All valid applications from other persons filed prior to 10:00 a. m., October 11, 1956 will be considered as simultaneously filed at that time.

(d) All valid applications filed after 10:00 a. m., October 11, 1956 will be considered in the order of filing.

7. Inquiries concerning these lands shall be addressed to the Manager, Land Office, Room 251 Main Post Office Building, Phoenix, Arizona.

E. R. TRAGITT,
*State Lands and Minerals Staff Officer.*

## Bureau of Reclamation

### IRON CANYON PROJECT, CALIF.

#### ORDER OF REVOCATION

JANUARY 25, 1956.

Pursuant to the authority delegated by Departmental Order No. 2765 of July 30, 1954 (19 F. R. 5004), I hereby revoke Departmental Order of November 4, 1913, insofar as said order affects the following described land; *Provided, however,* That such revocation shall not affect the withdrawal of any other lands by said order or affect any other orders withdrawing or reserving the land hereinafter described:

MOUNT DIABLO MERIDIAN, CALIF.

T. 28 N., R. 2 W.,
Sec. 8, E½NE¼, SW¼NE¼, NW¼SE¼;
Sec. 20, SE¼NE¼, SE¼SW¼, NW¼SE¼, SE¼SE¼.
T. 29, N., R. 2 W.,
Sec. 6, Lots 6, 7, E½SW¼, SE¼;
Sec. 8, NE¼NE¼, W½E½, W½;
Sec. 18, Lots 1, 2, 3, 4, NE¼, E½W½, N½SE¼;
Sec. 30, SE¼SW¼, S½SE¼;
Sec. 32, all.
T. 27, N., R. 3 W.,
Sec. 6, SE¼NE¼.
T. 29 N., R. 3 W.,
Sec. 12, NE¼, N½NW¼;
Sec. 24, NE¼, NE¼NW¼, S½NW¼, SW¼, NW¼SE¼;
Sec. 26, NE¼NE¼, S½NE¼, NE¼SE¼.
T. 30 N., R. 3 W.,
Sec. 5, E½ of Lot 2 of NE¼ (NE¼NE¼);
Sec. 6, N½ of Lot 1 of SW¼ (NE¼SW¼);
Sec. 9, SE¼NW¼;
Sec. 12, S½SW¼, SW¼SE¼;
Sec. 24, SW¼;
Sec. 26, W½E½.

The above areas aggregate 3,931.52 acres.

E. G. NIELSEN,
*Acting Commissioner.*

[373615]

JUNE 8, 1956.

I concur. The land is located in Tehama County on both sides of the Sacramento River, relatively near to Red Bluff, California. It consists of low, rolling hills situated on the extreme northern end of the Great Valley of California. The sand and gravel soil supports a vegetative cover consisting mostly of digger pine and manzanita, with scattered annual grasses. The land is too rough for most forms of agriculture. However, olive orchards and grape vineyards are located in this general area. The land has fair values for grazing.

No application for the land may be allowed under the homestead, desert-land, small tract, or any non-mineral public-land law unless the land has already been classified as valuable or suitable for such type of application, or shall be so classified upon the consideration of an application. Any application that is filed will be considered on its merits. The land will not be subject to occupancy or disposition until it has been classified.

Subject to any valid existing rights and the requirements of applicable law, the land is hereby opened to filing of applications, selections, and locations in accordance with the following:

a. Applications and selections under the non-mineral public-land laws may be presented to the Manager mentioned below, beginning on the date of this order. Such applications and selections will be considered as filed on the hour and respective dates shown for the various classes enumerated in the following paragraphs:

(1) Applications by persons having prior existing valid settlement rights, preference rights conferred by existing laws, or equitable claims subject to allowance and confirmation will be adjudicated on the facts presented in support of each claim or right. All applications presented by persons other than those referred to in this paragraph will be subject to the applications and claims mentioned in this paragraph.

(2) All valid applications under the Homestead, Desert Land, and Small Tract Laws by qualified veterans of World War II or of the Korean Conflict, and by others entitled to preference rights under the act of September 27, 1944 (58 Stat. 747; 43 U. S. C. 279–284 as amended), presented prior to 10:00 a. m. on July 14, 1956, will be considered as simultaneously filed at that hour. Rights under such preference right applications filed after that hour and before 10:00 a. m. on October 13, 1956, will be governed by the time of filing.

(3) All valid applications and selections under the nonmineral public-land laws, other than those coming under paragraphs (1) and (2) above, presented prior to 10:00 a. m. on October 13, 1956, will be considered as simultaneously filed at that hour. Rights under such applications and selections filed after that hour will be governed by the time of filing.

b. The land has been open to applications and offers under the mineral-leasing laws. They will be open to location under the United States mining laws beginning at 10:00 a. m. on October 13, 1956.

Persons claiming veterans preference rights must enclose with their applications proper evidence of military or naval service, preferably a complete photostatic copy of the certificate of honorable discharge. Persons claiming preference rights based upon valid settlement, statutory preference, or equitable claims must enclose properly corroborated statements in support of their claims. Detailed rules and regulations governing applications which may be filed pursuant to this notice can be found in Title 43 of the Code of Federal Regulations.

Inquiries concerning the land shall be addressed to the Manager, Land Office, Bureau of Land Management, Sacramento, California.

EDWARD WOOZLEY,
*Director,*
*Bureau of Land Management.*

### RIO GRANDE PROJECT, TEXAS-NEW MEXICO

#### ORDER OF REVOCATION

APRIL 25, 1956.

Pursuant to the authority delegated by Departmental Order No. 2765 of July 30, 1954, I hereby revoke Departmental Order of November 16, 1926, insofar as said order affects the following described land: *Provided, however,* That such revocation shall not affect the withdrawal of any other lands by said order or affect any other orders withdrawing or reserving the land hereinafter described:

DONA ANA COUNTY, NEW MEXICO

T. 24 S., R. 1 E., N. M. P. M.,
Sec. 13, N½SW¼, and Lots 9, 10 and 11.

The above aggregates approximately 130.11 acres.

E. G. NIELSEN,
*Assistant Commissioner.*

[71775]

JUNE 8, 1956.

I concur. The lands are located about three miles south of Mesilla, New Mexico and immediately south of the Mesilla diversion dam. The topography of the lands is smooth to rough and hilly. The soils are medium textured to very sandy and gravelly. Vegetation consists of some grasses and desert browse. Due to unsuitable topography and soils, the lands are not valuable for farming.

No application for the lands may be allowed under the homestead, desert-land, small tract, or any other non-mineral public-land law unless the lands have already been classified as valuable or suitable for such type of application, or shall be so classified upon the consideration of an application. Any application that is filed will be considered on its merits. The lands will not be subject to occupancy or disposition until they have been classified.

Subject to any valid existing rights and the requirements of applicable law, the lands are hereby opened to filing of applications, selections, and locations in accordance with the following:

a. Applications and selections under the non-mineral public-land laws may be presented to the Manager mentioned below, beginning on the date of this order. Such applications and selections will be considered as filed on the hour and respective dates shown for the various classes enumerated in the following paragraphs:

(1) Applications by persons having prior existing valid settlement rights, preference rights conferred by existing laws, or equitable claims subject to allowance and confirmation will be adjudicated on the facts presented in support of each claim or right. All applications presented by persons other than those referred to in this paragraph will be subject to the applications and claims mentioned in this paragraph.

(2) All valid applications under the Homestead, Desert Land, and Small Tract Laws by qualified veterans of World War II or of the Korean Conflict, and by others entitled to preference rights under the act of September 27, 1944 (58 Stat. 747; 43 U. S. C. 279–284 as amended), presented prior to 10:00 a. m. on July 14, 1956, will be considered as simultaneously filed at that hour. Rights under such preference right applications filed after that hour and before 10:00 a. m. on October 13, 1956, will be governed by the time of filing.

(3) All valid applications and selections under the non-mineral public-land laws, other than those coming under paragraphs (1) and (2) above, presented prior to 10:00 a. m. on October 13, 1956, will be considered as simultaneously filed at that hour. Rights under such applications and selections filed after that hour will be governed by the time of filing.

b. The lands have been open to applications and offers under the mineral-leasing laws. They will be open to location under the United States mining laws beginning at 10:00 a. m. on October 13, 1956.

Persons claiming veterans preference rights must enclose with their applications proper evidence of military or naval service, preferably a complete photostatic copy of the certificate of honorable discharge. Persons claiming preference rights based upon valid settlement, statutory preference, or equitable claims must enclose properly corroborated statements in support of their claims. Detailed rules and regulations governing applications which may be filed pursuant to this notice can be found in Title 43 of the Code of Federal Regulations.

Inquiries concerning the lands shall be addressed to the Manager, Bureau of Land Management, Santa Fe, New Mexico.

EDWARD WOOZLEY,
*Director,*
*Bureau of Land Management.*

[F. R. Doc. 56-4688; Filed, June 13, 1956; 8:46 a. m.]

### MINIDOKA PROJECT, IDAHO

#### FIRST FORM RECLAMATION WITHDRAWAL

MAY 16, 1956.

Pursuant to the authority delegated by Departmental Order No. 2765 of July 30, 1954, I hereby withdraw the following-described lands from public entry, under the first form of withdrawal, as provided by section 3 of the act of June 17, 1902 (32 Stat. 388):

BOISE MERIDIAN, IDAHO

T. 8 S., R. 30 E.,
Sec. 12, SE¼SE¼NW¼;
Sec. 15, Lots 3 and 4;
Sec. 21, Lot 1.

The above areas aggregate 99 acres.

E. G. NIELSEN,
*Assistant Commissioner.*

[72002]

JUNE 8, 1956.

I concur. The records of the Bureau of Land Management will be noted accordingly.

The lands shall be administered by the Bureau of Land Management until such time as they are needed for reclamation purposes.

EDWARD WOOZLEY,
*Director,*
*Bureau of Land Management.*

*Notice for Filing Objections to Order Withdrawing Public Lands for the Minidoka Project, Idaho*

Notice is hereby given that for a period of 30 days from the date of publication of this notice, persons having cause to object to the terms of the above order withdrawing certain public lands in the State of Idaho, for use in connection with the Minidoka Project, may present their objections to the Secretary of the Interior. Such objections should be in writing, should be addressed to the Secretary of the Interior, and should be filed in duplicate in the Department of the Interior, Washington 25, D. C.

In case any objection is filed and the nature of the opposition is such as to warrant it, a public hearing will be held at a convenient time and place, which will be announced, where opponents to the order may state their views and where the proponents of the order can explain its purpose, intent, and extent. Should any objection be filed, notice of the determination by the Secretary as to whether the order should be rescinded, modified or let stand will be given to all interested parties of record and the general public.

E. G. NIELSEN,
*Assistant Commissioner.*

## FEDERAL POWER COMMISSION

[Docket No. E-6687]

IOWA PUBLIC SERVICE CO.

NOTICE OF APPLICATION

JUNE 8, 1956.

Take notice that on June 5, 1956, an application was filed with the Federal Power Commission, pursuant to sections 203 and 204 of the Federal Power Act, by Iowa Public Service Company ("Applicant"), a corporation organized under the laws of the State of Iowa and doing business in the States of Iowa, South Dakota and Nebraska, with its principal business office at Sioux City, Iowa, seeking an order authorizing the acquisition of all of the facilities, more fully described below, from Sac County Electric Company ("Sac County"), an Iowa corporation, and the issuance of 26,874 shares of Common Stock of Applicant to Sac County. Applicant proposes to acquire all of the facilities and assets of Sac County, and assume the obligations and liabilities of the latter. The facilities of Sac County consist of electric generating stations and transmission lines located in and around the city of Sac City and towns of Odebolt and Schaller in the State of Iowa. Applicant proposes to acquire such facilities and to issue to Sac County 26,874 shares of Applicant's Common Stock, for which authorization is sought. The number of shares of Common Stock to be issued to Sac County is subject to certain adjustments.

Any person desiring to be heard or to make any protest with reference to said application should on or before the 28th day of June 1956, file with the Federal Power Commission, Washington 25, D. C., a petition or protest in accordance with the Commission's rules of practice and procedure. The application is on file and available for public inspection.

[SEAL] LEON M. FUQUAY,
*Secretary.*

## SECURITIES AND EXCHANGE COMMISSION

[File No. 24D-1155]

ROBBINS ETHOL CORP.

ORDER TEMPORARILY SUSPENDING EXEMPTION, STATEMENT OF REASONS THEREFOR, AND NOTICE OF OPPORTUNITY FOR HEARING

JUNE 8, 1956.

I. Robbins Ethol Corporation, a Utah corporation, 28 West Second South Street, and 250 South First West Street, Salt Lake City, Utah, having filed with the Commission on July 10, 1953, a notification on Form 1-A and an offering circular and subsequently having filed amendments thereto, relating to an offering of 24,500 shares of $1 par value common stock at $1 per share for an aggregate of $24,500, for the purpose of obtaining an exemption from the registration requirements of the Securities Act of 1933, as amended, pursuant to the provisions of section 3 (b) thereof and Regulation A promulgated thereunder; and

II. The Commission having reasonable cause to believe that the terms and conditions of Regulation A have not been complied with in that the company has failed to file on Form 2-A reports of sales as required by Rule 224 under Regulation A, and has ignored requests by the Commission's staff for such reports:

III. *It is ordered*, Pursuant to Rule 223 (a) of the general rules and regulations under the Securities Act of 1933, as amended, that the exemption under Regulation A be, and it hereby is, temporarily suspended.

Notice is hereby given that any person having any interest in the matter may file with the Secretary of the Commission a written request for a hearing; that, within 20 days after receipt of such request, the Commission will, or at any time upon its own motion may, set the matter down for hearing at a place to be designated by the Commission for the purpose of determining whether this order of suspension should be vacated or made permanent, without prejudice, however, to the consideration and presentation of additional matters at the hearing; and that notice of the time and place for said hearing will be promptly given by the Commission.

*It is further ordered*, That this Order and Notice shall be served upon Robbins Ethol Corporation, 28 West Second South Street and 250 South First West Street, Salt Lake City, Utah; H. Harold Ihrig, 1403 North Lake Avenue, Pasadena 6, California; Leonard A. Robbins, 1261 Yale Avenue, Salt Lake City, Utah; and Ilan L. Jacobs, 1175 Wilmington Avenue, Salt Lake City, Utah, personally or by registered mail or by confirmed telegraphic notice, and shall be published in the FEDERAL REGISTER.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
*Secretary.*

---

[File No. 24W-1811]

ALLIED FINANCE CORP.

ORDER TEMPORARILY SUSPENDING EXEMPTION, STATEMENT OF REASONS THEREFOR, AND NOTICE OF OPPORTUNITY FOR HEARING

JUNE 8, 1956.

I. Allied Finance Corporation, a Maryland corporation, with principal offices located at 8025 Georgia Avenue, Silver Spring, Maryland, having filed with the Commission on July 8, 1955, a Notification on Form 1-A and an Offering Circular and subsequently having filed an amendment thereto, relating to a proposed offering of 22,000 shares of $2 par 6 percent cumulative convertible preferred stock; 36,668 shares of 25 cents par Class A common stock; and 628 shares of $100 par 7 percent cumulative non-convertible preferred stock, for the purpose of obtaining an exemption from the registration requirements of the Securities Act of 1933, as amended, pursuant to the provisions of section 3 (b) thereof and Regulation A promulgated thereunder; and

II. The Commission having reasonable cause to believe that the terms and conditions of Regulation A have not been complied with in that the company has failed to file reports of sales on Form 2-A as required by Rule 224 of Regulation A, and has ignored requests by the Commission's staff for such reports.

III. *It is ordered*, pursuant to Rule 223 (a) of the general rules and regulations under the Securities Act of 1933, as amended, that the exemption under Regulation A be, and it hereby is, temporarily suspended.

Notice is hereby given that any person having any interest in the matter may file with the Secretary of the Commission a written request for hearing; that, within 20 days after receipt of such request, the Commission will, or at any time upon its own motion may, set the matter down for hearing at a place to be designated by the Commission for the purpose of determining whether this order of suspension should be vacated or made permanent, without prejudice, however, to the consideration and presentation of additional matters at the hearing; and that notice of the time and place of said hearing will be promptly given by the Commission.

*It is further ordered*, That this Order and Notice shall be served upon Allied Finance Corporation, and Mr. Charles L. Goldsten, 6136 32d Place NW., Washington, D. C., personally or by registered mail or by confirmed telegraphic notice, and shall be published in the FEDERAL REGISTER.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
*Secretary.*

[F. R. Doc. 56-4698; Filed, June 13, 1956; 8:48 a. m.]

---

[File No. 812-1014]

NATIONAL AVIATION CORP.

NOTICE OF FILING OF APPLICATION FOR EXEMPTION OF PURCHASE OF SECURITIES DURING EXISTENCE OF UNDERWRITING SYNDICATE

JUNE 8, 1956.

Notice is hereby given that National Aviation Corporation, a registered closed-end, non-diversified investment company, has filed an application pursuant to section 10 (f) of the Investment Company Act of 1940 ("act"), for an order of the Commission exempting from the provisions of section 10 (f) of the act, the proposed purchase by the applicant of not to exceed $500,000 principal amount of the -- percent Convertible Subordinated Debentures, due July 1, 1976, of Capital Airlines, Inc., at the public offering price.

The application states that Capital Airlines, Inc., is preparing to issue $12,000,000 principal amount of -- percent Convertible Subordinated Debentures, due July 1, 1976. Such Debentures are proposed to be issued and sold on or about June 21, 1956, through an underwriting syndicate, including Paine, Webber, Jackson & Curtis and Hornblower & Weeks.

The applicant states that it proposes to purchase the Debentures from any of the underwriters other than Paine, Webber, Jackson & Curtis and Hornblower & Weeks. The amount of Debentures proposed to be purchased by the applicant would constitute 4.2 percent of the total offering by Capital Airlines, Inc., and would represent approximately 2 percent of the total assets of the applicant.

The application recites that Stuart R. Reed, a director of the applicant, is a special partner in the firm of Paine, Webber, Jackson & Curtis, and that Charles S. Sargent, also a director of applicant, is a partner of Hornblower & Weeks.

Section 10 (f) of the act provides, among other things, that no registered investment company shall knowingly purchase or otherwise acquire, during the existence of any underwriting or selling syndicate, any security (except a security of which such company is the issuer) a principal underwriter of which is a person of which a director of such registered investment company is an affiliated person unless the Commission by order grants an exemption therefrom. Since Reed and Sargent are affiliated persons of investment banking firms which will be part of the underwriting group of the Debenture offering of Capital Airlines, Inc. referred to above, the purchase of such Debentures by the applicant from such underwriters is subject to the provisions of section 10 (f) of the act.

It is represented that the proposed purchase of Debentures of Capital Airlines, Inc. is consistent with the investment policies of the applicant.

Notice is further given that any interested person may, not later than June 21, 1956, at 12:00 noon, submit to the Commission in writing any facts bearing upon the desirability of a hearing on the matter and may request that a hearing be held, such request stating the nature of his interest, the reasons of such request and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing thereon. Any such communication or request should be addressed: Secretary, Securities and Exchange Commission, Washington 25, D. C. At any time after said date, the application may be granted as provided in Rule N-5 of the rules and regulations promulgated under the act.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
*Secretary.*

VOLUME 21 NUMBER 116

Washington, Friday, June 15, 1956

UNIVERSITY OF MICHIGAN
JUN 18 1956
MAIN READING ROOM

## TITLE 47—TELECOMMUNICATION

### Chapter I—Federal Communications Commission

[Rules Amdt. 4–5]

PART 4—EXPERIMENTAL, AUXILIARY, AND SPECIAL BROADCAST SERVICES

EDITORIAL CHANGES

In the matter of amendment of Part 4 of the Commission's rules and regulations to effect certain editorial changes therein.

The Commission has under consideration the desirability of making certain editorial changes in Part 4 of its rules and regulations to conform §§ 4.20 thru 4.23 with the action taken in Docket No. 11611 which adopted rules for television broadcast translator stations.

The amendments adopted herein are editorial in nature, and, therefore, prior publication of Notice of Proposed Rule Making under the provisions of section 4 of the Administrative Procedure Act is unnecessary, and the amendments may become effective immediately.

The amendments adopted herein are issued pursuant to authority contained in Sections 4 (i), 5 (d) (1) and 303 (r) of the Communications Act of 1934, as amended, and section 0.34 (a) of the Commission's rules and regulations.

*It is ordered*, That, effective July 2, 1956, Part 4 of the Commission's rules and regulations is amended as set forth below:

1. Section 4.20 (a) is amended to read as follows:

(a) Unless otherwise directed by the Commission each application for renewal of license of an auxiliary broadcast station shall be filed at least 90 days prior to the expiration date of the license sought to be renewed; and each application for renewal of license of an experimental or developmental broadcast station or a television broadcast translator station shall be filed at least 60 days prior to the expiration date of the license sought to be renewed.

2. Section 4.21 is amended to read as follows:

§ 4.21 *Temporary extension of station licenses.* Where there is pending before the Commission any application, investigation or proceeding which, after hearing, might lead to or make necessary the modification of, revocation of, or the refusal to renew an existing auxiliary or experimental broadcast station license or a television broadcast translator station license, the Commission may, in its discretion, grant a temporary extension of such license: *Provided, however,* That no such temporary extension shall be construed as a finding by the Commission that the operation of any radio station thereunder will serve public interest, convenience, and necessity beyond the express terms of such temporary extension of license: *And provided further,* That such temporary extension of license will in no wise affect or limit the action of the Commission with respect to any pending application or proceeding.

3. Section 4.22 (a) is amended to read as follows:

§ 4.22 *Repetitious applications.* (a) Where an applicant has been afforded an opportunity to be heard with respect to a particular application for a new auxiliary or experimental broadcast station or a television broadcast translator station or for change of existing service or facilities, and the Commission has, after hearing or default, denied the application or dismissed it with prejudice, the Commission will not consider another application for a station of the same class to serve in whole or in part the same area, by the same applicant or by his successor or assignee or on behalf of or for the benefit of the original parties in interest, until after the lapse of 12 months from the effective date of the Commission's order.

4. Section 4.23 (a) is amended to read as follows:

(a) *Voluntary.* Application for consent to voluntary assignment of a construction permit or license for an auxiliary or experimental broadcast station or for a television broadcast translator station, or for consent to voluntary transfer of control of a corporation holding such a construction permit or license shall be filed with the Commission on Form FCC 314 (Assignment of License), FCC Form 315 (Transfer of Control) or FCC Form 316 (Short Form) at least 60 days prior to the contemplated effective date of assignment or transfer or control.

# TITLE 15—COMMERCE AND FOREIGN TRADE

## Chapter III—Bureau of Foreign Commerce, Department of Commerce

**Subchapter B—Export Regulations**

[8th Gen. Rev. of Export Regs.]

REVISION OF SUBCHAPTER

*Introductory statement and explanations.* The purpose of this Eighth General Revision is to codify the regulations relating to the control of exports issued under the authority of the Export Control Law of 1949, 50 U. S. C. App. 2023. This revision supersedes the Seventh General Revision of Export Regulations issued June 19, 1954, published in 19 F. R. 3647 et seq., as amended by Amendments No. 1 through 58 and Amendments P. L. No. 1 through 29, with the exception of saving clauses, which may still be operative, contained in any such amendments and substantive changes noted hereafter. The Export Regulations are also published in the Comprehensive Export Schedule and Current Export Bulletins issued by the Bureau of Foreign Commerce. The Comprehensive Export Schedule issued March 30, 1956, contains the regulations included in this revision.

In making this revision, certain obsolete provisions of the Export Regulations have been deleted, minor revisions have been made in the text and other material of the regulations for the purpose of clarification. In addition, substantive changes not heretofore published in the FEDERAL REGISTER have been made with respect to §§ 370.2, 370.7, 371.9, 371.21, 372.6, 373.2, 373.4, 373.5, 373.49, 373.65, 373.66, 373.67, 373.70, and 379.5. The General Orders contained in §§ 384.3 to 384.10 have been deleted since their substance has been incorporated elsewhere in specific regulations.

There have also been some deletions of commodities and revision of commodity descriptions made in the Positive List of Commodities as well as amendment and addition of interpretations in § 399.2.

These amendments have been published in Current Export Bulletin Nos. 762 and 763, dated March 30 and April 26, 1956.

Copies of all forms required by the Export Regulations are filed with the Federal Register Division.

SUBCHAPTER B—EXPORT REGULATIONS

Part
368 Mutual assistance on U. S. imports and exports (as applied to selected U. S. imports).
370 Scope of export control by Department of Commerce.
371 General licenses.
372 Provisions for individual and other validated licenses.
373 Licensing policies and related special provisions.
374 Project licenses.
375 BLT (blanket) license.
376 Periodic requirements license.
377 Time limit (TL) license.
378 Foreign distribution (FD) license.
379 Export clearance and destination control.
380 Amendments, extensions, transfers.
381 Enforcement provisions.
382 Denial or suspension of export privileges.
383 Appeals.
384 General orders.
385 Exportations of technical data.
398 Priority ratings.
399 Positive list of commodities and related matters.

PART 368—MUTUAL ASSISTANCE ON U. S. IMPORTS AND EXPORTS (AS APPLIED TO SELECTED U. S. IMPORTS)

§ 368.1 *Import certificate and delivery verification on selected imports into the United States*—(a) *What this part does*—(1) *General.* The United States and a number of foreign countries have undertaken to institute certain procedures to facilitate trade among themselves in strategic commodities and those in short supply by increasing the effectiveness of their respective controls over international trade in such commodities. These procedures contemplate that, where required by the exporting country with respect to specific transactions, the importer will affirmatively undertake to import into the economy of his country the commodities involved and will not divert, transship, or reexport the commodities to another destination except in accordance with export control regulations of the importing country. Representations to this effect are made by the importer to his government which in turn certifies that such representations have been made.

(2) *Representations by importer.* As a part of its responsibilities in the foreign trade field, including its export control responsibilities, the Department of Commerce has engaged to receive these representations from persons in the United States regarding the intended destination of commodities and to act as certifying agent, by issuing appropriate certificates that such representations have been filed with the Department of Commerce. The making of these representations to the Department of Commerce and the certifying thereof will serve to satisfy the requirements of the foreign country in this respect and will, in addition, substantially assist in effectuating United States export controls. It should be noted, however, that these representations, which prescribe that the commodities will be entered into the United States, do not preclude the temporary unlading of the goods in a foreign trade zone for subsequent entry into the economy of the United States.

(3) *Exports.* Comparable procedures with respect to exports from the United States are described in § 373.2 of this chapter.

NOTE: *Arms, ammunition, and implements of war; "source material" and "facilities for the production or utilization of special nuclear material."* Items enumerated in the U. S. Munitions List (22 CFR Part 75) covering arms, ammunition and implements of war are not governed by the provisions of Part 368. (Information on comparable procedures relating to these items may be obtained from the Office of Munitions Control, Department of State, Washington 25, D. C.)

Through agreement between the Department of Commerce and the U. S. Atomic Energy Commission, the procedure set forth in Part 368 will apply to commodities classified as "source material," or "facilities for the production or utilization of special nuclear material," as defined in the Atomic Energy Act of 1954, as amended, and the regulations of the Atomic Energy Commission, 10 CFR, Chapter I.

(b) *United States Import Certificate*—(1) *General.* Where a person in the United States is purchasing or intending to receive, or receiving, commodities from a foreign country and is required by such country, in connection with the granting of an export license, to furnish an Import Certificate, such person shall apply for his certification by filling out and executing Form IT– or FC–826 (see Supplement S–18 for facsimile of form), in triplicate (in quadruplicate for "source material," or "facilities for the production or utilization of special nuclear material," as defined in the Atomic Energy Act of 1954, as amended, and the regulations of the Atomic Energy Commission)

(2) *Where to file.* (i) All requests for certification and validation of Import Certificates or requests for amendments of Import Certificates may be filed with the Bureau of Foreign Commerce, Operations Division, Washington 25, D. C., or with any of the following field offices of the Department of Commerce:

| | |
|---|---|
| Boston. | Los Angeles. |
| Buffalo. | Miami. |
| Chicago. | New Orleans. |
| Cincinnati. | New York. |
| Cleveland. | Philadelphia. |
| Dallas. | Pittsburgh. |
| Detroit. | Portland. |
| El Paso. | San Francisco. |
| Houston. | Savannah. |
| Jacksonville. | Seattle. |

(Blank forms are obtainable at the same offices or any other field office).

(ii) The Import Certificate may be presented for validation either in person or by mail. The duly validated form will be returned to the United States importer and shall be dispatched by him to the foreign exporter or otherwise disposed of in accordance with the regulations of the exporting country.

(3) *Validity period.* (1) The Import Certificate will be stamped with a validity period of 90 days from the date of certification by the Department of Commerce official.[1] This document will not be acceptable to the authorities of the exporting country unless presented within 90 days from the date of certification. Importers are cautioned that this time limitation for the presentation of the Import Certificate to the exporting country in no way relieves them of their responsibility to adhere to the commitments made therein.

(ii) Where the validity period of an Import Certificate has expired before its presentation to the foreign government and an extension is desired, the United States importer should apply for a new Import Certificate.

(4) *"Cross Reference Card" (Form IT– or FC–827).* In submitting Form IT– or FC–826, the United States importer shall fill out and attach a "Cross Reference Card," Form IT– or FC–827, showing his name and address. Form IT– or FC–

[1] Import Certificates issued prior to January 28, 1954, do not bear a validity period stamp and are not affected by the 90-day validity period provision.

826 will be returned without action unless accompanied by a Cross-Reference Card.

(5) *Statements and representations.* (i) All statements and representations made in an Import Certificate and any amendment thereto shall be deemed to be continuing in nature, until such time as the transaction described in the Import Certificate is completed and the goods are delivered into the economy of the importing country. Any change of fact or intention in regard to the transaction as set forth in the Import Certificate shall be promptly disclosed to the Department of Commerce by the United States importer. Such disclosure shall be by presentation of an amended Import Certificate which sets forth all changes of facts or intention, and shall be accompanied by the original Import Certificate bearing the certification of the Department of Commerce. In those cases where the original Import Certificate has been transmitted by the United States importer to his foreign exporter, the United States importer must, wherever possible, obtain the original Import Certificate prior to applying for an amendment of such Import Certificate. Where the original Import Certificate is unobtainable because the foreign exporter has surrendered it to his government, or for any other valid reason, the United States importer must submit a written statement giving his reason or reasons for failure to submit the original Import Certificate.

(ii) All the terms, conditions, provisions, and instructions, including the certification, contained in or issued in connection with such Form IT– or FC–826 are hereby incorporated as a part of this regulation with the same force and effect as if set forth in full in this section.

(6) *Lost or destroyed import certificates.* Where an import certificate is lost or destroyed, a duplicate copy of such import certificate may be obtained by the person in the United States who executed the original import certificate by submitting to the Bureau of Foreign Commerce, Operations Division, Washington 25, D. C., or any field office of the Department of Commerce listed in subparagraph (3) of this paragraph, a new set of Forms IT– or FC–826 in accordance with the provisions of subparagraph (1) of this paragraph and accompanied by a letter certifying:

(i) That the original import certificate No. ------ (if known) dated ----------, issued to ------ (name and address of U. S. importer) ------ for importation from -------- (foreign exporter's name and address) -------- has been lost or destroyed;

(ii) The circumstances under which it was lost or destroyed; and

(iii) If the original import certificate is found, the applicant agrees to return the original or duplicate import certificate to the Department of Commerce.

(7) *Approval of shipments to destinations other than the United States.* (i) Where a United States purchaser intends to ship commodities covered by a United States Import Certificate to an ultimate destination other than the United States or Canada, approval by the Bureau of Foreign Commerce of the release of the commodities to the ultimate consignee is required before the commodities covered are delivered and before title to or possession of the commodities is transferred.[2]

(ii) In such cases, a letter requesting approval of the release of the shipment shall be submitted to the Bureau of Foreign Commerce. The letter shall show the United States Import Certificate number, the date issued, the location of the issuing office, and the names, addresses, and identity of all parties to the complete transaction, as well as the quantity the dollar value, and the description of the commodity. The letter shall be accompanied by an Import Certificate, an ultimate consignee statement, or other documentation as required by the export regulations for the country of ultimate destination, as provided for license applications in §§ 373.2, 373.65, 373.66, 373.67, 373.69, and 373.70 of this subchapter.

(iii) If approval of the transaction is granted by the Bureau of Foreign Commerce, a validated letter of approval will be sent to the United States purchaser for retention in his records. Where a Delivery Verification is required, the validated letter from the Bureau of Foreign Commerce will so indicate.

(iv) If the commodities covered by a United States Import Certificate are for shipment to Canada as the country of ultimate destination, and the foreign exporter of the commodities requests a Delivery Verification from the holder of the United States Import Certificate, the Import Certificate holder shall obtain a Canadian Delivery Verification, and submit it to the Bureau of Foreign Commerce, together with an explanatory letter showing the U. S. Import Certificate Number, the date issued, and the location of the issuing office. The Bureau of Foreign Commerce will then notify the government authorities of the exporting country that a Delivery Verification has been issued.

(c) *Reexportation or transshipment of commodities covered by a U. S. import certificate.* Commodities imported into the United States under the provisions of a United States Import Certificate, Form IT– or FC–826, may not be reexported to any destination under the provisions of General In-Transit License GIT (see § 371.9). However, all other provisions of the Export Regulations, applicable to commodities of domestic origin shall apply to the reexportation of commodities of foreign origin shipped to the United States under the provisions of a United States Import Certificate, Form IT– or FC–826.

(d) *Delivery verification on imports into the United States*—(1) *General.* (i) U. S. importers may be requested by their foreign exporters to supply them with a certified Delivery Verification, Form IT– or FC–908, covering materials imported into the United States. These requests are made by the various foreign governments for the purpose of assuring that strategic goods shipped to the United States are not diverted from their intended destination. The issuance of an export license in these instances was conditioned upon the subsequent receipt of certified Delivery Verifications from the U. S. importer.

(ii) Failure on the part of the U. S. importer to comply with his foreign exporter's request will result in the exporter's inability to fulfill this obligation to his government and may result in his being denied further export licenses. This action obviously would prevent the U. S. importer's participation in further import transactions with such foreign exporter. It also may result in the U. S. importer being cut off from any trade with the exporting country requesting the Delivery Verification. In addition, the foreign exporter may be subjected to other penalties for his failure to furnish his government a certified Delivery Verification.

(iii) The U. S. person or firm executing an import certificate is responsible for providing the foreign exporter with a Delivery Verification even in those instances where the merchandise is resold to another U. S. person or firm prior to actual importation into the United States. Where such resale occurs, the person who executed the import certificate should (*a*) obtain a commitment from the purchaser or purchasers that they will provide him with a Delivery Verification in the event one is required by the exporting country and (*b*) transmit to the purchaser or purchasers the identification number of the U. S. import certificate covering the exportation from the foreign country.

NOTE: Where the U. S. person (original import certificate holder) does not wish to disclose to his foreign supplier the name or names of his customer(s), he may send the Delivery Verification after obtaining it from the actual U. S. importer(s) to the Bureau of Foreign Commerce, Operations Division, Washington 25, D. C. The BFC will undertake to notify the foreign government that a Delivery Verification has been issued.

(2) *Completion and disposition of Delivery Verifications.* A United States importer who is required by the foreign government to obtain a Delivery Verification shall present Form IT– or FC–908, Delivery Verification, in original only, to the Collector of Customs.[1] The Collector of Customs will certify Delivery Verifications after the importation has been delivered to the importer. Delivery Verification forms will be certified by Collectors of Customs only where the importation is made by a warehouse or consumption entry. Form IT– or FC–908 shall be completed by the United States importer in all respects except as to type of customs entry (warehouse or consumption), entry number, date of entry, and certification at the bottom of the form. The commodities described on the form shall be in the same terms as those shown on the related import certificate. The duly certified form shall be despatched by the United States importer to the foreign exporter or otherwise disposed of in accordance with the instructions of the exporting country.

(3) *Lost or destroyed Delivery Verifications.* When a Delivery Verification, Form IT– or FC–908, is lost or destroyed, the U. S. importer shall prepare a duplicate copy in the same manner as set forth in subparagraph (2) of this paragraph, except that the Delivery Verification will not be presented to the Collector of Customs for Certification. The U. S. importer shall attach to the duplicate copy of Form IT– or FC–908, a letter addressed to the Bureau of Foreign Commerce, Operations Division, Washington 25, D. C., certifying:

(i) That the original Delivery Verification, a copy of which is attached, has been lost or destroyed;

(ii) The circumstances under which it was lost or destroyed; and

(iii) The type of customs entry (warehouse or consumption), entry number, and date of entry.

The Bureau of Foreign Commerce will undertake to confirm the facts with the Collector of Customs at the port of entry and also notify the exporting government.

(e) *Penalties and sanctions for violations*—(1) *Administrative.* (i) The enforcement provisions of Part 381 of this subchapter, and § 384.2 (a), of the export control regulations shall apply to transactions involving imports into the United States covered by this part. Any provision of Part 381 of this subchapter, and § 384.2 (a) of this subchapter which by their terms relate to "exportations" or "exportations from the United States" are also deemed to apply and extend to imports or importations into the United States, applications for Import Certificates, Import Certificates, and Delivery Verifications, dealt with in this part. (A Form IT– or FC–826, Import Certificate, when presented to the Department of Commerce for certification or validation, is an application for Import Certificate.)

(ii) Any person, either in the United States or abroad, who violates the Export Control Act or any regulation, order, or license issued thereunder, including the provisions of this part, is subject to administrative action which may result in disqualification from eligibility to obtain a certified Import Certificate from the Department of Commerce; in suspension, revocation, and denial of export privileges under the Export Control Act; and in exclusion from practice before the Bureau of Foreign Commerce.

NOTE: Applications for Import Certificates, and Delivery Verifications, as specified in this part, are included within the definition of export control documents set forth in § 370.1 (n) of this subchapter of the export control regulations.

Also see Part 382 of this subchapter, "Denial or Suspension of Export Privileges" and § 384.2 (a), "Activities of Persons Appearing Before the Bureau of Foreign Commerce in connection with Export Control Matters."

(2) *Criminal.* The U. S. Code, Title 18 (Crimes and Criminal Procedure), Section 1001, makes it a criminal offense to make a wilfully false statement or conceal a material fact, or knowingly use a document containing a false statement, in any matter within the jurisdiction of a U. S. department or agency. Maximum penalties under this provision are $10,000 fine or imprisonment for 5 years, or both. In addition, each violation of the Export Control Act or any regulation, order, or license issued thereunder is punishable by a fine of not more than $10,000 or by imprisonment for not more than one year, or both.

(Sec. 3, 63 Stat. 7, as amended; 50 U. S. C. App. 2023, E. O. 9630, 10 F. R. 12245, 3 CFR, 1945 Supp., E. O. 9919, 13 F. R. 59, 3 CFR, 1948 Supp.)

---

[2] The attention of United States purchasers is directed to the Transaction Control Regulations of the U. S. Treasury Department (31 CFR 505.01 to 505.60). These regulations prohibit persons within the United States from purchasing or selling, or arranging the purchase or sale, without a Treasury Department license, of any merchandise in any foreign country when the transaction involves a shipment from any foreign country to any Iron Curtain destination, of merchandise included in the Positive List (Part 399 of this subchapter) followed by the letter "A", or of a type prohibited by any of the several regulations referred to in § 370.4 of this subchapter.

The attention of purchasers is also directed to the Foreign Assets Control Regulations of the U. S. Treasury Department (31 CFR 500.101 to 500.808). These regulations prohibit persons subject to the jurisdiction of the United States from engaging in any unlicensed transactions with Communist China, North Korea, or nationals thereof, or in any unlicensed transactions involving property in which Communist China, North Korea, or nationals thereof have, or have had, any interest, direct or indirect, since December 17, 1950. The Foreign Assets Control Regulations also prohibit persons subject to the jurisdiction of the United States from engaging in any unlicensed transaction with respect to merchandise outside the United States if such merchandise is of Communist Chinese or North Korean origin, or is Chinese type merchandise specified in the regulations.

[1] Forms IT– or FC–826 and IT– or FC–908 may be obtained from all Department of Commerce field offices and from the Bureau of Foreign Commerce, Department of Commerce, Washington 25, D. C. In addition, Form IT– or FC–908 may be obtained from offices of Collectors of Customs.

## PART 370—SCOPE OF EXPORT CONTROL BY DEPARTMENT OF COMMERCE

Sec.

370.1 Definitions.
370.2 Prohibited exportations.
370.3 Shipments to Canada for reexportation to another foreign country.
370.4 Exportations authorized by Government agencies other than Bureau of Foreign Commerce.
370.5 Shipments to Territories, dependencies, and Possessions of the United States.
370.6 In-transit shipments without unloading.
370.7 Shipments entering foreign trade zones.
370.8 Shipments via Hong Kong.

AUTHORITY: §§ 370.1 to 370.8 issued under sec. 3, 63 Stat. 7, as amended; 50 U. S. C. App. 2023, E. O. 9630, 10 F. R. 12245, 3 CFR, 1945 Supp., E. O. 9919, 13 F. R. 59, 3 CFR, 1948 Supp.

§ 370.1 *Definitions.* When used in the Export Regulations:

(a) *Person.* "Person" shall be construed to mean the singular or plural, an individual, corporation, partnership, association, company, or any other kind of organization whatsoever, including any government or agency thereof.

(b) *The United States.* "The United States" shall, unless otherwise specifically stated, be construed to include the District of Columbia, the Canal Zone, and all Territories, dependencies, and possessions of the United States.

(c) *Export control law and export regulations.* (1) "Export Control Law" means Export Control Act of 1949, as amended, and includes section 6 of the act of July 2, 1940, 54 Stat. 714, as amended.

(2) "Export Regulations" refers to and means the regulations set forth in Parts 368–399, inclusive, of this chapter.

(d) *Department of Commerce.* "The Department of Commerce" shall be construed to refer to and include the Bureau of Foreign Commerce of the Department of Commerce.

(e) *Schedule B numbers.* "Department of Commerce Schedule B numbers" is defined as numbers so designated in, and appearing in the Department of Commerce publication, Schedule B, Statistical Classification of Domestic and Foreign Commodities Exported from the United States, issued January 1, 1952.

(f) *Commodity.* "Commodity" means any article, material, or supply except technical data.

(g) *Positive List of Commodities.* (1) "Positive List of Commodities" means the list of commodities incorporated in § 399.1 of this chapter.

(2) "RO commodities" means commodities included on the Positive List of Commodities and identified by the symbol "RO" in the column headed "Validated License Required."

(3) "R commodities" means commodities included on the Positive List of Commodities and identified by the symbol "R" in the column headed "Validated License Required."

(h) *License application.* "Application for license" and "license application" and words of similar import mean an application for a validated license.

(i) *Validated license.* "Validated license" means an individual or other type of export license or any other document authorizing exportation, granted or issued by or under the authority of the Department of Commerce. The term also includes the phrase "licenses granted or issued upon application" and words of similar import and, unless the context otherwise indicates, the phrase "export license."

(j) *General license.* "General license" means a license established by the Department of Commerce for which no application is required and for which no document is granted or issued, available for use by all persons, permitting exportation within the provisions thereof as prescribed in the Export Regulations.

(k) *Port of exit; Collector of Customs; Export Declaration.* "Port of exit" includes, in the case of an exportation by mail, the place of mailing; "Collector of Customs" includes Postmasters unless the context otherwise indicates; and "Shipper's Export Declaration" includes any declaration required under regulations of the Department of Commerce and other Government departments or agencies in connection with exportations.

(l) *Exporting carrier.* "Exporting carrier" includes any instrumentality of water, land, or air transportation by which an exportation is effected.

(m) *Consignee.* "Consignee includes ultimate consignee or purchaser.

(n) *Export control document.* (1) "Export control document" means a validated Export License; an Application for Export License, including any

supporting documents; an Ultimate Consignee or Purchaser Statement; an application for Import Certificate, an Import Certificate and Delivery Verification, as specified in Parts 368 and 373 of this subchapter; a Shipper's Export Declaration presented to a Collector of Customs or Postmaster in connection with the clearance of any shipment for exportation to Canada or, under validated or general license, to any other foreign destination, whether or not authenticated by a Collector or Postmaster; a Dock Receipt or Bill of Lading issued by any carrier in connection with any exportation subject to the Export Regulations; and any other document issued by a U. S. Government agency pursuant to the Export Regulations as evidence of the existence of an export license for the purpose of loading onto an exporting carrier or otherwise facilitating or effecting an exportation from the United States of any commodity or commodities requiring an export license, or the reexportation of any such commodities.

(2) "Export control document" also means the following documents: Customs Form 3139, Application for Identification Card of Authorized Forwarding Agent or Exporter; Customs Form 3141, Identification Card of Authorized Forwarding Agent or Exporter or Employee Thereof; and Customs Form 7512, Transportation Entry and Manifest of Goods Subject to Customs Inspection and Permit when used for Transportation and Exportation (T. & E.) or Immediate Exportation (I. E.).

(o) *Parties.* "Parties" in connection with any export control document and any exportation means (1) the licensee named in the export control document (identified in Shipper's Export Declaration forms as "principal or seller"), who shall be the exporter; (2) the purchaser or ultimate consignee named in the export control document, who (i) shall be the person to whom the licensee is authorized to export, whether by sale, consignment or otherwise, and (ii) shall be situated in the country of ultimate destination named in the same document; and (3) the intermediate consignee named in the export control document (also identified in Form IT- or FC-419), to whom the commodities may be consigned for the purpose of effecting delivery to the purchaser or ultimate consignee.

§ 370.2 *Prohibited exportations*—(a) *General provisions.* The exportation from the United States of all commodities and all technical data as defined in § 385.1 of this chapter, except to Canada, or for the official use of or consumption by the United States armed forces when shipped by or consigned to any branch thereof, is hereby prohibited unless and until a license authorizing such exportation shall have been established or granted by the Department of Commerce, or unless the exportation of this commodity is controlled by another Government agency (see § 370.4).

(b) *Positive List of Commodities.* The commodities set forth on the Positive List of Commodities (see § 399.1 of this chapter) may not be exported from the United States to any destination unless and until a license authorizing the exportation shall have been applied for and granted or issued by the Department of Commerce, except where exportation of such commodities is authorized by the provisions of an established general license, as set forth in Part 371 of this chapter, and except where authorized with respect to certain commodities by the provisions of a footnote on the Positive List of Commodities, and where not subject as provided in paragraph (a) of this section to the general prohibition set forth therein.

NOTE: 1. *Requirement for validated license.* RO commodities require validated licenses for export to all destinations except Canada. R commodities require validated licenses for export to destinations in Country Group R only. (See § 371.3 of this chapter for definition of Country Groups O and R.)

2. *Commodity coverage on Positive List.* Where the commodity description of a Schedule B number on the Positive List mentions only a part of the commodities covered by the Schedule B listing, only the commodity or commodities specifically mentioned are included on the Positive List. (For an example, refer to Part 399, paragraph (b) of the General Notes to Appendix A.)

(c) *Revocation of licenses.* All export licenses are subject to revision, suspension, or revocation, without notice.

§ 370.3 *Shipments to Canada for reexportation to another foreign country.* The exportation from the United States of all commodities and all technical data as defined in § 385.1 of this chapter to Canada with the knowledge or intention that they are to be reexported therefrom to another foreign destination is hereby prohibited unless there has been established or granted upon application a license authorizing the exportation thereof to the country of ultimate destination.

NOTE: When such an exportation to a foreign country is made in transit via Canada, the United States exporter shall submit an authenticated copy of the Shipper's Export Declaration to the Canadian customs authorities at the Canadian port of entry.

§ 370.4 *Exportations authorized by Government agencies other than Bureau of Foreign Commerce*—(a) *Arms, ammunition, and implements of war.*[2] Regulations promulgated by the Secretary of State under the authority of section 414 of the Mutual Security Act of 1954 (68 Stat. 848) shall govern the exportation of arms, ammunition, and implements of war.

NOTE: (1) Regulations concerning the exportation of arms, ammunition, and implements of war are published in the document "International Traffic in Arms." Copies of this publication are furnished by the Department of State upon request.

(2) An application to export any of the following articles, which are listed in the United States Munitions List (22 CFR Part 75) should be made on the license form obtainable from the Department of State.

(3) Any inquiries as to the applicability of the provisions of Parts 74 and 75 of Chapter I, 22 CFR, to certain articles or commodities, application forms and procedure, or other matters relative to arms, ammunition, and implements of war should be addressed to the Office of Munitions Control, Department of State, Washington 25, D. C.

CATEGORY I—SMALL ARMS AND MACHINE GUNS

(a) Rifles, carbines, revolvers, pistols, machine pistols and machine guns using ammunition of caliber .22 or over except weapons using only caliber .22 rim-fire ammunition.

(b) The following accessories and attachments for such arms: bayonets, slings, straps, gun mounts, belts, links and magazines. All components and parts for machine guns. Barrels and breech mechanisms for rifles, carbines, pistols and revolvers.

CATEGORY II—ARTILLERY AND PROJECTORS

(a) Guns, howitzers, cannon, mortars, tank destroyers, rocket launchers, military flame throwers, military smoke projectors and recoilless rifles.

(b) Components and parts and the following accessories and attachments: mounts and carriers.

CATEGORY III—AMMUNITION

(a) Ammunition of caliber .22 or over for the arms enumerated in Categories I and II hereof except caliber .22 rim-fire ammunition.

(b) The following components, parts, accessories and attachments: cartridge cases, powder bags, bullets, jackets, cores, shells (excluding shotgun), projectiles, boosters, percussion caps, fuses or fuzes and components thereof, primers, and other detonating devices for such ammunition.

CATEGORY IV—BOMBS, TORPEDOES, ROCKETS, AND GUIDED MISSILES

(a) Bombs, torpedoes, grenades (including smoke grenades), smoke canisters, rockets, mines, guided missiles, depth charges, fire bombs, and incendiary bombs.

(b) Apparatus and devices for the handling, control, activation, discharge, detonation, or detection of items enumerated in paragraph (a) of this category.

(c) Military fuel thickeners.

(d) Components and parts including but not limited to fuses or fuzes and components thereof; bomb racks and shackles; bomb shackle release units; bomb ejectors; torpedo tubes; torpedo and guided missile boosters; launching racks, projectors; control mechanisms and control systems; pistols (exploders); igniters; detonators; mine detectors; fuze or fuse arming devices; and the following items related thereto: intervalometers and components thereof; bomb lift trucks; bomb and torpedo handling trucks; trailers, hoists, and skids for handling bombs; guided missile launchers.

CATEGORY V—FIRE CONTROL EQUIPMENT AND RANGE FINDERS

(a) Fire control, gun tracking and infrared and other nightsighting equipment; range, position, and height finders, and spotting instruments; aiming devices (electronic, gyroscopic, optic and acoustic); bomb sights, gun sights, and periscopes for the arms, ammunition, and implements of war enumerated herein.

(b) Components, parts, accessories and attachments specifically designed for the articles enumerated in this category.

CATEGORY VI—TANKS AND ORDNANCE VEHICLES

(a) Tanks, military type armed or armored vehicles, ammunition trailers, and amphibious vehicles (land vehicles capable of limited endurance in water), military half tracks, military type tank recovery vehicles, gun carriers, and automotive vehicles or chassis embodying all-wheel drive and equipped with one or both of the following features to meet special military requirements: adaptation features for deep water fording and sealed electrical systems.

(b) Components, parts, accessories and attachments specifically designed for the tanks and ordnance vehicles enumerated in this category.

CATEGORY VII—CHEMICAL AND BIOLOGICAL AGENTS

(a) Chemical or biological agents adapted for use in war to produce death or disablement in human beings or animals or to damage crops.

(b) Equipment for the dissemination, detection, and identification of, and defense against, the items described in paragraph (a) of this category.

(c) Components, parts, attachments, and accessories specifically designed for equipment for the dissemination, detection, identification of, and defense against, the items described in paragraph (a) of this category.

CATEGORY VIII—PROPELLANTS AND EXPLOSIVES

Propellants for the articles enumerated in Categories III and IV hereof; military high explosives.

CATEGORY IX—VESSELS OF WAR AND SPECIAL NAVAL EQUIPMENT

(a) Warships, amphibious warfare vessels, landing craft, mine warfare vessels, patrol vessels, auxiliary vessels, service craft, floating drydocks, and experimental types of naval ships. Turrets and gun mounts, submarine storage batteries, catapults and other components, parts, attachments and accessories specifically designed for the following types of combatant vessels: battleships, command ships, cruisers, aircraft carriers, destroyers, and submarines.

(b) Equipment for the laying, detection, detonation, and sweeping of mines. Components, parts, attachments, and accessories specifically designed for mine laying, mine detection and detonation, and mine sweeping equipment.

(c) Submarine and torpedo nets. Components, parts, attachments and accessories specifically designed for these articles.

CATEGORY X—AIRCRAFT

(a) Aircraft and airborne equipment.

(b) All components, parts and accessories for aircraft. This does not include ground handling and maintenance equipment and bulk materials, such as dopes, paints, oils, cable, wire, tubing, hose, aluminum sheets.

CATEGORY XI—MISCELLANEOUS ARTICLES

(a) Military electronics: (1) Electronics equipment specifically designed for military use; (2) radar of all types, including guidance systems and airborne or ground equipment therefor; (3) electronic countermeasures and jamming equipment; (4) underwater sound equipment; (5) military communications-electronics equipment bearing a military designation; (6) electronic navigational aids specially designed for military use such as radio direction finding equipment; (7) radio distance measuring systems such as Shoran, and hyberbolic grid systems, such as Raydist, Loran, and Decca; (8) components, parts, accessories and attachments specially designed for use with equipment enumerated in Category XI (a).

(b) Aerial cameras and special purpose military cameras and specialized processing equipment therefor; military photointerpretation, stereoscopic plotting and photogrammetry equipment.

(c) Armor plate, armored railway trains, military steel helmets, body armor, and flak suits. Components and parts specifically designed for use in military steel helmets, body armor, and flak suits.

(d) Specialized military mobile repair shops specially designed to service military equipment.

(e) Pressurized breathing equipment and partial pressure suits for use in aircraft, anti "G" suits, military crash helmets, aircraft liquid oxygen converters, and complete parachutes utilized for personnel, cargo, or deceleration purposes. Components and parts specifically designed for pressurized breathing equipment, partial pressure suits, anti "G" suits, aircraft crash helmets, and liquid oxygen converters.

(f) Military pyrotechnics including projectors therefor.

(g) Specialized military training equipment. Components, parts, attachments and accessories for specialized military training equipment.

(h) Tear gas and equipment for dissemination thereof.

(i) Helium gas.

(j) Cryptographic devices (encoding and decoding).

(k) Landing mats.

CATEGORY XII—CLASSIFIED MATERIAL

All material not enumerated herein which is classified from the standpoint of military security.

CATEGORY XIII—TECHNICAL DATA

Technical data relating to the articles herein designated as arms, ammunition, and implements of war.

(b) *Gold.* The gold regulations (31 CFR Part 54) promulgated by the Secretary of the Treasury under the Gold Reserve Act of 1934 (48 Stat. 337) and section 5 (b) of the act of October 6, 1917, as amended by section 2 of the act of March 9, 1933 (48 Stat. 1), shall govern the exportation of gold, except that the exportation of fabricated gold (as defined in § 54.4 of said regulations) of which not more than 90 percent of the total domestic value is attributable to the gold content thereof shall also be subject to the Export Regulations of the Department of Commerce.

NOTE: 1. The exportation of "fabricated gold," as defined in the gold regulations issued by the Treasury Department (31 CFR 54.4), is controlled by the Department of Commerce under an arrangement with the Treasury Department. All "fabricated gold" commodities which are not included on the Positive List may be exported to any destination, except Hong Kong, Macao, and Subgroup A destinations, under Department of Commerce General License GRO (see § 371.8 of this chapter). For the export of "semi-processed gold," as defined in § 54.4 of said regulations, an application for a license to export must be filed with the Bureau of the Mint, Treasury Department.

2. Exporters are cautioned that "semi-processed gold" (as defined by the gold regulations) presented for export as "fabricated gold" is subject to seizure.

(c) *Narcotics.* The Export Regulations of the Department of Commerce shall not govern the exportation of narcotic drugs and marihuana subject to the Narcotics Drugs Import and Export Act (21 U. S. C. 171 et seq.) and Marihuana Tax Act of 1937 (26 U. S. C. 2590, 3230 et seq.), as amended, respectively, and regulations promulgated thereunder, administered by the Treasury Department, Bureau of Narcotics.

NOTE: Under the provisions of the Narcotics Drugs Import and Export Act, as amended, and the Federal marihuana law, the authority to control exports and imports of narcotic drugs, which are listed below, is vested in the Treasury Department, Bureau of Narcotics:

(1) Opium and its derivatives.

(2) Coca leaves and their derivatives.

(3) Marihuana or cannabis.

(4) Isonipecaine (Demerol).

(5) Amidone or Methadon (Adanon and Dolophine—trade names).

(6) Any medicine or preparation containing any quantity of the foregoing drugs or their derivatives.

(d) *Commodities subject to Atomic Energy Act.* Regulations promulgated by the Atomic Energy Commission under the authority of the Atomic Energy Act of 1954 (10 CFR Parts 40 and 50), or as the same may be amended from time to time, shall govern the exportation of "source material," "special nuclear material," and "facilities for the production or utilization of special nuclear material" (except components for such facilities, which are licensed for export by the Bureau of Foreign Commerce) as defined in said act and regulations.

NOTE: 1. *Definitions*—(a) *Source material.* The term "source material" means any material except special nuclear material, which contains: by weight one-twentieth of one percent (0.05%) or more of (1) uranium, (2) thorium, or (3) any combination thereof.

(b) *Special nuclear material.* The term "special nuclear material" means plutonium, uranium enriched in the isotope 233 or in the isotope 235, or any material artificially enriched by any of the foregoing.

(c) *Production facility.* The term "production facility" means:

(i) Any nuclear reactor designed or used primarily for the formation of plutonium or U-233, or

(ii) Any facility designed or used for the separation of the isotopes of uranium or the isotopes of plutonium, except laboratory scale facilities designed or used for experimental or analytical purposes only, or

(iii) Any facility designed or used for the chemical, physical, or metallurgical processing or fabricating or allowing of special nuclear material, except laboratory scale facilities designed or used for experimental or analytical purposes only.

(d) *Utilization facility.* The term "utilization facility" means: Any nuclear reactor other than one designed or used primarily for the formation of plutonium or U-233.

2. *Regulations, forms, and instructions.* Copies of the Atomic Energy Commission regulations, together with forms and instructions for submitting license applications, and information with respect to the issuance of a license, may be obtained from the United States Atomic Energy Commission, Washington 25, D. C.

(e) *Vessels.* The sale to a foreign purchaser and/or the transfer to foreign registry of vessels which are owned by citizens of the United States, regardless of size, type or documentation, is subject to the approval of the U. S. Maritime Administration under the authority of Sections 9 and 37 of the United States Shipping Act of 1916, as amended (46 U. S. C. 808 and 835; 46 CFR Part 221). However, for vessels of war, as defined in Presidential Proclamation 3038 (3 CFR, 1953 Supp.), and regulations issued thereunder by the Secretary of State (see paragraph (a) of this section), export authorization must be obtained from both the State Department and the Maritime Administration.

(f) *Natural gas.* The provisions of the Natural Gas Act of 1938 (52 Stat. 822; 15 U. S. C. 717b) and of Executive Order No. 8202, dated July 13, 1939 (4 F. R. 3243, 3 CFR, 1943 Cum. Supp.) and the regulations heretofore or hereafter

[2] Arms, ammunition and implements of war must be rendered useless beyond the possibility of restoration, before they can be licensed by the Bureau of Foreign Commerce for export as scrap metal. (See § 399.2 of this subchapter, Appendix B, Interpretation 13.)

promulgated by the Federal Power Commission pursuant to said act and Executive Order (18 CFR Part 153) shall govern the exportation of "natural gas" as defined in said act, and the construction, operation, maintenance, or connection of facilities for such exportation at the United States side of international boundaries.

§ 370.5 *Shipments to Territories, dependencies, and Possessions of the United States*—(a) *Territories, dependencies, possessions.* No license is required for shipments from the United States to any territory, dependency, or possession of the United States, as listed in Schedule C of the Bureau of the Census.

(b) *Trust Territory of the Pacific Islands.* For the purpose of export control, the Trust Territory of the Pacific Islands (i. e., the Caroline Islands, the Marshall Islands, and the Marianas Islands, except Guam, which is an island possession of the United States) shall be accorded the same treatment as the territories and possessions of the United States and, accordingly, an export license is not required for shipments of commodities thereto.

§ 370.6 *In-transit shipments without unloading.* Commodities shipped by vessel from one foreign country and passing through the United States in transit to another foreign country may be exported without a license from the Department of Commerce; provided that while in waters subject to the jurisdiction of the United States, they have not been unladen from the vessel on which they entered such waters, and provided further, that they are not originally manifested to the United States.

NOTE: Any commodity which is excepted from the provisions of General In-Transit License GIT (§ 371.9 (c) of this chapter) and which is manifested to the United States requires a validated license for on-forwarding to all destinations, regardless of whether unladen from a vessel in waters subject to the jurisdiction of the United States.

§ 370.7 *Shipments entering foreign trade zones*—(a) *General provisions.* Commodities identified on the Positive List of Commodities (§ 399.1 of this subchapter) by the symbol "C" in the column headed "Commodity Lists" may not be exported from a foreign trade zone without an export license from the Bureau of Foreign Commerce. Other commodities wholly of foreign origin for which no customs entry has been made with a Collector of Customs may be exported from a foreign trade zone without an export license to:

(1) Any destination other than Hong Kong, Macao, and Subgroup A, and

(2) Hong Kong, Macao, and Subgroup A destinations only if the same exportation may be made directly from the United States under the provisions of a general license.

(b) *Shipments originating in Canada.* Shipments of commodities originating in Canada and moving through the United States may be exported from a foreign trade zone without a license from the Department of Commerce provided such exportation meets the conditions set forth in § 371.9 (b) (1) of this chapter, General In-Transit License GIT; or when exported to an ultimate destination to which the same commodity could be exported under General License GO.

§ 370.8 *Shipments via Hong Kong*—(a) *General.* Notwithstanding restrictions upon shipments to Hong Kong set forth elsewhere in the Export Regulations, shipments may be made via Hong Kong subject to the provisions set forth in paragraphs (b), (c), and (d) of this section.

(b) *Shipments not unloaded at Hong Kong.* General and validated license shipments, which are manifested to any ports other than Hong Kong, Macao, and those in Subgroup A destinations, and which proceed through Hong Kong only for the purpose of exchanging Bills of Lading, but which are not to be discharged, off-loaded, or transshipped at Hong Kong, may proceed without the necessity of bonding such shipments against discharge in Hong Kong, provided the Bill of Lading calls for discharge at the port to which the shipment is manifested. Bills of Lading permitting discharge only at an unrestricted port by the use of a statement such as "Singapore via Hong Kong" may be cleared without bond. However, shipments which are either manifested to, or under Bills of Lading calling for, "Hong Kong" as port of discharge or "Hong Kong in-transit to Singapore," or any other similar designation indicating Hong Kong as port of discharge, may not be cleared without a validated export license specifically authorizing transshipment at Hong Kong.

(c) *General License GRO shipments under a through bill of lading.* (1) Shipments of all commodities under General License GRO may be transshipped at Hong Kong without the necessity of obtaining a validated license, provided (1) such transshipments are made under a through Bill of Lading to a destination outside of Hong Kong, Macao, or Subgroup A and (2) the shipment is maintained in the custody of the originating or on-forwarding carrier at all times.

(2) For purposes of this section a through Bill of Lading includes a contract of carriage with a carrier for transportation from the United States of the commodities to the country of ultimate destination named on the authenticated Shipper's Export Declaration. The actual transportation may be made by more than one carrier and may involve more than one transportation document.

(d) *Validated license shipments under a through bill of lading.* Subject to the provisions shown in paragraph (c) (1) and (2) of this section, commodities shipped under a validated license for an ultimate destination other than Hong Kong may be transshipped at Hong Kong without the necessity of obtaining specific authorization from the Bureau of Foreign Commerce on the validated license.

---

## PART 371—GENERAL LICENSES

Sec.

371.1 Definition.
371.2 General provisions.
371.3 General license country groups.
371.4 Reexportation from country of destination.
371.5 Consignee control under general license.
371.6 Consignor control under general license.
371.7 General license GO; shipments to Group O destinations.
371.8 General license GRO; shipments of non-Positive List commodities.
371.9 General license GIT; in-transit shipments.
371.10 General license GLV; shipments of limited value.
371.11 General licenses BAGGAGE and TOOLS OF TRADE.
371.12 General license GLD; dunnage.
371.13 General Licenses SHIP STORES, PLANE STORES, CREW, and REGISTERED CARRIER STORES.
371.14 General License GUS; shipments to members of the U. S. Armed Forces and to representatives of the U. S.
371.15 General License GLC; exportations of commercial vehicles by private or common carriers.
371.16 General License GTF; goods imported for trade fairs.
371.17 General Licenae GCC; commodities sold at auction by Bureau of Customs.
371.18 General License GLR; return of certain commoditiea imported into the United States.
371.19 General Licenses GTDP, GTDU, and GTDS; technical data.
371.20 General License G-PUB; exportation of certain publications.
371.21 General License GIFT; shipments of gift parcels.
371.22 General License GHS; goods exported to Hong Kong as trade samples.
371.23 General License GHK; shipments of certain commodities to Hong Kong.
371.24 General License GLSA; shipments of certain commodities to specified Subgroup A destinations.

AUTHORITY: §§ 371.1 to 371.24 issued under sec. 3, 63 Stat. 7, as amended; 50 U. S. C. App. 2023, E. O. 9630, 10 F. R. 12245, 3 CFR, 1945 Supp., E. O. 9919, 13 F. R. 59, 3 CFR, 1948 Supp.

§ 371.1 *Definition.* A "general license" is a license established by the Department of Commerce for which no application is required and for which no document is granted or issued, available for use by all persons, permitting exportation within the provisions thereof as prescribed in the Export Regulations.

§ 371.2 *General provisions*—(a) *Export declarations.* No exportation may be made pursuant to any general license established in this part unless prior to said exportation, whenever required by the Export Regulations, or by the Regulations for the Collection of Statistics of Foreign Commerce and Navigation of the United States, a Shipper's Export Declaration describing the commodity or commodities to be exported has been filed with the Collector of Customs at the port of exit or with the Postmaster at the place of mailing; or, unless at the time of said exportation, whenever the filing of a Shipper's Export Declaration is not required, an oral export declaration describing the commodity or commodities is made to a Collector of Customs at the port of exit.

(b) *Use of General License symbol.* A person exporting any commodity or technical data pursuant to any general license established in this part or Part 385 of this subchapter shall enter on the

Shipper's Export Declaration, when the Declaration is required, the designation or symbol of the general license authorizing the exportation. In the case of exportations by mail, except the exportation of publications made by a United States Government agency under General License GTDP, the designation or symbol of the general license shall be entered on the address side of the wrapper of the parcel and shall be followed by the words "Export License Not Required." The use of such designation or symbol shall constitute a certification by the exporter that the terms, provisions, and conditions of the general license involved have been met.

*Example.* If medicinals are to be sent to a member of the American Embassy in a foreign country, they may be exported under general license GUS, and the exporter will note on the Declaration the symbol GUS to indicate that the exportation is licensed.

(c) *Applicability*—(1) *Prohibited shipments.* (i) No general license set forth in this subchapter may be used to effect an exportation to a destination for which such general license has been suspended or revoked.

(2) *Choice of general license.* When two or more types of general licenses are applicable, any one of such general licenses may be used. However, exportations of commodities under any applicable general license on a vessel or aircraft of foreign registry departing from the United States for use on board such vessel or aircraft must conform to the requirements for exportation under General License SHIP STORES or General License PLANE STORES, respectively. (See § 371.13.)

(3) *Exportations to foreign vessels in foreign ports.* Except as provided in the note below, commodities may not be exported under the provisions of any general license to a foreign vessel, whether an operating vessel or one under construction, located in a foreign port unless such general license is applicable to both the country in which such port is located and to the country under whose laws such vessel is or will be registered.

NOTE: The exportation of commodities under the provisions of General Licenses SHIP STORES, § 371.13 (a), or REGISTERED CARRIER STORES, § 371.13 (d), is not affected by this provision.

§ 371.3 *General license country groups*—(a) *Grouping of countries.* Two general license country groups are hereby designated: Group R and Group O. (Since exportations to U. S. territories, dependencies, and possessions, Trust Territory of the Pacific Islands, and Canada do not require export licenses from the Department of Commerce, these destinations are not included in these country groups.)

(1) Country Group O consists of the following countries and other destinations:

NORTH AMERICA

Northern area:
- Greenland.
- Miquelon and St. Pierre Islands.

Southern area:
- Mexico (including Cozumel and Revilla Gigedo Islands).

Central America:
- Guatemala.
- British Honduras.
- El Salvador.
- Honduras (including the Bay Islands).
- Nicaragua.
- Costa Rica.
- Panama, Republic of.

Bermuda and Caribbean:
- Bermuda.
- Bahamas.
- Cuba (including Isle of Pines).
- Jamaica.
- Haiti (including Gonave and Tortuga Islands).
- Dominican Republic.
- Leeward and Windward Islands.
- Barbados.
- Trinidad and Tobago.
- Netherlands Antilles (formerly Curacao, N. W. I.).
- French West Indies.

SOUTH AMERICA

Northern area:
- Colombia.
- Venezuela.
- British Guiana.
- Surinam (Netherlands Guiana).
- French Guiana (including Inini).

Western area:
- Ecuador (including the Galapagos Islands).
- Peru.
- Bolivia.
- Chile (including the islands Sala-y-Gomez, Juan Fernandes, San Felix, San Ambrosio, and Easter Island).

Eastern area:
- Brazil (including the islands St. Paul, Fernando Noronha, and Trinidad (in South Atlantic)).
- Uruguay.
- Paraguay.
- Argentina.
- Falkland Islands.

(2) Country Group R includes and consists of all countries and other destinations not included in Country Group O, except Canada (including Newfoundland and Labrador). Within Country Group R there is established Subgroup A, which includes and consists of the following countries and other destinations: [1]

- Albania.
- Bulgaria.
- China, including Manchuria (and excluding Taiwan (Formosa)) (includes Inner Mongolia; the provinces of Tsinghai and Sikang; Sinkiang; Tibet; the former Kwantung Leased Territory, the present Port Arthur Naval Base Area and Liaoning Province).
- Communist-controlled area of Viet Nam, Communist-controlled area of Laos.
- Czechoslovakia.
- East Germany (Soviet Zone of Germany and the Soviet Sector of Berlin).
- Estonia.
- Hungary.
- Latvia.
- Lithuania.
- North Korea.
- Outer Mongolia.
- Poland and Danzig.
- Rumania.
- Union of Soviet Socialist Republics.

NOTE: Licenses issued by the Bureau of Foreign Commerce to export R commodities to Tangier (including the International Zone), French Morocco, or Spanish Morocco are valid for shipment or transshipment of such commodities to any of the following destinations: Tangier (including the International Zone), French Morocco, or Spanish Morocco. Exporters filing license applications for the export of R commodities to these three destinations may indicate "Morocco" as the country of ultimate destination.

(b) *Applicability to individual countries.* When a commodity is exportable under general license to a particular country group, it may, subject to the provisions of the Export Regulations, be exported to any country or destination in that group.

§ 371.4 *Reexportation from country of destination*—(a) *Prohibited reexportations.* No exportation may be made under any type of general license with the knowledge or intention that the commodities so exported are to be reexported from the country of destination unless the reexportation has been authorized by the Department of Commerce, except as provided in paragraph (b) of this section or in § 371.8 (b).

(b) *Permissive reexportations.* Any commodity which has been exported from the United States may be reexported from any destination to any other destination; provided that at the time of reexportation, the commodities to be reexported may be exported directly from the United States to the new country of destination either under General License GO, GRO, GHS, GHK, or GLSA or where the value of the reexportation does not exceed the GLV dollar value limit shown on the Positive List with reference to the country of destination.

NOTE 1. *Reexportation from country of destination.* This provision applies to commodities exported from the United States to the original country of destination under either a general or validated license. See § 372.12 of this chapter.

NOTE 2. *Optional ports.* When an exporter of a commodity being exported under General License GRO or GO does not know, prior to the departure of the exporting carrier, which of several countries is the country of ultimate destination, he may name optional ports of unlading on the Shipper's Export Declaration and bill of lading, even when more than one foreign country is involved, as provided by Note 1 following §379.4 of this subchapter.

NOTE 3. *Technical data.* For reexportation of technical data, see § 385.6 of this chapter.

§ 371.5 *Consignee control under general license*—(a) *Revocations and suspensions.* General licenses may be revoked or suspended as to any person in any destination.

(b) *Consignees.* Shipment under a general license may be made, subject to the provisions thereof, to any consignee in any country of destination except to any person as to whom the general license has been revoked or suspended.

§ 371.6 *Consignor control under general license.* General licenses may be revoked or suspended as to any person within or without the United States by an order issued pursuant to the provisions of Part 382 of this chapter.

§ 371.7 *General license GO; shipments to Group O destinations*—(a) *Scope of license.* A general license designated GO is hereby established, subject to the other provisions of this section, authorizing the exportation of R commodities to destinations in Country Group O as listed in § 371.3 (a).

[1] Further explanation of the areas indicated is contained in "Schedule C" appearing on pages x-xv of Schedule B, Statistical Classification of Domestic and Foreign Commodities Exported from the United States, and amendments thereto.

(b) *Footnotes on Positive List.* If reference is made to a footnote on the Positive List of Commodities (§ 399.1 of this subchapter) which modifies or alters the general license established in this section, the provisions specified in such footnote shall govern, notwithstanding any other provision.

NOTE: To determine if a commodity may be exported to a specific destination under this general license, the exporter should consult the provisions regarding country groups in § 371.3. If the destination is included in Group O, he should then consult the Positive list (§ 399.1 of this subchapter). If the commodity is listed and identified by the symbol "R" in the column headed "Validated License Required," it is an R commodity, and the exportation may be made under General License GO. (Exporters in doubt as to the proper classification of the commodities which they handle should consult the Department of Commerce publication, Schedule B, Statistical Classification of Domestic and Foreign Commodities Exported from the United States.)

EXAMPLE NO. 1

An exporter desiring to ship toluene to Venezuela finds that Venezuela is included in Country Group O (§ 371.3). Turning to the Positive List (§ 399.1), he finds that toluene, Schedule B No. 801100, is listed and followed by the symbol "R" in the column headed, "Validated License Required." It is, therefore, an R commodity, and the exportation may be made under this general license by use of the symbol GO on the Shipper's Export Declaration.

EXAMPLE NO. 2

An exporter desiring to ship toluene to Spain consults the country list (§ 371.3) and finds that Spain is a Country Group R destination. The shipment cannot be made under General License GO, and an application must be filed for a validated export license if the value of the shipment exceeds that specified in the column headed "GLV Dollar Value Limits."

EXAMPLE NO. 3

An exporter desiring to ship copper ore and concentrates, Schedule B No. 640100, to Venezuela finds this commodity on the Positive List, followed by the symbol "RO" in the column headed "Validated License Required." The exportation, therefore, cannot be made under General License GO.

§ 371.8 *General license GRO; shipments of non-Positive List commodities*—(a) *Scope of license.* (1) A general license designated GRO is hereby established, authorizing the exportation to all destinations of all commodities not included on the Positive List of Commodities (§ 399.1 of this subchapter), subject to the limitations set forth in this section.

(2) No exportations may be made under this general license to Hong Kong, Macao, or Subgroup A destinations.

NOTE: Gift parcels containing commodities not on the Positive List may be shipped under General License GRO. Any commodity on the Positive List requires a validated license for export, even though intended as a gift, unless exportable under one of the other general licenses such as Gift (see § 371.21), GO (see § 371.7), or GLV (see § 371.10).

(b) *Shipments to redistribution points.* (1) Exportations may be made under this general license to a free zone or other redistribution point for redistribution to a destination not identified on the export documents provided that neither the redistribution point nor the destination to which the commodities are distributed is included in paragraph (a) (2) of this section, except that commodities listed in § 371.23 may be redistributed to Hong Kong.

(2) For exportations to redistribution points, the Declaration and the Bill of Lading covering the shipment must show, as the ultimate destination, the country from which distribution will be made followed by the words "For redistribution to other countries." In addition, both documents shall show in the commodity description item, the following statement:

None of this merchandise will be shipped to Macao, a Soviet Bloc destination, or a Communist-controlled area in the Far East, and none of these commodities except commodities listed in § 371.23 will be shipped to Hong Kong.

(c) *Government surplus agricultural commodities.* See § 373.5 (b) of this subchapter for exportations of agricultural commodities acquired directly or indirectly as a result of a sale for export amounting to $100,000 or more by the Commodity Credit Corporation (CCC), either in the form acquired or in processed form.

§ 371.9 *General License GIT; intransit shipments*—(a) *General provisions*—(1) *Scope.* (i) A general license designated GIT is hereby established, authorizing, subject to the other provisions of this Section, the exportation from the United States of commodities which originate in and are destined to any foreign country; provided that such commodities are moving in transit through the United States under a Transportation and Exportation (T. & E.) customs entry or an Immediate Exportation (I. E.) customs entry made at a United States customhouse.

(ii) Commodities which originate in a foreign country include commodities which were originally grown, produced, or manufactured in the United States but which have been so altered by further processing, manufacture, or assembly in the foreign country that such commodities have either thereby been substantially enhanced in value, or have lost their original identity with respect to form.

(iii) Only those exportations of foreign origin which, if of United States origin, could be made respectively to Hong Kong, Macao, or a Subgroup A country, under the provisions of a general license, may be exported to Hong Kong, Macao, or a Subgroup A country, respectively, under General License GIT.

(2) *Exception from foreign-origin requirement.* Notwithstanding the provisions of subparagraph (1) of this paragraph, automobile manufacturers located in Canada may export, under the provisions of this General License GIT, automotive replacement parts of U. S. origin which were originally exported from the United States to Canada as stock parts for new vehicles of Canadian manufacture, and which are moving from Canada in transit through the United States to a foreign destination; provided, however, that such automotive replacement parts are for repair or replacement only for passenger cars and commercial trucks not exceeding 10,000 pounds gross vehicle weight, and not for assembly of new vehicles outside of Canada.

NOTE 1. Commodities are not considered as "moving in transit" within the meaning of General License GIT if they are covered by a warehouse entry and withdrawn from warehouse under a withdrawal-for-exportation customs entry or if their transit is broken by a warehousing or processing operation under another type of customs entry.

NOTE. 2. Regardless of origin of the intransit shipment, except those originating in Canada, General License GIT cannot be used to export any commodity if it is on the excepted commodity list as provided in paragraph (c) of this section or if the shipment was imported into the United States under a U. S. Import Certificate (Form IT– or FC–826), in accordance with the procedure described in § 368.1 (b) of this chapter.

NOTE 3. As used in paragraph (b) of this section, commodities or shipments of commodities which originate in any foreign country means commodities exported from that country whether or not grown, produced, or manufactured there.

NOTE 4. This General License GIT is not applicable to exportations of commodities licensed by agencies of the United States Government other than the Department of Commerce.

NOTE 5. See § 370.6 of this chapter, and note following that section, regarding shipments moving in transit via the United States without unloading from the carrier.

(b) *Special provisions for shipments originating in Canada.* (1) The provisions of General License GIT are applicable, as modified herein, to all shipments originating in Canada and moving in transit through the United States to any foreign destination, including Hong Kong, Macao, and Subgroup A countries. The United States Collector of Customs at the United States port of exit shall require, and the shipper shall submit to him, a copy of Canadian Customs Entry, Form B13, certified or stamped by the Canadian customs authorities, for each such shipment. Positive List commodities may be exported from the United States under this general license only as authorized in the certified or stamped Canadian Customs Entry, Form B13. Where the ultimate destination or any other pertinent detail of such shipment is not the same on the U. S. Shipper's Export Declaration as that shown on the Canadian Customs Entry, Form B13, a validated U. S. export license or a new Form B13 authorizing the shipment is required. However, non-Positive List commodities may be exported under any general license applicable to the exportation of the same commodities of domestic origin whether or not there is a change of ultimate destination while the shipment is in transit. Non-Positive List commodities authorized by the Canadian Customs Entry, Form B13, for export to Hong Kong, Macao, or a Subgroup A country may proceed in transit through the United States under General License GIT according to that authorization. Other shipments on non-Positive List commodities to Hong Kong, Macao, or a Subgroup A country, not authorized to such a destination by the accompanying Canadian Customs Entry, Form B13, require a validated U. S. export license or a new Form B13 authorizing such an exportation.

(2) Any parties to the exportation shall submit any further proof which the Collector of Customs at the United States port of entry or at the port of exit may require to enable him to determine that the shipment is properly exportable under General License GIT, including the fact that the destination of the shipment is properly authorized by the Canadian authorities. Exportations shall not be cleared for shipment by the Collector of Customs at the United States port of exit under General License GIT unless all provisions of this general license have been complied with.

(c) *Commodities excepted from the provisions of this general license.* (1) Commodities identified on the Positive List of Commodities (§ 399.1 of this subchapter) by the symbol "C" in the column headed "Commodity Lists" may not be exported to any destination under this general license, with the exception of shipments of commodities originating in Canada which are being exported from the United States in accordance with the authorization shown on the accompanying Canadian Customs Entry, Form B13.

(2) Commodities shipped to the United States under the provisions of a United States Import Certificate (Form IT– or FC–826) may not be reexported to any destination under this general license.

NOTE: 1. See § 372.6 of this chapter for export application requirements for intransit shipments where General License GIT is not applicable.

2. All shipments of merchandise for which the Shipper's Export Declaration For Intransit Goods is required (Commerce Form 7513) must be shown in terms of Schedule S as well as in terms of Schedule B. Schedule S numbers, by commodity groupings, are contained in Schedule S, Statistical Classification of Domestic and Foreign Merchandise Exported from the United States, and are obtainable without charge from the Bureau of the Census, Washington 25, D. C.

§ 371.10 *General License GLV; shipments of limited value*—(a) *Purpose and symbol.* There is hereby established a general license designated GLV authorizing the exportation from the United States of shipments within certain specific dollar-value limits.

(b) *Definitions and interpretations.* The following definitions and interpretations are applicable to this section:

(1) "Single shipment" means the shipment of all commodities which move at the same time from one exporter to one importer on the same exporting carrier, except that not more than one shipment may be made by parcel post or mail per calendar week from one exporter to one importer.

(2) "Net value" means the actual selling price less shipping charges or the current market price to the same type of purchaser in the United States, whichever is the larger.

(3) "One importer" is interpreted as follows: For exportation under the provisions of this section, not more than the amount authorized under this general license may be exported in a single shipment from a designated exporter to a designated consignee or to an intermediate consignee even though such shipment is to be forwarded to one or more ultimate consignees.

(c) *General provisions*—(1) *Positive list.* Subject to the special provisions as designated and set forth below in this section, commodities included on the Positive List of Commodities (§ 399.1) may be exported in a single shipment under this general license to all destinations, as follows:

(i) *R destinations.* RO or R commodities classified in a single entry on the Positive List may be exported to Group R destinations, provided that the net value of the shipment is within the dollar-value limit specified in the column headed "GLV Dollar Value Limits."

(ii) *O destinations.* RO commodities classified in a single entry on the Positive List may be exported to Group O destinations, provided that the net value of the shipment is within the dollar-value limit specified in the column headed "GLV Dollar Value Limits" (including those limits specified as "none"), or $500, whichever is higher, unless the commodity is identified by the symbol "G" in the column headed "Commodity Lists." Where the commodity is identified by the symbol "G," the commodity may be exported only within the dollar-value limit specified in the column headed "GLV Dollar Value Limits."

(2) *Prohibited shipments.* The following shipments may not be made under the provisions of this general license:

(i) Positive List commodities in any quantity destined for Hong Kong, Macao, and Subgroup A destinations (see § 371.3 (a)).

(ii) Commodities licensed by agencies of the U. S. Government other than the Department of Commerce.

(iii) Commodities with the word "none" in the column on the Positive List headed "GLV Dollar Value Limits" except as specified in subparagraph (1) of this paragraph.

(iv) Shipments designed as a device to evade the requirement of a validated export license. Such devices include, but are not limited to, (*a*) the splitting of orders from a single consignee into two or more shipments the total value of which exceeds the maximum GLV dollar-value limit specified for a single shipment; (*b*) the solicitation from a single consignee of a number of separate orders each of which conforms to such dollar-value limits, but which have a combined value in excess thereof.

NOTE: 1. R commodities may be exported to Group O destinations without dollar-value limit under the provisions of General License GO (§ 371.7).

2. Commodities not included on the Positive List of Commodities may be exported to any destination, except Hong Kong, Macao, and Subgroup A countries, without dollar-value limit under the provisions of General License GRO (§ 371.8).

(d) *Use of other general licenses not restricted.* The provisions of this section shall not be construed as limiting the use of any other general license specifically authorized.

(e) *Special provisions for Mexico*—(1) *Limitations on commodities under quantitative quotas.* Commodities subject to quantitative quotas which have been announced in Current Export Bulletins and which are being exported to Mexico by or on behalf of the same exporter to or for the account of the same ultimate consignee are restricted to one "single shipment" (as defined in paragraph (b) of this section) per calendar week when such exports are transported otherwise than by common carrier or by mail.

(2) *Certification required.* The Shipper's Export Declaration covering any exportation to Mexico which is authorized by General License GLV but which is restricted by the terms of subparagraph (1) of this paragraph shall contain the following additional certification.

The undersigned certifies to the Department of Commerce that the merchandise above described is the only shipment of the commodity(ies) classified under the Schedule B number(s) set forth herein to be exported under the provisions of General License GLV by the undersigned exporter to the consignee named herein during the current calendar week.

---

(Signed)

(3) *Hardship or emergency cases.* In any case where the Collector of Customs determines that the limitations in subparagraph (1) of this paragraph would create an undue hardship, or that an emergency exists in a particular case, he is authorized to permit more than one such shipment in a calendar week under this general license; provided that the value of each such shipment does not exceed the value limitation provided for the commodities included in such shipment under this general license.

(4) *Collectors authorized to limit shipments.* The Collector of Customs is authorized to limit or prevent altogether the exportation of any commodity to Mexico under this general license whenever he shall have cause to suspect that such exportation is being made for the purpose or with the intent of evading the Export Regulations.

§ 371.11 *General licenses BAGGAGE and TOOLS OF TRADE*—(a) *General license BAGGAGE*—(1) *General provisions.* A general license designated BAGGAGE is hereby established, authorizing a person leaving the United States, but not including members of crews on vessels and aircraft, to export as personal baggage, accompanied and unaccompanied, the following classes of commodities:

(i) *Personal effects.* Usual and reasonable kinds and quantities of wearing apparel, articles of personal adornment, toilet articles, medicinal supplies, food, souvenirs, games, and similar personal effects, and their containers.

NOTE: As used in the regulation, usual and reasonable quantities and kinds of food should be limited, generally, to the quantities and kinds necessary and appropriate for use by a traveler or members of his immediate family during the outgoing and any immediate return voyage.

Consequently, where a traveler desires to include, under the baggage general license, food in such quantities as to be obviously used for consumption after he has finished his voyage, or to be distributed as "gifts," such food is not included within the provisions of this general license.

(ii) *Household effects.* Usual and reasonable kinds and quantities of furniture, household effects, household furnishings, and their containers.

(iii) *Vehicles.* Usual and reasonable kinds and quantities of vehicles, such as passenger cars, station wagons, trucks, trailers, motorcycles, bicycles, tricycles, perambulators, and their containers.

*Provided,* That the above-indicated personal effects, household effects, and vehicles shall include only such articles as are owned by such person or members of his immediate family; shall be in his possession at the time of or prior to his departure from the United States for a foreign country; are necessary and appropriate for the use of such person or his immediate family; are intended for his use or the use of his immediate family; and are not intended for sale.

(2) *Definition of "accompanied" and "unaccompanied."* The provisions of General License BAGGAGE are applicable to accompanied and unaccompanied personal baggage, which is defined as follows:

(i) Accompanied. All commodities exported under this general license on the same carrier on which the passenger departs.

(ii) Unaccompanied. All other shipments of commodities under this general license. Unaccompanied shipments under this category shall be clearly marked "BAGGAGE." Shipments of unaccompanied baggage may be made at the time of, or within a reasonable time prior to or after, departure of the consignee or owner from the United States.

(3) *Special provisions.* No more than 3 firearms and no more than 500 cartridges, subject to the regulations governing the international traffic in arms, ammunition, and implements of war promulgated by the Department of State (see § 370.4 (a) of this chapter), may be exported under General License BAGGAGE.

(b) *General License TOOLS OF TRADE.* A general license designated TOOLS OF TRADE is hereby established authorizing a person leaving the United States to export usual and reasonable kinds and quantities of implements, instruments, and tools of trade, occupation or employment, and their containers; provided that the above-indicated tools of trade (1) shall include only such articles as are owned by such person; (2) shall be in his possession at the time of or prior to his departure from the United States for a foreign country; (3) are necessary and appropriate and intended for the personal use of such person; and (4) are not intended for sale.

NOTE: Proposed exports of personal effects, household effects, vehicles, and tools of trade that are not authorized for export to the country of destination under General License BAGGAGE or General License TOOLS OF TRADE, or under any other general license, must be authorized by a validated license in accordance with § 372.3 of this chapter.

(c) *Requirement for filing Shipper's Export Declaration.* A Shipper's Export Declaration must be filed in accordance with § 379.1 (b) of this chapter whenever a shipment is exported under General License BAGGAGE or General License TOOLS OF TRADE when shipped under a bill of lading.

NOTE: 1. *Validated license requirement.* Section 379.1 (a) (1) of this chapter also requires the filing of a Shipper's Export Declaration for authentication whenever a shipment is exported under a validated license.

2. *Oral declaration.* A Shipper's Export Declaration need not be filed, despite the provisions of § 379.1 (a) (2) of the chapter, whenever a shipment is exported under General License BAGGAGE or General License TOOLS OF TRADE except when shipped under a bill of lading. As stated in § 371.2 (a), whenever the filing of a Shipper's Export Declaration is not required by the export regulations or by the Regulations for the Collection of Statistics of Foreign Commerce and Navigation of the United States, an oral declaration describing the commodity or commodities shall be made to a Collector of Customs at the port of exit.

3. *Shipper's Export Declaration filing with manifest.* Bureau of Customs regulations provide that whenever any commodity for which a Shipper's Export Declaration is required to be filed, is to be exported, the person in command of the exporting carrier [1] or the owner or agents thereof on his behalf, shall deliver to the Collector of Customs all authenticated Shipper's Export Declarations presented to the exporting carrier for the purpose of facilitating or effecting the exportation of such commodities.

(d) *Customs authority to limit or prohibit shipments.* Collectors of Customs shall limit or prohibit the export of any commodity or commodities under General License BAGGAGE or General License TOOLS OF TRADE whenever the kind or quantity is in excess of the limitations set forth in this section, or whenever they shall have cause to suspect that such exportation is being made for the purpose or with the intent of evading any of the regulations of the Department of Commerce.

§ 371.12 *General License GLD; dunnage.* A general license designated GLD is hereby established, authorizing the exportation of usual and reasonable kinds and quantities of dunnage necessary and appropriate to stow or secure cargo on the outgoing and any immediate return voyage of an exporting carrier, when exported solely for use as dunnage, not intended for unlading in a foreign country and not exported under a bill of lading.

NOTE: 1. *Validated license requirements.* Proposed exports of dunnage that are not authorized for export to the country of destination under General License GLD or under any other general license must be authorized by a validated license in accordance with § 372.3 of this chapter.

2. *Shipper's Export Declaration filing for authentication.* A Shipper's Export Declaration must be filed in accordance with § 379.1 (a) (1) of this chapter whenever a validated license is required for the export of dunnage. The Shipper's Export Declaration may be executed and filed by the person in command of the exporting carrier [1] or the owner or agents thereof on his behalf. A Shipper's Export Declaration need not be filed, despite the provisions of § 379.1 (a) (2) of this chapter, whenever a shipment is exported under General License GLD. (See § 371.2 (a).)

3. *Shipper's export declaration filing with manifest.* Bureau of Customs regulations provide that whenever any dunnage is to be exported for which Shipper's Export Declarations are required to be filed, the person in command of the exporting carrier,[1] or the owner or agents thereof on his behalf, shall deliver to the Collector of Customs at the port of clearance all authenticated Shipper's Export Declarations executed by or presented to such persons for the purpose of facilitating or effecting the exportation of such dunnage.

§ 371.13 *General Licenses SHIP STORES, PLANE STORES, CREW, and REGISTERED CARRIER STORES*—(a) *General License SHIP STORES*—(1) *Scope.* A general license designated SHIP STORES is hereby established authorizing exportation, subject to the conditions set forth in subparagraph (2) of this paragraph, on vessels of foreign registry departing from the United States, of usual and reasonable kinds and quantities of (i) bunker fuel, (ii) deck, engine, and steward department stores, provisions and supplies for both port and voyage requirements (iii) medicinal and surgical supplies, (iv) food stores, (v) slop chest articles, and (vi) saloon stores or supplies, for use or consumption on board during the outgoing and any immediate return voyage, and not intended for unlading in a foreign country and not exported under a bill of lading as cargo; and of usual and reasonable kinds and quantities of equipment and spare parts for permanent use on the vessel when necessary for proper operation of such vessel, and not intended for unlading in a foreign country and not exported under a bill of lading as cargo.

(2) *Restrictions on the exportation of petroleum and petroleum products.* No exportation of petroleum and other petroleum products (including those used as bunker fuel) listed in subparagraph (3) of this paragraph may be made under this general license on a foreign vessel of 500 gross registered tons or more departing from the United States for use on board such vessel if the vessel (i) has called at Macao or a Far Eastern Communist port during the 180 days immediately preceding the date on which such commodities are to be laden aboard the vessel; (ii) will call at Macao or a Far Eastern Communist port within 120 days after the date on which such commodities are laden aboard the vessel; (iii) will carry within the next 120 days commodities of any origin, known by the owner, master, or agent to be destined directly or indirectly to these ports, unless the commodities so carried are covered by an export license issued by the Bureau of Foreign Commerce or any other agency of the United States Government; or (iv) is registered in any Subgroup A country, or is controlled by, or under charter to, any Subgroup A country or a national of a Subgroup A country.

(3) *Restricted commodities.* The provisions of subparagraph (2) of this paragraph are applicable to the following commodities:

[1] "Exporting carrier" includes any instrumentality of water, land, or air transportation by which an exportation is effected.

| Schedule B No. | Commodity |
|---|---|
| 501100 | Petroleum, crude. |
| 501200 | Natural gasoline. |
| 501360 | Unfinished oils for further refining: |
| | Refined oils: |
| | Motor fuel and gasoline (report octane rating): |
| 501400 | Blending agents, of petroleum origin (specify by name). |
| | Aviation motor fuels (report jet fuels in 501800): |
| 501610 | 100 or over octane number. |
| 501620 | Under 100, not under 90 octane number. |
| 501640 | Under 90 octane number. |
| 501700 | Automotive and other motor fuels and gasoline. |
| 501800 | Jet fuels, all types. |
| 501900 | Naphtha in containers over 4 ounces; mineral spirits; solvents; and other finished light products. |
| 502700 | Kerosene, except distillate fuel oil (report jet fuel in 501800). |
| 503000 | Gas oil and distillate fuel oil (report heavy diesel fuel oil in 503100). |
| 503100 | Residual fuel oil (including heavy diesel fuel oil) (report light diesel fuel oil in 503000). |
| | Lubricating oils, except hydraulic (report hydraulic oils of petroleum origin in 505900; hydraulic oils, except of petroleum origin in 829084). |
| | Industrial, except cutting oils (report cutting oils in 504095): |
| 503300 | Red and pale oils (including all red or pale lubricating oils, except those intended for use in internal combustion engines) (see 503910 and 504030). |
| 503400 | Black oils (including all black and dark green oils, except those intended for use in steam cylinders, for which see 503510 and 503520). |
| 503510 | Cylinder, bright stock (including bright stock and industrial lubricating oils which are predominantly bright stock and have a Saybolt Universal Viscosity at 210° F. of 95 seconds or more). |
| 503520 | Cylinder, steam-refined stocks (including cylinder stock, steam cylinder oil, gear, and other lubricating oils consisting principally of such stock). |
| 503800 | Insulating or transformer oils. |
| | Industrial engine lubricating oils: |
| 503910 | Diesel engine lubricating oils (report diesel fuel oil in 503000-503100). |
| 503920 | Turbine lubricating oil. |
| 503940 | Other industrial engine lubricating oil (specify by name). |
| 503990 | Industrial lubricating oils, n. e. s. (specify by name). |
| 504005 | Aviation engine lubricating oils. |
| 504030 | Automotive engine lubricating oils. |
| 504050 | Automotive gear oils (specify by kind and grade). |
| 504090 | Lubricating oils, n. e. s., except in containers of 4 ounces or less (specify by name). |
| 504095 | Cutting oils and compounds, petroleum base. |
| 504100 | Lubricating greases, except graphite lubricants (report graphite lubricants in 548098). |
| 504400 | Microcrystalline wax. |
| 504700 | Petroleum asphalt and products. |
| 504800 | Petroleum coke, including petroleum coke flour. |
| 505900 | Petroleum products, n. e. s. (specify by name). |
| 548098 | Graphite greases and lubricants. |

(b) *General License PLANE STORES*—(1) *Scope.* A general license designated PLANE STORES is hereby established authorizing exportation, subject to the conditions set forth in subparagraph (2) of this paragraph on aircraft of foreign registry departing from the United States, of usual and reasonable kinds and quantities of (i) fuel, (ii) deck, engine, and steward department stores, provisions, and supplies, (iii) medicinal and surgical supplies, (iv) food stores, and (v) saloon stores or supplies, for use or consumption during the outgoing trip of such planes and any immediate return trip scheduled, and not intended for unlading in a foreign country and not exported under a bill of lading as cargo; and of usual and reasonable kinds and quantities of equipment and spare parts when necessary for the proper operation of such planes, and not intended for unlading in a foreign country and not exported under a bill of lading as cargo.

(2) *Restrictions on the exportation of petroleum and petroleum products for use on aircraft.* No exportation of petroleum or petroleum products (including those used as fuel) listed in paragraph (a) (3) above may be made under this general license on a foreign aircraft of 12,000 pounds or more gross load departing from the United States, for use on board such aircraft if the aircraft (i) has called at Macao or any point under Far Eastern Communist control during the 180 days immediately preceding the date on which such commodities are to be laden aboard the aircraft, (ii) will call at Macao or any point under Far Eastern Communist control within 30 days after the date such commodities are laden aboard the plane, (iii) will carry within this 30-day period commodities, of any origin, known by the owner, aircraft commander, or agent to be destined directly or indirectly to Macao or any point under Far Eastern Communist control, unless the commodities so carried are covered by an export license issued by the Bureau of Foreign Commerce or any other agency of the United States Government; or (iv) is registered or documented in any Subgroup A country or is controlled by, or under charter to, any Subgroup A country or a national of any Subgroup A country.

(c) *General License CREW.* A general license designated CREW is hereby established authorizing members of crews on exporting carriers [1] to export among their effects usual and reasonable kinds and quantities of wearing apparel, articles of personal adornment, medicinal supplies, toilet articles, food, souvenirs, games, hand tools, and similar personal effects and their containers; provided that such commodities are (1) owned by such crew member; (2) are necessary and appropriate for his use or that of his immediate family; (3) are intended for his use or that of his immediate family; (4) are not intended for sale; and (5) are not exported under a bill of lading as cargo.

(d) *General License REGISTERED CARRIER STORES.* (1) A general license designated REGISTERED CARRIER STORES is hereby established authorizing exportations of certain commodities for use by or on a vessel or plane of United States or Canadian registry located at a port outside the United States or Canada; provided that such commodities are (i) shipped as cargo under a bill of lading on an exporting carrier [1] of United States or Canadian registry; (ii) in usual and reasonable kinds and quantities; (iii) ordered by the person in command of the vessel or plane to which they are consigned, or the owner or agents thereof, and intended to be used or consumed on board such vessel or plane; (iv) not intended for unlading in a foreign country except for transshipment on another carrier of United States or Canadian registry and delivery to the vessel or plane to which they are consigned; and (v) covered by such Shipper's Export Declarations as are required to be filed by § 379.1 (a) (2) of this chapter.

(2) Only commodities described in paragraph (a) of this section may be exported to vessels of United States or Canadian registry located at a port outside the United States or Canada, and only articles described in paragraph (b) of this section may be exported to planes of United States or Canadian registry located outside the United States or Canada.

(3) In addition, commodities may be exported to vessels or planes of United States or Canadian registry located outside the United States or Canada pursuant to the provisions of any other general license applicable to the commodities proposed to be exported and to the country in which the port and ship or plane are located.

NOTE: 1. *Spare parts for vessels of war and aircraft.* The provisions of § 371.13 do not authorize the exportation of any equipment or spare parts for vessels of war or for aircraft which are licensed for export by the Department of State. (See § 370.4 (a) of this chapter.) The provisions of § 371.18 relate only to those commodities under the export control authority of the Department of Commerce.

2. *Validated license requirements.* Proposed exports of all ship and plane stores, supplies and equipment, and all commodities to be exported by a crew member among his effects that are not authorized for export to the country of destination under General License SHIP STORES, REGISTERED CARRIER STORES, PLANE STORES, or CREW, or are not authorized for export under any other general license must be authorized by a validated license in accordance with § 372.3 of this chapter. Whenever a validated license is required for the export of ship stores, supplies, and equipment, license applications shall be prepared as set forth in § 372.7 of this chapter.

3. *Shipper's Export Declaration filing for authentication.* Whenever a shipment is exported under General License SHIP STORES, PLANE STORES, or CREW, a Shipper's Export Declaration need not be filed, despite the provisions of § 379.1 (a) (2) of this chapter. (See § 371.2 (a).) Whenever a validated license is required for the export of commodities, a Shipper's Export Declaration must be filed in accordance with the provisions of § 379.1 (a) (1) of this chapter. Insofar as ship and plane stores, supplies and equipment are concerned, the Shipper's Export Declaration may be executed and filed by the master of the exporting vessel, the commander of the exporting plane, or the owner or agents of such vessel or plane.

4. *Shipper's Export Declaration filing with manifest.* Bureau of Customs regulations provide that whenever any commodities for which Shipper's Export Declarations are required to be filed are to be exported, the person in command of the exporting carrier,[1] or the owner or agents thereof on his behalf, shall deliver to the Collector of Customs at the port of clearance all authenticated Shipper's Export Declarations executed by or presented to such persons for the purpose of facilitating or effecting the exportation of such commodities.

[1] "Exporting carrier" includes any instrumentality of water, land, or air transportation by which an exportation is effected.

§ 371.14 *General License GUS; shipments to members of U. S. armed forces and to representatives of the U. S.* A general license designated GUS is hereby established authorizing exportations as follows:

(a) *To members of the United States Armed Services.* Commodities in quantities sufficient solely for the personal use of the consignees and their immediate families; articles for personal use may include household effects, food, beverages, and daily necessaries.

(b) *To representatives of the United States*—(1) *For personal use.* Exportations for the personal use of the consignee, and/or his immediate family and/or employees; articles for personal use may include household effects, food, beverages, and daily necessaries.

(2) *For office use.* Exportation of equipment and supplies for the office use of the representative or for use by the representative or his employees in the performance of their official duties. Under this general license the following classes of commodities are included: Stationery supplies, typewriters, adding machines, office furniture, and other comparable office equipment; cleaning supplies, mechanical and electrical supplies and other building maintenance supplies; uniforms, motor cars and trucks, and automobile parts; flags, foodstuffs, books, professional and scientific instruments, apparatus and supplies; medicinals, medical supplies and vaccines; photographic equipment, including unexposed film, plates, and paper.

§ 371.15 *General License GLC; exportations of commercial vehicles by private or common carriers.* A general license designated GLC is hereby established authorizing the exportation of trucks, busses, trailers, railroad rolling stock, and other commercial vehicles when operated by private or common carriers between the United States and other countries; provided that such vehicles, except those imported into the United States from a foreign country, shall not be exported for the purpose of resale.

§ 371.16 *General License GTF; goods imported for trade fairs*—(a) *Return to country from which imported.* A general license designated GTF is hereby established authorizing exportation to the country from which imported of commodities which have been entered under bond or which have been permitted temporary free importation under bond providing for their exportation, for exhibition at trade or similar fairs; provided that such commodities are being exported in accordance with the terms of such bonds.

(b) *Export to other destinations.* Commodities described in paragraph (a) of this section which are not excepted from the General License GIT provisions (§ 371.9 (c)) may be exported to destinations other than that from which imported, with the exception of Subgroup A destinations, Hong Kong, and Macao.

§ 371.17 *General License GCC; commodities sold at auction by Bureau of Customs.* A general license designated GCC is hereby established authorizing the exportation to all destinations, except Hong Kong, Macao, and Subgroup A countries, of commodities which are refused entry into the United States and are sold at auction by the Bureau of Customs for export only; provided that a certified custom bill and/or receipt (Form 5117A) is presented to the Collector of Customs at the port of exit or the Postmaster at the place of mailing as evidence of the purchase at such auction.

§ 371.18 *General License GLR; return of certain commodities imported into the United States.* A general license designated GLR is hereby established authorizing exportations described below. When exportations are made under this general license, the entry number and the port of entry covering the importation of the goods into the United States must be shown on the Shipper's Export Declaration.

(a) *Machinery, or parts of machinery.* (1) Machinery, or parts of machinery shipped to the United States for repair purposes may be returned to the country from which sent to the United States, as well as replacement or rebuilt parts which are substituted when the identical parts imported are not returned.

(2) The provisions of this paragraph do not apply to:

(i) Hong Kong, Macao, and Subgroup A destinations; and

(ii) Tools or devices incorporating diamonds, including such tools or devices when shipped as an integral part of a machine.

(b) *Commodities from Republic of Panama.* All articles and materials which have been imported into the Panama Canal Zone from the Republic of Panama for the purpose of being repaired or processed may be returned to the Republic of Panama.

(c) *Containers.* Exportation may be made of metal drums, gas cylinders, bags and other containers (whether manufactured in the United States or a foreign country) which are imported into the United States for the purpose of transporting contained commodities to or from the United States to any destination other than Hong Kong, Macao, or Subgroup A countries, whether such container is exported (1) empty, or (2) filled with any commodity which may be exported under a general license or (3) filled with any commodity for which a validated license has been issued by the Department of Commerce.

(d) *Newsprint cores.* Newsprint cores made of any kind of material, whether imported into the United States separately or as a part of the packing of imported newsprint paper, may be returned to any destination from which imported except Hong Kong, Macao, and Subgroup A countries.

(e) *Commodities failing to conform to specifications or shipped without the consent of the consignee.* A commodity which does not conform to sample or other specifications, or was shipped without the consent of the consignee and is in the same condition it was in when imported into the United States, may be returned under this general license to the country from which it was exported to the United States.

(f) *Exportation of commodities imported under bond for a temporary period.* United States Collectors of Customs are authorized, within their discretion, to clear for export under this general license commodities imported for a temporary period into the United States under bond in compliance with the provisions of the Tariff Act of 1930, as amended (§ 308 and § 201, paragraphs 1607, 1747, 1808, and 1809); provided:

(1) No commodities identified on the Positive List of Commodities (§ 399.1) by the letter "C" in the "Commodity Lists" column are included in an exportation under this general license;

(2) The exportation is not destined to Hong Kong, Macao, or a Subgroup A destination.

(3) The exportation does not include commodities excluded under subparagraph (a) (2) of this section; and

(4) The exporter submits a written statement signed in person by the exporter or his authorized agent, and such other evidence as may be required by the Collector to show that all commodities included in such exportation were imported into the United States and utilized for authorized purposes only in compliance with the terms of the bond and in accordance with the provisions of the Tariff Act of 1930.

(g) *Return of shipments refused entry.* Shipments of commodities refused entry by U. S. Customs, by the Food and Drug Administration, or by other United States Government agencies may be returned under this general license to the country of origin, including Hong Kong, Macao, and Subgroup A countries, except that this paragraph does not authorize the return of any shipment to North Korea, to the Communist-controlled area of Viet Nam, to the Communist-controlled area of Laos, or any shipment which has been refused entry by U. S. Customs because of the Foreign Assets Control Regulations of the Treasury Department unless such return is licensed or otherwise authorized by the Foreign Assets Control.

§ 371.19 *General Licenses GTDP, GTDU, and GTDS; technical data.*

See § 385.2 of this chapter for provisions relating to General Licenses GTDP, GTDU, and GTDS.

§ 371.20 *General License G-PUB; exportation of certain publications*—(a) *Authorization.* A general license designated G-PUB is hereby established authorizing the exportation to all destinations, except to destinations in North Korea, of the publications listed in paragraph (b) of this section; provided that the publications do not contain technical data as defined in § 371.19.

(b) *Publications exportable.* The following commodities are exportable under the authority of General License G-PUB:

| Schedule B No. | Commodity |
|---|---|
| 912120–912400 | Motion picture films, developed. |
| 951000 | Bound educational textbooks. |
| 951100 | Bibles and Testaments. |
| 951210 | Dictionaries and encyclopedias, including yearbooks. |
| 951230 | Literature, fictional and non-fictional. |
| 951290 | Other bound books. |
| 951400 | Unbound books in sheets. |
| 951610 | Catalogs, pamphlets and booklets. |
| 952300 | Music in books and sheets. |
| 955300 | Newspapers, current, except overissue (report noncurrent newspapers [issued prior to 6 months of the time of export] and overissue newspapers under 469803; old newspapers enhanced in value under 961000). |
| 955500 | Periodicals, current, except overissue (report noncurrent periodicals [issued prior to 6 months of the time of export] and overissue periodicals under 469809; old periodicals enhanced in value under 961000). |
| 956000 | Calendars (printed or unprinted). |

§ 371.21 *General License GIFT; shipments of gift parcels*—(a) *Scope of license.* A general license designated GIFT is hereby established authorizing the exportation of gift parcels by mail, including parcel post, and air express, addressed to individuals or to religious, charitable, or educational organizations residing in all destinations except Mainland China (including Manchuria and Tibet), Outer Mongolia, and North Korea; provided that such exportations are made in accordance with the following provisions of this section.

NOTE: 1. *Use of other general licenses.* In the export of gifts, the donor is not restricted to the use of General License GIFT. If the provisions of any other general license, such as GLV or GO, or if any other procedure of the Bureau of Foreign Commerce authorizing the export of commodities applies to the export of the gift, such other license or procedure may be used.

2. *Multiple parcels.* Multiple parcels exported in a single shipment for delivery to individuals residing in a foreign country do not fall within the provisions of this general license. Such shipments, unless authorized by one of the other general licenses set forth in Part 371, must meet validated license requirements, including the submission of a license application in accordance with all of the provisions of the Export Regulations.

(b) *Definition.* The term "gift parcel" as used in this section means a parcel containing commodities to be sent by an individual in the United States (the donor) free of cost to an individual or a religious, charitable, or educational organization in a foreign destination (the donee) for the use of the donee or the donee's immediate family in the case of an individual, and for use by the organization in the case of a religious, charitable, or educational organization.

(c) *Commodity, weight, and other limitations*—(1) *Manner of mailing.* A gift parcel sent under this general license must be mailed directly to the donee by the individual donor, or for such donor by a commercial or other gift-forwarding service or organization. Each gift parcel must show, on the outside wrapper, the name and address of the donor, regardless of whether mailed by him or by a forwarding service.

(2) *Commodity limitations.* Commodities which may be included in each gift parcel under this general license are restricted to those normally sent as gifts, such as food, clothing, toilet articles, and medicinals and pharmaceutical preparations in dosage form. The export of military wearing apparel to Hong Kong, Macao, and Subgroup A destinations under this general license is specifically prohibited, whether or not all distinctive U. S. military insignia, buttons, or other markings are removed.

(3) *Dollar-value limitations.* The combined total domestic retail value of all commodities included in a single parcel shall not exceed $50.00. If such parcel contains any medicinal or pharmaceutical preparations listed below, the total domestic retail value of these commodities shall not exceed $25.00.

(i) Any sulfonamide drugs, for example:

Sulfanilamide (Schedule B No. 813551).
Sulfathiazole and derivatives (Schedule B 813554).
Sulfadiazine and derivatives (Schedule B No. 813558).
Sulfaguanidine (Schedule B No. 813560).

(ii) Any antibiotics (other than tyrothricin, polymixin and neomycin), for example:

Penicillin (Schedule B No. 813566).
Streptomycin (Schedule B No. 813570).
Dihydrostreptomycin (Schedule B No. 813572).
Compounds or mixtures containing antibiotics or sulfonamides (Schedule B No. 813578).

NOTE: The above commodity listing serves only to identify those medicinal and pharmaceutical preparations in dosage form, the shipment of which is restricted to $25 under general license GIFT. Any medicinal or pharmaceutical preparation in dosage form not listed in the above paragraph may be included in a gift parcel up to a dollar value of $50.

(4) *Postal, size, and weight limitations.* Gift parcels sent via parcel post under this general license shall conform with applicable post office regulations as to size, weight, and permissible contents. Gift parcels sent via air cargo or air freight are not limited as to size or weight by the provisions of this general license.

(5) *Other limitations.* Not more than one gift parcel may be sent by the same donor to the same donee in any one calendar week.

(d) *General license designation.* In addition to bearing the name and address of both the donor and the donee, all gift parcels presented for shipment under this general license must have the notation "Gift—Export License Not Required" written on the addressee side of the package and the word "Gift" written on any required customs or Shipper's Export Declarations.

NOTE: 1. The sending of merchandise as gifts is also subject to the import regulations of the receiving country. Many foreign countries permit the entry, duty-free, of gift parcels which conform to regulations regarding contents and marking. To secure this advantage, the sender also should show the words "U. S. A. Gift Parcel" on the addressee side of the package and on any required customs declaration.

2. Senders of gift parcels who wish information regarding the import regulations of a foreign country should write to the nearest regional or district office of the Department of Commerce, or the Director, Office of Economic Affairs, Bureau of Foreign Commerce, Department of Commerce, Washington 25, D. C.

§ 371.22 *General License GHS; goods exported to Hong Kong as trade samples*—(a) *Scope.* A general license designated GHS is hereby established authorizing the exportation of trade samples of non-Positive List commodities to Hong Kong; provided that such exportations are made in accordance with the following provisions of this section. Exportation of commodities under this general license, however, is not to be interpreted as a commitment on the part of the Bureau of Foreign Commerce to permit shipments of similar commodities on a validated license at any subsequent date.

(1) *Commodity limitations.* Commodities which may be shipped as trade samples under this general license are restricted to those non-Positive List items normally sent as samples.

NOTE: 1. Some examples of the types of commodities which may be shipped under General License GHS are: swatches of fabric, raw cotton, and wearing apparel.

2. There are no limitations other than those specified in paragraphs (a) (2) and (3) of this section to the number of samples one exporter may send to the same importer under this general license, as long as each sample is different. Identical items of merchandise may not be considered as different samples, but the same types of merchandise with different individual characteristics are considered different samples even though they may bear the same Schedule B number. For example, with respect to shoes, each style that is materially different and is considered a different sample by the trade, would be considered a different sample for purposes of this section, even though all items come under the same Schedule B number.

(2) *Dollar-value limitations.* The value of all commodities included in a shipment of trade samples shall not exceed twenty-five dollars ($25).

(3) *Other limitations.* This general license may be used only once by the same exporter with respect to shipment of the same kind of sample to the same consignee. The ultimate consignee must be known by the exporter to be a bona fide prospective buyer.

(b) *General license designation.* Shipments under this general license must have the notation "Sample—Export License Not Required" written on the addressee side of the package, and the word "Sample" written on the required Shipper's Export Declaration.

§ 371.23 *General License GHK; shipments of certain commodities to Hong Kong*—(a) *Scope.* A general license designated GHK is hereby established authorizing the exportation to Hong Kong of commodities listed below:

| Schedule B No. | Commodity |
|---|---|
| 001000-011900 | Animals, edible. |
| 002000-004998 | Meat and meat products. |
| 005000-005600 | Animal oil and fats, edible. |
| 006000-006998 | Dairy products. |
| 007000-008990 | Fish and fish products. |
| 009200-009900 | Other edible animal products. |
| | Hides and skins, raw, except furs: |
| 023002-023004 | Sheep skins, dry and wet. |
| 023006-023098 | Lamb skins, dry and wet. |
| 025098 | Other hides and skins, raw, except cattle, calf and kip skins. |
| 030050-035900 | Leather. |
| 060000-069900 | Leather manufactures (except military footwear, 999930). |
| 071300-075900 | Furs and manufactures. |
| | Animal and fish oils and greases, inedible: |
| 084700 | Oleic acid, or red oil. |
| 085898 | Inedible animal greases and fats, n. e. c. |
| 090000-099998 | Other inedible animals and animal products, except sorted, bunched, or prepared bristles (093500). |
| 101100-109900 | Grains and preparations, except starches (103800-103900). |
| 110100-119900 | Fodders and feeds, n. e. c. |
| 120121-125998 | Vegetables and preparations, edible. |
| 130100-135098 | Fruits and preparations. |
| 137400-137995 | Nuts and preparations. |
| 142100-145000 | Vegetable oils, fats, and waxes, refined. |
| 150100-151390 | Cocoa, coffee, tea, and substitutes. |
| 154001-154998 | Spices. |
| | Sugar and related products: |
| 163000 | Glucose, liquid, except pharmaceutical. |
| 163100 | Sirup for table use, and edible molasses. |
| 163200 | Honey. |
| 163400-163500 | Candy. |
| 163510 | Chewing gum. |
| 163600-163700 | Baby foods, confections and desserts. |
| 170100-178000 | Beverages and related products. |
| | Rubber (natural, allied gums, and synthetics) and manufactures: |
| 200300 | Balata, gutta-percha, and other crude allied gums. |
| 201650 | Rubber and rubberized piece goods, fabrics, and sheeting, n. e. c., except of synthetic rubber. |
| 203300-203400 | Rubber boots and shoes, and canvas shoes with rubber soles. |
| 203900 | Rubber and rubberized gloves and mittens, except surgeons' gloves, and gloves and mittens of synthetic rubber. |
| 204100 | Druggists' rubber sundries, the following only: atomizer bulbs; bath sponges; bath sprays; breast pumps; nipple shields; nursers; nursing bottle nipples; nursing bottle teats; pacifiers; sponges; and teething rings. |
| 204300 | Clothing of rubber or rubberized cloth, the following only: aprons; bathing caps; bathing shoes; bathing slippers; bathing suits; bandeuax, ladies; brassieres; bust supporters; capes; corsets; dress shields; girdles; household aprons; infants' aprons and bibs; infants' bloomers, diapers, and pants; reducers; reducing clothing; and sanitary belts. |
| 204610 | Rubber toys, balls, and novelty balloons, except dolls, golf and tennis balls. |
| 205900 | Hard rubber goods, not specially fabricated for particular machines or equipment, except electrical hard rubber goods. |
| 206700 | Solid tires, except truck and industrial. |
| 209410 | Rubber tiling and flooring. |
| 209420 | Rubber mats and matting. |
| 209990 | Natural and synthetic rubber manufactures, n. e. c., not specially fabricated for particular machines or equipment, the following only: artgum erasers; basin plugs; bath plugs; beach bags; buffers; bumpers; caps for millinery racks; chair tips; closet tank balls; concave cushions; cord undershoes, rubber-impregnated; crutch tips; cushions; door bumpers; door weatherstrip, reclaimed rubber; doorstops; ear pads; easles (cord undershoes, rubber-impregnated); elastic bands, stationers'; erasers, including pencil plugs; eye guards; eyelets; grips; gum erasers, of vegetable oils; hand pads; hand stamps; handle grips; hat bags (for hat manufacturing); hoof pads; horseshoe pads; mallets; masks and false faces, except novelty; mat patches; mauls; mud shields; nose clips; paste rollers; pencil plugs; plungers; rubber bands; safety gripper attachments; shoulder pads; shower curtains; sink plugs; skate strap pads (rubber chief value); soap dishes; soap erasers; table tops; tank balls; top lifts for heels; typewriter erasers; weatherstrip; and window weatherstrip, reclaimed rubber. |
| | Naval stores, gums, and resins: |
| 211000-212550 | Naval stores. |
| | Drugs, herbs, leaves, and roots, crude: |
| 220100 | Cascara bark. |
| 220500 | Ginseng. |
| 220988 | Other crude drugs, herbs, leaves and roots, except cinchona bark, pyrethrum (insect flowers), and rotenone-bearing roots. |
| 221000-222098 | Oilseeds. |
| | Vegetable oils, fats, and waxes, crude: |
| 223000-224998 | Vegetable oils (except essential) and fats, crude. |
| 226800-226900 | Peppermint, spearmint and other mint oils, natural. |
| 227110-227150 | Citrus oils, natural. |
| 227098 | Cassia oil, and aniseed oil. |
| 229000 | Vegetable waxes, crude. |
| 246700-247500 | Seeds, except oilseeds, grass and field seeds. |
| 259903-259998 | Nursery and floral stock. |
| 260110-262950 | Tobacco and manufactures. |
| 293100-299998 | Miscellaneous vegetable products, inedible. |
| 300810-301320 | Cotton semimanufactures, except cotton pulp. |
| | Cotton manufactures: |
| 301510-301600 | Sewing thread, crochet, darning, and embroidery cotton. |
| | Unbleached (gray) cloth: |
| 302300-302600 | Cotton duck (canvas). |
| 303110-303910 | Carded goods, except fine carded. |
| 303950 | Combed, part combed and fine carded gray cloth, except airplane cloth, balloon fabric, and mosquito netting. |
| 304000-308950 | Other cotton fabrics, except tire fabrics. |
| 309000-312900 | Cotton wearing apparel. |
| 313200-319900 | Other cotton manufactures, n. e. c. |
| | Vegetable fibers and manufactures: |
| 320505 | Hemp, unmanufactured. |
| 320598 | Other unmanufactured vegetable fibers, except jute, manila or abaca, sisal or henequen. |
| 339935 | Handkerchiefs, linen. |
| 349998 | Vegetable fiber manufactures, n. e. c. (including straw or grass manufactures, and articles of mixed fibers, vegetable fibers chief weight), (excluded cordage, cord, twine, yarns, and other manufactures of jute, flax, and ramie). |
| 360903-360911 | Wool, unmanufactured. |
| 362210-363300 | Wool semimanufactures. |
| 364230-368998 | Wool manufactures. |
| 369070-369900 | Hair and manufactures, n. e. c. |
| 370200-379900 | Silk and manufactures, except parachute cloth (372005). |
| | Man-made (synthetic) fibers and manufactures: |
| 384027 | Glass fibers for weaving, knitting and braiding. |
| 384084-384086 | Rags and clips of rayon or other man-made (synthetic) fibers, and used civilian clothing, including hosiery. |
| 384600-384990 | Broad woven goods, wholly or chiefly of man-made (synthetic) fibers by weight, except parachute cloth. |
| 384992 | Knit fabric in the piece. |
| 384996-385890 | Ribbons and other narrow woven fabrics, except nylon webbing; fringes, trimmings and braids; wearing apparel; and house furnishings. |
| 385900 | Man-made (synthetic) fiber manufactures, n. e. c., except nylon fishing line, unfinished; nylon twine; and nylon rope. |
| | Miscellaneous textile products: |
| 390100-391100 | Linoleum, felt base coverings, and oilcloth for floor, shelf, table, and wall. |
| 391300 | Window-shade cloth (all types). |
| 391410-391420 | Book cloth. |
| 391500-391790 | Coated or impregnated fabrics, except those treated with or containing polytetrafluoroethylene (e. g., Teflon) or monochlorotrifluoroethylene (e. g., Kel-F or CF-3). |
| 391800-399900 | Textile manufactures, n. e. c. |
| 400100-403900 | Wood, unmanufactured, except Port Orford cedar (401700). |
| 405111-415920 | Sawmill products, except Port Orford cedar (405720). |
| | Wood manufactures: |
| 416000-420990 | Wood containers and shooks, cooperage and cooperage stock. |
| 421601-421606 | Veneers. |
| 421740 | Softwood plywood, interior type. |
| 422500 | Shingles. |
| 422620-423990 | Millwork. |
| 424030 | Prefabricated and ready-cut houses, including lumber or plywood components, chief value wood. |
| 424070 | Wood pipe, conduit, vats, tanks, and wood components for cooling towers. |
| 424300-424600 | Furniture and specially fabricated parts, n. e. c., chief value rattan, reed, cane, willow, grass, fiber, wood, or upholstery and wood. |
| 427000 | Shoe lasts. |
| 428500-428900 | Handles (including pulls, knobs, helves, hafts, grips, and backs). |
| 429150 | Pencil slats. |
| 429600 | Used or salvaged building and construction materials of wood, except fuel wood. |
| 429850 | Woodenware. |
| 430000-430800 | Cork and manufactures. |
| 469803-469998 | Paper base stocks, except pulp. |
| | Paper, related products and manufactures: |
| | Paper, except building paper: |
| 480100 | Newsprint (standard and superstandard). |
| 480300-480400 | Groundwood paper, printing and converting. |
| 480600-480700 | Book paper, printing and converting. |
| | Fine paper: |
| 480900 | Writing paper. |
| 481000 | Bristols. |
| 481100 | Cigarette paper on bobbins or in sheets |
| 481300 | Cover paper. |
| 481650-482200 | Coarse paper. |
| 482950-483000 | Tissue paper. |
| 483100 | Absorbent paper and products, n. e. c. |
| 483300-484750 | Paperboard and building paper. |
| 484900 | Flexible wood and vegetable fiber thermal insulation. |
| 485100-489600 | Converted paper and board products, except bags under 487150 of any size and shape made of film, foil or plastic, for use as primary containers for packaging less than 25 pounds of any commodity, or bags used as liners for other containers irrespective of capacity. |
| 489900 | Art corners, albums and paper tags only. |
| 500100-500300 | Coal and related fuels, except coke (500400) and charcoal (500500). |

| Schedule B No. | Commodity |
|---|---|
| | Stone, hydraulic cement and lime: |
| 510100-512700 | Building and monumental stone, and manufactures. |
| 516400 | Standard Portland cement. |
| 517000 | Concrete and cement manufactures. |
| 517100 | Lime. |
| | Glass and products: |
| | Flat glass: |
| 521210-521510 | Plate glass, and sheet and window glass, except colored and laminated. |
| 521800-523098 | Flat glass and products, n. e. c., except laminated glass and manufactures |
| 523150 | Glass bricks and blocks. |
| 523210-523600 | Unfilled glass containers, new and used. |
| 523710-524018 | Table and kitchen glassware. |
| 525500-526100 | Lamp chimneys, lantern globes, and globes and shades for lighting fixtures. |
| | Clay and products: |
| 530907-530912 | Clays, except fire clay. |
| | Pottery: |
| 532010-532050 | Table and kitchen articles and utensils for use in cooling, preparing, serving and storing food and drink. |
| 533210-533400 | Sanitary articles. |
| 533800 | Other pottery, except chemical and industrial. |
| 536900-537600 | Structural clay products (except pottery and refractories). |
| | Other nonmetallic minerals (precious included): |
| | Abrasives: |
| 540600 | Grindstones and pulpstones, natural. |
| 541200 | Pulpstones of manufactured abrasives |
| 546000 | Asphalt tiles. |
| 547100 | Manufactures of natural asphalt and bitumen. |
| 548350-548700 | Gypsum and manufactures. |
| 549010 | Rock wool, glass wool and other semirigid and "Fill" mineral insulating materials, n. e. c. |
| 572400 | Salt, crude and refined. |
| 573600 | Magnesium silicate. |
| 596033 | Gravel. |
| 596035-596037 | Stone, crushed, ground, or broken |
| 596098 | Other non-metallic mineral products, the following only: agate articles, except jewelry; agates; blast furnace slag; carbon clinkers; cinders; crude chalk, except precipitated; crude vermiculite; dantore plaster aggregate; feldspar; firestone; fluxing stone; glaze frits; glazing stones; ground coal (sea coal); lava, unmanufactured; meerschaum, imitation and natural, unmanufactured; obsidianite; sea coal; slag, except basic; stucco; Supercel filter powder; and volcanic ash and earth. |
| 599098 | Precious, semiprecious, synthetic, and imitation stones, except diamonds, jewel bearings, rubies (genuine and synthetic), sapphires (genuine and synthetic), and diamond bearings. |
| | Metal manufactures: |
| 611200-611890 | Cutlery and parts (other than table flatware) except machine knives and blades (611820). |
| | Table flatware and specially fabricated parts, n. e. c.: |
| 611920 | Silver-plated. |
| 611940-611950 | Metals, except precious. |
| | Hollow ware, n. e. c., solid or plated, and specially fabricated parts, n. e. c.: |
| 611990 | Metals, except precious. |
| 612010-612355 | Cooking and kitchen utensils, and specially fabricated parts, n. e. c. |
| 612358 | Kitchen appliances and tools, hand-operated, and specially fabricated parts, n. e. c. |
| 612360 | Vitreous enameled products, n. e. c., and specially fabricated parts, n. e. c. |
| 612370 | Tinware and other sheet metal ware, n. e. c. (including galvanized), and specially fabricated parts, n. e. c. |
| 612910-613010 | Metal partitions, shelving, lockers, cases, cabinets, counters, and other fixtures, n. e. c., and specially fabricated parts, n. e. c. |
| 613110-613590 | Metal office equipment. |
| 613610-613650 | Metal household furniture, and specially fabricated parts, n. e. c. |
| 614310-614340 | Domestic cooking stoves and ranges. |
| | Hardware: |
| 617010-618110 | Locks (all metals). |
| 618150 | Hinges and butts (all metals). |
| 618210 | Iron and steel wood screws. |
| 618261 | Iron and steel bolts, screws, nuts, rivets, and washers, n. e. c., not especially fabricated for particular machines or equipment. |
| 618267 | Iron and steel wire nails, staples, and spikes, except wire boat spikes. |
| 618271 | Iron and steel nails, staples, and spikes (other than wire), except boat spikes. |
| 618300 | Iron and steel builders' hardware, n. e. c., and specially fabricated parts, n. e. c. |
| 618410-618460 | Furniture hardware, and specially fabricated parts, n. e. c. |
| 618800-618840 | Hardware, n. e. c., all metals, except copper-base alloys (618830). |
| 618851-618859 | Metal plumbing fixtures and fittings and fittings, and specially fabricated parts, n. e. c. |
| | Construction materials: |
| 618983-618985 | Sash, sections, and frames, door and window. |
| 618991-618993 | Venetian blinds (including slats and strip), and specially fabricated parts, n. e. c. |
| | Wire products, n. e. c.: |
| 619061 | Picture cord only, iron and steel, except stainless steel. |
| 619065 | Picture cord only, iron and steel, except stainless steel. |
| 619069 | Other wire products, n. e. c., not specially fabricated for particular machines and equipment, the following only: fasteners for paper milk bottle caps; grating with wire center, steel; metal mesh, except reinforcing; needleboard pressboards; welded mesh, except reinforcing; wire baskets, including wire locker baskets with hanger guide attachment assembly; wire-cloth sieves; wire insulators for conveyor belting; wire inserts for upholstery webbing; wire nets, finished; wire rope clamps; and helically coiled wire inserts. |
| | Metal manufactures—Continued |
| 619861-619865 | Metal signs, except electric. |
| 695910 | Silver-plated manufactures, n. e. c. |
| | Electrical machinery and apparatus: |
| 705715 | Electric household type refrigerators. |
| 706100 | Electric free air circulating fans. |
| 706812-706820 | Electric household laundry equipment. |
| 706910-707050 | Electric household motor-driven appliances, n. e. c. except freezers, 705725, and specially fabricated parts, n. e. c. |
| 707100 | Electric flatirons. |
| 707200-707380 | Electric household cooking and heating appliances and utensils, n. e. c., and specially fabricated parts, n. e. c. |
| 707395 | Electric commercial cooking and food service equipment, n. e. c., and specially fabricated parts, n. e. c. |
| 709998 | Parts, n. e. c., specially fabricated for electric free air circulating fans. |
| | Construction, excavating, mining, and related machinery: |
| 722045 | Clay spades and water sprinkler tanks. |
| 723110 | Overhead hoists (pendant type). |
| 724950 | Elevators and moving stairways, n. e. c., and specially fabricated parts, n. e. c. |
| | Other industrial machines, and parts: |
| 760020 | Bakery machines, n. e. c., and specially fabricated parts, n. e. c. |
| 761100 | Sugar-mill machines, n. e. c., and specially fabricated parts, n. e. c. |
| 761250 | Cannery machines, n. e. c., and specially fabricated parts, n. e. c., except piping made of or lined with any corrosion-resistant materials. |
| 761310-761320 | Bottling, bottle-washing, and bottle-labeling machines, and specially fabricated parts, n. e. c. |
| 761510 | Meat and other food cutting, chopping and slicing, power-driven machines, n. e. c., and specially fabricated parts, n. e. c. |
| 762000 | Cigarette and cigar-making, and tobacco processing machines, n. e. c., and specially fabricated parts, n. e. c. |
| 762700-762810 | Paper-converting machines, and specially fabricated parts, n. e. c. |
| | Air conditioning and refrigerating equipment, n. e. c., and parts, n. e. c.: |
| 765050 | Ice-making machines, n. e. c., and specially fabricated parts and accessories, n. e. c. |
| 765610 | Self-contained commercial type refrigerators and freezers, n. e. c., except blood, bone, and tissue bank freezers, and deepfreeze storage cabinets. |
| 765910 | Commercial type refrigerators and freezers (other than self-contained), n. e. c., except refrigerating systems for trucks and railway cars. |
| 766050 | Parts, n. e. c., specially fabricated for replacement only in air-conditioning and refrigeration equipment specified on this list under Schedule B Nos. 765050, 765610, and 765910. |
| | Pumping equipment, n. e. c.: |
| 770960 | Hand pumps, n. e. c., and windmill pumps. |
| 770970 | Self-contained household water systems (with or without tanks). |
| 770975 | Service station pumps only. |
| 773810-773850 | Commercial laundry and dry cleaning equipment (including power-driven machines) and parts. Scales and balances, except industrial and commercial, and specially fabricated parts, except lead scale weights. |
| 774340-774370 | Office machines, and parts: |
| 776400-776700 | Cash registers, and specially fabricated parts. |
| 777000-777420 | Typewriters, standard and portable, new, used and rebuilt. |
| 777500 | Parts and accessories, n. e. c., specially fabricated for typewriters. |
| 777710 | Staplers, for office use. |
| 777925 | Check-handling machines, and specially fabricated parts, n. e. c. |
| 777990 | Office machines, n. e. c., and specially fabricated parts, n. e. c. |
| | Other vehicles and parts: |
| 797100-797105 | Bicycles, and specially fabricated parts and accessories, n. e. c. |
| 797130 | Farm wagons, drays, and trailers. |
| 799996 | Vehicles, n. e. c., and specially fabricated parts, n. e. c., except logging wagons, motor scooters, sno-cats, and sno-cat trailers. |
| | Coal-tar products: |
| 805909 | Coal-tar dyes and stains, n. e. c., the following only, in small packages of 2 ounces or less: dye tablets; easter egg colors; except of vegetable origin; food coloring, except of vegetable origin; hair tints and dyes; and household tints and dyes. |
| | Medicinal and pharmaceutical preparations: |
| 811100 | Castor oil, medicinal grade, in 10 oz. containers or less. |
| 813520 | Menthol, bulk. |
| 814800 | Mouth washes, gargles, and personal antiseptics. |
| 814900 | Corn and foot remedies. |
| 815000 | Plasters. |
| 815100 | Liniments. |
| 816100 | Laxatives, purgatives, and cathartics. |
| 816200 | Milk of magnesia. |
| 816500 | Antacids and digestive preparations. |
| | Chemical specialties: |
| 820600 | Household and industrial insecticides, fungicides, exterminators, and repellents, liquid, paste, powder or solid form, except aerosol bombs; bug bombs; moth balls; and naphthalene balls and flakes in packages exceeding 5 pounds. |
| 820900 | Household and industrial disinfectants, deodorants, germicides and similar preparations, n. e. c. |
| 823000 | Baking powder. |
| 823850 | Textile specialty compounds, the following only: textile oil; and yarn conditioning liquids. |
| 827000 | Regenerated cellulose, including printed (except rayon), in rolls, and sheets. |
| 827400 | Cementing preparations for repairing, sealing, and adhesive use, the following only: automobile top sealer; concrete floor patch; floor cement; linoleum cement, except rubber; linoleum paste, except rubber; roofing cement; and running board cement. |

| Schedule B No. | Commodity |
|---|---|
| | Chemical specialties—Continued |
| 828870 | Deterrents, all types. |
| 828950 | Specialty cleaning and washing compounds, n. e. c., except rifle cleaning compounds. |
| | Polishes: |
| 829000 | Metal and stove polishes. |
| 829100 | Shoe polishes and shoe cleaners. |
| 829200 | Leather dressings, the following only: auto top dressing; belt dressing; and shoe dressing. |
| 829300 | Floor wax, wood and furniture polishes. |
| 829400 | Automobile polishes. |
| 829510 | Synthetic essential oils. |
| 829530 | Aromatic chemicals of synthetic origin. |
| 829540 | Aromatic compounds containing natural and/or synthetic essential oils and/or aromatic chemicals of natural and synthetic origin for perfumery use. |
| 829555–829595 | Flavors and flavoring extracts, natural and synthetic. |
| 829600 | Pectin and preparations. |
| 829650 | Licorice extract and mass. |
| 829990 | Chemical specialty compounds, n. e. c., the following only: brewers' finings; chemical compounds for manufacturing ice cream; chill proofing compound; clarifier for beer or ale; clarifying powder, for wines; denatured alcohol, solidified; hat finishing powder; ink eradicators; laundry sour; lipstick bases; lipstick waxes; marble polish; meat curing compound; platinum plating solutions; rosin size; shaving cream base, concentrated; silk-stocking savers, in tablet form; silver and platinum liquids for decorating china and glass; and yeast food (dough conditioner). |
| 831510 | Industrial chemicals (exclusive of medicinal chemicals, U. S. P. and N. F.): |
| | Ethyl alcohol. |
| 835000 | Cream of tartar (synthetic included). |
| 836700 | Sodium bicarbonate or baking soda. |
| 839730 | Hydrogen peroxide or dioxide, 5 percent solution or less. |
| | Pigments, paints and varnishes: |
| 840100 | Iron oxide pigments, dry, synthetic and natural (mineral earth pigments). |
| 840500 | Extender pigments, dry, the following only: barytes, ground; calcium sulfate; and gypsum, ground. |
| 843000 | Bituminous coatings, liquid and plastic. |
| 843110 | Artists' colors. |
| 843190 | Paste and semipaste paint colors in oil, putty and paste wood fillers, n. e. c., except antifouling types (including all those containing cuprous oxide), and those containing polytetrafluoroethylene (e. g., Teflon), polytrifluorochloroethylene (e. g., Kel-F) and silicones. |
| 843210–843250 | Water thinned paints (all types). |
| 843310 | Lacquers, aluminum, silver, gold, and pearl. |
| 843800 | Ready-mixed paints, stains, and enamels, except fluorescent ready-mixed paints, stains, and enamels; and except antifouling types (including all those containing cuprous oxide), and those containing polytetrafluoroethylene (e. g., Teflon), polytrifluorochloroethylene and silicones. |
| 844210 | Varnishes (oil or spirit), natural or synthetic, n. e. c., except antifouling types (including all those containing cuprous oxide), and those containing polytetrafluoroethylene (e. g., Teflon), polytrifluorochloroethylene, and silicones. |
| 857000–857500 | Soil improvement materials. |
| 871100–877000 | Soap and toilet preparations. |
| | Photographic and projection goods: |
| 900150 | Cameras, motion picture, substandard gauge, 8 mm. |
| 900860 | Projectors, motion picture, silent, substandard gauge, 8 mm. |
| | Motion-picture films, exposed or developed: |
| | Negative: |
| 912170 | Newsreels. |
| 912180 | Trailers, inserts, and replacements. |
| 912190 | Negative 8 mm film. |
| 912200 | Sound track. |
| 912320–912400 | Positive. |
| 912700 | Dry plates. |
| 914000 | Photographic and projection goods, n. e. c., and specially fabricated parts, n. e. c., the following only: albums; analyzers; backgrounds, photographic; cable releases; carrying cases, for cameras and similar outfits; Cesco trays; Craig Fotofade sets; cutting boards; developing, printing, fixing, or washing tanks, trays, and machines; developing tongs; dies and punches; dry mounting presses; embossers and embossing equipment; flash synchronizers; flashing powder; hangers; Illustravox Salesmaker parts; lamp holders; lantern slides; luxometers; magic lantern parts; Mutoscope parts; photobaths, glass; photo blotters; photo scales (enlarger part); photographic mounts; print rollers; printing frames and masks; screens; shading machines; slide film prints (silent films only); squeegees; sun shades; timers; and top sheet film craftint. |
| | Scientific and professional instruments, apparatus and supplies, n. e. c.: |
| 914200–914380 | Sun glasses, sun goggles, ophthalmic spectacles, ophthalmic lenses, and specially fabricated parts, n. e. c. |
| 914998 | Optical goods, n. e. c., and specially fabricated parts, n. e. c., the following only: binocular cases; binocular loupes; cases for opera glasses; folding magnifiers; linen testers, optical; magnifying glasses; monoculars; reading glasses; spectacle cases of all materials; stereoscopes; and View-Masters. |
| 915200 | Teeth, dentures, and bridges. |
| 915550 | Dental office and laboratory equipment, n. e. c., and specially fabricated parts, n. e. c., the following only: bench equipment; bracket tables; cabinets; casting machines; chairs; compound heaters; control panels; cuspidors, and cuspidor bowls; denture trimmers; grinders; investment mixers; investment scales; laboratory spatulas; lights and light adapters; mats; presses; processing equipment; sand blasters; surveyors; syringes; tampers; tongs; units; vibrators; waste receivers; water heaters. |

| Schedule B No. | Commodity |
|---|---|
| 921100–929700 | Musical instruments, parts, and accessories, except electric and electronic organs (923100), and phonographs and parts (923500–923900). |
| 930310–939900 | Miscellaneous office supplies, except fountain and ball-type pen parts containing iridium or ruthenium. |
| 940000–944900 | Toys, athletic and sporting goods. |
| 951000–956900 | Books, maps, pictures and other printed matter, n.e.c., except photographs and blueprints (955000) and technical data. |
| | Miscellaneous commodities, n. e. c.: |
| 957100 | 1-day alarm clocks. |
| 958000–958950 | Watches, watch movements, and specially fabricated parts, n. e. c. |
| 961000 | Paintings, etchings, engravings, statuary (except religious) and antiques. |
| 962100–962900 | Jewelry and other personal ornaments, all materials, except solid gold, platinum and platinum allied metals. |
| 963500 | Jewelry findings, and specially fabricated parts, n. e. c. |
| 968005–968009 | Bottle and container closures (including secondary closures, and crown caps), accessories, and specially fabricated parts, n. e. c. |
| 971100–971300 | Buttons and parts. |
| 979200–979900 | Lamps and illuminating devices, and parts, except incandescent mantles and electric lamps. |
| 980000 | Matches. |
| 981510 | Plastic kitchen and tableware. |
| 981580 | Manufactured plastic products, n. e. c., not specially fabricated for particular machines or equipment, except all manufactures of polytetrafluoroethylene (e. g., Teflon) and polytrifluorochloroethylene, the following only: cigar ribbons; containers for household use (soap dishes, etc.); display equipment (forms, boxes, stands, frames); draperies and curtains (not firm, woven); garment bags (not requiring cutting or further manufacture for use); hand-mirrors; manicure sets; mats; table cloths (cut to size); trimmings for handbags; venetian blinds, including slats and tapes; baby pants, aprons, bibs, or other indoor type wearing apparel (excluding raincoats). |
| 982110 | Synthetic sponges. |
| 982120 | Natural sponges, animal. |
| 982200–982691 | Brushes. |
| 982695 | Brooms. |
| 982700 | Combs, except wholly of rubber. |
| 982800–982900 | Smokers' articles, n. e. c., and specially fabricated parts, n. e. c. |
| 983100–983150 | Umbrellas and parasols, and specially fabricated parts, n. e. c. |
| 983300 | Candles, except pyrotechnic. |
| 983500 | Religious articles, n. e. c., and specially fabricated parts, n. e. c. |
| 984005 | Beads and bead articles, n. e. c. |
| 984008 | Snap fasteners. |
| 984015 | Zippers (including slide fasteners), and specially fabricated parts, n. e. c. |
| 984098 | Notions, novelties, specialties, and specially fabricated parts, n. e. c. |
| 984200 | Ice refrigerators, household and commercial types. |
| 984600 | Soda fountain and bar equipment, and specially fabricated parts, n. e. c. |
| 984700 | Barber and beauty shop equipment, n. e. c., and specially fabricated parts, n. e. c. |
| 985300 | Shoe findings, n. e. c. |
| 987100–987200 | Coin-operated machines, n. e. c. |
| 999810–999890 | Commodities exported for relief or charity by individuals and private agencies: only those commodities which can be exported commercially under their own individual Schedule B numbers within the provisions of General License GHK. |
| 999910 | General merchandise valued at less than $25: only those commodities which are exportable in quantities valued at $25 or over under their own individual Schedule B numbers within the provisions of General License GHK. |

(b) *Government surplus agricultural commodities.* See § 373.5 (b) of this subchapter for exportation of agricultural commodities acquired directly or indirectly as a result of a sale for export amounting to $100,000 or more by the Commodity Credit Corporation (CCC), either in the form acquired or in processed form.

§ 371.24 *General license GLSA; Shipments of certain commodities to specified Subgroup A destinations.* A general license designated GLSA is hereby established authorizing the exportation of the commodities listed below to the following destinations: Albania, Bulgaria, Czechoslovakia, East Germany (Soviet Zone of Germany and the Soviet Sector of Berlin), Estonia, Hungary, Latvia, Lithuania, Outer Mongolia, Poland and Danzig, Rumania, and the Union of Soviet Socialist Republics except the maritime province of the Union of Soviet Socialist Republics.[2]

[2] Shipments under General License GLSA are not permitted to move in transit via any Subgroup A destination other than those listed in this section.

| Schedule B No. | Commodity |
|---|---|
| 001000–001990 | Animals, edible. |
| 002000–004998 | Meat and meat products. |
| 005000–005600 | Animal oil and fats, edible. |
| 007000–008990 | Fish and fish products. |
| 009200–009900 | Other edible animal products. |
| | Hides and skins, raw, except furs: |
| 023002–023004 | Sheep skins, dry and wet. |
| 023006–023008 | Lamb skins, dry and wet. |
| 025098 | Other hides and skins, raw, except cattle, calf and kip skins. |
| 030050–035900 | Leather. |
| 060000–069900 | Leather manufactures, except military footwear (99930). |
| 071300–075900 | Furs and manufactures. |
| | Animal and fish oils and greases, inedible: |
| 084700 | Oleic acid, or red oil. |
| 085898 | Inedible animal greases and fats, n. e. c. |
| 090000–099950 | Other inedible animals and animal products, except sorted, bunched, or prepared bristles (093500). |
| 137400–137995 | Nuts and preparations, except peanuts shelled and not shelled (137510–137550). |
| 150100–151390 | Cocoa, coffee, tea, and substitutes. |
| 154901–154998 | Spices. |
| | Sugar and related products: |
| 163000 | Glucose, liquid, except pharmaceutical. |
| 163100 | Sirup for table use, and edible molasses. |
| 163400–163500 | Candy. |
| 163510 | Chewing gum. |
| 163600–163700 | Baby foods, confections and desserts. |
| 170100–178000 | Beverages and related products. |
| | Rubber (natural, allied gums, and synthetics) and manufactures: |
| 201650 | Rubber and rubberized piece goods, fabrics and sheeting, n. e. c., except made of or employing synthetic rubber. |
| 203300–203400 | Rubber boots and shoes, and canvas shoes with rubber soles. |
| 204100 | Druggists' rubber sundries, the following only: atomizer bulbs; bath sponges; bath sprays; breast pumps; nipple shields; nursers; nursing bottle nipples; nursing bottle teats; pacifiers; sponges and teething rings. |
| 204300 | Clothing of rubber or rubberized cloth, the following only: aprons; bathing caps; bathing shoes; bathing slippers; bathing suits; bandeaux, ladies; brassieres; bust supporters; capes; corsets; dress shields; girdles; household aprons; infants' aprons, and bibs; infants' bloomers, diapers, and pants; reducers; reducing clothing; and sanitary belts. |
| 204610 | Rubber toys, balls, and novelty balloons, except dolls, golf and tennis balls (report dolls in 940000; golf balls in 943300, and tennis balls in 943400). |
| 205900 | Hard rubber goods, not specially fabricated for particular machines or equipment, except electrical hard rubber goods. |
| 206700 | Solid tires, except truck and industrial. |
| 209410 | Rubber tiling and flooring. |
| 209420 | Rubber mats and matting. |
| 209990 | Natural and synthetic rubber manufactures, n. e. c., not specially fabricated for particular machines or equipment, the following only: artgum erasers; basin plugs; bath plugs; beach bags; buffers; bumpers; caps for millinery racks; chair tips; closet tank balls; concave cushions; cord undershoes, rubber-impregnated; crutch tips; cushions; door bumpers; door weatherstrip; door-stops; ear pads; easles (cord undershoes, rubber-impregnated); elastic bands, stationers'; erasers, including pencil plugs; eye guards; eyelets; grips; gum erasers, of vegetable oils; hand pads; hand stamps; handle grips; hat bags (for hat manufacturing); hoof pads; horseshoe pads; mallets; masks and false faces, except novelty; mat patches; mauls; mud shields; nose clips; paste rollers; pencil plugs; plungers; rubber bands; safety gripper attachments; shoulder pads; shower curtains; sink plugs; skate strap pads (rubber chief value); soap dishes; soap erasers; table tops; tank balls; top lifts for heels; typewriter erasers; weatherstrip; and window weatherstrip. |
| | Drugs, herbs, leaves, and roots, crude: |
| 220100 | Cascara bark. |
| 220988 | Other crude drugs, herbs, leaves and roots, except cinchona bark, pyrethrum (insect flowers), and rotenone-bearing roots. |
| | Vegetable oils, fats, and waxes, crude: |
| 226800–226900 | Peppermint, spearmint and other mint oils, natural. |
| 227110–227150 | Citrus oils, natural. |
| 227998 | Cassia oil, and aniseed oil. |
| 229000 | Vegetable waxes, crude. |
| 259903–259998 | Nursery and floral stock. |
| | Vegetable fibers and manufactures: |
| 320505 | Hemp, unmanufactured. |
| 320598 | Other unmanufactured vegetable fibers, except jute, manila or abaca, sisal or henequen. |
| 339935 | Handkerchiefs, linen. |
| 349998 | Vegetable fiber manufactures, n. e. c. (including straw or grass manufactures, and articles of mixed fibers, vegetable fibers chief weight) (excludes cordage, cord twine, yarns, and other manufactures of jute, flax, and ramie). |
| 369070–369900 | Hair and manufactures, n. e. c. |
| 370200–379900 | Silk and manufactures, except parachute cloth (372005). |
| | Man-made (synthetic) fibers and manufactures: |
| 384084–384086 | Rags and clips of rayon or other man-made (synthetic) fibers, and used civilian clothing, including hosiery. |
| 384600–384990 | Broad woven goods, wholly or chiefly of man-made (synthetic) fibers by weight, except parachute cloth. |
| 384992 | Knit fabric in the piece. |

| Schedule B No. | Commodity |
|---|---|
| | Man-made (synthetic) fibers and manufactures—Continued |
| 384996–385890 | Ribbons and other narrow woven fabrics, except nylon webbing; fringes, trimmings and braids; wearing apparel; and house furnishings. |
| 385900 | Man-made (synthetic) fiber manufactures, n. e. c., except nylon fishing line, unfinished; nylon twine; and nylon rope. |
| | Miscellaneous textile products: |
| 390100–391100 | Linoleum, felt base covering, and oilcloth for floor, shelf, table, and wall. |
| 391300 | Window-shade cloth (all types). |
| 391410–391420 | Book cloth. |
| 391500–391790 | Coated or impregnated fabrics, except those treated with or containing polytetrafluoroethylene (e. g., Teflon) or monochlorotrifluoroethylene. |
| 391800–399900 | Textile manufactures, n. e. c. |
| 400100–403900 | Wood, unmanufactured, except Port Orford cedar (401700). |
| 405111–415920 | Sawmill products, except Port Orford cedar (405720). |
| | Wood manufactures: |
| 416000–420990 | Wood containers and shooks, cooperage and cooperage stock. |
| 421601–421609 | Veneers. |
| 421740 | Softwood plywood, interior type. |
| 422500 | Shingles. |
| 422620–423990 | Millwork. |
| 424070 | Wood pipe, conduit, vats, tanks, and wood components for cooling towers. |
| 424300–424600 | Furniture and specially fabricated parts, n. e. c., chief value rattan, reed, cane, willow, grass, fiber, wood, or upholstery and wood. |
| 427000 | Shoe lasts. |
| 428500–429000 | Handles (including pulls, knobs, helves, hafts, grips and backs). |
| 429150 | Pencil slats. |
| 429600 | Used or salvaged building and construction materials of wood, except fuel wood. |
| 429850 | Woodenware. |
| 430000–430800 | Cork and manufactures. |
| 469803–469998 | Paper base stocks, except pulp. |
| | Paper, related products and manufactures: |
| | Paper, except building paper: |
| 480300–480400 | Groundwood paper, printing and converting. |
| 480600–480700 | Book paper, printing and converting. |
| | Fine paper: |
| 480900 | Writing paper. |
| 481000 | Bristols. |
| 481100 | Cigarette paper on bobbins or in sheets. |
| 481300 | Cover paper. |
| 481650–482200 | Coarse paper. |
| 482950–483000 | Tissue paper. |
| 483100 | Absorbent paper and products, n. e. c. |
| 483300–484750 | Paperboard and building paper. |
| 484900 | Flexible wood and vegetable fiber thermal insulation. |
| 489900 | Art corners, albums and paper tags only. |
| 500100–500300 | Coal and related fuels, except coke (500400) and charcoal (500500). |
| | Stone, hydraulic cement and lime: |
| 510100–512700 | Building and monumental stone, and manufactures. |
| 516400 | Standard Portland cement. |
| 517000 | Concrete and cement manufactures. |
| 517100 | Lime. |
| | Glass and products: |
| | Flat glass: |
| 521210–521510 | Plate glass, and sheet and window glass, except colored and laminated. |
| 521800–523098 | Flat glass and products, n. e. c., except laminated glass and manufactures. |
| 523150 | Glass bricks and blocks. |
| 523210–523600 | Unfilled glass containers, new and used. |
| 523710–524018 | Table and kitchen glassware. |
| 525500–526100 | Lamp chimneys, lantern globes, and globes and shades for lighting fixtures. |
| | Clay and products: |
| 530907–530912 | Clays, except fire clay. |
| | Pottery: |
| 532010–532050 | Table and kitchen articles and utensils for use in cooking, preparing, serving and storing food and drink. |
| 533210–533400 | Sanitary articles. |
| 533800 | Other pottery, except chemical and industrial. |
| 536900–537600 | Structural clay products (except pottery and refractories). |
| | Other nonmetallic minerals (precious included): |
| | Abrasives: |
| 540600 | Grindstones and pulpstones, natural. |
| 541220 | Pulpstones of manufactured abrasives. |
| 546000 | Asphalt tiles. |
| 547100 | Manufactures of natural asphalt and bitumen. |
| 548350–548700 | Gypsum and manufactures. |
| 549010 | Rock wool and other semi-rigid and "Fill" mineral insulating materials, n. e. c., except glass fiber and glass fiber products. |
| 572400 | Salt, crude and refined. |
| 596033 | Gravel. |
| 596035–596037 | Stone, crushed, ground, or broken. |

| Schedule B No. | Commodity |
|---|---|
| | Coal-tar products: |
| 505000 | Coal-tar dyes and stains, n. e. c., the following only, in packages of 2 ounces or less: dye tablets; Easter egg colors, except of vegetable origin; food coloring except of vegetable origin; hair tints and dyes; and household tints and dyes. |
| | Medicinal and pharmaceutical preparations: |
| 811100 | Medicinal preparations, ethical grade, in 16 ounces containers or less. |
| 814800 | Mouth washes, gargles and sun personal antiseptics. |
| 814900 | Corn and foot remedies. |
| 815000 | Plasters. |
| 815100 | Liniments. |
| 815200 | Laxatives, purgatives and cathartics. |
| 815300 | Milk of magnesia. |
| 815500 | Antacids and digestive preparations. |
| | Chemical specialties: |
| 823000 | Baking powder. |
| 823850 | Textile specialty compounds, the following only: textile oil; and yarn conditioning liquids. |
| 827000 | Regenerated cellulose, including printed (except rayon), in rolls, and sheets. |
| 827400 | Cementing preparations for repairing, sealing, and adhesive use, the following only: automobile or motorcycle tire repair materials; concrete floor patch; floor cement; linoleum cement, except rubber; linoleum paste, except rubber; roofing cement; and running board cement. |
| 820000 | Metal and stove polishes. |
| 822100 | Shoe polishes and shoe cleaners. |
| 822300 | Leather dressings, the following only: auto top dressing; belt dressing; and shoe dressing. |
| 823940 | Floorwax, wood and furniture polishes. |
| 829310 | Anti-corrosive solutions. |
| 829530 | Synthetic essential oils. |
| 829540 | Aromatic chemicals of synthetic origin. |
| | Aromatic compounds containing natural and/or synthetic essential oils and/or aromatic chemicals of natural and synthetic origin for perfumery use. |
| 829555–829595 | Flavors and flavoring extracts, natural and synthetic. |
| 829600 | Perfumes and toilet waters. |
| 829650 | Licorice and its preparations. |
| 829990 | Chemical specialty compounds, n. e. c., the following only: brewers' finings; chemical compounds, for manufacturing ice cream; chill proofing compounds; clarifier for beverages; clarifying powder, for wines; denatured alcohol, solidified; hat finishing powder; ink eradicating fluid; leather dressing; lipstick bases; lipstick waxes; marble polish; meat curing compound; platinum plating solution; resin size; shaving cream base, concentrated; silk stocking savers, in tablet form; silver polish; soldering fluxes for decorating china and glass; and yeast food (dough conditioner). |
| | Industrial chemicals (except medicinal chemicals, USP and NF): |
| 835900 | Cream of tartar (synthetic included). |
| 836700 | Sodium bicarbonate or baking soda. |
| 839730 | Hydrogen peroxide or dioxide, 5 percent solution or less. |
| | Pigments, paints and varnishes: |
| 840100 | Iron oxide pigments, dry, synthetic and natural (mineral earth pigments). |
| 840800 | Extender pigments, dry, the following only: barytes, ground; calcium sulfate; and gypsum, ground. |
| 843000 | Bituminous coatings, liquid and plastic. |
| 843110 | Artists' colors. |
| 843190 | Paste and semipaste paint colors in oil, putty and paste wood fillers, n. e. c., except antifouling types (including all those containing cuprous oxide), and those containing polytetrafluoroethylene (e. g., Teflon); polytrifluorochloroethylene and silicones. |
| 843210–843280 | Water thinned paints, n. e. c. |
| 843310 | Lacquers, aluminum, silver, gold and pearl. |
| 843800 | Ready-mixed paints, stains, and enamels, except fluorescent ready-mixed paints, stains and enamels; and except antifouling types (including all those containing cuprous oxide), and those containing polytetrafluoroethylene (e. g., Teflon) polytrifluorochloroethylene and silicones. |
| 844210 | Varnishes (oil or spirit), natural or synthetic n. e. c., except antifouling types (including all those fluorochloroethylene oxide), and those containing polytetrafluoroethylene (e. g., Teflon), polytrifluorochloroethylene and silicones. |
| 857000–857900 | Soil improvement materials. |
| 871100–877000 | Soap and toilet preparations. |
| | Photographic and projection goods: |
| 900150 | Cameras, motion picture, substandard gauge, 8 mm. |
| 900860 | Projectors, motion picture, silent, substandard gauge, 8 mm. |
| 912700 | Drop forgings. |
| 914000 | Photographic and projection goods, n. e. c. and specially fabricated parts n. e. c., the following only: albums; analyzers; backgrounds, photographic; blueprinting apparatus; cameras and similar outfits; Ceseo trays; Craig Foolade sets; cutting boards; developing tanks; printing, fixing, or washing tanks, trays, and machines; developing tongs; dies and punches; drying racks; presses; embossers and embossing equipment; flash synchronizers; flashing powder; hangers; Mutoscope and Mutascope parts; lamp holders; lantern slides; luxometers; magic lantern parts; mounting boards; negative albums; paper trimmers; printing machines; screens; shading machines; slide film prints and mounts; print rollers; printing frames; projectors; sensitometers; and sun prints. |
| | Scientific and professional instruments, apparatus and supplies, n. e. c.: |
| 914200–914380 | Sun glasses, sun goggles, ophthalmic specialties, spectacles ophthalmic, ophthalmic lenses, and specially fabricated parts, n. e. c. |
| 914998 | Optical goods, n. e. c. and specially fabricated parts, n. e. c., the following only: binocular cases; binocular loupes; field glasses; opera glasses; folding magnifiers; linen testers, optical; magnifying glasses; monoculars; reading glasses; spectacle cases of all materials; stereoscopes; and View-Masters. |
| 915200 | Teeth, dentures, and bridges. |
| 915550 | Dental office and laboratory equipment, n. e. c., and specially fabricated parts, n. e. c., the following only: bench equipment; bracket tables; cabinets; casting machines; chairs; compound heaters; control panels; cuspidors, and cuspidor bowls; denture trimmers; grinders; investment mixers; investment scales; laboratory spatulas; lights and light adapters; mats; presses; processing equipment; sand blasters; surveyors; syringes; tampers; tongs; units; vibrators; waste receivers; water heaters. |
| 921100–929700 | Musical instruments, parts, and accessories, except electric and electronic organs (923100), and phonographs and parts (923500–923900). |
| 930310–930990 | Miscellaneous office supplies, except fountain pen parts containing iridium or ruthenium and balls for ball-type pens. |
| 940000–944900 | Toys, athletic and sporting goods. |
| | Miscellaneous commodities, n. e. c.: |
| 957100 | 1-day alarm clocks. |
| 958000–958950 | Watches, watch movements, and specially fabricated parts, n. e. c. |
| 961000 | Paintings, etchings, engravings, statuary and antiques (Report religious under 963500). |
| 962100–962900 | Jewelry and other personal ornaments, all materials, except solid gold, platinum and platinum allied metals. |
| 963500 | Jewelry findings, and specially fabricated parts, n. e. c. |
| 968005–968099 | Bottle and container closures (including secondary closures, and crown caps), accessories, and specially fabricated parts, n. e. c. |
| 971100–971300 | Buttons and parts. |
| 979300–979900 | Lamps and illuminating devices, and parts, except incandescent mantles and electric lamps. |
| 980000 | Matches. |
| 981810 | Plastic kitchen and tableware. |
| 981590 | Manufactured plastic products, n. e. c., not specially fabricated for particular machines or equipment, except all manufactures of polytetrafluorethylene (e. g., Teflon) and polytrifluorochloroethylene, the following only: cigar ribbons; containers for household use (soap dishes, etc.); display equipment (forms, boxes, stands, frames); draperies and curtains (not firm, woven); garment bags (not requiring cutting or further manufacture for use); hand-mirrors; manicure sets; mats; table cloths (cut to size); trimmings for handbags; venetian blinds, including slats and tapes; baby pants, aprons, bibs, or other indoor type wearing apparel (excluding raincoats). |
| 982110 | Synthetic sponges |
| 982120 | Natural sponges, animal. |
| 982200–982691 | Brushes. |
| 982695 | Brooms. |
| 982700 | Combs, except wholly of rubber. |
| 982800–982900 | Smokers' articles, n. e. c., and specially fabricated parts, n. e. c. |
| 983100–983150 | Umbrellas and parasols, and specially fabricated parts, n. e. c. |
| 983200 | Candles, except pyrotechnic. |
| 983500 | Religious articles, n. e. c., and specially fabricated parts, n. e. c. |
| 984005 | Beads and bead articles, n. e. c. |
| 984008 | Snap fasteners. |
| 984015 | Zippers (including slide fasteners), and specially fabricated parts, n. e. c. |
| 984098 | Notions, novelties, specialties, and specially fabricated parts, n. e. c. |
| 984200 | Ice refrigerators, household and commercial types. |
| 984600 | Soda fountain and bar equipment, and specially fabricated parts, n. e. c. |
| 984700 | Barber and beauty shop equipment, n. e. c., and specially fabricated parts, n. e. c. |
| 985300 | Shoe findings, n. e. c. |
| 987100–987200 | Coin operated machines, n. e. c. |
| 999910 | General merchandise valued at less than $25; only those commodities which are exportable in quantities valued at $25 or over under their own individual Schedule B numbers within the provisions of this General License. |
| 776400–776700 | Cash registers, and specially fabricated parts. |
| 777000–777420 | Typewriters, portable and standard, new, used and rebuilt. |
| 777500 | Parts and accessories, n. e. c., specially fabricated for typewriters. |
| 777710 | Staplers, for office use. |
| 777925 | Check-handling machines, and specially fabricated parts, n. e. c. |
| 777960 | Office machines, n. e. c., and specially fabricated parts, n. e. c. |
| | Other vehicles and parts: |
| 797100–797103 | Trailers, and specially fabricated parts and accessories, n. e. c. |
| 797130 | Parts and accessories, for trailers except logging wagons. |
| 799996 | Vehicles, n. e. c., and specially fabricated parts, n. e. c., except logging wagons, motor scooters, snow-cats, and sno-cat trailers. |

PART 372—PROVISIONS FOR INDIVIDUAL AND OTHER VALIDATED LICENSES

Sec.
372.1 Applicability of provisions.
372.2 Definitions of validated licenses.
372.3 Exportations requiring validated licenses.
372.4 Applications for validated licenses.
372.5 How to file an application for a validated license.
372.6 License applications for in-transit shipments.
372.7 License applications for ship stores, plane stores, supplies and equipment.
372.8 Disclosure of prior action on the shipment.
372.9 Documents accompanying license applications.
372.10 Additional information.
372.11 Issuance and use of validated licenses.
372.12 Reexportation from country of destination.
372.13 Duplicate licenses.
372.14 Return of revoked, expired, or unused licenses.
372.15 Reports.

AUTHORITY: §§ 372.1 to 372.15 issued under sec. 3, 63 Stat. 7, 65 Stat. 43, 67 Stat. 62; 50 U. S. C. App. 2023, E. O. 9630, 10 F. R. 12245, 3 CFR, 1945 Supp., E. O. 9919, 13 F. R. 59, 3 CFR, 1948 Supp.

§ 372.1 *Applicability of provisions.* The provisions of this part and (insofar as consistent with the provisions of this part), all of the other provisions of the Export Regulations shall apply to applications for and individual licenses issued by the Bureau of Foreign Commerce. These provisions also shall apply equally to other types of validated licenses and applications therefor, insofar as consistent with the provisions of Parts 374 to 399, inclusive, of this subchapter relating to such other types of validated licenses.

NOTE: Special provisions for certain commodities and destinations are set forth in Part 373 of this subchapter.

§ 372.2 *Definitions of validated licenses*—(a) *Validated license.* The term "validated license" means a document authorizing exportation, issued by or under the authority of the Bureau of Foreign Commerce. Wherever reference is made in this part to an application for a license or to a license issued upon application, the reference is to a validated license, as distinguished from the general licenses established in Part 371 of this subchapter for which no application is required and for which no document is issued.

(b) *Individual license.* An "individual license" is any validated license other than those named in paragraphs (c) through (g) of this section authorizing the exportation of a specified quantity of commodities by a designated licensee to a designated consignee.

(c) *Project license.* A "Project license" is a validated license authorizing the exportation of all commodities required for a specific officially recognized project or program for a specific period. Two types of project licenses, "Special Project" (SP) and "Dollar Limit" (DL) are used for this purpose. (See Part 374 of this subchapter.)

(d) *Blanket license.* A "Blanket (BLT) license" is a validated license authorizing the exportation of specified quantities of a specific commodity to two or more consignees in the same country of destination. (See Part 375 of this subchapter.)

(e) *Periodic requirements license.* A "Periodic Requirements (PRL) license" is a validated license authorizing the exportation during a specified period of one or more of the commodities identified on the Positive List of Commodities (§ 399.1 of this subchapter) by the letter "E" in the column headed "Commodity Lists" to one or more named ultimate consignees in a named ultimate destination. (See Part 376 of this subchapter.)

(f) *Time limit license.* A "Time Limit (TL) license" is a validated license authorizing the exportation of an unlimited quantity of commodities, other than those commodities identified on the Positive List by the letter "B", to an ultimate consignee located in a Group O country. (See Part 377 of this subchapter.)

(g) *Foreign distribution license.* A "Foreign Distribution (FD) license" is a validated license authorizing the exportation of commodities, identified by the letter "F" in the column headed "Commodity Lists" on the Postive List, to a distributor located in a foreign country (other than Hong Kong, Macao, and Subgroup A countries) for resale, distribution, or use in the distributor's country, or for reexportation to other countries, as approved. (See Part 378 of this subchapter.)

(h) *Technical Data License.* A "Technical Data License" is a validated license authorizing the exportation of specified technical data to a specified ultimate consignee(s). (See Part 385 of this subchapter.)

§ 372.3 *Exportations requiring validated licenses.* No commodity subject to the Export Regulations of the Bureau of Foreign Commerce may be exported to any destination without a validated license issued by the Bureau of Foreign Commerce, except where the exportation is authorized by a general license or other authorization granted, issued, or established by the Bureau of Foreign Commerce.

NOTE: Certain commodities are subject to export regulations of other agencies of the Government. The Bureau of Foreign Commerce does not issue export licenses for those commodities. (See § 370.4 of this subchapter).

§ 372.4 *Applications for validated licenses*—(a) *Who may apply*—(1) *General.* (i) A license application may be made by any person subject to the jurisdiction of the United States who is in fact the exporter or by his duly authorized agent. In either instance, the exporter must be shown as the applicant.

(ii) The applicant for a license should be that person who, as the principal party in interest in the transaction of exportation, has the power and responsibility to determine and control the

sending of the goods out of the country and is thus in reality the exporter. For this purpose, it is the identity of the applicant, and his role in the transaction, and not the terms of sale, with which the Bureau of Foreign Commerce is primarily concerned. If, in a given transaction, he has the responsibility for effecting exportation, such person is a proper applicant; if, on the other hand, he does not assume such responsibility, he is not a proper applicant.

(iii) If the seller intends to leave the responsibility for effecting exportation in the hands of the foreign importer or the latter's forwarding or purchasing agent in the United States, he should not apply for the license or appear as exporter; but, in such case, the forwarding or purchasing agent should appear as applicant and exporter unless the foreign importer himself is subject to the jurisdiction of the United States at the time of exportation, in which case the latter should apply for the license in his own name. If any forwarding or purchasing agent applies for the license, he must disclose the fact of his agency and the name of his principal.

(iv) No application by any person not subject to the jurisdiction of the United States will be considered unless such application is made on his behalf by an authorized agent in the United States. The agent authorized to file the application then becomes the applicant. Ordinarily, a seller who delivers commodities in this country to a foreign buyer or to the latter's forwarder or other agent would not be in a position to assume responsibility for the exportation and so would not be a proper applicant. This would normally be the situation where the sale is made f. o. b. factory, although it is recognized that such terms of sale may relate only to price and are not necessarily inconsistent with the assumption by the seller of full responsibility for effecting the exportation.

(2) *Order party.* (i) Where the applicant did not receive the order directly from the foreign purchaser or ultimate consignee named in the application, the application must also be signed by the person in the United States who originally received the order (the order party), as well as by the applicant. The "order party" is that person in the United States who conducted the direct negotiations or correspondence with the foreign purchaser or ultimate consignee and who, as a result of these negotiations, received the order from the foreign purchaser or ultimate consignee. The signature of the order party, followed in parentheses by the designation "(order party)," shall be entered on the application form above the signature of the applicant. The signature of the order party on the application is not required on an application filed by a person acting for the account of a foreign principal where the foreign principal is in fact the exporter, as defined in subparagraph (1) of this paragraph.

(ii) The order party should not be shown as an applicant in the space provided for the applicant on the application form. The license, when issued, will show as licensee only the party shown as applicant on the application form.

(b) *Responsibility of the licensee.* Any applicant to whom an export license is issued becomes the licensee, and will be held strictly accountable for use of the license, whether as a principal exporting for his own account, or as an agent acting for the account of a foreign principal who is not subject to the jurisdiction of the United States. He thereby assumes responsibility for actually effecting the exportation, for proper use of the license, and for due performance of all its terms and conditions.

(c) *Requirement to disclose parties in interest*—(1) *Disclosure requirement.* (i) The policies of export control require the fullest disclosure by the applicant of all parties in interest in order that decisions on applications may be made with the fullest knowledge of all revelant facts and in order that the identity and whereabouts of the persons who know most about the transactions may be easily ascertained in the event of inquiry.

(ii) The applicant must disclose fully on the application for license the names of all parties who are concerned with or interested in the proposed exportation, participating on their own account including: the applicant as exporter, the ultimate consignee, the intermediate consignee, and the purchaser, all as defined in this section. If the application is filed for an account other than that of the applicant, the agent, as applicant, must disclose the name of his foreign principal for whose account the exportation is to be made. The true parties in interest as known to the applicant must be disclosed.

(iii) It is realized that there may be cases in which more than one person in a transaction may fairly be described as being a principal. In such cases, the application should be accompanied by a statement giving the names and addresses of such other persons and their roles in the transaction in question. Where there is any doubt as to which of several persons should be named as the party to the license, the applicant should disclose the names of all and the functions to be performed by each. For this purpose a separate statement attached to the application will be acceptable.

(2) *Definitions of parties in interest*—(i) *Applicant.* The applicant for a license should be that person who, as the principal party in interest in the transaction of exportation, has the power and responsibility to determine and control the sending of the goods out of the country and is thus in reality the exporter. (See paragraph (a) of this section.)

(ii) *Ultimate consignee.* The person located abroad who is the true party in interest in actually receiving the exportation for the designated end use must be named as the ultimate consignee. In all cases, the address of the ultimate consignee must be in the country of destination specified for the proposed exportation. A bank, freight forwarder, forwarding agent, or other party, when acting as an intermediary is not acceptable as the ultimate consignee.

(iii) *Intermediate consignee.* (a) The bank, forwarding agent, or other intermediary (if any) who acts in a foreign country as an agent for the exporter, the purchaser, or the ultimate consignee, for the purpose of effecting delivery of the exportation to the ultimate consignee must be named on the application, if known. If no intermediary is to be used, or if the intermediate consignee is unknown at the time of the application, this fact must be stated on the application.

(b) Optional intermediate consignees may be indicated on the application for export license by an exporter who is unable to determine, at the time of filing his license application, at which port the commodities will be unloaded from the exporting carrier.

(c) In all cases, before a shipment will be cleared for export, the name and address of any intermediate consignee to be used must be ascertained and set forth on the shipper's export declaration, whether or not named on the license application or validated license. (See § 379.4 (b) (3) of this subchapter.) However, the name and address of the intermediate consignee need not be shown on the commercial invoice.

(*d*) Amendment of the export license is required if the intermediate consignee to be used in the export transaction is not named on the export license, unless such new or different intermediate consignee is located in the country of ultimate destination as shown on the export license. See § 380.2 (d) of this subchapter.

(iv) *Purchaser.* The person abroad who has entered into the export transaction with the applicant to purchase the commodities for delivery to the ultimate consignee must be named as the purchaser. If such person is the same as the ultimate consignee, applicant should state "Same." A bank, freight forwarder, forwarding agent, or other intermediary is generally not acceptable as the purchaser.

(d) *Legal liability for violations.* Insofar as legal liability for any violation of the export-control law and regulations is concerned, every person who in any capacity participates in fact in an exportation knowing it to be unauthorized may be held to account, whether or not he appears as the party on the application for the export license. (See Part 381 of this subchapter.)

(e) *Information regarding commodities.* The applicant must state on the application for a validated license submitted on Form IT– or FC–419, in accordance with the instructions set forth on such forms, (See Note 2 following § 372.5 (a)) for each commodity item listed therein:

(1) The quantity to be shipped;

(2) A description in sufficient detail to permit accurate identification, including its Schedule B number;

(3) The total selling price of the item and its price per unit; and

(4) The proposed end-use.

(f) *Substantiation of representations made in license application*—(1) *Orders and substantiation of other material facts.* No application for an export license shall be made unless and until the applicant has, supported by documentary evidence in his possession, or in the possession of the order party (as defined in paragraph (a) (2) of this section) who signs the application in accordance with the requirements of paragraph (a) (2) of this section:

(i) An order for export for the commodities covered by the application. If the applicant for the export license is not the person who conducted the direct negotiations or correspondence relative to the order with the ultimate consignee or foreign purchaser, as designated in the application for export license, and did not receive the order from the ultimate consignee or foreign purchaser, the application must be completed in accordance with paragraph (a) (2) of this section.

(ii) Substantiation of the following facts relating to the purchase transaction which the applicant must disclose on the application, Form IT– or FC–419 (see § 372.5):

Country of ultimate destination;

Names and addresses of the ultimate consignee, intermediate consignee (if any), purchaser (if other than ultimate consignee), and any other party to the purchase transaction, whether principal or agent, including but not limited to brokers, representatives or other agents through whom the order was received;

Quantity and description of the commodities to be exported;

End use of the exportation;

International Cooperation Administration (formerly FOA) authorization if known and applicable.

(2) *Definitions*—(i) *Order.* The term "order" as used in this section means an order for export placed with an exporter in the United States, or through an order holder as defined in paragraph (a) (2) of this section, by an importer in a foreign country which, if accepted by the exporter or the order holder, will result in a binding contract between the exporter or the order holder and the foreign importer. Conversely, however, an exporter's or order holder's offer alone is not a basis for an application. While the terms of the order may be conditioned, such terms must be ascertainable and certain; for example (*a*) the terms of payment may provide a price dependent upon the market price at the time of delivery; (*b*) the time or place of delivery may be dependent upon an event in the future, etc. An "order" is more than a mere business inquiry relating to the possible purchase of merchandise, although it need not be an agreement which can be presently executed. Furthermore, while orders may be conditioned upon the issuance to the exporter of an export license by the Bureau of Foreign Commerce or the issuance to the importer of an Import Permit or exchange permit by his government, or such other government document as may be required, such orders for export would still be considered as orders within the meaning of these provisions.

(ii) *Evidence of an order.* Evidence of an order as used in this section means any document or documents emanating from the foreign purchaser which set forth the terms and conditions of his offer to buy the materials or articles for which the export license is requested. Such evidence may take the form of a contract signed by both parties, or of letters, telegrams, cables, confirmations, or other documents which set forth in definite terms the offer of the foreign purchaser to buy or the acceptance by the foreign purchaser of the exporter's offer to sell.

(iii) *Evidence of facts relating to the purchase transaction.* Evidence of the facts relating to the purchase transaction means any documents emanating from the purchaser or ultimate consignee which substantiate the material statements in the application enumerated in subparagraph (1) of this paragraph. Such evidence may be contained in the document or documents constituting evidence of the order, or in additional documents emanating from the purchaser or ultimate consignee. The printed name, address, or nature of business of the ultimate consignee or purchaser appearing on his letterhead or order form shall not constitute evidence of either his identity, the country of ultimate destination, or end use of the commodities described in the application.

(3) *Shipments involving other than normal purchase and sale contracts.* Where the transaction between the applicant and purchaser or ultimate consignee does not involve a normal purchase and sale contract in the customary form or where for other stated reasons the term "order" as used in this section does not apply, the applicant shall attach to his application a full description of the nature of the transaction.

NOTE: Where an exporter ships supplies or equipment to his foreign subsidiary or to distributors for use or resale, but it is not the practice for the subsidiary or distributor to submit or for the exporter to accept orders, documentary evidence of an order is not required. The applicant must, however, submit a full statement of the nature of the transaction or arrangement, explaining the end usea of the commodities involved. When commodities are to be exported under any other arrangement, a full statement of the nature of the transaction must likewise be submitted.

(4) *Retention of documents.* The documents constituting evidence of an order and of the facts relating to the purchase transaction, as defined in subparagraph (2) of this paragraph, or other transaction referred to in subparagraph (3) of this paragraph, must be kept available for inspection, upon demand, by the Bureau of Foreign Commerce for three years from the date of receipt of the application, as shown on the Acknowledgment Card, Form IT- or FC-116.

NOTE: 1. *Copies of documents.* The Bureau of Foreign Commerce may request either the originals of the documents constituting the evidence, or photostatic or other copies thereof. The time and manner of submission will be made known to the applicant at the time the request for submission is made. In accordance with § 372.9 (a), all documents submitted in connection with a license application must be identified clearly as a part of that application. Unless supporting documents are so identified, they will not be accepted by the Bureau of Foreign Commerce.

2. *Coded terms; foreign languages.* The provisions of § 372.9 (d), requiring an explanation of terms and abbreviations and an English translation of documents in a foreign language, must be observed.

(5) *Changes in orders or facts relating to the purchase or other transaction.* Answers to all questions in the application shall be deemed to be continuing representations of the existing facts or circumstances. Any material or substantive change in the terms of the order or in the facts relating to the purchase transaction or other transaction, shall be promptly reported to the Bureau of Foreign Commerce, whether a license has been granted or the application is still under consideration. If a license has been granted, such change shall be reported immediately to the Bureau of Foreign Commerce, in accordance with the provisions of Part 380 of this subchapter, even though shipments against the license may be partially or wholly completed.

NOTE: 1. *Change in intermediate consignee.* Change in intermediate consignee must be reported on the Shipper's Export Declaration, and in certain cases an amendment to the export license is required. (See paragraph (c) (2) (iii) of this paragraph and § 380.2 (d) (3).)

2. *International Cooperation Administration authorization.* Changes in facts relating to International Cooperation Administration authorization should be reported if such authorization was indicated in the application; otherwise such disclosure should be made in the fourth copy of the Shipper's Export Declaration, if required by terms of the license. (See § 379.3 (c) (3) of this subchapter.)

(g) *Export licenses related to complete applications.* Although the export licenses issued by the Bureau of Foreign Commerce may not set forth all the facts relating to the export transaction that are contained in the license application and supporting documents, any validated export license issued is valid for use only with respect to the specific export transaction described in the license application and supporting documents, unless otherwise provided by the export license or the Export Regulations.

§ 372.5 *How to file an application for a validated license*—(a) *Form and manner of filing*—(1) An application for a validated license must be submitted on Form IT– or FC–419, Application for Export License, accompanied by Form IT– or FC–116, Acknowledgment Card.[1] An application is incomplete and will be returned to the applicant unless accompanied by an acknowledgment card with both portions completely and correctly filled out.

(2) All terms, conditions, provisions, and instructions, including the applicant's certificate, contained in such form or forms are hereby incorporated as a part of the Export Regulations.

NOTE: 1. *Facsimiles of Form IT– or FC–419.* Exporters may print facsimiles of Form IT– or FC–419 with printed answers to many of the questions, provided the facsimiles are identical with the official form in size, ink color, and typographic arrangement.

2. *Preparation of Form IT– or FC–419.* The following instructions apply to the preparation of applications submitted on Form IT– or FC–419, Application for Export License, for all types of validated export licenses issued by the Bureau of Foreign Commerce, except as modified by special

[1] Form IT– or FC–419 and Form IT–116 or FC–116 may be obtained at all Department of Commerce Field Offices and from the Bureau of Foreign Commerce, Department of Commerce, Washington 25, D. C.

licensing procedures and provisions contained in the Export Regulations.

*Item 1.* The date of the application must be shown.

*Item 2.* The applicant's reference number may be used for applicant's convenience.

*Item 3.* The country of final (ultimate) destination is to be entered, not a country through which the exportation may travel in transit to its final destination. A statement of ultimate destination and prohibition against diversion must be placed on Shipper's Export Declarations, bills of lading, and commercial invoices for various export shipments as provided by § 379.10 (c) of this subchapter. Transshipment or diversion of commodities from country of final (ultimate) destination is a violation subject to the denial of export privileges and to criminal penalties, unless specifically authorized by the Bureau of Foreign Commerce.

*Item 4.* If a previous application covering this same transaction has been submitted, the Bureau of Foreign Commerce Case Number shall be entered in this space. (To be answered only when the application covers the same transaction for which a previous application was returned without action, or rejected, by Bureau of Foreign Commerce. Exporters must not submit a duplicate application to cover any transaction for which an application for export license is still pending before the Bureau of Foreign Commerce.)

*Item 5.* Enter the import permit number and/or International Cooperation Administration procurement authorization number, if required by specific regulations. If application is related to the International Cooperation Administration program, the identification number and symbol of the procurement authorization or loan authorization under which the foreign customer is entitled to import should be inserted, if known; if unknown or not yet assigned, so indicate.

*Item 6.* The name and address of the applicant must be entered in the provided space.

*Item 7.* The person named as ultimate consignee should be the person abroad who is actually to receive the material for the designated end use. A bank, freight forwarder, forwarding agent, or other intermediary is not acceptable as an ultimate consignee, but should be disclosed as the intermediate consignee.

*Item 8.* The intermediate consignee may be a bank, forwarding agent, or other intermediary in a foreign country who participates as an agent for the exporter or for the purchaser or ultimate consignee for the purpose of effecting delivery of the exportation to the purchaser or ultimate consignee. If no intermediary is to be used, state "None"; if unknown at time of application, state "Unknown." In all cases the actual intermediate consignee (name and address) must be ascertained and disclosed on the Shipper's Export Declaration filed before exportation. In certain cases, amendment of the license also is required.

*Item 9.* The name and address of the person, other than applicant, authorized by the applicant to receive the license, if issued, should be entered in this space.

*Item 10.* The person who should be named as purchaser is the person abroad who has entered into the export transaction with the applicant. If the foreign purchaser is other than the ultimate consignee shown on the export license application, the name and address of the purchaser must be shown. If the foreign purchaser is the same as the ultimate consignee, this fact should also be shown on the application; in this case the applicant should enter the word "Same" in the foreign purchaser item of the form. In any instance in which an applicant fails to make any entry in the foreign purchaser item of the form, he represents thereby that there is no foreign purchaser other than the ultimate consignee.

*Item 11 (a).* Give the quantity to be shipped using units specified in Schedule B, Statistical Classification of Domestic and Foreign Commodities Exported from the United States [2] (unless otherwise specified in the Export Regulations) and also in trade units, where different.

*Item 11 (b).* Commodities must be described in terms which correspond with the commodity descriptions in Schedule B. Additional details must be furnished to the extent necessary for identification of the specific items so classified. (Include basic ingredients, composition, type, size, gauge, grade, horsepower, etc., where applicable. Show brand or trade names, catalog numbers, or other trade characteristics which will aid in exact identification of commodities.)

*Item 11 (c).* The Schedule B number, processing code, and related commodity group number, if any, shall be shown in the provided space. (Unless the processing code is followed by a related commodity group number, a separate application must be filed for each entry on the Positive List of Commodities.)

*Item 11 (d).* Unit price should be shown except where a large variety of products within a single Schedule B classification makes such a breakdown extremely difficult. In such cases only total price need be shown. The applicant must show total price in the customary form of quotation such as f. o. b. (factory), f. a. s. (named port), c. i. f., or other form. The particular form of price quotation must be specified.

*Item 12.* If the applicant is exporting for other than his own account, the name and address of the foreign principal must be shown and an explanation of the transaction given in full.

*Item 13. Availability of Material to be Exported.* All applicable parts of Item 13 must be answered, showing the exact status of the applicant's procurement of the commodities to be exported. In the case of a producer, the approximate delivery date is the date on which the commodities will be available for export. If more than one delivery date is required for the commodities covered by the application, each date should be given, using a supplementary sheet, if necessary.

Applications for licenses to export certain commodities will be considered only when answers to Item 13 indicate that the commodities will be available to the applicant within the normal validity period of licenses for such commodities.

*Item 14.* End use of commodities covered by this application will be an important factor in determining issuance of license. Statement by ultimate consignee (and purchaser, if not same) as to ultimate destination and end use must be submitted for certain exportations as required by the Export Regulations. (Applicant's reference to such statement does not relieve him of responsibility to fully disclose any additional or different information he may know.) Applicant should indicate clearly the end use for which material is to be exported, e. g.:

For purchaser's own personal use;

For resale in country of ultimate destination and consumption in that country;

For a service to be rendered, indicating how the item(s) described herein will be used in this service;

For new construction or expansion;

For maintenance, repair, or operation of existing facilities;

To enable the purchaser to produce the following needed materials or products for export to ----------;

(Name of country)

To be reexported and, if so, to what country;

To fill a specific need endorsed as of high priority by the government of the receiving country, stating the need and the nature of the endorsement;

However, end-use statements consisting of brief outlines (such as above) are not considered sufficient in themselves. A complete and detailed description of end use is required.

*Item 15.* The application must be signed by applicant, or by an officer or duly authorized agent of the applicant. (If signed by agent of the applicant, title and firm name of agent must be shown.) The name of the applicant and the name and title of person who signs the application must also be typed or printed legibly in the space provided. Sign the original copy.

The applicant's signature on the application constitutes a certification by the applicant with respect to the license application, as set forth in Item 15: A certification that any copies of documents submitted in lieu of originals in support of the application are true and correct copies of the originals; and a certification that the information contained in all documents submitted at any time in support of the application is true and correct to the best of his knowledge and belief.

3. *Preparation of Form IT– or FC–116.* An Acknowledgment Card, Form IT– or FC–116, with both portions completely and correctly filled out, must accompany each license application.

This card must be made out in the name of the applicant, as shown in item 5 of Form IT– or FC–419. Upon receipt of the application, the Bureau of Foreign Commerce will enter on the card the case number assigned to the application, and the date of receipt, detaching and returning to the applicant the return portion (applicant's copy).

If the application is submitted by an agent, or if the applicant wishes an agent to receive an Acknowledgment Card, the upper portion only (applicant's copy) of an additional acknowledgment card may be filled out in the name of the agent and submitted with the application.

The date of application, applicant's reference number (if any), country of destination, Schedule B number, and processing code (and related commodity group number, if any) must be the same as the corresponding entries on Form IT– or FC–419. Only a brief commodity description is required to be shown on Form IT– or FC–116.

(b) *Assembly and submission of applications.* (1) All documents or correspondence accompanying the license application, bearing the applicant's reference number, if any, should be firmly stapled together in the upper left-hand corner.

(2) Form IT– or FC–116, typed side up, should be attached with a paper clip (not stapled) to the upper left-hand corner of Form IT– or FC–419. The two portions of Form IT– or FC–116 should not be separated.

(3) Applications should be submitted (preferably by mail) to the Bureau of Foreign Commerce, Department of Commerce, Washington 25, D. C.

(4) Applications which omit essential information will be returned without action.

(c) *Time of submission of license applications.* Specific filing dates are established for certain Positive List commodities. Applications for licenses to export such commodities shall be submitted at such times or during such periods as are indicated in § 373.71 of this subchapter. Applications for licenses to export commodities for which no specific filing dates are announced may be submitted at any time.

(d) *Separate applications for each Positive List entry.* A separate and complete application must be submitted for each Positive List entry to each consignee in each country of destination except as otherwise specifically provided in the Export Regulations.

(e) *Commodities exported for relief or charity.* Applications by individuals or private agencies for validated licenses to export commodities for relief or charity shall show the appropriate relief category Schedule B number (999810–999890). In addition, where the commodities proposed for export are listed in the Positive List of Commodities (§ 399.1 of this subchapter), the specific Schedule B number established for the commodity when shipped commercially shall also be shown.

(f) *Inclusion of related commodities on a single applicaton*—(1) *Description of related commodities.* For each entry on the Positive List of Commodities (§ 399.1 of this subchapter) there appears in the column headed "Processing Code and Related Commodity Group" a four-letter symbol (ELME, GIEQ, etc.), which is the processing code for that entry. In many instances this code is followed by a number, which is the related commodity group number for that entry. All entries on the Positive List which have both the same processing code and the same related commodity group number are designated related commodities and may be included on a single license application. Entries which have processing codes not followed by a number are not included in any related commodity group, and a separate application must, therefore, be filed for each such entry. Entries which have different processing codes (e. g., ELME, GIEQ, RUBR) may not be included on the same application.

NOTE: The following examples illustrate proper use of a single application for related commodities:

*Example 1.* All entries on the Positive List having the processing code ELME followed by the related commodity group number 1 (ELME 1) may be entered on a single application.

*Example 2.* All entries on the Positive List having the processing code ELME followed by the related commodity group number 2 (ELME 2) may be entered on a single application.

*Example 3.* An entry on the Positive List having the processing code and related commody group number ELME 1 may not be entered on the same application with an entry having the processing code and related commodity group number ELME 2.

*Example 4.* An entry on the Positive List having the processing code ELME not followed by a related commodity group number may not be combined on an application with any other entry, including entries having the same processing code.

*Example 5.* Entries on the Positive List having different processing codes (e. g., GIEQ, ELME, RUBR), regardless of whether followed by a related commodity group number, may not be included on the same application.

(2) *Partial approval.* An application may be approved in whole or in part. Upon specific request, stated on the application form, the application will be considered as a whole and either approved or rejected in its entirety.

(3) *Attachments.* Additional sheets listing related commodities must be attached securely to the application form.

(g) *Applications to cover partial or periodic shipments.* Where partial or periodic shipments of an identical commodity are to be made by the applicant to the same consignee in a foreign country, an application may be filed covering the entire quantity of commodities to be so exported.

(h) *Applications for licenses to cover shipments by mail.* (1) Only one shipment by mail may be made against a validated license, except as specified in § 379.1 (b) (1) of this subchapter.

(2) Where an exporter, at the time of applying for an export license, expects to make several shipments by parcel post against one order, he may submit one application to obtain separate licenses for each anticipated partial shipment by mail against such an order. The applicant shall indicate, in the commodity description column of the application, the quantity of each partial shipment, and note across the bottom of the column: "Anticipated Partial Shipments by Mail Against One Order."

(i) *Second applications.* A second application covering the same proposed exportation shall not be submitted pending action on the first application.

NOTE: 1. *Submission of new applications.* When an application has been returned without action to the applicant and is being resubmitted, a new application should ordinarily not be filled out. However, a new application should be submitted where the necessary alterations on the old application would be too difficult to make or would be illegible, or where the old application is on a form other than Form IT– or FC–419. In those instances where a new application is submitted, the previous Bureau of Foreign Commerce Case Number should be typed or written in ink in the appropriate item on the new application Form IT– or FC–419. When a new application is submitted, the original application must be attached to the new application.

2. *Resubmission of previous application.* When an export license application has been returned without action with instructions that it is not to be resubmitted until a later date, the resubmission of the application must be in accordance with the requirements existing at the later date for the submission of a new application.

(j) *Emergency clearance.* In case of emergency, the Bureau of Foreign Commerce will, upon approving an application for export license, authorize clearance by telephone, telegraph, or other special communication to the appropriate Collector of Customs. In such cases, the license is not sent to the licensee, but to the Collector of Customs with whom the clearance has been authorized by the Bureau of Foreign Commerce.

(k) *Inquiries and correspondence.* (1) Every effort is made to examine applications and advise applicants of action in the shortest time. Applicants should allow a period of one week after receipt of returned Acknowledgment Card (Form IT– or FC–116) or, in case of commodities with established filing dates, 3 weeks after close of such filing period, before inquiring as to progress of an application. Certain types of applications require more time for necessary examination and consideration.

(2) Requests for information concerning the application of Export Regulations to specific fact situations, the status of delayed cases, or any other inquiry concerning export license applications should be addressed to the Exporters' Service Section, Bureau of Foreign Commerce, Department of Commerce, Washington 25, D. C. Such communications should not be attached to an application for license but should be mailed in a separate envelope. Memoranda attached to license applications should be limited to informational data relating to those applications and should not include inquiries requiring individual reply.

(3) Inquiries concerning the status of applications may be made only by an applicant or his authorized agent. The Bureau of Foreign Commerce will not furnish status information to other persons. When these inquiries are made, they should be submitted to Exporters' Service Section, Bureau of Foreign Commerce, Department of Commerce, Washington 25, D. C., on Form IT– or FC–743–A,[3] in duplicate, in accordance with the instructions contained thereon. After receipt of the form and a determination of the status of an application, the Bureau of Foreign Commerce will return the form, indicating thereon a statement of the desired information. A separate form must be submitted for each application. For convenience of mailing, the form is designed for use in a standard window envelope.

(4) Information as to the probable action of the Bureau of Foreign Commerce respecting a proposed shipment or a hypothetical license application will not be given. It will be necessary in all cases to submit an application together with pertinent information in order to obtain a decision.

(5) A supporting letter should give additional information only for the application to which it is attached.

(6) When an exporter requests telegraphic reply to an inquiry, the complete address of such person or company, including name, street, city, postal zone number, and state, must be given; or if desired, the Western Union "WUX" designation may be substituted for the address. This will expedite the servicing of these requests by the telegraph companies. Telegraphic replies will be made at the expense of the inquirer.

§ 372.6 *License applications for intransit shipments*—(a) *Information required on application.* (1) License applications for commodities moving in transit through the United States which may not be exported under General License GIT, shall include in the commodity description column of the Application for Export License, Form IT– or FC–419, the following:

[2] For sale by Superintendent of Documents, United States Government Printing Office, Washington 25, D. C., and field offices of the Department of Commerce.

[3] Form IT– or FC–743–A may be obtained at all Department of Commerce field offices and from the Bureau of Foreign Commerce, Department of Commerce, Washington 25, D. C.

(i) The name and address of the foreign consignor who shipped the goods to the United States;

(ii) A statement that the shipment is wholly of foreign origin; and

(iii) The notation "In-Transit Shipment."

(2) In addition, the applicant should submit any evidence available showing the approval or acquiescence of the exporting country (or the country of which the exporter is a resident) with respect to the proposed ultimate destination of the shipment. Such evidence may be submitted in the form of a transit authorization certificate or other document.

(b) *Applicability of special provisions.* In addition, except for shipments originating in Canada, the applicant must comply, where applicable, with the provisions of § 373.2 of this subchapter with respect to confirmation of country of ultimate destination and verification of actual delivery (IC/DV); § 373.65 of this subchapter with respect to required ultimate consignee and purchaser statements; § 373.66 of this subchapter with respect to Austrian import identification number § 373.67 of this subchapter with respect to Swiss Blue Import Certificate; § 373.69 of this subchapter with respect to Hong Kong ultimate consignee and purchaser statement or import certificate; and § 373.70 of this subchapter with respect to Yugoslavia end use certificate.

(c) *Nature of exportations covered by provisions of this section.* Licenses issued under this section will be valid only for the export of in-transit shipments wholly of foreign origin and for which a Transportation and Exportation (T. & E.) customs entry or an Immediate Exportation (I. E.) customs entry is outstanding covering the shipments.

NOTE: 1. *Inapplicable requirements.* The provisions of the Export Regulations relating to quota limitations or other short supply considerations affecting the licensing of the commodity are not applicable to license applications for in-transit shipments. For example, the following requirements are inapplicable: Adherence to time-table licensing § 373.71 of this subchapter; and priority ratings Part 398 of this subchapter.

2. *Other applicable provisions.* For in-transit shipments under general license, see § 371.9 of this subchapter; and for special clearance procedures applicable to in-transit shipments, see § 379.4 (d) of this subchapter).

3. *Submission of T. & E. or I. E. entry.* In clearing an in-transit shipment under a validated license, the Collector of Customs may, at his discretion, require the licensee to submit a copy of the Transportation and Exportation (T. & E.) customs entry or an Immediate Exportation (I. E.) customs entry covering such shipment.

4. *Destination control statement.* Exportations made under a validated export license for shipments of foreign origin moving in transit through the United States must comply with the destination control provisions (§ 379.10 of this subchapter). Under these provisions all copies of the in-transit Shipper's Export Declaration presented to the Collector at the port of exit must contain the destination control statement. In addition, the destination control statement must be shown on all bills of lading and commercial invoices in the possession of, or sent to the ultimate consignee or purchaser by, the shipper, exporter, carrier, and agent in the United States.

§ 372.7 *License applications for ship stores, plane stores, supplies and equipment*—(a) *Exportations requiring validated license.* The provisions of § 371.13 of this subchapter establish general licenses for the exportation of ship stores, plane stores, supplies and equipment under prescribed conditions. Where any commodities to be used on operating vessels and aircraft are not authorized to be exported under the provisions of § 371.13 of this subchapter or where commodities are being exported for vessels under construction and are not authorized to be exported under any general license, the exportation must be authorized by a validated license.

NOTE: See § 371.13 (d) of this subchapter on exports to vessels located at foreign ports.

(b) *Preparation of license applications*—(1) *Vessels under construction.* Applications for licenses to export commodities, including ship stores, supplies and equipment, to vessels under construction shall be prepared on Form IT– or FC–419 in accordance with the instructions contained in § 372.5 with the following modifications:

(i) *Country of ultimate destination.* Show country in which vessel is being constructed.

(ii) *Ultimate consignee in foreign country.* Show name and address of shipyard where vessel is being constructed.

(iii) *Commodity description.* For vessels under 40 feet in length, include a statement as to the length of the vessel. For vessels 40 feet in length, or over, show the following information in this item or on an attachment to the application:

(*a*) Hull number and name of vessel (if known).
(*b*) Type of vessel.
(*c*) Name and business address of prospective owner, and his nationality.
(*d*) Country of registry, or intended country of registry.

(iv) *End use of commodities covered by this application.* If the vessel is a tanker, the application or an attachment thereto shall include the following statement signed by the prospective owner of the vessel or his duly authorized agent:

The vessel ----------
(Hull number and name of vessel, if known)

for which these commodities are required (will be used) (will not be used)[1] to transport petroleum or petroleum products directly or indirectly to any Subgroup A destination.

[1] Strike out inapplicable phrase.

(v) *Identification of parties to transaction.* In all cases, all parties to the transaction, including the U. S. or foreign purchaser, must be identified with a clear statement of the capacity or function of each, as provided in § 372.4 (c).

(2) *Operating vessels and aircraft.* Applications for licenses to export commodities, including ship or plane stores, supplies and equipment, to operating vessels and aircraft, whether in operation or being repaired, shall be prepared on Form IT– or FC–419 in accordance with the instructions contained in § 372.5, with the following modifications:

(i) *Country of ultimate destination.* (*a*) Show country where the vessel or aircraft will take on the commodities.

(*b*) If the country where the vessel or aircraft will take on the commodities is uncertain at the time of filing the license application, and the commodities will not be shipped to Hong Kong, Macao, or a Subgroup A country, enter the statement: "Uncertain; however, shipment(s) will not be made to Hong Kong, Macao, or a Subgroup A destination." An export license issued under these circumstances will bear the following destination restriction: "Shipment(s) may be made to the named vessel at any port in any country except Hong Kong, Macao, or a Subgroup A destination."

(ii) *Ultimate consignee in foreign country.* (*a*) Show name of owner and port or place where commodities will be taken aboard. Also, if a vessel, show name of vessel.

(*b*) If the port or place where the commodities will be taken aboard is uncertain at the time of filing the license application, and the commodities will not be shipped to Hong Kong, Macao, or a Subgroup A country, enter the statement: "Port or place where the commodities will be taken aboard the vessel is uncertain; however, the commodity(ies) will not be loaded on the named vessel at a port or place located in Hong Kong, Macao, or a Subgroup A destination." An export license issued under these circumstances will bear the destination restriction indicated in subdivision (i) of this subparagraph.

(iii) *Commodity description.* For vessels under 40 feet in length, include a statement as to the length of the vessel. For vessels 40 feet in length, or over, show the following information in this item or on an attachement to the application:

(*a*) Type of vessel.
(*b*) Business address of owner and his nationality.
(*c*) Country of registry.
(*d*) Name of charterer and the terms and type of charter, if under charter.

(iv) *End use of commodities covered by this application.* If the vessel is a tanker, the application or an attachment thereto shall include the following statement signed by a responsible person in a position to furnish this information; that is, the owner or his duly authorized agent, or the owner and charterer (or their duly authorized agents) when the vessel is chartered:

The vessel ----------
(Name of vessel)

for which these commodities are required (will be used) (will not be used)[1] to transport petroleum or petroleum products directly or indirectly to any Subgroup A destination.

[1] Strike out inapplicable phrase.

(v) *Identification of parties to transaction.* In all cases, all parties to the transaction, including the U. S. or foreign purchaser, must be identified with a clear statement of the capacity or function of each, as provided in § 372.4 (c).

(3) *Subsequent applications.* After the additional information required by the instructions set forth in subparagraphs (1) and (2) of this paragraph has been supplied to the Bureau of Foreign Commerce, a subsequent application for an additional license to export commodities to the same vessel or hull number under construction or the same operating vessel may incorporate the required additional information by reference to the previous application containing that information. Such subsequent applications shall include a certification that the information previously submitted to the Bureau of Foreign Commerce has not changed, giving the appropriate BFC Case Number of the previously submitted application or, if the BFC Case Number is unknown, the applicant's reference number, date of submission, and Schedule B Nos. shown on that application. (Whenever possible, the BFC Case Number should be indicated on the application since failure to supply the BFC case Number may result in delay in processing the licensing application.)

(4) *Additional information.* The Bureau of Foreign Commerce may require, where necessary, that the exporter submit a letter of confirmation or amplification of the information specified in this paragraph.

(c) *Exportations of petroleum and petroleum products, including bunker fuel for use on vessels and fuel for planes departing from the U. S.* Applications for licenses to export petroleum or petroleum products, including bunker fuel for vessels or fuel for planes, may be included on a single Form IT– or FC–419. Such application shall indicate, at the top of the Form IT– or FC–419, the word "Bunker" in the case of exportations for the use of vessels, or "Plane Fuel" in the case of exportations for the use of aircraft. The application shall be prepared otherwise in the manner described in paragraph (b) of this section, with the following modifications:

(1) In the commodity description column (or in an attachment thereto), state the reasons why a general license is inapplicable to the proposed exportation. In addition, supply the following information:

(i) The carrier's points of call with dates of each call within 120 days prior to date of application (or 30 days in the case of aircraft).

(ii) The carrier's itinerary for the next 120 days in the case of vessels (or 30 days in the case of aircraft) from the anticipated date of departure from the last port in the United States.[4]

(iii) If the points of call submitted in accordance with subdivision (i) of this subparagraph include Macao or any point under Far Eastern Communists control, submit for each such point of call a copy of the manifest of cargo loaded or discharged. Also give the destination and anticipated dates of discharge of any cargo still on board the carrier which was loaded at such point. The contents of the manifest submitted will be treated as confidential and will not be disclosed to others than parties in interest.

(iv) If the itinerary submitted in accordance with subdivision (ii) of this subparagraph includes Macao, any point under Far Eastern Communist control, or any point in a Subgroup A country, or if the carrier is registered in, or under charter to, a Subgroup A country, or if the carrier is under charter to a national of a Subgroup A country, state whether any commodities included on the Positive List of Commodities (§ 399.1 of this subchapter), the United States Munitions List (§ 370.4 (a) of this subchapter), or the United States Atomic Energy List (§ 370.4 (d) of this subchapter), are carried on board the vessel or aircraft and which are destined directly or indirectly to any of these destinations. If the answer is in the affirmative, indicate where such commodities will be discharged, unless this information has already been supplied in accordance with subdivision (iii) of this subparagraph.

(2) In the case of vessels, state (in the space provided for "end use") the gross registered tonnage (GRT), type of main engines and rated horsepower, with daily fuel consumption rate, total fuel capacity, and fuel supply on board (indicating specifically the number of days' running supply from the port where additional supplies are requested). In the case of planes, state make and model of plane.

§ 372.8 *Disclosure of prior action on the shipment*—(a) *Prior detention of commodities by customs.* Any exporter or his agent making application to the Bureau of Foreign Commerce for an export license, who shall know or have reasonable cause to believe that a Collector of Customs has detained commodities which would be exportable under such license, if granted, shall disclose to the Bureau of Foreign Commerce at the time of applying for such license the fact that the Collector of Customs has detained the commodities. Any license obtained without full disclosure of that fact shall be deemed to have been obtained without disclosure of all facts material to the granting of the license, and any license so obtained shall be void.

(b) *Prior exportation without a license.* No export license application shall be submitted to the Bureau of Foreign Commerce covering a shipment that is already laden aboard the exporting carrier or exported. In cases where such export should not have been made without first securing a validated license authorizing the shipment, the exporter should send a letter or telegram to the Investigation Staff, Bureau of Foreign Commerce, Department of Commerce, Washington 25, D. C., Att'n: FC–1205, explaining why a validated license was not obtained and disclosing all the facts concerning the shipment that would normally have been disclosed on the license application. The Bureau of Foreign Commerce will inform the exporter of its action and instructions to him in the matter by letter. Any license covering such shipments obtained without such disclosure shall be deemed to have been obtained without disclosure of all facts material to the granting of the license, and any license so obtained shall be void.

NOTE: See §§ 380.2 (d) and 380.4 (c) of this subchapter with respect to amendments to licenses and extensions of validity periods of licenses to authorize shipments described in this section.

§ 372.9 *Documents accompanying license applications*—(a) *Copies may be submitted.* (1) Documents submitted in support of an application for an individual or other validated license will not be returned to the applicant or his agent, except when the application is returned without action. Accordingly, applicants need not submit original documents which they may subsequently require, unless such original documents are specifically required by the provisions of another section, but in lieu thereof, photostatic or other copies of an original document may be submitted. Individual certification of copies of original documents is not required by the Bureau of Foreign Commerce. By signing Form IT– or FC–419 the applicant certifies and represents that any copies of documents submitted with the application, or submitted in support of the application at any time before or after filing the application, are true copies of the original documents, and that the information contained in such documents is true, correct, and complete to the best of his knowledge and belief.

(2) Any document submitted in connection with a license application which is submitted separately from an application must be identified clearly as part of that application. Such document must be identified by a statement, signed by the applicant, that "this document is to be considered as a part of application number (give Bureau of Foreign Commerce Case No.)." Unless documents filed separately from the license application are identified with the application in this manner, they will not be accepted by the Bureau of Foreign Commerce.

(b) *Originals must be available.* The Bureau of Foreign Commerce may demand the originals of any copies of documents submitted in support of applications. Such originals must be kept available for inspection, upon request of the Bureau of Foreign Commerce, for 3 years from the date of receipt of the license application by the Bureau of Foreign Commerce, as shown on the Acknowledgment Card (Form IT– or FC–116).

(c) *Documents submitted with applications.* Documents which are submitted with an application and which will ultimately become a part of the license, such as proposed lists of consignees, must be submitted in duplicate, affixed to the application. Such documents will become a part of the license, if issued, and must remain affixed thereto. Other documents submitted in support of an application which will not

[4] If the carrier's itinerary for all of the next 120 days in the case of vessels (or 30 days in the case of aircraft) is not known and cannot be ascertained, the itinerary shall be stated so far as it may be known or ascertainable. In addition, all other available information as to the future destinations and areas of operation shall be submitted.

become a part of the license, such as evidence of accepted orders or evidence of availability of the commodity, need be submitted in one copy only and should be attached to the application.

(d) *Coded terms, foreign languages.* In the case of originals and copies of documents, all abbreviations, coded terms, or other expressions having special significance in the trade or to the parties to the transaction must be explained. Documents in a foreign language must be accompanied by an accurate English translation. Such translation need not be made by a translating service, but, if not, must be certified by the applicant to be a correct translation.

§ 372.10 *Additional information.* (a) Every person applying for an individual or other type of validated license shall, in addition to the information called for in the Export Regulations in connection with such type of license or in the form on which the application is made, furnish such information with respect to such application as may be required by the Bureau of Foreign Commerce.[6]

(b) Any additional information submitted by an applicant in connection with a license application must be clearly identified as part of such application as provided in § 372.9 (a).

§ 372.11 *Issuance and use of validated licenses*—(a) *Issuance of license document.* When an application for an export license is duly approved by the Bureau of Foreign Commerce, an export license is issued on a separate document (Form IT– or FC–628) authorizing, subject to the provisions of the Export Regulations and to the terms and provisions of such license, the exportation of the quantity of those commodities described therein. (See §§ 372.5, 372.12, and 379.10 of this subchapter.)

NOTE: 1. *Case number.* Each license application,, Form IT– or FC–419, when received by the Bureau of Foreign Commerce is given a number (the Bureau of Foreign Commerce Case Number) for identification purposes. The number does not indicate whether the application has been rejected or has been validated as a license. The Bureau of Foreign Commerce Case Number appears in the upper right corner.

2. *Validation of Form IT– or FC–628.* When an application for export license is approved the license will be issued in the following manner:

(a) Form IT– or FC–628 will be prepared, validated, and issued by the Bureau of Foreign Commerce upon approval of a license application for the exportation of commodities to any destination. The license will be validated and identified by a license number in the upper right corner of the document. The license number is composed of a letter and a series of numerals following the validating symbol; for example, A5–2–8–04051, or B51031–33031. The digits immediately following the letter indicate the year, month and day of validation; the last half of the number is the validating sequence. (A5–2–8 signifies a validating action in the year 1955 (5), in the month of February (2), on the eighth day of the month (8). B51031 signifies a validating action in the year 1955 (5), in the month of October (10), on the last day of the month (31).)

[6] Subject to approval of the Bureau of the Budget pursuant to the Federal Reports Act of 1942.

(b) License continuation sheets and other attachments to licenses will be validated by imprinting a facsimile of the Bureau of Foreign Commerce seal followed by a five digit number representing the date of validation.

3. *Use of license number.* Exporters are cautioned to use the complete license number (letter, digits indicating date of validation, and digits indicating validating sequence) when preparing Shipper's Export Declarations and other export documents, and when communicating with or requesting services from the Department of Commerce.

(b) *Units of quantity.* Where no unit of quantity is shown in the column on the Positive List headed "Unit" (§ 399.1 of this subchapter), the quantity of such commodities authorized for export is licensed by the Bureau of Foreign Commerce in terms of the total dollar value shown on the licenses. For purposes of consideration of license applications, the Bureau of Foreign Commerce requires that the unit of quantity commonly used in the trade must be shown on the license application for export of such commodities; and although the units of quantity commonly used in the trade may be shown on the export license issued, the quantity of commodities authorized for export by the license is limited entirely by the total dollar value shown on the license.

(c) *Partial shipments.* Partial shipments may be made against a validated license; however, when the exportation is by mail, only one shipment may be made, unless shipment is made in accordance with the provisions of § 379.1 (b) (1) of this subchapter.

(d) *Validity of licenses.* (1) Outstanding licenses may be revised, suspended, or revoked, or the validity periods thereof may be extended or reduced, by appropriate orders or regulations.

(2) Unless otherwise stated on the face of the license, export licenses will be issued for a validity period ending on the last day of the sixth month following the month during which the license is validated, e. g., a license issued on January 12 would expire on July 31. If the validity period expires on a day when the office of the Collector of Customs is not open for business, the validity period shall automatically be extended to midnight of the first day of business following the expiration date.

NOTE: Refer to Part 373 of this subchapter to determine if the special provisions for a commodity include any particular terms regarding the validity period of the individual export license.

§ 372.12 *Reexportation from country of destination*—(a) *General provisions.* (1) No exportation may be made under any validated license with the knowledge or intention that the commodities so exported are to be reexported from the country stated on the license application as the country of ultimate destination, unless the reexportation has been specifically authorized by the Bureau of Foreign Commerce, except as provided in paragraphs (b) and (c) of this section.

(2) If it is stated on an export license application that the commodity or commodities to be exported are intended for distribution or resale in a country or countries other than the named country of ultimate destination, the validated license will specifically name the country or countries to which distribution or resale is authorized. The only exceptions to this rule are Time Limit (TL) licenses (see Part 377 of this subchapter) and the Foreign Distribution (FD) licenses (see Part 378 of this subchapter), where reexport authority may be granted on a document other than the license itself. Authorization will be granted or withheld by an appropriate statement on the face of the validated license, as follows:

(i) "Distribution or resale of the commodities listed above is permitted in the country of ultimate destination only"; or

(ii) "Distribution or resale of the commodities listed above is permitted in (name of country of ultimate destination) and (names of other approved countries)."

NOTE 1: *Destination control statement.* Where the license application does not include a request for distribution or resale; or where the export license authorizes distribution or resale only in the country of ultimate destination, the destination control statement shown on the Shipper's Export Declaration, Bill of Lading and Commercial Invoice shall state:

"These commodities licensed by U. S. for ultimate destination (name of country of ultimate destination shown on export license). Diversion contrary to U. S. law prohibited."

Where the export license authorizes distribution or resale in a country or countries other than the country of ultimate destination, the destination control statement shown on the Shipper's Export Declaration, Bill of Lading and Commercial Invoice shall state:

"These commodities licensed by U. S. for ultimate destination (name of country) and for distribution or resale in (name of other approved countries as shown on validated license). Diversion contrary to U. S. law prohibited."

NOTE 2: *Notice to consignee of distribution and resale authority.* In those cases where the Bureau of Foreign Commerce has disapproved an authorization request for distribution or resale, in whole or part, it is suggested that the U. S. exporter may wish to advise his foreign consignee of the Bureau of Foreign Commerce decision in advance of the required notification, in the form of the Destination Control Statement on the Bill of Lading and Commercial Invoice.

(3) Where additional distribution or resale authority is required subsequent to the submission of a license application to the Bureau of Foreign Commerce, such request for authority shall be made as follows:

(i) If the license application is still pending with the Bureau of Foreign Commerce; or, if the export license has been issued and the proposed shipment has not been cleared for export by the U. S. Collector of Customs, Form IT– or FC–763 shall be submitted to the Bureau of Foreign Commerce, Washington 25, D. C., in accordance with the procedure described in § 380.2 (g) of this subchapter.

(ii) If the shipment has been cleared for export by the U. S. Collector of Customs, a letter request, in duplicate, shall be submitted to the Bureau of Foreign Commerce, Washington 25, D. C. The letter request shall identify the export license number (if known) and include the commodity description and quantity proposed for distribution or resale in each country of distribution or resale.

(b) *Tangier to Morocco.* Validated licenses covering R commodities which permit exportation to Tangier (including the International Zone), French Morocco, or Spanish Morocco are valid for shipment or transshipment of such commodities to Tangier (including the International Zone), French Morocco, or Spanish Morocco.

(c) *Reexportations.* Any commodity which has been exported from the United States may be reexported from any destination to any other destination; provided that at the time of reexportation, the commodities to be reexported may be exported directly from the United States to the new country of destination either under General License GO, GRO, GHS, GHK, or GLSA or where the value of the reexportation does not exceed the GLV dollar-value limit shown on the Positive List with reference to the country of destination.

NOTE: For reexportation of technical data, see § 385.6 of this subchapter.

§ 372.13 *Duplicate licenses.* Where a license is lost or destroyed, a duplicate of such license may be obtained by the licensee by submitting to the Bureau of Foreign Commerce a letter certifying:

(a) That the original license assigned Case No. ------ and License No. ------ (if known) issued to ------ (Name and address of licensee) ---------- has been lost or destroyed;

(b) The circumstances under which it was lost or destroyed;

(c) The quantity of commodities, if any, that have been shipped under the original license and at what port the license was filed;

(d) If the original license is found, the licensee agrees to return the original or duplicate license to the Bureau of Foreign Commerce.

NOTE: Where partial shipments have been made, the duplicate license issued by the Bureau of Foreign Commerce will be mailed directly to the Collector's office at the port where the license had been filed.

§ 372.14 *Return of revoked, expired, or unused licenses.* If a license is revoked or expires or if shipment is not to be made, the license shall be returned immediately to the Bureau of Foreign Commerce, with a covering letter explaining the reason for such return. If the license is not in his possession, the licensee shall so notify the Bureau of Foreign Commerce.

§ 372.15 *Reports.* Any person to whom a validated license has been issued shall file with the Bureau of Foreign Commerce such reports as the Bureau of Foreign Commerce shall, from time to time, require.[6]

---

## PART 373—LICENSING POLICIES AND RELATED SPECIAL PROVISIONS

### Subpart A—How To Use Part 373

Sec.
373.01 Organization of sections.
373.02 How to determine whether any special provision is applicable.

[6] Subject to approval of the Bureau of the Budget pursuant to the Federal Reports Act of 1942.

### Subpart B—Multiple Commodity Group Provisions

Sec.
373.1 Export licensing general policy.
373.2 Confirmation of country of ultimate destination and verification of actual delivery.
373.3 [Reserved]
373.4 Statement of past participation.
373.5 Agricultural commodities owned or previously owned by the Commodity Credit Corporation (CCC).
373.6 Return of unused quota.
373.7–373.10 [Reserved]

### Subpart C—Individual Commodity Group Provisions

COMMODITY GROUP 00
373.11–373.12 [Reserved]
COMMODITY GROUP 0
373.13–373.16 [Reserved]
COMMODITY GROUP 1
373.17–373.19 [Reserved]
COMMODITY GROUP 2
373.20 Applicability of multiple commodity group provisions to Commodity Group 2 commodities.
373.21–373.23 [Reserved]
COMMODITY GROUP 3
373.24–373.27 [Reserved]
COMMODITY GROUP 4
373.28 Applicability of multiple commodity group provisions to Commodity Group 4 commodities.
373.29–373.30 [Reserved]
COMMODITY GROUP 5
373.31 Applicability of multiple commodity group provisions to Commodity Group 5 commodities.
373.32 Petroleum products.
373.33 Diamonds.
373.34–373.38 [Reserved]
COMMODITY GROUP 6
373.39 Applicability of multiple commodity group provisions to Commodity Group 6 commodities.
373.40 Iron and steel.
373.41 Nonferrous commodities, including ores, concentrates, or unrefined products.
373.42 Tools incorporating industrial diamonds.
373.43–373.47 [Reserved]
COMMODITY GROUP 7
373.48 Applicability of multiple commodity group provisions to Commodity Group 7 commodities.
373.49 Machinery and parts.
373.50 Commodity Group 7 commodities with processing code STEE.
373.51 Radio, electronic and cathode ray tubes.
373.52–373.53 [Reserved]
COMMODITY GROUP 8
373.54 Applicability of multiple commodity group provisions to Commodity Group 8 commodities.
373.55 Chemicals and medicinals.
373.56 Selenium containing chemical compounds, including pigments.
373.57–373.58 [Reserved]
COMMODITY GROUP 9
373.59 Applicability of multiple commodity group provisions to Commodity Group 9 commodities.
373.60 [Reserved]
373.61 Tools incorporating diamonds.
373.62–373.64 [Reserved]

### Subpart D—Destination Provisions

373.65 Ultimate consignee and purchaser statements.
373.66 Austria.
373.67 Switzerland.
373.68 Cambodia, Laos, and Viet-Nam (the area formerly known as Indo-China).
373.69 Hong Kong.
373.70 Yugoslavia.

### Subpart E—Time Schedules for Submission of Applications for Licenses

373.71 Supplement 1.

AUTHORITY: §§ 373.01 to 373.71 issued under sec. 3, 63 Stat. 7, as amended; 50 U. S. C. App. 2023, E. O. 9630, 10 F. R. 12245, 3 CFR, 1945 Supp., E. O. 9919, 13 F. R. 59, 3 CFR, 1948 Supp.

### SUBPART A—HOW TO USE PART 373

§ 373.01 *Organization of sections*—(a) *General organization.* (1) The sections of this part, while numbered consecutively in the usual manner, are arranged into three separate divisions under the following main headings:

Multiple Commodity Group Provisions (§§ 373.1–373.10).
Individual Commodity Group Provisions (§§ 373.11–373.64).
Destination Provisions (§§ 373.65–373.70).

(2) The basis for the organization of the first two divisions is the "commodity group." Commodity groups are the major classifications of commodities exported from the United States as set forth on page xxxi of Schedule B, Statistical Classification of Domestic and Foreign Commodities Exported From the United States and also on the Positive List (§ 399.1 of this chapter). There are 11 such groups, numbered 00 to 9, inclusive. The commodity group number of any commodity is the same as the first digit of the Schedule B number, except in the case of Group 00, where the first two digits of the Schedule B number indicate the commodity group.

(b) *Commodity provisions.* Under the heading "Multiple Commodity Group Provisions" are those sections (§§ 373.1–373.10) which apply to commodities in several or all commodity groups and cannot therefore be identified with a single commodity or commodity group. Under the heading "Individual Commodity Group Provisions" are the sections (§§ 373.11–373.64) containing the provisions for each commodity group, 00 to 9, inclusive, each such group being identified by the appropriate subheading "Commodity Group 1," "Commodity Group 2," etc.

(c) *Destination provisions.* Under the heading "Destination Provisions" are all provisions relating solely to exportations to particular destinations without regard to the commodity involved; i. e., all commodities requiring a validated license for export are subject to these provisions when exported to one of these destinations.

NOTE: The special provisions for particular commodity groups (§§ 373.11–373.64), "Individual Commodity Group Provisions," relate in some cases both to particular commodities and particular destinations. These provisions are considered "commodity" provisions in that they apply only to particular commodities when exported to these destinations, rather than to all commodities.

§ 373.02 *How to determine whether any special provision is applicable*—(a) *Commodity provisions.* To determine

whether there are special provisions applicable to a particular commodity, an applicant for export license need only take the first figure in his Schedule B number and then refer to the special provisions for that commodity group number. For example, wire rods, nickel-bearing stainless steel, Schedule B No. 601910, is in Commodity Group 6, as indicated by the first digit of the Schedule B number. All special provisions for this commodity, as well as any other commodity having a Schedule B number beginning with the number 6, will be found in the sections under the subheading "Commodity Group 6" (§§ 373.39–373.47). If a commodity is subject to a multiple commodity group provision (§§ 373.1–373.10), a provision to this effect appears in the first section under the appropriate commodity group heading. Multiple commodity group provisions are not repeated in the individual commodity group provisions but are referred to whenever applicable. For example, diamond powder, Schedule B No. 540910, is subject to the provisions of § 373.2 since this commodity is identified on the Positive List of Commodities by the letter "A". Section 373.31, the first section under the heading "Commodity Group 5," contains a provision to that effect. An applicant need not therefore, refer to any of the multiple commodity group provisions in §§ 373.1–373.10 unless specifically directed to do so by the provisions appearing in the first section under his individual commodity group heading. After having made this determination, an applicant should refer to the other sections under the same commodity group heading to determine whether any of them apply to his commodity.

(b) *Destination provisions.* To determine whether there are special provisions applicable to a particular destination, an applicant need only consult the provisions under the heading "Destination Provisions," §§ 373.65–373.70. The section titles indicate the destinations covered; e. g., § 373.67, "Switzerland."

## SUBPART B—MULTIPLE COMMODITY GROUP PROVISIONS [1]

§ 373.1 *Export licensing general policy.* The following general, but not exclusive, policy for export licensing and related procedures are hereby established.

(a) *End use.* Where commodities are licensed for export on the basis of the specific end use to which the material will be applied abroad, applications will be considered for approval only if they conform to appropriate end uses.

(b) *Foreign government recommendations.* The Department of Commerce reserves the right in all respects to determine to what extent any recommendations made by foreign governments should be followed. However, the Department of Commerce will not seek or undertake to give consideration to recommendations from foreign governments as to the United States exporters whose license applications should be approved.

(c) *U. S. and foreign government procurement*—(1) *U. S. Government.* For such purchases as may be made by agencies of the United States Government, licenses, where required, will be issued to the United States purchasing agency or its designee making the export shipment, but such exports will be authorized only where it is evident that the use of private trade channels is inappropriate.

(2) *Foreign governments.* Procurement by foreign governments will be subject to continuous review in line with the announced policy of the United States to maximize the restoration of private trade, and in every instance the foreign government will be requested, before it buys any commodity, to establish the competitive nature of its procurement.

(d) *Commodity advisory panels and committees.* Commodity advisory panels and committees will be consulted regarding problems arising in the administration of the provisions of this section.

§ 373.2 *Confirmation of country of ultimate destination and verification of actual delivery*—(a) *Scope*—(1) *General.*[2] The provisions of this section shall apply to shipments for which a validated license is required covering the following commodities proposed for export or exported to the following countries:

(i) *Commodities.* The commodities subject to the provisions of paragraph (c) of this section, Submission of Import Certificate, are those commodities on the Positive List of Commodities (§ 399.1 of this subchapter) that are identified by the letter "A" in the column headed "Commodity Lists." All commodities on the Positive List of Commodities (§ 399.1 of this subchapter) are subject to the provisions of paragraph (e) of this section, Submission of Delivery Verification.

(ii) *Countries.* Austria,[3] Belgium, Belgian Congo, Denmark, France, Federal Republic of Germany, Western Sectors of Berlin, Italy, Japan, Luxembourg, Netherlands, Norway, Portugal, Turkey, and United Kingdom. (Hong Kong is also a participant in the procedure set forth in this section, but because of certain distinguishing features of the procedure established for Hong Kong, the provisions applicable to Hong Kong are set forth in a separate section, § 373.69.)

(2) *Exemptions.* The provisions of paragraph (c) of this section shall not apply to: (i) a shipment or application for export license covering a shipment under a project license; (ii) an application for license to export commodities classified in a single entry on the Positive List the total value of which, as shown on the export order, is less than $500, except where a multiple-transaction Import Certificate is filed in accordance with paragraph (c) (2) of this section; (iii) an application for license to export a commodity to a foreign government or government agency when such government or government agency actually placed the order with the applicant and will take delivery of the exportation when it is received in the importing country; or (iv) a shipment made by a relief agency registered with the Advisory Committee on Voluntary Foreign Aid, International Cooperation Administration (formerly FOA) to a member agency in the foreign country.

(b) *Definitions.* As used in this section, the terms, "Import Certificate" and "Delivery Verification" (IC/DV) refer to the documents issued by governments of countries listed in paragraph (a) (1) of this section to importers in such countries and are the equivalent documents to the Import Certificate (Form IT– or FC–826), and Delivery Verification (Form IT– or FC–908), issued to United States importers (see § 368.1 of this chapter).

(c) *Submission of Import Certificate*—(1) *Single-transaction Import Certificates.* (i) The applicant shall attach to his license application, covering a proposed exportation described in paragraph (a) of this section, the original Import Certificate, bearing the official authentication of the governmental authorities in the importing country, to the named importer or his agent and covering the commodity or commodities described in the export license application.

(ii) Where the single-transaction Import Certificate covers commodities for which more than one export license application is submitted, the original Import Certificate shall be attached to the first such application. Each subsequent application shall include the following certification:

I (we) certify that I (we) have not submitted applications including the present application against the ----------
(Name of country)
Import Certificate Number ------ in excess of the total quantity authorized thereon. This Import Certificate was submitted in support of Application No. ----------
----------
(BFC Case No. or if Case No. is unknown, the Applicant's Reference No., date of submission of the application to which the Import Certificate was attached, and Schedule B Nos. shown on that application)

NOTE: Whenever possible the BFC Case Number should be indicated on the certification set forth above since failure to supply the BFC Case Number may result in delay in processing the license application.

(2) *Multiple-transaction Import Certificates.* Exporters may submit to the Bureau of Foreign Commerce an original Import Certificate, if issued by a foreign government, covering all proposed exportations of a commodity or commodities, regardless of value (including commodities based on export orders amounting to less than $500), for a specific period or if no specific period is shown, for a specific quantity or value. The exporter shall submit the original certificate, bearing the official authentication of the governmental authorities in the importing country, together with one additional copy for each Bureau of Foreign Commerce processing code to which the certificate applies and a listing of such processing codes. Each subsequent application for export license submitted against the multiple-transaction Import Certificate shall bear on the face of the application one of the following certifications (depending on whether a quantity is shown on the Import Certificate) signed by the applicant:

I (we) certify that I (we) have not submitted applications including the present application against the ----------
(Name of country)
Import Certificate Number ------ in excess of the total quantity authorized thereon.

or (if no quantity is shown on the certificate),

This application is supported by the ---------- multiple-transaction Import Certificate Number ------.
(Name of country)

NOTE: 1. *Translation requirements.* All abbreviations, coded terms, or other expressions having special significance in the trade or to the parties to the transaction must be explained. Documents in a foreign language must be accompanied by an accurate English translation. Such translation need not be made by a translating service, but, if not, must be certified by the applicant to be a correct translation. (See § 372.9 of this chapter.)

2. *Purchase order.* The Import Certificate may cover more than one purchase order and may be concerned with several commodities; however, the Import Certificate shall relate only to purchase orders placed by a single importer located in a single foreign country, with a single United States exporter.

3. *Applicant's responsibility for full disclosure.* In submitting an Import Certificate the applicant is not relieved of responsibility for full disclosure of any other information concerning the ultimate destination and end use of which he has knowledge or belief, whether or not inconsistent with the representations set forth in the Import Certificate. In accordance with the provisions of § 368.1 of this chapter, the applicant also shall, by means of supplementary statements from the importer or any other party to the transaction, notify the Bureau of Foreign Commerce of any change that is brought to his notice subsequent to the date the Import Certificate is issued or certified by the government of the country of ultimate destination.

4. *Import Certificate as a factor in licensing.* The Department of Commerce reserves the right in all respects to determine to what extent any license shall be issued covering commodities for which a foreign government has issued an Import Certificate. The Department of Commerce will not seek or undertake to give consideration to recommendations from a foreign government as to the United States exporter whose license application should be approved. An Import Certificate will be used by the Bureau of Foreign Commerce as only one of the considerations upon which licensing action will be based, since quotas, end uses, etc., must remain important factors in export licensing.

5. *Return of Import Certificate.* The U. S. exporter may be requested by his foreign importer to return an unused or partially used Import Certificate. In such case, the United States exporter shall forward the Import Certificate to his importer as soon as he determines that the Import Certificate will not be used with a new or resubmitted application, or an appeal.

Failure on the part of the U. S. exporter to comply with his foreign importer's request will result in the importer's inability to fulfill his obligations to his government and may result in the foreign importer being denied further Import Certificates. This action obviously would prevent the U. S. exporter's participation in further export transactions with such foreign importer. In addition, the foreign importer may be subjected to other penalties for his failure to return the Import Certificate.

The Bureau of Foreign Commerce will not return an Import Certificate to the U. S. exporter where the total quantity shown on the Import Certificate has been shipped or is covered by an outstanding export license(s). In order to comply with a foreign importer's request for the return of an unused or partially used Import Certificate, an Import Certificate on file in the Bureau of Foreign Commerce will be returned to the exporter in accordance with the procedures described below.

(a) Where an Import Certificate covers a quantity in excess of the export license applications submitted against it, or does not specify the quantity covered, the Bureau of Foreign Commerce will retain the Import Certificate until such time as the exporter requests the return thereof. When requesting the return of the Import Certificate, the exporter should submit his request in writing, showing the name and address of the named importer, applicable Bureau of Foreign Commerce Case Numbers to which the Import Certificate applies, Import Certificate number, and a statement that such Import Certificate will not be used in connection with a new or resubmitted application for export. Appropriate notation will be made on the Import Certificate by the Bureau of Foreign Commerce.

(b) The Bureau of Foreign Commerce will automatically return the applicable Import Certificate to the U. S. exporter (applicant) whenever an application for export covers the same type and amount of the commodity as that shown on the Import Certificate, but such application is rejected or approved in a reduced quantity. Appropriate notation will be made on the Import Certificate by the Bureau of Foreign Commerce. In some cases, the Import Certificate covering an application rejected by the Bureau of Foreign Commerce for other than quota reasons will be returned directly to the government which issued the certificate. In such cases the applicant will be notified of this action. In any event, the government issuing the Import Certificate will be notified if the export application which it covers is rejected.

(c) In instances where the U. S. exporter does not intend to ship the total quantity of commodities for which a license has been issued and desires the return of the Import Certificate, he should submit his request in writing for return of the Import Certificate together with request for cancellation or amendment of the unexpired license to show the quantity which he intends to ship. (See § 380.2 of this chapter.) In such cases exporters shall submit the amendment form, Form IT– or FC–763 (in addition to the letter request), as provided by the regular amendment procedure. Appropriate notation will be made on the Import Certificate by the Bureau of Foreign Commerce.

(d) *Requests for amendments.*[4] A new or appropriately amended Import Certificate shall accompany a request for an amendment of an export license which proposes a change in any party to the transaction named in the export license or any increase in the quantity set forth in the export license if the proposed amendment is not in accordance with the Import Certificate previously submitted to the Bureau of Foreign Commerce. If a proposed quantitative amendment is in accordance with the previously submitted Import Certificate the amendment request shall include the following certification:

I (we) certify that this request for amendment of export license number ------, if granted, will not exceed the total quantity authorized under the----------
(Name of country)
Import Certificate Number------.

(e) *Submission of delivery verification*—(1) *Notification of requirement.* (i) The licensee may be requested by the Bureau of Foreign Commerce to submit a Delivery Verification with respect to any commodities exported under a validated license to a country listed in paragraph (a) of this section, including commodities not subject to paragraph (c) of this section and exceptions and exemptions granted under the provisions of paragraphs (a) (2) and (h) of this section. Where such Delivery Verification is required, the face of the export license will bear the stamped words "Delivery Verification Required, see attached Form IT– or FC–863." In addition, Form IT– or FC–863, Notification of Delivery Verification Requirement, will be attached to the license. Where a Form IT– or FC–863 is attached to a license forwarded by the Bureau of Foreign Commerce to an agent or freight forwarder of the licensee, it shall be the responsibility of such agent to notify the licensee that a Delivery Verification is required.

(ii) The requirement that a Delivery Verification be submitted for a particular export transaction is cancelled automatically if subsequent to the issuance of a license, the commodity is deleted from the Positive List, or the letter "A" in the Commodity Lists column is removed from the commodity listing on the Positive List.

(2) *Submission to the Bureau of Foreign Commerce.* When notified to do so by the Bureau of Foreign Commerce, any person issued licenses covering shipments within the scope of this section shall, within a reasonable time after clearance of the last exportation made under the license: (i) Obtain from the named importer a Delivery Verification which has been issued to the importer by his government covering the commodities described on the particular export license, or so much thereof (when complete shipment against the license will not be made) as the licensee will have shipped; and (ii) send the original copy of the Delivery Verification to the Bureau of Foreign Commerce. If a Delivery Verification is required with respect to commodities covered by a license and the licensee makes partial shipments against the license, the licensee shall obtain a Delivery Verification for each partial shipment and retain it in its files until all Delivery Verifications respecting shipments against the license have been received by him, and then send the original copies of all such Delivery Verifications to the Bureau of Foreign Commerce in one parcel.

NOTE 1. *Delivery verifications.* It will be the policy of the Bureau of Foreign Commerce to require Delivery Verifications on a selective basis where Import Certificates are required. Also, Delivery Verifications may be required relative to export licenses issued for exportation to any of the foreign countries

[1] Applicants should first consult the special provisions for the particular commodity groups in which commodities are classified before referring to the provisions in §§ 373.1–373.10. (See § 373.01 and § 373.02.)

[2] In certain exceptional instances, an Import Certificate may be required for transactions not involving an exportation from the United States under a validated license. (See § 368.1 (b) (8) of this subchapter.)

[3] Also see § 373.66 for requirements of Austrian Import Identification Number.

[4] Section 380.2 of this chapter contains other provisions applicable to amendments of applications covered by an Import Certificate.

participating in the Import Certificate/Delivery Verification procedure, even though the licensed commodities are not subject to paragraph (c) of this section, or are commodities for which exemptions and exceptions have been granted under the IC/DV procedure.

2. *Translation requirements.* See Note 1 following paragraph (c) of this section.

(f) *Effective dates.* Whenever the scope of this section is extended by adding additional commodities or countries to those described in paragraph (a) of this section, such changes shall become effective 45 days from the time such new commodities or countries are added.

(g) *Relationship to ultimate consignee statements.* The requirement for submission of consignee statements specified in § 373.65 shall not be applicable wherever Import Certificates are submitted pursuant to the requirements of this section.

(h) *Request for exception.* (1) Any applicant affected by the provisions of paragraph (c) of this section may file a request for exception upon the grounds that the foreign importer has been unable to obtain the required document. Such requests will not be considered where the granting of an exception would be contrary to the objectives of the United States export control program. The Bureau of Foreign Commerce will consider exceptions where it is shown that this procedure is inapplicable to the transaction (e. g., the shipment will not be imported for consumption into the named country of destination) or that the refusal to issue the certificate constitutes discrimination against the United States exporter, or for any other valid reason of similar importance. Each such request shall be by letter, in duplicate, accompanying the license application to which it applies, addressed to the Bureau of Foreign Commerce, Department of Commerce, Washington 25, D. C. The letter request should include, among other things, the nature and duration of the business relationship between the applicant and the importer shown on the license application; a statement as to the country or countries in which the commodities will be used; the reason or reasons for the foreign importer's inability to obtain the Import Certificate from his government; a statement as to whether the exporter has previously submitted to the Bureau of Foreign Commerce any Import Certificates issued in the name of the importer; a listing of such Bureau of Foreign Commerce Case Numbers, where applicable; and any other facts which would justify the granting of an exception. The applicant should also attach to his letter request, or have on file in the Bureau of Foreign Commerce, a statement from the consignee and purchaser in accordance with § 373.65. No request for exception will be considered or granted unless such statement is submitted or is on file in the Bureau of Foreign Commerce.

(2) Where the letter request relates to more than one license application, whether submitted at the same time or at a later date, and the same importer, destination and circumstances are involved, the letter request shall be attached to the first such application. Each subsequent application shall contain a reference to the Bureau of Foreign Commerce Case Number and the date of the Bureau of Foreign Commerce letter granting the exception, if known, or if such information is unavailable, the applicant's reference number or other information which will identify these documents. In addition, each subsequent application shall include the following certification:

I (we) certify that the circumstances shown in the original request for exception, for which identifying information is furnished herewith, also exist with respect to this application.

(3) In granting an exception, the Bureau of Foreign Commerce reserves the right, as a prerequisite to such exception, to require special reports or other information as required to insure that there is no risk of transshipment to destinations to which the delivery of commodities exported under the exception procedure would represent a contravention of the objectives of the United States export control program.

NOTE: Applicants are advised that delay may be entailed in the review of a license application under this exception clause in view of the necessary added consideration, although the Bureau of Foreign Commerce will process the application as quickly as possible. The Bureau of Foreign Commerce can give no assurance that an export license will be issued for any exportation where an exception to this Section is requested.

EXPLANATORY STATEMENTS AND INTERPRETATIONS. 1. Q. Why does the Bureau of Foreign Commerce require a Delivery Verification on the same transaction for which it requires an Import Certificate?

A. One of the primary purposes of the Import Certificate requirement is to obtain from the foreign importer certain material representations which he makes to his own government and for which he is subject to punitive action by his government in the event that his representations were false when made, or if he fails to live up to such representations. In order to determine whether an importer has fulfilled his obligations under an Import Certificate, it is necessary to note, after the fact, that he has imported the shipment into the jurisdiction and control of the customs of his country. This is the purpose that is served by the Delivery Verification. The Delivery Verification procedure places the responsibility for the discovery of violations on the exporting country which is where the governments of the participating countries believe the responsibility should lie.

2. Q. What is the exporter's responsibility for obtaining a Delivery Verification?

A. When an export license is issued with a requirement that a Delivery Verification be obtained, the Delivery Verification requirement is a condition of the use of the license. Thus, an exporter properly uses the export license only if he fulfills this condition, or uses every reasonable means to do so. An exporter who fails to request the required Delivery Verification from his importer has not fulfilled the conditions of his export license, and is subject to enforcement action. Of course, all export licenses, whether containing a requirement for a Delivery Verification or not, contain a condition of delivery to the named country of ultimate destination as provided on the face of the license.

3. Q. What is the exporter's responsibility if a Delivery Verification is not forthcoming?

A. If an exporter is unable to obtain the required Delivery Verification from his importer, despite all reasonable efforts to do so, it is his responsibility to report promptly to the Bureau of Foreign Commerce his inability to obtain a Delivery Verification, and to make available to the Bureau of Foreign Commerce a full and complete record of his correspondence with the importer, and any other information which he may have, relating to the export transaction. Unless requested by the Bureau of Foreign Commerce to take further steps, the exporter's responsibility in the transaction will then usually have been completed. The Bureau of Foreign Commerce through its regular procedures will investigate with the importing country to ascertain whether the goods were, in fact, delivered into the commerce of the country, and at the same time will determine what course of action should be taken with respect to the importer abroad.

4. Q. Does the Bureau of Foreign Commerce have a procedure for multiple-transaction Import Certificates comparable to the multiple-transaction ultimate consignee statements (Form IT– or FC–843)?

A. Subparagraph (c) (2) of § 373.2 contains a procedure for multiple-transaction Import Certificates similar to that for multiple-transaction ultimate consignee statements. The procedure provides that when an exporter avails himself of use of the multiple-transaction Import Certificate, he shall submit to the Bureau of Foreign Commerce the original Import Certificate, a copy of the Import Certificate for each processing code covered by the Import Certificate, and a listing of the processing codes to which the certificate applies. Applications submitted against the multiple-transaction Import Certificate shall bear on the face of the export license application one of the applicable certifications provided for in subparagraph (c) (2).

5. Q. If an exporter participates in a transaction or series of transactions in which the commodities will not be entered into the commerce of the importer's country, and if for this reason or otherwise the importer is precluded from obtaining an Import Certificate from his government, how can the United States exporter obtain an export license?

A. In such instances, the exporter will file a letter requesting an exception under § 373.2 (h), setting forth the information required by that section.

In addition, an Ultimate Consignee and Purchaser Statement (Form IT– or FC–842) or a Multiple-Transaction Statement (Form IT– or FC–843), where applicable, completed by the importer shall also be submitted in accordance with § 373.65 of the Export Regulations.

If upon analysis of this request for exception, the facts contained therein are verified, and if the granting of an exception in such case is not contrary to the objectives of the United States export control program, the Bureau of Foreign Commerce will issue a letter to the exporter granting his request for exception and his applications for export licenses filed in connection with these transactions will be processed in the usual manner on the basis of the ultimate consignee and purchaser statement submitted in lieu of the Import Certificate.

In some cases, an importer in Hong Kong may obtain an Import License from his government when the commodities to be exported from the United States to Hong Kong are destined to be reexported to another country. The Import License covering such a transaction will be endorsed:

For re-export to _____

_____

(Approved destination)

diversion en route prohibited. To be delivered by shipping or airline company concerned to govt-designated godown. Overside delivery not permitted. Release from godown subject to approval of export license.

6. Q. How can the exporter mentioned in Question 5 obtain subsequent licenses?

A. In the event that an exporter finds it necessary to file subsequent applications for export licenses to cover the same transaction or additional transactions of the same kind for which an exception to the Import Certificate procedure has been granted him by the Bureau of Foreign Commerce, it will be necessary for him to state on the face of each such application that he has been granted an exception from the Import Certificate procedure and identify, by date, the letter of exception which he previously received from the Bureau of Foreign Commerce, and the case number to which his original request for exception was attached. In addition, it will be necessary for him to submit with each such application an ultimate consignee and purchaser statement (Form IT– or FC–842) or refer on the face of the application to the multiple transaction ultimate consignee and purchaser statement (Form IT– or FC–843) on file with the Bureau of Foreign Commerce.

7. Q. Will there be any delay in processing applications submitted with a request for exception? What considerations in these kinds of transactions delay the processing and would not be relevant if an Import Certificate were available?

A. When an Import Certificate is available, it carries with it certain assurances and safeguards which materially reduce the amount of independent checking which the Bureau of Foreign Commerce must do in order to assure itself that the export transaction will be carried through in the best interests of our national security. Consequently, when an Import Certificate is not available, it becomes necessary in some cases to establish adequate checks, and action on the application may thus be delayed.

8. Q. Does the $500 exemption under the IC/DV procedure mean that, to be eligible for such exemption, a complete order must be under the $500 limit, or does it mean that part of an order relating to a single entry on the Positive List must be under the $500 limit?

A. The $500 exemption is to be applied to that part of an order relating to a single entry on the Positive List. Where an order from the foreign customer includes commodities relating to several entries on the Positive List and the value of each is less than $500, but the aggregate total value of all commodities included in the order is more than $500, the exemption still applies.

9. Q. When is an Import Certificate not required?

A. (a) Project licenses.

(b) Applications for commodities to be imported by a foreign government or government agency when such government or government agency actually placed the order with the applicant and will take delivery of the exportation when it is received in the importing country.

(c) Applications submitted by relief agencies registered with the Advisory Committee on Voluntary Foreign Aid, International Cooperation Administration (formerly FOA), when such shipments are being made to a member agency in the foreign country.

(d) Commodities exported under a general license.

(e) Single entries on the Positive List, the total value of which is less than $500 as shown on the export order.

(f) In any case where a specific exception is granted by the Bureau of Foreign Commerce.

10. Q. Does the IC/DV procedure apply in the case of exports to overseas territories of countries participating in the IC/DV system?

A. The procedure is at present inapplicable unless the overseas territory is specifically named in § 373.2 (a) (1) (ii). If the physical movement of the shipment is direct from the United States to an overseas territory not listed in § 373.2 (a) (1) (ii), the Import Certificate procedure is inapplicable, and a statement of end use and destination is required from the purchaser and ultimate consignee in Country Group R destinations, in accordance with § 373.65.

11. Q. When only part of an order includes a commodity subject to the IC/DV procedure, may the Import Certificate be secured and utilized to cover the entire order (including commodities not subject to the procedure) to avoid the necessity for securing an ultimate consignee statement of end-use and destination for the commodities not subject to the IC/DV procedure?

A. Yes, if the Import Certificate covers all of the commodities listed on the application. However, an Import Certificate is expected to be issued only for those commodities identified on the Positive List by the letter "A", except that an Import Certificate in the form of a duplicate copy of the Import License will be required for all Positive List commodities to be shipped to Hong Kong. U. S. exporters generally should not request an Import Certificate from the importer for other commodities, but instead should require a consignee/purchaser statement to cover these items.

12. Q. May a certified copy of an Import Certificate be submitted in lieu of an original?

A. No. In the case of all participating countries except Hong Kong, the original of the Import Certificate must be submitted with the export license application. In the case of proposed exports to Hong Kong, the Import Certificate in the form of a duplicate copy of the Import License, endorsed "Duplicate Copy for Presentation to Appropriate Authority in Exporting Country" and signed by the Hong Kong Government official, must be submitted with the export license application. It has been agreed upon internationally (except in the case of Hong Kong) that only an original Import Certificate will be accepted by the exporting government authorities in connection with an application for export license. In every case where more than one application (Form IT– or FC–419) is submitted in connection with a single transaction Import Certificate, the procedure described and set forth in § 373.2 (c) (1) may be followed.

13. Q. What is the significance of the validity period or expiration date on an Import Certificate?

A. As long as the Import Certificate is received in the Bureau of Foreign Commerce prior to its expiration date, neither extension nor a new Import Certificate is required. In the event that an Import Certificate is submitted to the Bureau of Foreign Commerce after its expiration date, it will be returned to the applicant for amendment or submission of a new Import Certificate. The expiration date of the Import Certificate in no way affects the validity period for which the export license is granted.

14. Q. Will an Import Certificate be accepted if the value shown thereon is less than that shown on the export license application?

A. If the commodity is licensed by the Bureau of Foreign Commerce on the basis of total dollar value, a license will not be issued in excess of the total dollar value shown on the Import Certificate. If the commodity is licensed by the Bureau of Foreign Commerce on the basis of units of measure, the license will not be issued in excess of the total units of quantity shown on the Import Certificate. If, in the latter case, the total dollar value shown on the Import Certificate is less than that shown in the application (Form IT– or FC–419), a new or amended Import Certificate will not be required unless the difference in value is significant.

15. Q. Will the Bureau of Foreign Commerce require Delivery Verifications on export licenses where the values are less than $500 and which do not, therefore, require Import Certificates as a prerequisite to the submission of the application?

A. Occasionally the Bureau of Foreign Commerce will request a Delivery Verification on such a transaction even though an Import Certificate was not required with the submission of the license application.

16. Q. From whom is the Import Certificate required where the purchaser and the ultimate consignee are different parties and located in the same country?

A. An Import Certificate will be accepted by the Bureau of Foreign Commerce from either party to the transaction. Participating governments generally issue Import Certificates to that party to the transaction taking the responsibility for entering the shipment into the commerce of the country.

17. Q. From whom is the Import Certificate required where the purchaser and ultimate consignee are different parties, located in different countries, and both countries are participants in the IC/DV system?

A. An Import Certificate will be required from that country to which the goods are shipped directly from the United States.

18. Q. From whom is the Import Certificate required where the purchaser and ultimate consignee are different parties, located in different countries, one country being a participating country and the other a nonparticipating country?

A. If the physical movement of the shipment is from the United States to a participating country, an Import Certificate will be required from the importer in the participating country regardless of whether the importer is the purchaser or ultimate consignee. On the other hand, if the physical movement of the shipment is direct from the United States to a non-participating country, the Import Certificate procedure is inapplicable and a consignee/purchaser statement is required from the purchaser and ultimate consignee in accordance with § 373.65 of the Export Regulations.

19. Q. Is an Import Certificate acceptable if the United States exporter is not named in the document?

A. An Import Certificate will not be acceptable if the United States exporter named in the Import Certificate does not appear as the applicant or the U. S. supplier on the United States export license application. It would be impossible to assure that the Import Certificate and the export license application represent the same transaction unless the applicant or the United States supplier named on the export license application also was named in the Import Certificate.

20. Q. For purposes of exemption from the Import Certificate requirement, what is a government agency?

A. The term "government agency" is construed to mean only those governmental departments operated by government paid personnel performing governmental administrative functions and not operated for profit. It does not include quasi-government agencies established or controlled by the government which perform commercial functions (e. g., resale or redistribution of goods of U. S. origin for commercial purposes).

21. Q. Should Form IT– or FC–863, Notification of Delivery Verification Requirement, be forwarded to the foreign importer in order to obtain a Delivery Verification?

A. No. Form IT– or FC–863 is a notification to the licensee that he is required to obtain a Delivery Verification from the foreign importer, and it should not be forwarded to the importer.

22. Q. Is a Delivery Verification ever required for a transaction for which an Import Certificate was not required either by exemption or exception or because the commodity is not subject to the IC/DV procedure?

A. Yes. A Delivery Verification may be required relative to any export license issued for exportation to any of the foreign

countries participating in the IC/DV procedure, including commodities not requiring an Import Certificate as well as commodities for which exemptions and exceptions have been granted under the procedure.

§ 373.3 [Reserved]

§ 373.4 *Statement of past participation*—(a) *Statement of past participation*—(1) *General.* (i) The use of the Statement of Past Participation in Exports aids in accomplishing one of the underlying considerations in licensing, namely, the maintenance of a normal pattern of export trade during periods of short supply. Under this method of license issuance, the bulk of export quotas is reserved for those firms who have participated in exports during a representative base period. However, licensing on the historical basis does not preclude participation by exporters who do not have a record of past participation in exports during the base period since a certain portion of the quota is also reserved for those exporters within this category. Where necessary, a portion of the quota will also be set aside for especially urgent needs, such as military or defense-supported requirements.

(ii) This section sets forth the general provisions for submission by exporters of a Statement of Past Participation in Exports when required by the export regulations.

(2) *Requirement to file.* Applicants for licenses to export any commodities subject to the provisions of this section are required to submit to the Bureau of Foreign Commerce a Statement of Past Participation in Exports of that commodity on Form IT– or FC–821, excluding exports specified in subparagraph (5) of this paragraph. Such commodities are set forth specifically in the special provisions applicable to each particular commodity group in which these commodities are classified. This information shall be filed only once by an applicant, unless there is a change in the name of the reporting firm or in its relation with other firms. At the time of such change, a new Form IT– or FC–821 shall be submitted which refers to the original form and contains the new information. In order to be considered in relation to a specific quota, the completed Form IT– or FC–821 must be received in the Bureau of Foreign Commerce prior to the termination date for filing applications under that quota. The submission of this information does not guarantee that the applicant will receive a license for the full amount or any portion of the commodities covered by his license application.

NOTE: Contrary to the instructions of Form IT– or FC–821, this form need be submitted in original only.

(3) *Restrictive quota participation* A single firm shall be entitled to only one participation in each quota established for each category of commodities subject to the provisions of this section. The filing of dual applications or the claiming of an additional participation through any device whatsoever, including the transfer or assignment of an export order, may result in the denial of export licensing privlleges to all persons concerned. In no instance may an additional participation in an export quota be claimed by the device of transferring an export order to another person or firm for the purpose of filing a license application covering a commodity subject to the provisions of this section.

(4) *Form IT– or FC–821.* The following information, in addition to other information specified on the form, shall be submitted on Form IT– or FC–821:

(i) On separate Forms IT– or FC–821 for each category of commodities, the total quantity of exports, excluding shipments covered by subparagraph (5) of this paragraph, from the United States to all foreign countries other than Canada shipped in the exporter's name, i. e., for his own account, during the base period specified for each such category of commodities, as set forth in the special provisions for the commodity groups in which such commodities are classified (§§ 373.11 to 373.64).

(ii) The names of each exporter, dealer, manufacturer, or other business organization (whether an individual, partnership, association, corporation, or other type of business organization) engaged in the export of the particular commodity being reported which is directly or indirectly owned or controlled by the applicant or which directly or indirectly owns or controls the applicant's operations. The date (month and year) when each such firm or organization was established and its relationship to the applicant's operation shall also be included.

(5) *Exports excluded from report.* Unless specifically requested, exportation of any commodity subject to the provisions of this section under conditions indicated subdivisions (i) to (v) of this subparagraph shall not be included in this report.

(i) Shipments to territories, dependencies and other possessions of the United States and Trust Territory of the Pacific Islands, i. e., the Caroline Islands, the Marshall Islands, and the Marianas Islands.

(ii) Toll shipments.

(iii) In-transit shipments.

(iv) Shipments under project licenses.

(v) Shipments to Canada.

(6) *Successors in interest.* A successor firm which has acquired the business interest of a predecessor may include its predecessor's record of past participation in exports for the purpose of establishing the successor firm's position as an historical exporter, provided that the predecessor is not entitled to claim the same past participation in exports. Such successor firm may submit Form IT– or FC–821 for consideration by the Bureau of Foreign Commerce and set forth thereon, or on an attached statement, a full explanation of the association between the entities concerned and including the following signed statement:

The terms of acquisition of the business interests of (name of predecessor firm) by (name of successor firm) precludes the predecessor firm from claiming past participation in exports for the purpose of obtaining export licenses under the historical pattern of export licensing.

NOTE: In the absence of a report on Form IT– or FC–821, BFC will assume that the applicant's total exports for each commodity were less in each of the specified calendar years than the established minimum amount (as shown in the special provisions for the commodities subject to this section) for submission of Form IT– or FC–821, and his application for an export license will be considered under a portion of the export quota reserved for exporters in this category.

(b) *Commodities requiring statement of past participation.* The commodities subject to the provisions of this section are specifically set forth in the special provisions applicable to the particular commodity groups in which these commodities are classified. The special provisions for each such commodity group also set forth any modification of the provisions of this section with respect to the commodities within that group.

§ 373.5 *Agricultural commodities owned or previously owned by the Commodity Credit Corporation (CCC)*—(a) *Licensing policy.* It is the general policy of the Bureau of Foreign Commerce to deny applications for validated licenses to export to any Subgroup A destination agricultural commodities acquired directly or indirectly from United States Government stocks. Sales for foreign currencies pursuant to Title I of Public Law 480, 83d Congress, to Subgroup A countries or United States Government barter of CCC agricultural commodities with such countries are not permitted by that act. Application (except for export to Communist China) may be considered for approval if the commodities are acquired in the open market and have not been previously owned by the Commodity Credit Corporation as surplus agricultural stock.

(b) *Shipper's Export Declaration and Bill of Lading.* (1) The provisions of this paragraph shall apply to shipments to all destinations except Canada of any agricultural commodities acquired directly or indirectly from stocks of the Commodity Credit Corporation, either in the form acquired or in processed form, whether or not the commodity is listed on the Positive List of Commodities (§ 399.1 of this subchapter), and whether export shipment is made under a validated license or a general license.

(2) For each exportation, regardless of value, consisting wholly or in part of a commodity originating from a Commodity Credit Corporation export sales transaction amounting to $100,000 or more, the exporter shall file an additional copy of the Shipper's Export Declaration with the Collector of Customs and send one copy of the On-Board Ocean Bill of Lading (for exportations by rail, one copy of the Railroad Bill of Lading) to the Bureau of Foreign Commerce, Washington 25, D. C., Attention: FC–1210.

NOTE: Where the original purchaser from the Commodity Credit Corporation sells the commodity or commodities or product processed therefrom to another party, the original purchaser is obliged to inform the exporter of the requirement for submitting the additional copy of the Shipper's Export Declaration and the Bill of Lading.

§ 373.6 *Return of unused quota.* As soon as a licensee decides that he does not intend to export the entire licensed amount of a commodity subject to a quantitative quota he shall promptly request reduction of the quantity covered by the license to the amount he actually intends to export. The request for reduction shall be made by submitting to the Bureau of Foreign Commerce a Form IT– or FC–763, in accordance with the procedure set forth in § 380.2 of this subchapter. If none of the commodities covered by the license is to be exported, the license shall be returned to the BFC for cancellation in accordance with § 372.14 of this subchapter.

§ 373.7–373.10 [Reserved]

## SUBPART C—INDIVIDUAL COMMODITY GROUP PROVISIONS

### COMMODITY GROUP 00

§§ 373.11–373.12 [Reserved]

### COMMODITY GROUP 0

§§ 373.13–373.16 [Reserved]

### COMMODITY GROUP 1

§§ 373.17–373.19 [Reserved]

### COMMODITY GROUP 2

§ 373.20 *Applicability of multiple commodity group provisions to Commodity Group 2 commodities.* All commodities within Commodity Group 2 which are identified on the Positive List of Commodities by the letter "A" in the "Commodity Lists" column are subject to the provisions of § 373.2.

§§ 373.29–373.30 [Reserved]

### COMMODITY GROUP 5

§§ 373.24–373.27 [Reserved]

### COMMODITY GROUP 4

§ 373.28 *Applicability of multiple commodity group provisions to Commodity Group 4 commodities.* All commodities within Commodity Group 4 which are identified on the Positive List of Commodities by the letter "A" in the "Commodity Lists" column are subject to the Import Certificate/Delivery Verification requirements set forth in § 373.2.

§§ 373.29–373.30 [Reserved]

### COMMODITY GROUP 5

§ 373.31 *Applicability of multiple commodity group provisions to Commodity Group 5 commodities.* All commodities within Commodity Group 5 which are identified on the Positive List of Commodities by the letter "A" in the "Commodity Lists" column are subject to the provisions of § 373.2.

§ 373.32 *Petroleum products*—(a) *Application requirements.* (1) Applications to export lubricating oils. Schedule B Nos. 503300, 503400, 503510, 503520, 503910, 503920, 503940, 504005, 504030, and 504050, must, in the commodity description item of Form IT– or FC–419, set forth a complete description of the lubricating oils, including the Saybolt viscosity at 130° F. or 210° F.; pour point; flash point; and any other descriptive information which will enable the Bureau of Foreign Commerce to make an exact identification of the commodity for which an export license is requested. The quality (high, medium, or low) of the lubricating oil must be stated.

(2) Applications to export lubricating greases, Schedule B No. 504100, must, in the commodity description item of Form IT– or FC–419 set forth the quality (high, medium, or low) of the greases.

(3) Applications to export lubricating oils and greases described above must set forth detailed information regarding the proposed end use. The applicant should identify the end use by the particular industry or government activity (e. g., railroads, marine, motor transportation, and other public utility, agricultural machinery, mining, etc.) and, where possible, by specific function (e. g., aviation motors, motor cars, trucks and tractors, Diesel engines, transformers, compressors, open bearings, etc.).

(4) Applications to export petroleum products, Schedule B Nos. 501400 through 505900, to Burma, Cambodia, Ceylon, Hong Kong, India, Macao, British Malaya, Pakistan, Republic of the Philippines, Singapore, Taiwan (Formosa), Thailand, or Viet Nam shall be accompanied by a statement attached to the application, setting forth the following information:

(i) The quantity of stock the ultimate consignee has on hand (in units of quantity as shown on the Positive List) as of the time the order was placed for each commodity covered by the application;

(ii) The date such order was placed;

(iii) Quantity of such commodities the ultimate consignee expects to receive from all sources other than the license applicant within 90 days after such order was placed; and

(iv) The monthly rate of consumption, including resale, by the ultimate consignee of the commodities covered by the application.

(b) *Return of incomplete applications.* Applications which do not contain sufficient detailed information for an exact identification of the commodities involved and complete information regarding the end use will not be considered but will be returned to the applicant without action.

§ 373.33 *Diamonds*—(a) *Definitions.* The commodities covered by this section are loose diamonds (except cut gem diamonds). "Loose diamonds (except cut gem diamonds)" are any diamonds not set in any other material and are either:

(1) "Industrial diamonds," Schedule B Nos. 540910 and 599005, unmounted industrial-purpose diamonds, in any form, including ballas, carbonados, crushing bort, and diamond fragments, as well as diamond powder, dust, and compounds, or

(2) "Cuttable diamonds," Schedule B No. 599010, diamonds suitable for cutting into gems and not reserved for industrial use.

(b) *Application requirements.* Separate license applications (Form IT– or FC–419) must be submitted for each Schedule B classification of loose diamonds. Each application must include a detailed statement regarding the end use of the commodity and must contain a complete description of each named commodity or commodities. Give total carat weight, total price, and average price per carat. In the case of dust and powder, give mesh sizes. For compounds, give total carat content and mesh sizes.

(c) *Export clearance of loose diamonds.* (1) Every shipment of loose diamonds in any form must be inspected by the United States Appraiser of Merchandise at New York, regardless of the means of exportation or the port of exit.

(2) The Appraiser will compare the contents of the shipment with the description on the Shipper's Export Declaration authenticated by the collector of customs. If the contents and description on the authenticated Shipper's Export Declaration agree, the Appraiser shall place his seal on the package or parcel.

(3) If the contents of the shipment do not agree with the description set forth on the authenticated Shipper's Export Declaration, the Appraiser will submit the authenticated Shipper's Export Declaration, together with a statement of his findings, to the Bureau of Foreign Commerce via the Collector of Customs.

(4) Post offices will not accept packages or parcels containing such commodities for mailing to a foreign destination unless they have been inspected by the United States Appraiser of Merchandise at New York, and the unbroken seal of that official appears on each package or parcel.

(d) *Return of loose industrial diamonds and diamond dust, or powder without license.* Notwithstanding the foregoing provisions of this section (which relate only to diamond exports which require a license), the provisions of § 371.9 (c) of this chapter (which relate to exceptions from the general license GIT for intransit shipments), and the provisions of § 370.7 of this chapter (which permit certain exports from foreign trade zones without a license), any person in the United States to whom diamond dust or powder, Schedule B No. 540910, or loose industrial diamonds, Schedule B No. 599005, are consigned by a foreign supplier, with the privilege of selection and purchase or return, may return to such foreign supplier such of those diamonds or such dust or powder as are not selected for purchase, without securing an export license therefor: *Provided*, The following procedure and conditions are observed:

(1) *Deposit in New York Foreign Trade Zone.* The entire consignment to such person from his foreign supplier, upon arrival in the United States and prior to opening or inspection, must be taken directly from Customs custody into the New York Foreign Trade Zone and must be continuously kept there while inspection and selection are made and, with respect to those diamonds or such dust or powder not selected for purchase and to be returned to the foreign supplier, until released for immediate exportation to the foreign supplier.

(2) *Examination by Federal Supply Service.* The Federal Supply Service, General Services Administration, must be given an opportunity to examine and purchase the diamonds or dust or powder proposed to be returned and, after having purchased any which it desires to purchase, must furnish to the New York Foreign Trade Zone Operators,

Inc., its certificate, in duplicate, to the effect that it has been afforded such opportunity and that, with respect to those diamonds or such dust or powder remaining for return to the foreign supplier (which must be sufficiently identified by lot number, quantity, weight, description, etc.), it has elected not to purchase them.

(3) *Certificate required for release from Zone.* The New York Foreign Trade Zone Operators, Inc., shall not release the diamonds or dust or powder from the Foreign Trade Zone unless and until the above-mentioned certificate has been furnished, and, at the time of such release, there shall be attached to the original thereof a duly executed Certificate of Constructive Transfer, Zone Form C, revised (i. e., the official document by which commodities are released from the Foreign Trade Zone). Both certificates will be delivered to the proposed exporter.

(4) *Export clearance.* No Collector of Customs shall authenticate any Shipper's Export Declaration for the export of loose industrial diamonds or diamond dust or powder pursuant to this procedure unless the certificate of the Federal Supply Service and the attached Certificate of Constructive Transfer, Zone Form C, revised, provided for above, shall accompany the Declaration filed with the Collector.

NOTE: The use of the procedure set forth in § 373.33 (d) will be expedited if diamond dealers desiring to use the facilities of the New York Foreign Trade Zone will make such arrrangements as soon as they know when a consignment of diamonds or diamond dust or powder is due to arrive. Persons using the procedure are also responsible for notifying the Federal Supply Service, General Services Administration, when a proposed shipment is ready for inspection.

(e) *Tools incorporating industrial diamonds.* Applications for licenses to export tools, tool parts, or devices containing diamonds must be submitted in accordance with the provisions of § 373.49 (c).

§§ 373.34–373.38 [Reserved]

COMMODITY GROUP 6

§ 373.39 *Applicability of multiple commodity group provisions to Commodity Group 6 commodities.* All commodities within Commodity Group 6 which are identified on the Positive List of Commodities by the letter "A" in the "Commodity Lists" column are subject to the provisions of § 373.2.

§ 373.40 *Iron and steel*—(a) *Iron and steel products with processing code STEE*—(1) *Applicability.* The provisions of this paragraph are applicable to all iron and steel products on the Positive List with the processing code STEE. (See also § 373.50 for Group 7 commodities with processing code STEE.)

(2) *Export price.* The export price may be shown on the application form in terms of either the total price, including price per unit, or the supplier's price plus a specified mark-up. This latter method may be used only where the supplier has filed, or files, with the Bureau of Foreign Commerce his price schedule maintained for the sale of iron and steel items for which export licenses are or may be requested and a statement that the supplier will inform the Bureau of Foreign Commerce promptly (within 10 days) of any changes which may occur in his price schedule. In case the unit price varies according to size or specifications, the applicant must show unit price for each separate size or specification.

(b) *Silicon steel materials.* In addition to the general provisions contained in paragraph (a) of this section, all license applications to export silicon steel sheets (commonly called electrical sheets) and strip, Schedule B No. 603595, and transformer and choke laminations and core assemblies, Schedule B No. 709920, shall set forth in the commodity description column of Form IT– or FC–419, a complete description of the materials to be exported. The description on the license application shall include either (1) the thickness of sheet or strip in decimal parts of an inch or (2) the core loss, which shall be indicated in watts per pound at a flux density of 11,000 gausses and at 50 cycles per second. If the core loss appears on the customer's order in metric units or at a flux density, or at cycles other than those shown in the Positive List entries for these items, it should be converted to conform to the Positive List identifications.

(c) *Alloy, tool, and stainless steel.* All applications for licenses to export alloy, tool, or stainless steel products (bars, rods, sheets, plates, etc.) having the processing code STEE must contain, in the commodity description column of Form IT– or FC–419, the following information (in addition to the general description and the Schedule B number, e. g., Alloy Tool Steel Bars, 602650):

(1) Where such steel product is a "standard" grade, the AISI, SAE, or NE number, or any other recognized designation, as may be appropriate; or

(2) Where such steel product cannot be described by a recognized designation, a detailed statement of the percentages of alloying elements present.

(d) *Iron and steel scrap*—(1) *General.* License applications to export iron and steel scrap, Schedule B Nos. 601010, 601040, 601050, 601070, and 601090, except where the ultimate destination of the exportation is Mexico or where "offshore" scrap (scrap located in American possessions outside the continental United States) is to be exported, will be considered by the Bureau of Foreign Commerce in accordance with the procedures described below. For purposes of this paragraph, a maximum cargo lot is defined as the maximum tonnage of iron and steel scrap which can be transported in a specific export carrier.

(2) *Evidence of availability required.* In addition to the requirements set forth in subparagraphs (3) and (4) of this paragraph, the following certification shall appear on each application:

I (we) certify that the iron and steel scrap commodities in the quantities described on this license application are in (my) (our) possession or will be in (my) (our) possession not later than ----------
(Date)
for export.

(3) *Persons not holding outstanding licenses.* Any person who does not hold an export license for iron and steel scrap may submit a license application to export these materials in a quantity not to exceed a maximum cargo lot.

(4) *Persons holding outstanding licenses.* Any person who holds an export license for iron and steel scrap may apply for an export license for a maximum cargo lot for each cargo lot exported under an onboard bill of lading issued on or after February 21, 1955. Each license application shall be accompanied by a copy of the onboard bill of lading and shall show the license number under which shipment was made.

(5) *Issuance of licenses.* Licenses issued under the provisions of subparagraphs (3) and (4) of this paragraph will bear the following statement: "This license is valid for a single shipment of materials on a single carrier only."

(6) *Validity period.* A license to export iron and steel scrap, except where the ultimate destination of the exportation is in Mexico or where "offshore" scrap is to be exported, will be issued for a maximum validity period ending on the last day of the third month following the month during which the license is validated, e. g., a license issued on March 27, 1955, would expire on June 30, 1955. All licenses for iron and steel scrap destined for Mexico and all licenses for "offshore" scrap to be exported to any destination shall bear the usual six-month validity period.

(7) *Documentation.* Exporters are advised that in accordance with the provisions of § 372.10 of this subchapter, it may be necessary in some instances to require additional documentation in support of license applications. Where this occurs, the applicant will be advised after review of the application by the Bureau of Foreign Commerce.

§ 373.41 *Nonferrous commodities, including ores, concentrates, or unrefined products*—(a) *Nonferrous metal alloys, including alloy scrap.* Applications for licenses to export the nonferrous metal alloys, or alloy scrap, listed below, shall contain in the commodity description column of Form IT– or FC–419, a complete commodity description, including the percentage of each alloying element present or the recognized standard commercial brand or trade name of the commodity, such as published in "Engineering Alloys" by the American Society for Metals, or as published in "Standard Specification" by the American Society for Testing Materials:

| Commodity | Schedule B No. |
|---|---|
| Copper-base alloy ingots | 644100 |
| Nickel alloy scrap, including nickel-bearing stainless steel scrap | 654502 |
| Nickel-bearing cobalt scrap | 664526 |

(b) *Nickel alloy and nickel-bearing cobalt scrap*—(1) *Nickel alloy scrap, including nickel-bearing stainless steel scrap, Schedule B No. 654502.* Evidence of commercial unsalability in the domestic market, as provided in subparagraph (3) of this paragraph shall be submitted in support of applications to export (i) clean nickel alloy scrap, containing less than 50 percent nickel, (ii) contaminated nickel alloy scrap, and (iii) contaminated nickel-chromium-iron alloy scrap (nickel-bearing stainless steel scrap) containing up to 36 percent nickel with a minimum chromium content of 10 percent.

(2) *Nickel-bearing cobalt scrap, Schedule B No. 664526.* Applications for licenses to export clean cobalt scrap containing less than 50 percent nickel, and contaminated cobalt scrap shall be supported by evidence of commercial unsalability in the domestic market as provided in subparagraph (3) of this paragraph.

NOTE: For purposes of this section, material is considered to be contaminated when the contaminant cannot be readily sorted from the balance of the material.

(3) *Evidence of commercial unsalability.* As required in subparagraphs (1) and (2) of this paragraph, the exporter must submit evidence of commercial unsalability in the domestic market. This evidence may be in the form of a letter or other statement from the applicant, supplier, or persons to whom the scrap was offered for sale. Such evidence must be adequate to demonstrate that the scrap has been offered for sale without success in the normal domestic market at reasonable and competitive prices. It shall include, as a minimum, the names and addresses of the potential users to whom the scrap has been offered, the terms at which it has been offered, the reason(s) for rejection of offers to sell.

(4) *Commodities not licensed.* Pure nickel scrap, clean nickel alloy scrap containing 50 percent or more nickel, clean nickel-chromium-iron alloy scrap (nickel-bearing stainless steel) containing up to 36 percent nickel with a minimum chromium content of 10 percent, clean cobalt containing 50 percent or more nickel, and nickel-copper alloy scrap (including monel) will not be considered for licensing.

(c) *Copper ores, concentrates, unrefined copper, refined copper, copper scrap, copper-base alloy scrap, and copper-base alloy ingots and other crude forms including remelt ingots*—(1) *General.* License applications to export copper ores, concentrates, matte, and other unrefined copper, Schedule B No. 640100; refined copper in cathodes, billets, ingots, wire bars, and anodes and other crude forms, except copperweld rods, Schedule B No. 641200 (hereinafter referred to as refined copper); copper scrap (new and old), Schedule B No. 641300; copper-base alloy scrap (new and old), Schedule B No. 644000; and copper-base alloy ingots and other crude forms including remelt ingots, Schedule B No. 644100, will be considered for approval in accordance with the procedures described below.

(2) *Refined copper, Schedule B No. 641200.* License applications to export refined copper in cathodes, billets, ingots, wire bars and other crude forms (including anodes) made from domestic origin materials, or Canadian-origin copper scrap, copper-base alloy scrap, or copper-base alloy ingots and other crude forms including remelt ingots, will generally be denied. License applications covering the exportations of these refined copper materials made from foreign or commingled domestic and foreign origin materials, other than Canadian-origin copper scrap, copper-base alloy scrap, or copper-base alloy ingots and other crude forms including remelt ingots, shall include the following:

(i) *Certification of foreign origin or commingled origin.* (*a*) Applications from non-producers of refined copper—Applications from non-producers covering refined copper made from materials, other than Canadian-origin copper scrap, copper-base alloy scrap, or copper-base alloy ingots and other crude forms including remelt ingots, of foreign or commingled domestic and foreign origin materials shall be accompanied by a letter, addressed to the Bureau of Foreign Commerce, from the producer of the refined copper to the effect that (*1*) the refined copper proposed for export is refined from foreign origin copper other than Canadian-origin copper scrap, copper-base alloy scrap, or copper-base alloy ingots and other crude forms including remelt ingots; or (*2*) that an equivalent amount of foreign origin materials, other than Canadian-origin copper scrap, copper-base alloy scrap, or copper-base alloy ingots and other crude forms including remelt ingots, has been smelted and refined to replace in the domestic market the amount of domestic copper contained in the commingled copper proposed for export.

(*b*) Applications from producers of refined copper—Applications from producers of refined copper made of foreign or commingled (foreign and domestic origin) materials, other than Canadian-origin copper scrap, copper-base alloy scrap, or copper-base alloy ingots and other crude forms including remelt ingots, shall include the following certification:

I (we) certify that I am (we are) the producer(s) of the refined copper covered by this license application and (1) that this refined copper was produced from foreign origin materials other than Canadian-origin copper scrap, copper-base alloy scrap, or copper-base alloy ingots and other crude forms including remelt ingots, or (2) that an equivalent amount of foreign materials, other than Canadian-origin copper scrap, copper-base alloy scrap, or copper-base alloy ingots and other crude forms including remelt ingots, has been smelted and refined to replace in the domestic market the amount of domestic copper contained in the commingled copper proposed for export.

(ii) *Availability for export.* Applications for licenses to export these copper commodities shall contain one of the certifications listed below. Applications will be considered only where the date of availability of the commodities for export is shown to be within 90 days from the date the application is filed with the Bureau of Foreign Commerce.

(*a*) Where materials are in possession of applicant, the applicant shall execute and submit to the Bureau of Foreign Commerce the following certification:

I (we) certify that the copper materials described in this license application are in my (our) possession and will be available for export not later than ----------
(Date)
or

(*b*) Where materials are not in possession of applicant, the applicant shall submit to the Bureau of Foreign Commerce the following certification executed by the producer of the materials:

I (we) certify that not later than ---------- I (we) shall supply to
(Date)
----------
(Name of applicant)
---------- short tons of
(Quantity in short tons)
---------- in accordance
(Type of copper material)
with the terms of contract sale number ----------
---------- dated ----------
(Contract number) (Date of contract)

All documents evidencing commitment of sale must be kept available for inspection, upon demand, by the Bureau of Foreign Commerce for three years from the date of receipt of the application, as shown on the Acknowledgment Card, Form IT– or FC–116. Applications not accompanied by the evidence of availability required by the provisions of this subparagraph, will not be approved and should not be submitted.

(iii) *Disclosure of foreign consumer.* The foreign consumer shall be identified on the license application by the use of one of the following applicable statements:

The foreign consumer of the commodities covered by this application is the same as that shown in item 7 on this license application;

or if the foreign consumer is not the same as that shown in item 7:

The name and address of the foreign consumer is ----------

(iv) *Toll or conversion agreements.* Applications covering the exportation of refined copper produced in the United States under toll or conversion agreements from materials received from foreign sources are not subject to any of the above provisions of this paragraph. Where the license application covers refined copper produced from toll or conversion agreements, the applicant shall include the following certification on the license application:

I (we) certify that the refined copper described in this license application was produced in the United States under toll or conversion contracts from materials received from foreign sources.

(3) *Copper ores, concentrates, matte, and other unrefined copper, Schedule B No. 640100.* License applications to export copper ores, concentrates, matte, and other unrefined copper shall be supported by the informatin set forth in subparagraph (2) (ii) and (iii) of this paragraph. A foreign smelter, refiner, or processor may be identified as the consumer of the copper materials included in this paragraph.

(4) *Copper scrap, copper-base alloy scrap, and copper-base alloy ingots and other crude forms including remelt ingots.* (i) In order that the Bureau of Foreign Commerce may provide an equitable basis for distributing available export quotas for copper scrap (new and old) containing 40 percent or more copper, Schedule B No. 641300; copper-base alloy scrap (new and old) containing 40

percent or more copper, excluding copper-nickel alloy scrap containing 40 percent or more copper and 5 percent or more nickel, Schedule B No. 644000, and copper-base alloy ingots and other crude forms including remelt ingots, Schedule B No. 644100, applicants are required to submit to the Bureau of Foreign Commerce a Statement of Past Participation in Exports of these commodities on Form IT– or FC–821 in accordance with procedure set forth in § 373.4 of this subchapter. A separate report on Form IT– or FC–821 shall be filed for each Schedule B number, broken down by countries of destination, and shall cover the quantity in Schedule B units of exports from the United States made during the fourth calendar quarter of 1953 and the calendar year 1954, where the total for such exports to all countries for each Schedule B number was $5,000 or over for the five quarters. In preparing Form IT– or FC–821, the heading above items (c) and (d) shall be changed to read "4th quarter 1953" and the heading above items (e) and (f) shall read "calendar year 1954."

(ii) License applications covering copper scrap (new and old) containing less than 40 percent copper, Schedule B No. 641300, or copper-base alloy scrap (new and old) containing any percentage of copper, Schedule B No. 644000, shall include information as to the copper and nickel content of the material.

(iii) License applications to export copper-nickel alloy scrap, containing 40 percent or more copper and 5 percent or more nickel will not be considered for licensing.

(5) *Validity period.* Licenses to export all materials covered by this paragraph will be issued for a validity period ending on the last day of the third month following the month during which the license is validated, e. g., a license issued on November 25, 1955, would expire February 29, 1956.

(6) *Amendments to export licenses.* Except for export licenses issued under toll or conversion agreements, no amendments requesting an extension of the validity period of the license will be granted for export licenses issued under this procedure.

(7) *Time for submission of applications.* Applications for licenses to export copper scrap (new and old) containing 40 percent or more copper, Schedule B No. 641300, copper-base alloy scrap (new and old) containing 40 percent or more copper, excluding copper-nickel alloy scrap containing 40 percent or more copper and 5 percent or more nickel, Schedule B No. 644000, and copper-base alloy ingots and other crude forms including remelt ingots, Schedule B No. 644100, shall be submitted in accordance with the time schedules set forth in § 373.71.

(d) *Aluminum scrap (new and old), aluminum remelt ingots, and aluminum metal and alloys in crude form*—(1) *General.* License applications to export aluminum scrap (new and old), Schedule B No. 630050, and aluminum remelt ingots, and aluminum metal and alloys in crude form, primary and secondary, including ingots, pigs, blooms, and slabs, Schedule B No. 630070, will be considered by the Bureau of Foreign Commerce for approval in accordance with the procedure described herein.

(2) *Aluminum scrap (new and old), and aluminum remelt ingots*—(i) *Statement of Past Participation in Exports, Form IT– or FC–821.* Applicants are required to submit to the Bureau of Foreign Commerce a Statement of Past Participation in Exports on Form IT– or FC–821, in accordance with the procedure set forth in § 373.4, covering past exportations of aluminum scrap (new and old), Schedule B No. 630050, and aluminum remelt ingots, Schedule B No. 630070. A separate report on Form IT– or FC–821 shall be filed for each Schedule B number, broken down by countries of destination, and shall cover the quantity in Schedule B units of exports from the United States made during the second, third and fourth calendar quarters of 1954 and the first calendar quarter of 1955, where the total for such exports to all countries for each Schedule B number was $2,000 or over for the four quarters. In preparing Form IT– or FC–821, the heading above items (c) and (d) shall be changed to read "2nd, 3rd, 4th quarters, 1954", and the heading above items (e) and (f) shall read "1st quarter, 1955."

(ii) *Unsalable leaded aluminum foil.* Applications for licenses to export leaded aluminum foil scrap for which there is no market in the United States are not subject to the provisions of subdivision (i) of this subparagraph but shall be supported by evidence of commercial unsalability in the domestic market. This evidence may be in the form of a letter or other statement from the applicant, supplier, or persons to whom the scrap was offered for sale. The evidence must be adequate to demonstrate that the scrap has been offered for sale without success in the normal domestic market at reasonable and competitive prices. It shall include, as a minmum, the names and addresses of the potential users to whom the scrap has been offered, the terms at which it has been offered, and the reason(s) for rejection of offers to sell.

(iii) *Aluminum scrap containing 70 percent or less aluminum (including drosses, skimmings, slags, ashes, insulated wire and cable, paper-backed and cloth-backed aluminum foil).* Applications for licenses to export aluminum scrap containing 70 percent or less aluminum shall specify the weight of the aluminum alloy metal content of the scrap material to be exported.

(iv) *Time for submission of applications.* Applications for licenses to export aluminum scrap (new and old), Schedule B No. 630050, and aluminum remelt ingots, Schedule B No. 630070, shall be submitted in accordance with the time schedules set forth in § 373.71.

(v) *Validity period.* Licenses to export the aluminum materials covered by this subparagraph will be issued for a validity period ending on the last day of the month following the quarter during which the application for the license was filed with the Bureau of Foreign Commerce. For example, a license issued pursuant to an application filed in April 1956, would expire on July 31, 1956.

(vi) *Utilization of export quota.* (*a*) A licensee who determines that the full amount of the quantity of the aluminum materials shown on the validated license will not be exported during the validity period of that license should promptly submit a request for amendment on Form IT– or FC–763 to reduce the quantity of the aluminum materials licensed to the amount actually intended for export. The amendment procedure set forth in § 380.2 (g) of this subchapter shall be followed in requesting quantity reductions on outstanding licenses.

(*b*) Any quantities recovered as a result of this procedure will be considered for licensing in the same quarter in which they were recovered. The return of any unused quantities by an exporter will in no way affect the exporter's entitlement under the historical licensing procedure in future quarters.

(3) *Aluminum metal and alloys in crude form.* Aluminum metal and alloys in crude form, primary and secondary, including ingots (except remelt ingots), pigs, blooms, and slabs.

(i) *Availability for export.* Applications for licenses to export aluminum metal and alloys in crude form, primary and secondary, including ingots (except remelt ingots), pigs, blooms, and slabs, Schedule B No. 630070, shall contain one of the applicable certifications listed below. Applications will be considered only where the date of availability of the commodities for export is shown to be within 90 days from the date the application is filed with the BFC.

(*a*) Where materials are in possession of applicant, the applicant shall execute and submit to the Bureau of Foreign Commerce the following certification:

> I (we) certify that the aluminum materials described in this license application are in my (our) possession and will be available for export not later than ---------- (Date)

or

(*b*) Where materials are not in possession of applicant, the applicant shall submit to the Bureau of Foreign Commerce the following certification executed by the supplier of the materials:

> I (we) certify that not later than ---------- (Date) I (we) shall supply to ----------, (Name of applicant) ---------- short tons of (Quantity in short tons) ---------- in accordance (Type of aluminum material) with the terms of contract sale number ---------- dated ---------- (Contract number) (Date of contract)

(ii) *Records.* All documents evidencing commitment of sale must be kept available for inspection, upon demand, by the Bureau of Foreign Commerce for three years from the date of receipt of the application, as shown on the Acknowledgment Card (Form IT– or FC–116).

(iii) *Validity period.* License applications to export the aluminum materials covered by this subparagraph will be issued for a validity period ending on the last day of the third month following the month during which the license is validated, e. g., a license issued on May 10, 1956, would expire on August 31, 1956.

(4) *Amendments to export licenses.* No amendments requesting an extension of the validity period of the license will be granted for export licenses issued under this procedure. Where an amendment request involves an action other than an extension of the validity period, it shall be submitted directly to the Bureau of Foreign Commerce.

(e) *Selenium metal powder, ferroselenium and selenium metal*—(1) *General.* License applications to export selenium metal powder, Schedule B No. 619159, ferroselenium, Schedule B No. 622098, and selenium metal, Schedule B No. 664998, will be considered for approval in accordance with the licensing policy described below.

(2) *Licensing policy.* (i) License applications adequately identifying the end use of the above materials as a military end use will receive first consideration in the distribution of the export quota. The remaining portion of the export quota will be available for exportation to those countries which normally depend upon the United States to meet a substantial portion of their selenium requirements.

(ii) Except where a military end use is involved, license applications to export these selenium materials to any country which normally relies on indigenous production or which normally imports substantial quantities of selenium from countries other than the United States will generally be denied. Countries falling within this category are: Belgium, Japan, Germany (Federal Republic), Sweden and the United Kingdom.

(3) *Toll or conversion agreements.* License applications covering the exportation of selenium metal powder, ferroselenium, and selenium metal produced in the United States from materials received from foreign sources under toll or conversion agreements which provide for the reexportation of the resultant products to friendly foreign countries, are not subject to the quota limitations or any of the provisions of this paragraph. Where the license application covers these selenium materials produced from toll or conversion agreements, the applicant shall include the following certification on the license application:

> I (we) certify that the selenium materials described in this license application were produced in the United States from materials received from foreign sources under toll or conversion agreements which provide for reexportation of the resultant products to friendly foreign countries.

(4) *Time for submission of applications.* Applications for licenses to export selenium metal powder, Schedule B No. 619159, ferroselenium, Schedule B No. 622098, and selenium metal, Schedule B No. 664998, shall be submitted in accordance with the time schedule set forth in § 373.71.

(f) *Selenium-bearing scrap materials*—(1) *General.* License applications to export selenium-bearing scrap materials, Schedule B No. 664998, will be considered for approval only where it is shown that (i) the materials are unsalable in the domestic market; or (ii) the export is to be made under toll or conversion agreement which provides for the return of the selenium or selenium products to the United States. These applications shall be accompanied by the information described in subparagraph (2) or (3) of this paragraph.

(2) *Evidence of unsalability in the domestic market.* The evidence of unsalability in the domestic market may be submitted in the form of a letter or other statement from the applicant, supplier, or persons to whom the materials were offered for sale showing that the materials have been offered for sale without success in the normal domestic market at reasonable and competitive prices. It shall include, as a minimum, the names and addresses of the potential users to whom the scrap materials had been offered, and the reason(s) for rejections of offers to sell.

(3) *Toll or conversion agreement.* The following certification shall be placed on applications covering the exportations of these materials under agreements which provide for the return of the resultant selenium or selenium products to the United States under toll or conversion agreement:

> I (we) certify that the selenium materials described in this license application are to be exported under toll or conversion agreement which provides for the return of the resultant selenium or selenium products to the United States.

§ 373.42 *Tools incorporating industrial diamonds.* Applications for licenses to export tools, tool parts, or devices containing diamonds must be submitted in accordance with the provisions of § 373.49 (c).

§§ 373.43–373.47 [Reserved]

COMMODITY GROUP 7 [4]

§ 373.48 *Applicability of multiple commodity group provisions to Commodity Group 7 commodities.* All commodities within Commodity Group 7 which are identified on the Positive List of Commodities by the letter "A" in the "Commodity Lists" column are subject to the provisions of § 373.2.

§ 373.49 *Machinery and equipment* [4]—(a) *Machinery and equipment.* Applications for licenses to export machinery and equipment with the processing codes CONS, ELME, GIEQ, MINE, TOOL, AND TRAN must include the following identifying information in addition to the requirements of § 372.4 (e) of this chapter:

(1) A copy of a manufacturer's current catalog or bulletin, or pertinent pages therefrom describing the commodity, unless previously furnished.

(2) For commodities having a rated capacity, show maximum rating.

(3) For power-generating or other heavy machinery and equipment, a statement should be furnished explaining the circumstances, if production and exportation cannot be completed within six months. Where warranted, licenses may be issued for a validity period of one year, and the Bureau of Foreign Commerce will also give as favorable consideration as conditions permit to requests for extension of these licenses giving precedence to such requests over new applications for export licenses.

(b) *Automotive replacement parts*—(1) *Additional application requirements.* (i) An exporter who receives an order, or an inquiry relating to an order, for automotive replacement parts listed in subparagraph (2) of this paragraph to be exported to a destination listed in subparagraph (3) of this paragraph from a consignee with whom he has not previously done business and who has not been approved as an ultimate consignee on an export license issued to him, is required to observe the special provision described below when filing an application for a validated export license to make the proposed-shipment.

(ii) Prior to filing a license application, the exporter shall request the ultimate consignee to communicate with the nearest United States Embassy or Consulate in his area and provide information for a World Trade Directory report, if he has not already done so within the last 12 months, and the ultimate consignee shall have complied with this request, where required. When applying for an export license, such an exporter, in addition to supplying the information required by paragraph (a) of this section, shall include in the commodity description item of the license application, or on an attachment thereto, the address of the United States Embassy or Consulate where the ultimate consignee provided the information for a World Trade Directory report and the date on which the information was given.

(iii) The filing of World Trade Directory report information with a United States Embassy or Consulate is essential in order to facilitate final action on the application for a validated license. Licenses will be issued in such cases only where this information is on file in the Bureau of Foreign Commerce. Therefore, filing of these applications before the ultimate consignee has made the necessary information available, will result in the application being returned without action.

(2) *Commodities.* The provisions of this paragraph are applicable to applications for licenses to export the following commodities to the destinations set forth in subparagraph (3) of this paragraph:

[4] Parts and accessories which are to be scrapped are properly classified as iron and steel scrap (Schedule B Nos. 601010, 601040, 601050, 601070, 601090, 601150, 601170, 641300, and 644000). (See § 399.2, Int. 10.)

| Schedule B No. | Commodity |
|---|---|
| 706305 | Sealed beam head lamps suitable for mounting on automotive vehicles. |
| 769100 | Ball bearings, and specially fabricated parts except balls (automotive only). |
| 769200 | Roller bearings, and specially fabricated parts except rollers (automotive only). |
| 769310 | Balls for bearings (automotive only). |
| 769315 | Rollers for bearings (automotive only). |
| | Parts for commercial automotibles, trucks, and busses: |
| | Engines for replacement (motor truck, bus, and passenger car): |
| 791240 | Diesel and semi-Diesel. |
| 791250 | Gasoline. |
| 791280 | Leaf springs, and spring leaves, for replacement. |
| 792620 | Parts, n. e. c., specially fabricated, for spares, replacement, or manufacture into larger components, except: air cleaners; brake extension handles; bumpers; door locks; gas tank caps; horns; hub caps; hydraulic truck dumping hoists; oil filter clamps; oil filters; oil purifiers; oil rectifiers; parking lights; radiator caps; radiator ornaments; reflex signs, road traffic; stop lights; thermostats; third axle assemblies; windshield wipers; and specially fabricated parts for the excepted items. |

(3) *Destinations.* The provisions of this subparagraph are applicable to applications for licenses to export the commodities set forth in subparagraph (2) of this paragraph to any of the following destinations:

British Malaya (including the Colony of Singapore, the Federation of Malaya, the Colony of North Borneo (including Labuan), the Colony of Sarawak, and the Sultanate of Brunei).
Burma.
Ceylon.
Indonesia.
Republic of the Philippines.
Thailand (Siam).
Viet Nam, Laos, and Cambodia (the area formerly known as "Indochina")

(c) *Tools incorporating diamonds*—(1) *Commodities included.* Any tool incorporating diamonds requires a validated license for export to all R and O country destinations, whether or not the tool is shipped with the machine with which it is to be used.

(2) *Definition.* As used in this section, the term "Tools incorporating diamonds" means any tools, tool parts or devices, including metal slugs, which contain diamonds. Such "tools" do not include the machines which may make use of the tools incorporating diamonds.

(3) *Application requirements.* (i) A license to export a tool incorporating diamonds as a spare or replacement part shall be applied for under the Schedule B number applicable to such tool. When a diamond tool is to be shipped with a machine with which it is to be used, whether or not such machine is on the Positive List, the diamond tool shall be entered on the license application under the Schedule B number of the machine.

(ii) If a validated license is required for the machine, a single license application shall be submitted and the description shall specify that a tool containing diamonds is to be shipped with the machine.

(iii) In addition to the information required by paragraph (a) of this section, applications for licenses to export tools incorporating diamonds must comply with the following requirements:

(*a*) Tools, tool parts, or devices (including metal slugs) must be listed separately on license applications, or by groups of identical tools, giving the name and type of tool;

(*b*) License applications to export diamond grinding wheels, sticks, hones, and laps, Schedule B No. 540905, must state the quantity and the approximate carat weight of the diamond content of each commodity; and

(c) Diamond dies must be listed on the license applications as unmounted or encased, and the quantity must be given.

(4) *Preparation of Shipper's Export Declaration.* (i) A tool incorporating diamonds exported under a validated license as a part of a machine exported under a general license shall be reported on the same Shipper's Export Declaration as a unit. The value stated in column (15) shall reflect the combined value of the machine and the diamond tool.

(ii) Separate data for the diamond tool shall be shown only in column (10). The description of the machine shall specify that it includes a tool containing diamonds, together with the same information required on a license application for the diamond tool, as set forth in paragraph (c) (3) of this section.

§ 373.50 *Commodity Group 7 commodities with processing code STEE.* All commodities within Commodity Group 7 with the processing code STEE are subject to the provisions of § 373.40 relating to iron and steel products.

§ 373.51 *Radio, electronic and cathode ray tubes.* All license applications to export radio, electronic and cathode ray tubes, Schedule B Nos. 707803, 707812, 707820 and 707830, must show, in the commodity description column of Form IT– or FC–419, the type numbers of the tubes and quantity of each type of tube, and the total quantity and price for each Schedule B number. Where the commodity description column of the Form IT– or FC–419 is inadequate, this information may be listed on an attachment, in duplicate, to Form IT– or FC–419.

§§ 373.52–373.53 [Reserved]

COMMODITY GROUP 8

§ 373.54 *Applicability of multiple commodity group provisions to Commodity Group 8 commodities.* All commodities within Commodity Group 8 which are identified on the Positive List of Commodities by the letter "A" in the "Commodity Lists" column are subject to the provisions of § 373.2.

§ 373.55 *Chemicals and medicinals*—(a) *General.* All applications for licenses to export chemicals, medicinals, and pharmaceuticals shall state such facts relating to grade, form, concentration, mixtures, or ingredients as may be necessary to identify the commodity accurately.

(b) *Isotopes.* License applications to export those isotopes for which procurement authorization is required from the Atomic Energy Commission shall specify the AEC Procurement Authorization number and expiration date in the commodity description column of Form IT– or FC–419.

(c) *Poliomyelitis vaccine*—(1) *Licensing policy.* License applications to export poliomyelitis vaccine, Schedule B No. 812200, will be considered for approval where the vaccine is to be used for one of the following purposes:

(a) Product registration;

(b) Biologics control;

(c) Laboratory experimentation or research;

(d) Inoculation of United States nationals abroad (excluding members of the United States Armed Services and United States Government employees stationed abroad for whom provisions have been made to receive vaccine inoculations through United States Government facilities); or

(e) Other uses which merit consideration because of unusual or special considerations not falling specifically within one of the above categories.

(2) *Submission of license applications.* License applications to export poliomyelitis vaccine shall be supported by the following additional information:

(i) If the vaccine is to be used for purposes of laboratory experimentation or research, the license application shall be accompanied by a statement signed by the ultimate consignee which sets forth the following information:

(*a*) Purpose for which the vaccine will be used, i. e., laboratory experimentation or research;

(*b*) Type and purpose of research or experimentation which will be conducted;

(*c*) Any other information as to end use; and

(*d*) Name and address of the foreign firm or organization which will conduct the research or experimentation.

(ii) (*a*) If the vaccine is to be used for the inoculation of United States nationals abroad (excluding members of the United States Armed Services and United States Government employees stationed abroad for whom provisions have been made to receive vaccine inoculations through United States Government facilities), the license application shall be accompanied by a statement from the ultimate consignee which shows the number of United States nationals by age to be inoculated.

(*b*) Consideration of license application for the export of poliomyelitis vaccine to United States nationals abroad will be given by the Bureau of Foreign Commerce for the vaccination of persons included in the priority groups prevailing in the United States, as established by the Department of Health, Education and Welfare.

(3) *Exception to application requirements.* In those instances where it is shown that the requirement for submission of a signed statement from the ultimate consignee, as provided in subparagraph (2) of this paragraph, would impose an undue hardship on the United States exporter, the Bureau of Foreign Commerce will consider the granting of an exception based on the individual merits of the case. Where a request for exception is made, a supporting document setting forth the reason for requesting the exception shall accompany the license application.

§ 373.56 *Selenium containing chemical compounds, including pigments.*—(a) *General.* License applications to export selenium containing chemical compounds, including pigments, Schedule B Nos. 829810, 839750, 839900 and 842900 will be considered for approval in accordance with the licensing policy described in this section.

(b) *Licensing policy.* (1) License applications adequately identifying the end use of the above materials as a military end use will receive first consideration in the distribution of the export quota. The remaining portion of the export quota will be available for exportation to those countries which normally depend upon the United States to meet a substantial portion of their selenium requirements.

(2) Except where a military end use is involved, license applications to export these selenium materials to any country which normally relies on indigenous production or which normally imports substantial quantities of selenium from countries other than the United States will generally be denied. Countries falling within this category are: Belgium, Japan, Germany (Federal Republic), Sweden and the United Kingdom.

(c) *Toll or conversion agreements.* License applications covering the exportation of selenium containng chemical compounds, including pigments, produced in the United States from materials received from foreign sources under toll or conversion agreements which provide for the reexportation of the resultant products to friendly foreign countries, are not subject to the quota limitations or any of the provisions of this section. Where the license application covers these selenium materials produced from toll or conversion agreements, the applicant shall include the following certification on the license application:

I (we) certify that the selenium materials described in this license application were produced in the United States from materials received from foreign sources under toll or conversion agreements which provide for reexportation of the resultant products to friendly foreign countries.

(d) *Time for submission of applications.* Applications for licenses to export selenium containing chemical compounds, including pigments, Schedule B Nos. 829810, 839750, 839900 and 842900, shall be submitted in accordance with the schedule set forth in § 373.71.

§§ 373.57–373.58 [Reserved]

COMMODITY GROUP 9 [5]

§ 373.59 *Applicability of multiple commodity group provisions to Commodity Group 9 commodities.* All commodities within Commodity Group 9 which are identified on the Positive List of Commodities by the letter "A" in the "Commodity Lists" column are subject to the provisions of § 373.2.

§ 373.60 [Reserved]

§ 373.61 *Tools incorporating diamonds.* Applications for licenses to export tools, tool parts, or devices (including dental instruments, Schedule B No. 915000) containing diamonds must be submitted in accordance with the provisions of § 373.49 (c).

§§ 373.62–373.64 [Reserved]

SUBPART D—DESTINATION PROVISIONS

§ 373.65 *Ultimate consignee and purchaser. statements*—(a) *Scope*—(1) *General.* The provisions of this section apply to all proposed shipments of commodities for which validated export licenses are required where the country of ultimate destination is a country in Group R, and to any proposed shipments under the Time Limit (TL) licensing procedure (see Part 377 of this subchapter) to a country in Group O.

(2) *Exemptions.* The provisions of this section do not apply if the license application covering the proposed shipment shows that one or more of the following conditions are present:

(i) The application for license to export a proposed shipment is covered by an Import Certificate, submitted in accordance with § 373.2 (or as applicable, by a Swiss Blue Import Certificate as provided in § 373.67, a Hong Kong Import License as provided in § 373.69, or a Yugoslav End-Use Certificate as provided in § 373.70).

(ii) The total value, as shown on the export order covering the application, of the commodity(ies) classified in a single entry on the Positive List is less than $500 and the shipment is not supported by a multiple transactions statement submitted in accordance with paragraph (c) (3) of this section. For exportation of non-Positive List commodities to Hong Kong or Macao, the total value of the commodity(ies) classified under a single Schedule B number, as shown on the export order covering the application, is less than $500 and the shipment is not supported by a multiple transactions statement.

(iii) Shipment will be made under a Project License issued or to be issued as set forth in Part 374 of this subchapter.

(iv) (*a*) The ultimate consignee named in the license application is a foreign government or foreign government agency, and the foreign purchaser is also a foreign government or foreign government agency. However, if one of the parties to the transaction, either purchaser or ultimate consignee, is a party other than the foreign government or government agency, then a statement from that purchaser or ultimate consignee is required.

(*b*) The term "government agency" is construed to mean only those governmental departments operated by government paid personnel performing governmental administrative functions and not operated for profit. It does not include quasi-government agencies established or controlled by the government which perform commercial functions (e. g., resale or redistribution of goods of United States origin for commercial purposes).

(v) Shipment will be made by a relief agency registered with the Advisory Committee on Voluntary Foreign Aid, International Cooperation Administration (formerly FOA), to a member agency in the foreign country.

(vi) The license applicant is the same person as the ultimate consignee in the country of ultimate destination, provided that the applicant furnishes all the applicable information on the license application which is required in the consignee statement. This exemption does not apply where the applicant and the consignee are separate entities such as parent and subsidiary, or affiliated or associated firms.

(b) *Statements required from ultimate consignee and purchaser*—(1) *General.* The applicant shall furnish an original or copy of a statement from the ultimate consignee named in the application, certifying to certain facts relating to the proposed transaction. This statement is required by the Bureau of Foreign Commerce to make certain that foreign consignees are fully aware of their responsibility not only for the representations made to the Bureau of Foreign Commerce, but also for the proper disposition of the licensed commodities only in those foreign countries where the Bureau of Foreign Commerce has authorized disposition. In addition, the requirement curtails the time-consuming supplementary inquiries by the Bureau of Foreign Commerce which otherwise often may be necessary.

(2) *Signatures.* This statement must be manually signed by the ultimate consignee or by a responsible official of the ultimate consignee who has personal knowledge of the information included in the statement, who has authority to bind the ultimate consignee, and who has the power and authority to control the use and disposition of the licensed commodities in the country of ultimate destination. The authority to sign this document may not be delegated to any person (agent, employee, or other) whose authority to sign is not inherent in his official position with the ultimate consignee. The official signing the statement may be located in the United States or in a foreign country; his official title shall be included with his signature.

(3) *Purchasers.* If the purchaser named in the export license application is a different person from the named ultimate consignee, the purchaser must either sign the statement executed by the ultimate consignee, or the applicant must also attach to the application an additional statement executed by the purchaser. This statement from the purchaser shall meet the same requirements of signature, etc., as are stated in subparagraph (2) of this paragraph for the ultimate consignee, and it must cover the same subject matter as required from the ultimate consignee in subsequent paragraphs of this section. The purchaser's statement may be a single transaction statement or a multiple transactions statement and shall be completed in accordance with the procedure described in paragraph (c) of this section.

[5] Parts, accessories, and equipment which are to be scrapped are classified as scrap (e. g., Schedule B Nos. 601010–601170, 630050, 641300, and 644000). See § 399.2, Int. 10.

(4) *Alterations.* No corrections, additions, or alterations to a consignee or purchaser statement may be made by the applicant for an export license after the statement has been signed by the consignee or purchaser. If the signed statement is incomplete or incorrect in any respect, the applicant shall obtain a corrected statement from the consignee and/or purchaser.

(5) *Applications filed without statements.* An application not supported by a statement (where required) from the ultimate consignee or purchaser will be returned without action to the applicant. However, an applicant who can show to the satisfaction of the Bureau of Foreign Commerce that he has made diligent efforts to obtain such statement and has been unable to get it, may so advise the Bureau of Foreign Commerce in a letter attached to his application, giving the stated reasons of the ultimate consignee or purchaser for failing or refusing to give the applicant such statement and the application will receive consideration for approval.

(6) *30-day grace period for Positive List additions.* When a commodity becomes subject to the requirements of this Section by reason of having been added to the Positive List, export license applications for such commodity to Group R countries or for Group O countries under the TL licensing procedure need not conform to these requirements for a period of 30 days from the time such commodities are added to the Positive List. In lieu of the end-use and ultimate consignee statements during such 30-day period, applications shall be accompanied by any evidence available to the exporter which will support the applicant's representations concerning the ultimate consignee, ultimate destination, and the end-use. Such evidence may consist of copies of the letter of credit, the order for the commodities, correspondence between the exporter and consignee, or other documents received from the consignee.

(c) *Information required in consignee statements*—(1) *General.* (i) Where an application to export a commodity involves a single transaction, a statement shall be submitted on Form FC–842 "Single Transaction Statement by Consignee and Purchaser," or in the event of an emergency, in the form of a wire or cable provided it contains the same information as required on the form.* Exporters who have a continuing and regular relationship with an ultimate consignee (including but not limited to applicants having foreign branches or subsidiaries or distributors under franchise with the applicant) involving recurring orders for the same commodities to the same destinations and for the same end uses, and applicants for Time Limit (TL) licenses (see Part 377 of this subchapter) or Foreign Distribution (FDL) licenses (see Part 378 of this subchapter) may submit to the Bureau of Foreign Commerce a multiple transactions statement executed on Form FC–843 "Multiple Transactions, Statement by Consignee and Purchaser."* Statements submitted under the multiple transactions procedure will not be accepted on any form other than Form FC–843. The exporter shall attach to Form FC–843 a list in original only of the Bureau of Foreign Commerce product divisions responsible for licensing those commodities listed on the statement, and shall submit the original plus one additional copy of the multiple transactions statement for each Bureau of Foreign Commerce product division responsible for licensing these commodities. (A list of Bureau of Foreign Commerce product divisions and the commodity processing codes for which each product division has licensing authority, is set forth in § 399.4, appendix D, of this subchapter.) Since there are but four product divisions in the Bureau of Foreign Commerce, a maximum of an original plus four additional copies will be required. If the commodities to which the statement applies are assigned processing codes under a single product division, the original plus only one additional copy of the statement will be required.

(ii) This multiple transactions statement shall cover all proposed exportations of such commodities regardless of value (including those based on export orders amounting to less than $500) for which applications for export licenses will be submitted to the Bureau of Foreign Commerce during all or any part of the period ending on June 30 of the year following the year during which the statement is executed (unless an earlier termination date is desired and is specified on the Multiple Transactions Statement). For example, a statement executed on July 3, 1956, may cover proposed exportations for which license applications are filed on or before June 30, 1957.

(iii) All of the items of information specified in this paragraph or on Form FC–842 or Form FC–843, shall be furnished if applicable to the transaction. If such information is unknown, that fact should also be disclosed. Special provisions applicable to the single transaction statement are set forth in subparagraph (2) of this paragraph; special provisions applicable to the multiple transactions statement are set forth in subparagraph (3) of this paragraph; and the information required on both the single and multiple transactions statement is set forth below:

(*a*) Name and address of the ultimate consignee;

(*b*) Name of the United States exporter or person with whom the order has been placed;

(*c*) Description of the commodity or commodities to which the statement applies. The commodities shall be described in terms which will enable the Bureau of Foreign Commerce to determine that the commodities described on the statement are the same as those described on the related application for export license.

(*d*) The nature of the consignee's usual business, including whether he is the user, seller, etc., of the commodities to which the statement applies;

(*e*) The ultimate destination of the commodity or commodities to which the statement applies, showing whether the commodities will be reexported from the country indicated in the ultimate consignee item of the statement, and if the commodities are for reexport, the name of the country or countries to which reexportation is proposed (in the item entitled "Disposition of Commodities"). (See § 373.68 with respect to the filing of consignee statements which make reference to Viet-Nam, Laos, and Cambodia or the area formerly known as "Indochina.") It is emphasized that nothing shown on Form FC–842 or Form FC–843 shall be construed as an authorization by the United States Department of Commerce to reexport the commodities to which the statement applies without approval of specific countries from the Department of Commerce. Such authorization to reexport is not granted on the basis of information on these forms, but as a result of a specific request by the United States exporter on the license application (Form IT– or FC–419) or upon request of the consignee through the United States exporter after the license is issued. (See also § 372.12 of this subchapter.)

(*f*) A specific and detailed description of the end use to which the commodity or commodities will be put by the ultimate consignee in the country of ultimate destination (in the item entitled "Specific Use"). If the ultimate consignee will use the commodity or commodities to produce other end products show the names of the end products, the country or countries where the production or manufacture will take place and the country or countries in which the end product will be distributed, if these facts are known. The end-use information shall be set forth in as much detail as is known to the person(s) signing the statement.

(*g*) Any additional facts relating to the transaction which the consignee or purchaser believes will be of value to the Bureau of Foreign Commerce in the consideration of license applications submitted in his behalf by the United States exporter (in the item entitled "Additional Information").

(*h*) The name of any person, other than the employees of the ultimate consignee or purchaser, who assisted in the preparation of the statement; and

(*i*) A certification by the consignee and/or purchaser that the facts contained in the statement are true and correct to the best of their knowledge and belief; a certification by the consignee and/or purchaser that they will promptly send a supplemental statement to the United States exporter (or the foreign distributor in the case of a Foreign Distribution license) of any change of facts or intentions set forth in their statement which occurs after the statement has been prepared and forwarded; and that with respect to any shipment which they propose to dispose of contrary to the representations made in the statement, or contrary to the limitations on countries of distribution which may be received on the bill of lading, commercial invoice or other comparable documents, they will notify the United States exporter and secure approval of the Bureau of Foreign Commerce through the United States exporter prior to such disposition.

(2) *Special provisions applicable to the single transaction statement.* In addition to the general information set forth in subparagraph (1) of this paragraph, the following special provisions apply to the single transaction statement (Form FC–842):

(i) The single transaction statement shall be submitted to the Bureau of Foreign Commerce within 90 days from the date of signing by the consignee or purchaser, whichever date is later.

(ii) The quantity and (if known) the value of commodities ordered by the consignee or purchaser from the United States exporter shall be shown on the statement in the quantity and value columns of Form FC–842. If the actual value is not known, an estimated value should be shown and the entry should be labeled "estimate". If it is impossible to determine an estimated value, the word "unknown" should be entered therein together with an explanation of the reason why an actual or estimated value cannot be provided.

NOTE 1: *Commodities licensed in terms of dollar value.* If the commodity is licensed in terms of dollar value, an application for an export license will not be approved for a quantity significantly in excess of the actual or estimated value shown on the Form FC–842. Where the Form FC–842 indicates that the value is unknown, the Bureau of Foreign Commerce will consider the approval of one application against the related Form FC–842 provided that the applicant states on the license application that the transaction described on the license application is the same as that described on the Form FC–842.

NOTE 2: *Commodities not licensed in terms of dollar value.* If the commodity is not licensed in terms of dollar value, the Bureau of Foreign Commerce uses the value information shown on Form FC–842 primarily as an aid to identifying the commodity. Applications covering this type of commodity will not be approved for a quantity significantly in excess of the quantity shown on the related Form FC–842.

(iii) In addition, the end use of the commodities by the ultimate consignee shall be shown in the item entitled "Specific End Use" including if known, the end use of the commodities by the customers of the ultimate consignee. If the end use by the customers is unknown, enter the word "Unknown."

(3) *Special provisions applicable to the multiple transactions statement.* In addition to the general information set forth in subparagraph (1) of this paragraph, the following special provisions apply to the multiple transactions statement (Form FC–843):

(i) A representation that the statement shall be considered a part of every application for license filed by the named United States exporter or person with whom the order is placed, for export to the consignee of the commodity or commodities to which the statement applies, during the period stipulated (in the item entitled "Request");

(ii) The nature of the consignee's business relationship with the United States exporter named on the Form FC–843, or with the distributor in the case of a Foreign Distribution (FD) license, and how long the relationship has existed (in the item provided to show business relationship).

NOTE: *Proper number of copies of statement.* United States exporters may wish to advise their foreign importers (ultimate consignees and purchasers) to submit these statements in as many copies as the exporter requires for submission to the Bureau of Foreign Commerce for all license applications to be submitted in connection with the importer's order(s).

(4) *Method of extension of validity period of multiple transactions statements.* (i) In lieu of submitting a new multiple transactions statement, the coverage period of a currently valid multiple transactions statement submitted on Form FC–843 on file in the Bureau of Foreign Commerce, may be extended by the submission to the Bureau of Foreign Commerce of (*a*) a certification completed by the ultimate consignee and purchaser and (*b*) a copy of the United States exporter's letter to his ultimate consignee and purchaser requesting the completion of such certification. Such certification and letter shall meet, as a minimum, the requirements described below and shall be submitted in the same number of copies as are required for multiple transactions statements under subparagraph (1) of this paragraph.

(ii) The following certification shall be signed by the ultimate consignee and purchaser (if applicable):

I (we) certify that:

(1) I (we) have reread our multiple transactions statement, Form FC–843–Revised, dated _____;

(2) The facts contained in this multiple transactions statement which will expire on _____ have not changed to date;

(3) The facts contained in that multiple transactions statement accurately and completely reflect our past and present relationship with _____
(Name of U. S. exporter)
and our intended use and disposition of commodities received during the period ending _____;
(June 30 of next year, unless an earlier termination date is desired)

(4) I (we) shall promptly send a supplemental statement to the named United States exporter disclosing any change of facts or intentions which occurs after the signing of this certification;

(5) With respect to any shipment which I (we) propose to dispose of contrary to the representations made in the above described Form FC–843, or contrary to limitations on countries of distribution which I (we) receive on my (our) bill of lading, commercial invoice or comparable documents, I (we) will notify the named U. S. exporter, and will secure the United States Government approval through this exporter prior to such disposition.

_____
(Date of signing)

(Print or type)

_____
(Name of consignee/purchaser)

_____
(Address of consignee/purchaser)

_____
(Signature of official of firm named)

_____
(Name and title of person signing statement)

(iii) The United States exporter's letter to his consignee requesting the above certification shall, among other things, include the following instructions: (*a*) The original multiple transaction statement shall be reexamined to make sure that the facts and intentions have not changed; (*b*) the commodities shall be used in the authorized countries only; (*c*) the commodities shall not be diverted or transshipped from authorized destinations to other destinations without prior United States approval; and (*d*) the exporter must be informed of any future change of facts or intentions from those stated in the certification.

(iv) The certification completed by the ultimate consignee and purchaser and the copy of the United States exporter's letter to his ultimate consignee and purchaser requesting the completion of such certification, must be received in the Bureau of Foreign Commerce before the expiration date of the consignee statement or any previous extensions thereof.

(d) *Applications supported by consignee statements*—(1) *Applications supported by a multiple transactions statement.* An application for an export license, supported by a multiple transactions statement or by a certification extending the coverage period of a multiple transactions statement, shall contain the following statement:

This application is supported by the multiple transactions statement dated _____ from the named consignee to this applicant.

(2) *Applications supported by a single transaction statement.* Where a single transaction statement covers a purchase order for several commodities that require more than one license application, each license application supported by the single transaction statement shall contain the following certification:

I (we) certify that I (we) have not submitted application, including the present application, in excess of the described commodities and quantities shown on the Single Transaction Statement dated _____. This Single Transaction Statement was submitted in support of Application No. _____ (BFC Case No., or if BFC Case No. is unknown, the applicant's reference No. and date of submission of the application.)

NOTE 1: *Purchase order.* The statement from the ultimate consignee and purchaser shall relate only to purchase orders placed by one ultimate consignee and one purchaser with one United States exporter. A purchase order covered by any consignee statement may involve several commodities. The Single Transaction Statement by Consignee and Purchaser (Form FC–842) shall relate to only one purchase order. The Multiple Transactions Statement by Consignee and Purchaser (Form FC–843) may cover more than one purchase order.

NOTE 2: *Coded terms and translation requirements.* The provisions of § 372.9 (d) of this subchapter, requiring an explanation of terms and abbreviations and an English translation of documents in a foreign language, must be observed. Exporters may provide their foreign customers with Form

* Forms FC–842 and FC–843 may be obtained at all Department of Commerce field offices and from the Bureau of Foreign Commerce, Department of Commerce, Washington 25, D. C. Foreign importers may obtain copies of Forms FC–842 and FC–843 from their United States exporter or from United States diplomatic and Consular offices.

FC–842 and Form FC–843 translated into the foreign language of the customers. Copies of Form FC–842 and Form FC–843 in foreign languages will not be provided by the Bureau of Foreign Commerce.

NOTE 3: *Applicability of statements on ultimate consignee/purchaser statement to license applications and export licenses.* Information supplied by a consignee or purchaser on a consignee statement cannot be construed as extending or expanding the specific information on a license application or an export license resulting therefrom. With regard to disclosure of facts pertaining to an individual export transaction, the export license application covering the transaction must be self-contained. The authorizations contained in the resulting export license are not extended by the general information contained in the consignee statement with regard to reexportation from the country of destination or with regard to any other facts relative to the transaction as reported on the application.

NOTE 4: *Liability of ultimate consignee or purchaser.* Misrepresentations, either through failure to disclose facts, concealing a material fact, or furnishing false information in the required statement, will subject the ultimate consignee and/or purchaser to administrative action by the Bureau of Foreign Commerce, including suspension, revocation, or denial of licensing privileges and denial of other participation in exports from the United States.

NOTE 5: *Applicant's responsibility for full disclosure.* In submitting statements from the ultimate consignee and foreign purchaser, the applicant is not relieved of responsibility for full disclosure of any other information concerning the ultimate destination and end use of which he has knowledge or belief, whether or not inconsistent with the representations of the ultimate consignee or foreign purchaser. In accordance with the provisions of § 381.5 of this subchapter, the applicant shall also promptly bring to the attention of the Bureau of Foreign Commerce any change in the facts which were set forth in the first or any supplementary statement from the ultimate consignee or purchaser and which change was brought to his notice by the ultimate consignee or purchaser or any other person subsequent to the date the statement was made.

NOTE 6: *Applicant is not named on consignee statement.* If the license applicant is not named on the consignee statement, the provisions of § 372.4 (a) (2) of this subchapter must be observed.

(e) *Letterheads and order forms.* The printed name, address, or nature of business of the ultimate consignee or purchaser appearing on his letterhead or order form shall not constitute evidence of either his identity, the country of ultimate destination, or end use of the commodities described in the application.

(f) *Requests for Amendments.*[7] (1) A new consignee and purchaser statement (Form FC–842 or FC–843) shall accompany a request for an amendment of an export license which proposes a change in the consignee or purchaser in the transaction named in the export license, if the proposed amendment is not in accordance with the consignee and purchaser statement previously submitted to the Bureau of Foreign Commerce.

(2) (i) A new Single Transaction Statement by Consignee and Purchaser (Form FC–842) or a letter, wire or cable from the ultimate consignee and purchaser (if applicable) confirming the change, shall accompany a request for an amendment of an export license which proposes any increase in the quantity set forth in the export license if the proposed amendment is not in accordance with the Single Transaction Statement by Consignee and Purchaser previously submitted to the Bureau of Foreign Commerce.[7] If a proposed quantitative amendment is in accordance with the previously submitted Single Transaction Statement by Consignee and Purchaser, the amendment request shall include the following certification:

I (we) certify that this request for amendment of export license number _____, if granted, will not exceed the total covered by the Single Transaction Statement by Consignee and Purchaser against which this export license was issued.

(ii) Where the export license is based on a Multiple Transactions Statement, an additional Statement is not required from the consignee or purchaser to support a proposed license amendment for increase in quantity. In lieu thereof, the following certification shall be placed on the request for amendment:

I (we) certify that the license(s) listed above is supported by a Multiple Transactions Statement.

§ 373.66 *Austria.*[1] (a) *Austrian Import Identification number.* Each applicant for a license to export commodities to Austria shall show in the import permit number item on the Application for Export License (Form IT– or FC–419), the Austrian import identification number on which the application is based. These numbers run in series from 1,000 to 339,999 inclusive, and in all instances will be preceded by the letters "IKN".

(b) *Exportations to the Austrian Government.* Applications for licenses to export commodities to Austrian Government agencies are exempt from the requirement to furnish the Austrian Import Identification Number where the Austrian Government agency actually placed the order with the applicant and will accept delivery of the exportation when it is received in Austria.

NOTE: For definition of "government agency", see § 373.65 (a) (2) (iv).

(c) *Exceptions.* (1) The Bureau of Foreign Commerce will consider the granting of an exception to this requirement where the ultimate consignee is unable to furnish the U. S. exporter with the Austrian Import Identification Number and the granting of an exception will not be contrary to the objectives of the United States export control program. The Bureau of Foreign Commerce may waive the requirement where it is shown that the inability of the foreign importer to provide the required information was due to discrimination against the U. S. exporter by the foreign government or for any other valid reason of similar importance.

(2) Each request for exception shall be by letter, in duplicate, accompanying the license application to which it applies, addressed to the Bureau of Foreign Commerce, Department of Commerce, Washington 25, D. C. The letter request should include, among other things, (i) the nature and duration of the business relationship between the applicant and the importer shown on the license application; (ii) the reason or reasons for the foreign importer's inability to obtain the Austrian Import Identification number from his government; (iii) a statement as to whether the exporter has previously submitted to the Bureau of Foreign Commerce any Austrian Import Identification numbers issued in the name of the importer and a listing of Bureau of Foreign Commerce Case Numbers to which such certificates applied; and (iv) any other facts which would justify the granting of an exception. The applicant should also attach to his letter request, or have on file in the Bureau of Foreign Commerce, a statement from the consignee and purchaser in accordance with § 373.65. No request will be considered or granted unless such statement is submitted or is on file in the Bureau of Foreign Commerce.

(3) Where the letter request relates to more than one license application, whether submitted at the same time or at a later date, the original letter request shall be attached to one application and a copy of the letter request shall be attached to each additional application to which it is equally applicable. Any application to which a copy of the letter request is attached shall contain a reference (Bureau of Foreign Commerce Case Number, if known, or applicant's reference number) to the application to which the original letter request was attached.

§ 373.67 *Switzerland*—(a) *Import Certificate requirement.* License applications for export of commodities to Switzerland must be accompanied by the original Blue Import Certificate issued to the Swiss importer by the Swiss Federal Department of Public Economy, Division of Commerce, Import and Export Control, covering the proposed exportation from the United States. Where the Import Certificate covers commodities for which more than one export license application is submitted, the original of the Import Certificate shall be attached to the first such application. Each subsequent application shall contain a reference (Bureau of Foreign Commerce Case Number, if known, applicant's reference number, or other identifying information) to the application to which the original Import Certificate was attached and shall include the following certification:

I (we) certify that I (we) have not submitted applications, including the present application, against the Swiss Blue Import Certificate No. _____ in excess of the total quantity authorized thereon.

(b) *Exemptions*—(1) *45-day grace period for Positive List additions.* When a commodity becomes subject to the requirements of this section by reason of having been added to the Positive List, export license applications for such commodities need not conform to these requirements for a period of 45 days from the time such commodities are added to the Positive List.

(2) *Shipments to the Swiss Government.* (1) Applications for licenses to export commodities to Swiss Government agencies are exempted from the requirement to submit a Swiss Blue Import Certificate where the Swiss Government agency actually placed the order with the applicant and will accept delivery of the exportation when it is received in Switzerland.

NOTE: For definition of "government agency" see § 373.65 (a) (2) (iv).

(c) *Return of Blue Import Certificate.* The Swiss Blue Import Certificate provides that the Swiss importer has pledged himself directly to import the commodities into the Swiss customs territory and that any reexportation of these goods is prohibited. If the Swiss importer is unable to obtain the commodities covered by a Swiss Blue Import Certificate, he is required by the Swiss Government to produce evidence of such inability. Therefore, United States exporters may be requested by their foreign importers to return unused or partially used Import Certificates. In such cases the U. S. exporter should forward the Import Certificate to his importer as soon as he determines that the Import Certificate will not be used with a new or resubmitted license application, or an appeal. In order to meet these requests, Import Certificates on file in the Bureau of Foreign Commerce will be returned to exporters in accordance with the procedures indicated below:

(1) *Import Certificate quantity greater than license application.* Where an Import Certificate covers a quantity in excess of the export license applications submitted against it, the Bureau of Foreign Commerce will retain the Import Certificate until such time as the exporter requests the return thereof. When requesting the return of the Import Certificate, the exporter should submit his request in writing, showing the name and address of the named importer, applicable Bureau of Foreign Commerce Case Numbers to which the Import Certificate applies, Import Certificate number, and a statement that such Import Certificate will not be used in connection with a new or resubmitted application for export. Appropriate notation will be made on the Import Certificate by the Bureau of Foreign Commerce.

(2) *Import Certificate and license application in same quantities.* The Bureau of Foreign Commerce will automatically return the applicable Import Certificate to the United States exporter (applicant) whenever an application for export covers the same type and amount of the commodity as that shown on the Import Certificate, but such application is rejected or approved in a reduced quantity. Appropriate notation will be made on the Import Certificate by the Bureau of Foreign Commerce.

(3) *Unshipped quantities.* In instances where the U. S. exporter does not intend to ship the total quantity or any portion of commodities for which a license has been issued and desires the return of the Import Certificate, he should submit his request in writing for return of the Import Certificate, together with a request for cancellation or amendment of the license to show the quantity, if any, which he intends to ship. Where the amendment refers to an unexpired license, the exporter shall submit the amendment form (Form IT– or FC–763) (in addition to the letter request), as provided by the regular amendment procedure. (See § 380.2 of this chapter.) Appropriate notation will be made on the Import Certificate by the Bureau of Foreign Commerce.

NOTE: 1. *Shipments to Switzerland.* Shipments to Switzerland are subject to § 379.10 requiring a statement on the Shipper's Export Declaration, bill of lading, and commercial invoice, to the effect that the commodities are licensed by the United States for ultimate destination Switzerland and that diversion contrary to U. S. law is prohibited.

2. *Reexportation to Switzerland.* Where an Import Certificate has been submitted to the Bureau of Foreign Commerce covering an exportation for the account of an importer pursuant to the provisions of § 373.2 and the exportation is subsequently to be reexported to Switzerland, the applicant for export license is not required to submit a Swiss Blue Import Certificate to the Bureau of Foreign Commerce. However, the exporter is required to secure permission from the Bureau of Foreign Commerce prior to reexportation, in compliance with § 372.12 (a) of this chapter.

(d) *Exceptions.* (1) The Bureau of Foreign Commerce will consider the granting of an exception to the requirement for submission of the Swiss Blue Import Certificate where the ultimate consignee has been unable to obtain the required document and the granting of an exception will not be contrary to the objectives of the United States export control program. The Bureau of Foreign Commerce may waive the requirement of the submission of the Swiss Blue Import Certificate where the refusal by the foreign government to issue the Import Certificate constitutes discrimination against the United States exporter, or for any other valid reason of similar importance. Each such request or exception shall be by letter, in duplicate, accompanying the license application to which it applies, addressed to the Bureau of Foreign Commerce, Department of Commerce, Washington 25, D. C. The letter request should include, among other things, (i) the nature and duration of the business relationship between the applicant and the importer shown on the license application; (ii) the reason or reasons for the foreign importer's inability to obtain the Blue Import Certificate from his government; (iii) a statement as to whether the exporter has previously submitted to the Bureau of Foreign Commerce any Swiss Blue Import Certificates issued in the name of the importer and a listing of the Bureau of Foreign Commerce Case Numbers to which these certificates applied; and (iv) any other facts which would justify the granting of an exception. The applicant should also attach to his letter request, or have on file in the Bureau of Foreign Commerce, a statement from the consignee and purchaser in accordance with § 373.65. No request will be considered or granted unless such statement is submitted or is on file in the Bureau of Foreign Commerce.

(2) Where the letter request relates to more than one license application, whether submitted at the same time or at a later date, the original letter request shall be attached to one application and a copy of the letter request shall be attached to each additional application to which it is equally applicable. Any application to which a copy of the letter request is attached shall contain a reference (Bureau of Foreign Commerce Case Number, if known, or applicant's reference number) to the application to which the original letter request was attached.

(e) *Amendment requests for increased quantities.*[10] A request for amendment to increase the quantity of an export license which is covered by a Swiss Blue Import Certificate shall include the following certification on Form IT– or FC–763 or on a signed attachment thereto:

I (we) certify that this request for amendment of export license No. _____, if granted, will not exceed the total quantity authorized under Swiss Blue Import Certificate No. _____.

§ 373.68 *Cambodia, Laos, and Viet-Nam (the area formerly known as Indo-China).* All license applications (Form IT– or FC–419), Ultimate Consignee and Purchaser Statements (Form IT– or FC–842 or 843, see § 373.65), and destination control statements (see § 379.10 (c) of this subchapter) which make reference to Indo-China shall also specify which of the following areas are referred to:

(a) Communist controlled areas of Viet-Nam and Laos.

(b) Cambodia and the non-Communist controlled areas of Viet-Nam and Laos.

§ 373.69 *Hong Kong*—(a) *Scope.* The provisions of this section shall apply to shipments to Hong Kong of all commodities on the Positive List of Commodities (§ 399.1 of this subchapter) for which a validated export license is required, unless the shipment (or application for export license) is of the type exempted by the provisions of § 373.2 (a) (2).

NOTE: The ultimate consignee and purchaser statement procedure set forth in § 373.65 shall be applicable to proposed exports to Hong Kong of commodities not on the Positive List of Commodities for which a validated export license is required. However, an Import License will be acceptable in lieu of a Consignee and Purchaser Statement for proposed exports of non-Positive List commodities.

(b) *Documents.* For export control purposes, an endorsed Import License (Form 3) issued by the Hong Kong Government to importers in Hong Kong is the equivalent document to the Import Certificate (Form IT– or FC–826) issued to U. S. importers. C & I Form 229, Delivery Verification, and C & I Form 42, Landing Certificate, as issued by the Government of Hong Kong to importers in Hong Kong, are the equivalent documents.

[7] Section 380.2 contains other provisions applicable to amendments of licenses covered by a consignee and purchaser statement.

[1] Also see § 373.2 for requirement for submission of import certificate.

[10] Section 380.2 of this chapter contains other provisions applicable to amendments of applications covered by a Swiss Blue Import Certificate.

ments of the Delivery Verification (Form IT– or FC–908) issued to U. S. importers (see § 368.1 of this subchapter).

(c) *Submission of import license*—(1) *Single transaction import license.* (i) The applicant shall attach to his license application, covering a proposed exportation described in paragraph (a) of this section, the duplicate copy of the Import License, bearing the official authentication of the governmental authorities in Hong Kong, issued to the named importer or his agent and covering the commodity or commodities described in the export license application. The copy of the Hong Kong Import License attached to the application for a validated license shall include thereon one of the following stamped endorsements which shall bear the signature of an official of the Hong Kong Government:

(a) For consumption in Hong Kong. Diversion en route prohibited. Re-export not permitted except under special license and subject in addition to general or specific concurrence of government of supplying country concerned.

(b) For re-export to ----------

---

(Approved destination)

Diversion en route prohibited. To be delivered by shipping or airline company concerned to Govt. designated godown. Overside delivery not permitted. Release from godown subject to approval of export license.

(c) For local consumption in Hong Kong.

(ii) Where the Hong Kong Import License covers commodities for which more than one export license application is submitted, the Import License shall be attached to the first such application. Each subsequent application shall include the following certification:

I (we) certify that I (we) have not submitted applications, including the present application, against the Hong Kong Import License No. -------- in excess of the total quantity authorized thereon. This Import License was submitted in support of Application No. ----------

---

(BFC Case No. or if Case No. is unknown, the Applicant's Reference No., date of submission of the application to which the Import License was attached, and Schedule B Nos. shown on that application)

NOTE: BFC Case No. Inclusion. Whenever possible, the BFC Case Number should be indicated on the certification set forth above since failure to supply the BFC Case Number may result in delay in processing the application.

(2) *Multiple transaction import license.* Exporters may submit to the Bureau of Foreign Commerce the duplicate copy of the Hong Kong Import License issued by the Government of Hong Kong, appropriately endorsed as provided in subparagraph (1) (i) of this paragraph, covering all proposed exportations of a commodity or commodities, regardless of value, including commodities based on export orders amounting to less than $500. However, to be acceptable, the multiple transaction Import License must indicate either a specific validity period or a specific quantity or value. The exporter shall submit the Import License bearing the official authentication of the Hong Kong governmental authorities, together with one additional copy for each Bureau of Foreign Commerce processing code to which the Import License applies and a listing of such processing codes. Each subsequent application for export license submitted against a multiple transaction Import License shall bear on the face of the application one of the following certifications (depending on whether a quantity is shown on the Import License) signed by the applicant:

I (we) certify that I (we) have not submitted applications including the present application against the Hong Kong Import License No. -------- in excess of the total quantity authorized thereon.

or (if no quantity is shown on the Import License):

This application is supported by the Hong Kong multiple transaction Import License No. --------.

(d) *Submission of verification of delivery.* (1) The Bureau of Foreign Commerce may require verification of delivery in the form of a Hong Kong Delivery Verification or Landing Certificate, for any exportation to Hong Kong for which a validated license is granted, including commodities not listed on the Positive List. Where a verification of delivery is required, the face of the export license will bear the stamped words "Delivery Verification Required, see attached Form IT– or FC–863." Where a Form IT– or FC–863 is attached to a license forwarded by the Bureau of Foreign Commerce to an agent or freight forwarder of the licensee, it shall be the responsibility of the agent to notify the licensee that a verification of delivery is required.

(2) Where verification of delivery is required on a shipment, the United States exporter shall submit the Hong Kong Delivery Verification (C & I Form 229) to the Bureau of Foreign Commerce. In instances where the Bureau of Foreign Commerce requires verification of delivery and the Hong Kong Government does not issue their Delivery Verification form, the United States exporter shall obtain a Landing Certificate (C & I Form 42) from the Hong Kong importer and submit this certificate to the Bureau of Foreign Commerce in lieu of the Delivery Verification form.

(3) The requirement that a verification of delivery be submitted for a particular commodity is canceled automatically if, subsequent to the issuance of a license, the commodity is authorized by the Bureau of Foreign Commerce to be shipped to Hong Kong under General License GHK.

(e) *Applicability of IC/DV provisions in* § 373.2. The provisions of § 373.2 (a) (2), the note following § 373.2 (c), (d), (e), (f), (g), and (h), and the note and explanatory statements and interpretations following § 373.2 (h), shall be equally applicable to license applications and validated export licenses to Hong Kong.

§ 373.70 *Yugoslavia*—(a) *End-Use Certificate requirement.* License applications for the export of commodities to Yugoslavia shall be accompanied by the original End-Use Certificate covering the proposed exportation from the United States issued to the Yugoslav importer by the Federal Chamber for Foreign Trade in Belgrade (Beograd). Where the End-Use Certificate covers commodities for which more than one export license application is submitted, the original of the End-Use Certificate shall be attached to the first such application. Each subsequent application shall include the following certification:

I (we) certify that I (we) have not submitted applications, including the present application, against the Yugoslav End-Use Certificate No. ------ in excess of the total quantity authorized thereon. This End-Use Certificate was submitted in support of Application No. ----------

---

(BFC Case No. or if Case No. is unknown, the Applicant's Reference No., date of submission of the application to which the End-Use Certificate was attached, and Schedule B Nos. shown on that application.)

NOTE: 1. *Translation requirements.* All abbreviations, coded terms, or other expressions having special significance in the trade or to the parties to the transaction must be explained. Documents in a foreign language must be accompanied by an accurate English translation. Such translation need not be made by a translating service, but, if not, must be certified by the applicant to be a correct translation. (See § 372.9 of this subchapter.)

2. *Purchase order.* The Yugoslav End-Use Certificate may cover more than one purchase order and may be concerned with several commodities; however, the End-Use Certificate shall relate only to purchase orders placed by a single importer with a single United States exporter.

3. *Applicant's responsibility for full disclosure.* In submitting a Yugoslav End-Use Certificate, the applicant is not relieved of responsibility for full disclosure of any other information concerning the ultimate destination and end use of which he has knowledge or belief, whether or not inconsistent with the representations set forth in the End-Use Certificate. The applicant also shall, by means of supplementary statements from the importer or any other party to the transaction, notify the Bureau of Foreign Commerce of any change that is brought to his notice subsequent to the date the End-Use Certificate is issued.

4. *Yugoslav End-Use Certificate as a factor in licensing.* The Department of Commerce reserves the right in all respects to determine to what extent any license shall be issued covering commodities for which the Yugoslav Government has issued an End-Use Certificate. The Department of Commerce will not seek or undertake to give consideration to recommendations from the Yugoslav Government as to the United States exporter whose license application should be approved. A Yugoslav End-Use Certificate will be used by the Bureau of Foreign Commerce as only one of the considerations upon which licensing action will be based, since quotas, end uses, etc., must remain important factors in export licensing.

(b) *Exemptions*—(1) *45-day grace period for Positive List additions.* When a commodity becomes subject to the requirements of this section by reason of having been added to the Positive List, export license applications for such commodities need not conform to these requirements for a period of 45 days from the time such commodities are added to the Positive List.

(2) *Shipments to the Yugoslav Government.* Applications for licenses to export commodities to Yugoslav Government agencies are exempted from the requirement to furnish the Yugoslav End-Use Certificate where the Yugoslav Government agency actually placed the order with the applicant and will accept delivery of the exportation when it is received in Yugoslavia.

NOTE: For definition of "government agency", see § 373.65 (a) (2) (iv).

(c) *Return of End-Use Certificate.* The Yugoslav End-Use Certificate provides a certification by the Yugoslav importer to his Government that he will import the commodities through the Yugoslav customs frontier and that he will not reexport the goods without obtaining permission from his Government. If the Yugoslav importer is unable to obtain the commodities covered by the End-Use Certificate, he is required by the Government of Yugoslavia to produce evidence of such inability. Therefore, where United States exporters are requested by their foreign importers to return unused or partially used End-Use Certificates, U. S. exporters shall return such Certificates in the same manner established for the return of a Swiss Blue Import Certificate (see § 373.67 (c) (1), (2), and (3)).

(d) *Exceptions.* The Bureau of Foreign Commerce will consider the granting of an exception to the requirement for submission of the Yugoslav End-Use Certificate where the ultimate consignee has been unable to obtain the required document and the granting of an exception will not be contrary to the objectives of the United States export control program. Requests for exception shall be submitted in the same manner prescribed for exceptions for the submission of a Swiss Blue Import Certificate (see § 373.67 (d)).

NOTE: Applicants are advised that delay may be entailed in the review of a license application under this exception clause in view of the necessary added consideration, although the Bureau of Foreign Commerce will process the application as quickly as possible. The BFC can give no assurance that an export license will be issued for any exportation where an exception to this section is requested.

(e) *Amendment request for increased quantities.*[1] A request for amendment to increase the quantity of an export license which is covered by a Yugoslav End-Use Certificate shall include the following certification on Form IT– or FC–763 or on a signed attachment thereto:

I (we) certify that this request for amendment of export license No. -------, if granted, will not exceed the total quantity authorized under Yugoslav End-Use Certificate No. -----.

## SUBPART E—TIME SCHEDULES FOR SUBMISSION OF APPLICATIONS FOR LICENSES

§ 373.71 *Supplement 1.*

TIME SCHEDULES FOR SUBMISSION OF APPLICATIONS FOR LICENSES TO EXPORT CERTAIN POSITIVE LIST COMMODITIES

(Second and third quarters of 1956)

| Dept. of Commerce Schedule B No. | Commodity | Submission dates | |
|---|---|---|---|
| | | Second quarter, 1956 | Third quarter, 1956 |
| 630050 | Aluminum scrap (new and old) | Before June 16, 1956 | |
| 630070 | Aluminum remelt ingots | | |
| 641300 | Copper scrap (new and old) containing 40 percent or more copper. | | |
| 644000 | Copper-base alloy scrap (new and old) containing 40 percent or more copper, excluding copper-nickel alloy scrap containing 40 percent or more copper and 5 percent or more nickel. | | |
| 644100 | Copper-base alloy ingots and other crude forms | | |
| 619159 | Selenium powder | Mar. 1-15, 1956 | June 1-15, 1956 |
| 622098 | Ferroselenium | | |
| 664998 | Selenium metal, except selenium-bearing scrap materials. | | |
| 829810 | Selenium-containing rubber compounding agents not of coal tar origin: accelerators. | | |
| 839750 | Selenium salts of organic compounds | | |
| 839900 | Selenium salts and compounds, including selenium dioxide. | | |
| 842900 | Selenium-containing pigments | | |

NOTES

1. *Return of unused quotas.* As soon as a licensee determines that he will not export the entire licensed amount of a commodity subject to a quantitative quota he shall promptly submit to the Bureau of Foreign Commerce a request for an amendment reducing the quantity covered by the license to the amount he actually intends to export (see § 373.6). If none of the commodities covered by the license is to be exported, the license shall be returned to the Bureau of Foreign Commerce for cancellation.

2. *Where no filing dates are announced.* Applications for licenses to export commodities for which no specified filing dates are announced may be submitted at any time (see § 372.5 (c) of this subchapter).

3. *Intransit shipment.* Export applications for commodities requiring a validated license when moving in transit through the United States may be submitted at any time and are not subject to specified filing dates (see Note following § 372.6 (d) of this subchapter).

[1] Section 380.2 of this subchapter contains other provisions applicable to amendments of applications covered by a Yugoslav End-Use Certificate.

## PART 374—PROJECT LICENSES

Sec.
374.1 Project licenses.
374.2 Application procedure.
374.3 Amendments to licenses.
374.4 Export clearance.
374.5 Other applicable provisions.

AUTHORITY: §§ 374.1 to 374.5 issued under sec. 3, 63 Stat. 7, as amended; 50 U. S. C. App. 2023, E. O. 9630, 10 F. R. 12245, 3 CFR, 1945 Supp., E. O. 9919, 13 F. R. 59, 3 CFR, 1948 Supp.

§ 374.1 *Project licenses.* Under the provisions of this part, there is established a procedure for the exportation of commodities required for a specific project or program. Pursuant to this procedure, application may be made for a project license which, if issued, can be used to effect export clearance of commodities requiring a validated license.

(a) *Definitions.* (1) A "project" is a new foreign operation, or the expansion of an existing foreign operation, for which commodities are required; in other words, a capital expenditure.

(2) A "program" is the maintenance, repair or operation, and production requirements of commodities for a foreign operation.

(b) *Types of project licenses.* (1) Two types of project licenses have been established: the Dollar Limit (DL) license, and the Special Project (SP) license. The form of the project license will be a validated Export License, Form IT– or FC–628, with supplemental validated documents as required. The validated Form IT– or FC–628 constitutes the general approval and authorization of the project; however, export clearance of the specific Positive List commodities for such project may be effected only under the appropriate supplemental validated documents. The validated Form IT– or FC–628 may cover a project or program for a validity period of one year which may be renewable for a similar period on the request of the licensee in accordance with § 374.3. Supplemental documents will be valid for the period indicated thereon.

(2) In order to be considered under this procedure, a foreign project or program must have annual requirements for materials sufficient in quantity or variety to justify the use of the DL or SP procedure. Save for exceptional circumstances, applications for project licenses will be granted only for commodities not intended for resale.

(c) *Application for other validated licenses.* An exporter holding a project license (SP or DL) shall not apply for, nor will the Bureau of Foreign Commerce issue to him, an individual or any other type of validated license for a transaction involving a project whose requirements are covered by his outstanding SP or DL Project License, except where the shipment is to be made by mail under the provisions of § 374.4.

NOTE: 1. *Project license identification.* If a project license is issued, it will be given a license number with either the prefix "SP" (if approved as a Special Project license) or with the prefix "DL" (if approved as a Dollar Limit license). The "SP" or "DL" prefix will be followed with the license number and an additional symbol to indicate the code of the product division in the Bureau of Foreign Commerce which is responsible for issuing the license and for handling any other matters with respect to that license. The symbol "P" indicates the Producers Equipment Division, "F" the Finished Products Division, "M" the Materials Division, and "A" the Agricultural and Chemical Products Division. As an example, License Number "DL–113–P" indicates that a Dollar

Limit (DL) type of project license has been issued, that number "113" is the numerical sequence of license issuance and that the Producers Equipment Division (P) of the Bureau of Foreign Commerce is responsible for handling all matters with respect to that license.

2. *Consultation with the Bureau of Foreign Commerce.* Prospective applicants for new project licenses should consult with the Bureau of Foreign Commerce so that a determination may be made as to whether the use of the project licensing procedure is justified. Where the prospective applicant is unable to determine which product division in Bureau of Foreign Commerce is responsible for licensing the bulk of the commodities required for a project or program, this information may be obtained from the Exporters Service Section, Operations Division, Bureau of Foreign Commerce.

3. *Holders of SP Project Licenses.* Holders of outstanding SP Project Licenses, as well as other applicants, may apply for Dollar Limit licenses. If requirements for a project or program now authorized for export by an outstanding SP Project License are approved for export under a Dollar Limit License, the SP Project License will be canceled.

§ 374.2 *Application procedure*—(a) *Basis for consideration of applications*—(1) *Dollar limit (DL) license.* Applications for DL licenses must meet one or more of the following conditions:

(i) The project or program will contribute significantly to supporting, maintaining, or increasing the production of materials strategic to, or in short supply in, the United States, and will benefit supply conditions of these materials in the United States or in areas in which the United States has a significant interest.

(ii) It will implement the Mutual Security Act or will implement loans granted foreign countries by the Export-Import Bank or the International Bank for Reconstruction and Development.

(iii) In the opinion of an appropriate agency of the United States Government (including the Bureau of Foreign Commerce), it merits licensing under the DL procedure.

(2) *Special project (SP) license.* Project license applications will be considered for SP licenses where the above criteria for DL licenses are not fully met or when, for other reasons, the project does not justify the approval of a DL license. Annual requirements for materials must be sufficient in quantity and variety to justify the use of the SP procedure rather than the individual license procedure.

(b) *Application for project licenses*—(1) *Preparation of application form.* Applications shall be on Form IT– or FC–419, in duplicate, accompanied by an Acknowledgment Card, Form IT– or FC–116, a letter of explanation (in duplicate), and a statement of estimated requirements (in duplicate). In preparing the application, Form IT– or FC–419, with respect to the particular items specified below, the applicant shall enter:

(i) In the commodity description item, the following legend:

Articles and materials set forth on the attached statement of estimated requirements constitute the total known requirements for (insert name of project) or requirements for one year for (insert name of program) of commodities requiring validated export license beginning (insert date, beginning with a calendar quarter). We hereby certify that if a license is granted in response to this application, no such commodities will be exported under the license unless specifically required for the project or program, and after exportation the commodities will not be disposed of or used for any purpose other than that stated in this application.

(ii) In the value item, the total or aggregate dollar value of the commodities to be exported.

(iii) In the signature item, the signature of the person who has authority to bind the applicant organization to its commitments in the license application. In the case of an individual, the application shall be signed by that individual applicant; in the case of a partnership, it shall be signed by a partner; in the case of a corporation, it shall be signed by an officer; in the case of other applicants, it shall be signed by a comparable official.

(2) *Preparation of acknowledgement card.* Form IT– or FC–116, Acknowledgement Card, shall be prepared in accordance with § 372.5 (a) with the following exceptions:

(i) In the Schedule B Number item, the applicant should enter "Project License."

(ii) The processing code item shall not be completed.

(iii) In the commodity description item, the name of the project shall be entered.

In returning the Acknowledgement Card to the applicant, the Bureau of Foreign Commerce will insert a code symbol in the processing code item to indicate the name of the product division to which the application has been assigned for processing. Any contacts with the Bureau of Foreign Commerce with regard to the application should be made with the indicated division. The code symbols used are as follows:

P—Producers Equipment Division.
F—Finished Products Division.
M—Materials Division.
A—Agricultural and Chemical Products Division.

(3) *Letter of explanation.* The letter of explanation shall give full details as to urgency of need of the commodities and the nature of the project or program for which the commodities are required. The degree of adequacy of the information submitted in justification of the project or program has a direct bearing upon the period of time required for processing the application and the action taken. Additional information, if needed, will be requested by the Bureau of Foreign Commerce.

(4) *Statement of estimated requirements.* The statement of estimated requirements shall specify the estimated commodity requirements necessitating validated export license for the project or, in the case of a program, for one year, or less if the program is of shorter duration. Such statement shall be made in terms of broad descriptive categories corresponding with the unnumbered commodity subgroup headings which appear on the Positive List under the main numbered commodity group headings. In addition, the total dollar value of the requirements for each category of commodities, whether or not an individual Form IT– or FC–375 is required (see paragraph (c) (1) and (2) of this section), shall be included in connection with all project license applications except a DL project license application for a Group O country. Examples are indicated below:

Under Commodity Group 2, "Rubber (Natural Allied Gums, and Synthetics) and Manufactures"—$7,000.
Under Commodity Group 5, "Petroleum and Products"—$120,000.
Under Commodity Group 6, "Metal Manufactures"—$150,000.
Under Commodity Group 7, "Electrical Machinery and Apparatus"—$200,000.

(i) *DL license.* If the project application is approved for a DL license, one copy of the statement of estimated requirements will be validated and attached to the Export License, Form IT– or FC–628, and will serve as a supplemental document to be presented to the Collector of Customs at the port of exit upon demand to clear other than restricted commodities. (Restricted commodities are identified on the Positive List by the letter "B" in the column headed "Commodity Lists".) Non-restricted commodities may be shipped in unlimited quantities to a project or program in a Group O country; provided that the commodities fall under commodity subgroup headings listed on the validated statement of estimated requirements. Shipments of non-restricted commodities to a project in a Group R country are limited to the total dollar value of the applicable commodity subgroup heading(s) shown on the validated statement of estimated requirements. Restricted commodities may be shipped to a project in a Group R or Group O country only in accordance with the procedure described in paragraph (c) (1) of this section.

(ii) *SP license.* If the project application is approved for an SP license, the procedure detailed in paragraph (c) (2) of this section must be complied with prior to the export of any commodity on the Positive List for which a validated export license is required.

(c) *Submission of Form IT– or FC–375*—(1) *Dollar limit (DL) project licenses*—(i) *Restricted commodities.* For the initial quarter, and thereafter for each successive calendar quarter, Form IT– or FC–375 (Materials Requirements List) must be submitted in duplicate for each commodity which is identified on the Positive List of Commodities by the letter "B" in the column headed "Commodity Lists." Related commodities on the Positive List having the same processing code and related commodity group number may be included on one set of Form IT– or FC–375. The commodity or related commodities must be described in terms of the Schedule B number, commodity description, and quantity in the unit of quantity shown for that commodity on the Positive List, as well as in terms of total dollar value. Commodities which do not have the same processing code and related commodity group number must be submitted on separate Forms IT– or FC–375. Each Form IT– or FC–375 shall indicate the full license number, including the symbol prefix (SP or DL) and division code symbol, of the project license to which it refers.

(ii) *Time of submission.* When specific time schedules are established for submission of applications covering particular commodities, the schedules must be observed in the submission of Form IT– or FC–375. In all other cases Form IT– or FC–375 must be submitted not later than 30 days prior to the calendar quarter in which the commodity will be exported. However, where a commodity is placed under restricted commodity control invalidating the license with respect to that commodity less than 30 days prior to a calendar quarter, Form IT– or FC–375 may be submitted immediately.

NOTE: 1. *Statement of essentiality.* A statement of the essentiality of the particular commodity in relation to the project will be helpful in expediting action on the application.

2. *Time schedules.* The commodities for which Form IT– or FC–375 must be submitted during particular periods are set forth in § 373.71 of this chapter, Time Schedules for Submission of Applications for Licenses To Export Certain Positive List Commodities.

(2) *Special project (SP) licenses*—(i) *Manner of submission.* For the initial quarter, and thereafter for each successive calendar quarter, a Form IT– or FC–375 must be submitted, in duplicate, for each commodity for which a validated license is required. Related commodities on the Positive List, that is, those having the same processing code and related commodity group number, may be included on one set of Form IT– or FC–375. Each Form IT– or FC–375 shall indicate the full license number, including the symbol prefix (SP or DL) and division code symbol, of the project license to which it refers. The commodity or related commodities must be described in terms of the Schedule B number, commodity description, and unit of quantity shown for that commodity on the Positive List, as well as in terms of total dollar value. Commodities which do not have the same processing code and related commodity group number must be submitted on separate Forms IT– or FC–375.

(ii) *Time of submission of firm requirements.* When specific time schedules are established for submission of applications covering particular commodities, such schedules must be observed in the submission of Form IT– or FC–375 covering quarterly firm requirements when so provided. In all other cases Form IT– or FC–375 must be submitted not later than 30 days prior to the calendar quarter in which the commodity will be exported.

NOTE: The commodities for which Form IT– or FC–375 must be submitted during particular periods are set forth in § 373.71 of this chapter, Time Schedules for Submission of Applications for Licenses To Export Certain Positive List Commodities.

(3) *Special provisions.* The requirements of the special provisions set forth in Part 373 of this subchapter with respect to particular commodities must be fulfilled as a part of making application for the export of such commodities under a project license.

§ 374.3 *Amendments to licenses*—(a) *Extension of validity period*—(1) *Submission of requests.* (i) Requests for extension of an SP or DL Project License must be submitted by letter, in duplicate, at least 30 days prior to the current expiration date of the license. The letter should contain the full license number, including the symbol prefix (SP or DL) and division code symbol, of the project license to which it refers, the reasons for requesting an extension, the approximate percentage of completion of the project or program and the approximate date of completion, as well as a statement as to whether the scope of the project or program has changed materially. If there is a change in the scope of the project or program and/or the level of requirements, the procedure as outlined in paragraph (b) of this section should be complied with.

(ii) In requesting the extension of a DL license, whether or not there is a change in the level of requirements, the applicant must submit with his letter of request a statement of estimated requirements, in duplicate, as set forth in § 374.2 (b) (4).

(2) *Notification.* If the extension request is granted, a notification letter will be sent to the licensee for attachment to the license and all Collectors of Customs will be notified. In case of a DL license, one copy of the statement of estimated requirements, validated by the Bureau of Foreign Commerce, will be returned to the licensee with the letter of notification. This will constitute authority for the licensee to clear other than restricted commodities through the Collector of Customs at the port of exit.

(b) *All other amendments.* Requests for amendments to project licenses which materially change the scope of the project or program or materially change the level of requirements from the United States, as well as amendments covering such other changes as addition of an intermediate consignee, change in name of the licensee, addition of another ultimate consignee, etc., shall indicate the full license number, including the symbol prefix (SP or DL) and division code symbol of the project license to which it relates and shall be submitted as follows:

(1) Requests for amendment of a DL (Dollar Limit) license shall be submitted in letter form, in duplicate, and shall include, if applicable, a supplementary statement, in duplicate, showing the estimated new or additional requirements for the project or program, as set forth in § 374.2 (b) (4). If the required additional commodity or commodities fall within the restricted commodities described in § 374.2 (c) (1), Form IT– or FC–375, in duplicate, must be submitted in accordance with the provisions of § 374.2 (c) (1).

(2) Except as indicated in subparagraph (3) of this paragraph, requests for amendment of an SP (Special Project) license shall be submitted in letter form, in duplicate, and shall include, if applicable, a supplementary statement of estimated requirements, in duplicate, showing the required additional commodities by broad descriptive categories and accompanied, where required, by Form IT– or FC–375, SP (Special) License Application Materials Requirements List, indicating the firm requirements for the initial calendar quarter, as provided in § 374.2 (c) (2).

(3) Requests for amendment of an SP license which covers a large petroleum construction project which was originally submitted under Order M–46A, shall be submitted as follows:

(i) If the amendment involves a significant change in the character of the project as approved, the request shall be submitted in accordance with subparagraph (2) of this paragraph.

(ii) If the licensee requires only export clearance for additional materials for the project as approved, the request shall be submitted on Form IT– or FC–375, in duplicate.

§ 374.4 *Export clearance*—(a) *Presentation of license.* (1) When clearing shipments for export under any project license, the licensee must present, upon demand of the Collector of Customs at the port of exit, either the original or a photostatic copy of the license, and the appropriate supplementary validated documents.

(2) No commodity which is identified on the Positive List by the letter "B" in the column headed "Commodity Lists" may be exported under a DL license (Form IT– or FC–628) unless such commodity is covered by a validated Form IT– or FC–375.

(3) Shipment under any project license cannot be made by mail unless the shipper has applied for and obtained an individual export license covering the particular commodities to be exported by mail. Application should be made on Form IT– or FC–375 in the usual way, except that the license holder should indicate on the face of the form that shipment of the commodities listed is to be made by mail. An individual license will be issued on the safety paper license form (Form IT– or FC–628). Clearance against such individual license must be effected in accordance with the procedures for shipments by mail outlined in § 379.1 (b) of this chapter.

(b) *Shipper's Export Declaration.* (1) When clearing shipments under a project license, licensees shall file with the Collector of Customs an additional (fourth) copy of the Shipper's Export Declaration (Commerce Form 7525–V). The licensee shall enter on the Declaration the full license number, including the symbol prefix (SP or DL) and division code symbol of the project license to which it relates. Where exportation is made under an SP license, or where a restricted commodity is being exported under a DL license, the amendment number as stated on the particular IT– or FC–375, as appropriate, shall be shown. The date of validation of the Form IT– or FC–375 also shall be stated.

(2) Commodities exported under a DL or an SP license shall be described on the Shipper's Export Declaration as they are described on the Positive List, including the processing code and related commodity group number. It is not sufficient to describe such commodities in terms of broad Schedule B commodity categories. As provided for in § 379.3 (a)

of this chapter in those cases where a Schedule B basket classification is involved, the detailed descriptions of only 5 of the items which represent the greatest proportion of the total dollar value need be shown on the Shipper's Export Declaration.

§ 374.5 *Other applicable provisions.* Insofar as consistent with the provisions of this part, all of the provisions of the Export Regulations shall apply equally to applications for the licenses issued under this part.

---

PART 375—BLT (BLANKET) LICENSE

Sec.
375.1 BLT (Blanket) license.
375.2 Application requirements.
375.3 Export clearance.
375.4 Validity period.
375.5 Effect of other provisions.

AUTHORITY: §§ 375.1 to 375.5 issued under sec. 3, 63 Stat. 7, as amended; 50 U. S. C. App. 2023, E. O. 9630, 10 F. R. 12245, 3 CFR, 1945 Supp., E. O. 9919, 13 F. R. 59, 3 CFR, 1948 Supp.

§ 375.1 *BLT (Blanket) license.* Under the provisions of this part, there is established an alternative procedure for the exportation of commodities requiring a validated license. Pursuant to this procedure, application may be made for a BLT (Blanket) license, which, if issued, authorizes exportation of the same commodity to two or more consignees in the same country of destination.

§ 375.2 *Application requirements—*(a) *Application form and consignee list.* An application for a BLT (Blanket) license shall be submitted on Form IT– or FC–419 with Acknowledgment Card (Form IT– or FC–116) attached, and must be accompanied by a list, in duplicate, of the proposed consignees, their addresses, and the quantity requested for each consignee. This list shall be attached to and will become a part of the license, if issued. In preparing such list, applicants shall leave ample space between listings in order to provide Collectors of Customs with sufficient space for entering quantities shipped to each named consignee.

(b) *Preparation of application.* In preparing a license application the applicant shall write the words "BLT License" in the commodity description item, and enter:

(1) In the item normally used to list ultimate consignees, "See attached list of consignees";

(2) In the quantity item, the total quantity of material to be exported; and

(3) In the value item, the unit price and the aggregate value of the material to be exported. Any variation in price for different consignees must be explained.

(c) *Submission of applications.* A BLT (Blanket) license application may be submitted at any time; provided that if the commodities covered by the BLT license application are commodities for which individual license applications must be submitted during specified periods of each calendar quarter (see § 373.71 of this chapter), the BLT license application must be submitted within the period specified.

(d) *Processing of applications.* (1) The Bureau of Foreign Commerce will leave intact, as nearly as possible, the list of proposed consignees submitted with each BLT application. This will enable the applicant to select the specific consignee to whom he prefers to ship in the event the entire quantity approved is less than that applied for, although no one consignee may receive more out of the total quantity approved than the amount specified for him on the list attached to the BLT application.

(2) If the Bureau of Foreign Commerce finds that it will require an extended period of time to process a BLT application because of the necessity for prolonged consideration of one or more proposed ultimate consignees, a blanket license will be issued excluding such consignee or consignees. By this method, undue delay will be avoided in processing the application. The Bureau of Foreign Commerce in such instances will notify the applicant that an individual license application may be submitted to cover each excluded consignee.

§ 375.3 *Export clearance—*(a) *Presentation of license to Customs.* When clearing shipments for export under any BLT (Blanket) license, the licensee must present the license to the Collector of Customs at the port of exit. The total amount shipped against such license shall not exceed the total quantity approved for export, and the total quantity shipped to a single consignee must not exceed the quantity specified for the respective consignee.[1]

(b) *Shipper's Export Declaration.* A person exporting any commodity pursuant to a BLT (Blanket) license shall enter the symbol "BLT" and the validated license number on each Shipper's Export Declaration filed with the Collector of Customs at the port of exit at the time of each exportation under each license.

§ 375.4 *Validity period.* BLT (Blanket) licenses will generally be issued for the same validity period as an individual license for the same commodity, unless otherwise stated on the face of the license.

§ 375.5 *Effect of other provisions.* Insofar as consistent with the provisions of this part, all of the provisions of the Export Regulations shall apply equally to applications for and licenses issued under this part.

---

PART 376—PERIODIC REQUIREMENTS LICENSE

Sec.
376.1 Periodic Requirements license.
376.2 Certificate of qualification.
376.3 Application requirements.
376.4 Issuance of license.
376.5 Amendment of license.

AUTHORITY: §§ 376.1 to 376.5 issued under sec. 3, 63 Stat. 7, as amended; 50 U. S. C. App. 2023, E. O. 9630, 10 F. R. 12245, 3 CFR, 1945 Supp., E. O. 9919, 13 F. R. 59, 3 CFR, 1948 Supp.

§ 376.1 *Periodic Requirements license—*(a) *General.* A procedure for a Periodic Requirements license (PRL) is hereby established. Under this procedure, a single application may be made to export commodities identified on the Positive List by the letter "E" in the column headed "Commodity Lists" to one or more named ultimate consignees at a named ultimate destination. The application may cover as much as six-months' estimated requirements of the named consignees for the commodities included in the application.

(b) *Applicability of PRL procedure.* Applications under this procedure will not be considered for the exportation of commodities to Hong Kong, Macao, and Subgroup A countries.

(c) *Established trade relationships.* A PRL license is issued to cover only United States export transactions between an United States exporter and one or more ultimate consignees who, with respect to that commodity, have an established trade experience with each other of at least two years' duration prior to the issuance of a Periodic Requirements license.

(d) *Waiver of order requirements.* In view of the limitations on the issuance of a Periodic Requirements license, the Bureau of Foreign Commerce will permit application by an exporter for such a license in anticipation of future orders. The provisions of § 372.4 (f) and (g) of this chapter relating to export orders are, therefore, waived with respect to applications for Periodic Requirements (PRL) licenses.

(e) *Historical trade pattern between exporters not a criterion.* The limitation on issuance of PRL licenses is not intended to restrict trade to any historic pattern with respect to the volume of trade or distribution between exporters. The Bureau of Foreign Commerce will continue to issue individual licenses, and other licenses where applicable, for the export of commodities subject to the PRL procedure. Therefore, any exporter ineligible for a Periodic Requirements license by reason of paragraph (c) of this section may become eligible thereunder by experience developed through transactions in these commodities covered by other types of licenses.

(f) *Application for other validated license.* An exporter holding a Periodic Requirements license shall not apply for, nor will the Bureau of Foreign Commerce issue, any other type of validated license, except a Time Limit or Foreign Distribution license, for any transaction involving a commodity and consignee covered by such PRL license, unless a parcel post shipment is to be made in accordance with § 372.5 (h) of this chapter. (For other methods of clearing parcel post shipments, see § 379.1 (b) of this chapter.)

NOTE: Exporters are advised not to apply for a PRL license to export commodities valued at less than $1,000 per calendar quarter. Generally such applications will be rejected with a recommendation that another form of license application be used.

§ 376.2 *Certificate of qualification for Periodic Requirements license—*(a) *Certificate of qualification required.* No application for a Periodic Requirements (PRL) license will be considered until a validated "Certificate of Qualification for Periodic Requirements (PRL) license", Form IT– or FC–888, shall have been issued. Consequently, Form IT– or FC–419 should not be submitted with the documents specified in paragraph (b) of this section when application for a certificate of qualification is made. Applications on Form IT– or FC–419 for individual or other types of export licenses may be submitted while an application for Certificate of Qualification is pending, but such applications must bear the notation "Certificate of qualification pending" in the commodity description item.

(b) *How to apply for Certificate of Qualification.* Each application for Certificate of Qualification shall comprise the following documents:

(1) Form IT– or FC–888 (in three copies).

(2) Form IT– or FC–821, Data of Past Participation in Exports Questionnaire (in two copies). Both original forms shall be assembled together and both duplicate forms shall be assembled together. When approved or rejected, the triplicate Form IT– or FC–888 will be returned to the applicant with an indication of official action by the Bureau of Foreign Commerce.

(c) *Preparation of documents.* The documents submitted by an applicant in connection with an application for a Certificate of Qualification shall be prepared in accordance with the following instructions:

(1) *Form IT– or FC–888.* This form shall indicate:

(i) The name and address of applicant;

(ii) The person to whom advice of the Bureau of Foreign Commerce action is to be mailed;

(iii) Schedule B Number and processing code and related commodity group number if the application covers a single entry on the Positive List. If application is made for a group of related commodities in accordance with § 372.2 (c) of this chapter, enter the processing code and related commodity group number, and a general description of the commodity; for example, "TRAN 6—Automotive Replacement Parts."

(2) *Form IT– or FC–821.* This form may include one or more countries and one or more commodities, and should be prepared as follows:

(i) The names and addresses of the consignees included must be shown in the country of destination item. If more than one country is included, the consignees must be listed by country of ultimate destination, showing the country as a heading followed by the names and addresses of the consignees located in that country.

(ii) (*a*) If Form IT– or FC–821 covers all of the commodities which are included under a single related commodity processing code and identified by an "E" on the Positive List, then such processing code designation should be indicated in Items 2 and 4 of Form IT– or FC–821. If the Form IT– or FC–821 covers one or more Schedule B numbers but not an entire processing code designation, the Schedule B number(s) should be listed in Item 2.

(*b*) The total quantity or value of the commodity shipped to each consignee during the two-year base period selected by the applicant (see § 376.1 (c)) must be shown in Item 4. If the application covers more than one commodity, show for each consignee the combined total quantity or value of all the commodities included. The quantity or value of the commodities shipped during the two-year base period shall not include toll shipments, in-transit shipments or shipments under a project license.

(*c*) The total of the quantity or value information shown for the individual consignees within a single country should be entered opposite the country heading. In reporting exportations of petroleum products, the total may be supplied by country only.

(iii) If the application covers more than one Schedule B number, or covers an entire related commodity group, the following statement must be typed or written in ink at the end of the last consignee entry: "Each ultimate consignee named herein participated during each year covered by this form in the importation from the undersigned of some of the commodities classified under each Schedule B number included under the list designated in Items 2 and 4 of this Form," except as indicated below:

"(Name of Firm) did not participate in the importation of (Schedule B Numbers)."

(d) *Notice of action.* (1) *Approval.* (i) When the application for Certificate of Qualification is approved by the Bureau of Foreign Commerce, a Form IT– or FC–888 will be validated, and the Bureau of Foreign Commerce reference number in the upper right-hand corner of the form will become the official Certificate of Qualification (CQ) number. An application for a PRL license(s) to export the commodities to consignee(s) listed in the Form or Forms IT– or FC–821 may then be considered by the Bureau of Foreign Commerce.

(ii) When an application is approved subject to modifications by the Bureau of Foreign Commerce, such stipulations will be indicated on the reverse side of Form IT– or FC–888.

(iii) The approval of an application does not imply continued approval. The Bureau of Foreign Commerce may withdraw an approval previously granted at any time it may consider it desirable to do so. Similarly, the granting of an approval for a stated period does not imply that future applications will be approved.

(2) *Return without action.* When an application is returned without action by the Bureau of Foreign Commerce, the reason(s) will be stated on the reverse side of Form IT– or FC–888.

(3) *Rejection.* When an application is rejected by the Bureau of Foreign Commerce, the reason for such action will be shown on the reverse side of Form IT– or FC–888. The applicant may apply for individual validated licenses for transactions covered by the rejected CQ application.

§ 376.3 *Application requirements—*(a) *Submission date.* The Bureau of Foreign Commerce will endeavor to take action on all applications for Periodic Requirements (PRL) license within 15 days after receipt of the application. However, to insure that the license, if approved, will be available for use when needed, applications should be filed about 30 days (but not more than 45 days) preceding the period for which the license is to be used.

(b) *Identification of PRL application.* When filing Form IT– or FC–419 for a PRL license, the applicant should identify it as such by inserting the CQ number in the commodity description item in the following manner: "Certificate of Qualification No. CQ ____"

(c) *How to prepare a PRL license application—*(1) *General.* An application for PRL license may include only one country of ultimate destination. More than one commodity may be included on a single application, provided the commodities are related commodities in accordance with § 372.5 (b) of this chapter and are covered by a certificate of qualification. Exportations to more than one consignee within the same country of destination may be included in a single application, provided all of the consignees are covered by a certificate of qualification. If more than one consignee is covered, the applicant shall attach a list, in duplicate, of the names and addresses of the proposed consignees, and state in the ultimate consignee item, "See attached list of consignees."

(2) *Quantity and value.* (*i*) The quantity applied for should not exceed the estimated six-months' requirements of the named consignees for the commodities included in the application.

(*ii*) When making application for a PRL license for petroleum products, the total quantity and value for each commodity must be shown on the Form IT– or FC–419, and the quantity and value of each commodity to be exported to each designated ultimate consignee must be shown on the attached list of consignees.

(*iii*) For all other commodities, the total quantity and value for each commodity must be shown, but a breakdown of quantity and value among consignees is not required. If no unit of quantity is indicated in the Positive List for the particular Schedule B number(s), then only value need be given on the application.

(d) *Other application requirements.* Issuance of a Certificate of Qualification does not assure approval of any PRL license for which application is made. PRL applications are subject to individual consideration by the Bureau of Foreign Commerce, and must meet all the criteria of validated individual and blanket license applications with the exceptions noted in § 376.1 (d).

§ 376.4 *Issuance of license.* Periodic Requirements (PRL) licenses will be issued on Form IT– or FC–628 (Export License), and will bear the identifying words "Periodic Requirements License" below the validation stamp.

(a) *Validity period.* The validity period of a PRL license will be for a period of one year from issuance of the license,

[1] See Note following § 379.2 (b) of this chapter for application of tolerance provisions.

and the effective dates of validity will be indicated on Form IT– or FC–628.

(b) *Presentation of licenses to Customs.* The PRL license shall be deposited with the Collector of Customs at the port of exit through which the greater portion of shipments thereunder will move. Upon request of the licensee, Collectors may authorize movement of a portion of the shipment from another port in accordance with the procedures established in § 379.2 (e) of this chapter.

(c) *Effect of other provisions.* Except as modified by this part, all of the provisions of the Export Regulations are applicable to any application for a PRL license and any license issued pursuant thereto.

§ 376.5 *Amendment of license*—(a) *Amendment of quantity.* If the amount licensed under a Periodic Requirements (PRL) license proves insufficient to meet an exporter's requirements for any country, he may request an increase in the quantity authorized for export under such license. This should be done by requesting amendments of the appropriate PRL license on Form IT– or FC–763, Request for and Notice of Amendment Action, in accordance with the provisions of § 380.2 of this chapter.

(b) *Extension of validity period.* Generally, extension of the validity period of a PRL license will not be granted where such license is valid for one year. Consideration will be given, however, to requests for extension of outstanding PRL licenses which were issued for validity periods of six months.

## PART 377—TIME LIMIT (TL) LICENSE

Sec.
377.1 Time Limit (TL) license.
377.2 Commodities subject to TL license.
377.3 Consideration of applications.
377.4 Reexportation.
377.5 Application requirements.
377.6 Issuance of licenses.
377.7 Export clearance.
377.8 Use of other licensing procedures.
377.9 Amendment of license.
377.10 Effect of other provisions.

AUTHORITY: §§ 377.1 to 377.10 issued under sec. 3, 63 Stat. 7, as amended; 50 U. S. C. App. 2023, E. O. 9630, 10 F. R. 12245, 3 CFR, 1945 Supp., E. O. 9919, 13 F. R. 59, 3 CFR, 1948 Supp.

§ 377.1 *Time Limit (TL) license.* Under the provisions of this part, there is hereby established an alternative procedure for the exportation of certain specified commodities to Country Group O destinations (listed in § 371.3 of this chapter). Pursuant to this procedure, application may be made for a Time Limit (TL) license which, if issued, authorizes exportations in unlimited quantities of the licensed commodity or commodities to a consignee in a Country Group O destination for a period of one year from issuance of the license. Reexportation by the foreign consignee to importers in Group O countries may also be effected in accordance with the provisions of § 377.4.

§ 377.2 *Commodities subject to TL license.* The commodities which may be exported under this procedure are all RO commodities on the Positive List of Commodities (§ 399.1 of this chapter) except those identified by the letter "B" in the "Commodity Lists" column.

§ 377.3 *Consideration of applications*—(a) *End use.* Applications for Time Limit (TL) licenses will be considered for approval when the commodities proposed to be exported are intended for consumption or resale within the particular country of ultimate destination or for reexportation by the foreign consignee to another Group O country. However, reexportation may not be effected until such time as approval is received from the Bureau of Foreign Commerce in accordance with § 377.4.

(b) *Applicant-consignee relationship.* An applicant for a Time Limit (TL) license must have an established business relationship with the ultimate consignee named on the application for a period of two years immediately preceding the date of filing the application, and must have exported the commodities covered by the application to the ultimate consignee in an amount totaling at least $2,000 during these two years, part of which was exported during each of the two years. For example, if the application if filed on September 10, 1953, this relationship must have existed during the years September 10, 1952, through September 9, 1953, and September 10, 1951, through September 9, 1952. In addition, an applicant for a Time Limit (TL) license shall have in his possession, at the time the application is filed, documentary evidence of the existence of the prescribed relationship with each ultimate consignee. The documents or records shall be retained by the applicant for three years from the date of receipt of the application, as shown on the Acknowledgment Card (Form IT– or FC–116), and shall be kept available for inspection, upon demand, by the Bureau of Foreign Commerce.

(c) *Waiver of order requirements.* An applicant for a Time Limit (TL) license is not required to hold an export order from the foreign consignee or purchaser for the commodities subject to this procedure. The provisions of § 372.4 (f) of this chapter relating to export orders are, therefore, waived with respect to applications for Time Limit (TL) licenses.

§ 377.4 *Reexportation.* (a) Reexportation may be made between ultimate consignees named on outstanding Time Limit (TL) licenses, issued to the same licensee, without the necessity of obtaining specific approval from the Bureau of Foreign Commerce. Approval for reexportation to other importers in Country Group O may be obtained in accordance with the procedure described below.

(b) Requests for reexportation approval may be made either with the license application or subsequent to the issuance of the license. In order to obtain such approval, Form IT– or FC–917, Request for and Notice of Approval for Reexportation, shall be submitted in triplicate to the Bureau of Foreign Commerce.[1] Items 1 through 9 of the form may be completed by the U. S. exporter who shall then transmit the Forms IT– or FC–917 to his foreign consignee for completion of item 10 and for any other information on the form not completed by the U. S. exporter. The Bureau of Foreign Commerce will approve or deny the request by completing the bottom portion of one copy of the form and returning it to the U. S. exporter. Reexportation requests, if approved, will be continuing until rescinded by the Bureau of Foreign Commerce.

§ 377.5 *Application requirements*—(a) *Application form.* An application for a Time Limit (TL) license shall be submitted on Form IT– or FC–419, with Acknowledgment Card (Form IT– or FC–116) attached. In preparing an application (Form IT– or FC–419) the applicant shall (1) enter the words "Time Limit License" across the top of Form IT– or FC–419, immediately above the printed words "United States of America," and (2) leave blank the items entitled "Quantity to be Shipped," "Unit Price," "Total Price," and the information with respect to the supplier and availability of the commodities for export. Related commodities may be grouped on a single application in accordance with the provisions of § 372.5 (f) of this chapter.

(b) *Certification of applicant-consignee relationship.* Each application for a Time Limit (TL) license shall include the following certification signed by the applicant:

> This is to certify that I (we) have had a business relationship with (name of ultimate consignee) extending over a period of two years preceding the date of submission of this application and have exported to the named consignee the commodities applied for under this application in an amount totaling at least $2,000 during these two years, part of which was exported during each of the two years.

(c) *Multiple transactions statement.* Each application for a Time Limit (TL) license shall be supported by a Multiple Transaction Statement (Form IT– or FC–843),[2] completed by the foreign consignee in accordance with the provisions of § 373.65 (c) of this chapter, except that quantities to be ordered need not be shown on the form.

§ 377.6 *Issuance of licenses*—(a) *Form of issuance.* Time Limit (TL) licenses will be issued on Form IT– or FC–628 (Export License), and will bear the identifying words "Time Limit License" below the validation stamp.

(b) *Validity period.* The validity period of a Time Limit (TL) license will be a period of one year from issuance of the license, and the expiration date will be indicated on the license form. Where the commodity covered by the license is subsequently removed from this procedure by the addition of the symbol "B" to the listing of the commodity on the Positive List (§ 399.1), the validity period of the license covering such commodity shall automatically terminate on the effective date of such addition of this symbol. Ordinarily the addition of the symbol "B" to a commodity listing shall become effective 30 days after such announcement.

§ 377.7 *Export clearance*—(a) *Presentation of license to Customs.* (1) The Time Limit (TL) license shall be deposited with the Collector of Customs at the port of exit through which the greater portion of shipments thereunder will move.

(2) Upon request of the licensee, Collectors may authorize movement of the commodity from another port in accordance with the procedure established in § 379.2 (e) of this chapter. As an alternative, the applicant may obtain an additional license for deposit with the Collector of Customs at each additional port of exit through which substantial shipments will move. Under the alternative procedure, the applicant shall indicate on the license application the ports of exit through which substantial shipments will move. If, subsequent to issuance of the license, additional licenses are required under the alternative procedure, the licensee may make such request by letter to the Bureau of Foreign Commerce indicating the Bureau of Foreign Commerce case number, name of ultimate consignee, and ports through which substantial shipments will move.

(b) *Shipments by mail.* Shipments may be made by mail, without the necessity of obtaining additional licenses to effect such shipments, in accordance with the procedure described in § 379.1 (b) of this chapter.

§ 377.8 *Use of other licensing procedures.* The filing of an application for a Time Limit (TL) license, or the granting of such license, shall not limit the applicant's filing for or use of an individual, Blanket (BLT), or Periodic Requirements (PRL) license. Neither shall the filing for or use of an individual, Blanket (BLT), or Periodic Requirements (PRL) license limit the applicant as to the filing for, or use of, a license under the Time Limit (TL) procedure. Where more than one licensing procedure is used covering the same consignee and the same commodity the reason(s) for such duplication shall be entered on the application.

§ 377.9 *Amendment of license.* Amendments of the Time Limit (TL) license involving extension of the validity period will not be granted. In order to assure the continuity of an outstanding license, exporters may submit an additional application for a Time Limit (TL) license, covering the same consignee and commodity(ies), 30 days prior to the expiration date of the outstanding license. Where special circumstances exist (for example, lead time in long-cycle production commodities), an additional license application may be submitted 90 days prior to the expiration date of the outstanding license, provided that the reason(s) for such early submission are included with the application.

§ 377.10 *Effect of other provisions.* Insofar as consistent with the provisions of this part, all of the provisions of the Export Regulations shall apply equally to applications for and licenses issued under this part.

[1] Form IT– or FC–917 may be obtained from all Department of Commerce field offices, from the Bureau of Foreign Commerce, Department of Commerce, Washington 25, D. C., and from U. S. consulates, embassies and other posts in Group O countries.

[2] Forms IT– or FC–843 may be obtained from Department of Commerce field offices or from the Bureau of Foreign Commerce, Department of Commerce, Washington 25, D. C.

## PART 378—FOREIGN DISTRIBUTION (FD) LICENSE

Sec.
378.1 Foreign Distribution (FD) license.
378.2 Definition.
378.3 Reexportation.
378.4 Application requirements.
378.5 Issuance of licenses.
378.6 Export clearance.
378.7 Amendment of license.
378.8 Other applicable provisions.

AUTHORITY: §§ 378.1 to 378.8 issued under sec. 3, 63 Stat. 7, as amended; 50 U. S. C. App. 2023, E. O. 9630, 10 F. R. 12245, 3 CFR, 1945 Supp., E. O. 9919, 13 F. R. 59, 3 CFR, 1948 Supp.

§ 378.1 *Foreign Distribution (FD) license.* (a) Under the provisions of this part, there is established a procedure for the exportation and, where applicable, the reexportation of certain specified commodities requiring a validated license. Pursuant to this procedure, application may be made for a Foreign Distribution (FD) license covering commodities on the Positive List of Commodities (§ 399.1 of this chapter) identified by the symbol "F" in the column headed "Commodity Lists," which, if issued, authorizes exportation to a distributor located in a foreign country for resale, use, or distribution both in the distributor's country and in any other approved country or countries to which the distributor will reexport.

(b) Generally, commodities requiring manufacturing abroad are not eligible for licensing under this procedure. However, commodities which require a minimum of processing abroad are eligible under this procedure; e. g., repackaging, rebottling, assembling, refining, or blending of a nature which has not changed materially the ingredient content of the commodity.[1]

(c) Due to the existence of country quotas for some commodities and other factors, it may at times be necessary for the Bureau of Foreign Commerce to limit or restrict the quantity of these commodities authorized for reexport to a specific country or countries. Where country limitations or restrictions are required, the license document will include a statement to this effect. If the license document does not include such statement, the commodities may be resold in the distributor's country or reexported to an approved importer in any other country in accordance with the procedure described in § 378.3.

§ 378.2 *Definition.* For the purpose of this part, a distributor is defined as an importer located in a foreign country, other than Hong Kong, Macao or a Subgroup A country, who receives shipments direct from the United States exporter for resale, use, or distribution in his own country, and for reexportation to another country or countries in accordance with the provisions of § 378.3. Such distributor includes, but is not limited to, an agent or a subsidiary or branch of the applicant.

§ 378.3 *Reexportation*—(a) *General.* (1) Reexportation may be made only to those importers approved by the Bureau of Foreign Commerce in accordance with the procedure set forth below in this section.

(2) Form IT– or FC–917[2] "Request for and Notice of Approval for Reexportation," in triplicate, shall be used in submitting reexportation requests; items 1 through 9 of the form may be completed by the United States exporter who shall then transmit the form to his foreign consignee for completion of the item entitled "Request by Foreign Consignee" and any other incompleted items. Such reexportation request, where required, may be submitted to the Bureau of Foreign Commerce either with the export license application or subsequent to the issuance of the export license. The Bureau of Foreign Commerce will approve or deny the request for reexportation by completing the bottom portion of one copy of Form IT– or FC–917 and returning it to the U. S. exporter.

(b) *Shipments covered by Import Certificate.* Where the original exportation from the United States is covered by an Import Certificate pursuant to § 373.2 (c) of this chapter, reexportation may be made without further authorization from the Bureau of Foreign Commerce to any countries other than those countries listed in paragraph (d) of this section.

(c) *Shipments not covered by Import Certificate.* Where the original exportation from the United States is not covered by an Import Certificate, reexportation may be made to any countries, other than those countries listed in paragraph (d) of this section, under the following conditions:

(1) R commodities may be reexported to destinations in Country Group O[3] without further authorization.

(2) RO commodities may be reexported to destinations in Country Group O upon submission to and receipt of approval from the Bureau of Foreign Commerce of Form IT– or FC–917, in triplicate, and to destinations in Country Group R upon submission to and receipt of approval from the Bureau of Foreign Commerce of Form IT– or FC–917, supported by a Multiple Transactions Statement, Form IT– or FC–843 executed by each proposed importer to whom the distributor proposes to reexport the commodity(ies). In completing Form IT– or FC–843 (see § 373.65 (a) (3) of this chapter), the proposed importer shall change Item 4 of the form to read:

> We request that this statement be considered as applicable to every reexportation made by (name of distributor) to us under the provisions of United States Foreign Distribution licenses for the type of commodities described in this statement, during the

[1] It is recommended that exporters consult with the appropriate division of the Bureau of Foreign Commerce where there is a question as to whether the degree of processing abroad meets the requirements of minimum processing.

[2] Form IT– or FC–917 may be obtained from Department of Commerce field offices and from the Bureau of Foreign Commerce, Department of Commerce, Washington 25, D. C.

[3] See § 371.3 for countries included in Country Groups O and R, and Subgroup A.

period ending June 30 of the next year. Show earlier termination date if desired

---

(d) *Reexportation to excepted countries.* Reexportation may be made to the countries listed below only after each proposed reexportation transaction has been approved by the Bureau of Foreign Commerce:

| | |
|---|---|
| Austria. | Subgroup A countries. |
| British Malaya. | Switzerland. |
| Burma. | Taiwan (Formosa). |
| Ceylon. | Thailand. |
| Finland | Timor. |
| Honk Kong. | Viet-Nam, Laos, and Cambodia (the area formerly known as Indochina). |
| Indonesia. | |
| Macao. | |
| Republic of the Philippines. | Yugoslavia. |

Such approval may be obtained by submitting Form IT– or FC–917, in triplicate, indicating the amount of each proposed reexportation, supported by an Ultimate Consignee Statement, Form IT– or FC–842, completed by the importer to whom the distributor proposes to reexport the commodity(ies). In completing Form IT– or FC–842 (see § 373.65 (a) (2)), the proposed importer shall change item 5 of the form to read:

We have placed an order with ----------

---

(Name of distributor)

for the following commodities in the quantity and value indicated below:

§ 378.4 *Application requirements*—(a) *Application form.* Applications for Foreign Distribution (FD) license shall be submitted on Form IT– or FC–419, accompanied by Acknowledgment Card, Form IT– or FC–116.

(1) Separate applications shall be submitted in accordance with the provisions of § 372.5 (f) of this chapter.

(2) The distributor shall be shown as the ultimate consignee, and the country of ultimate destination shall be shown as the country in which the distributor is located.

(3) The applicant shall enter the words "FD License" across the top of Form IT– or FC–419, immediately above the printed words "United States of America."

(b) *Additional information.* (1) Where the distributor is located in a Group R country,[4] the application for export license shall be supported by a Multiple Transactions Statement, Form IT– or FC–843, completed by the distributor in accordance with § 373.65 (c) of this chapter. This requirement will be waived in those instances in which an import certificate, as specified in § 373.2 (c) of this chapter, covering the transaction described in the license application, is submitted to the Bureau of Foreign Commerce.

(2) A list of the specific country or countries in which each commodity is to be distributed or resold, showing the approximate amount of such distribution or resale in each country, shall be attached to the application.

(3) The application shall be supported by a written agreement, signed by the distributor, to retain for inspection, upon demand by the Bureau of Foreign Commerce or a United States Foreign Service officer, all consummated orders relating to reexportation under the provisions of this Part for a period of three years from date of reexportation. Such written agreement need accompany only the first application filed for a Foreign Distribution (FD) license involving the same distributor.

(4) Where feasible, information required under the reexportation provisions, § 378.3, shall be attached to the application.

(c) *Subsequent applications.* (1) In addition to the requirements of paragraphs (a) and (b) of this section, each subsequent application for a Foreign Distribution (FD) license involving the same distributor shall include the following certification signed by the applicant:

The undersigned hereby certifies that to the best of his knowledge and belief ----------

---

(Name of ultimate consignee shown on application)

as distributor, has complied with the reexportation provisions of the Foreign Distribution license.

(2) In order to assure the continuity of licenses issued under this part, the Bureau of Foreign Commerce will consider a subsequent application for license filed 30 days prior to the expiration of the validity period of an outstanding license.

(3) An exporter holding a Foreign Distribution (FD) license shall not apply for, nor will the Bureau of Foreign Commerce issue, a Blanket license or an individual license, except an individual license for partial shipment by parcel post under the provisions of § 372.5 (h) of this chapter, for any transaction involving a commodity and consignee covered by such Foreign Distribution (FD) license. The provisions of this subparagraph shall not preclude application for, or issuance of, an individual license covering a transaction between the United States exporter and an importer who may be receiving reexported commodities of the same type from a distributor.

§ 378.5 *Issuance of licenses.* (a) Export licenses issued under the provisions of this part will authorize shipment to the ultimate consignee, as distributor, and distribution or resale in the country of ultimate destination, without further authorization from the Bureau of Foreign Commerce. Such licenses will be valid for exportation to the distributor during a period of six months from the date of issuance. Reexportation by the distributor is not restricted to any time limitation.

(b) Where required, the license will indicate the maximum amount of permissible reexportation to each country. Under these circumstances, the Bureau of Foreign Commerce will leave intact, as nearly as possible, the proposed country distribution submitted by the exporter with the application. If the license does not indicate the maximum amount of reexportation to each country, the total commodities may be reexported to any importer meeting the qualifications prescribed by § 378.3.

§ 378.6 *Export clearance*—(a) *Presentation of license to Customs.* When clearing shipments for export under a Foreign Distribution (FD) license, the licensee shall present the license to the Collector of Customs at the port of exit. The total amount shipped against such license shall not exceed the total quantity approved for export, except as otherwise provided for under the weight and volume tolerance provisions set forth in § 379.2 (h) of this chapter.

(b) *Shipper's Export Declaration.* A person exporting any commodity pursuant to a Foreign Distribution (FD) license shall enter the number of the license on each Shipper's Export Declaration filed with the Collector of Customs at the port of exit at the time of each exportation under each license.

§ 378.7 *Amendment of license.* If the amount licensed under a Foreign Distribution (FD) license proves insufficient to meet an exporter's requirements, he may request an increase in the quantity authorized for export under such license. This shall be done by requesting an amendment on Form IT– or FC–763, Request for and Notice of Amendment Action, in accordance with the provisions of § 380.2 of this chapter. Extension of the validity period of Foreign Distribution (FD) licenses will not be granted.

§ 378.8 *Other applicable provisions.* Insofar as consistent with the provisions of this part, all of the provisions of the Export Regulations shall apply equally to applications for and licenses issued under this part.

---

## PART 379—EXPORT CLEARANCE AND DESTINATION CONTROL

Sec.

379.1 General export clearance requirements.
379.2 Presentation and use of validated license.
379.3 Presentation of shipper's export declaration.
379.4 Authentication of declarations.
379.5 Use of authenticated declaration.
379.6 Use of license symbols or numbers on Declaration or parcel.
379.7 General authority of Collectors of Customs and Postmasters in clearing shipments.
379.8 Types of actions which may be taken by Collectors.
379.9 Port of exit: Shipments leaving United States before final exportation from United States port.
379.10 Destination control.
379.11 Return or unloading of cargo at direction of Department of Commerce.
379.12 Other applicable laws and regulations.

AUTHORITY: §§ 379.1 to 379.12 issued under sec. 3, 63 Stat. 7, as amended; 50 U. S. C. App. 2023, E. O. 9630, 10 F. R. 12245, 3 CFR, 1945 Supp., E. O. 9919, 13 F. R. 59, 3 CFR, 1948 Supp.

§ 379.1 *General export clearance requirements*—(a) *Exportations by Water or Air Carrier.*[1] No person shall place on a pier or dock or other place of loading for the purpose of exporting by water or air, load or carry onto an exporting carrier, or present to the Collector of Customs for inspection and clearance for exportation, any commodity or technical data until:

(1) *Shipments requiring a validated license.* A validated license therefor has been presented to the Collector, and a related duly executed Shipper's Export Declaration, covering such commodity or technical data, has been presented to, and authenticated by, the Collector.

(2) *Shipments under a general license.* A duly executed Declaration, consistent with the provisions of an applicable general license, has been presented to, and authenticated by, the Collector. Where the filing of a Declaration is not required, an oral declaration describing the commodity or technical data about to be exported and the applicable general license shall be made to the Collector at the port of exit.

(b) *Exportations by mail*—(1) *Shipments requiring a validated license*—(i) *General requirements.* No person shall export any commodity or any technical data by means of mail, including surface and air parcel post, until (*a*) a validated license therefor has been presented to the Postmaster at the place of mailing, together with a related duly executed Declaration covering the commodity [2] to be so mailed, whether or not required by the regulations of the Bureau of the Census, and until (*b*) the sender (exporter) has entered the complete validated license number on the address side of the wrapper on the package.

(ii) *Partial shipments.* (*a*) Where more than one shipment is to be made against a validated license, the sender (exporter) shall file the license with a Collector (instead of surrendering the license to the Postmaster) and present to such Collector for authentication a copy of the Declaration covering each shipment. The authenticated Declaration, in addition to the Declaration required under subdivision (i) of this subparagraph, shall be surrendered to the Postmaster at the time of mailing.

(*b*) A shipment by mail against a license on file with a Collector may be exported on or before the license expiration date indicated by the Collector on the authenticated Declaration. Where the mail shipment is not made within this period and the validity period of the export license has been extended by amendment in accordance with the provisions of § 380.2 of this subchapter the exporter shall prepare and present to the Collector for authentication a new copy of the Declaration, clearly marked "Amended", together with the previously authenticated Declaration. The previously authenticated Declaration will be retained by the Collector and the amended Declaration, if authenticated, will be returned to the exporter for presentation to the Postmaster.

(2) *Shipments under a general license*—(i) *General requirements.* Where no validated license is required, the sender (exporter) shall present to the Postmaster at the place of mailing a duly executed Declaration, when required by subdivision (ii) of this subparagraph, containing the designation or symbol of the general license under which the commodity or technical data may be exported. In addition, except where publications are exported by a United States Government agency under the provisions of General License GTDP, the sender (exporter) shall place the general license designation or symbol on the address side of the wrapper, followed by the words "Export License Not Required". The general license symbol and the legend will constitute a certification by the sender to the Postmaster and to the Bureau of Foreign Commerce that a validated license is not required for the shipment.

(ii) *Commercial mail shipments.* A Declaration shall be presented for commercial mail shipments other than shipments of technical data being made under a general license from one business concern to another business concern, if the value of the shipment is $25 or more.[3]

NOTE 1. *Post Office Regulations.* All exportations via mail should also conform to the applicable Post Office Department regulations as to size, weight, permissible contents, etc. Such exportations are subject to inspection by the Post Office Department and the Bureau of Customs.

2. *Gift parcels.* If the sender is shipping a gift parcel under the provisions of the general license for gift parcels, he must place the word "Gift" on the customs declaration tag as well as the words "Gift—Export License Not Required" on the address side of the wrapper. In this instance, the word "Gift" is the general license symbol. (See § 371.21 of this subchapter.)

3. *Weekly shipments.* Only one shipment per calendar week of a commodity classified in a single entry on the Positive List may be made by parcel post or mail under General License *GLV* by one exporter to one importer. (See § 371.10 (b) (1) of this subchapter.)

4. *Partial shipments.* The procedures for obtaining separate or additional licenses when making partial shipments by mail are set forth in § 372.5 (h) of this subchapter.

(c) *When exporting by means other than by water, air, or mail.* No person shall export any commodity or technical data by means other than by water, air, or mail, until (1) a validated license, where required by the provisions of the Export Regulations, has been presented to the Collector at the port of exit from the United States and until (2) a duly executed Declaration covering the commodity or technical data except as provided for in § 385.5 of this subchapter has been presented prior to inspection together with the related license to, and authenticated by, the Collector. Where no validated license is required, a duly executed Declaration consistent with the provisions of an applicable general license shall be presented for authentication, prior to inspection, to the Collector at the port of exit. Where the filing of a Shipper's Export Declaration is not required, an oral declaration, including a description of the commodity or technical data to be exported and the applicable general license, shall be made to the Collector at the port of exit.

§ 379.2 *Presentation and use of validated license*—(a) *Licenses valid for shipment from any port.* A license may be used for exportation from the United States from any port of exit subject to the jurisdiction of the United States, unless the Bureau of Foreign Commerce shall otherwise provide.

(b) *Signature on licenses.* The export license document, Form IT– or FC–628, presented to the Collector or Postmaster, must bear on the reverse side thereof the following signatures:

(1) *Licensee.* At the top left, on the line reading "Signature of licensee", the signature of the licensee, by himself, or for him by a duly authorized officer, employee, or agent.

(2) *Person presenting license.* At the top right, on the line reading "Signature of person presenting license", the signature of the licensee or of an officer or employee of either the licensee or the forwarding agent who is authorized to sign and swear to the Declaration accompanying such license. This signature may be affixed either in the presence of the Collector or outside the customhouse.

(c) *Filing of license at time of first shipment.* All validated licenses (except Project Licenses and Project Technical Data Licenses) must be presented to and filed with the Collector before any commodity or technical data is loaded, presented for loading, deposited on a dock or other place of loading, or carried onto an exporting carrier; except that in the case of shipments to be made by mail, the validated license shall be presented to the Postmaster or to the Collector when the Declaration covering the first shipment is presented for exportation under that license.

(d) *Subsequent shipments from port where license filed.* If only a partial shipment is made thereunder, the validated export license will be appropriately endorsed and held by the Collector until complete shipment is made or until the license expires. On any subsequent shipments under that license from the same port, duly executed Declarations shall be presented for authentication, as provided in this part.

(e) *Simultaneous or subsequent shipments from other ports*—(1) *Transmittal of approval.* If part of the licensed shipment is to be made from another port, the licensee shall request the Collector holding the license to transmit to the Collector at the intended port of exit approval for the intended shipment. Upon granting the approval, the Collector holding the license will endorse the license to record the facts as to the intended shipment. On any shipment made pursuant to such approval, duly executed Declarations shall be presented to the Collector at the port from which the shipment is to be made, as provided in this part. In case full or partial shipment is not made from the intended port (in accordance with the approval), the licensee or his agent may initiate action for the modification or deletion of the Collector's endorsement of the

---

[4] See § 371.3 of this chapter for countries included in Country Groups O and R, and Subgroup A.

[1] Except as provided by § 379.2 (e).

[2] Section 385.5 excludes technical data from the requirement for a Declaration

[3] This rule is also contained in the regulations issued by the Bureau of the Census.

[4] Provisions relating to the export clearance of technical data under a validated license are set forth in § 385.4 (f) of this subchapter.

intended shipment. Such action may be initiated in the following manner:

(i) *License in possession of Collector.* If the license is still in the possession of the Collector (whether or not the license would have been completed by the intended shipment), the licensee or his agent shall request the Collector to whom the approval was sent to notify the Collector holding the license to make an amendment of his previous endorsement of the intended shipment.

(ii) *License returned by Collector to the Bureau of Foreign Commerce.* If the license has been returned by the Collector to the Bureau of Foreign Commerce, an application for a new license may be submitted to the Bureau of Foreign Commerce covering the quantity not shipped, together with a letter explaining the facts and identifying the Collector to whom the approval was sent.

(2) *Transmittal of license.* As an alternative to the notification procedure set forth above, the Collector holding the license is authorized to transmit the license by mail to the Collector at another intended port of exit, upon written request by the licensee stating that the license will no longer be used at the port at which the license is deposited.

(3) *Exceptions.* The procedure set forth above in this paragraph shall not be applicable to licenses which specify that shipment is authorized for clearance at a particular port of exit.

(f) *Shipments against expiring license—(1) Commodities or technical data ready for loading or laden.* Commodities or technical data which are (i) laden aboard the exporting carrier or (ii) ready for lading and located on a pier for the purpose of lading prior to midnight of the expiration date of a license, and not for the purpose of storage, may depart with the vessel even though the vessel does not clear until after the expiration date of the license. Furthermore, where the vessel is expected to be available at the pier for loading in advance of the expiration of the license, but exceptional and unforeseen circumstances delay it, the commodities or technical data may be exported without an extension of the validity period of the license, if in the judgment of the Collector undue hardship would otherwise result.

(2) *Commodities or technical data in transit to port of exit.* Commodities or technical data in transit to the port of exit prior to midnight of the date of expiration of the validated license covering the shipment may be cleared for export, at the discretion of the Collector, within 5 days following the expiration date of the license if the shipment qualifies under subparagraph (1) of this paragraph. The Collector may require the exporter to submit a Bill of Lading or other evidence that the shipment was in transit to the port of exit prior to the expiration date of the license and was delayed in transit.

(3) *Other shipments.* Licensed shipments not coming within one of the foregoing provisions may not be exported except by extension of the validity period of the license by the Bureau of Foreign Commerce.

(g) *Reexportation under license previously granted—(1) Shipments returned to the United States.* Shipments which are returned to the United States because of failure or inability of the exporting carrier to deliver the shipment at its intended destination may be reexported to the consignee and destination to which the shipment was originally made without the procurement of a new license: *Provided,* That satisfactory evidence of the validity of the original exportation is submitted to a Collector.

(2) *Evidence required.* Such evidence may consist of a copy of the original Declaration or the exporting carrier's outward manifest, or such other evidence as the Collector may require. If the commodities or technical data are reexported to other than the original consignee, they must be treated as new exportations and are subject to current regulations of the Bureau of Foreign Commerce regarding the specific commodity or technical data.

(h) *Weight and volume tolerance—(1) 10 percent tolerance.* For all commodities requiring an export license, unless otherwise specified in such license, a 10 percent tolerance by weight or volume over the amount specified in the license is allowed, except as listed below in this section:

| *Commodities* | *Tolerance* |
|---|---|
| Raw cotton except linters (Schedule B Nos. 300005 through 300312) (pounds or bales). | 2 percent. |
| Sulfur, crude (containing 85 percent or more sulfur), crushed, ground, refined, sublimed, and flowers (Schedule B Nos. 571410 and 571500). | 1 percent. |
| Medicinal and pharmaceutical preparations with processing codes DRUG and ACID, other than radium salts and compounds, Schedule B No. 829940 (Schedule B Nos. 811100 through 818000). | 1 percent. |

(2) *Unit of quantity covered.* (i) This tolerance is allowed only when the unit of quantity called for on the license is in the following weight or volume terms:

| | |
|---|---|
| Avoirdupois ounce. | M (1,000) board feet. |
| Bale. | Milligram. |
| Barrel. | Oxford Unit. |
| Bushel. | Pound. |
| Content pound. | Proof gallon. |
| Cubic foot. | Short ton (2,000 pounds). |
| Gallon. | Square foot. |
| Gram. | Square yard. |
| Hundredweight (100 pounds). | Troy ounce. |
| Linear foot. | U. S. P. unit. |
| Linear yard. | |
| Long ton (2,240 pounds). | |

(ii) The weight and tolerance provisions of this section shall not apply to the following units of quantity:

| | |
|---|---|
| Carat. | Pencil gross. |
| Cell. | Piece. |
| Dozen. | Ream. |
| Gross. | Roll. |
| Number. | Round. |
| Pack. | Set. |
| Pair. | Square. |

(3) *Maximum tolerance allowed.* (i) In all cases, the tolerance shall be allowed on the basis of the actual quantity stated in the license; and in no case shall the tolerance exceed 10 percent of such quantity.

(ii) For example:

(*a*) If the quantity shown on the license is "100,000 pounds," not more than 110,000 pounds may be exported.

(*b*) If the quantity shown on the license is "100,000 pounds 10 percent more or less," not more than 110,000 pounds may be exported.

(*c*) If the quantity shown on the license is "approximately 100,000 pounds," not more than 110,000 pounds may be exported.

(iii) Where an amount equivalent to the quantity stated on the license has been shipped, no further shipment may be made under the license.

(4) *Commodities licensed in both container and weight or volume units.* (i) Where commodities are licensed in terms of both standard-size container units and weight or volume units, the tolerance is allowed on the total weight or volume licensed; provided that the number of standard-size container units shall not be increased over the number thereof stated in the license.

(ii) For example: If the license authorized the shipment of 10,000 pounds of a commodity in twenty 500-pound drums, that license may be used to clear an exportation of not more than 11,000 pounds in not more than twenty such drums.

(5) *Partial shipments.* Whenever one or more partial shipments of the licensed commodity have been made, the 10 percent tolerance is allowed only on the unshipped balance, except that in the case of shipments of iron and steel products (processing code STEE), and tinplate (processing code TNPL), the tolerance of 10 percent, and in the case of raw cotton, except linters, the tolerance of 2 percent, is allowed on the basis of the actual quantity stated in the license. Where an amount equivalent to the quantity stated on the license has been shipped, no further shipment may be made under the license.

NOTE 1. *Tolerance.* When there is a discrepancy in weight or volume within the tolerance allowance between the amount shown on the license and the amount actually shipped, the amount actually shipped shall be noted on the license by the Collector of Customs at the final port of exit before the license is returned to the Bureau of Foreign Commerce.

2. *BLT shipments.* When shipments are cleared against a BLT license, the applicable tolerance may be applied to the quantity approved for export to each single consignee; provided, however, that the total amount shipped against the license does not exceed the total amount approved for export plus 10 percent. In other words, the tolerance provisions may be applied on the amount approved for each consignee in the same manner and to the same extent as if he were the only consignee named in an individual license.

§ 379.3 *Presentation of shipper's export declaration*—(a) *Definition of shipper's export declaration.* "Shipper's Export Declaration" means Shipper's Export Declaration, Commerce Form 7525–V or Shipper's Export Declaration for In-transit Goods, Commerce Form 7513. The Declaration for in-transit goods should be used for all commodities:

(1) Shipped in transit through the United States.

(2) Transshipped in ports of the United States for foreign countries.

(3) Exported from General Order Warehouse.

(4) Exported from foreign trade zones (unless the Collector of Customs specifically permits the use of Commerce Form 7525–V).

(b) *When required.* Declarations shall be presented to the Collector at the port of exit, or to the Postmaster at the post office from which the shipment is mailed, in the number of copies specified in paragraph (c) of this section.

(c) *Number of copies to be presented—(1) Where exporting by means other than mail.* Three copies of the Declaration shall be required by the Collector at the port of exit, except in cases of shipments to Canada and shipments between the United States and its territories and possessions[5] for which only two copies are required, except as provided in subparagraph (3) of this paragraph.

(2) *When mailing—(i) General.* In the case of shipment by mail, one copy of the Declaration shall be presented to the Postmaster at the place of mailing[6] when: (*a*) The shipment is under a validated license, or (*b*) the shipment is of a commercial nature and its value is $25 and over.

(ii) *Partial shipment against a validated license on file.* In addition, as provided in § 379.1 (b) (1) (ii), when making a partial mail shipment against a license on file with a Collector, the sender (exporter) must present to the Postmaster a copy of the Declaration authenticated by the Collector with whom the license is filed.

(3) *Additional copies of Declaration.* The Bureau of Foreign Commerce, the Collector, or the Postmaster may require, for the purpose of export control, the presentation of additional copies of the Declaration. In all cases where a Declaration is required by the Export Regulations or the Regulations for the Collection of Statistics of Foreign Commerce and Navigation of the United States, an additional copy of the Declaration shall be presented for exportations of iron and steel scrap, Schedule B Numbers 601010–601090.[5] The additional copy shall bear the following notation in the upper right corner: "COMM–8".

NOTE: For exports from the United States to foreign countries made in transit via Canada, the exporter shall present for authentication an additional copy of the Declaration in such cases.

(4) *Government surplus agricultural commodities.* See § 373.5 (b) of this subchapter for exportations of agricultural commodities acquired directly or indirectly as a result of a sale for export amounting to $100,000 or more by the Commodity Credit Corporation (CCC), either in the form acquired or in processed form.

(d) *Separate declarations required where shipment is partly under general license and partly under validated license—(1) General.* Commodities or technical data to be exported under the authority of a general license shall not be combined on the same Declaration with commodities or technical data to be exported under a validated license. Separate Declarations must be presented: one to cover the commodities or technical data under general license, the other to cover commodities or technical data under validated license.

(2) *Exceptions.* In the case of a shipment consisting of commodities and the containers therefor, where either of the commodities only or the containers only require a validated license, both the commodities and the containers shall be entered on the same Declaration.

(e) *Special requirements—(1) Special requirements stated on the license.* Where a particular validated license bears on the face thereof a requirement that specified documents or information (additional to that furnished at the time of application) be furnished, the licensee shall, at the time of or prior to presenting the Declaration to the Collector, write on or attach to all copies of the Declaration such specified information or documents, unless otherwise indicated on the license.

(2) *Manner of submission of additional information and documents; additional copy of Declaration.* (i) The information required by subparagraph (1) of this paragraph shall be set out in columns (9) to (15) on all copies of the Declaration—one copy in addition to, and conforming to, the number of copies otherwise required—to be filed with the Collector for authentication. Unless otherwise specified on the face of the license, the documents required shall be attached to the additional copy of the Declaration and need be submitted in one copy only. The documents may be either original or certified copies.

(ii) All statements and documents submitted in accordance with the requirements of a license will be deemed to constitute representations of material facts within the purview of the regulations prohibiting the making of false representations to the Bureau of Foreign Commerce in any export control matter (§ 381.5 (b) of this subchapter).

(iii) The Collector will refuse to authenticate a Declaration in any case where the exporter fails to comply with the special requirements of a validated export license or does not possess the information or documents requested, unless, prior to presentation of the Declaration, the exporter has informed the Bureau of Foreign Commerce of the specific reason for his inability to comply and, for good cause shown, the Bureau of Foreign Commerce has in writing waived the requirement. The licensee will attach to and file with the license any letter of waiver in order to effect clearance of the shipment through Customs.

§ 379.4 *Authentication of declarations*—(a) *Authentication requirement.* All copies of Declarations which are required to be presented to Collectors must be authenticated by the Collector at the port of exit (see § 379.3 (b)). No Collector shall authenticate a Declaration unless he is satisfied, after comparing it with the applicable validated export license or general license, as the case may be, and with such other relevant information as he may have, that (1) exportation of the commodity or commodities described in such Declaration is authorized under such license; (2) that the statements in such Declaration are identical in all respects with the contents of the validated export license, or the terms, provisions, and conditions of the general license; (3) that the statements in such Declaration are set forth in such manner as to permit all Collectors or other authorized officials or persons to whom the Declaration may thereafter be exhibited or delivered in connection with the exportation to determine whether the said exportation complies with the contents of the validated export license, or the terms, provisions, and conditions of the general license; and (4) that the shipment is or will be available for inspection and has not been loaded on an exporting carrier.

(b) *Information required for authentication.* No Declaration shall be authenticated by a Collector unless there are set forth in such Declaration, and in all copies thereof required to be presented to the Collector:

(1) The name and address of the exporter, who shall be the licensee named in a validated export license or entitled to export under a general license. On a Declaration covering exportations under a validated license, the answer to Item 3 shall correspond to the corporation, partnership, or individual named as the applicant-licensee (exporter) on Form IT– or FC–419.

(2) The name and address of the forwarding agent, if any, duly authorized by the exporter.

(3) The name and address of any intermediate consignee, whether or not named on the license application or on the validated license.

(4) All of the other data required to be shown on the Declaration form.

NOTE: 1. *Optional ports of unlading.* In a case where, prior to the departure of the exporting carrier, an exporter does not know which of several countries is the country of ultimate destination of a commodity being exported under General License GRO or GO, the exporter may name on the Declaration and Bill of Lading as ultimate destination optional ports of unlading, even when more than one foreign country is involved. As soon as the exporter ascertains the actual country of ultimate destination, Correction Form FT–7403 should be filed with the Collector at the port of exit where the original Shipper's was filed, specifying the actual port of unlading, the actual country of ultimate destination, and the name and address of the buyer to whom delivery is made. If the exportation is consigned to more than one country of ultimate destination, Correction Form FT–7403 should indicate the amount (quantity and value) consigned to each country of ultimate destination.

When an exportation under any general license is shipped in transit through a country other than the country of ultimate destination, the exporter may designate optional

[5] Shipments between the United States and Alaska or Hawaii do not require Declarations.

[6] This regulation includes shipments under a validated license, under a general license, and shipments to Canada.

ports of unlading in one or more countries, together with the name and address of the intermediate consignee in each of the countries designated. Optional ports of unlading, in all cases, must be located in a country to which the commodity may be shipped directly from the United States under the same or another applicable general license.

In the case of exportations made under a validated license, optional ports of unlading in the country of ultimate destination only may be designated on the Declaration and Bill of Lading, unless the export license designates intermediate consignees in one or more countries other than the country of ultimate destination. In the latter case, the optional ports of unlading must be designated as optional in-transit points on the Declaration and Bill of Lading in accordance with the validated license. Amendment of the validated license is required if an intermediate consignee in any of the designated countries is not named on the export license, as provided in § 380.2 (c) of this subchapter.

On any exportation, as soon as the exporter ascertains at which port the commodities are to be unloaded, whether located in the country of ultimate destination or in a country of transit, Correction Form FT-7403 should be filed with the Collector at the port of exit where the original Declaration was filed, specifying the actual port of unlading and the name and address of the intermediate consignee, if any, to whom delivery is made. An intermediate consignee must be specified if the port of unlading is located in a country other than the country of ultimate destination. If the exportation is unloaded at more than one port, Correction Form FT-7403 should indicate the amount (quantity and value) unloaded at each port, and the name and address of each intermediate consignee employed in the transaction.

In all of the above instances, the Bureau of Customs, in accordance with Customs clearance regulations (19 CFR 4.60 (a) of Customs Regulations of 1943), requires that the carrier must have other cargo on board to be discharged at one of the optional ports named in each country and such carrier must be cleared accordingly.

In no event does the aforementioned procedure apply to any shipment destined directly or indirectly to Hong Kong, Macao, or Subgroup A destinations. (For shipments to other destinations via Hong Kong, see § 370.8 of this subchapter).

2. *Shipments to redistribution points under General License GRO.* Where a shipment is made to a free zone or other redistribution point pursuant to the provisions of General License GRO, the redistribution point and the specific certification provided in § 371.8 (b) of this subchapter shall be shown on the Declaration and related Bill of Lading.

3. *Applicant-licensee (exporter).* On a Declaration (Commerce Form 7525-V) covering exportations under a validated license, the answer to item 3 shall correspond to the corporation, partnership, or individual named as the applicant-licensee (exporter) on Form IT- or FC-419. However, the answer to item 3 of Form 7525-V may correspond to the name of the foreign principal shown on Form IT- or FC-419 if the corporation, partnership, or individual that is in fact the exporter is not subject to the jurisdiction of the United States. In the absence of such identity, the export license does not cover the proposed exportation.

(c) *Commodity descriptions*—(1) *Basket commodity descriptions.* (i) As used in this paragraph, "basket classification" means those Schedule B commodity classifications in the 1952 edition of Schedule B, as amended, which call for the shipper to "specify by name," "specify by type," etc., the items included in the shipment under those commodity numbers. A detailed description shall be set forth on the applicable Declaration for commodities falling within the Department of Commerce Schedule B commodity basket classifications, in addition to all other data required to be shown on such Declaration.

(ii) In those cases where there are a substantial number of items included in a single export shipment under one basket classification, exporters may set forth the detailed descriptions of only five of the items which represent the greatest proportion of the total dollar value under this single Schedule B basket classification. Separate dollar value, net quantity, and shipping weight information for individual items reported under one Schedule B basket classification are not required on the Declaration.

(2) *Distinguishing characteristics or specifications.* When shipment of a commodity is being made under a general license as a non-Positive List commodity and there is an entry on the Positive List for the same type of commodity and under the same Schedule B number, but with different specifications, capacities or other characteristics, the description of the commodity on the Declaration shall contain the distinguishing specification, capacity, or other characteristic, such as: rated horsepower, pressure, kilowatts, operating voltage, kilovolt amperes, etc. Such description shall be complete in all respects, including the exact specifications and/or composition of the commodity; for example: one resistance welder, single phase type, Schedule B No. 701032. If it is impractical to give the exact specifications and/or composition of the commodity, Collectors, at their discretion, may authorize exporters, in lieu thereof, to place the following certification on the Declaration:

> This commodity does not come within the restricted specifications, characteristics and/or composition shown for this Schedule B number on page ____ dated _____ of the Positive List.

(d) *Additional information required for in-transit goods.* The following additional information shall be set forth on the Shipper's Export Declaration for In-transit Goods (Commerce Form 7513):

(1) The name and address of the intermediate consignee in a foreign destination, if any, must be shown below the description of the commodities across columns 1–6;

(2) Underneath the name and address of the intermediate consignee, also within columns 1–6, one of the following statements must be made, whichever is appropriate:

(i) For in-transit shipments of foreign merchandise (for definition of "foreign origin," see § 371.9 (a) of this subchapter):

> The merchandise described herein is of foreign origin.

(ii) For in-transit shipments of domestic (United States) merchandise:

> The merchandise described herein is of the growth, production, or manufacture of the United States.

(iii) For in-transit shipments of commodities of United States origin excepted under § 371.9 (a) (2) of this subchapter:

> The merchandise described herein is of the growth, production, or manufacture of the United States, but comes within the exception granted by § 371.9 (a) (2) of this subchapter.

(3) The commodities to be exported shall be described in terms of Schedule B, including the appropriate Schedule B number, as well as in terms of Schedule S. The Schedule B number shall be entered in column 4 immediately underneath the Schedule S number.

NOTE: All shipments of merchandise for which the Shipper's Export Declaration for In-transit Goods is required (Commerce Form 7513) must be shown in terms of Schedule S as well as in terms of Schedule B. Schedule S numbers, by commodity groupings, are contained in Schedule S, Statistical Classification of Domestic and Foreign Merchandise Exported from the United States, obtainable without charge from the Bureau of the Census, Department of Commerce, Washington 25, D. C.

(e) *Statement regarding ultimate destination.* No Declaration shall be authenticated by a Collector unless the statement regarding ultimate destination, whenever required, has been entered on all copies of the Declaration as provided in § 379.10 (c).

(f) *Forwarding agent*—(1) *Definition of "forwarding agent."* (i) For the purpose of this part, a "forwarding agent" shall be a person authorized by a named exporter to perform for the exporter actual services which facilitate exportation of the commodities described in the Declaration, such as preparing the Declaration, attending to clearance of the shipment by submission of documents to the Collector or export control officers, securing cargo space, or delivering the commodities to the exporting carrier, obtaining Bills of Lading in connection with the exportation, and attending to the formalities of consular invoices, certificates of origin, and other like documents; but such "forwarding agent" need not be a person regularly engaged in the freight forwarding business.

(ii) In the event that conditions beyond the control of a carrier, named as exporting carrier on a duly executed Shipper's Export Declaration, prevents the lading of the total cargo covered by the Declaration, such carrier is authorized to prepare and present additional Declarations covering the remainder of the cargo when shipped. The original Declaration shall be amended by the carrier, in accordance with § 379.5 (b), to show the descriptions, quantity and value of the commodities actually carried. Subsequent Declarations by the carrier shall be completed in all details and shall contain the following statement:

> These commodities were included, but not shipped, under authenticated Shipper's Export Declaration, No. ------ at ---------
> (Port)
> on ----------
> (Date)

(2) *Forwarding agent as true agent.* Unless the exporter shall otherwise state in writing in the power of attorney set forth in the Declaration, or in a general power of attorney, or other written form, subscribed and sworn to by a duly authorized officer or employee, filed with the Collector, the forwarding agent named by the exporter in said power of attorney or other written form shall be deemed to be the true agent of the exporter for export control and customs purposes.

(g) *Signature on Declaration.* (1) The signature of the person making the declaration set forth on the Declaration form and taking the oath shown on said form (where oath is required) shall be that of the exporter or the forwarding agent named in the Declaration, or a duly authorized officer or employee of either. The signature of such person, whether or not under oath and whether or not that of the exporter or his duly authorized officer or employee, shall constitute a representation by the exporter that all statements made and all information set forth in such Declaration are true and correct. In addition, if the signature is that of the forwarding agent, or his duly authorized officer or employee, such signature shall constitute a like representation by the forwarding agent.

(2) Additional copies of the Declaration or copies of the continuation sheet form for such Declaration may be used where more space is required to prepare fully a Declaration. In all such cases, the Declaration need be signed and the oath taken (where required) on only one Declaration form. The additional copies or sheets must be numbered in sequence and securely attached to the executed Declaration form; and the following legend must be inserted between columns (9) and (15) of the executed Declaration form:

> This Declaration consists of this sheet and ____ continuation sheets.

No portion of any form attached as a continuation sheet shall be torn off or removed.

(h) *Statements on declaration.* In all cases where a Declaration is presented to a Collector or Postmaster, the exporter shall be deemed thereby to represent (1) that all statements made and information set forth in the Declaration have been furnished by him or on his behalf for the purpose of effecting an exportation under the Export Regulations; (2) that the exportation of the commodity or commodities described in such Declaration is authorized under the general or validated export license therein identified; (3) that the statements contained in such Declaration are identical in all respects with the contents of the validated export license or the terms, provisions and conditions of the applicable general license; and (4) that all of the other terms, provisions, and conditions of the Export Regulations applicable to the exportation have been met.

(i) *Who may submit Declaration for authentication.* No person shall submit to the Collector for authentication any Declaration unless such person is the licensee or his carrier, the duly authorized forwarding agent of the licensee, or a duly authorized officer or employee of either.

(j) *Rejection of Declarations.* Collectors shall reject all Declarations which do not comply with the foregoing provisions of this part.

(k) *Procedures for presentation of declaration for authentication.* (1) Any Collector may, with the prior approval of the Bureau of Foreign Commerce, institute and maintain any procedure for the presentation for authentication of Declarations, which shall provide in each case for the proper identification, and recording of the identity of the individuals who sign such Declaration and who appear before the Collector for such purpose.

(2) Collectors are specifically authorized to institute and maintain the following procedure for identification of persons submitting or presenting Declarations to the Collector:

(i) *Identification cards.* An exporter (licensee) effecting exportations without the services of a forwarding agent shall make application for and obtain from the appropriate Collector an Identification Card, as described in this section, for each of his officers or employees who submit or present Declarations or licenses. Where a forwarding agent is employed by an exporter, the forwarding agent shall similarly apply for and obtain an Identification Card for each of his officers or employees who submit or present Declarations or licenses on behalf of an exporter. In addition, carriers, not otherwise acting as forwarding agents, who may, as provided in paragraph (i) of this section, deliver executed Declarations without specific authorization therefor, shall similarly apply for and obtain such Identification Cards. Applicants for Identification Cards shall be responsible for all Declarations executed and submitted in their names to Collectors through use of the Identification Card. Such Identification Card may be used only in the Customs district for which issued, by the person to whom issued, and is not transferable. Application must be made on Customs Form 3139, "Application for Identification Card of Authorized Forwarding Agent or Exporter", and the Identification Card to be issued shall be Customs Form 3141, "Identification Card of Authorized Forwarding Agent or Exporter or Employee Thereof."

(ii) *Waiver of identification card requirement.* In the case of exporters not regularly engaged in making exportations, Collectors may waive the Identification Card requirement where they are otherwise satisfied that the person submitting or presenting the Declaration is in fact the exporter (licensee) or is acting for and on behalf of such exporter.

(iii) *Identification cards and power-of-attorney forms.* Wherever the Identification Card procedure is instituted and maintained, it shall supersede any existing requirement of the Collector for filing a form of power-of-attorney executed by an exporter or forwarding agent, as the case may be, authorizing his officers or employees to sign, swear to, or submit Declarations.

(l) *Changes, alterations, and amendments of Declaration prior to authentication.* Collectors shall not, except in case of hardship or emergency, authenticate any Declaration showing evidence of change, alteration, or amendment, but shall require a clean copy. Where demonstrated cases of hardship or emergency exist in which Collectors find it desirable to make an exception, Collectors may approve on the face of the Declaration specific changes, alterations, or amendments. The duly authorized forwarding agent or carrier for an exporter may insert or correct in Declarations presented by him required items of information peculiarly within his own knowledge, such as the designation of the actual exporting carrier, the actual date of exportation, or the actual Schedule B number to which the commodity described in the Declaration unambiguously refers; but nothing herein shall relieve such forwarding agent or carrier from liability for any misrepresentation of facts so inserted or corrected. The forwarding agent or carrier making such insertion or correction must specifically identify the same in writing on the face of the Declaration.

NOTE: For changes, alterations, amendments of Declaration after authentication, see § 379.5 (b).

§ 379.5 *Use of authenticated declaration*—(a) *Authenticated Declaration as export control document.* When duly authenticated by the Collector at the port of exit, a Declaration shall be deemed to be a document, issued pursuant to the Export Regulations, evidencing the existence of a validated export license or permission for an exportation under an applicable general license. Such document may be used only by the exporter or his duly authorized forwarding agent for the purpose of clearing for exportation or otherwise facilitating or effecting the exportation of a commodity or commodities requiring a validated or general export license under the Export Regulations issued pursuant to the Export Control Law.

(b) *Changes, alterations, amendments of authenticated declarations.* No Declaration, used or intended to be used in connection with the exporation of any commodity or commodities requiring a validated or general export license, which shall have been authenticated by any Collector shall, at any time after such authentication, be changed, altered, or amended in any respect by any person without prior written authorization therefor set forth on such authenticated Declaration by the said Collector. However, where for any reason an exporting carrier designated in an authenticated Declaration cannot receive the shipment on board, the name and date of departure of another exporting carrier may be substituted by the steamship company, steamship agent, airline, railroad, motor vehicle company, or other person issuing Bills of Lading or similar documents of carriage for the carrier originally named, if due and timely notice of such change is given to the Collector prior to loading of the shipment onto the substitute carrier and such change is specifically identified in writing on the face of the Declaration by said steamship company, steamship agent, airline, railroad, motor vehicle company, or other person. No change,

alteration or amendment may be authorized in any authenticated Declaration which would have the effect of authorizing shipment after the validity period of the applicable validated or general export license has expired or which would otherwise vary the terms, provisions, and conditions of such license.

NOTE: For changes of Declaration prior to authentication, see § 379.4 (l).

(c) *Declarations showing unauthorized changes.* No person to whom any authenticated Declaration showing evidence of change, alteration, or amendment shall be exhibited for the purpose of facilitating any exportation, without the production of written authorization therefor by the Collector, shall take any action toward such facilitation, but shall promptly report the facts to the nearest Collector and shall, where such authenticated Declaration is in his or its possession, surrender same to such Collector.

(d) *Correction of authenticated Declarations.* Any item of information contained on an authenticated Declaration filed with the Collector shall be corrected in accordance with the facts of the exportation either by use of Form FT–7403, Correction Form, or directly on the authenticated Declaration in accordance with the procedure described below. The acceptance by the Collector of such corrections does not imply approval of any act involved in the shipment.

(1) Corrections shall be made directly on the authenticated Declaration where:

(i) The shipment does not require submission of four copies of the Declaration, and

(ii) The Bureau of the Census copy of the Declaration is still in the possession of the Collector.

(2) In all other instances corrections shall be made by use of Correction Form, Form FT–7403. Form FT–7403 shall be submitted in triplicate where the shipment is made under a validated license requiring the submission of four copies of the Declaration; or in duplicate where the shipment does not require the submission of four copies of the Declaration. The Correction Form, Form FT–7403, shall be executed by the exporter or his duly authorized agent and submitted to the Collector with whom the authenticated Declaration was filed.

(e) *Return of unused copies of authenticated Declaration.* All copies of authenticated Declarations not used by an exporter for the purposes for which they are authenticated shall be returned to the Collector making the authentication.

(f) *Limitation of effective period of Declaration.* No Declaration shall be authenticated, and no authenticated Declaration shall be used, for the purpose of clearing for exportation, or otherwise facilitating or effecting, the exportation of a commodity or commodities requiring a validated or general export license after the expiration of the validity period of the applicable validated license or after the termination of the effective period of the applicable general license, except as provided in § 372.11 (d) of this subchapter and § 379.2 (f).

NOTE. The validity period of an export license includes any extension provided by any saving clause or regulation.

EXPLANATORY STATEMENT

1. *Responsibility of licensee and agent.* Under the Export Regulations, the exporter to whom a license is issued or who undertakes to export under a general license is legally responsible for the proper use of that license and for the due performance of all its terms and provisions. This responsibility continues even when he acts through a freight forwarder or other forwarding agent. Experience in the administration of export controls indicates, however, that it is often difficult to establish that relationship as a matter of record and fix responsibility when violations occur. The provisions of this part and the Bureau of Foreign Commerce form, "Power of Attorney—Designation of Forwarding Agent", are designed to remedy that situation.

2. *Power-of-attorney forms; purpose and use; alternatives.* The form which is prepared for this purpose is not mandatory but only suggested. Power-of-attorney terminology is used to accord with common business practice in establishing agency relationships, and by way of interpretation considerable flexibility is permitted. Nevertheless, there are situations where firms have found compliance with some of the required formalities in the execution of a general power of attorney, such as corporate seal, special resolutions of the board of directors, etc., to be unduly onerous.

Accordingly, the Export Regulations, as set forth above, permit, alternatively to the power-of-attorney form, the use of any written form of designation, provided it is subscribed and sworn to before a notary public or other person authorized to administer oaths, by a duly authorized officer or employee of the licensed exporter. Such designation must, of course, clearly indicate that the firm or person named is authorized to represent the licensed exporter for export control and customs purposes. The extent of the authority in this designation, as in the power-of-attorney, may be restricted, however, with respect to time, country, commodity, specific license, or other matter. It is also intended to permit the use of such documents to designate one or more employees, or other persons, such as an export manager or agent, to, in turn, appoint as many freight forwarders or other forwarding agents as may be required.

3. *Carriers.* In addition, specific reference to carriers has been made in those parts of the Export Regulations dealing with the submission of the Declaration in order to make clear the carriers, not otherwise acting as forwarding agents, may deliver executed Declarations without specific authorization therefor. The privilege of making certain specified insertions or corrections in the Declaration prior to authentication is also extended to such carriers.

4. *Summary of Interpretations*—(a) *Applicability of Part 379:*

1. Q. Do the provisions of the Export Regulations with respect to presentation of additional copies of Declarations, and with respect to the procedure for authentication of Declarations, filing of powers-of-attorney or other forms of designations of forwarding agent, and use of authenticated Declarations, apply to Canada?

A. No, unless the particular exportation from the United States is destined for a third country, for which a validated license is required, and the shipment is via Canada.

2. Q. Do the foregoing provisions of the Export Regulations apply to general license shipments?

A. Yes. General license shipments have always been subject to Customs scrutiny and are covered by the Export Regulations, along with shipments under validated license, in order to curb possible abuse of the general license privileges.

3. Q. Are the Export Regulations contained in this part applicable to exportations regulated by United States governmental agencies other than the Bureau of Foreign Commerce, such as the Atomic Energy Commission and the Department of State?

A. No.

4. Q. What is the effect of making the Declaration an "export control document?"

A. A Declaration has always been an official document of the United States Government so that, for example, the penalties relating to making false statements on Government documents were always applicable to the use of that document. The only effect of the additional Export Regulations in this respect has been to bring Declarations under the export control laws as well as under the laws of the United States relating to Government documents generally, and Declarations in particular.

(b) *Powers-of-attorney or other forms of designation of forwarding agent:*

5. Q. Is the use of a power-of-attorney form mandatory?

A. As now provided in § 379.4 (f) (2), it is only an optional form.

6. Q. May the exporter designate more than one forwarding agent?

A. Yes. It is not intended that the power-of-attorney or other authorization designating a forwarding agent should constitute such agent the sole and exclusive forwarding agent of the exporter for all exportations. Exporters may execute powers-of-attorney or other authorization for any and all of the forwarding agents whom they employ.

7. Q. Where a forwarding agent is suggested by the foreign buyer in a transaction (rather than by the seller in the United States), must the seller designate such forwarding agent as his agent for export control and customs purposes?

A. Exporters have in some such cases expressed reluctance in designating such forwarders as their agents, because they do not regularly deal with them, or because they may not wish thereby to disturb contractual relations with their own forwarders. It is assumed that the underlying problem here is the exporter's unwillingness to give any general authorization to such agent. It is therefore suggested that the form of designation on the Declaration be used which would limit the authority granted to the particular transaction involved. It should also be noted that in some such cases the solution to the problem may lie in having the agent for the foreign buyer apply for the license. (See § 372.4 (a) of this subchapter.)

8. Q. Must an exporter use the Bureau of Foreign Commerce form of power-of-attorney designating a forwarding agent, or may he give such authority by other and more limited powers-of-attorney?

A. The language of the Bureau of Foreign Commerce form of power-of-attorney is not mandatory. It is specifically provided that it may be made more restrictive by the exporter; likewise, an exporter may restrict the power-of-attorney set forth in the Declaration. Of course, no limitation may be made which would relieve the exporter from responsibility for carrying out the exportation authorized by the license which he holds.

9. Q. May the exporter vary the language of the acknowledgment set forth in the Bureau of Foreign Commerce forms of power-of-attorney?

A. Yes. The forms were drafted to permit use by exporters who are individuals, partnerships, corporations, associations, or quasi-governmental bodies. The acknowledgement forms may be modified to fit the legal status of the exporter.

10. Q. May exporters authorize forwarding agents to sign and swear to Declarations and to present them to Collectors for authentication by executing the designation appearing on the face of the Declarations?

A. Yes. The exporter may execute the designation appearing on the Declaration, which is applicable only to the transaction referred to in the Declaration. The power-of-attorney or other written authorization may be used where the same forwarding agent handles numerous shipments and it is impracticable to execute a specific designation on the Declaration for each transaction.

(c) *Who should execute:*

11. Q. Who is deemed to be "duly authorized officer or employee" for the purpose of signing and swearing to Declarations?

A. There is and can be no fixed rule in this respect. In general, such corporate officers as the president, vice president, treasurer, and secretary of a corporation, any partner of a partnership, and any responsible head of any other form of private or quasi-governmental organization will be deemed to have the requisite authority. Assistant officers will in general, be accorded a like assumption. Such employees as export managers who, by their official titles, are apparently vested with power to deal with exportations will also be deemed to have authority to execute the designation appearing on the face of a Declaration and to sign and swear to such Declarations.

(d) *Proof of authority:*

12. Q. Under what circumstances must Customs be furnished with supporting evidence of authority of persons executing powers-of-attorney or other authorizations?

A. Customs may in any case require proof of the authority of any such person signing a power-of-attorney or other authorization. In general, however, Customs will require such proof only when there is some reason to doubt the authority of the person involved.

(e) *Miscellaneous:*

13. Q. Must a forwarding agent have an office at the port of exportation or otherwise be known to the Collector at such port?

A. No. A forwarding agent need not have an office at every port of exportation. If a forwarding agent signs and swears to a Declaration which is intended for clearance of an exportation through a port where he has no office, he should furnish to the Collector at such port his power-of-attorney or other authorization from the exporter. He should also furnish to the person who will arrange physically to present the Declaration to the Collector, an authorization in writing for that purpose.

14. Q. May a forwarding agent who does not have an office at the port of exportation redelegate to another forwarding agent his authority to sign and swear to Declarations and to present Declarations for authentication at such port?

A. Yes; provided that the power-of-attorney or other authorization from the exporter permits such redelegation or there is presented to the Collector written evidence of consent of the exporter to such redelegation.

15. Q. If a forwarding agent has a power-of-attorney or other authorization filed with a Collector in one port, must he file additional original documents with Collectors in other ports through which he may effect exportations?

A. No. It is only necessary to file the original documents in one port. Photostatic copies thereof, certified by the Collector of such port, may be transmitted by the forwarding agent to other ports where needed unless the authorization is otherwise specifically limited by the exporter.

16. Q. How should forwarding agents and exporters handle such matters as changes of weights, measurements, quantities, etc., which must frequently be made on Declarations after authentication?

A. In general, the Export Regulations permit certain types of amendments and insertions to be made in Declarations before and after authentication, as set forth in §§ 379.4 and 379.5. A forwarding agent, however, designated on the Declaration or by separate document, may make such changes, unless specifically precluded from doing so by the exporter in his designation. Collectors are empowered to permit such amendments upon written authorization therefor by the Collectors set forth on such authenticated Declaration. Collectors will exercise discretion to allow amendments of this character. Where the amendments have the effect of converting a Declaration into one for a substantially different shipment, however, a new Declaration will have to be prepared. Unless otherwise limited by the exporter, the power-of-attorney or other authorization given to a forwarding agent is deemed also to authorize him to prepare substitute Declarations reflecting such changes.

§ 379.6 *Use of license symbols or numbers on Declaration or parcel*—(a) *Certification by the Exporter.* The use by any exporter of a general license symbol, a validated license number, or other designation, on a Declaration or parcel when such marking is required by the provisions of the Export Regulations, for the purpose of clearing an exportation under any general license or validated license, shall constitute a certification by the exporter that the terms, provisions, and conditions of the license have been met.

(b) *Use of validated license number.* The Collector will not authenticate a Declaration for a licensed exportation where an incomplete export license number is shown thereon; exporters must therefore use the complete validated license number when entering the required information in column (10) of the Declaration (Form 7525–V).

NOTE: 1. *License number.* When the number of an export license, Form IT– or FC–628, is correctly entered on the Declaration in column (10), the one entry of the complete number satisfies the requirements for inserting the "export license number" and the "issuance date" of the license. As explained in § 372.11 of this subchapter, the digits immediately following the initial letter, although an inseparable part of the license number, conjointly indicate the issuance (or validation) date of the license, while the last five digits signify the validating sequence. (Examples of complete numbers for Form IT– or FC–628, Export License: A5–2–1–02341; B5–181–33031; C5–212–64451.)

2. *Project licenses.* The license number of a Project License (see Part 374 of this subchapter) issued on Form IT– or FC–419 is the number appearing in the upper right corner of the document. The date of issuance appears in the lower right corner, in the space marked "For Official Use Only".

3. *Expiration date.* A separate entry is necessary to show the expiration date of the license on the Declaration form.

§ 379.7 *General authority of Collectors of Customs and Postmasters in clearing shipments*—(a) *Definitions.* "Collectors" means Collectors of Customs and other customs officials. "Postmasters" means Postmasters and other post office officials.

(b) *Scope of authority of Collectors and Postmasters.* Collectors and Postmasters are authorized and directed to take appropriate action to assure observance of the provisions of the Export Regulations, and of general and validated licenses issued thereunder, including but not limited to inspection of commodities and technical data being or about to be exported.

(c) *Waiver of presentation of license.* A Collector of Customs or Postmaster, upon specific authorization by the Bureau of Foreign Commerce, may waive the presentation of a license.

§ 379.8 *Types of actions which may be taken by Collectors.* The following types of actions, among others, are authorized to be taken by Collectors:

(a) *Examination of commodities*—(1) *Purpose of examination.* All commodities and technical data declared for export are subject to examination by customs officials for the purpose of verifying the commodity or technical data specified in the Declaration, and the value and quantity thereof, as well as to assure observance of the other provisions of the Export Regulations. The examination may be made in connection with commodities or technical data exported under a general license as well as a validated export license. It also may be made in connection with exportations to Canada. This examination is not limited to, but may take the form of, commodity identification, technical appraisal (analysis), or both.

(2) *Place of examination.* Examination of exportations shall be made at the place of lading or where the customs officials are stationed for that purpose.

(3) *Technical identification.* In those cases where, in the judgment of the Collector, the commodity or technical data cannot be properly identified, a sample may be taken for more detailed examination by customs appraisers or for chemical or other laboratory analysis. The shipment will not be delayed after sampling for completion of the analysis.

(4) *Sampling for technical identification*—(i) *Obtaining samples.* When sampling is required, the sample will be obtained by the customs official in accordance with the provisions for sampling imported merchandise. The size of the sample taken shall be the minimum representative amount necessary for identification or analysis and will depend on such factors as the physical condition of the material (whether solid, liquid, or gas), and the size and shape of the container.

(ii) *Notification of sampling to exporter and consignee.* The exporter (or his agent) and ultimate consignee shall be notified in each case where a sample is extracted for purposes of identification or analysis. Notification will be on Form IT– or FC–915, Notice of Retained Samples. This form shall be prepared by the customs official, showing the name of the port of exit, the date of sampling, Declaration number, license number (if any), mark and case numbers, amount of sample taken, manufacturer's number, and a description of the commodity. The form shall be prepared in triplicate. The original shall be placed in the opened package, box, crate, or other container; the duplicate shall be sent to the exporter or his agent; and the triplicate shall be retained by the Collector.

(iii) *Disposal of samples.* Samples withdrawn for analysis will be disposed of in accordance with the procedure followed by Collectors for disposing of samples of imported commodities.

(b) *Inspection of documents.* The Collector is authorized to require the owners and operators of exporting carriers or their agents, as well as the exporters or their agents, to produce for inspection or copying, invoices, orders, letters of credit, inspection requests, packing lists, shipping documents and instructions, correspondence, as well as any other relevant documents, and furnish other information bearing upon a particular exportation or commodity or technical data intended for export or removal from the United States and the identity and relationships of all participants therein.

(c) *Prohibiting lading.* The Collector is authorized to prevent the lading of commodities or technical data about to be laden on an exporting carrier whenever he has reasonable cause to believe such commodities or technical data are being exported or removed from the United States contrary to the provisions of the Export Regulations.

(d) *Inspection of exporting carrier.* The Collector is authorized to inspect and search any exporting carrier which is about to clear for a foreign destination at any time to determine whether commodities or technical data are intended to be, or are being, exported or removed from the United States contrary to the provisions of the Export Regulations.

(e) *Seizure.* The Collector is authorized, under Title 22 of the U. S. Code, section 401, et seq., to seize and detain any commodities or technical data whenever an attempt is made to export said commodities or technical data in violation of the Export Regulations or whenever he knows or has probable cause to believe that commodities or technical data are intended to be, or are being, or have been exported in violation of the Export Regulations. Seized commodities or technical data are subject to forfeiture.

(f) *Preventing departure of carrier.* The Collector is authorized, under Title 22 of the U. S. Code, section 401, et seq., to seize and detain, either before or after clearance, any vessel or vehicle or air carrier about to depart from a port or place in the United States for a foreign port or place either directly or via another port in the United States which has been or is being used in exporting or attempting to export any commodity or technical data intended to be, or being, or having been previously exported in violation of the provisions of the Export Regulations.

(g) *Ordering the unlading.* The Collector is authorized to unlade or cause to be unladen from any exporting carrier that is about to depart for a foreign destination commodities or technical data that have been laden thereon, whenever the Collector has reasonable cause to believe such commodities or technical data are intended to be, or are being, exported or removed from the United States contrary to the provisions of the Export Regulations.

(h) *Questioning of individuals.* The Collector is authorized to question the owners and operators of exporting carriers and their agents, as well as the exporters and their agents, concerning particular shipments of commodities or technical data exported or intended to be exported.

(i) *Ordering the return of commodities.* The Collector is authorized to order the owners and operators of exporting carriers and their agents to return commodities or technical data exported on such exporting carriers and make them available for inspection by the Collector when no adequate opportunity is afforded the Collectors to examine the commodities prior to lading and when departure of the carrier takes place prior to authentication of the Declaration.

§ 379.9 *Port of exit: Shipments leaving United States before final exportation from United States port*—(a) *Shipments leaving United States before final exportation from United States port.* Commodities which leave the United States at one port, cross adjacent foreign territory, and reenter the United States at another port before final exportation to a foreign country will be treated as an export at the last port of exit from the United States.

(b) *Licenses valid for shipment from any port.* A license may be used for exportation from any port of exit from the United States subject to the jurisdiction of the United States unless the Bureau of Foreign Commerce shall otherwise provide.

(c) *Simultaneous shipments from different ports.* Simultaneous shipments from different ports of exit may be cleared for export under a single license by the Collector having possession of the license, through arrangements with the Collector at the other port or ports of exit, as provided by the Bureau of Foreign Commerce.

§ 379.10 *Destination control* — (a) *Scope and definitions.* (1) The provisions of this section apply to all shipments of cargo made under validated licenses and all shipments of Positive List commodities made under either validated or general licenses.

(2) The provisions of this section shall not apply with respect to shipments of cargo effected under General License GO to ports of ultimate destination in Country Group O, except where such shipments are to be forwarded, transshipped, or reexported through or via an R country (see § 371.3 of this subchapter).

(3) As used in this section, "Bill of Lading" means the contract of carriage and receipt for commodities issued by the carrier.

(b) *Country of ultimate destination.* (1) No carrier by water, land, or air, nor any other person on behalf of any carrier, shall issue a bill of lading which provides for delivery of cargo subject to the provisions of this section at any foreign port except a port located in the country of (i) the ultimate consignee, or (ii) the intermediate consignee, named in the authenticated Declaration.

(2) No carrier shall deliver such cargo at any other country at the request or option of either the shipper, consignor, exporter, purchaser, or ultimate consignee, or their agents, or any other person having custody or control of the shipment, without prior written authorization from the Bureau of Foreign Commerce to the carrier or its agent.

(3) No shipper, consignor, exporter, purchaser or ultimate consignee, or their agents, or any other person, shall, without prior written authorization from the Bureau of Foreign Commerce to the carrier or its agent: (i) divert any cargo to any country of ultimate destination other than that named in the authenticated Declaration or in the Bill of Lading described in paragraph (c) of this section; (ii) request or demand that any carrier or its agent divert such cargo from the country of ultimate destination named in any of such documents. In addition, no agent of any carrier shall instruct or authorize the master of the vessel to divert any such cargo to any other country of ultimate destination without such prior written authorization from the Bureau of Foreign Commerce.

(4) No carrier of such cargo shall issue a Bill of Lading providing for delivery to the ultimate consignee named in the authenticated Declaration at optional ports where one of such optional ports is in a country not named as the ultimate country of destination in the license or Declaration, unless written authorization has been granted by the Bureau of Foreign Commerce. However, where the authenticated Declaration provides for delivery of cargo consisting of commodities subject to this section to optional intermediate consignees located in ports in different countries, the carrier may issue a Bill of Lading providing for delivery at such optional ports.

(c) *Statement regarding ultimate destination on Declaration, Bill of Lading, and Commercial Invoice.* (1) (i) No shipment of cargo subject to the provisions of this section may be made unless the licensee or his forwarding agent shall place the following statement (filling in the blank space with the name of the country of ultimate destination set forth in the Declaration) on all copies of the Declaration presented to the Collector at the port of exit for authentication:

These commodities licensed by U. S. for ultimate destination (name of country). Diversion contrary to U. S. law prohibited.[1]

(ii) If the validated export license authorizes distribution or resale of the named commodities in a country or countries other than the named country of ultimate destination, the following statement (in lieu of the preceding statement) shall be set forth on all copies of the Declaration:

These commodities licensed by U. S. for ultimate destination (name of country) and for distribution or resale in (name of other approved countries as shown on validated license). Diversion contrary to U. S. law prohibited.[1]

(2) No carrier by water, land, or air shall issue, and no licensee, shipper, consignor, exporter or consignee, or their agents, or any other person, shall prepare or procure a Bill of Lading covering an exportation of a commodity with respect to which a Declaration has been authenticated by a Collector containing the applicable statement set forth in subparagraph (1) of this paragraph, unless all copies of such Bill of Lading, including all non-negotiable and office copies, shall contain the same statement.

[1] For shipments to Cambodia, Laos or Viet-Nam, the country area designations shown in § 373.68 of this subchapter shall be used.

(3) No licensee, shipper, or consignor, exporter, or agent thereof, or any other person, shall prepare or issue any commercial invoice with respect to any shipment of commodities subject to the provisions of this section, unless such invoice or invoices, and all copies thereof, shall contain on the face thereof the applicable statement set forth in subparagraph (1) of this paragraph.

(4) No carrier shall release custody of a shipment of commodities covered by the provisions of this section to any party (including agents, on-carriers, foreign customs officials, or any other person) without surrender by that party to the carrier, of a copy of the Bill of Lading bearing on its face the applicable destination control statement set forth in subparagraph (1) of this paragraph; unless simultaneously with release of the commodities the carrier delivers to such party a written copy of the destination control statement covering the shipment as contained on the copy of the Bill of Lading in the carrier's possession. The written statement shall identify the shipment by Bill of Lading number, name of carrier, voyage number, date and port of arrival. The carrier shall secure and retain either a signed receipted copy of such written statement or other equivalent written evidence of such statement.

(d) *Notice and prohibition against diversion.* (1) Whenever a commercial invoice shall be issued containing the destination control statement prescribed in paragraph (c) (1) of this section, the shipper or other person issuing such invoice shall promptly send copies thereof to (i) the ultimate consignee and the purchaser named in the authenticated Declaration; (ii) the intermediate consignee; and (iii) any other persons named in the invoice who are located in a foreign country. Nothing herein contained shall be construed to limit the persons or classes of persons to whom such invoices and Bills of Lading are usually and customarily sent in the course of export trade. The shipper or other person issuing the commercial invoice may either omit all reference to price or sales commission from the copy of the invoice sent to any of the above-named persons, provided such invoice otherwise adequately identifies the shipment; or, in lieu of a copy of the commercial invoice, may send a copy of the Bill of Lading containing the destination control statement prescribed in paragraph (c) (1) of this section.

(2) No person, including the ultimate consignee or intermediate consignee and any on-forwarding carrier, shall, after notification of the prohibition against diversion prescribed in paragraph (c) (1) of this section whether by such invoice or Bill of Lading or by any other means, divert or cause to be diverted any of the commodities described in such Bill of Lading to any country of ultimate destination other than that named in such notification.

(e) *Proof of notice.* In any administrative compliance proceeding brought by the Bureau of Foreign Commerce, evidence of the sending of such invoice or Bill of Lading, or other form of notification of the prohibition against diversion to any person, shall constitute prima facie proof of his receipt thereof and of notification that the commodities have been licensed for a particular country of ultimate destination and may not be lawfully diverted to any other country. In addition, proof of the sending of such notice to the intermediate consignee shall be deemed notification of such prohibition to the ultimate consignee and purchaser.

(f) *Unloading of cargo at a port in other than intermediate or ultimate country of destination.* Nothing contained in the Export Regulations shall be deemed to prohibit a carrier from unloading cargo at a port in other than the intermediate or ultimate country of destination shown on the authenticated Declaration where, by reason of an act of God, perils of the sea, damage to the carrier, strikes, war, political disturbances, insurrection, or other causes beyond the control of the carrier set forth as standard provisions of the carrier's Bill of Lading, it is not feasible to deliver the cargo at the licensed port of destination. Whenever, because of the existence of any of the said causes, cargo is unloaded at a port in any other country:

(1) The carrier shall promptly, and within 10 days from the date of unloading such cargo, report the facts with respect thereto to the nearest American consul and to the agent of the carrier located in the United States. Within 10 days after the receipt of such notice by the agent of the carrier in the United States, such agent shall transmit a copy of the report to the Bureau of Foreign Commerce. This report shall consist of a copy of the manifest of such diverted cargo, together with a statement of the place of unloading and the name and address of the person in whose custody the commodities were delivered.

(2) The exporter of such commodities shall, upon notice from the Bureau of Foreign Commerce of such diversion, promptly, and within 10 days, notify the Bureau of Foreign Commerce of the proposed disposition of the commodities.

(3) No person, including the exporter, the licensee, any consignee, or the carrier and any agent or person acting on its behalf, shall take any steps to effect delivery or entry of the commodities into the commerce of the country where unloaded without prior approval of the Bureau of Foreign Commerce. The carrier shall take steps to assure that such commodities are placed in custody under bond or other guaranty not to enter the commerce of such country or any country other than the countries of the ultimate and intermediate consignees shown on the authenticated Declaration without such prior approval.

(g) *Indication of Shipper's Export Declaration number on ship's manifest.* The carrier or its agent shall, on all copies of that manifest which is filed with the United States Collector of Customs, indicate, thereon, with respect to each shipment, the applicable Shipper's Export Declaration number assigned to each such shipment by the Collector.

INTERPRETATIONS

1. Q. Who other than the shipper is authorized to insert the ultimate destination control statement on the Shipper's Export Declaration, the Bill of Lading and the commercial invoice, as provided by § 379.10 (c) (1)?

A. The forwarding agent is deemed to have authority to insert the ultimate destination control statement required by § 379.10 (c) (1) on the Bill of Lading, Declaration, and commercial invoices, unless the forwarding agent's authorization prohibits him from so doing. If the carrier prepares the Bill of Lading, the carrier must insert the statement on that document based upon information communicated to the carrier by the exporter or his authorized forwarding agent, i. e., an authenticated Declaration or a validated license, or a properly executed Declaration given to the carrier for submission to Collectors for authentication containing the statement.

2. Q. If shippers or their agents located in inland cities forward to carriers at ports of exit Declarations, Bills of Lading, and commercial invoices without having inserted the ultimate destination control statement, is it necessary for the carrier to return the documents to the shipper or his agent?

A. If a Declaration presented to the carrier does not contain the ultimate destination control statement, the carrier cannot add such statement to the Declaration unless specifically authorized by the exporter, nor can the carrier issue a Bill of Lading containing the statement until the exporter or his authorized forwarding agent has placed the statement on the Declaration and the Declaration has been authenticated by the Collector. The carrier may not insert the statement on any Declaration or commercial invoice accompanying the shipment, unless authorized by designation as provided in the case of forwarding agents.

3. Q. Is the Collector responsible for checking as to the ultimate destination control statement on the Bill of Lading and on invoices, as well as on the Declaration?

A. Collectors have the responsibility for checking as to the ultimate destination control statement on all Declarations submitted for authentication, and should ascertain that the inscription has been placed on any Bills of Lading or invoices which they receive in the regular course of business or which otherwise come to their attention. In other cases, Collectors may, whenever they deem it appropriate to assure compliance with the Export Regulations, check the Bill of Lading or commercial invoices as to the ultimate destination control statement or other matters.

4. Q. Do the destination control provisions apply to Positive List commodities exported under such General Licenses as GLV, Baggage and Tools of Trade?

A. The provisions of § 379.10 apply to GLV shipments and in general to all other shipments of Positive List commodities under any general license for which a Declaration is required. General Licenses Baggage and Tools of Trade do not require Declarations, except when moving under a Bill of Lading. Shipments under General License GO require an ultimate destination control statement only in cases where the shipment is to be forwarded, transferred, or reexported through or via a Group R country.

5. Q. Does this regulation apply to in-transit shipments?

A. The ultimate destination control statement is not required for shipments made under General License GIT, but is required for in-transit shipments of commodities excepted from GIT (§ 371.9 (c) of this subchapter), and for commodities moving in

transit to Hong Kong, Macao and Subgroup A destinations.

6. Q. Does § 379.10 (g) apply only to a ship's manifest?

A. Section 379.10 (g) applies only to customs outward foreign manifest.

(h) *Conformity of export control documents.* (1) As used in this paragraph, "licensed exporter" means the person named as "exporter," and "licensed ultimate consignee" means the person named as ultimate consignee, in an authenticated Shipper's Export Declaration covering a validated license shipment or a general license shipment of Positive List commodities.

(2) The following rule of conformity of export control documents shall apply to all shipments which are subject to the provisions of this section:

(i) In the case of shipments under a validated license or a general license, the validated export license (if any), the authenticated Declaration, and outbound Bill of Lading covering the same export shipment must be consistent with one another.

(ii) The Bill of Lading is not consistent if it contains words or a statement indicating that the shipment is in transit to a different country of ultimate destination from the country of ultimate destination named in the authenticated Declaration, such as consigning the shipment to the ultimate destination with a qualifying phrase indicating the shipment is "in transit" at that destination, or consigning the shipment to a free zone or free port when it is known or there is reasonable cause to believe that the shipment is not for consumption in the country in which the ultimate consignee is located.

(iii) The Bill of Lading is not consistent if it names as shipper any person other than the licensed exporter or his duly authorized forwarding agent. Where shipments from more than one exporter are consolidated on a single Bill of Lading, the shipper named on the Bill of Lading must also appear as the authorized forwarding agent for each licensed exporter on each Declaration.

(iv) In the case of negotiable Bills of Lading (i. e., "order" Bills of Lading) the Bill of Lading is deemed consistent only if:

(*a*) The name and address of the licensed ultimate consignee are shown in the body of the Bill of Lading under the caption "licensed ultimate consignee and notify party" or in the case of the air waybill under the caption "also notify." Where shipments to more than one licensed ultimate consignee are consolidated on one Bill of Lading and the names of all licensed ultimate consignees are not shown in the body of the Bill of Lading, the name of the intermediate consignee (customs broker or consolidator's agent in the foreign country) who will receive and distribute the goods to the licensed ultimate consignees must appear on the Bill of Lading, the export license, and the Declaration. Where the name of the intermediate consignee in such a consolidated shipment differs from that shown on the validated license, or does not appear on the license, an amendment of the license is necessary even though the intermediate consignee is in the same country as the ultimate consignees;

(*b*) The consignee or order party named in the Bill of Lading is named in the authenticated Declaration; and

(*c*) The Bill of Lading provides for delivery of the shipment (cargo) at a port located in the country of either the ultimate consignee or intermediate consignee named in the authenticated Declaration.

NOTE: As indicated in subparagraph (2) (iv) of this paragraph, the Bill of Lading may consign the commodities covered thereby to the order of the shipper, to the order of an intermediate consignee (whether bank, foreign freight forwarder or other intermediary), or to the order of purchaser (if not the same as the licensed ultimate consignee).

An "order" Bill of Lading issued in the above form constitutes a representation on the part of such shipper that the commodities covered by the validated or general license, authenticated Declaration, and Bill of Lading are ultimately destined to such ultimate consignee, that the document has not been used for the purpose of evading the terms and conditions of the validated or general license, and that pursuant to the contract of carriage, the commodities will be delivered at a port located in the country of the ultimate consignee or of the intermediate consignee named in the authenticated Declaration.

(v) On Bills of Lading the commodities may be described in terms of the freight tariff classification or other type of classification, but may not be inconsistent with the description shown in the authenticated Declaration and validated export license (if any).

(vi) No carrier shall issue, and no licensee, shipper, consignor, exporter or consignee, or their agents, or any other person, shall prepare or procure, a Bill of Lading which is contrary to the provisions of this paragraph, and Collectors are authorized to require any document or to use any other appropriate methods to insure compliance with these provisions.

(vii) If the carrier's outward foreign manifest which is filed with the U. S. Collector contains names of shippers or consignees, these names must not be inconsistent with the names shown on the Bill of Lading (or authenticated Declarations).

§ 379.11 *Return or unloading of cargo at direction of Department of Commerce*—(a) *Exporting carriers.* (1) As used in this section, the term "exporting carrier" includes connecting or onforwarding carriers, as well as the owner, charterer, agent, master, and any other person in charge of the vessel, aircraft, or other kind of carrier, whether such persons are located in the United States or in a foreign country.

(2) The Bureau of Foreign Commerce or any United States Collector of Customs, where there are reasonable grounds for believing that a violation of the Export Regulations has occurred or will occur with respect to a particular exportation from the United States, may order any exporting carrier carrying such shipment, or which is otherwise in possession or control thereof, to return or unload the shipment. Such exporting carrier shall as ordered either (i) return such shipment to the United States or cause it to be so returned, or (ii) unload such shipment at a port of call and take steps to assure that such shipment is placed in custody under bond or other guaranty not to enter the commerce of any foreign country without prior approval of the Bureau of Foreign Commerce. For the purpose of this section, the furnishing of a copy of the order to any person included within the definition of exporting carrier shall be sufficient notice of the order to the exporting carrier.

(3) The provisions of § 379.10 (f), relating to reporting, notification to the Bureau of Foreign Commerce, and the prohibition against unauthorized delivery or entry of the commodity into a foreign country, shall apply also to commodities directed to be unloaded at a port of call, as provided in this section.

(b) *Notification.* Upon discovery by an owner, agent, or other person included within the term "exporting carrier," as defined in paragraph (a) of this section, that a violation of the Export Regulations has occurred or will occur with respect to a shipment on board, or otherwise in the possession or control of the carrier, such person shall immediately notify the Bureau of Foreign Commerce, Department of Commerce, Washington 25, D. C., and the person in actual possession or control of the shipment.

NOTE: 1. *Customs regulations.* This section in no wise relieves exporting carriers of their responsibilities under regulations of the Bureau of Customs (particularly under U. S. Code, title 46, sections 91 and 92).

2. *Commodities returned to United States.* Commodities returned to the United States pursuant to this section are required by customs regulations to be removed from the dock or pier where deposited within 48 hours, or the commodities will be placed in storage with charges leviable against the commodities.

§ 379.12 *Other applicable laws and regulations.* Nothing contained in this part shall relieve any person from complying with the applicable provisions of any other law of the United States or rules and regulations issued thereunder, including those governing Declarations and manifests.

---

## PART 380—AMENDMENTS, EXTENSIONS, TRANSFERS

Sec.

380.1 Transfer of licenses.
380.2 Amendments or alterations of licenses.
380.3 Price amendments on pending license applications.
380.4 Extension of licenses.
380.5 Amendments to licenses issued for the exportation of refined copper, copper scrap, copper-base alloy scrap and copper-base alloy ingots and other crude forms.

AUTHORITY: §§ 380.1 to 384.5 issued under sec. 3, 63 Stat. 7, as amended; 50 U. S. C. App. 2023, E. O. 9630, 10 F. R. 12245, 3 CFR, 1945 Supp., E. O. 9919, 13 F. R. 59, 3 CFR, 1948 Supp.

§ 380.1 *Transfer of licenses*—(a) *Authorization.* Export licenses shall not be transferred except by prior written authorization of the Bureau of Foreign Commerce. Transfer of export licenses may be effected only by amendment of the original license, except as otherwise provided in this section, and only upon request of the original licensee.

(b) *When transfer may be granted.* (1) A transfer of a validated license may be granted in any case to a transferee subject to the jurisdiction of the United States who is a principal party in interest and who will assume all powers and responsibilities under the license for the control of the shipment of the goods out of the United States.

(2) Only one transfer of the same license will be approved under this section.

(c) *Information from transferor and form of request*—(1) *Transfer of less than 15 licenses.* (i) In requesting transfer of less than 15 outstanding licenses (except project licenses) (for amendments of project licenses, see § 374.3 of this chapter), the licensee must submit:

(*a*) A completed Form IT– or FC–763, "Request for and Notice of Amendment Action," in triplicate, for each license(s).

(*b*) The original license(s) if held by the licensee.

(*c*) A signed letter from the person or firm to whom the license(s) is to be transferred as required by paragraph (d) of this section.

(*d*) The following certification:

**The undersigned hereby certifies that, if license number(s) -------- is (are) transferred in accordance with my (our) request, any and all documents evidencing the order covered by this (these) license(s) will be retained by me (us) for three years from the date of this certification and will be made available upon demand. The undersigned will promptly report to the Bureau of Foreign Commerce any material or substantive changes in the terms of the order and any other facts of the export transaction known or reported to the undersigned at any future time by any party to the export transaction.**

---
(Signature of transferor)

By ---
---
(Title)

---
(Date)

(ii) When setting forth reasons for the requested transfer in the item entitled "Facts Necessitating Amendment" of Form IT– or FC–763, the licensee shall also state whether or not any consideration has been or will be paid for the transfer. The name and address of the proposed transferee shall be shown in the item entitled "Amend License to Read as Follows" of Form IT– or FC–763.

(iii) If the original license(s) is being held by a Collector of Customs at the time the licensee submits the request for transfer, he must show in the item entitled "License Has Been Deposited With" of Form IT– or FC–763, the address of the Collector of Customs with whom the original license(s) has been deposited. Also, in such cases, the licensee must submit an additional triplicate (yellow) copy of Form IT– or FC–763, "Notice to Applicant," showing in the item entitled "Return Copy of Amendment Notice To," of one copy the name and address of the original licensee and on the additional copy the name and address of the person to whom the license is to be transferred. This additional triplicate (yellow) copy of Form IT– or FC–763 will be used for notifying the transferee of the action taken.

(2) *Transfer of 15 or more licenses.* Where the licensee requests a transfer of 15 or more outstanding licenses, the request must be made in the form of a letter to the Bureau of Foreign Commerce setting forth the following:

(i) Either a list of the Bureau of Foreign Commerce case numbers and outstanding license numbers or a statement that all outstanding licenses in the name of the licensee are to be transferred and indicating the total number of such outstanding licenses.

(ii) A listing showing the Bureau of Foreign Commerce case numbers of applications for export licenses pending in the Bureau of Foreign Commerce which are to be transferred.

(iii) The name and address of the proposed transferee.

(iv) Facts necessitating transfer.

(v) A statement of whether or not any consideration has been or will be paid for the transfer.

(vi) The certification set forth in subparagraph (1) (i) (*d*) of this paragraph.

(3) *Additional proof.* In addition to the information required under subparagraphs (1) and (2) of this paragraph, the original licensee must identify by name the legal document (certificate, agreement, etc.) or other authority by which the new firm name is legally established, the new corporation or firm created, or the assets transferred, showing the effective date of such document, and the state where filed or recorded.

(d) *Information from transferee.* The request for transfer from the original licensee must be accompanied by a signed letter from the person to whom transfer is to be made as follows:

(1) In those cases where the transfer is requested because the license is desired for use by a subsidiary or parent corporation of the licensee, or where the entire or a substantial portion of the assets or business of the licensee has been sold or transferred to the new exporter, the transferee must certify that the legal document or authority under which the change of exporter is effected, authorizes and imposes the responsibility on the transferee of accepting and fulfilling the legal obligations of the transferor under the transactions covered by the license to be transferred.

(2) The transferee is a principal party in interest in the transaction covered by the license or is acting as agent for a principal party in interest.

(3) The transferee is subject to the jurisdiction of the United States.

(4) The transferee assumes all powers and responsibilities under the license for the control of the shipment of the goods out of the United States.

(5) Whether any consideration has been or will be paid for the transfer.

(6) If the transferee will make the exportation as agent on behalf of a foreign principal, the name and address of that foreign principal must be stated.

(e) *Notification*—(1) *Notification of amendment action.* On an approved request for the transfer of less than 15 licenses, the Bureau of Foreign Commerce will validate all copies of Form IT– or FC–763 by imprinting in the space headed "Validation" a facsimile of the Department of Commerce seal followed by a five-digit number representing the date of validation. The duplicate will be forwarded as the official notice of amendment to the Collector of Customs designated in the item entitled "License Has Been Deposited With"; the triplicate will be forwarded to the individual named in the item entitled "Return Copy of Amendment Notice To" of Form IT– or FC–763. If the request is rejected, the reason(s) therefore will be indicated in the upper right-hand corner, and the triplicate copy returned to the applicant.

(2) *Notification of blanket authority.* Upon approval of a request by the licensee to transfer 15 or more outstanding licenses, the Bureau of Foreign Commerce will issue a blanket authorization and notification to Collectors of Customs that shipments may be cleared for export against such licenses when presented by the transferee. The transferor and transferee will be notified by letter of the blanket authorization.

§ 380.2 *Amendments or alterations of licenses*—(a) *Persons authorized to amend licenses.* No amendments or alterations of outstanding export licenses may be made except by the Department of Commerce or by Collectors of Customs or Postmasters acting under specified instructions from the Department of Commerce.

(b) *General provisions.* The Bureau of Foreign Commerce will consider for approval a request for amendment of an outstanding export license submitted for the purpose of conforming such license to changes which have taken place in the original transaction covered by that license. However, an amendment will not be approved to effect a change of such significance as to constitute a new transaction. Such transactions must be covered by a new license application.

(c) *Changes requiring a new license application.* In general, changes of the following types will be deemed to be of such substance as to constitute an essentially new transaction and therefore require a new application for an export license:

(1) Country of ultimate destination.

(2) Ultimate consignee (except as indicated in paragraph (d) (2) of this section).

(3) Commodity to be exported.

(d) *Changes by amendment.* The changes which may be made by amendment to an outstanding export license include, but are not limited to, the following items:

(1) Purchaser (provided the change in purchaser does not also effect a change in ultimate consignee).

(2) Ultimate consignee, if the change is made (i) to identify correctly the same ultimate consignee named in the license, or (ii) to add one or more new consignees to an outstanding Periodic Requirements (PRL) license or a Blanket (BLT) license, or (iii) to designate a new consignee when the purchaser instructs that shipment be made direct to the ultimate user, provided that all documents required from the ultimate user, such

as consignee statement, are submitted to the Bureau of Foreign Commerce either with the original application or with the amendment request.

(3) Intermediate consignee, (i) if the new intermediate consignee is located in any country other than the country of ultimate destination shown on the export license, and (ii) if the new intermediate consignee is located in the country of ultimate destination and an amendment request is submitted in accordance with the provisions of § 379.5 (h) (2) (iv) (*a*).

(4) Increase in quantity or price (see paragraph (i) of this section.

(5) Extension of the validity period of the license (see § 380.4).

(6) Correction of a clerical error on the part of the Bureau of Foreign Commerce.

(7) Correction of a clerical error on the part of the applicant for an export license of a type not covered by paragraph (e) of this section.

(8) Change of licensee (in accordance with the provisions relative to the transfer of licenses set forth in § 380.1).

(9) Decrease in quantity of commodity included in § 373.71 of this subchapter.

(e) *Changes which require neither amendment nor new license.* The following changes do not require a new license or an approved amendment, or any other notification to the Bureau of Foreign Commerce:

(1) Change in applicant's reference number.

(2) Decrease in unit price or total value.

(3) Other changes in price (see paragraph (i) (3) of this section).

(4) Change in intermediate consignee if the new intermediate consignee is located in the country of ultimate destination as shown on the export license, except a change in or addition of an intermediate consignee involving a consolidated shipment (see § 379.10 (h) (2) (iv) (*a*).

(5) Change in address of purchaser or ultimate consignee; provided that the new address is located within the same country shown on the export license.

(6) Change in Schedule B number, unit of quantity, or wording of the commodity description where necessary only for the purpose of conforming to an official revision of Schedule B, Statistical Classification of Domestic and Foreign Commodities Exported from the United States made by the Bureau of the Census after the license is issued but before shipment is made. This provision does not permit any change to be made which effects an actual change in the commodity or the quantity licensed.

(f) *Where to file*—(1) *General.* All requests for amendments to licenses may be filed with the Bureau of Foreign Commerce, Department of Commerce, Washington 25, D. C. However, certain types of amendments described in subparagraph (2) of this paragraph may be requested from those field offices of the Department of Commerce listed below:

| | |
|---|---|
| Boston. | Houston. |
| Chicago. | Jacksonville. |
| Cleveland. | Los Angeles. |
| Detroit. | Miami. |
| El Paso. | New Orleans. |
| New York. | San Francisco. |
| Philadelphia. | Savannah. |
| Portland, Oreg. | Seattle. |

(2) *Amendment requests on which field offices may take action.* With the exceptions set forth in subparagraphs (3) and (4) of this paragraph, the Department of Commerce field offices listed in the subparagraph (1) of this paragraph are authorized to take action on requests for amendment of licenses of the following types only:

(i) Extension of validity period.

(ii) Correction of certain types of obvious errors due to mistakes in typing licenses, such as misspelled words, errors in price extension or computation, and errors in unit of quantity (provided the correction does not change the total quantity).

(iii) Change of quantity or dollar value required as a result of factors beyond the control of the licensee, such as unforeseen overruns of the mill. Field offices of the Department of Commerce are limited in their approvals of such amendment requests, however, to specified small percentage increases in the licensed quantity or dollar value.

(iv) Change of the licensee's address.

(v) Change in intermediate consignee or addition of intermediate consignee (see § 379.10 (h) (2) (iv) and § 380.2 (d) (3) of this subchapter).

(3) *Amendment requests on which field offices may not take action.* The Department of Commerce field offices are not authorized to take action on requests for amendments to licenses under the following conditions. All such requests shall be filed with the Bureau of Foreign Commerce, Department of Commerce, Washington 25, D. C.

(i) Requests for amendment of licenses covering exportations to Macao or Subgroup A countries, unless the amendment involves no more than a correction of obvious errors in the license, such as mistakes in typing.

(ii) Requests for amendment of licenses where the intended port of exit is not known to the licensee.

(iii) Requests for amendment action on shipments which have already been laden aboard the exporting carrier or exported. (See paragraph (h) (2) of this section.)

(iv) Requests for amendments or extensions of licenses for refined copper in cathodes, billets, ingots, wire bars and other crude forms (including anodes) (Schedule B No. 641200), copper scrap (new and old) (Schedule B No. 641300), copper-base alloy scrap (new and old) (Schedule B No. 644000), and copper-base alloy ingots and other crude forms (Schedule B No. 644100).

(v) Requests for amendments or extension of licenses for iron and steel scrap, Schedule B Nos. 601010, 601040, 601050, 601070 and 601090, except shipments of iron and steel scrap to Mexico or where "offshore" scrap is to be exported.

(vi) Requests for amendments or extensions of licenses for aluminum scrap, Schedule B No. 630050, and aluminum remelt ingots, Schedule B No. 630070.

(vii) Decrease in quantity of commodity included in § 373.71 of this subchapter.

(4) *Duplicate requests covering same license.* Requests for amendment shall not be submitted to or acted upon by any field office of the Department of Commerce if an amendment request covering the same license is currently pending action or has been previously denied by the Washington office of the Bureau of Foreign Commerce, or by any other field office.

(g) *Procedure for submitting requests for amendments*— (1) *Number of copies.* Requests for amendments shall be submitted on Form IT– or FC–763, Request for and Notice of Amendment Action, in triplicate. However, when such requests are filed with one of the above-named field offices, a fourth copy must be submitted; this fourth copy may be made on plain, thin, white paper.

(2) *Information required.* All numbered items shown on IT– or FC–763 must be completely filled in on all copies.

(i) The reasons for the requested amendment must be clearly stated in the item entitled "Facts Necessitating Amendment" of the form. In requesting an amendment for change in the purchaser or ultimate consignee, the licensee must comply, where applicable, with the provisions of § 373.65 of this chapter regarding a statement from the new ultimate consignee or purchaser if the shipment is destined to an R country or with the provisions of § 373.2 (c) of this chapter regarding the submission of an import certificate.

(ii) The licensee must not in any case retain the license when submitting a request for amendment. Where shipments are to be made through customs, the address of the Collector of Customs with whom the license has been deposited must be entered in the item entitled "License Has Been Deposited With" of Form IT– or FC–763. If the exporter does not know the intended port of exit, he shall return his license to the Bureau of Foreign Commerce with his request for amendment on Form IT– or FC–763; in which case, the applicant shall enter the word "Unknown" in answer to this item on the form. A Postmaster or post office address, from which a shipment will be made by mail, is not an acceptable entry for this item. When shipment is to be made by mail, the license must accompany the request for amendment.

(iii) In completing the item entitled "Amend License to Read as Follows," the applicant must identify that portion of the license upon which amendment is requested and insert the proposed change.

(3) *Signature.* The signature of the licensee, or an officer or duly authorized agent of the licensee, shall be placed on the original [1] of Form IT– or FC–763, in the space provided. When such request is submitted by an officer or an agent authorized by the licensee, who may be a freight forwarder, atttorney, or any other individual so authorized, he must sign the request by entering the licensee's name and underneath his own signature prefixed by the word "By" and followed by his own title.

For example: Joseph Aloysius Jones
By: Hamilton Newbold,
*Agent.*

(4) *Telegraphic requests.* Under emergency conditions, a request for amendment may be made by telegram, and the licensee may include therein a request that the amendment, if approved, be forwarded to the Collector of Customs by special communication. In such instances, the telegram must include the same information required to complete Form IT– or FC–763, and, in addition, full information as to the necessity for such types of service, including deadline dates. If the request is submitted by mail on Form IT– or FC–763, but emergency clearance is requested, a letter setting forth full details as to the necessity for such service, including deadline dates, must accompany the request for amendment.

(5) *Telephone requests.* Under emergency conditions, a request for amendment may be made by telephone and the licensee may include therein a request that the amendment, if approved, be transmitted to the Collector of Customs by telegraph or other special communication. In such instances, the applicant must supply the Bureau of Foreign Commerce with sufficient justification for the request and detailed information necessary for the completion of a Form IT– or FC–763. If the amendment is approved, the Bureau of Foreign Commerce will so advise the applicant and the Collector. However, before the Collector of Customs will release the shipment under the amended license, the applicant must file a completed and signed IT– or FC–763 with the Collector.

NOTE: Requests for amendments by letter will not be accepted.

1. *Licenses held by Collectors.*

*Amendment action by the Bureau of Foreign Commerce, Washington, D. C.:* On an approved request, the Bureau of Foreign Commerce will validate all copies of Form IT– or FC–763 by imprinting in the space headed "Validation" a facsimile of the Department of Commerce seal followed by a five-digit number representing the date of validation; the duplicate copy will be forwarded as the official notice of amendment to the Collector of Customs designated in the item of the form entitled "License Has Been Deposited With"; the triplicate copy will be forwarded to the individual named in the item of Form IT– or FC–763 entitled "Return Copy—". If the request is rejected, or returned without action, the reason(s) therefore will be indicated in the upper right-hand corner, and the triplicate copy returned to the applicant. Upon request, and where warranted, advice of an amendment action will be dispatched by collect wire to the applicant and (in the case of approved requests) by special communication to the Collector of Customs; copies of Form IT– or FC–763 then will be mailed in the usual manner and serve as confirmation of wire advices.

*Amendment Action by Field Offices.* Amendments approved by Department of Commerce field offices will be validated in a different manner than those approved by the Washington office of the Bureau of Foreign Commerce. The facsimile of the Department of Commerce seal and the name of the field office will be inserted in the space marked "Validation" by means of a validating machine and plate. To complete the validation process, the amending officer will sign and date Form IT– or FC–763. The Collector's copy of the approved form will be sent to the appropriate Collector of Customs by official transmittal as the official notice of amendment. A confirmation copy will be sent to the individual named in the item of Form IT– or FC–763 entitled "Return Copy—". In case of rejection or return without action, the amending officer will, in the spaces provided, indicate rejection or return without action, sign, date, identify the field office, and give reasons for such action; a confirmation copy will be sent to the individual named in the item of Form IT– or FC–763 entitled "Return Copy—".

When an amendment request involves shipment by mail, the field office shall return to the applicant (a) the validated duplicate (Collector's) Copy of Form IT– or FC–763; (b) the triplicate (applicant's copy); and (c) the Export License (Form IT– or FC–628). It will be the responsibility of the licensee or his authorized agent to present the license and the validated Form IT– or FC–763 to the Postmaster at the time of mailing.

2. *Licenses sent to the Bureau of Foreign Commerce.* In those cases where the intended port of exit is unknown and the license accompanies Form IT– or FC–763, the Bureau of Foreign Commerce, on an approved request, will prepare a new license and forward it to the individual named in the item of Form IT– or FC–763 entitled "Return Copy—". However, if the amendment requested is for an extension of the validity period, such amendment will be made by typing a new expiration date on the face of the original license.

3. *Where to Obtain Form IT– or FC–763.* Form IT– or FC–763 is set up in pads of quadruplicates so as to provide a copy for the applicant's file. Sets of the forms may be obtained by writing to any field office of the Department of Commerce.

(h) *Disclosure on amendment requests of prior action on the shipment*—(1) *Prior detention of commodities by customs.* Any exporter or his agent making application to the Bureau of Foreign Commerce for an amendment of an export license, who shall know or have reasonable cause to believe that a Collector of Customs has detained commodities which would be exportable under such license, as amended, shall disclose to the Bureau of Foreign Commerce at the time of applying for such amendment the fact that the Collector of Customs has detained the commodities. Any amendment obtained without full disclosure of that fact shall be deemed to have been obtained without disclosure of all facts material to the granting of the amendment, and the license and any amendment so obtained shall be void.

(2) *Prior exportation without a license.* No request for amendment to an export license shall be submitted to the Bureau of Foreign Commerce covering a shipment that is already laden aboard the exporting carrier or exported. In such cases where the shipment should have been authorized by a validated license, or amendment thereto, the exporter should send a letter or wire to the Export Control Investigation Staff, Bureau of Foreign Commerce, Department of Commerce, Washington 25, D. C., Att'n: FC–1205, explaining why a validated license (or amendment thereto) was not obtained and disclosing all the facts concerning the shipment that would normally have been disclosed on the amendment request (Form IT– or FC–763). The Bureau of Foreign Commerce will inform the exporter of its action and instructions to him in the matter by letter. Any amendment covering such shipments obtained without such disclosure shall be deemed to have been obtained without disclosure of all facts material to the granting of the amendment, and the license and any amendment so obtained shall be void.

NOTE: See § 372.8 of this chapter and § 380.4 (c) with respect to license applications and extensions of validity periods of licenses to authorize shipments described in paragraph (h) of this section.

(i) *Price amendments*—(1) *Time for submission.* Request for amendment of a license to effect a change in price may be submitted at any time during the validity period of the license.

(2) *Necessary amendments to show price changes.* Except under the conditions described in subdivisions (i), (ii), and (iii) of this subparagraph, an export license shall be amended for: Any upward change in unit price or total value shown on the license, if the commodity is licensed by dollar value (those commodities on the Positive List of Commodities (§ 399.1 of this chapter) which do not show a specific unit of quantity are licensed by dollar value); or, an upward change in unit price or total value in excess of 25 percent beyond that shown on the license, if the commodity is licensed in units other than dollars:

(i) Where the licensee avails himself of permissible weight and volume tolerances (see § 379.2 (h) of this chapter). In such cases, the total value for the commodity shown on the Shipper's Export Declaration may exceed the total value shown on the license. However, the unit value shown on the license may not be increased, except in accordance with this subparagraph.

(ii) Where price increases can be justified before the Collector of Customs on the basis of changes in point of delivery, port of exit, or as a result of transportation costs, drayage, port charges, warehousing, etc.

(iii) Where unit or total price is not shown on the license but is based upon the market price at a specified date plus an exporter's mark-up, or like basis. In such cases, the unit or total price need only conform with the price statement on the license.

(3) *Additional price changes for which amendments are not required.* Export licenses need not be amended to show changes in unit or total value where the change involves a reduction in prices; provided that when commodities are licensed in quantities determined only by dollar value indicated on the license, the value shown on the Shipper's Export Declaration shall not exceed the total value shown on the license. Shipments against such licenses will be charged in terms of dollars as shown on the Shipper's Export Declarations.

NOTE: 1. Where the Positive List does not indicate a unit of quantity for a specific commodity, the commodity shall be deemed to be licensed in quantities determined by dollar value only, even though a unit of quantity is shown on the license. In such instances, any increase in total dollar value

[1] Notwithstanding instruction No. 5 on the reverse side of Form IT– or FC–763, the duplicate copy need not be signed.

must be made by amendment as provided for under subparagraph (2) of this paragraph. Shipments against such licenses will be charged in terms of dollars as shown on the Shipper's Export Declaration and the value shown on the Shipper's Export Declaration shall not exceed the total value shown on the license.

2. When commodities are licensed in quantities determined only by the dollar value indicated on the license, price increases, transportation and warehousing charges, etc., occurring between the date of validation of the license and the date of the Shipper's Export Declaration may have the effect of reducing the physical quantity which may be exported.

(j) *Licenses covered by an import certificate, a Swiss Blue Import Certificate, a Hong Kong import license, or a Yugoslav End-Use Certificate.* A request for an amendment of an export license covering a commodity subject to the import certificate procedure (§ 373.2 of this subchapter), the Swiss Blue Import Certificate procedure (§ 373.67 of this subchapter), the Hong Kong import license procedure (§ 373.69 of this subchapter), or the Yugoslav End-Use Certificate procedure (§ 373.70 of this subchapter), which proposes a change in any party to the transaction named on the license or any increase in the net quantity set forth on the license, must be accompanied by a new or appropriately amended certificate if the proposed amendment is not in accordance with the certificate previously submitted to the Bureau of Foreign Commerce. If a proposed quantitative amendment is in accordance with the previously submitted certificate, the amendment request shall include the following certification:

I (we) certify that this request for amendment of export license No. _____, if granted, will not exceed the total quantity authorized under the _____ Import Certificate or End-Use Certificate No. _____.
(Name of country)
(Strike out inapplicable title of form)

(k) *Licenses covered by consignee statements.* A new consignee and purchaser statement (Form FC–842 or FC–843) shall accompany a request for an amendment of an export license which proposes a change in the consignee or purchaser in the transaction named in the export license, if the proposed amendment is not in accordance with the consignee and purchaser statement previously submitted to the Bureau of Foreign Commerce. A new Single Transaction Statement by Consignee and Purchaser (Form FC–842) or a letter, wire or cable from the ultimate consignee and purchaser (if applicable) confirming the change, shall accompany a request for an amendment of an export license which proposes any increase in the quantity set forth in the export license if the proposed amendment is not in accordance with the Single Transaction Statement by Consignee and Purchaser previously submitted to the Bureau of Foreign Commerce. If a proposed quantitative amendment is in accordance with the previously submitted Single Transaction Statement by Consignee and Purchaser, the amendment request shall include the following certification:

I (We) certify that this request for amendment of export license number _____, if granted, will not exceed the total covered by the Single Transaction Statement by Consignee and Purchaser against which this export license was issued.

Where the export license is based on a Multiple Transactions Statement, an additional Statement is not required from the consignee or purchaser to support a proposed license amendment for increase in quantity. In lieu thereof, the following certification shall be placed on the request for amendment:

I (We) certify that the license(s) described in item 2 (a) is supported by a Multiple Transaction Statement.

§ 380.3 *Price amendments on pending license applications.* Requests for amendment of a pending license application to effect a change in price may be submitted at any time, except that if a time schedule for submission of the license application has been established (see § 373.71 of this chapter), the request may be submitted only during such period. The amendment procedure set forth in § 380.2 shall be followed with respect to these requests. Letters or telegrams requesting amendment of prices shall also state the applicant's reference number, date of application, commodity, country of destination, the Bureau of Foreign Commerce application number (if known) for the purpose of identifying the application, the revised price, and reasons for the price change.

§ 380.4 *Extension of licenses*—(a) *Time for submission of requests.* Licensees may submit requests for extension of the validity periods of licenses which expire before shipment has been made. It is essential that the request for extension be submitted sufficiently in advance of the expiration date to allow the Bureau of Foreign Commerce to send an advice of amendment by regular mail to the licensee and the Collector of Customs holding the license before the license expires. However, where unusual circumstances have made it impossible for the licensee to submit his request for extension before the expiration date, requests for extension will be considered if received within one month after the expiration date shown on the license.

(b) *Procedure and justification for requesting extension.* (1) Requests for extension of the validity period of licenses must be submitted in the same manner as amendments or alterations of licenses, as provided in § 380.2 (g), and shall be accompanied by the expiring license unless it has been filed with a Collector of Customs. Where the license has been deposited with a Collector of Customs, notification of the filing of such request shall be given to the Collector with whom the license has been deposited. Where the expiring license does not accompany the request for extension, the applicant shall also include the following information on the face of Form IT– or FC–763:

(i) In the item of Form IT– or FC–763 entitled "Facts Necessitating Amendments", state why shipment was not or will not be made before expiration date of license, stating facts to assure that shipment can be effected during the extended validity period requested. If partial shipment has been made, indicate quantity and value.

(ii) In the item entitled "Amend License to Read as Follows", state whether the license has been previously extended. If so, give date(s) and duration of such extension(s), and office by which extension was issued.

(2) The foregoing information must also be included when request for extension is submitted by telegram in cases of extreme emergency as provided under § 380.2 (g) (4).

NOTE: If granted, the extension will be made in the same manner as other amendments. (See note following § 380.2 (g).)

When a Collector of Customs who is holding an expiring license is notified that a request for extension of the license has been filed in accordance with the foregoing provisions, the Collector will hold the license for an additional 30 days after the original expiring date. If the approved extension has not been received within 30 days, he will return the license to the Bureau of Foreign Commerce.

(c) *Disclosure of prior action on the shipment.* The provisions of § 380.2 (h) with respect to disclosure of prior action on the shipment in the case of requests for amendments to licenses shall apply equally to requests for extension of validity periods of licenses.

§ 380.5 *Amendments to licenses issued for the exportation of refined copper, copper scrap, copper-base alloy scrap and copper-base alloy ingots and other crude forms.* Except for export licenses issued under toll or conversion agreements, export licenses issued under the provisions of § 373.41 (c) of this subchapter may not be amended to grant an extension of the validity period of the license.

---

PART 381—ENFORCEMENT PROVISIONS

Sec.
381.1 Sanctions.
381.2 Causing, aiding, and abetting a violation.
381.3 Conspiracy, attempt, and solicitation to violate.
381.4 Acting with knowledge of a violation.
381.5 Misrepresentation and concealment of facts.
381.6 Diversion, reexportation, transshipment.
381.7 Licensee accountable for use of license.
381.8 Unauthorized use and alterations of export control documents.
381.9 Trafficking and advertising export control documents.
381.10 Applicability of export denial orders to parties other than those named therein.

AUTHORITY: §§ 381.1 to 381.10 issued under sec. 3, 63 Stat. 7, as amended; 50 U. S. C. App. 2023, E. O. 9630, 10 F. R. 12245, 3 CFR, 1945 Supp., E. O. 9919, 13 F. R. 59, 3 CFR, 1948 Supp.

§ 381.1 *Sanctions.* (a) Any person who violates the Export Control Law or any order, regulation, or license issued thereunder is punishable for each violation by a fine of not more than $10,000 or by imprisonment for not more than one year, or both. A violator is subject also to administrative action which may result in suspension, revocation, and denial of export privileges under the Export Control Law, and to exclusion from practice before the Bureau of Foreign Commerce.

(b) The submission of false or misleading statements and the concealment of material facts are punishable also under other laws. In addition, commodities attempted to be, or being, or intended to be, or which have been, exported or shipped from or taken out of the United States in violation of the Export Control Law or of any proclamation, order, rule, regulation, or license issued thereunder are subject to seizure and forfeiture, as are the vessels, vehicles, and aircraft carrying such commodities.

NOTE: See Part 382 of this chapter, "Denial or Suspension of Export Privileges," and § 384.2 (a) of this chapter, "Activities of Persons Appearing Before the Bureau of Foreign Commerce in Connection with Export Control Matters."

§ 381.2 *Causing, aiding, and abetting a violation.* It is unlawful for any person knowingly to cause, or aid, abet, counsel, command, induce, procure, or permit the doing of any act prohibited by, or the omission of any act required by, the Export Control Law or any proclamation, order, rule, regulation, or license issued thereunder.

§ 381.3 *Conspiracy, attempt, and solicitation to violate.* It is unlawful for any person knowingly to conspire or to act in concert with one or more persons in any manner or for any purpose to bring about, or to do any act which solicits the commission of or which constitutes an attempt to bring about, a violation of the Export Control Law or any proclamation, order, rule, regulation or license issued thereunder; and any such act or conspiracy shall constitute a violation.

§ 381.4 *Acting with knowledge of a violation.* It is unlawful for any person, whether as principal or agent or otherwise, to buy, receive, conceal, store, sell, dispose of, transport, finance, forward, or otherwise service, in whole or in part, any exportation from the United States, knowing that with respect to the whole or any part of such exportation, a violation of the Export Control Law or any proclamation, order, rule, regulation or license has occurred, is about to, or is intended to occur.

§ 381.5 *Misrepresentation and concealment of facts*—(a) *General.* All representations, statements, and certifications made, and material facts concealed, by any person, in connection with the preparation, submission, issuance or use of any export control document or document relating thereto, or for the purpose of or in connection with effecting an exportation of any commodity from the United States, or the reexportation, transshipment or diversion of any commodity so exported, or in the course of an investigation or other action instituted under the authority provided in the Export Control Act of 1949, as amended, shall be deemed to constitute representations, statements and certifications made to, and material facts concealed from, the Bureau of Foreign Commerce and the Bureau of Customs with respect to matters within the jurisdiction of these agencies under the statutes, proclamations, Executive orders, and regulations relating to export control and orders or licenses issued or established thereunder.

(b) *Persons liable.* It is unlawful under the Export Regulations and the Export Control Law, in addition to the provisions of any other law, for any person, whether or not situated in the United States, knowingly to make any false or misleading representation, statement, or certification, or to falsify or conceal any material fact, whether directly to the Bureau of Foreign Commerce, any Collector of Customs, or an official of any other United States agency, or indirectly through any other person or foreign government agency or official:

(1) In the course of an investigation or other action instituted under the authority of the Export Control Act of 1949, as amended;

(2) In connection with the preparation, submission, issuance or use of any export control document or document relating thereto; or

(3) For the purpose of or in connection with effecting an exportation from the United States, or the reexportation, transshipment or diversion of any such exportation, or the issuance, or maintenance in effect, of any document relating to export control.

(c) *Types of misrepresentation and concealment.* Without limitation of the foregoing or of any other provisions of the law or the Export Regulations, no person shall, with respect to:

(1) *Country of destination.* Falsely state or conceal the country of ultimate or intermediate destination intended;

(2) *Consignee, purchaser, commodity.* Falsely describe or conceal the true commodity, or the true ultimate or intermediate consignee, purchaser, or any other party in interest to the transaction;

(3) *Orders.* Solicit or submit any order for the purchase or importation from the United States of any commodity, or state in writing any commitment to purchase or import the same, for the sole purpose of obtaining an export license with the intention not to abide by such order or commitment, or not to perform the terms thereof, whether or not the applicant or licensee is aware of such intention;

(4) *End use.* Falsely state or conceal the end use;

(5) *Ultimate consignee or purchaser statement.* Submit an ultimate consignee or purchaser statement which is false in any respect or which conceals any material fact; or

(6) *Import Certificate, Delivery Verification.* Make any false statement or conceal any material fact in connection with an Import Certificate or Delivery Verification.

(d) *Representations to be continuing in effect; notification.* All representations, statements, and certifications made by any person are deemed to be continuing in effect. It is unlawful for any person who has made such representation, statement or certification to fail to notify in writing the Bureau of Foreign Commerce of any change of any material fact or intention from that previously represented, stated, or certified. Such notification shall be made immediately upon receipt of any information which would lead a reasonably prudent person to believe that a change of material fact or intention has occurred or may occur in the future.

§ 381.6 *Diversion, reexportation, transshipment.* Except as specifically authorized by the Bureau of Foreign Commerce, it is unlawful for any person knowingly to dispose of, divert, transship or reexport commodities to any person or destination or for any use in violation of or contrary to the terms, provisions, or conditions of any export control document, any prior representation, any form of notification of prohibition against such action, or any other provision of the Export Control Law or any proclamation, order, rule, regulation or license issued thereunder.

§ 381.7 *Licensee accountable for use of license.* The applicant to whom the license is issued becomes the licensee and will be held strictly accountable for use of the license. It is unlawful, without prior written approval of the Bureau of Foreign Commerce, for the licensee to permit any other person to facilitate or effect the exportation of any commodity described in the license, except under the direction and responsibility of or as the true agent in fact for the licensee, regardless of the terms of sale or exportation or other agreement between the licensee or the order holder and the purchaser or ultimate consignee of such commodity.

§ 381.8 *Unauthorized use and alterations of export control documents.* Except as otherwise specifically authorized in the Export Regulations or in writing by the Bureau of Foreign Commerce, it is unlawful for any person, whether or not the licensee, to obtain, use, or alter, or to assist in or permit the use or alteration of, any export control document, for the purpose of or in connection with facilitating or effecting any exportation or reexportation other than that set forth in such document or except in accordance with all the terms, provisions and conditions thereof.

§ 381.9 *Trafficking and advertising export control documents*—(a) *Unlawful practices.* Without limitation of any provision of law or of the Export Regulations it is unlawful for any person, without prior written approval of the Bureau of Foreign Commerce to do any of the following with respect to any exportation or reexportation under any export control document:

(1) *Transfers or changes of authority.* To effect any transfer of, or other change of the authority granted in, such document, whether by sale, grant, gift, loan or otherwise, to any person, or to permit any person to use the same otherwise than for the true account of and as true agent in fact for the licensee; or for any person not the licensee to receive or accept a transfer or other change of the authority granted in, or otherwise to use, an export control document, except for

the true account of and as true agent in fact for the licensee.

(2) *Change in named parties.* To effect any change of, substitution for, or addition to, the parties named in an export control document; or to transfer, obtain, purchase, or create any interest or participation in the transaction described in any export control document.

(3) *Unlawful advertising or soliciting.* To offer or solicit by advertisement, circular, or other communication any transfer or change of an export control document or any interest therein hereinabove declared unlawful. Such communication shall be deemed unlawful:

(i) Even though coupled with a condition requiring approval by the Bureau of Foreign Commerce of a new consignor or consignee or other change in the export license, by way of transfer, amendment or otherwise;

(ii) Where, in offering or soliciting the sale for exportation of any commodities, the communication indicates that the proposed seller of such commodities holds or will furnish a license or other export control document for the exportation of such commodities;

(iii) Where, in offering or soliciting the purchase for exportation of any commodities, such communication is addressed by the proposed buyer directly or indirectly to any person on the condition that such person as a seller then holds or will furnish a license or other export control document for the exportation of such commodities.

INTERPRETATIVE STATEMENT: Sections 381.7, 381.8 and 381.9, among other things, make it unlawful for a licensee or other person holding an export control document to sell or to offer to sell, or for any person to purchase or to offer to purchase, the commodities described in such document with the understanding that the document may be used by or for the benefit of the purchaser to effect exportation of the said commodities; for any person to effect exportation thereof for the benefit of or "for the account" of any person other than the licensee, regardless of the device, means or fiction employed; for the licensee fictitiously to act as principal or agent of another person who actually is effecting the exportation, or for such other person fictitiously to act as the licensee's principal or agent for the same purpose; or for the named consignee to act "for the account" of a new unlicensed consignee. Where a licensed transaction has failed of accomplishment for any reason, the license may not, without special authorization of the Bureau of Foreign Commerce, be used for any other transaction. Changes of consignors and consignees will be permitted only under the strict provisions of the Export Regulations.

(b) *Transfer of dock receipts, bills of lading, or liens.* (1) Paragraph (a) of this section is not to be construed to affect the transfer and other use of dock receipts, bills of lading, or other commercial documents necessary to complete a transaction authorized by the export license, or impair the validity of liens or other security titles or interests created in good faith with respect to commodities or documents in the course of financing, warehousing, forwarding, or transporting commodities.

(2) However, where the person entitled to the foreclosure of any lien or other security title or interest, or where the exercise of any rights by the holder of the lien or other security title or interest, contemplates an exportation under the license by someone other than the licensee, or to someone other than the purchaser or ultimate consignee designated in the license, such person must apply for a new license or for an amendment in accordance with the provisions of Part 380 of this subchapter.

§ 381.10 *Applicability of export denial orders to parties other than those named therein.* Without prior disclosure of the facts to, and specific authorization of the Bureau of Foreign Commerce, it is unlawful for any person, with knowledge that another person is then subject to an order suspending, revoking, or denying his export privileges or is then excluded from practice before the Bureau of Foreign Commerce, directly or indirectly in any manner or capacity, (a) to apply for, obtain or use any license, Shipper's Export Declaration, bill of lading or other export control document relating to an exportation or reexportation of commodities by, to, or for such suspended person; or (b) to order, receive, use, forward, transport, finance, or otherwise service or participate in, any exportation from the United States or a reexportation of any commodity exported from the United States, so that such suspended person will directly or indirectly obtain any benefit therefrom. For the purpose of this section, the term "suspended person" is defined to include (1) any person, firm, corporation, or other business organization whose export privileges are suspended, revoked, or denied by any order of the Bureau of Foreign Commerce or who is excluded by such order from practice before the Bureau of Foreign Commerce; and (2) any other person, firm, corporation, or other business organization also suspended or excluded from practice because of his or its relationship to such suspended person through ownership, control, position of responsibility or other like connection in the conduct of trade involving exports from the United States or services connected therewith during the period of such order, and whether or not named in such order.

NOTE: Orders of the Bureau of Foreign Commerce which suspend, revoke or deny the export privileges of any person or which exclude any person from practice before the Bureau of Foreign Commerce provide that the terms and prohibitions of such orders apply not only to the persons expressly named therein but also, for the purpose of preventing evasion, to any other person, firm, corporation, or other business organization with which such person may be then or thereafter (during the term of the order) related by ownership, control, position of responsibility or other such connection in the conduct of trade involving exports from the United States or services connected therewith. See §§ 382.1 and 384.2, and 382.51 of this chapter, "Table of Compliance Orders Currently in Effect Denying Export Privileges". This table contains a list of persons whose export privileges are currently revoked, suspended or denied or who are currently excluded from practice before the Bureau of Foreign Commerce. This list contains the names and addresses of such persons, the effective and expiration dates of the orders, a brief summary of the export privileges affected, and the citations to the volumes and pages of the FEDERAL REGISTER where complete texts of the orders are published. The publication of such orders in the FEDERAL REGISTER constitutes legal notice of the terms thereof to all persons.

## PART 382—DENIAL OR SUSPENSION OF EXPORT PRIVILEGES

Sec.

382.1 Authority to deny export privileges.
382.2 Compliance Commissioners.
382.3 Institution of proceedings.
382.4 Default.
382.5 Answer.
382.6 Subpoenas.
382.7 Hearings.
382.8 Report of Compliance Commissioner.
382.9 Disposition.
382.10 Consent orders.
382.11 Temporary suspensions.
382.12 Rehearings.
382.13 Appeals.
382.14 Proceedings confidential.
382.15 Indefinite suspensions.
382.16 Publication of orders.
382.51 Supplement 1; Table of compliance orders currently in effect denying export privileges.

AUTHORITY: §§ 382.1 to 382.51 issued under sec. 3, 63 Stat. 7, as amended; 50 U. S. C. App. 2023, E. O. 9630, 10 F. R. 12245, 3 CFR, 1945 Supp., E. O. 9919, 13 F. R. 59, 3 CFR, 1948 Supp.

§ 382.1 *Authority to deny export privileges.* Any person who violates any law or regulation relating to export control may be denied the privilege of exporting, receiving, or otherwise participating in any exportation of any commodity, or of technical data, from the United States to any foreign destination, including Canada; and of financing, transporting, or other servicing of such exports. Such denial of export privileges shall take the form of an order issued in the name and under the authority of the Director, Office of Export Supply, Bureau of Foreign Commerce, and shall be effective for such period of time and on such terms and conditions as may be deemed appropriate and prescribed therein. Such order may be made applicable not only to persons named therein as having committed a violation but also, to the extent necessary to prevent evasion, to other persons with whom said named persons may be related by ownership, control or other connection in the conduct of export trade. Any statute, proclamation, executive order, regulation, or order applicable to any conduct involved in obtaining or using an export license or other export control document shall be deemed to be a "law or regulation relating to export control."

NOTE: This procedure in no way restricts the present practice of referring appropriate cases to the Department of Justice for criminal prosecution. Violations of Export Regulations not only may result in denial of export privileges but also are punishable by a fine of not more than $10,000, or by imprisonment for not more than 1 year, or both. Any submission of false information, whether in connection with license applications, Shipper's Export Declarations, investigations, compliance proceedings, appeals, or otherwise, is punishable by a fine of not more than $10,000, or by imprisonment for not more than 5 years, or both.

§ 382.2 *Compliance Commissioners.* The Director of the Bureau of Foreign Commerce will designate one or more persons to act as Compliance Commissioners, who shall have the powers and duties provided herein. Persons attached to the Export Supply Divisions or Investigation Staff of the Bureau of Foreign Commerce shall not be qualified to act as Compliance Commissioners.

§ 382.3 *Institution of proceedings.* The Export Control Investigation Staff, Bureau of Foreign Commerce, may, with the approval of the Office of the General Counsel, initiate proceedings for the denial of export privileges of any person who it has reason to believe has violated any law or regulation relating to export control. Such proceedings shall be initiated by sending a notification (to be known as a charging letter), either by telegraph or by registered mail, to each person against whom proceedings are brought (to be known as a respondent) at his last known address. The charging letter shall set forth the specific violations charged, including reference to the particular regulatory or other provisions alleged to have been violated, and shall give notice that, if the respondent is found to have committed the alleged violations, his export privileges may be denied. The charging letter shall inform the respondent that he may submit his answer in writing or, if he so requests, may be accorded an oral hearing at a time and place to be subsequently fixed, but that, unless either his written answer or his written request for an oral hearing is received by the Export Control Investigation Staff, within 10 days after receipt of the charging letter by respondent, he will be held in default and an order denying his export privileges may be entered forthwith. Charges may be amended from time to time upon reasonable notice.

§ 382.4 *Default.* If the respondent does not answer the charges or request an oral hearing within the time prescribed in § 382.3, he shall be held in default. In such case, the evidence of violation shall be informally presented to the Compliance Commissioner, but the proceedings shall otherwise be the same as in contested cases. Failure of a respondent to receive a charging letter addressed and transmitted to him as provided in § 382.3 shall not prevent or invalidate such default, but a respondent who has not received the charging letter may at any time move to vacate or modify any order issued pursuant to such charging letter. Proceedings on such a motion, including a hearing if requested, shall be conducted as provided in § 382.11 (c) with respect to motions to vacate or modify a temporary suspension order.

§ 382.5 *Answer.* The respondent may answer the charges or request an oral hearing within the time prescribed in § 382.3 by submitting his written answer or request in duplicate to the Export Control Investigation Staff, Bureau of Foreign Commerce, Department of Commerce, Washington 25, D. C. If the respondent so desires, he may waive the oral hearing and have the case considered by the Compliance Commissioner on the basis of his written answer, in which event final disposition of the case shall be made without formal hearing. In lieu of such a hearing, the evidence of violation shall be informally presented to the Compliance Commissioner, who shall consider it, together with the answer, but the proceedings shall otherwise be the same as in other cases. If the respondent desires to present his answer at an oral hearing, he shall be accorded an opportunity to do so at a time and place to be fixed by the Compliance Commissioner, on at least 10 days' notice, provided the respondent has requested such hearing within the time prescribed in § 382.3. The date of hearing may be advanced upon request, and hearings may be postponed or continued from time to time upon reasonable notice.

§ 382.6 *Subpoenas.* The Compliance Commissioner may issue subpoenas, returnable before him, at the request of any party to a proceeding before him, requiring the attendance of witnesses and the production of books, records, or other documentary or physical evidence determined by the Compliance Commissioner to be relevant and material to the proceedings, reasonable in scope, and properly obtainable by subpoena.

§ 382.7 *Hearings.* Hearings shall be conducted by the Compliance Commissioner in a fair and impartial manner. The exclusionary rules of evidence prevailing in courts of law shall not apply, but all evidence relevant and material to the inquiry shall be received and given appropriate weight. The Compliance Commissioner may administer oaths and affirmations. Respondent may be represented by counsel but need not be. The proceedings shall be taken by a reporter, transcribed, and filed with the Compliance Commissioner. Respondent shall have an opportunity of examining the transcript and of obtaining a copy upon payment of proper costs. Any party to the proceedings may file a bill of exceptions to the transcript with the Compliance Commissioner within 5 days after a copy of the transcript is made available to him, or within such other time as the Compliance Commissioner may prescribe. The Compliance Commissioner shall rule upon such exceptions in making the report for which provision is made in § 382.8. Any bill of exceptions so filed shall henceforth accompany the transcript.

§ 382.8 *Report of Compliance Commissioner.* The Compliance Commissioner shall consider the record, including any bill of exceptions filed thereto, and shall prepare a written report which shall include findings of fact, including a finding whether or not a violation has occurred, and recommendations. The report, transcript, exhibits, and bills of exceptions, if any, shall be transmitted to the Director, Office of Export Supply, Bureau of Foreign Commerce.

§ 382.9 *Disposition.* The Director, Office of Export Supply, shall review the record, consider the report of the Compliance Commissioner, and determine the disposition of the case. If the Compliance Commissioner has found that a violation has been committed, his recommendations shall be advisory only, and the Director, Office of Export Supply, may issue such order as he deems appropriate. If the Compliance Commissioner has found that no violation has been committed, the Director, Office of Export Supply, shall enter an order dismissing the charges. A certified copy of the order, together with a copy of the Compliance Commissioner's report, shall be sent to the respondent by registered mail.

§ 382.10 *Consent orders.* The Export Control Investigation Staff, and the respondent may, after transmission of a charging letter, by agreement submit to the Compliance Commissioner a proposal for the issuance of a consent order. The Compliance Commissioner shall review the facts of the case and the proposal and for this purpose may conduct informal conferences with the parties and may require the informal presentation before him of the evidence in the case. If he does not approve the proposal, he shall so notify the respondent and the Export Control Investigation Staff, and the case shall proceed to hearing. If he approves the proposal, he shall report the facts of the case with his recommendations to the Director, Office of Export Supply. The Director, Office of Export Supply, may reject the proposal, in which event the case will proceed to hearing, or he may accept the proposal and issue an appropriate order.

§ 382.11 *Temporary suspensions*—(a) *Suspension by charging letter.* A charging letter may by its terms suspend, from and after the date of its issuance, the respondent's privilege to obtain or use validated export licenses. The charging letter may also revoke and require the return for cancellation of outstanding validated licenses but shall not otherwise suspend the respondent's export privileges. Such latter privileges, however, may be suspended as provided in paragraph (b) of this section.

(b) *Temporary suspension orders.* (1) The export privileges of any person who is under investigation, or against whom administrative or judicial proceedings are pending, for violation of any law or regulation relating to export control, may be suspended summarily, without prior notice or opportunity for hearing, where and to the extent such suspension is found reasonably necessary to protect the public interest pending final disposition of the investigation or proceedings. Such a temporary suspension order shall be issued only for such limited time, ordinarily not exceeding 30 days, as may be required to complete the investigation or the proceedings, but may, on a showing of need for additional time, be extended in the same manner as originally issued.

(2) An application for such a temporary suspension order shall be made by the Export Control Investigation Staff, to the Compliance Commissioner and shall include a brief recital of the facts of the case and a statement of the grounds for the application and the nature of the order sought. The Compliance Commissioner shall review the application and for this purpose may require informal presentation of evidence before him. If he does not approve the application, he shall so notify the Export

Control Investigation Staff, by memorandum, and no further action shall be taken upon it; but if he approves it, he shall send his recommendation, together with the application and accompanying documents, to the Director, Office of Export Supply, who may issue such temporary suspension order as he shall deem appropriate. A certified copy of the order shall be sent to the respondent by registered mail.

(c) *Motions to vacate or modify.* The respondent may at any time move to vacate or modify any temporary suspension contained in any charging letter or order. Any such motion shall be filed with the Compliance Commissioner and an oral hearing thereon, if requested, shall be held before the Compliance Commissioner at the earliest possible date. The Compliance Commissioner shall consider the evidence presented and shall submit his report and recommendations thereon to the Director, Office of Export Supply. The latter may issue such order disposing of the motion as he shall deem appropriate, and a certified copy thereof shall be promptly communicated to the respondent.

(d) *Deferment of action on license applications otherwise prohibited.* Except for the particular application or license which is itself the basis of any investigation or proceeding, and except pursuant to paragraph (a) of this section, no export license application filed by any person shall be returned without action, held without action, or rejected, by reason of the fact that such person is under investigation, or that proceedings against him are pending, otherwise than in accordance with the terms of a temporary suspension order issued under paragraph (b) of this section.

§ 382.12 *Rehearings.* The Compliance Commissioner may, upon written request, grant a rehearing or reopen a proceeding at any time for the purpose of hearing any relevant and material evidence which was not known or which was unobtainable at the time of the original hearing. The request for rehearing or reopening shall contain a summary of such evidence, the reasons why it is deemed relevant and material, and the reasons why it could not have been presented at the original hearing. The Compliance Commissioner shall give prompt notice of the time and place of any further hearing, if one is held, and shall conduct such hearing and submit his report and recommendations thereon to the Director, Office of Export Supply, for final action in the same manner as provided for the original proceedings.

§ 382.13 *Appeals*—(a) *Grounds of appeal.* The respondent may appeal from a suspension or denial of export privileges upon the ground (1) that the findings of violation are not supported by any substantial evidence, (2) that prejudicial error of law was committed, or (3) that the provisions of the order are arbitrary, capricious, or an abuse of discretion. The appeal must specify upon which of these grounds the appeal is based and must indicate from which provisions of the order the appeal is taken.

(b) *Filing of appeals.* An appeal must be in writing and must be filed with the Appeals Board, Department of Commerce, Washington 25, D. C. An appeal from a temporary suspension by charging letter or order may not be filed unless the respondent has unsuccessfully moved to vacate or modify such temporary suspension as provided in § 382.11 (b) and, in addition, unless such temporary suspension has remained in effect for at least 60 days. An appeal from a final order denying export privileges must be filed within 10 days after receipt of a copy of the order. The provisions of Part 383 of the Export Regulations shall govern the procedure and disposition of appeals except as otherwise provided in this section.

(c) *Matters considered on appeal.* A hearing before the Appeals Board shall not constitute a trial de novo, but the appeal shall be considered upon the basis of the record, consisting of the charging letter, the transcript of the hearing before the Compliance Commissioner, including any bills of exceptions thereto, the report of the Compliance Commissioner, the order of the Director, Office of Export Supply, Bureau of Foreign Commerce, and any other relevant documents involved in the proceedings before the Compliance Commissioner. If the respondent has requested and been denied a rehearing or reopening on the basis of new evidence, the Appeals Board may direct that such rehearing or reopening be granted if it finds that such new evidence is relevant and material to the issues and was not known or was not available to the respondent at the time of the original hearing. The Appeals Board shall not consider facts or arguments affecting the merits of the policy embodied in rules or regulations alleged to have been violated.

(d) *Effect of appeal.* The taking of an appeal shall not stay the operation of any order. The decision of the Appeals Board shall be final and shall be promptly transmitted to the respondent.

§ 382.14 *Proceedings confidential.* Compliance proceedings shall be confidential, excepting any orders issued therein. Reports of the Compliance Commissioner and copies of transcripts of hearings shall be available only to parties to the proceedings and, to the extent of their own testimony as contained in transcripts, to witnesses therein. Any such matters may, however, be made available to any Government agency having a proper interest therein.

§ 382.15 *Indefinite suspensions.* (a) Whenever it is impracticable for the Bureau of Foreign Commerce to subpoena a person in the course of an investigation or other action, interrogatories may be sent to that person. If any person fails or refuses to answer or furnish written information or documents in response to these interrogatories the Bureau of Foreign Commerce may without prior notice issue an order, as provided in § 382.1, denying export privileges to such person. This order shall remain in effect until such person shall respond to the interrogatories or shall give adequate reasons to the Bureau of Foreign Commerce for his failure or refusal to respond.

(b) The procedure regarding applications for indefinite suspension orders and motions to vacate or modify such orders shall conform substantially to that provided for temporary suspension orders by § 382.11 (b) (2) and (c).

§ 382.16 *Publication of orders.* All orders denying export privileges and all decisions of the Appeals Board in appeals under § 382.13 shall be published in the FEDERAL REGISTER as soon as practicable after issuance.

§ 382.51 *Supplement 1; Table of compliance orders currently in effect denying export privileges*—(a) *Contents.* (1) This table contains orders issued by the Bureau of Foreign Commerce which currently revoke, suspend, or deny export privileges. In some cases, orders provide a specified period of suspension, a certain portion of which is to be an actual suspension, and the balance a period in which effective suspension is held in abeyance, conditioned on the respondent's compliance with the Export Control Law and regulations. In such cases, the period of abeyance may be automatically reinstated as a further period of actual suspension in the event that the Bureau of Foreign Commerce finds that the respondent has committed a further violation. In the column of this table headed "Expiration Date of Order," the termination date of the period of actual suspension will appear, and in the event the order contains a further abeyance period, the expiration date of that period will be shown in the same column, set off by parentheses. Proceedings in compliance cases are confidential except any orders issued in connection with the proceedings.

(2) The Table of Compliance Orders will be amended to list additional compliance orders which may be issued and to delete listed orders whenever they expire.

(3) This table contains the names and addresses of all United States and foreign persons, corporations, and firms denied export privileges by compliance orders based on findings of violations of the laws and regulations relating to export control, effective date of order, expiration date of order, export privileges affected, and the volume and page of the FEDERAL REGISTER in which the complete text containing the factual and legal basis for each cited order can be found.

(4) Orders denying export privileges are issued not only for violations involving unauthorized transshipments of strategic commodities but also for other types of violations relating to the Export Regulations. Therefore, to ascertain the grounds for any order, reference should be made to the cited issue of the FEDERAL REGISTER for the text of the order.

NOTE: License denial orders usually contain a provision making them applicable not only to persons named therein as having committed a violation but also, to the extent necessary to prevent evasion, to other persons with whom said named persons may be related by ownership, control, position of responsibility or other like connection in the conduct of trade involving exports from the United States or services connected therewith. Accordingly, reference should be made to the text of the order in any particular case for any suspended person; or to order, receive, use, forward, transport, finance, or otherwise service or participate in, any exportation from the United States or a reexportation of any commodity exported from the United States, so that any suspended person will directly or indirectly obtain any benefit therefrom.

(b) *Table of compliance orders.*

## PART 383—APPEALS

§ 383.1 *General procedure for appeals*—(a) *Purpose.* This section provides the general procedure for appeals except as otherwise noted below.

(b) *Appealability of regulations and administrative actions.* Any person may appeal, upon the grounds set forth in paragraph (e) of this section, from:

(1) Any regulation issued by the Department of Commerce under the Export Control Law or delegated authority relating thereto.

(2) Any administrative action of the Department of Commerce or duly authorized employees thereof, taken under the aforementioned authority, including appeals from compliance actions as set forth in § 382.13 of this chapter.

*Provided,* That problems of an overall nature, affecting exporters as a group, will not be considered within this appeals procedure, but may be referred to Commodity Advisory Panels and Commodity Advisory Committees as provided in § 384.1 of this chapter.

(c) *Definitions.* For purposes of this section:

(1) "Regulation" means any provision of a regulation or order published in the FEDERAL REGISTER or announcement thereof in a Current Export Bulletin which is applicable generally to all persons or to a class of persons.

(2) "Administrative action" means any action taken by the Department of Commerce or duly authorized employees thereof under a regulation with respect to a particular person, and covers all actions taken on license applications, including return without action.

(3) "Appeal" means a request for relief as provided in this section from the provision of a regulation or of an administrative action, and includes an initial review.

(4) "Person" shall be construed to mean the singular or plural, an individual, corporation, partnership, association, company, or any other kind of organization whatsoever, including any government or agency thereof.

(5) "Appellant" means a person filing an appeal.

(d) *Establishment of Appeals Board.* The Appeals Board of the Department of Commerce has been established as an impartial body to consider appeals. The Board consists of a Chairman and two other members designated by the Assistant Secretary of Commerce for Administration, and approved by the Secretary of Commerce.

(e) *Who may file and upon what grounds.* Any person affected by a regulation or administrative action of the kind described in paragraph (b) of this section may file an appeal on the ground that:

(1) The regulation or administrative action works an exceptional and unreasonable hardship upon him; or

(2) The regulation or administrative action improperly discriminates against him.

(f) *Preparation of appeals*—(1) *Appeals must be in writing.* All appeals and accompanying material shall be filed in triplicate, unless otherwise indicated below. If the submission of three copies of all accompanying documents or exhibits would place an undue burden on the appellant, waiver of this rule may be requested at the time the appeal is filed. Appeals must be clearly marked "Ref: Appeals," followed by a reference to the regulation (or administrative action thereunder) appealed from, and shall be in letter form.

(2) *Information to be contained in appeal.* All appeals must clearly state (i) the provisions of the regulation or the administrative action appealed from, (ii) the grounds for the appeal, and (iii) the relief requested by the appellant. The various grounds for the appeal should be separately stated and numbered, with a clear and concise statement of all facts alleged in support of each ground.

(3) *Request for oral presentation.* A request for an oral presentation before the Appeals Board, as provided in paragraph (h) (2) of this section, must be in writing and should be filed with the appeal.

(4) *Return without action of appeals improperly prepared or filed.* An appeal not prepared or filed substantially as provided in this section may be returned to the appellant without action.

(5) *Additional requirements for specified appeals.* In addition to the above-described appeals letter, the following papers must be included with appeals of the kind described in subdivisions (i) to (v) of this subparagraph:

(i) Appeals from rejection of license applications must include (*a*) the Notification of Rejection (Form IT– or FC–204A), (*b*) a new original copy of the license application (Form IT– or FC–419) on which should be entered the Bureau of Foreign Commerce old case number in the space provided, and (*c*) an acknowledgment card (Form IT– or FC–116) showing the old case number.

(ii) Appeals from license applications returned without action must include (*a*) the returned-without action license application (Form IT– or FC–419), and (*b*) an acknowledgment card (Form IT- or FC-116) showing the old case number.

(iii) Appeals from multiple commodities or multiple consignee applications disallowed in part must include (*a*) a certified or photostatic copy of the original application (Form IT– or FC–419), (*b*) a complete new application covering only the rejected items, and (*c*) the appropriate Acknowledgment Card (Form IT– or FC–116).

(iv) Appeals from rejection of request for extension of licenses must include the license unless it has been previously surrendered to the Department of Commerce or a Collector of Customs.

(v) Appeals from denial of request to transfer export licenses must include (*a*) letters of request for transfer in triplicate from the transferor and transferee, and (*b*) the original license unless the license is on file with the Bureau of Foreign Commerce.

(g) *When and where to file appeals other than appeals from suspension orders.* Appeals may be filed not later than 20 days after the publication date of a regulation, or the date of transmittal of written notification of administrative action, or of a determination upon the initial review.[1] All appeals shall be filed with and addressed to the Department of Commerce, Washington 25, D. C.

NOTE: The procedure for filing appeals from suspension orders and denials of license privileges is set forth in § 382.13 of this chapter.

(h) *Consideration of appeals.* (1) *Submission of appeals.* All appeals, except appeals from denial of the privilege of obtaining or using export licenses, will be considered and reviewed initially by appropriate officials of the Bureau of Foreign Commerce prior to submission of the appeals to the Appeals Board. The Appeals Board will consider only those appeals in which the appellant expressly requests in writing that his appeal be considered by the Appeals Board. An appellant may request consideration of his appeal by the Appeals Board at the time of original submission or after determination upon the initial review of his appeal by appropriate officials of the Bureau of Foreign Commerce as set forth in this paragraph.

NOTE: The basis for consideration of appeals from suspension orders and denials of licensing privileges is set forth in § 382.13 of this chapter.

(2) *Oral presentations.* In exceptional cases, where the Appeals Board believes it to be necessary to a proper determination, the appellant may be granted an opportunity to present orally further facts and argument. A date will be set and notice of the time and place (in Washington, D. C.) will be given the appellant by the Appeals Board at least 10 days before the date set for the oral presentation. Such presentation will be heard informally; generally no oaths will be administered to witnesses; and the Appeals Board will not necessarily abide by the rules of evidence. Appellants need not be represented by counsel unless they so wish.

(3) *Records.* Records concerning each appeal will be maintained by the Bureau of Foreign Commerce and may be made available for inspection and copying by persons properly concerned upon written application. Such application must be addressed to the Appeals Board, Department of Commerce, Washington 25, D. C., and shall set forth the applicant's interest, a description of the material or information contained in the record to be inspected or copied, and the purpose for which it is sought.

(i) *Decisions.* All appeals will be considered and decided within a reasonable time after they are filed. An appeal may be granted or denied, in whole or in part. Determinations by the Appeals Board shall be final. The determination of an appeal will be communicated to the appellant in writing.

(Sec. 3, 63 Stat. 7, as amended; 50 U. S. C. App. 2023, E. O. 9630, 10 F. R. 12245, 3 CFR, 1945 Supp., E. O. 9919, 13 F. R. 59, 3 CFR, 1948 Supp.)

[1] A rejection of an export license application on the ground that the proposed exportation is contrary to the national interest may be appealed. Such an appeal is appropriate, for instance, if appellant believes he has not furnished sufficient information as to the nature, characteristics, and possible end-use of the commodity in question, and that an appeal may lead to favorable reconsideration. In such cases, upon request and the showing of sufficient justification, the Appeals Board may waive the time limitation.

## PART 384—GENERAL ORDERS

Sec.

384.1 Commodity advisory panels and committees.

384.2 Conduct of business and practice before the Bureau of Foreign Commerce.

AUTHORITY: §§ 384.1 to 384.10 issued under sec. 3, 63 Stat. 7, as amended; 50 U. S. C. App. 2023, E. O. 9630, 10 F. R. 12245, 3 CFR, 1945 Supp., E. O. 9919, 13 F. R. 59, 3 CFR, 1948 Supp.

§ 384.1 *Commodity advisory panels and committees*—(a) *Purpose.* (1) The purpose of this section is to establish a procedure whereby the Bureau of Foreign Commerce of the Department of Commerce may consult with the export trade and obtain advice and recommendations concerning export licensing policies and procedures under the Export Control Law.

(2) The provisions of this section are not to be construed as prohibiting individuals or groups of individuals from seeking discussions with employees of the Bureau of Foreign Commerce.

(b) *Organization of the panels and committees* — (1) *Representation by commodities.* It is intended, for convenient operation and size, to provide representation of the export trade by commodities. Wherever practicable, segments of the trade handling different commodities (or groups of commodities) will be represented by separate panels or committees. Where panels are formed, the membership may be called upon to meet as a whole, or committees may be organized from among the members to consider specific problems as they arise. The panels and committees will be selected by the Bureau of Foreign Commerce.

(2) *Standards of selection.* As the purpose of the panels and committees is to give advice and make recommendations to the Bureau of Foreign Commerce affecting the trade as a whole, or segments thereof, the members of the panels and committees will be selected in an effort to obtain advice and recommendations which will represent the viewpoint of all parts of the trade involved. The panels and committees will be formed of the minimum number of persons necessary to represent a fair cross-section of the trade in the commodity (or groups of commodities) from the standpoints of (i) large, medium, and small-sized companies, (ii) geographical distribution, (iii) segments of the export trade involved—e. g., by types of exporters (such as manufacturers, manufacturers' representatives, merchant exporters, combination export managers, etc.), (iv) by types of commodities, and (v) trade association membership and non-membership.

(3) *Special conferences.* If export trade advice is sought on a special problem, and there is no foreseeable need to seek the continuing advice of the trade, a special conference may be called. Except for omission of formal establishment of a panel or committee, the procedure for calling and conducting a special conference shall be the same as set forth under the provisions of this section.

(4) *Representation of small business.* In forming commodity advisory panels and committees, the Bureau of Foreign Commerce will be governed by the principles of Senate Concurrent Resolution 14 (80th Congress) and the President's memorandum to heads of Executive Departments and Agencies of December 12, 1947, with respect to the representation of small business on Government committees.

(5) *No compensation allowed.* Members of the panels and committees pay their own expenses and are entitled to no compensation for their services.

(c) *Functions of the panels and committees*—(1) *Authorized activities.* The functions of commodity advisory panels and committees formed by the Bureau of Foreign Commerce under this section are to give advice and make recommendations through one or more commodity advisory committees to the Bureau of Foreign Commerce, at committee meetings, on export licensing policies and procedures affecting those parts of the export trade represented by the committee. Where deemed appropriate, in view of the nature of a specific licensing policy or procedure, the Bureau of Foreign Commerce will authorize the holding of full panel meetings.

(2) *Unauthorized activities.* (i) No other activities by these commodity advisory panels and committees or by their members are sponsored or authorized by the Department of Commerce or the Bureau of Foreign Commerce. No meetings of these commodity advisory panels and committees, or any part thereof, are sponsored or authorized by the Department of Commerce or the Bureau of Foreign Commerce unless such meetings are called and conducted by appropriate officials of the Bureau of Foreign Commerce in accordance with the provisions of this section.

(ii) The panels and committees are not authorized to determine policies for the export trade nor are they authorized to compel or coerce any person to comply with any request, order, or regulation made by the Department of Commerce or the Bureau of Foreign Commerce.

(d) *Meetings of the panels and committees*—(1) *Calling of meetings.* (i) Commodity advisory panel meetings and commodity advisory committee meetings will be called by the Bureau of Foreign Commerce in connection with the promulgation of export licensing policies or procedures affecting the parts of the export trade represented by the panel or committee, as the case may be, except where the necessary timing or other public exigency does not permit such prior consultation.

(ii) A meeting of a trade advisory panel or committee may be proposed by any three of its members. Such proposal should be addressed to the Government presiding officer and state the reasons for proposing the meeting. The Government presiding officer is responsible for determining whether a meeting should be called.

(2) *Agenda and presiding officer.* (i) The agenda of the meeting will be prepared by the Bureau of Foreign Commerce. A representative of the Bureau of Foreign Commerce will preside at every panel meeting and every committee meeting.

(ii) Prior to a meeting, members of a panel or committee may propose subjects for the agenda to the Government presiding officer, but during a meeting may not introduce any subject not included on the agenda.

(3) *Attendance at meetings.* (i) Attendance at meetings shall be limited to duly appointed members and invited Government representatives. The attendance of other persons at meetings, such as industry or trade observers or alternates for accredited members, is not authorized. If it is essential for the purpose of a particular meeting to invite a non-member expert or technician who can provide advice concerning a specialized subject, a special written invitation from the Bureau of Foreign Commerce will be required requesting the attendance of such person at the meeting.

(ii) A meeting of a segment or segments of an advisory panel or committee may be called to discuss subjects of interest only to that part of the trade, provided that the segment of the trade is representative, or that additional representatives are appointed in order—to make it representative.

(4) *Conduct during meetings.* During a meeting, members are restricted to expressions of advice and recommendations and may not make resolutions nor shall they submit or request submission of a vote regarding a recommendation under discussion.

(5) *Minutes.* The Bureau of Foreign Commerce will keep minutes of each meeting and, where practicable, will make summaries available to members of the commodity advisory panel, the committee, the export trade, and the press.

§ 384.2 *Conduct of business and practice before the Bureau of Foreign Commerce*—(a) *Activities of persons appearing before the Bureau of Foreign Commerce in connection with export control matters*—(1) *Who may be excluded.* Any person, whether acting on his own behalf or on behalf of another, who shall be found guilty of engaging in any unethical activity or who shall be demonstrated not to possess the required integrity and ethical standards may be excluded from (denied) export privileges on his own behalf or may be excluded from practice before the Bureau of Foreign Commerce on behalf of another, in connection with any export control matter, or both, as provided in § 382.1 of this chapter.

(2) *Grounds for exclusion.* Among the grounds for exclusion are the following:

(i) Inducing or attempting to induce by gifts, promises, bribes, or otherwise any officer or employee of the Bureau of Foreign Commerce or any customs or post office official to take any action with respect to the issuance of licenses or any other aspects of the administration of the Export Control Law, whether or not in violation of any regulation;

(ii) Offering or making gifts or promises thereof to any such official or employee for any other reason;

(iii) Soliciting by advertisement or otherwise the handling of business before the Bureau of Foreign Commerce on the representation, express or implied, that such person, through personal acquaintance or otherwise, possesses special influence over any officer or employee of the Bureau of Foreign Commerce.

(iv) Charging or proposing to charge for any service performed in connection with the issuance of any license any fee wholly contingent upon the granting of such license and the amount or value thereof. This provision will not be construed to prohibit the charge of any fee agreed to by the parties; provided that the out-of-pocket expenditures and the reasonable value of the services performed, whether or not the license is issued and regardless of the amount thereof, are fairly compensated; and

(v) Knowingly violating or participating in the violation of, or an attempt to violate, any regulation with respect to the exportation of commodities, including the making of or inducing another to make any false representations to facilitate any exportation in violation of the Export Control Law or any order or regulation issued thereunder.

(3) *Definition.* As used in this section, the terms "practice before the Bureau of Foreign Commerce" and "appear before the Bureau of Foreign Commerce" include (i) the submission on behalf of another of applications for export licenses or other documents required to be filed with the Bureau of Foreign Commerce, or the execution of the same; (ii) conferences or other communications on behalf of another with officers or employees of the Bureau of Foreign Commerce for the purpose of soliciting or expediting approval by the Bureau of Foreign Commerce of applications for exports licenses or other documents, or with respect to quotas, allocations, requirements or other export control actions, pertaining to matters within the jurisdiction of the Bureau of Foreign Commerce; (iii) participation on behalf of another in any proceeding pending before the Bureau of Foreign Commerce; (iv) the submission to a customs official on behalf of another of a license or Shipper's Export Declaration or other export control documents.

(4) *Proceedings.* All proceedings under this section shall be conducted in the same manner as provided in Part 382 of this chapter.

(b) *Former employees.* (1) No person shall appear or be permitted to appear before the Bureau of Foreign Commerce, Department of Commerce, as the agent, attorney, or representative of any individual, corporation, partnership,

or any group or body of persons, other than the United States or agency thereof, or public international organizations, as designated by Executive order (including the United Nations and its specialized agencies), if such person:

(i) Is, or at any time within one year prior thereto was, a full-time or part-time, compensated or uncompensated officer or employee of the Bureau of Foreign Commerce or any of its predecessor or constituent agencies and such relationship or employment was terminated subsequent to May 24, 1951; or

(ii) Has at any time been officially associated with the specific transaction or matter to which such appearance relates, as a full-time or part-time, compensated or uncompensated officer or employee of the Bureau of Foreign Commerce or any of its predecessor or constituent agencies.

(2) Notwithstanding the prohibition contained in this paragraph, the Bureau of Foreign Commerce may, in exceptional cases and upon receipt of a sworn written application setting forth the facts, grant to a former officer or employee disqualified under this section, written permission to appear before the Bureau of Foreign Commerce on behalf of another person for a specific or limited purpose, where in its opinion such permission is necessary to prevent injustice or unnecessary hardship.

(3) As used in this paragraph, the term "appear before the Bureau of Foreign Commerce" shall have the same meaning as the definition in paragraph (a) (3) of this section.

---

PART 385—EXPORTATIONS OF TECHNICAL DATA

Sec.
385.1 Definitions.
385.2 General Licenses GTDP, GTDU, and GTDS.
385.3 Security provisions for certain types of technical data.
385.4 Exportations to Subgroup A destinations.
385.5 Presentation of Shipper's Export Declaration.
385.6 Reexportations.

AUTHORITY: §§ 385.1 to 385.6 issued under sec. 3, 63 Stat. 7, as amended; 50 U. S. C. App. 2023, E. O. 9630, 10 F. R. 12245, 3 CFR, 1945 Supp., E. O. 9919, 13 F. R. 59, 3 CFR, 1948 Supp.

§ 385.1 *Definitions*—(a) *Technical data.* "Technical data" means any professional, scientific or technical information, including any model, design, photograph, photographic negative, document or other article or material, containing a plan, specification, or descriptive or technical information of any kind which can be used or adapted for use in connection with any process, synthesis, or operation in the production, manufacture, utilization, or reconstruction of articles or materials. As used in this part, technical data do not include "classified" technical data, i. e., technical data which have been officially assigned a security classification, i. e.: "top secret," "secret," or "confidential," by an officer or agency of the United States Government.

(b) *Exportation of technical data.*[1][2] "Exportation of technical data" is defined as any release of unclassified technical data for use outside the United States (except Canada[3]) and includes the actual shipment out of the United States as well as the furnishing of data in the United States to persons with the knowledge or intention that the persons to whom it is furnished will take such data out of the United States.

§ 385.2 *General Licenses GTDP, GTDU, and GTDS*[4]—(a) *General License GTDP; unclassified technical data generally available in published form.* A general license designated GTDP is hereby established authorizing the exportation to all destinations of unclassified technical data generally available in published form, provided such technical data are (1) sold at newsstands or bookstores; or (2) available by subscription or purchase without restrictions to any person or available without cost to any person; or (3) granted second class mailing privileges by the U. S. Government; or (4) freely available at public libraries.

(b) *General License GTDU; unclassified technical data either unpublished or not generally available in published form.* A general license designated GTDU is hereby established authorizing the exportation of unclassified technical data, either unpublished or not generally available in published form, to any destination, except a Subgroup A destination.[5]

(c) *General License GTDS; unclassified scientific and educational technical data.* A general license designated GTDS is hereby established authorizing the exportation to all destinations of unclassified scientific and educational technical data involving:

(1) Dissemination of information not directly and significantly related to design, production and utilization in industrial processes, including such dissemination by correspondence and attendance at, or participation in, meetings; or

(2) Instruction in academic institutions and academic laboratories.

NOTE: "Instruction" is interpreted not to include research under contract where the research relates directly and significantly to design, production and utilization in industrial processes.

§ 385.3 *Security provisions for certain types of technical data*—(a) *General.* This section establishes a procedure whereby persons or firms may obtain, through the Bureau of Foreign Commerce, official United States Government opinions as to the desirability of exporting or releasing for use in foreign friendly countries certain types of unpublished technical data which have significance to the common security and defense of the United States.

(b) *Scope.* The scope of this section is concerned with technical data in connection with:

(1) Advanced developments, technology, and production "know-how";

(2) Prototypes; and

(3) Special installations.

NOTE: Official opinions are not necessary in order to export advertising catalogs or pamphlets; sales technical data supporting a proposal or quotation for installation of United States origin equipment; maintenance, repair and operating data for existing installations of United States origin equipment; technical data for the assembly, erection and installation of United States origin equipment licensed for export.

(c) *Substance.* (1) Before completing arrangements to export or release for use in foreign friendly countries any unpublished technical data included in the scope of the security provisions, exporters should request an official opinion from the U. S. Government, through the Bureau of Foreign Commerce, as to the desirability of exporting or releasing the technical data. Requests for official opinion from the U. S. Government shall be submitted by letter, in duplicate, to the Department of Commerce, Bureau of Foreign Commerce, Reference FC–1220, Washington 25, D. C. Information included in these requests will be treated in confidence in order not to disturb competitive relationships.

(2) The letter shall set forth all the necessary facts as may be required to present to the Bureau of Foreign Commerce a complete disclosure of the relationships existing between the applicant and the consignee and to describe adequately the type of technical data to be exported. The letter of explanation should present a composite picture of the kind and types of technical data, the uses for which and by whom such data will be employed, identification of all parties to the transaction, and specification of the conditions or agreements relative thereto.

(3) As a minimum, the letter should include the following information:

(i) A detailed itemization of the technical data to be exported, including a detailed description of the nature of the specific technical data, processes involved, if any, and whether new installations, developments or projects are concerned.

(ii) A list of names and addresses of the firms in foreign countries who will use or see the technical data.

(iii) Whether the technical data will be used abroad in the production of any material or product that is to be exported from the country of ultimate destination, and if so, name the country (ies) to which the material or product is to be exported, and if possible, the estimated quantities of each material or product.

(iv) Whether the technical information is required for the national defense, public health or safety of the country of destination. If the technical data are to be used in a project sponsored by the United States Government, it should be so indicated.

(v) The manner or means by which the information will be furnished to the foreign consignee (i. e., blue prints, specifications, technical aid contracts, manufacturing agreements, patent licensing arrangements, instructional or training material, training in the United States of foreign personnel, personal delivery by United States personnel sent abroad, etc.).

§ 385.4 *Exportations to Subgroup A destinations*[5]—(a) *Scope.* (1) Under the provisions of this section, there is established a procedure for the exportation to Subgroup A destinations of technical data not exportable under General Licenses GTDP or GTDS (See § 385.2).

(2) Pursuant to this procedure, application may be made for a validated license which, if issued, authorizes the exportation of specified technical data to a designated foreign consignee or consignees, within a validity period of six months.

(b) *Application form and acknowledgment card.* An application for a technical data license shall be submitted on Form IT– or FC–419, in duplicate, accompanied by an Acknowledgment Card, Form IT– or FC–116, as described in paragraph (c) of this section, and the letter of explanation described in paragraph (d) of this section.

(c) *Completion of application form and acknowledgment card.* (1) Form IT– or FC–419 shall be completed as provided in § 372.5 of this subchapter except that items 11 (a), (c), (d), 13, and 14 shall be left blank. Item 11 (b) shall contain a general statement which specifies the form(s) of the technical data (blueprints, manuals, etc.). In addition, the words "TD License" shall be entered across the top of Form IT– or FC–419 immediately above the printed words "United States of America".

(2) The Acknowledgment Card, Form IT– or FC–116, shall also be completed as provided in § 372.5 of this subchapter except that the Schedule B Number, processing code, related commodity group number, and commodity description shall be omitted and the symbol "TD" shall be entered in the space provided for the processing code.

(d) *Letter of explanation.* Each application shall be supported by a comprehensive letter of explanation in duplicate, setting forth all the necessary facts as may be required to present to the Bureau of Foreign Commerce a complete disclosure of the relationships existing between the applicant and the consignee and to describe adequately the type of technical data to be exported. The letter of explanation should present a composite picture of the kind and types of technical data, the uses for which such data will be employed, identification of all parties to the transaction, and specification of the conditions or agreements relative thereto.

(e) *Issuance and use of validated licenses.* (1) When an application for a license to export technical data is approved by the Bureau of Foreign Commerce, an export license will be issued on Form IT– or FC–628, authorizing, subject to the provisions of the Export Regulations and to the terms and provisions of such license, the exportation of the types of technical data described therein.

(f) *Export clearance.* The Technical Data license shall be deposited with the Collector of Customs at the port of exit or the Postmaster, as appropriate, before exportation or deposit of the data with the Postmaster for mailing.

(g) *Amendments.* Requests for amendments shall be made in accordance with the provisions of § 380.2 of this subchapter.

(h) *Other applicable provisions.* Insofar as consistent with the provisions of this Section, all of the provisions of the Export Regulations shall apply equally to applications for licenses issued under this section.

§ 385.5 *Presentation of Shipper's Export Declaration.* A Shipper's Export Declaration, in the number of copies set forth in § 379.3 (c) of this subchapter, shall be presented to the Collector of Customs prior to the exportation or release for foreign use of technical data other than by mail, including surface or air parcel post, or by telegram, wireless, cable, or telephone. Except where a shipment is made by mail in accordance with the provisions of § 379.1 (b) (1) (ii) of this subchapter, a Declaration is not required to be presented to the Postmaster.

§ 385.6 *Reexportations*—(a) *Prohibited reexportations.* (1) No exportation may be made under any type of general license with the knowledge or intention that the technical data so exported are to be reexported from the country of destination unless the reexportation has been specifically authorized by the Department of Commerce or is permitted under the provisions of paragraph (b) of this section.

(2) No exportation may be made under any validated license with the knowledge or intention that the technical data so exported are to be reexported from the country stated on the license application, unless the reexportation has been specifically authorized by the Bureau of Foreign Commerce or is permitted under the provisions of paragraph (b) of this section.

(b) *Permissive reexportations.* Any technical data which have been exported from the United States may be reexported from any destination to any other destination provided that, at the time of reexportation, the technical data to be reexported may be exported directly from the United States to the new country of destination under General License GTDP, GTDU or GTDS.

---

PART 398—PRIORITY RATINGS

Sec.
398.1 DO (priority) ratings and allotment symbols (DMS) for MRO supplies for foreign civil air carrier aircraft.
398.2 Defense supporting priority assistance.
398.51 Supplement 1; Countries for which the Civil Aeronautics Administration handles DO ratings or allotment symbols for foreign civil air carrier aircraft.
398.52 Supplement 2; Controlled Materials (Schedule I to DMS Regulation No 1).

AUTHORITY: §§ 398.1 to 398.52 issued under sec. 3, 63 Stat. 7, as amended; 50 U. S. C. App. 2023, E. O. 9630, 10 F. R. 12245, 3 CFR, 1945 Supp., E. O. 9919, 13 F. R. 59, 3 CFR, 1948 Supp.

§ 398.1 *DO (priority) ratings and allotment symbols (DMS) for MRO supplies for foreign civil air carrier aircraft*—(a) *Delegation of authority.* (1) The Civil Aeronautics Administration has delegated to the Bureau of Foreign Commerce, Department of Commerce, the right to assign DO ratings on purchase orders for maintenance, repair, and operating supplies (MRO) and supporting navigational aids for commercial transport aircraft of civil air carriers registered in foreign countries other than those listed in § 398.51. This rating authority will be exercised in accordance with a program established by the Business and Defense Services Administration (formerly National Production Authority), and limited in total dollar value for each calendar quarter.

(2) The Bureau of Foreign Commerce is further authorized to assign allotment symbols for the procurement of controlled materials (see § 398.52) for commercial transport aircraft of civil air carriers registered in foreign countries other than those listed in § 398.51.

(b) *Programs.* (1) The Bureau of Foreign Commerce will consider requests under the Civil Air Carrier Program for Foreign Aircraft for the assignment of:

(i) Allotment symbols for the procurement of controlled materials, and

(ii) DO ratings for commodities other than controlled materials.

(2) When such requests are approved, the Bureau of Foreign Commerce will assign the appropriate allotment symbol or rating, using the following Department of Defense program identification symbols:

A–1 Aircraft Program.
A–7 Electronics and Communications Equipment Program.
B–9 Production Equipment Program.
C–9 Miscellaneous Program.

(c) *Ratings not assigned by Bureau of Foreign Commerce.* Requests for DO

---

[1] License applications or questions as to the exportation of unclassified technical data relating to commodities which are licensed by government agencies other than the Bureau of Foreign Commerce shall be referred to the appropriate government agency for consideration (see § 370.4 of this subchapter). License applications or questions as to the exportation of classified technical data shall be referred to the Office of Munitions Control, Department of State, Washington 25, D. C.

[2] In addition to the regulations issued by the U. S. Patent Office, technical data contained in or related to inventions made in foreign countries or in the United States, are subject to the Bureau of Foreign Commerce regulations covering the exportation of technical data, in the same manner as the exportation of other types of technical data. Patent attorneys and others are advised to consult with the U. S. Patent Office, Department of Commerce, Washington 25, D. C., relative to the U. S. Patent Office regulations concerning the filing of patent applications or amendments in foreign countries.

[3] Exportation or release of technical data for use in Canada is permitted without authorization or license from the Bureau of Foreign Commerce.

[4] A "general license" is a license established by the Department of Commerce for which no application is required and for which no document is granted or issued, available for use by all persons, permitting exportation within the provisions thereof as prescribed in the Export Regulations.

[5] See § 371.3 (a) (2) of this subchapter for listing of destinations in Subgroup A.

ratings or allotment symbols on purchase orders for delivery of maintenance, repair and operating supplies and supporting navigational aids to foreign civil air carriers registered in any of the countries listed in § 398.51 shall be submitted to The Defense Requirements Branch W 195, Civil Aeronautics Administration, Temporary Building T–5, Washington 25, D. C.

(d) *Submission of request for assignment of DO ratings or allotment symbols.* (1) Requests to the Bureau of Foreign Commerce to assign DO ratings or allotment symbols to purchase orders shall be by letter, addressed to the Producers' Equipment Division, Bureau of Foreign Commerce, Department of Commerce, Washington 25, D. C. The following information and documents must be attached to the letter:

(i) Duplicate copies of the purchase order or bill of materials containing the following information:

(*a*) The name of the foreign airline for which materials are required;

(*b*) The supplier's name;

(*c*) Purchase order number of the air carrier;

(*d*) Total dollar value; and

(*e*) End delivery date.

(ii) A statement that the supplier will not deliver the material without a DO rating or allotment symbol and that the air carrier cannot obtain the material from any other source.

(iii) In the case of commodities other than controlled materials, a statement as to whether any of the material covered by the order requires a validated export license from either the Bureau of Foreign Commerce or the Department of State (see § 370.4 (a) of this chapter). If a license is required from the Bureau of Foreign Commerce, submit either a Form IT– or FC–419, Application for Export License, or the Bureau of Foreign Commerce Case Number or export license number; if from the Department of State, furnish the license application number or the export license number.

(iv) In the case of controlled materials, the request for allotment symbol must be submitted simultaneously with the Form IT– or FC–419 when a license is required under the Export Regulations.

(2) In cases when an exporter desires to make shipment of a controlled material not requiring an individual export license (i. e., General Licenses GLV, GO or GRO), the request for the allotment symbol shall specify the net weight, type of controlled material, and Schedule B number.

(3) Suppliers may also request DO ratings or allotment symbols on behalf of the air carrier or its representative by submitting the above information. In such case, the supplier must notify the air carrier or its representative, in writing, that a request for DO rating or allotment symbol has been made and send a copy of such notification to the Producers' Equipment Division, Bureau of Foreign Commerce, Department of Commerce, Washington 25, D. C.

§ 398.2 *Defense supporting priority assistance.* Requests for, or information as to, export priority assistance for approved defense supporting programs should be directed to the Procurement Production Division, Office of Military Assistance Programs, Assistant Secretary of Defense (International Security Affairs), Washington 25, D. C.

§ 398.51 *Supplement 1; Countries for which the Civil Aeronautics Administration handles DO ratings or allotment symbols for foreign civil air carrier aircraft.*

EUROPEAN COUNTRIES

Austria.
Belgium-Luxembourg Economic Union.
Denmark, including Faroe Islands.
France, including the Saar.
Germany (Federal Republic).
Greece, including the Aegean Islands.
Iceland.
Ireland.
Italy.
Netherlands.
Norway, including Spitzbergen.
Portugal, including the Azores.
Sweden.
Switzerland, including Liechtenstein.
Trieste, Free Territory of.
Turkey.
United Kingdom, including the Channel Islands.
Yugoslavia.

OVERSEAS TERRITORIES

Belgian Overseas Territories:
  Belgian Congo.
  Ruanda-Urundi.
British Overseas Territories:
  Gibraltar.
  Malta and Gozo.
  Cyprus.
  British West Africa:
    Nigeria, including British Cameroons.
    Gold Coast, including British Togoland and Ashanti.
    Sierra Leone.
    Gambia.
  Northern Rhodesia.
  Southern Rhodesia.
  Nyasaland.
  British East Africa:
    Kenya.
    Uganda.
    Tanganyika.
    Zanzibar and Pemba.
  Somaliland Protectorate.
  Basutoland, Bechuanaland Protectorate, Swaziland.
  St. Helena, Ascension Island.
  Mauritius and Dependencies.
  Seychelles.
  Aden (Colony and Protectorate).
  Bahrein Island, Kuwait, Qatar and Trucial Oman.
  British Malaya, including Singapore.
  British Borneo (North Borneo, Sarawak and Brunei).
  Hong Kong.
  British Oceania:
    Fiji Islands.
    British Solomon Islands.
    Other British Islands of the Pacific.
  Bermuda.
  British West Indies:
    Bahamas.
    Jamaica and Dependencies.
    Windward Islands, including Dominica.
    Leeward Islands.
    Barbados.
    Trinidad and Tobago.
  British Honduras.
  British Guiana.
  Falkland Islands and Dependencies.
French Overseas Departments, Protectorates and Territories:
  Overseas Departments:
    Algeria.
    French Guiana.
    Guadeloupe.
    Martinique.
    Reunion Island.
  Protectorates:
    French Zone of Morocco.
    Tunisia.
  Overseas Territories:
    Somaliland.
    French West Africa, including French Togo.
    French Equatorial Africa, including French Cameroons.
    Madagascar and Comoro Islands.
    Saint Pierre and Miquelon.
    French Pacific Islands, including New Caledonia and Dependencies.
    French East Indian Possessions.
New Hebrides—Anglo-French Condominium.
Danish Overseas Territory:
  Greenland.
Netherlands Overseas Territories:
  Surinam.
  Netherlands Antilles, including Curacao.
Portuguese Overseas Territories:
  Angola (Portuguese West Africa), including Cabinda.
  Mozambique (Portuguese East Africa).
  Cape Verde Islands and Portuguese Guinea.
  Madeira.
  Sao Thome and Principe.
  Timor.
  Macao.
  Portuguese East India.

FAR EASTERN COUNTRIES

Cambodia, Laos, and Viet-Nam (the area formerly known as Indochina).
Taiwan (Formosa).
Thailand.
Philippines.
Korea, Republic of.

§ 398.52 *Supplement 2; controlled materials*[14] *(Schedule I to DMS Regulation No. 1).*

Carbon steel (including wrought iron):[1]
  (a) Bar, bar shapes.
    Includes:
      Bar, hot-rolled, stock for projectile and shell bodies.[2]
      Bar, hot-rolled, other (including light shapes).
      Bar, reinforcing (straight lengths—as rolled).
      Bar, cold-finished.
  (b) Sheet, strip (uncoated and coated).
    Includes:
      Sheet, hot-rolled.
      Sheet, cold-rolled.
      Sheet, galvanized.
      Sheet, all other coated.
      Sheet, enameling.
      Roofing, galvanized, corrugated, V-crimped channel drains.
      Ridge roll, valley, and flashing.
      Siding, corrugated and brick.
      Strip, hot-rolled.
      Strip, cold-rolled.
      Strip, galvanized.
      Electrical sheet and strip.
      Tin mill black plate.
      Tin plate, hot-dipped.
      Ternes, special coated manufacturing.
      Tin plate, electrolytic.

[14] "Controlled materials" means domestic and imported steel, copper, and aluminum, in the forms and shapes indicated above, whether new, remelted, rerolled or redrawn.

[1] For the purpose of this schedule "carbon steel (including wrought iron)" means any steel customarily so classified and also includes: (1) Ingot iron; (2) all grades of electrical sheet and strip; (3) low-alloy, high-strength steels; and (4) clad and coated carbon steels not included with alloy steels; e. g., galvanized, tin, terne, copper (excluding copper wire mill products) or aluminum clad and/or coated carbon steels). "Low-alloy, high-strength steels" means only the proprietary grades promoted and sold for this purpose.

[2] Includes projectile body stock, sizes under 2⅞ inches and component parts, all sizes.

  (c) Plate.[3]
  (d) Structural shapes,[4] piling.
  (e) Pipe, tubing.[5]
    Includes:
      Standard pipe (including type or couplings furnished by mill).[6]
      Oil country goods (casings, tubular goods, type of couplings furnished by mill).
      Line pipe (including type of couplings furnished by mill).
      Pressure tubing, seamless and welded.
      Mechanical tubing, seamless and welded.
  (f) Wire, wire products.
    Includes:
      Wire, drawn.
      Nails, bright steel wire, steel cut, galvanized, cement-coated, and painted.
      Spikes and brads, steel wire, galvanized, and cement-coated.
      Staples, bright and galvanized (farm and poultry).
      Wire rope and strand.
      Welded wire mesh and woven wire netting.
      Barbed and twisted wire.
      Wire fence, woven and welded (farm and poultry).
      Bale ties.
      Coiled automatic baler wire.
  (g) Tool steel (including die blocks and tool steel forgings).
  (h) Other mill forms and products (not including forgings except for wheels).
    Includes:
      Ingots.
      Billets, shell quality for body stock only.[7]
      Billets, shell quality for component parts and rockets.
      Blooms, slabs, other billets, tube rounds, sheet bars.
      Skelp.
      Wire rod.
      Rails.
      Joint bars (track).
      Tie plates (track).
      Track spikes.
      Wheels, rolled or forged (railroad).
      Axles (railroad).
  (i) Castings (not including cast iron).

Alloy steel[8] (except stainless steel[9]):
  (a) Bar, bar shapes.
    Includes:
      Bar, hot-rolled projectile and shell quality.
      Bar, hot-rolled, other (including light shapes).
      Bar, cold-finished.
  (b) Sheet, strip.
    Includes:
      Sheet, hot-rolled.
      Sheet, cold-rolled.
      Sheet, galvanized.
      Strip, hot-rolled.
      Strip, cold-rolled.
  (c) Plates.[10]
    Includes:
      Rolled armor.
      Other.
  (d) Structural shapes.
  (e) Pipe, tubing.[5]
    Includes:
      Oil-country goods.
      Pressure tubing, seamless and welded.
      Mechanical tubing, seamless and welded.
  (f) Wire.
  (g) Tool steel (including die blocks and tool steel forgings).
  (h) Other mill forms and products (not including forgings except for wheels).
    Includes:
      Ingots.
      Billets, projectile and shell quality.
      Blooms, slabs, other billets, tube rounds, sheet bars.
      Wire rods.
      Rails.
      Wheels, rolled or forged (railroad).
      Axles (railroad).
  (i) Castings.

Nickel-bearing stainless steel:[11]
  (a) Seamless tubing.[5]
  (b) Other mill forms and products (not including forgings).
    Includes:
      Bar, bar shapes (including light shapes).
        Includes:
          Bar, hot-rolled (including light shapes).
          Bar, cold-finished.
      Sheet, strip.
        Includes:
          Sheet, hot-rolled.
          Sheet, cold-rolled.
          Strip, hot-rolled.
          Strip, cold-rolled.
      Plate.[12]
      Structural shapes.[4]
      Tubing (except seamless).[5]
      Wire, wire products.
        Includes:
          Wire, drawn.
          Wire rope and strand.
          Welded wire mesh and woven wire netting.
      Ingots, blooms, billets, tube rounds, sheet bars, wire rods.
  (c) Castings.[13]

Copper and copper-base alloy brass mill products:[14]
  Copper (unalloyed)
    (a) Bar, rod, shapes, wire (except electrical wire).
    (b) Sheet, strip, plate, rolls.
    (c) Pipe, tubing (seamless).
  Copper-base alloy[15]
    (d) Bar, rod, wire, shapes.
    (e) Sheet, strip, plate, rolls, military ammunition cups and discs.
    (f) Pipe, tubing (seamless).

Copper wire mill products:
  All copper wire and cable for electrical conduction, including but not limited to
    Bare and tinned.
    Weatherproofed.
    Magnet wire.
    Insulated building wire.
    Paper and lead power cable.
    Paper and lead telephone cable.
    Asbestos cable.
    Portable and flexible cord and cable.
    Communication wire and cable.
    Shipboard cable.
    Automotive and aircraft wire and cable.
    Insulated power cable.
    Signal and control cable.
    Coaxial cable.
  Copper-clad steel wire containing over 20 percent copper by weight regardless of end use.

[3] Carbon plates not only include the following minimum size specifications, but also floor plates of any thickness:
  0.160 inch or thicker, over 48 inches wide.
  0.230 inch or thicker, over 6 inches wide.
  7.53 pounds per square foot or heavier over 48 inches wide.
  9.62 pounds per square foot or heavier over 6 inches wide.

[4] "Structural shapes" means rolled flanged sections having at least one dimension or their cross section 3 inches or greater, commonly referred to as angles, channels, beams, and wide flange sections.

[5] Steel pipe or tubing exceeding 36 inches O. D. is not a controlled material, but is a Class A product.

[6] Standard pipe includes the following:
  Ammonia pipe.
  Bedstead tubing.
  Driven well pipe.
  Drive pipe.
  Dry kiln pipe.
  Dry pipe for locomotives.
  English gas and steam pipe.
  Furniture pipe.
  Ice machine pipe.
  Mechanical service pipe.
  Nipple pipe.
  Pipe for piling.
  Pipe for plating and enameling.
  Pump pipe.
  Signal pipe.
  Standard pipe coupling.
  Structural pipe.
  Turbine pump pipe.
  Water main pipe.
  Water well casing.
  Water well reamed and drifted pipe.

[7] Includes only projectile body stock, sizes 2⅞ inches and larger, rounds, and round-cornered squares.

[8] For purposes of this schedule "alloy steel" means steel containing 50 percent or more of iron or steel and any one or more of the following elements in the following amounts: Manganese, maximum of range in excess of 1.65 percent; silicon, maximum of range in excess of 0.60 percent (excepting electrical sheet and strip); copper, maximum of range in excess of 0.60 percent; aluminum, boron, chromium, cobalt, columbium, molybdenum, nickel, tantalum, titanium, tungsten, vanadium, zirconium, or any other alloying elements in any amount specified or known to have been added to obtain a desired alloying effect. Clad steels which have an alloy steel base or carbon steel for which nickel and/or chromium is contained in the coating or cladding material (e. g., inconel, monel, or stainless) are alloy steels.

[9] "Stainless steel" means heat- and corrosion-resisting steel containing 50 percent or more of iron or steel and 10 percent or more of chromium whether with or without nickel, molybdenum, or other elements. However, stainless steel containing less than 1 percent nickel is not a controlled material, nor is it a Class A or a Class B product.

[10] Alloy steel plates include the following size specifications:
  0.180 inch or thicker, over 48 inches wide.
  0.230 inch or thicker, over 12 inches wide.
  7.53 pounds per square foot or heavier, over 48 inches wide.
  9.62 pounds per square foot or heavier, over 12 inches wide.

[11] "Nickel-bearing stainless steel" means a stainless steel containing 1 percent or more of nickel.

[12] Nickel-bearing stainless steel plates include the following size specifications: 3/16 inch (0.1875) or thicker, over 10 inches wide.

[13] "Nickel-bearing stainless steel castings" means any steel casting which is heat-, corrosion-, or abrasion-resistant, containing 50 percent or more of iron and 8 percent or more of chromium with 1 percent or more of nickel, with or without molybdenum or other alloying elements.

[14] Includes anodes — rolled, forged, or sheared from cathodes.

[15] "Copper-base alloy" means any alloy in the composition of which the percentage of copper metal equals or exceeds 40 percent by weight of the metallic content of the alloy. It does not include alloyed gold produced in accordance with U. S. Commercial Standard CS 67–38.

## PART 399—POSITIVE LIST OF COMMODITIES AND RELATED MATTERS

Sec.

399.1 Appendix A—Positive List of Commodities.
399.2 Appendix B—Commodity Interpretations.
399.3 Appendix C—Commodity Processing Codes.
399.4 Appendix D—Groups of Commodity Processing Codes.

AUTHORITY: §§ 399.1 to 399.4 issued under section 3, 63 Stat. 7, as amended; 50 U. S. C. App. 2023, E. O. 9630, 10 F. R. 12245, 3 CFR, 1945 Supp., E. O. 9919, 13 F. R. 59, 3 CFR, 1948 Supp.

### § 399.1 *Appendix A—Positive List of Commodities.*

GENERAL NOTES TO APPENDIX A

(a) *Schedule B number.* Commodities are listed in numerical order by Schedule B numbers, which appear in the first column of the Positive List of Commodities. These numbers correspond with those shown in the Department of Commerce publication, Schedule B, Statistical Classification of Domestic and Foreign Commodities Exported from the United States, and must be shown on all export license applications.

(b) *Commodity description—(1) Partial coverage of Schedule B number.* Where the commodity description of a Schedule B number on the Positive List of Commodities mentions only a part of the commodities covered by the Schedule B number, only the commodity or commodities specifically mentioned are included on the Positive List.

*Example:* The commodity description in Schedule B under No. 384985 reads "Broad woven fabrics wholly or chiefly of man-made (synthetic) fibers, n. e. c." On the Positive List, nylon cloth specially manufactured for the production of parachutes, is the only commodity shown under this Schedule B number. Therefore, other fabrics classified under this number in Schedule B are not on the Positive List.

(2) *Unnumbered captions.* The unnumbered captions set forth in the "Commodity" column serve only to identify the broad categories of commodities within which the numbered commodities are to be found in Schedule B. .

Only commodities listed opposite Schedule B numbers are on the Positive List.

*Example:* The following unnumbered caption and commodity listing appear on the Positive List:

Abrasive products:
541210 Grinding wheels containing silicon carbide or aluminum oxide.

This means that grinding wheels of the types described above are the only types of abrasive products on the Positive List under this Schedule B number.

(c) *Quantity classifications.* The quantity classification given for each commodity in the "Unit" column must be shown on export license applications. If there is no entry in the unit column, the application should show the unit of quantity commonly used in the trade.

(d) *GLV Dollar Value Limits.* The "GLV Dollar Value Limits" column has reference to the dollar value limits under General License GLV, established by § 371.10 of this chapter.

(e) *Commodity processing Codes.* The commodity processing codes, referred to in the "Processing Code and Related Commodity Group" column, are used to facilitate the routing and processing of export license applications within the Bureau of Foreign Commerce. Related commodities are commodities which have the same processing code symbol and the same number following such symbol.

For each entry there is a four-letter code (e. g., GIEQ, STEE, TRAN), known as the processing code, which must be shown on the application for export license. In many cases this code is followed by a number, which is known as the related commodity group number. This number, which also must be shown on the application, indicates that all entries having the same processing code and number may be entered on a single application for export license. (For complete information on the inclusion of related commodities on a single application, see § 372.5 (f) of this chapter.)

Commodity processing codes, arranged in four groups corresponding to the four product divisions in the Bureau of Foreign Commerce that license the commodities, are shown in § 399.4.

(f) *Validated license required.* The "Validated License Required" column is used to indicate whether a commodity is identified as an RO or R commodity. A validated license is required for the exportation of RO commodities to destinations in both Country Groups R and O. A validated license is required for exportations of R commodities to Country Group R destinations only. However, a validated license is not required if the exportation can be made under one of the general licenses, as set forth in Part 371 of this chapter, or under other provisions permitting the exportation without a license.

The Positive List of Commodities includes all commodities which require a validated export license from the Department of Commerce for shipment to any destination, whether to Country Group R and A destinations or to Country Group R destinations only. (All commodities, whether or not on the Positive List, require validated licenses for export to Hong Kong, Macao, and Subgroup A destinations, unless exportable under a particular general license. See Parts 371 and 385 of this chapter.) (Commodities licensed by other agencies of the government are described in § 370.4 of this chapter.)

(g) *Definitions—(1) Abbreviation "n. e. c."* The abbreviation "n. e. c." appearing in various entries on the Positive List of Commodities means "not elsewhere classified."

(h) *References on the Positive List to special provisions.* Under each commodity group heading on the Positive List, Commodity Group 0 to Commodity Group 9, inclusive, there are references to all Sections containing special provisions for any commodity in that commodity group; i. e., any commodity having a Schedule B number the first digit of which is the same as the commodity group number. The sections referred to are arranged in Part 373 of this chapter, Licensing Policies and Related, Special Provisions, under commodity group headings which correspond with those on the Positive List.

Individual entries subject to some of these special provisions, as well as commodities subject to special types of licenses, are identified by a code letter in the "Commodity Lists" column on the Positive List as follows:

| Code letter | Explanation of code letter | Section |
|---|---|---|
| A | Subject to Import Certificate Delivery Verification procedure. | 373.2 |
| B | (1) Requires prior approval from BFC for shipments under DL project license.<br>(2) Time limit licensing procedure is not applicable. | 374.2<br>Part 377 |
| C | Excepted from the provisions of General License GIT. | 371.9 |
| E | Periodic Requirements licensing procedure is applicable. | Part 376 |
| F | Foreign Distribution licensing procedure is applicable. | Part 378 |
| G | Limits GLV value for O destinations to amounts shown in "GLV dollar-value" column. | 371.10 |

| Dept. of Commerce Schedule B No. | Commodity | Unit | Processing code and related commodity group | GLV dollar-value limits | Validated license required | Commodity lists (for explanation of symbols in this column, see General Notes to Appendix A in this section, supra) |
|---|---|---|---|---|---|---|
| | GROUP 2—VEGETABLE PRODUCTS, INEDIBLE, EXCEPT FIBERS AND WOOD | | | | | |
| | (See special provisions for Commodity Group 2, §§ 373.20–373.23; special destination provisions, §§ 373.65–373.75) | | | | | |
| | *Rubber (natural, allied gums, and synthetics) and manufactures* | | | | | |
| | Crude (natural) rubber and allied gums (report compounded or semiprocessed in 209800): | | | | | |
| 200100 | Crude rubber (report natural liquid latex in terms of total dry latex solids [TDLS].) | Lb. | RUBR 2 | 250 | RO | F |
| | Synthetic rubbers (report synthetic liquid latex in terms of total dry latex solids [TDLS]) (report compounded or semi-processed in 209800): | | | | | |
| 200901 | S-type (copolymers of butadiene and styrene) | Lb. | RUBR 14 | 100 | RO | F |
| 200903 | Butyl (copolymers of isobutylene and isoprene, or other diolefins) | Lb. | RUBR 2 | 100 | RO | A F |
| 200998 | Polytrifluorochlorethylene elastomer | Lb. | RUBR 2 | None | RO | A F G |
| 200998 | Thiokol (organic polysulfides) | Lb. | RUBR 2 | 25 | RO | F |
| 200998 | Silicone | Lb. | RUBR 2 | 500 | RO | A F |
| | Tires, tire casings and inner tubes, new and used (report scrap tires, solid and pneumatic, scrap tire casings and scrap inner tubes, cut or uncut, under 201200): [1] | | | | | |
| 206000 | Pneumatic tires and tire casings: (a) all sizes, combat or run-flat construction; (b) all sizes 650 x 19, 650 x 20, and 700 x 16 of 6-ply rating and over; (c) all sizes 700 x 20, 750 x 20, 900 x 16, 900 x 20 of 8-ply rating and over; (d) size 34 x 7 of 10-ply rating and over; and (e) all sizes 1200 x 20 and 1400 x 20 of 12-ply rating and over (specify type of tire tread design, tire size and ply). | No. | RUBR 10 | 100 | RQ | A F |

[1] Aircraft tires and tire casings, Schedule B No. 206410, and aircraft inner tubes, Schedule B No. 206560, require export authorization from the Department of State. See § 370.4 (a).

| Dept. of Commerce Schedule B No. | Commodity | Unit | Processing code and related commodity group | GLV dollar-value limits | Validated license required | Commodity lists (for explanation of symbols in this column, see General Notes to Appendix A in this section, supra) |
|---|---|---|---|---|---|---|
| | GROUP 4—WOOD AND PAPER—Continued | | | | | |
| | *Paper, related products, and manufactures*—Continued | | | | | |
| 489900 | Paper, paperboard, and products, n. e. c.: Processed paper and uncoated paper which has been creped or otherwise processed (describe fully, stating thickness and whether coated or uncoated) (report uncoated dielectric paper not cut to size or otherwise processed in 418500 and 482700). | Lb. | PULP 1 | 15 | RO | A G |
| | GROUP 5—NONMETALLIC MINERALS | | | | | |
| | (See special provisions for Commodity Group 5, §§ 373.31–373.38; special destination provisions, §§ 373.65–373.75) | | | | | |
| | *Petroleum and products* [1] | | | | | |
| 501200 | Natural gasoline (barrels of 42 gallons) | Bbl. | PETR 1 | [2] 25 | RO | A E F |
| | Refined oils: | | | | | |
| 501400 | Motor fuel and gasoline (report octane rating): Blending agents, of petroleum origin (specify by name) (report antiknock compounds in 829910) | Gal. | PETR 1 | 100 | RO | A F |
| | Aviation motor fuels (report jet fuels in 501800): | | | | | |
| 501610 | 100 or over octane number (barrels of 42 gallons) | Bbl. | PETR 2 | [2] 25 | RO | A C F |
| 501620 | Under 100, not under 90 octane number (barrels of 42 gallons) | Bbl. | PETR 2 | [2] 25 | RO | A C F |
| 501640 | Under 90 octane number (barrels of 42 gallons) | Bbl. | PETR 2 | [2] 25 | RO | A C F |
| 501700 | Automotive, and other motor fuels and gasoline (barrels of 42 gallons) | Bbl. | PETR 1 | [2] 25 | RO | A E F |
| 501800 | Jet fuels, all types (barrels of 42 gallons) | Bbl. | PETR 1 | [2] 25 | RO | A F |
| 502700 | Kerosene, except distillate fuel oil (barrels of 42 gallons) (report distillate fuel oils in 503000; and jet fuel in 501800) | Bbl. | PETR 1 | [2] 25 | RO | A E F |
| | Lubricating oils, except petroleum (report petroleum lubricating oils in 503090; hydraulic oils, except of petroleum origin in 829984): | | | | | |
| | Industrial, except cutting oils (report cutting oils in 504095): | | | | | |
| 503300 | Red and pale oils (including all red or pale lubricating oils, other than those intended for sale, chiefly for use in internal combustion engines), except white mineral oil, medicinal grade (report oils intended for use in internal combustion engines in 503910 and 504030) (see 503910 and 504030) (barrels of 42 gallons) | Bbl. | PETR 3 | 25 | RO | A E F |
| 503400 | Black oils, except paraffin base and dark brown oils, except those intended for use in steam cylinders, for which see 503510 and 503520) (barrels of 42 gallons) | Bbl. | PETR 3 | 25 | RO | A E F |
| 503510 | Cylinder, bright stock (including bright stock and industrial lubricating oils which are predominantly paraffin base, having a Saybolt Universal viscosity at 210° F. of 95 seconds or more) (barrels of 42 gallons) | Bbl. | PETR 3 | 25 | RO | A E F |

[1] Natural gas, Schedule B No. 505300, requires export authorization from the Federal Power Commission. See § 370.4 (a).
[2] The GLV dollar-value limit for shipments to Mexico is $1,000.

|---|---|---|---|---|---|---|
| | GROUP 5—NONMETALLIC MINERALS—con. | | | | | |
| | *Petroleum and products*[1]—Continued | | | | | |
| | Refined oils—Continued | | | | | |
| | Lubricating oils, except hydraulic (report hydraulic oils of petroleum origin in 505900; hydraulic oils, except of petroleum origin in 829984)—Continued | | | | | |
| | Industrial, except cutting oils (report cutting oils in 504095)—Continued | | | | | |
| 503520 | Cylinder, steam-refined stocks (including cylinder stock, steam cylinder oil, gear, and other lubricating oils consisting principally of such stock) (barrel of 42 gallons). | Bbl. | PETR 3 | 25 | RO | A E F |
| 503500 | Insulating or transformer oils | Gal. | PETR 3 | 25 | RO | A E F |
| | Industrial engine lubricating oils: | | | | | |
| 503910 | Diesel engine lubricating oils (report diesel fuel oil in 503000–503100) (barrel of 42 gallons). | Bbl. | PETR 3 | 25 | RO | A E F |
| 503920 | Turbine lubricating oil (barrel of 42 gallons). | Bbl. | PETR 3 | 25 | RO | A E F |
| 503940 | Other industrial engine lubricating oil (barrel of 42 gallons) (specify by name). | Bbl. | PETR 3 | 25 | RO | A E F |
| 503990 | Industrial lubricating oils, n. e. c. (barrel of 42 gallons) (specify by name). | Bbl. | PETR 3 | 25 | RO | A E F |
| 504005 | Aviation engine lubricating oils (barrel of 42 gallons). | Bbl. | PETR 3 | 25 | RO | A C E F |
| 504030 | Automotive engine lubricating oils (barrel of 42 gallons). | Bbl. | PETR 3 | 25 | RO | A E F |
| 504050 | Automotive gear oils (barrel of 42 gallons) (specify by kind and grade). | Bbl. | PETR 3 | 25 | RO | A E F |
| 504090 | Lubricating oils, n. e. c., except in containers of 4 ounces or less (specify by name). | Gal. | PETR 3 | 25 | RO | A E F |
| 504095 | Cutting oils and compounds, petroleum base (report cutting oils and compounds, except petroleum base, in 825000) (specify by name). | Gal. | PETR 3 | 25 | RO | A E F |
| 504100 | Lubricating greases, except graphite lubricants (report graphite lubricants in 548098). | Lb. | PETR 3 | 25 | RO | A E F |
| 505900 | Automatic transmission fluids (all types) | Gal. | PETR | 25 | RO | A E F |
| 505900 | Reference fuels, referee fuels, and calibrating fuels (all types). | Gal. | PETR 1 | 25 | RO | A E F |
| 505900 | Hydraulic fluids or oils (petroleum base) (report other hydraulic fluids or oils in 829984). | Gal. | PETR 1 | 25 | RO | A E F |
| | *Glass and products* | | | | | |
| 523110 | Optical instrument glass blocks, plates (slabs), pressings and moulds (other than rough-moulded lenses and prisms), tinted or untinted, with a unit weight of 1 kg. or more. | No. & Lb. | SATE | 25 | RO | A F |
| 523110 | Optical instrument glass rough-moulded lenses and prisms, tinted or untinted, with a unit weight of 0.5 kg. or more. | No. & Lb. | SATE | 25 | RO | A F |
| 523110 | Synthetic monocrystals of lithium fluoride or calcium fluoride. | Lb. | SATE | None | RO | A C |
| | *Clay and products* | | | | | |
| | Refractories, except graphite (brick and shapes reported in thousands, 9-inch equivalent): | | | | | |
| 536200 | Magnesite brick and shapes composed of 97 percent or more by weight of magnesium oxide. | M | BLDG 31 | None | RO | A B C |
| 536810 | Firebrick and shapes, except plastic, n. e. c., composed of 97 percent or more by weight of beryllium oxide or zirconium oxide, or composed of zirconium oxide stabilized with lime and/or magnesium oxide. | M | BLDG 31 | None | RO | A B C |
| 536830 | High-temperature refractory cements or bonding mortars composed of 97 percent or more by weight of beryllium oxide, magnesium oxide, or zirconium oxide, or composed of zirconium oxide stabilized with lime and/or magnesium oxide (report magnesia cement in 572250). | Lb. | LDG 31 | None | RO | A B C |
| 536850 | Plastic refractories (including fire-brick, shapes, and ramming mixtures) composed of 97 percent or more by weight of beryllium oxide, magnesium oxide, or zirconium oxide, or composed of zirconium oxide stabilized with lime and/or magnesium oxide. | Lb. | BLDG 31 | None | RO | A B C |
| 536890 | Refractories, n. e. c., composed of 97 percent or more by weight of beryllium oxide, magnesium oxide, or zirconium oxide, or composed of zirconium oxide stabilized with lime and/or magnesium oxide (specify by name). | ---------- | BLDG 31 | None | RO | A B C |
| | *Other nonmetallic minerals (precious included)* | | | | | |
| | Abrasives (report abrasive refuse in 596098): | | | | | |
| 540905 | Diamond grinding wheels, sticks, hones, and laps (specify carat weight of contained diamonds) (report loose industrial diamonds in 599005; diamond powder or dust, including compounds, in 540910). | Carat | TOOL 1 | 50 | RO | A |
| 540910 | Diamond powder | Carat | CDGS 2 | None | RO | A B C G |
| 541110 | Fused alumina (aluminum oxide), crude and in grains. | Lb. | MINL 1 | 100 | R | E |
| 541120 | Fused silicon carbide, crude and in grains | Lb. | MINL 1 | 100 | R | E |
| 541140 | Boron carbide | Lb. | MINL 1 | 100 | RO | E |
| | Abrasive products (report abrasive refuse in 596098; and diamond compounds in 540910): | | | | | |
| 541150 | Abrasive pastes, compounds, and cake, incorporating grains of silicon carbide, boron carbide or fused aluminum oxide. | Lb. | CDGS | 100 | R | E |
| 541210 | Grinding wheels containing silicon carbide or aluminum oxide. | Lb. | TOOL | 500 | R | E |
| 541400 | Honing abrasive stones for use on power-driven metalworking machines, and made of, or incorporating, grains of silicon carbide, boron carbide or fused aluminum oxide. | Lb. | TOOL 2 | 500 | R | E |
| 541400 | Other whetstones, sticks, files, and blocks of manufactured abrasives made of, or incorporating, grains of silicon carbide, boron carbide or fused aluminum oxide. | Lb. | CDGS | 100 | R | E |
| 541820 | Abrasive paper, cloth, or combinations thereof, coated with silicon carbide or aluminum oxide, when the largest dimension exceeds 12 inches (reduce different sizes of sheets, pads, rolls, disks, or belts to reams of 480 standard sheets, 9 x 11 inches). | Ream | TOOL | 500 | R | E |
| | Carbon or graphite products (natural and artificial): | | | | | |
| 547300 | Electrodes for furnaces or electrolytic work, artificial graphite, smallest dimension 2 inches or over (specify size and boron content in parts per million). | Lb. | MINL | 100 | RO | A B C E |

[1] Natural gas, Schedule B No. 505200, requires export authorization from the Federal Power Commission. See § 370.4 (f).

| | GROUP 5—NONMETALLIC MINERALS—con. | | | | | |
| | *Other nonmetallic minerals (precious included)*—Continued | | | | | |
| | Carbon or graphite products (natural and artificial)—Continued | | | | | |
| 547400 | Brush stock, artificial graphite, smallest dimension 2 inches or over (specify by name, size and boron content in parts per million). | ---------- | ELME 1 | 50 | RO | A B C F |
| 547800 | Lighting carbons, artificial graphite, smallest dimension 2 inches or over (specify size and boron content in parts per million). | No. | FILM | 25 | RO | A B C F |
| 548098 | Spectroscopic carbons | Lb. | SATE | 25 | RO | A B C F |
| 548098 | Graphite greases and lubricants, petroleum base. | Lb. | PETR | 25 | RO | A F |
| 548098 | Artificial graphite products, n. e. c., in block or rod form, smallest dimension 2 inches or over (specify by name, size and boron content in parts per million). | Lb. | MINL | 100 | RO | A B C E |
| 571410 | Sulfur, crude (containing 85 percent or more sulfur) (report sulfur ores or crude sulfur of less than 85 percent sulfur content in 596098). | L. ton | SALT 36 | 25 | R | E F |
| 571500 | Sulfur, crushed, ground, refined, sublimed and flowers. | Lb. | SALT 36 | 25 | R | E F |
| 572270 | Magnesia cement composed of 97 percent or more by weight of magnesium oxide. | Lb. | BLDG 31 | None | RO | A B C F |
| 572270 | Magnesium oxide, purity 97 percent or higher, except precipitated (report precipitated in 829900). | Lb. | MINL | 50 | RO | A B C |
| 595050 | Quartz crystal, raw | ---------- | RARA 50 | 50 | RO | A C |
| 595090 | Quartz crystal plates (see § 399.2, Interpretation 6). | ---------- | RARA 50 | 100 | RO | A |
| 596098 | Lithium-containing minerals (e. g., amblygonite, spodumene). | ---------- | MINL | 10 | RO | A B C |
| 599005 | Diamonds suitable only for industrial use, n. e. c. | Carat | CDGS | None | RO | A B C G |
| 599010 | Diamonds, rough or uncut, suitable for cutting into gem stones. | Carat | CDGS | None | RO | A C |
| 599098 | Diamond bearings | Carat | CDGS | None | RO | A C |
| 599098 | Synthetic monocrystals of lithium fluoride or calcium fluoride. | Lb. | CDGS | None | RO | A C |
| | GROUP 6—METALS AND MANUFACTURES, EXCEPT MACHINERY AND VEHICLES | | | | | |
| | (See special provisions for Commodity Group 6, §§ 373.39–373.47; special destination provisions, §§ 373.65–373.75) | | | | | |
| | *Iron and steel scrap* | | | | | |
| | Scrap, except tin plated and terne plated scrap (report scrap containing 1 percent or more tungsten in 664581, and 5 percent or more cobalt in 664520) (see § 399.2, Interpretations 10 and 12). | | | | | |
| 601010 | Melting steel scrap (No. 1 heavy and No. 2) | S. ton | STEE 19 | 100 | RO | A |
| 601040 | Baled sheet melting scrap (including detinned, semidetinned, or rusted tin-plated scrap). | S. ton | STEE 19 | 100 | RO | A |
| 601050 | Borings, shovelings, and turnings (steel melting scrap). | S. ton | STEE 19 | 100 | RO | A |
| 601070 | Iron scrap | S. ton | STEE 19 | 100 | RO | A |
| 601090 | Other scrap (including detinned, semidetinned, or rusted tin-plated scrap) (specify type). | S. ton | STEE 19 | 100 | RO | A |
| 601170 | Rerolling material (report relaying rails in 605300). | S. ton | STEE | 100 | RO | A G |
| | *Steel mill products—semifinished* | | | | | |
| | Steel ingots, blooms, billets, slabs, sheet bars, and tinplate bars: | | | | | |
| | Alloy steel including stainless: | | | | | |
| 601702 | Ingots, alloy steel, including stainless, special types only.[4] | S. ton | STEE | 100 | RO | A |
| 601702 | Ingots, other stainless steel containing 1 percent or more nickel. | S. ton | STEE | 100 | RO | |
| 601704 | Billets, projectile and shell steel containing 1 percent or more nickel. | S. ton | STEE | 100 | RO | |
| 601708 | Billets, blooms, slabs, sheet bars, and tinplate bars, alloy steel, including stainless, special types only.[4] | S. ton | STEE | 100 | RO | A |
| 601708 | Billets, blooms, slabs, sheet bars, and tinplate bars, other stainless steel containing 1 percent or more nickel (report projectile and shell steel billets in 601704). | S. ton | STEE | 100 | RO | |
| 601810 | Semifinished material for seamless pipe and tubing, alloy steel, including stainless, special types only.[4] | S. ton | STEE | 100 | RO | A |
| 601810 | Semifinished material for seamless pipe and tubing, other stainless steel containing 1 percent or more nickel. | S. ton | STEE | 100 | RO | |
| 601910 | Wire rods, alloy steel, including stainless, special types only.[4] | Lb. | STEE | 100 | RO | A |
| 601910 | Wire rods, other stainless steel containing 1 percent or more nickel. | Lb. | STEE | 100 | RO | |
| 601950 | Skelp, alloy steel, including stainless, special types only.[4] | Lb. | STEE | 100 | RO | A |
| 601950 | Skelp, other stainless steel containing 1 percent or more nickel. | Lb. | STEE | 100 | RO | |
| | *Steel mill products, rolled and finished* | | | | | |
| | (Include Armco iron, ingot iron, and other iron made in a steel-making furnace) | | | | | |
| | Steel bars, including bar size shapes: | | | | | |
| | Bars, cold finished (all cold drawn or cold rolled flats and rounds in coils or cut to lengths, and special sections): | | | | | |
| 602050 | Stainless steel, special types only.[4] | Lb. | STEE 10 | 100 | RO | A |
| 602050 | Other stainless steel containing 1 percent or more nickel. | Lb. | STEE | 100 | RO | |
| 602090 | Alloy steel, except stainless, special types only.[4] | Lb. | STEE 10 | 100 | RO | A |
| | Bars, hot-rolled, except tool and hollow drill steel bars (all regular bars, including bars in coils and special sections and bar shapes under 3 inches) (report tool steel bars in 602650; hollow drill steel bars in 602670; and special sections and bar shapes, 3 inches and over in 604510–604580): | | | | | |
| 602500 | Stainless steel, special types only.[4] | Lb. | STEE 11 | 100 | RO | A |
| 602500 | Other stainless steel containing 1 percent or more nickel. | Lb. | STEE | 100 | RO | |
| 602630 | Alloy steel, except stainless, special types only (report projectile and shell steel in 602630).[4] | Lb. | STEE 11 | 100 | RO | A |
| 602650 | Tool steel bars, alloy steel, special types only.[4] | Lb. | STEE | 100 | RO | A |
| 602670 | Hollow drill steel bars, alloy steel, special types only.[4] | Lb. | STEE | 100 | RO | A |

[4] For export control purposes, "special types" of alloy steel (including stainless) include the following: (1) AISI types 301, 302, 302B, 303, 303Se, 304, 304L, 305, 308, 309, 309S, 310, 310S, 314, 316, 316L, 317, 321, 347, and 348; (2) molybdenum high-speed tool steel; (3) 19-9 WMo electrode steel; and (4) any alloy steel containing 6 percent or more molybdenum (but 3 percent or more molybdenum in any alloys containing more than 14 percent chromium); or 6 percent or more cobalt; or 0.25 percent or more columbium or tantalum; or nickel-bearing steels, n. e. c., having a nickel content of 6 percent or more and containing a combined nickel chromium content of 22 percent or more.

|---|---|---|---|---|---|---|
| | GROUP 6—METALS AND MANUFACTURES, EXCEPT MACHINERY AND VEHICLES—continued | | | | | |
| | *Steel mill products, rolled and finished*—Con. | | | | | |
| | Steel plates, including boiler plate (hot or cold-rolled), not fabricated: [4] | | | | | |
| 603135 | Stainless steel (including stainless-clad plates), special types only.[4] | Lb. | STEE 9 | 100 | RO | A |
| 603155 | Other stainless steel containing 1 percent or more nickel. | Lb. | STEE | 100 | RO | |
| 603145 | Alloy steel, except stainless, special types only.[4] | Lb. | STEE 9 | 100 | RO | A |
| | Steel sheets, black, ungalvanized (including painted): | | | | | |
| | Stainless steel: | | | | | |
| 603540 | Hot-rolled, special types only.[4] | Lb. | STEE 3 | 100 | RO | A |
| 603540 | Hot-rolled, other stainless steel containing 1 percent or more nickel. | Lb. | STEE 5 | 100 | RO | |
| 603560 | Cold-rolled, special types only.[4] | Lb. | STEE 3 | 100 | RO | A |
| 603560 | Cold-rolled, other stainless steel containing 1 percent or more nickel. | Lb. | STEE 5 | 100 | RO | |
| | Alloy steel, except stainless: | | | | | |
| 603570 | Hot-rolled, special types only.[4] | Lb. | STEE 3 | 100 | RO | A |
| 603580 | Cold-rolled, special types only.[4] | Lb. | STEE 3 | 100 | RO | A |
| 603595 | Electrical (steel) sheets, and strip with a core loss of 0.5 watt per pound at 13,000 gausses and 60 cycles per second or less, or with a thickness of 0.003 inch and less (report punchings in 709920). | Lb. | STEE 2 | 100 | RO | A |
| | Steel strip, coated or uncoated, except electrical (report electrical steel strip in 603595): | | | | | |
| 603710 | Cold-rolled carbon steel, gilding metal clad | Lb. | STEE 6 | 100 | RO | A |
| 603750 | Cold-rolled stainless steel, special types only | Lb. | STEE 8 | 100 | RO | A |
| 603750 | Other cold-rolled stainless steel containing 1 percent or more nickel. | Lb. | STEE 7 | 100 | RO | |
| 603790 | Cold-rolled alloy steel, except stainless, special types only.[4] | Lb. | STEE 8 | 100 | RO | A |
| 603810 | Hot-rolled carbon steel, gilding, metal clad | Lb. | STEE 6 | 100 | RO | A |
| 603850 | Hot-rolled stainless steel, special types only.[4] | Lb. | STEE 8 | 100 | RO | A |
| 603850 | Other hot-rolled stainless steel containing 1 percent or more nickel. | Lb. | STEE 7 | 100 | RO | |
| 603890 | Hot-rolled alloy steel, except stainless, special types only.[4] | Lb. | STEE 8 | 100 | RO | A |
| 604530 | Stainless steel, special types only.[4] | S. ton | STEE 14 | 1,000 | RO | A |
| | Structural shapes and piling: | | | | | |
| | Structural shapes, not fabricated: | | | | | |
| 604530 | Other stainless steel containing 1 percent or more nickel. | S. ton | STEE | 1,000 | RO | |
| 604580 | Alloy steel, except stainless, special types only.[4] | S. ton | STEE 14 | 1,000 | RO | A |
| | Pipe, tubes, and tubing, n. e. c., new and used (except scrap) (report pipe assemblies specially fabricated for particular machines or equipment as parts of such machines or equipment): | | | | | |
| | Pressure tubes and tubing (including boiler tubes and tubing): | | | | | |
| 606110 | Seamless, alloy steel, except stainless, special types only.[4] | Lb. | STEE 12 | 100 | RO | A E |
| 606130 | Welded, alloy steel, except stainless, special types only.[4] | Lb. | STEE 12 | 100 | RO | A E |
| | Oil country pipe (including drill pipe, casing and tubing) (see § 399.2, Interpretation 1): | | | | | |
| 606210 | Seamless casing and tubing, carbon steel | Lb. | STEE 16 | 100 | RO | A E |
| 606210 | Seamless drill pipe, carbon steel | Lb. | STEE 15 | 100 | RO | A E |
| 606230 | Seamless drill pipe, alloy steel, except stainless. | Lb. | STEE 15 | 100 | RO | A E |
| 606230 | Seamless casing and tubing, alloy steel, except stainless. | Lb. | STEE 16 | 100 | RO | A E |
| 606240 | Welded drill pipe, carbon steel | Lb. | STEE 15 | 100 | RO | A E |
| 606240 | Welded casing and tubing, carbon steel | Lb. | STEE 16 | 100 | RO | A E |
| 606260 | Welded drill pipe, alloy steel, except stainless | Lb. | STEE 15 | 100 | RO | A E |
| 606260 | Welded casing and tubing, alloy steel, except stainless. | Lb. | STEE 16 | 100 | RO | A E |
| | Line pipe, carbon and alloy steel, except stainless (if alloy, specify and give analysis) (see § 399.2, Interpretation 1): | | | | | |
| 606270 | Seamless, over 24 inches O. D | Lb. | STEE 17 | 100 | RO | A E |
| 606280 | Welded, over 24 inches O. D | Lb. | STEE 17 | 100 | RO | A E |
| 607430 | Mechanical tubing, alloy steel, except stainless, special types only.[4] | Lb. | STEE | 100 | RO | A E |
| 607500 | Pipe and tubing, stainless steel, special types only.[4] | Lb. | STEE | 100 | RO | A E |
| 607500 | Pipe and tubing, other stainless steel containing 1 percent or more nickel. | Lb. | STEE | 100 | RO | E |
| 607710 | Pipe and tubing, alloy steel, except stainless, special types only.[4] | Lb. | STEE | 100 | RO | A E |
| | Steel wire, n. e. c. (all round, shaped, and flat wire regardless of use) (report electrical insulated wire and cable in 709810–709885): | | | | | |
| 608130 | Uncoated wire, alloy steel, except stainless, special types only.[4] | Lb. | STEE 18 | 100 | RO | A E |
| 608150 | Uncoated wire, stainless steel, special types only.[4] | Lb. | STEE 18 | 100 | RO | A E |
| 608150 | Uncoated wire, other stainless steel containing 1 percent or more nickel. | Lb. | STEE 20 | 100 | RO | E |
| 608210 | Coated wire, except galvanized, alloy steel, including stainless, special types only.[4] | Lb. | STEE 18 | 100 | RO | A E |
| 608210 | Coated wire, except galvanized, other stainless steel containing 1 percent or more nickel. | Lb. | STEE 20 | 100 | RO | E |
| | *Castings and forgings* [6] | | | | | |
| | Castings, iron and steel, rough and semifinished: | | | | | |
| 610491 | Castings, alloy steel, except stainless, special types only.[4] | Lb. | STEE | 100 | RO | A |
| 610492 | Grinding balls, stainless steel, special types only.[4] | Lb. | STEE | 100 | RO | A |
| 610492 | Other castings, stainless steel, special types only.[4] | Lb. | STEE | 100 | RO | A |
| 610492 | Castings, other stainless steel containing 1 percent or more nickel. | Lb. | STEE | 100 | RO | |
| | Forgings, rough and semifinished: | | | | | |
| 610495 | Grinding balls, alloy steel, including stainless, special types only.[4] | Lb. | STEE 1 | 100 | RO | A |
| 610495 | Other forgings, alloy steel, including stainless, special types only.[4] | Lb. | STEE 1 | 100 | RO | A |
| 610495 | Forgings, other stainless steel containing 1 percent or more nickel. | Lb. | STEE | 100 | RO | |

[4] For export control purposes, "special types" of alloy steel (including stainless) include the following: (1) AISI types 301, 302, 302B, 303, 303Se, 304, 304L, 305, 308, 309, 309S, 310, 310S, 314, 316, 316L, 317, 321, 347, and 348; (2) molybdenum high-speed tool steel; (3) 19–9 W Mo electrode steel; and (4) any alloy steel containing 6 percent or more molybdenum (but 3 percent or more molybdenum in any alloys containing more than 14 percent chromium); or 6 percent or more cobalt; or 0.25 percent or more columbium or tantalum; or nickel-bearing steels, n. e. c., having a nickel content of 6 percent or more and containing a combined nickel chromium content of 22 percent or more.

[5] Armor plate, Schedule B No. 603165, requires export authorization from the Department of State. See § 370.4 (a).

[6] Castings and forgings of any articles enumerated in § 370.4 (a) require export authorization from the Department of State.

|---|---|---|---|---|---|---|
| | GROUP 6—METALS AND MANUFACTURES, EXCEPT MACHINERY AND VEHICLES—continued | | | | | |
| | *Aluminum ores, concentrates, scrap, and semifabricated forms*—Continued | | | | | |
| | Aluminum alloy semifabricated forms in which: (1) The average copper content is 1 percent or more irrespective of other elements; (2) the average copper content is less than 1 percent and the zinc content is 4 percent or more, or the silicon content is 3.5 percent or more, or the magnesium content is 0.5 percent or more: | | | | | |
| 630301 | Aluminum plates and sheets, flat and coiled (including corrugated) (0.006 inch and over in thickness) (report perforated sheets in 619950). | Lb. | NONF | 100 | RO | A C E |
| 630310 | Aluminum bars and rods, rolled or drawn (¾ inch and over) (report extruded bars and rods in 630320; aluminum bus bars in 709495). | Lb. | NONF 12 | 100 | RO | A C E |
| 630320 | Aluminum extruded and drawn shapes and tubes, except drawn bars, rods, and wire. | Lb. | NONF 12 | 100 | RO | A C E |
| 630340 | Aluminum castings and forgings, rough and semifinished. | Lb. | NONF | 100 | RO | A C |
| 630610 | Aluminum wire (under ¾ inch) and cable, bare, except aluminum cable, steel reinforced (ACSR) (specify by name) (report welding rods and wire in 619040). | Lb. | NONF | 100 | RO | A C E |
| 630650 | Aluminum semifabricated forms, n. e. c. (specify by name). | Lb. | NONF | 100 | RO | A C |
| | *Copper ores, concentrates, scrap, and semifabricated forms* | | | | | |
| 640100 | Copper ores, concentrates, matte, and other unrefined copper (copper content). | Content Lb. | NONF | 500 | RO | A C |
| 641200 | Copperweld rods for drawing | Lb. | NONF 15 | 100 | RO | A C E |
| 641200 | Refined copper in cathodes, billets, ingots, wire bars and other crude forms (report copper bars except wire bars in 642400). | Lb. | NONF | None | RO | A B C E |
| 641300 | Copper scrap (new and old, including slag) | Lb. | NONF 13 | 500 | RO | A B C |
| 642200 | Copper pipes and tubes (report flexible tubing, except electrical, in 619950; flexible electrical conduit in 709420). | Lb. | NONF 15 | 100 | RO | A C E |
| 642300 | Copper plates, sheets, and strips, including nickel-plated. | Lb. | NONF 15 | 100 | RO | A C E |
| 642400 | Copper rods and bars, n. e. c. (report copper wire bars and copperweld rods for drawing into wire in 641200; copper or copperweld ground rods and copper bus bars in 709495). | Lb. | NONF 15 | 100 | RO | A C E |
| 642510 | Copper wire and cable, bare (report welding rods and wires in 619040).[7] | Lb. | NONF 15 | 100 | RO | C |
| 642900 | Copper castings and forgings, rough and semifinished. | Lb. | NONF | 200 | RO | A C E |
| | *Copper-base alloys (including brass and bronze) scrap, and semifabricated forms* | | | | | |
| 644000 | Copper-base alloy scrap (new and old) (see § 399.2, Interpretations 10 and 12). | Lb. | NONF 13 | 500 | RO | A B C |
| 644100 | Copper-base alloy ingots | Lb. | NONF | 500 | RO | A B C E |
| 644100 | Other copper-base alloy crude forms | Lb. | NONF 15 | 100 | RO | A B C E |
| 644900 | Copper-base alloy bars, rods, and other shapes, extruded, rolled and drawn. | Lb. | NONF 15 | 100 | RO | A C E |
| 645000 | Copper-base alloy plates, sheets, and strips | Lb. | NONF 15 | 100 | RO | A C E |
| 645300 | Copper-base alloy pipes and tubes (including pipe coils) (report flexible tubing, except electrical, in 619950; and flexible electrical conduit in 709420). | Lb. | NONF 15 | 100 | RO | A C E |
| 645710 | Phosphor bronze cable, bare[7] | Lb. | NONF | 100 | RO | A |
| 645710 | Other copper-base alloy wire and cable, bare (report welding rods and wires in 619040).[7] | Lb. | NONF 15 | 100 | RO | C |
| 647913 | Copper-base alloy castings and forgings, rough and semifinished (specify copper content). | Lb. | NONF | 200 | RO | A C E |
| | *Nickel ores, concentrates, scrap, and semifabricated forms* | | | | | |
| 654501 | Nickel ore, concentrates, and matte | Lb. | NONF | 100 | RO | A |
| 654502 | Nickel metal in ingots, bars, rods, and other crude forms, and scrap except spent nickel catalyst. | Lb. | NONF | None | RO | A B C G |
| 654502 | Nickel alloy metals in ingots, bars, rods, and other crude forms and scrap (report nickel silver in 644000–645000). | Lb. | NONF | None | RO | A B C G |
| 654504 | Nickel metal sheets, plates, and strips | Lb. | NONF | 100 | RO | A G |
| 654504 | Nickel alloy metal sheets, plates, and strips (report nickel-silver in 644000-645000). | Lb. | NONF | 100 | RO | A G |
| 654508 | Nickel-chrome electric resistance wire, except insulated (report insulated wire in 709885). | Lb. | NONF | 100 | RO | A G |
| 654519 | Nickel and nickel alloy semifabricated forms, n. e. c. (specify by name and nickel content) (report cupro-nickel wire in 645710). | Lb. | NONF | 100 | RO | A B C G |
| | *Other nonferrous ores, concentrates, scrap and semifabricated forms (except precious)* | | | | | |
| | Beryllium: | | | | | |
| 664505 | Ores and concentrates | Lb. | MINL | 500 | RO | A B C |
| 664506 | Beryllium metal in crude form and scrap | Lb. | MINL | 500 | RO | A B C |
| 664506 | Beryllium alloys in crude form and scrap, containing more than 50 percent beryllium (report beryllium copper in 644000–647950). | Lb. | MINL | 500 | RO | A B C |
| 664509 | Beryllium metal semifabricated forms, n. e. c. (specify by name). | Lb. | MINL | 500 | RO | A B C |
| 664509 | Beryllium alloy semifabricated forms, n. e. c., containing more than 50 percent beryllium (specify by name) (report beryllium copper semifabricated forms in 644000–647950). | Lb. | MINL | 500 | RO | A B C |
| | Bismuth: | | | | | |
| 664510 | Matte, slimes, residues, and base bullion | Lb. | MINL | 100 | RO | C |
| 664512 | Metals and alloys | Lb. | MINL | 100 | RO | C |
| | Cobalt: | | | | | |
| 664526 | Cobalt dental alloys | Lb. | MINL | 100 | RO | A G |
| 664526 | Ores, concentrates, metal, and other alloys in crude form. | Lb. | MINL | 100 | RO | A |
| 664526 | Cobalt-bearing scrap metal (includes cobalt scrap containing 5 percent or more cobalt by weight). | Lb. | MINL | None | RO | A B G |
| 664529 | Semifabricated forms, n. e. c. (specify by name). | Lb. | MINL | 100 | RO | A |
| | Columbium or niobium: | | | | | |
| 664530 | Ores and concentrates (report slag in 664998) | Lb. | MINL | 100 | RO | A |
| 664533 | Metals and alloys in crude form | Lb. | MINL | 100 | RO | A |
| 664535 | Semifabricated forms, n. e. c. (specify by name). | Lb. | MINL | 100 | RO | A |

[7] Electric conducting cable suitable for sweeping magnetic mines or for harbor defense requires export authorization from the Department of State. See § 370.4 (a).

| 701105 | Electric generating sets powered by diesel engines, 5,000 kilowatts and over (specify by rating) (report switchgear equipment not designed as an integral component, whether or not shipped simultaneously with the generator set, in 703110–703300). | No. | ELME 1 | None | RO | A F |
| | Transforming or converting apparatus, n. e. c., and parts, n. e. c.: | | | | | |
| 702725 | Motor generator sets having motors of 500 up to but not including 5,000 horsepower. | No. | ELME 1 | None | R | F |
| 702725 | Motor generator sets having motors of 5,000 horsepower and over. | No. | ELME 1 | None | RO | A F |
| 702725 | Synchronous condensers, 5,000 kilowatts and over (specify by rating). | No. | ELME 1 | None | RO | A F |
| | Electrical quantity and characteristic measuring and testing instruments, and parts (report automotive-type electrical testing instruments in 793185): | | | | | |
| 703620 | Electrometers, except student type | No. | ELME 3 | None | RO | A C |
| 703620 | Instruments capable of measuring currents of less than 1 micromicroampere.[13] | No. | ELME 3 | None | RO | A C |
| 703620 | Other electrical quantity indicating instruments, nonrecording, n. e. c., except battery testers, battery testing voltmeters, and cell testers (specify by name). | No. | ELME 3 | 25 | RO | A F |

[11] Monazite sand and other ores containing thorium, and carnotite, pitchblende, and other ores containing uranium, require export authorization from the Atomic Energy Commission. See § 370.4 (d).

[12] Plutonium, uranium, and thorium metals and alloys, require export authorization from the Atomic Energy Commission. See § 370.4 (d).

[13] All outstanding licenses issued by the Atomic Energy Commission prior to Sept. 26, 1955, remain valid until they expire or are revoked, and any requests for amendments to such licenses shall be made to the AEC.

| | GROUP 7—MACHINERY AND VEHICLES—continued | | | | | |
| | *Electrical machinery and apparatus*—Continued | | | | | |
| | Electrical quantity and characteristic measuring and testing instruments, and parts (report automotive-type electrical testing instruments in 793185)—Continued | | | | | |
| 703825 | Electrical testing instruments, n. e. c. (specify by name). | No. | ELME 3 | 25 | RO | A F |
| 703850 | Parts and accessories, n. e. c., specially fabricated for electrometers, except student type. | ---------- | ELME 3 | 25 | RO | A C |
| 703850 | Parts and accessories, n. e. c., specially fabricated for instruments capable of measuring currents of less than 1 microamicroampere.[13] | ---------- | ELME 3 | 25 | RO | A C |
| 703850 | Other parts and accessories, n. e. c., specially fabricated for electrical quantity indicating and recording instruments, and electrical testing instruments (specify by name). | ---------- | ELME 3 | 25 | RO | A F |
| | Motors and controls, n. e. c., and parts (report autosyns, selsyns, and other synchronous transmission systems in 709998): | | | | | |
| | Motors, except electric propulsion motors for land transportation vehicles: | | | | | |
| 704300 | Reversible type, liquid-cooled and totally enclosed, 1,000 horsepower and over (specify by rating). | No. | ELME 2 | None | RO | A F |
| 704300 | Other motors, 500 up to but not including 5,000 horsepower (specify by rating). | No. | ELME 2 | None | R | F |
| 704300 | Other motors, 5,000 horsepower and over (specify by rating). | No. | ELME 2 | None | RO | A F |
| | Industrial motor controls (consisting of starting, speed regulating, stopping, and protecting devices), and parts: | | | | | |
| 704810 | Steel mill and other materials handling equipment controls, and specially fabricated parts and accessories, n. e. c., for motors 500 up to but not including 5,000 horsepower (specify by name and rating). | ---------- | ELME 2 | 100 | R | F |
| 704810 | Steel mill and other materials handling equipment controls, and specially fabricated parts and accessories, n. e. c., for motors 5,000 horsepower and over (specify by name and rating). | ---------- | ELME 2 | 100 | RO | A F |
| 704820 | Special-purpose controls, n. e. c., and specially fabricated parts and accessories, n. e. c., for motors 500 up to but not including 5,000 horsepower (specify by name and rating). | ---------- | ELME 2 | 100 | R | F |
| 704820 | Special-purpose controls, n. e. c., and specially fabricated parts and accessories, n. e. c., for motors 5,000 horsepower and over (specify by name and rating). | ---------- | ELME 2 | 100 | RO | A F |
| 704850 | Industrial motor controls, n. e. c., and specially fabricated parts and accessories, n. e. c., for motors 500 up to but not including 5,000 horsepower (specify by name and rating). | ---------- | ELME 2 | 100 | R | F |
| 704850 | Industrial motor controls, n. e. c., and specially fabricated parts and accessories, n. e. c., for motors 5,000 horsepower and over (specify by name and rating). | ---------- | ELME 2 | 100 | RO | A F |
| 705500 | Parts and accessories, n. e. c., specially fabricated for motors 500 up to but not including 5,000 horsepower (specify by name and rating). | ---------- | ELME 2 | 100 | R | F |
| 705500 | Parts and accessories, n. e. c., specially fabricated for motors 5,000 horsepower and over (specify by name and rating). | ---------- | ELME 2 | 100 | RO | A F |
| 706305 | Sealed beam headlamps suitable for mounting on automotive vehicles. | No. | TRAN 6 | 250 | R | E |
| 706590 | Molybdenum filaments | ---------- | CDGS | 100 | RO | A |
| 706590 | Tungsten filaments, coated and uncoated | ---------- | CDGS | 100 | RO | A E |
| 707415 | Electric industrial melting and refining furnaces (specify by name). | No. | ELME 7 | None | RO | A B C |
| 707425 | Electric industrial heat-treating furnaces (specify by name). | No. | ELME 7 | 100 | RO | A B C |
| 707435 | Parts, n. e. c., specially fabricated for electric industrial melting and refining furnaces. | ---------- | ELME 7 | 100 | RO | A B C |
| 707435 | Parts, n. e. c., specially fabricated for electric industrial heat-treating furnaces. | ---------- | ELME 7 | 100 | RO | A B C |
| | X-ray apparatus, and parts, n. e. c.: | | | | | |
| 707507 | X-ray tubes designed or intended for use in X-ray diffraction analysis. | No. | SATE 1 | None | RO | A F |
| 707509 | Parts, n. e. c., specially fabricated for X-ray diffraction tubes and valves (specify by name) (report glass tube blanks in 529450). | ---------- | SATE 1 | None | RO | A E F |
| 707550 | X-ray diffraction units | No. | SATE 1 | None | RO | A F |
| 707550 | Parts, n. e. c., specially fabricated for X-ray diffraction units. | ---------- | SATE 1 | None | RO | A F |
| 707550 | Dosimeters and dosimeter charger readers (report dosimeter charger readers not adaptable to X-ray in 919080).[13] | No. | SATE | None | RO | A B C |
| 707550 | Parts, n. e. c., specially fabricated for dosimeters and dosimeter charger readers (report parts for dosimeter charger readers not adaptable to X-ray in 919080).[13] | ---------- | SATE | 25 | RO | A B C |
| 707590 | Short wave diathermy units | No. | SATE 1 | None | RO | A F |
| 707590 | Parts, n. e. c., specially fabricated for short wave diathermy units. | ---------- | SATE 1 | 25 | RO | A F |
| | Radio and television apparatus (report tubes, capacitors (condensers), inductors (transformers and coils) in 707805-707915; radar equipment in 708410; antenna towers in 618961; and television picture projectors in 900700-900900):[14] | | | | | |
| 707608 | Radio and television broadcast transmitting equipment, designed for operation at frequencies above 216 mc; and specially fabricated parts. | ---------- | RARA 50 | 100 | RO | A F |
| 707608 | Microwave relay and transmitter link equipment. | ---------- | RARA 50 | 100 | RO | A F |
| | Radio communication equipment, n. e. c. (report radar equipment in 708410; broadcast equipment in 707608; automobile and home-type radio receivers in 707635-707719): | | | | | |
| 707613 | Shipborne transmitters and transceivers (transmitter-receivers) designed to operate at frequencies of 30 mc and over, and specially fabricated parts. | ---------- | RARA 50 | 100 | RO | A F |
| 707617 | Land-type radio communication transmitters and transceivers (transmitter-receivers) designed to operate at frequencies of 30 mc and over, and specially fabricated parts. | ---------- | RARA 50 | 100 | RO | A F |
| 707625 | Radio beacon (beam) transmitters, and specially fabricated parts and accessories, n. e. c. | ---------- | RARA 50 | 100 | RO | A F |

[13] All outstanding licenses issued by the Atomic Energy Commission prior to Sept. 26, 1955, remain valid until they expire or are revoked, and any requests for amendments to such licenses shall be made to the AEC.

[14] See § 370.4 (a) for commodities under this heading which require export authorization from the Department of State.

|---|---|---|---|---|---|---|
| | GROUP 7—MACHINERY AND VEHICLES—continued | | | | | |
| | *Electrical machinery and apparatus*—Continued | | | | | |
| | Electronic-type components:[14] | | | | | |
| | Electron tubes (report X-ray tubes in 707505 and 707507): | | | | | |
| 707303 | Receiving-type tubes, except nonmilitary versions of the types listed in § 399.2, interpretation 13 (specify by type number) (report television picture tubes in 707815). | No. | RARA 51 | 50 | RO | A F |
| 707812 | Television camera tubes (cathode ray) (specify by type number). | No. | RARA 51 | None | RO | A F |
| 707820 | Cathode-ray tubes, n. e. c. (specify by type number) (report television cathode-ray tubes in 707812 and 707815). | No. | RARA 51 | 50 | RO | A F |
| 707830 | Electrometer tubes designed to operate with grid currents of less than 1 micromicroampere.[13] | No. | RARA 51 | 50 | RO | A B C |
| 707830 | Geiger-Mueller counter tubes[13] | No. | RARA 51 | 50 | RO | A B C |
| 707830 | Photomultiplier tubes having photocathode sensitivity of 10 or more microamperes per lumen and an average amplification greater than 10.[13][15] | No. | RARA 51 | 50 | RO | A B C |
| 707830 | Electron tubes, n. e. c. (specify by type number).[13] | No. | RARA 51 | 50 | RO | A F |
| 707840 | Tantalum rings, for radio transmitter and radio receiver tubes. | ---------- | MINL | 100 | RO | A |
| 707840 | Other parts, n. e. c., specially fabricated for radio and television receiving tubes (specify by name). | ---------- | RARA 51 | 100 | RO | |
| 707840 | Other parts, n. e. c., specially fabricated for electron tubes (specify by name) (report glass electron tube blanks in 529450). | ---------- | RARA 51 | 100 | RO | A |
| 707850 | Crystal diodes and transistors (semiconductors, n. e. c.). | No. | RARA 51 | 50 | R | A F |
| 707905 | Precision capacitors, fixed or variable, with a rated accuracy better than plus or minus 1 percent. | No. | RARA 52 | 100 | RO | A F |
| 707910 | Resistors of value of 1,000 megohms or over[13] | No. | RARA 52 | 50 | RO | A B C |
| 707910 | Resistors, temperature sensitive | No. | RARA 52 | 100 | RO | A F |
| 707910 | Precision resistors, fixed or variable, with a rated accuracy better than plus or minus 1 percent.[13] | No. | RARA 52 | 100 | RO | A F |
| 707915 | Pulse transformers | No. | RARA 52 | 100 | RO | A F |
| 707915 | Precision inductors, with a rated accuracy better than plus or minus 1 percent. | No. | RARA 52 | 100 | RO | A F |
| | Components, n. e. c., for electronic apparatus and specially fabricated parts, n. e. c.: | | | | | |
| 708010 | Parts, n. e. c., specially fabricated for transistors. | ---------- | RARA 52 | 25 | RO | A F |
| 708010 | Waveguides | ---------- | RARA 52 | 100 | RO | A F |
| 708010 | Transformer and choke cores | ---------- | RARA 52 | 100 | R | F |
| | Electronic detection and navigational apparatus, and specially fabricated parts, n. e. c. (report spare and replacement tubes in 707803-707830): | | | | | |
| 708410 | Electronic detection and navigational apparatus, n. e. c., designed for use at frequencies of 600 mc and over.[16] | ---------- | RARA 52 | 100 | RO | A F |
| 708460 | Carrier current line-communications terminal and intermediate repeater or amplifier equipment, designed to transmit, carry, or receive frequencies higher than 10 kilocycles; and specially fabricated parts, n. e. c.[14] | ---------- | RARA 50 | 100 | RO | A |
| | Telegraph apparatus (wire), n. e. c., and specially fabricated parts, n. e. c.:[14] | | | | | |
| 708500 | Telegraph apparatus suitable for use at speeds greater than 200 words per minute or 150 bauds; and specially fabricated parts therefor. | ---------- | RARA 51 | 100 | RO | A F |
| 708500 | Other multichannel telegraph terminal transmitting and receiving kilocycles; and specially fabricated parts, n. e. c.[14] | ---------- | RARA 51 | 100 | RO | A |
| 708700 | Telephone terminal and intermediate repeater or amplifier equipment designed to transmit, carry, or receive frequencies higher than 10 kilocycles; and specially fabricated parts, n. e. c.[14] | ---------- | RARA 50 | 100 | RO | A |
| 708820 | Amplifiers designed for use in nuclear measurements, including linear amplifiers, preamplifiers, and distributed chain amplifiers.[13] | No. | ELME 2 | None | RO | A B C |
| 708820 | Parts, n. e. c., specially fabricated for amplifiers designed for use in nuclear measurements.[13] | ---------- | ELME 2 | 25 | RO | A B C |
| 708820 | Other amplifiers, n. e. c., and specially fabricated parts, n. e. c. (report audio-amplifying in 708800). | ---------- | RARA 52 | 200 | RO | A F |
| 708850 | Magnetic recorders and accessories, the following: (a) Tape recorders having a transport speed exceeding 15 inches per second; (b) multichannel tape recorders and recording heads; (c) drum-type recorders; (d) magnetic tape designed for use with multi-channel recorders. | ---------- | RARA 50 | 100 | RO | A F |
| | Pole line, transmission, and distribution hardware, n. e. c., and specially fabricated parts, n. e. c.: | | | | | |
| 709495 | Aluminum bus bars | Lb. | NONF | 100 | RO | A |
| 709495 | Copper bus bars | Lb. | NONF 15 | 100 | RO | A |
| | Insulated wire and cable: | | | | | |
| 709810 | Building wire and cable, copper or copper-base alloy. | Lb. | NONF 17 | 100 | RO | C |
| 709830 | Weatherproof and slow-burning wire, copper or copper-base alloy. | Lb. | NONF 17 | 100 | RO | C |
| 709855 | Coaxial cable (single or multitube) having any of the following characteristics: (1) An attenuation of 10 decibels or less per 100 feet and a standing wave ratio of 2 or less at 3,000 megacycles; (2) air-spaced types; or (3) having polytetrafluoroethylene (e. g., Teflon) or polytrifluorochloroethylene dielectric (specify dielectric material and type number). | Lb. | NONF | 100 | RO | A |
| 709855 | Communications submarine cable | Lb. | NONF | 100 | RO | A C |
| 709855 | Communications cable containing more than one pair of conductors and containing any conductor (single or stranded) exceeding 0.9 mm in diameter. | Lb. | NONF | 100 | RO | A C |
| 709855 | Other communication and signal wire and cable, copper or copper-base alloy (specify by name). | Lb. | NONF 17 | 100 | RO | C |
| 709860 | Portable cord, wire, and cable, copper or copper-base alloy, rubber and/or synthetic rubber-sheathed (specify by name). | Lb. | NONF 17 | 100 | RO | C |
| 709865 | Automotive ignition wire, copper or copper-base alloy, in coils, reels or spools, in lengths of 100 feet or less. | Lb. | TRAN 6 | 500 | RO | E F |

[13] All outstanding licenses issued by the Atomic Energy Commission prior to Sept. 26, 1955, remain valid until they expire or are revoked, and any requests for amendments to such licenses shall be made to the AEC.

[14] See § 370.4 (a) for commodities under this heading which require export authorization from the Department of State.

[15] All outstanding licenses for exportation of underwater sound equipment, and specially fabricated parts therefor (Schedule B No. 708410), issued by the Bureau of Foreign Commerce prior to date of transfer of export authorization for these commodities to the Department of State, June 23, 1955 (see CEB 752), remain valid until they expire or are revoked. See § 370.4 (a) for detection and navigational apparatus requiring export authorization from the Department of State.

[16] Outstanding licenses covering these commodities which were issued by the Atomic Energy Commission prior to Feb. 18, 1956, remain valid until they expire or are revoked, and requests for amendments to such licenses shall be made to the AEC.

| | GROUP 7—MACHINERY AND VEHICLES—continued | | | | | |
| | *Electrical machinery and apparatus*—Continued | | | | | |
| | Insulated wire and cable—Continued | | | | | |
| 709865 | Other copper or copper-base alloy wire and cable, rubber and/or synthetic rubber-insulated, with plain, braided, leaded, or armored finishes (specify by name) (report building wire and cable in 709810). | Lb. | NONF 17 | 100 | RO | O |
| 709870 | Copper or copper-base alloy wire and cable, varnished-cambric insulated, with braided, leaded, or armored finishes (specify by name). | Lb. | NONF 17 | 100 | RO | O |
| 709875 | Copper or copper-base alloy power cable, paper-insulated, with leaded or armored finishes (specify by name). | Lb. | NONF 17 | 100 | RO | O |
| 709885 | Copper or copper-base alloy wire and cable, insulated, n. e. c. (specify by name). | Lb. | NONF 17 | 100 | RO | C |
| 709885 | Nickel and nickel alloy wire, insulated | Lb. | NONF | 100 | RO | A G |
| 709920 | Electrical steel punchings, with a core loss of 0.5 watt per pound at 13,000 gausses and 60 cycles per second or less, or with a thickness of 0.003 inches and less. | Lb. | STEE 2 | 100 | RO | A |
| | Electrical apparatus, n. e. c., and parts, n. e. c. (specify by name): | | | | | |
| 709998 | Belt-type electrostatic generators (Van de Graaff machines), positive ion types.[15] | No. | ELME 1 | None | RO | A B C |
| 709998 | Parts, n. e. c., specially fabricated for belt-type electrostatic generators (Van de Graaff machines), positive ion types.[15] | ---------- | ELME 1 | 25 | RO | A B O |
| 709998 | Coefficient resistors | No. | RARA 52 | 100 | RO | A F |
| 709998 | Parts specially fabricated for 3-phase type resistance welding sets. | ---------- | ELME 4 | 100 | R | A F |
| 709998 | Parts specially fabricated for synchronous condensers, 5,000 kilowatts and over (specify by name and rating). | ---------- | ELME 1 | 100 | RO | A F |
| 709998 | Parts specially fabricated for motor generator sets having motors of 500 up to but not including 5,000 horsepower (specify by name and rating). | ---------- | ELME 1 | 100 | R | F |
| 709998 | Parts specially fabricated for motor generator sets having motors of 5,000 horsepower and over (specify by name and rating). | ---------- | ELME 1 | 100 | RO | F |
| 709998 | Gyros, rate and integrating types [15] | ---------- | ELME 10 | None | RO | F |
| 709998 | Servo control units, and specially fabricated parts.[15] | ---------- | ELME 10 | None | RO | F |
| 709998 | Synchros, all types including resolvers [15] | ---------- | ELME 10 | None | RO | F |
| 709998 | Thermistors | No. | RARA 52 | 100 | RO | A F |
| | *Engines, turbines, and parts, n. e. c.* | | | | | |
| | Steam engines and turbines, n. e. c., and parts, n. e. c.:[14] | | | | | |
| 711310 | Steam turbines, 2,000 horsepower and over (excludes those incorporated in generator sets). | No. | GIEQ 9 | None | RO | A |
| 711410 | Water wheels and water turbines, 2,000 horsepower and over (specify horsepower). | No. | ELME 1 | 500 | RO | A F |
| 711510 | Air turbines, 2,000 horsepower and over (specify horsepower). | No. | GIEQ 9 | None | RO | A |
| 711510 | Gas turbines, except aircraft (report aircraft turbines in 794631). | No. | GIEQ 9 | None | RO | A |
| 711900 | Parts, n. e. c., specially fabricated for water wheels, and water turbines, 2,000 horsepower and over (specify by name and rating). | ---------- | ELME 1 | 100 | RO | A F |
| 711900 | Parts, n. e. c., specially fabricated for steam or air turbines, 2,000 horsepower and over (specify by name and horsepower). | ---------- | GIEQ 9 | 100 | RO | A |
| 711900 | Parts, n. e. c., specially fabricated for gas turbines, except aircraft (specify horsepower) (report parts for aircraft turbines in 794631). | ---------- | GIEQ 9 | 100 | RO | A |
| | Power boilers (steam generators), and parts:[14] | | | | | |
| 713300 | Water tube, marine type, designed to operate at 450 p. s. i. g., or more (specify generating capacity in pounds of steam per square foot of tubular heating surface). | ---------- | GIEQ 23 | None | RO | A |
| 713300 | Water tube, stationary, having a capacity to generate 15,000 pounds of steam per hour or more at pressures more than 250 p. s. i. g. | ---------- | GIEQ 23 | None | R | A |
| 713920 | Parts, n. e. c., specially fabricated for power boilers included on the Positive List under Schedule B No. 713300 (report boiler tubes shipped as spares or replacements under tubular products according to material). | ---------- | GIEQ 23 | 250 | RO | A F |
| | Internal-combustion engines, n. e. c., and parts, n. e. c.:[14] | | | | | |
| | Diesel and semidiesel (specify brake horsepower at normal speed, and r. p. m.): | | | | | |
| 714500 | Marine, 50 up to and including 200 brake horsepower, when the nonmagnetic content exceeds 50 percent of total weight. | No. | TRAN 7 | None | RO | A |
| 714500 | Other marine, 50 up to and including 200 brake horsepower. | No. | TRAN 7 | None | R | |
| 714620 | Marine, over 200, up to and including 500 brake horsepower, when the nonmagnetic content exceeds 50 percent of total weight. | No. | TRAN 7 | None | RO | A |
| 714620 | Other marine, over 200, up to and including 500 brake horsepower. | No. | TRAN 7 | None | R | |
| 714640 | Marine, over 500, up to and including 1,000 brake horsepower when the nonmagnetic content exceeds 50 percent of total weight. | No. | TRAN 7 | None | RO | A |
| 714640 | Other marine, over 500, up to and including 1,000 brake horsepower. | No. | TRAN 7 | None | R | |
| 714660 | Marine, over 1,000 brake horsepower when the nonmagnetic content exceeds 50 percent of total weight. | No. | TRAN 7 | None | RO | A |
| 714660 | Other marine, over 1,000 up to but not including 1,500 brake horsepower. | No. | TRAN 7 | None | R | |
| 714660 | Other marine, 1,500 brake horsepower and over. | No. | TRAN 7 | None | RO | A |
| | Other, including tractor engines (specify brake horsepower at normal speed and r. p. m.): | | | | | |
| 714710 | 50 up to and including 200 brake horsepower. | No. | TRAN 7 | None | R | |
| 714720 | Over 200, up to and including 500 brake horsepower. | No. | TRAN 7 | None | R | |
| 714740 | Over 500, up to and including 1,000 brake horsepower. | No. | TRAN 7 | None | R | |
| 714760 | Over 1,000 up to but not including 1,500 brake horsepower. | No. | TRAN 7 | None | R | |
| 714760 | 1,500 brake horsepower and over | No. | TRAN 7 | None | RO | A |
| 715000 | Parts and accessories, n. e. c., specially fabricated for diesel engines included on the Positive List under Schedule B Nos. 714500 through 714760 (for which validated license is required to R country destinations only (specify type of engine, brake horsepower, and r. p. m.). | ---------- | TRAN 7 | 500 | R | E |

[14] See § 370.4 (a) for commodities under this heading which require export authorization from the Department of State.

[15] Outstanding licenses covering these commodities which were issued by the Atomic Energy Commission prior to Feb. 18, 1956, remain valid until they expire or are revoked, and requests for amendments to such licenses shall be made to the AEC.

| 733950 | Petroleum field production equipment, n. e. c., and specially fabricated parts, n. e. c. (specify by name) (report oil-country tubular products in 606210–606260). | ---------- | MINE 4 | 500 | RO | A E F |
| | *Machine tools* | | | | | |
| | Power-driven metalworking machine tools (nonportable), and parts: | | | | | |
| 740005 | Engine and center lathes, over 18 inches center height and over 18 feet between centers. | No. | TOOL | 500 | RO | A |
| 740212 | Horizontal turret lathes, bar capacity of 4 inches and over or swing-over-bed of 24 inches or more. | No. | TOOL | 500 | RO | A |
| | Automatic chucking lathes and between center lathes: | | | | | |
| 740305 | Automatic profiling and duplicating lathes (report non-automatic profiling and duplicating lathes in 740390). | No. | TOOL | 500 | RO | A |
| 740305 | Other automatic lathes, multispindle | No. | TOOL | 500 | RO | A |
| | Artillery and ammunition lathes (specify by name): | | | | | |
| 740308 | Cartridge-case lathes | No. | TOOL | None | RO | A |
| 740308 | Gun barrel trepanning lathes | No. | TOOL | None | RO | A |
| 740308 | Gun-boring lathes | No. | TOOL | None | RO | A |
| 740308 | Gun jump screw lathes | No. | TOOL | None | RO | A |
| 740308 | Shell lathes | No. | TOOL | None | RO | A |
| 740308 | Bomb spinning lathes | No. | TOOL | None | RO | A |
| | Automatic screw (bar) machines: | | | | | |
| 740315 | Automatic multispindle bar machines | No. | TOOL | 500 | RO | A |
| | Lathes, n. e. c. (specify by name): | | | | | |
| 740390 | Combination tube boring and turning lathes | No. | TOOL | 500 | RO | A |
| 740390 | Combination lathe, drilling and milling machines, specially designed for mobile military workshops or for naval craft. | No. | TOOL | 500 | RO | A |
| 740390 | Flotum lathes | No. | TOOL | 500 | RO | A |
| 740390 | Jet engine compressor case boring lathes | No. | TOOL | 500 | RO | A |
| 740390 | Jet engine compressor and turbine disc turning lathes. | No. | TOOL | 500 | RO | A |
| 740390 | Profiling or duplicating lathes, n. e. c. (report automatic chucking lathes and between center lathes in 740305). | No. | TOOL | 500 | RO | A |
| 740390 | Right angle (T) lathes (in which the bed is at right angles to the spindle). | No. | TOOL | 500 | RO | A |
| 740390 | Other spinning lathes, n. e. c., except those with spindle drive motor of 10 horsepower or less. | No. | TOOL | 500 | RO | A |
| 740405 | Automatic vertical boring and turning mills, including vertical turret lathes. | No. | TOOL | 500 | RO | A |
| 740405 | Nonautomatic vertical boring and turning mills, with table diameter 72 inches and over, including vertical turret lathes. | No. | TOOL | 500 | RO | A |
| | Boring machines, n. e. o. (specify by name): | | | | | |
| 740409 | Jig boring machines | No. | TOOL | 500 | RO | A |
| 740409 | Bomb nose and tail boring machines | No. | TOOL | 500 | RO | A |
| 740409 | Boring machines, production types, capable of an accuracy of 0.001 inch or better. | No. | TOOL | 500 | RO | A |
| 740604 | Shell tappers | No. | TOOL | 500 | RO | A |
| | Milling machines, n. e. c. (specify by name): | | | | | |
| 740800 | Aircraft skin milling machines | No. | TOOL | 500 | RO | A |
| 740800 | Planer milling machines and combination planer and planer-milling machines, with capacity for work pieces 48 inches wide and over or 15 feet long and over. | No. | TOOL | 500 | RO | A |
| 740800 | Die-sinking machines | No. | TOOL | 500 | RO | A |
| | GROUP 7—MACHINERY AND VEHICLES—continued | | | | | |
| | *Machine tools*—Continued | | | | | |
| | Power-driven metalworking machine tools (nonportable), and parts—Continued | | | | | |
| | Milling machines, n. e. o. (specify by name)—Continued | | | | | |
| 740800 | Profiling machines for marine and aircraft propeller blades. | No. | TOOL | 500 | RO | A |
| 740800 | Other profiling and duplicating milling machines | No. | TOOL | 500 | RO | A |
| 740800 | Horizontal spindle bed type automatic milling machines with tables 20 inches wide and over and/or 48 inches long and over. | No. | TOOL | 500 | RO | A |
| 740800 | Spar millers | No. | TOOL | 500 | RO | A |
| 740800 | Thread milling machines, 6-inch work diameter and over at the thread. | No. | TOOL | 500 | RO | A |
| 741110 | Gear-hobbing machines, over 48 inches maximum work diameter. | No. | TOOL | 500 | RO | A |
| 741120 | Gear-cutting machines, n. e. c. | No. | TOOL | 500 | RO | A |
| 741200 | Gear-tooth grinding and gear-tooth finishing machines, n. e. c., except non-generating type gear grinding machines. | No. | TOOL | 500 | RO | A |
| 742300 | Hollow drill deep-hole drilling machines (report hollow deep-hole drills in 744381). | No. | TOOL | 500 | RO | A |
| | Planers, except gear planers (report gear planers in 741120): | | | | | |
| 742600 | Armor plate planers | No. | TOOL | 500 | RO | A |
| 742600 | Planers, profiling, for aircraft or marine propeller blades. | No. | TOOL | 500 | RO | A |
| 742600 | Other planing machines with capacity for work pieces of 48 inches wide and over or 15 feet long and over. | No. | TOOL | 500 | RO | A |
| 743500 | Surface grinding machines as follows: (a) Multispindle, rotary table or work holder; (b) horizontal spindle, reciprocating table over 24 inches wide; (c) multispindle disk. | No. | TOOL | 500 | RO | A |
| | External cylindrical grinding machines: | | | | | |
| 743910 | External cylindrical grinding machines, equipped to grind jet engine rotors. | No. | TOOL | 500 | RO | A |
| 743910 | Roll grinding machines, fitted with or capable of being fitted with cambering device. | No. | TOOL | 500 | RO | A |
| 743910 | Crankshaft, crankpin, and camshaft grinders, with capacity for shafts 48 inches long or over, having either of the following characteristics: (a) Total weight of machine over 5 tons, or (b) designed for, or equipped with, wheel head motor exceeding 12 horsepower. | No. | TOOL | 500 | R | |
| 744100 | Internal grinding machines incorporating high frequency (over 60 cycles) spindles. | No. | TOOL | 500 | RO | A |
| 744100 | Internal cylindrical grinding machines as follows: Centerless; automatic feed; automatic sizing; or with any other automatic features. | No. | TOOL | 500 | R | |
| 744205 | Grinding machines for broaching tools, automatic cycle, automatic sizing. | No. | TOOL | 500 | RO | A |
| 744305 | Honing machines and combination honing and lapping machines (except gear) with multiple work stations (report gear honing and lapping machines in 741200). | No. | TOOL 2 | 500 | RO | A |
| | Grinding machines for cutting metal, p. e. c. (specify by name): | | | | | |
| 744311 | Automatic oscillating race radial grinders | No. | TOOL | 500 | RO | A |
| 744311 | Contour profile grinders | No. | TOOL | 500 | RO | A |
| 744311 | Jig grinders | No. | TOOL | 500 | RO | A |
| 744311 | Profiling grinders for marine and aircraft propeller blades. | No. | TOOL | 500 | RO | A |
| 744311 | Thread grinding machines | No. | TOOL | 500 | RO | A |

| | GROUP 7—MACHINERY AND VEHICLES—continued | | | | | |
| | *Machine tools*—Continued | | | | | |
| | Power-driven metalworking machine tools (nonportable), and parts—Continued | | | | | |
| 744313 | Horizontal boring-drilling-milling machines (combination units). | No. | TOOL | 500 | RO | A |
| 744315 | External surface broaching machines | No. | TOOL | 500 | RO | A |
| 744316 | Rifling and rifle-working machines | No. | TOOL | 500 | RO | A |
| | Power-driven metalworking machine tools, n. e. c. (specify by name): | | | | | |
| 744319 | Contour band sawing and band filing machines designed to permit operator to select rate of cutting speed and to vary such speed while in operation, and to maintain at all times the desired rate of speed with a variation of less than 2 percent. | No. | TOOL | 500 | R | |
| 744319 | Machines specially designed for making or measuring gas turbine blades (report conventional machines used for this work under appropriate Schedule B number). | No. | TOOL | 500 | RO | A |
| 744319 | Multistation machine tools in which the work piece is indexed or transferred successively from station to station. | No. | TOOL | 500 | R | |
| 744340 | Parts, n. e. c., specially fabricated for metalworking machine tools included on the Positive List under Schedule B Nos. 740005 through 744319 for which validated license is required to both R and O country destinations (specify type and model of machine tool for which parts are fabricated). | ---------- | TOOL 1 | 250 | RO | A E |
| 744340 | Parts, n. e. c., specially fabricated for metalworking machine tools included on the Positive List under Schedule B Nos. 743910, 744100, and 744319 for which validated license is required to R country destinations only (specify type and model of machine tool for which parts are fabricated). | ---------- | TOOL 1 | 250 | R | E |
| | *Metalworking machines, n. e. c., parts and accessories (including accessories and attachments for machine tools)* | | | | | |
| | Accessories and attachments, n. e. c., for power-driven nonportable machine tools, n. e. c.: | | | | | |
| | Metal-cutting tools and specially fabricated parts, n. e. c., for machine operation (not incorporating industrial diamonds) (specify by name) (report metal-cutting dies incorporating industrial diamonds in 745503): | | | | | |
| 744381 | Hollow deep-hole drills | ---------- | TOOL 1 | 250 | RO | A |
| 744381 | Surface broaching tools | ---------- | TOOL 1 | 250 | RO | A |
| | Accessories and attachments, n. e. c., for machine tools, and specially fabricated parts, n. e. c.: | | | | | |
| 744383 | Attachments for center and capstan lathes, milling machines and vertical boring machines which make them capable of profiling and duplication. | ---------- | TOOL 1 | 250 | RO | A |
| 744383 | High frequency grinding wheel spindles and spindle assemblies for internal grinding machines (report internal grinding machines in 744100). | ---------- | TOOL | None | RO | A |
| 744383 | Jigs and fixtures, military type, and specially fabricated parts therefor (report assembling jigs, and fixtures and accessories therefor in 775708). | ---------- | TOOL 1 | 100 | RO | A |
| | GROUP 7—MACHINERY AND VEHICLES—continued | | | | | |
| | *Metalworking machines, n. e. c., parts and accessories (including accessories and attachments for machine tools)*—Continued | | | | | |
| | Accessories and attachments, n. e. c., for power-driven nonportable machine tools, n. e. c.—Continued | | | | | |
| | Accessories and attachments, n. e. c., for machine tools, and specially fabricated parts, n. e. c.—Continued | | | | | |
| 744383 | Other accessories and attachments for use exclusively on types of machine tools included on the Positive List under Schedule B Nos. 740005 through 744319 (specify type and model of machine tool with which accessories and attachments are to be used). | ---------- | TOOL 1 | 500 | RO | A |
| 744415 | Bending and forming machines equipped for the working and forming of aircraft sheet, plate or extrusions. | No. | TOOL | 500 | RO | A |
| | Hydraulic and pneumatic presses, all types, including forging presses: | No. | TOOL | 500 | RO | A |
| 744420 | Hydraulic and pneumatic presses equipped for the working or forming of aircraft sheet, plate or extrusions. | | | | | |
| 744420 | Hydraulic and pneumatic presses, equipped to manufacture arms, munitions, and implements of war. | No. | TOOL | 500 | RO | A |
| 744420 | Other hydraulic presses with rated capacity of over 1,000 tons. | No. | TOOL | 500 | RO | A |
| 744420 | Other hydraulic presses with rated capacity of 1,000 tons or less. | No. | TOOL | 500 | R | |
| | Mechanical presses, power driven, all types: | | | | | |
| 744425 | Mechanical presses equipped for the working or forming of aircraft sheet, plate or extrusions. | No. | TOOL | 500 | RO | A |
| 744425 | Mechanical presses, equipped to manufacture arms, munitions, and implements of war. | No. | TOOL | 500 | RO | A |
| 744425 | Other mechanical presses with rated capacity of over 1,000 tons. | No. | TOOL | 500 | RO | A |
| 744425 | Other mechanical presses with rated capacity of 1,000 tons or less. | No. | TOOL | 500 | R | |
| 744430 | Punching and shearing machines equipped for the working or forming of aircraft sheet, plate or extrusions. | No. | TOOL | 500 | RO | A |
| 744490 | Parts and accessories, n. e. c., specially fabricated for metalworking machines included on the Positive List under Schedule B Nos. 744415, 744420, 744425, and 744430, for which validated license is required to both R and O country destinations. | ---------- | TOOL | 500 | RO | A |
| 744490 | Parts and accessories, n. e. c., specially fabricated for metalworking machines included on the Positive List under Schedule B Nos. 744420 and 744425, for which validated license is required to R country destinations only. | ---------- | TOOL | 500 | R | |
| | Forging machines and hammers, except hydraulic forging presses: | | | | | |
| 744710 | Bomb nose and tail forging machines | No. | TOOL | 100 | RO | A |
| 744710 | Forging hammers as follows: (a) Having falling weight exceeding 3 tons; (b) steam, air, or mechanical hammers of rated size exceeding 2.5 tons. | No. | TOOL | 500 | RO | A |
| 744710 | Forging rolls | No. | TOOL | 500 | RO | A |
| 744710 | Forging machines capable of operating on bar stock of a diameter exceeding 3.5 inches or equivalent cross section. | No. | TOOL | 500 | RO | A |

| | *Industrial chemicals (exclusive of medicinal chemicals, U. S. P. and N. F.)*—Continued | | | | | |
| | Organo-fluorine compounds (specify by name): | | | | | |
| 832985 | Monochlorotrifluoro methane (e. g., Freon 13); dichloromonofluoro methane (e. g., Freon 21); monochlorodifluoro methane (e.g., Freon 22); trichlorotrifluoro ethane (e. g., Freon 113; Genetron 226); dichlorotetrafluoroethane (e. g., Freon 114); trichlorodifluoro ethane (e. g., Freon 122); difluoroethane (e. g., Freon 152; Genetron 100); monochlorodifluoro ethane (e. g., Freon 142; Genetron 101). | Lb. | SALT 1 | 100 | RO | A C F |
| 832985 | Dichlorodifluoro methane (e. g., Freon 12; Genetron 12); trichloromonofluoro methane (e. g., Freon 11; Genetron 11); monobromotrifluoro methane (e. g., Freon 1311); dibromodifluoro methane (e. g., Freon 12B2). | Lb. | SALT 1 | 100 | R | F |
| 832985 | Trifluoromonochloroethylene | Lb. | SALT 1 | 25 | RO | A C F G |
| | Organic chemicals not of coal-tar origin, n. e. c. (specify by name): | | | | | |
| 832990 | Furfural | Lb. | ORGN 67 | 100 | R | F |
| 832990 | Hexamethylenetetramine | Lb. | ORGN | 100 | RO | A F |
| 832990 | Isopropyl ether | Lb. | ORGN | 100 | RO | A F |
| 832990 | Nonyl sebacates | Lb. | ORGN | 100 | RO | A F |
| 832990 | Octyl sebacates | Lb. | ORGN | 100 | RO | A F |
| 832990 | Tetrafluoroethylene | Lb. | SALT 1 | 25 | RO | A B C F G |
| | Potassium compounds, except fertilizers (report fertilizers and fertilizer materials in 850500–855100): [14] | | | | | |
| 835900 | Potassium tetroxide | Lb. | SALT | 25 | R | F |
| 836220 | Boric acid and borates, crude, refined, and compounds, except sodium perborate (including but not limited to boron trifluoride, boron oxide, boron hydrides, and fluoroborates). | Lb. | SALT | 100 | RO | E F |
| 837990 | Sodium azide | Lb. | SALT | None | RO | A F |
| | Ammonium compounds, except fertilizers (report fertilizers and fertilizer materials in 850500–855100): [14] | | | | | |
| 838500 | Ammonium molybdate | Lb. | SALT | 100 | RO | A F |
| 838500 | Guanidine nitrate | Lb. | SALT | 100 | RO | A F |
| 838500 | Hydrazine, hydrazine hydrate, and hydrazine salts. | Lb. | SALT | None | RO | A F |
| 838500 | Nitroguanidine | Lb. | SALT | None | RO | A F |
| | Gases, compressed, liquefied and solidified, except liquefied petroleum gases: [14] | | | | | |
| 839590 | Bromine trifluoride | ---------- | SALT | 100 | RO | A B C F |
| 839590 | Chlorine trifluoride | ---------- | SALT | 100 | RO | A B C F |
| 839730 | Hydrogen peroxide or dioxide, 50 to 85 percent strength inclusive.[20] | Lb. | SALT 64 | None | RO | A F |
| | Metal salts of organic compounds, except paint and varnish driers (specify by name) (report paint and varnish driers in 843900): [14] [22] | | | | | |
| 839750 | Cobalt salts of organic compounds | Lb. | SALT | 100 | RO | A F |
| 839750 | Lead styphnate (lead trinitroresorcinate) | Lb. | SALT 64 | 25 | RO | A F |
| 839750 | Lithium salts of organic compounds | Lb. | SALT | None | RO | |
| 839750 | Naphthenates of all metals, and mixtures containing such naphthenates (report cobalt, lead or zinc naphthenates in 843600). | Lb. | SALT | None | R | F |

[17] A single shipment hereunder may include two or more chemicals, each up to its GLV limit.
[20] Radioisotopes produced in a nuclear reactor and having atomic numbers 3 through 83, and compounds and preparations thereof, are under the jurisdiction of the Atomic Energy Commission. See § 370.4 (d).
[21] Chemicals containing thorium or uranium require export authorization from the Atomic Energy Commission See § 370.4 (d).
[24] Napalm and military fuel thickeners require export authorization from the Department of State. See § 370.4 (a).
[25] Gold-containing chemicals, in which the gold content is 90 percent of value, require export authorization from the Treasury Department. See § 370.4 (b).
[14] See § 370.4 (a) for commodities under this heading which require export authorization from the Department of State.
[20] Hydrogen peroxide or dioxide in excess of 85 percent concentration, Schedule B No. 839730, requires export authorization from the Department of State. See § 370.4 (a).

| | GROUP 9—MISCELLANEOUS—continued | | | | | |
| | *Scientific and professional instruments, apparatus, and supplies, n. e. c.*—Continued | | | | | |
| 916030 | Compasses and gyroscopic equipment as follows: Gyro-compasses; transmitting magnetic compasses; gyro-magnetic compasses; repeaters for these compasses; gyroscopic stabilizers; and gyroscopic steering controls.[12] | No. | SATE | None | RO | A F |
| 916030 | Parts, n. e. c., specially fabricated for: Gyro-compasses; transmitting magnetic compasses; gyro-magnetic compasses; repeaters for these compasses; gyroscopic stabilizers; and gyroscopic steering controls.[12] | | SATE | 25 | RO | A F |
| 919010 | Balloons, 1,100 grams or more envelope weight deflated, capable of free flight but nonpersonnel carrying. | | RUBR | None | RO | A |
| 919010 | Radiosondes | No. | SATE | None | R | C F |
| 919010 | Parts, n. e. c., specially fabricated for radiosondes. | | SATE | 25 | R | C F |
| 919060 | Mass spectrometers; and leak detectors, mass spectrometer type.[16] | No. | SATE | None | RO | A B C |
| 919060 | Parts, n. e. c., specially fabricated for mass spectrometers and mass spectrometer type leak detectors.[16] | | SATE | 25 | RO | A B C |
| 919060 | Spectrophotometers [16] | No. | SATE | None | RO | A B C F |
| 919060 | Parts, n. e. c., specially fabricated for spectrophotometers, except glossmeters and reflectometers.[16] | | SATE | 25 | RO | A B C F |
| | Optical measuring instruments, n. e. c., and specially fabricated parts, n. e. c. (specify by name): | | | | | |
| 919066 | Fluorophotometers (fluorimeters) employing ultraviolet light as the exciting source and photo-multiplier tubes or photo-cells as detecting and amplifying devices. | No. | SATE | None | RO | A B C |
| 919066 | Parts, n. e. c., specially fabricated for fluorophotometers (fluorimeters) employing ultraviolet light as the exciting source and photo-multiplier tubes or photo-cells as detecting and amplifying devices. | | SATE | 25 | RO | A B C |
| 919066 | Microphotometers | No. | SATE | None | RO | A F |
| 919066 | Parts, n. e. c., specially fabricated for microphotometers. | | SATE | 25 | RO | A F |
| 919066 | Mass spectrographs [12] | No. | SATE | None | RO | A B C |
| 919066 | Parts, n. e. c., specially fabricated for mass spectrographs.[12] | | SATE | 25 | RO | A B C |
| 919066 | Other spectrographs | No. | SATE | None | RO | A F |
| 919066 | Parts, n. e. c., specially fabricated or other spectrographs. | | SATE | 25 | RO | A F |
| 919068 | Balances, electronic, capable of detecting differences in weight smaller than 10 micrograms. | No. | SATE | None | RO | A B C F |
| 919068 | Balances, n. e. c., of a sensitivity capable of detecting differences in weight of 0.1 microgram or less. | No. | SATE | None | RO | A B C F |
| | Research laboratory apparatus and equipment, n. e. c., and specially fabricated parts, n. e. c. (report counter current solvent extractors and bowl-type centrifuges in 775360): | | | | | |
| 919080 | Parts for electronic balances capable of detecting differences in weight smaller than 10 micrograms. | | SATE | 25 | RO | A B C F |

[12] All outstanding licenses issued by the Atomic Energy Commission prior to Sept. 26, 1955, remain valid until they expire or are revoked, and any requests for amendments to such licenses shall be made to the AEC.

[16] Outstanding licenses covering these commodities which were issued by the Atomic Energy Commission prior to Feb. 18, 1956, remain valid until they expire or are revoked, and requests for amendments to such licenses shall be made to the AEC.

[12] Aircraft gyroscopic compasses and repeaters, and parts therefor, require export authorization from the Department of State. See § 370.4 (a).

[13] All outstanding licenses issued by the Atomic Energy Commission prior to Sept. 26, 1955, remain valid until they expire or are revoked, and any requests for amendments to such licenses shall be made to the AEC.

[14] Outstanding licenses covering these commodities which were issued by the Atomic Energy Commission prior to Feb. 18, 1956, remain valid until they expire or are revoked, and requests for amendments to such licenses shall be made to the AEC.

[14] See § 370.4 (a) for commodities under this heading which require export authorization from the Department of State.

[15] Parts and accessories specifically designed for types of vehicles licensed by the Department of State also require export authorization from the Department of State. See § 370.4 (a).

[16] Gas incandescent mantles, Schedule B No. 979100, require export authorization from the Atomic Energy Commission. See § 370.4 (d).

| Dept. of Commerce Schedule B No. | Commodity | Unit | Processing code and related commodity group | GLV dollar-value limits | Validated license required | Commodity lists (for explanation of symbols in this column, see General Notes to Appendix A in this section, supra) |
|---|---|---|---|---|---|---|
| | GROUP 9—MISCELLANEOUS—continued | | | | | |
| | *Miscellaneous commodities, n. e. c.*[14] [16]—Con. | | | | | |
| | Commodities exported for relief or charity by individuals and private agencies. (The following classifications are not used for exports for relief or charity by governmental agencies (United States, foreign, and international) except for exports of used clothing by such agencies, which are reported under 999820. All other exports (including new clothing) by governmental agencies are reported under their specific Schedule B numbers): | | | | | |
| 999810 | Food | | | | | |
| 999820 | Clothing | | | | | |
| 999830 | Blankets and bedding | | | | | |
| 999840 | Drugs and biological supplies | | Export controls applicable to each commodity under these classifications are those which apply to the commodity when exported commercially under its individual Schedule B number. | | | |
| 999850 | Surgical, sanitary, and hospital supplies, equipment and parts. | | | | | |
| 999860 | Ambulances and other motor equipment, and parts (specify by name). | | | | | |
| 999890 | Commodities exported for relief or charity by individuals and private agencies, n. e. c. (specify by name). | | | | | |
| 999910 | General merchandise valued at less than $25. This commodity number is applied to: (a) All single items of Schedule B commodities valued at less than $25. (b) All totals of Schedule B commodities, single items of which are valued at less than $25, including shipments to postmasters or other agents for distribution at destination. | | Export controls applicable to each commodity under these classifications are those which apply to the commodity when exported under its individual Schedule B number. | | | |
| 999960 | Self-contained diving and under-water swimming apparatus manufactured to military specifications, and specially fabricated parts therefor (report other self-contained diving and under-water swimming apparatus and specially fabricated parts in 980800). | ..... | SATE | 50 | RO | |

[14] See § 370.4 (a) for commodities under this heading which require export authorization from the Department of State.

[16] Gas incandescent mantles, Schedule B No. 979100, require export authorization from the Atomic Energy Commission. See § 370.4 (d).

§ 399.2 *Appendix B—Commodity interpretations.* The commodity interpretations set forth in this section are for use in determining (1) the appropriate Schedule B number under which certain commodities are classified, or (2) the validated license requirements for these commodities. They are intended to clarify the question of control where it has been demonstrated that such clarification may prove helpful to the export community, and where such control is not apparent from the Positive List and the Export Regulations.

INTERPRETATION 1: PIPE: OIL COUNTRY OR LINE FOR PUMP INSTALLATION PURPOSES

A maximum of 250 feet of oil country pipe or line pipe, classified in Schedule B Nos. 608210–606280, may be exported under general license, except to Hong Kong, Macao, and Subgroup A destinations (see Parts 371 and 384), provided such pipe accompanies the pump requiring its use for installation purposes, and also provided such pipe is of appropriate size and type for use with that pump. A validated license is required for any quantity in excess of 250 feet. If, however, the pipe is being shipped separately from the pump, a validated license is required for the full amount of the shipment if it exceeds the GLV value of the commodity.

INTERPRETATION 2: BALL AND ROLLER BEARINGS AND SPECIALLY FABRICATED PARTS

(1) A ball or roller bearing physically incorporated in a segment of a machine or in a complete machine prior to shipment loses its identity as a bearing and the machine or segment of machinery containing the bearing is the item subject to export license requirements.

(2) A ball or roller bearing not incorporated in a segment of a machine prior to shipment but shipped as a component of a complete unassembled (knocked-down) machine is considered a component of the machine, and the complete machine is the item subject to export license requirements.

(3) Ball and roller bearings shipped as spares or replacements are classified in Schedule B Nos. 769100–769315 (ball and roller bearings and specially fabricated parts). This applies to separate shipments of ball and roller bearings and ball and roller bearings shipped with machinery or equipment for which they are intended to be used as spares or replacement parts.

INTERPRETATION 3: PORTABLE AND SEMI-PORTABLE IRRIGATION SYSTEMS, FARM TYPE

| Commodity | Schedule B No. |
|---|---|
| Portable and semiportable irrigation systems, farm type, including specially fabricated pipe [1] (not to exceed 8 inches in diameter), and specially fabricated fittings. | 787005. |
| Pipes, spares or replacements: | |
| Specially fabricated [1] | 787005. |
| Not specially fabricated | Report in tubular products according to material (e. g., aluminum, 630320). |
| Fittings as spares or replacements: | 787005. |
| Specially fabricated for irrigation systems | |
| Not specially fabricated for irrigation systems: | |
| If identifiable as pipe fittings | Report as "pipe fittings," according to type and material (e. g., aluminum, 619959). |
| If not identifiable as pipe fittings | Report as "manufactures," according to material (e. g., aluminum, 619950). |
| Pumps, whether or not shipped with the irrigation system | Report in appropriate pump classification (770900–770980). |

[1] At least one of the following descriptions shall be applicable in describing portable and semiportable irrigation pipe in order to consider it "specially fabricated": (a) Permanently attached handles for easy handling. (b) Attached quick-action couplings. (c) Punched, drilled, beaded and/or cupped pipe ends for special adapters. (d) 10 percent or more of pipe area perforated.

INTERPRETATION 4: CLASSIFICATION OF "PARTS" OF MACHINERY, EQUIPMENT, OR OTHER ITEMS

(1) *Where an assembled machine or unit of equipment is being exported.* Where one or more assembled machines or units of equipment are being exported, the individual component parts which are physically incorporated into the machine or equipment do not require a separate validated export license. The validated license or the general license under which the complete machine or unit of equipment is exported will also cover its component parts: *Provided* That no special provisions or interpretations obtain (for example, as in the case of certain tools containing diamonds); that the parts are normal and usual components of the machine or equipment being exported; or that the physical incorporation is not used as a device to evade the requirement for a validated export license.

(2) *Where parts are exported as spares, replacements, for resale, or for stock.* Where parts are exported as spares, replacements, for resale, or for stock, a validated export license is required if the particular part is on the Positive List to the intended destination.

(3) *Classification instructions.* Schedule B, Statistical Classification of Domestic and Foreign Commodities Exported from the United States, issued by the Bureau of the Census, sets forth detailed instructions for the classification of "parts" for machinery, equipment, or other items. These instructions may be found on pages xxiv and xxv in the "Introduction to Schedule B," paragraphs 11 through 22, under the following sub-headings: "Definition of parts," "Rules for the classification of parts," "Exception to the rules for the classification of parts," and "Definition of the terms specially fabricated and general-purpose."

(4) *Mixed shipments.* It has been determined that mixed shipments of replacement parts classifiable under a Schedule B number for "specially fabricated parts" for a machine often erroneously include replacement parts for which individual classifications are provided in Schedule B. The method for determining when this practice is permissible is set forth in the aforementioned instructions,

paragraph c.20, under the heading "Exception to the rules for the classification of parts."

INTERPRETATION 5: PARACHUTES, PARTS, AND FITTINGS

Parachutes, parts, and fittings are considered implements of war, and exportations thereof are controlled by the Department of State and not the Department of Commerce (see § 370.4 (a) of this chapter). These include complete parachutes, canopies (parachutes with the shroud lines removed), shroud lines, pilot chutes, containers, harnesses, or parts and fittings therefor. Export licenses issued by the Department of State are required for such exportations, including those sent as gifts.

INTERPRETATION 6: QUARTZ CRYSTAL PLATE

Quartz crystal plate is a piece of quartz crystal cut in such a way as to be active piezo-electrically. It may or may not be mounted with metal electrodes applied to its surfaces.

All quartz crystal plates, mounted or unmounted, are classified under Schedule B No. 595090, and are subject to the Export Regulations applicable thereto.

INTERPRETATION 7: STEEL SPRINGS

| Commodity | Schedule B No. |
|---|---|
| Steel springs, specially fabricated:[1] | |
| Spare or replacement parts for a machine | Report in Schedule B class provided for "parts" for the specific machine. |
| Spare or replacement parts for an article other than a machine. | Report in Schedule B class provided for "parts" of the specific commodity. If no such class is provided, report in 813830. |

[1] A "specially fabricated" spring is one which has been so constructed as to be usable with only one machine or type of machine for which a single classification is provided in Schedule B, or for a well-defined group of the same type of machines, involving more than one Schedule B classification.

INTERPRETATION 8: RECORDING TAPE AND RECORDING WIRE

| Commodity | Schedule B No. |
|---|---|
| Recording tape, used or unused: | |
| For motion-picture sound recording | 901000 |
| Except for motion-picture sound recording: | |
| Perforated type that cannot be erased | 999990 |
| Other types, capable of being erased and reused | 708850 |
| Recording wire, used or unused | 708850 |

INTERPRETATION 9: AERIALS, ANTENNAS, AERIAL LEAD-INS, AND WIRE THEREFOR

| Commodity | Schedule B No. |
|---|---|
| Aerial lead-ins, strip-clip and other prefabricated types | 708100 |
| Aerial and antenna kits, complete with insulators, lead-in strips, and with or without lightning arresters and ground clamps | 708100 |
| Aerials and antennas, built-in cabinet type | 708100 |
| Television antennas, including those with lead-ins permanently affixed | 708100 |
| Wire, for aerials and antennas, and lead-in wire for aerial and antenna installations: | |
| Report according to type | 608200, 608210, 642510, 645710, 709865, 709870, 709875, 709885. |

INTERPRETATION 10: PARTS, ACCESSORIES, AND EQUIPMENT EXPORTED AS SCRAP

Parts, accessories, or equipment, which are being shipped as scrap should be declared as scrap, rather than parts, accessories, and equipment, and described on the Shipper's Export Declaration in sufficient detail to be identified under the proper Schedule B classification for the particular type of scrap being shipped. Each such shipment is subject to all regulations concerning that type of scrap.

When commodities declared as parts, accessories, or equipment are shipped in bulk, or are otherwise not packaged, packed, or sorted in accordance with normal trade practices, the Collector of Customs may require evidence that the shipment is not scrap. Such evidence may include, but is not limited to bills of sale, orders, and correspondence indicating that the commodities are being exported for use as parts, accessories, or equipment and not as scrap.

Exporters should consult the Bureau of Foreign Commerce, Washington 25, D. C., Attn: Exporters Service Section, or the Bureau of the Census, Foreign Trade Division, Washington 25, D. C., when in doubt as to the proper classification as parts and accessories, or scrap.

INTERPRETATION 11: VARIABLE SPEED TRANSMISSIONS

Variable speed transmissions, Schedule B No. 775400, are intended to include two types of power transmissions: mechanical and hydraulic, except vehicular.

Mechanical transmissions are those that transmit power by mechanical connection between the driving and driven elements. The changes of speed are variable at will, being limited only by the design range, while the unit is in operation. This is accomplished by changing the pitch ratio between the driving and driven pulleys or by shifting the drive belt position on two cones which are mounted in reversed positions on their respective shafts.

Hydraulic transmissions are those that transmit power by circulating fluid of variable pressure and/or volume between the driving and driven elements. The driving fluid may be used to produce linear or rotary motion and the volume may be varied to produce any speed range within the design limitations of the unit.

Specially fabricated parts and components, n.e.c., are also included under Schedule B No. 775400. Included in this category of parts and components are the pumps specially fabricated for hydraulic power transmission. They do not deliver liquids but operate on a closed recirculating system in which the liquid is used as the medium for transmitting power but is not itself transported beyond the limits of its own circulation system.

Pumps which may be adapted to hydraulic power transmission but can be used in other applications as well, are not intended to be included in Schedule B No. 775400. Pumps of this type must be reported elsewhere, depending on the specifications (see Schedule B Nos. 770900–770980).

INTERPRETATION 12: ARMS, AMMUNITION, AND IMPLEMENTS OF WAR

Arms, ammunition, and implements of war which are not listed on the Positive List of Commodities (§ 399.1) and which have been rejected by the armed services and sold as scrap or which are declared surplus or have been junked are, for purposes of export control, under the jurisdiction of the Bureau of Foreign Commerce only if they are rendered useless beyond the possibility of restoration to their original form. The export control of such commodities which are not rendered useless beyond the possibility of restoration to their original form is under the jurisdiction of the Department of State.

Arms, ammunition, and implements of war are defined in the United States Munitions List (22 CFR Part 75) (see § 370.4 (a) of this subchapter). This list includes components, parts, attachments, and accessories, such as propellers, rudders, etc. (except common-use hardware items such as nuts, bolts, and piping), specifically designed for the following types of combatant vessels (whether or not usable on non-combatant or commercial vessels): battleships, command ships, cruisers, aircraft carriers, destroyers, and submarines.

Commodities such as machine guns, rifles, etc., are not necessarily rendered useless beyond the possibility of restoration to their original form merely by removal of component parts such as triggers, mounts, stocks, hammers, etc.

Exporters should consult the Office of Munitions Control, Department of State, Washington 25, D. C., when in doubt as to whether a commodity covered by the Munitions List has been rendered useless, before applying to the Bureau of Foreign Commerce for a license to export the item as metal scrap.

INTERPRETATION 13: RECEIVING TYPE TUBES (SCHEDULE B NO. 707803)

The non-military versions (glass or metal) of types of receiving tubes listed below are excepted from the entry presently on the Positive List under Schedule B No. 707803. Military versions of tubes are identified by the use of the letter "W" following any standard tube designation indicated below. For example, 6J5 and 6J5GT are not on the Positive List; however, 6J5WGT is on the Positive List since the letter "W" indicates that it is a military version.

INTERPRETATION 14: ROTARY WELL DRILLING RIGS

(1) *Definition.* For export control purposes, a rotary well drilling rig (Schedule B No. 730900) consists of a derrick or mast, sub-structure and platform, drawworks, rotary-table, kelly, swivel, crown and travelling blocks, wire rope, power-drive units, electric power-generating units, blow-out preventers, mud (slush) pumps, hose, rock drill bits and other accessories necessary to enable the rig to be operated as a drilling unit. Drill pipe, casing, oil, grease, drilling mud and explosives are not included in this definition.

(2) *Parts.* A validated export license for a drilling rig (as defined above) also covers spare parts in a value not exceeding five percent of the value of the rig. The exportation of the rig and spare parts, under authority of the validated license, shall be classified under Schedule B No. 730900, whether the rig and parts are shipped in a single shipment or in a series of partial shipments.

If the spare parts are not shipped together with the rig, either in a single shipment or series of partial shipments, or if they are in excess of five percent of the value of the rig with which they are being shipped, the spare parts shall be classified as follows:

General purpose items for which a separate classification is provided shall be classified under their appropriate Schedule B numbers. Specially fabricated parts, n. e. c., shall be classified under Schedule B No. 732000.

§ 399.3 *Appendix C—Commodity processing codes.* The following commodity processing code symbols shall be used by applicants in preparing applications for export licenses:

# TITLE 5—ADMINISTRATIVE PERSONNEL

## Chapter I—Civil Service Commission

### PART 20—RETENTION PREFERENCE REGULATIONS FOR USE IN REDUCTIONS IN FORCE

#### MISCELLANEOUS AMENDMENTS

Paragraphs (i), (j) and (k) of § 20.2 are renumbered (k), (l) and (m) and new paragraphs (i) and (j) are inserted after paragraph (h), and § 20.4 (d) (1) and (e) are amended as set out below.

§ 20.2 *Definitions.* For the purposes of the regulations in this part definitions are given for words, terms, and phrases as follows:

* * * * * * *

(i) "Service computation date" is either the date that an employee with no previous creditable service enters on duty, or an artificial entrance on duty date obtained by subtracting the employee's total creditable prior service from the date of his entrance on duty.

(j) "Adjusted service computation date" is the date obtained by subtracting from the year of the service computation date the retention credits granted for performance ratings higher than "Satisfactory."

* * * * * * *

§ 20.4 *Order of selection* * * *

(d) *Retention register*—(1) *Compilation.* When two or more competing employees are in a competitive level which is to be affected by a reduction in force, the retention records of such employees shall be brought up to date and a retention register shall be compiled. All employees in positions in the particular competitive level, whether in duty, leave, or furlough status, excluding only those absent on active military duty with reemployment rights, shall be entered on the register in the order of tenure groups and subgroups, and according to either retention credits or adjusted service computation date in any subgroup when there are two or more. One (1) retention credit shall be given for each full year of Federal Government service, and four (4) retention credits shall be given for an "outstanding" performance rating. Two (2) retention credits shall be given for a rating representing a level of performance between "Satisfactory" and "Outstanding" where the agency's performance rating plan provides for a fourth performance rating level. If any employees serving under temporary appointments specifically limited to one (1) year or less are assigned to positions in the competitive level, their names and the expiration dates of their appointments shall be entered below the space provided for employees in tenure groups on the register. Likewise, if there are any employees serving in positions in the competitive level under any kind of appointments, with current official performance ratings of "Unsatisfactory," their names shall be entered on the register below the names of temporary employees.

* * * * * * *

(e) *Sequence of selection.* With respect to each competitive level, action must be taken to remove all employees with official "Unsatisfactory" performance ratings, and all employees serving under temporary appointments specifically limited to one (1) year or less from positions affected by a reduction in force before any competing employee, in any tenure group, is reached for action. Thereafter, selections for action must be made in order beginning with the lowest ranking employee on the register. Half years of service will be used in breaking ties in retention standing, but any ties still remaining will be decided administratively.

# TITLE 7—AGRICULTURE

## Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders), Department of Agriculture

[Elberta Peach Order 1]

### PART 936—FRESH BARTLETT PEARS, PLUMS, AND ELBERTA PEACHES GROWN IN CALIFORNIA

#### REGULATION OF SHIPMENTS

§ 936.529 *Elberta Peach Order 1*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 36, as amended (7 CFR Part

936), regulating the handling of fresh Bartlett pears, plums, and Elberta peaches grown in the State of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and upon the basis of the recommendations of the Elberta Peach Commodity Committee, established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of Elberta peaches, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) in that, as hereinafter set forth, the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective not later than June 18, 1956. A reasonable determination as to the supply of, and the demand for, such peaches must await the development of the crop and adequate information thereon was not available to the Elberta Peach Commodity Committee until May 17, 1956; recommendation as to the need for, and the extent of, regulation of shipments of such peaches was made at the meeting of said committee on May 17, 1956, after consideration of all available information relative to the supply and demand conditions for such peaches, at which time the recommendation and supporting information was submitted to the Department; necessary supplemental data for consideration in connection with the specification of the provisions of this section were not available until June 7, 1956; shipments of the current crop of such peaches are expected to begin on or about June 22, 1956, and this section should be applicable to all shipments of such peaches in order to effectuate the declared policy of the act; and compliance with the provisions of this section will not require of handlers any preparation therefor which cannot be completed by the effective time hereof.

(b) *Order.* (1) During the period beginning at 12:01 a. m., P. s. t., June 18, 1956, and ending at 12:01 a. m., P. s. t., November 1, 1956, no shipper shall ship:

(i) Any package or container of Elberta peaches unless such peaches meet the requirements of the U. S. No. 1 Grade: *Provided,* That (*a*) with respect to ripe Elberta peaches, the requirements of the U. S. No. 1 Grade regarding freedom from damage, other than serious damage, caused by bruises need not be met; and (*b*) with respect to peaches which are of a size not smaller than the size known commercially as size 55 (as size 55 is defined more specifically in subparagraph (4) of this paragraph), a tolerance of 5 percent for defects not causing serious damage is allowed in addition to the tolerances provided for such U. S. No. 1 Grade;

(ii) Any package or container of Elberta peaches unless at least 85 percent, by count, of such peaches are well matured (as such term is defined in subparagraph (2) of this paragraph);

(iii) Any package or container of Elberta peaches containing more than one peach which is immature: *Provided,* That no lot of packages or containers of Elberta peaches may be shipped if more than one-half of one percent, by count, of the peaches in the lot are immature; or

(iv) Any package or container of Elberta peaches containing peaches which are of a size smaller than a size that will pack 72 peaches of the size known commercially as size 70 (as size 70 is defined more specifically in subparagraph (3) of this paragraph) in a No. 12B California peach box in accordance with the requirements prescribed for a standard pack: *Provided,* That, for the purpose of determining whether ripe Elberta peaches meet the said minimum size, such peaches may be fairly tightly packed rather than tightly packed, as prescribed for such standard pack.

(2) Peaches which are "well matured" means peaches which, at the time of picking; (i) are not hard; (ii) have shoulders and sutures well filled out; (iii) when ring cut, have flesh that separates from the pit readily and cleanly, and is red colored next to the pit; and (iv) have skin and flesh yellowish green to yellow in color. "Peaches which are not hard" yield to moderate pressure at least slightly at the suture and tip and at least very slightly elsewhere.

(3) As used in this section, the size of Elberta peaches known commercially as size 70 is defined more specifically as being the size that will pack the aforesaid California peach box in accordance with the aforesaid standard pack specifications with two tiers having six rows of six peaches each with not more than 10 percent, by count, of such peaches small enough to pass through, without using pressure, a rigid ring of inside diameter of 2⅜ inches.

(4) As used in this section, the size of Elberta peaches known commercially as size 55 is defined more specifically as being the size that will pack the aforesaid California peach box in accordance with the aforesaid standard pack specifications with two tiers, one tier having two rows of five peaches each and three rows of six peaches each and the other tier having two rows of six peaches each and three rows of five peaches each with not more than 10 percent, by count, of such peaches small enough to pass through, without using pressure, a rigid ring of inside diameter of 2¾ inches.

(5) Section 936.143 sets forth the requirements with respect to the inspection and certification of shipments of Elberta peaches. Such section also prescribes the conditions which must be met if any shipment is to be made without prior inspection and certification. Notwithstanding that shipments may be made without inspection and certification, each shipper shall comply with all grade and size regulations applicable to the respective shipment.

(6) Terms used in the amended marketing agreement and order shall, when used herein, have the same meaning as given to the respective term in said amended marketing agreement and order; the terms "U. S. No. 1 Grade," "bruises," "defects," "damage," "serious damage," "standard pack," "tightly packed," "fairly tightly packed" shall have the same meaning as when used in the United States Standards for peaches (§§ 51.1210 to 51.1223 of this title); the term "No. 12B California peach box" shall have the same meaning as set forth in section 828.25 of the Agricultural Code of California.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Dated: June 12, 1956.

[SEAL] FLOYD F. HEDLUND,
*Acting Director, Fruit and Vegetable Division, Agricultural Marketing Service.*

[F. R. Doc. 56-4740; Filed, June 14, 1956; 8:51 a. m.]

---

[Lemon Reg. 645, Amdt. 1]

## PART 953—LEMONS GROWN IN CALIFORNIA AND ARIZONA

### LIMITATION OF SHIPMENTS

*Findings.* 1. Pursuant to the marketing agreement, as amended, and Order No. 53, as amended (7 CFR Part 953; 19 F. R. 7175; 20 F. R. 2913), regulating the handling of lemons grown in the State of California or in the State of Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and upon the basis of the recommendation and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of the quantity of such lemons which may be handled, as hereinafter provided, will tend to effectuate the declared policy of the act.

2. It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice and engage in public rule-making procedure, and postpone the effective date of this amendment until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this amendment is based became available and the time when this amendment must become effective in order to effectuate the declared policy of the Agricultural Marketing Agreement Act of 1937, as amended, is insufficient, and this amendment relieves restriction on the handling of lemons grown in the State of California or in the State of Arizona.

*Order, as amended.* The provisions in paragraph (b) (1) (ii) of § 953.752 (Lemon Regulation 645; 21 F. R. 3967) are hereby amended to read as follows:

(ii) District 2: 558,000 cartons.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Dated: June 12, 1956.

[SEAL] FLOYD F. HEDLUND,
*Acting Director, Fruit and Vegetable Division, Agricultural Marketing Service.*

*In the Matter of LeAnn Fine Furs, Inc., a Corporation, and David Sandow and Sylvia Sandow, Individually and as Officers of Said Corporation*

This proceeding was heard by a hearing examiner on the complaint of the Commission—charging a corporation and its officers, with office in East St. Louis, Ill., with violating the Fur Products Labeling Act, and the Federal Trade Commission Act, through false advertising, misbranding, and false invoicing of fur products, through failing to disclose in newspaper advertisements, on attached labels, and on invoices, the information required by the Act; and in advertisements naming animals other than those specified in the Fur Products Name Guide, and misrepresenting the amount of savings possible to purchasers—and an agreement containing a consent order to cease and desist disposing of all the issues without hearing.

On this basis, the hearing examiner made his initial decision and order to cease and desist, which became, on May 24, 1956, the decision of the Commission.

The order to cease and desist is as follows:

*It is ordered,* That respondent LeAnn Fine Furs, Inc., a corporation, and its officers, and respondent David Sandow and respondent Sylvia Sandow, individually and as officers of said corporation, and respondents' representatives, agents and employees, directly or through any corporate or other device, in connection with the introduction into commerce, or the sale, advertising, or offering for sale in commerce, or the transportation or distribution in commerce, of fur products, or in connection with the sale, advertising, offering for sale, transportation, or distribution of fur products which have been made in whole or in part of fur which has been shipped and received in commerce, as "commerce", "fur" and "fur products" are defined in the Fur Products Labeling Act, do forthwith cease and desist from:

A. Falsely or deceptively advertising fur products through the use of any advertisement, representation, public announcement, or notice which is intended to aid, promote or assist, directly or indirectly, in the sale or offering for sale of fur products, and which:

1. Fails to disclose:

a. The name or names of the animal or animals producing the fur or furs contained in the fur product as set forth in the Fur Products Name Guide, and as prescribed under the rules and regulations;

b. That the fur products contain or are composed of secondhand or used fur when such is a fact;

c. That the fur products contain or are composed of bleached, dyed, or otherwise artificially colored fur when such is a fact;

d. That prices utilized in advertising as comparative prices were not based on current market values, or without giving the name and the compared price;

e. The name of the country of origin of imported furs contained in the fur products.

2. Contains the name or names of an animal or animals other than those producing the fur contained in the fur product.

B. Misbranding fur products by:

1. Falsely or deceptively labeling or otherwise identifying any such product as to the name or names of the animal or animals that produced the fur from which such product was manufactured;

2. Failing to affix labels to fur products showing:

a. The name or names of the animal or animals producing the fur or furs contained in the fur product as set forth in the Fur Products Name Guide and as prescribed under the rules and regulations;

b. That the fur product contains or is composed of used fur when such is a fact;

c. That the fur product contains or is composed of bleached, dyed, or artificially colored fur when such is a fact;

d. That the fur product is composed in whole or in substantial part of paws, tails, bellies, or waste fur when such is a fact;

e. The name, or other identification issued and registered by the Commission, of one or more persons who manufactured such fur product for introduction into commerce, introduced it into commerce, sold it in commerce, advertised or offered it for sale in commerce, or transported or distributed it in commerce;

f. That name of the country of origin of any imported furs used in the fur product.

C. Making comparative pricing claims or representations unless there is maintained full and adequate records disclosing the facts upon which such claims or representations are based.

D. Falsely or deceptively invoicing fur products by:

1. Failing to furnish invoices showing:

a. The name or names of the animal or animals producing the fur or furs contained in the fur product as set forth in the Fur Products Name Guide and as prescribed under the rules and regulations;

b. That the fur product contains or is composed of used fur when such is a fact;

c. That the fur product contains or is composed of bleached, dyed, or artificially colored fur when such is a fact;

d. That the fur product is composed in whole or in substantial part of paws, tails, bellies, or waste fur when such is a fact;

e. The name and address of the person issuing such invoices;

f. The name of the country of origin of any imported furs contained in the fur product.

By "Decision of the Commission," etc., report of compliance was required as follows:

*It is ordered,* That the respondents herein shall within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with the order to cease and desist.

Issued: May 24, 1956.

By the Commission.

[SEAL] ROBERT M. PARRISH,
*Secretary.*

[Docket 6513]

## PART 13—DIGEST OF CEASE AND DESIST ORDERS

### MAWSON DE MANY FORBES ET AL.

Subpart—*Advertising falsely or misleadingly:* § 13.73 *Formal regulatory and statutory requirements:* Fur Products Labeling Act; § 13.155 *Prices:* Comparative; § 13.285 *Value.* Subpart—*Invoicing products falsely:* § 13.1108 *Invoicing products falsely:* Fur Products Labeling

Act. Subpart—*Neglecting, unfairly or deceptively, to make material disclosure:* § 13.1845 *Composition:* Fur Products Labeling Act; § 13.1852 *Formal regulatory and statutory requirements:* Fur Products Labeling Act; § 13.1870 *Nature:* Fur Products Labeling Act.

(Sec. 6, 38 Stat. 721; 15 U. S. C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended; sec. 8, 65 Stat. 179; 15 U. S. C. 45, 69f) [Cease and desist order, Mawson DeMany, Forbes et al., Philadelphia, Pa., Docket 6513, May 26, 1956]

*In the Matter of Mawson DeMany Forbes, a Corporation; David DeMany, Individually and as President and Treasurer of Said Corporation; and Morris B. Marks, Individually and as Vice President and Secretary of Said Corporation*

This proceeding was heard by a hearing examiner on the complaint of the Commission—charging a corporation and its officers, with office in Philadelphia, with violating the Fur Products Labeling Act and the Federal Trade Commission Act, through false invoicing of certain fur products which set forth the required information in abbreviated form and failed to disclose that the products were composed in substantial part of sides and flanks; and false advertising in newspapers which failed to disclose the names of animals producing the fur, and misrepresented the prices and value of the products—and an agreement for consent order to cease and desist.

On this basis, the hearing examiner made his initial decision and order to cease and desist which, by order of May 25, 1956, became, on May 26, the decision of the Commission.

The order to cease and desist is as follows:

*It is ordered*, That respondents, Mawson DeMany Forbes, a corporation, and its officers; and David DeMany, individually and as President and Treasurer of said corporation; and Morris B. Marks, individually and as Vice President and Secretary of said corporation; and their representatives, agents and employees, directly or through any corporate or other device, in connection with the introduction into commerce, or the sale, advertising, or offering for sale in commerce, or the transportation or distribution in commerce, of any fur product, or in connection with the sale, advertising, offering for sale, transportation, or distribution of any fur product which is made in whole or in part of fur which has been shipped and received in commerce, as "commerce," "fur," and "fur product" are defined in the Fur Products Labeling Act, do forthwith cease and desist from:

A. Falsely or deceptively invoicing fur products by:

1. Failing to furnish invoices to purchasers of fur products showing:

a. The name or names of the animal or animals producing the fur or furs contained in the fur product as set forth in the Fur Products Name Guide and as prescribed under the rules and regulations;

b. That the fur product contains or is composed of used fur when such is a fact;

c. That the fur product contains or is composed of bleached, dyed, or artificially colored fur when such is a fact;

d. That the fur product is composed in whole or in substantial part of paws, tails, bellies, or waste fur when such is a fact;

e. The name and address of the person issuing such invoices;

f. The name of the country of origin of any imported furs contained in the fur product.

2. Setting forth the required information in abbreviated form.

3. Failing to disclose as part of the required information that fur products were composed in whole or in substantial part of sides and flanks, when such was the fact.

B. Falsely or deceptively advertising fur products, through the use of any advertisement, representation, public announcement, or notice which is intended to aid, promote or assist, directly or indirectly, in the sale or offering for sale of fur products, and which:

1. Fails to disclose the name or names of the animals or animals producing the fur or furs contained in the fur products as set forth in the Fur Products Name Guide and as prescribed under the rules and regulations.

2. Represents directly or by implication:

a. That the regular or usual price of any fur product is any amount which is in excess of the price at which the respondent has usually and customarily sold such products in the recent regular course of its business;

b. The value of fur products, when such claims and representations are not true in fact.

3. Makes use of comparative prices or percentage savings claims unless such compared prices or claims are based upon the current market value of the fur product or upon a bona fide compared price at a designated time.

4. Makes price claims and representations of the type referred to in subparagraphs a and b and paragraph 3 above, unless there is maintained by respondents full and adequate records disclosing the facts upon which such claims or representations are based.

By "Decision of the Commission", etc., report of compliance was required as follows:

*It is ordered*, That the respondents herein shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with the order to cease and desist.

Issued: May 25, 1956.

By the Commission.

## Subchapter B—Trade Practice Conference Rules

[File No. 21-504]

## PART 29—ACCIDENT AND HEALTH INSURANCE INDUSTRY

### PROMULGATION OF TRADE PRACTICE RULES

Due proceedings having been held under the trade practice conference procedure in pursuance of the Act of Congress approved September 26, 1914, as amended (Federal Trade Commission Act), and other provisions of law administered by the Commission:

*It is now ordered*, That the Group I trade practice rules as hereinafter set forth, which have been approved by the Commission in this proceeding, be promulgated as of June 15, 1956.

*Statement by the Commission.* Trade practice rules for the accident and health insurance industry, as hereinafter set forth, are promulgated by the Federal Trade Commission under the trade practice conference procedure.

Insurers for which trade practice rules are hereby established are comprised of individuals, corporations, associations, partnerships, reciprocal exchanges, inter-insurers, Lloyds, fraternal benefit societies, and any other legal entities engaged in the advertisement of policies of accident and health insurance. The rules also apply to agents and brokers to the extent that they are responsible for the advertisement of any policy.

The rules are directed to the elimination and prevention of harmful acts and practices in connection with the sale and offering for sale of accident and health insurance. They are to be applied to such end and to the exclusion of any acts or practices which suppress competition or otherwise restrain trade.

Proceedings under which rules have been established were instituted by the Commission on its own motion. A general industry conference was held in Washington, D. C., at which the National Association of Insurance Commissioners submitted proposals for Commission consideration. Thereafter, proposed rules were published by the Commission and made available to all industry members and other interested or affected parties upon public notice whereby they were afforded opportunity to present their views, including such pertinent information, suggestions, or amendments as they desired to offer, and to be heard in the premises. Pursuant to such notice, a public hearing was held in Washington, D. C., on April 30, 1956, and all matters there presented, or otherwise received in the proceeding, were duly considered by the Commission.

Thereafter, and upon full consideration of the entire matter, final action was taken by the Commission whereby it approved the rules as hereinafter set forth.

The rules as approved become operative thirty (30) days after the date of promulgation.

Sec.
29.0 Definitions.
29.1 Deception in general.
29.2 Advertisements of benefits, losses covered, or premiums payable.
29.3 Disclosure as to exceptions, reductions, and limitations.
29.4 Disclosure of policy provisions relating to renewability, cancellability, or termination.
29.5 Method of disclosure of required information.
29.6 Testimonials.
29.7 Deceptive use of statistics.
29.8 Availability of policy or refund of premiums.
29.9 Identification of plan or number of policies.
29.10 Disparagement.
29.11 Deceptive use of trade names, service marks, etc.
29.12 Deception as to "group" or "quasi-group" policies.
29.13 Deception as to introductory, initial, or special offers.
29.14 Misrepresentation as to approval or endorsement of advertisements or policies.
29.15 Misrepresentation as to payment of claims.
29.16 Misrepresentation concerning the insurer.

AUTHORITY: §§ 29.0 to 29.16 issued under sec. 6, 38 Stat. 722; 15 U. S. C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended; 15 U. S. C. 45.

§ 29.0 *Definitions.* (a) "Advertisement," for the purpose of this part, shall mean any of the following material when used in connection with solicitation of the original purchase of a policy, or renewal or reinstatement thereof:

(1) Any printed and published material and descriptive literature, statements, or depictions of an insurer used in newspapers, magazines, radio and TV scripts or presentations, billboards, and similar displays; and

(2) Descriptive literature and sales aids of all kinds issued by an insurer for presentation to members of the public, including, but not limited to, circulars, leaflets, booklets, depictions, illustrations, and form letters; and

(3) Prepared sales talks, presentations, and material of all kinds for use by agents and brokers, and representations made by agents and brokers in accordance therewith.

(b) "Policy," for the purpose of this part, shall include any policy, plan, certificate, contract, agreement, statement of coverage, rider or endorsement, which provides accident or sickness benefits, or medical, surgical, or hospital expense benefits, whether on a cash indemnity, reimbursement, or service basis, except when issued in connection with another kind of insurance other than life, and except disability and double indemnity benefits included in life insurance and annuity contracts.

(c) "Insurer," for the purpose of this part, shall include any individual, corporation, association, partnership, reciprocal exchange, inter-insurer, Lloyds, fraternal benefit society, and any other legal entity, engaged in the advertisement of a policy as herein defined.

(d) *Agents and brokers:* This part shall also apply to agents and brokers to the extent that they are responsible for the advertisement of any policy.

### GROUP I

*General statement.* The unfair trade practices embraced in the Group I rules herein are considered to be unfair methods of competition, unfair or deceptive acts or practices, or other illegal practices, prohibited under laws administered by the Federal Trade Commission; and appropriate proceedings in the public interest will be taken by the Commission to prevent the use, by any person, partnership, corporation, or other organization, of such practices when subject to its jurisdiction.

§ 29.1 *Deception in general.* It is an unfair trade practice for an insurer to use, or cause to be used, any advertisement which has the capacity and tendency or effect of misleading or deceiving purchasers or prospective purchasers.

NOTE: Words or phrases, the meaning of which is clear only by implication or by familiarity with insurance terminology, are subject to this section.

[Rule 1]

§ 29.2 *Advertisements of benefits, losses covered, or premiums payable.* It is an unfair trade practice for an insurer to use, or cause to be used, in any advertisement, words, phrases, or illustrations which mislead or have the capacity and tendency or effect of misleading or deceiving purchasers or prospective purchasers with respect to any policy benefit or benefits, loss or losses covered, or premium or premiums payable.

(a) It is an unfair trade practice for an insurer to use, or cause to be used, in any advertisement, words or phrases such as "all," "full," "complete," "comprehensive," "unlimited," "This policy will pay your hospital and surgical bills," "This policy will replace your income," or words or phrases of similar import in connection with losses covered or benefits which are subject to exceptions, reductions, or limitations, unless such exceptions, reductions, or limitations are disclosed in accordance with the requirements of §§ 29.3 and 29.5.

(b) It is an unfair trade practice for an insurer to use, or cause to be used, in any advertisement, such words or phrases as "up to," "as high as," etc., in connection with dollar amounts payable for medical, hospital, surgical, or other expenses, or for loss of income, unless full indemnification is provided in all cases up to such amounts for expenses actually incurred, or income actually lost, by the policyholder, or there is full disclosure, in accordance with § 29.5, of the schedule of payments for specified expenses or loss of income for which the policy provides, and there is also a disclosure, in accordance with § 29.5, of such other exceptions, reductions, or limitations as may be required by § 29.3.

(c) It is an unfair trade practice for an insurer to use, or cause to be used, any advertisement in which a policy covering only one disease or a list of specified diseases is described in such a manner as to imply coverage beyond the terms of the policy, or in which synonymous words or terms are used to refer to any disease or physical condition so as to imply broader coverage than is the fact.

(d) It is an unfair trade practice for an insurer to use, or cause to be used, any advertisement in which representation is made as to the benefits of a policy which pays varying amounts for the same loss occurring under different conditions or which pays benefits only when a loss occurs under certain conditions without disclosing the limited conditions in accordance with the requirements of § 29.5.

(e) It is an unfair trade practice for an insurer to use, or cause to be used, in any advertisement, phrases such as "This policy pays $1,800 for hospital room and board expenses" without disclosure of the maximum daily benefit and the maximum time limit for such hospital room and board expenses and without disclosure of any other exceptions, reductions, or limitations in accordance with the requirements of §§ 29.3 and 29.5.

(f) It is an unfair trade practice for an insurer to use, or cause to be used, any advertisement which represents, directly or indirectly, that a policy provides for the payment of certain benefits in addition to other benefits when such is not the fact. [Rule 2]

§ 29.3 *Disclosure as to exceptions, reductions, and limitations.* (a) It is an unfair trade practice for an insurer to use, or cause to be used, any advertisement which refers to any dollar amount, period of time for which any benefit is payable, cost of policy, or specific policy benefit or benefits or the loss or losses for which such benefit or benefits are payable, without disclosing, in accordance with the requirements of § 29.5, the exceptions, reductions, and limitations relating thereto without which the advertisement would have the capacity and tendency or effect of misleading or deceiving purchasers or prospective purchasers.'

NOTE 1: The term "exception" shall mean any provision in a policy whereby coverage for a specified hazard is entirely eliminated. It is a statement of a risk not assumed under the policy.

NOTE 2: The term "reduction" shall mean any provision which reduces the amount of the benefit; a risk of loss is assumed but payment upon the occurrence of such loss is limited to some amount or period less than would be otherwise payable had such reduction clause not been used.

NOTE 3: The term "limitation" shall mean any provision which restricts the duration or extent of coverage, losses covered, or benefits payable under the policy other than an exception or a reduction.

(b) It is an unfair trade practice for an insurer to use, or cause to be used, any advertisement covered by this section when, by the terms of the policy advertised, there is a time period between the effective date of the policy and the effective date of coverage under the policy, or a time period between the date a loss occurs and the date benefits begin to accrue for such loss, without disclosing the same in accordance with the requirements of § 29.5.

(c) It is an unfair trade practice for an insurer to use, or cause to be used, any advertisement covered by paragraph (a) of this section without disclosing, in accordance with the requirements of § 29.5, the extent to which any loss is not covered if the cause of such loss is traceable to a condition existing prior to the effective date of the policy.

(d) It is an unfair trade practice for an insurer to use, or cause to be used, any advertisement representing or implying—

(1) That the condition of the insured's health at the time of issuance of the policy will not be considered by the insurer in determining its liability thereunder; or

(2) That the insurer will not, as a claims practice, require proof of good health of the insured at the time of the issuance of the policy;

when such is not the fact. [Rule 3]

§ 29.4 *Disclosure of policy provisions relating to renewability, cancellability, or termination.* It is an unfair trade practice for an insurer to use, or cause to be used, any advertisement which refers, directly or by implication, to renewability, cancellability, or termination of a policy, or which contains a statement or illustration of time or age in connection with benefit or benefits payable, loss or losses, eligibility of applicants, or continuation of a policy, unless there is disclosure in accordance with § 29.5 of the provisions relating to renewability, cancellability, and termination, and to modification of benefits, losses covered, or premiums because of age, or for other reasons. [Rule 4]

§ 29.5 *Method of disclosure of required information.* It is an unfair trade practice for an insurer to fail to disclose in any advertisement the information required by the rules in this part conspicuously and prominently, and in sufficiently close conjunction with the statement or representation to which such required information relates as will relieve the representation of deception or the capacity to deceive. [Rule 5]

§ 29.6 *Testimonials.* It is an unfair trade practice for an insurer to use, or cause to be used, any advertisement containing a testimonial unless such testimonial is genuine, accurately describes the facts, represents the current opinion of the author, is applicable to the policy advertised, and is accurately reproduced.

NOTE: The insurer, in using a testimonial in an advertisement, makes as its own all of the statements contained therein, and the advertisements including such statements are subject to all of the provisions of the rules in this part.

[Rule 6]

§ 29.7 *Deceptive use of statistics.* It is an unfair trade practice for an insurer to use, or cause to be used, any advertisement in which representations are made as to dollar amounts of claims paid, the number of persons insured, or other statistical information relating to any insurer or policy unless it accurately reflects all of the relevant facts and does not imply that such statistics are derived from the policy advertised unless such is the fact. [Rule 7]

§ 29.8 *Availability of policy or refund of premiums.* It is an unfair trade practice for an insurer to use, or cause to be used, any advertisement which has the capacity and tendency or effect of misleading or deceiving purchasers or prospective purchasers even though the policy advertised is made available to the insured prior to the consummation of the sale or an offer is made of a premium refund. [Rule 8]

§ 29.9 *Identification of plan or number of policies.* (a) It is an unfair trade practice for an insurer to use, or cause to be used, any advertisement in which a choice of the amount of benefits is offered without disclosing that the amount of benefits provided depends upon the plan selected and that the premium will vary with the amount of the benefits.

(b) It is an unfair trade practice for an insurer to use, or cause to be used, any advertisement which refers to various benefits which may be contained in two or more policies, other than group master policies, without disclosing that such benefits are provided only through a combination of such policies. [Rule 9]

§ 29.10 *Disparagement.* It is an unfair trade practice for an insurer to use, or cause to be used, any advertisement which, directly or indirectly, falsely disparages competitors, their policies, services, or business methods. [Rule 10]

§ 29.11 *Deceptive use of trade names, service marks, etc.* It is an unfair trade practice for an insurer to use, or cause to be used, in any advertisement, a trade name, service mark, slogan, symbol, or other device which has the capacity and tendency or effect of misleading or deceiving purchasers or prospective purchasers as to the true identity of the insurer or its relation with public or other private institutions. [Rule 11]

§ 29.12 *Deception as to "group" or "quasi-group" policies.* It is an unfair trade practice for an insurer to use, or cause to be used, any advertisement in which a representation is made, directly or by implication, that prospective policy holders become group or quasi-group members and as such enjoy special rates or privileges ordinarily associated with group insurance as recognized in the industry, unless such is the fact. [Rule 12]

§ 29.13 *Deception as to introductory, initial, or special offers.* It is an unfair trade practice for an insurer to use, or cause to be used, any advertisement in which representation is made, directly or by implication, that a particular policy or combination of policies is an introductory, initial, or special offer and that applicants will receive advantages not available at a later date, unless such is the fact. [Rule 13]

§ 29.14 *Misrepresentation as to approval or endorsement of advertisements or policies.* It is an unfair trade practice for an insurer to use, or cause to be used, any advertisement in which a representation is made, directly or by implication:

(a) That an insurer, or any policy or advertisement thereof, has been approved by any governmental agency or department, unless such is the fact;

(b) That an insurer, or a policy or advertisement thereof, has been approved or endorsed by any individual, group of individuals, society, association, or other organization, unless such is the fact. [Rule 14]

§ 29.15 *Misrepresentation as to payment of claims.* It is an unfair trade practice for an insurer to use, or cause to be used, any advertisement in which a representation is made, directly or by implication, which has the capacity and tendency or effect of misleading or deceiving purchasers or prospective purchasers with respect to:

(a) The time limit within which claims are paid;

(b) The dollar amounts of claims paid or the number of claims paid under a particular policy;

(c) The liberality and generosity beyond the terms of the policy in settlement of claims. [Rule 15]

§ 29.16 *Misrepresentation concerning the insurer.* It is an unfair trade practice for an insurer to use, or cause to be used, any advertisement which, directly or by implication, has the capacity and tendency or effect of misleading or deceiving purchasers or prospective purchasers with respect to the insurer's assets, corporate structure, financial standing, age, or relative position in the insurance business. [Rule 16]

Promulgated by the Federal Trade Commission June 15, 1956.

Issued: June 12, 1956.

# TITLE 24—HOUSING AND HOUSING CREDIT

## Chapter II—Federal Housing Administration, Housing and Home Finance Agency

### Subchapter C—Mutual Mortgage Insurance and Servicemen's Mortgage Insurance

PART 221—MUTUAL MORTGAGE INSURANCE; ELIGIBILITY REQUIREMENTS OF MORTGAGE COVERING ONE- TO FOUR-FAMILY DWELLINGS

ELIGIBILITY OF MISCELLANEOUS TYPE MORTGAGES

Section 221.42 is amended by adding at the end thereof a new paragraph (j) as follows:

§ 221.42 *Eligibility of miscellaneous type mortgages.* * * *

(j) Notwithstanding the provisions of § 221.11 (a), in connection with mortgages of the character described in subparagraph (4) of paragraph (b) of this section, applications for commitments must be accompanied by the mortgagee's check for the sum of $10 to cover the cost of processing by the Commissioner. If an application is refused as a result of preliminary examination by the Commissioner, or in such other instances as the Commissioner may determine, the entire fee will be returned to the applicant.

PART 292a—ARMED SERVICES HOUSING INSURANCE; ELIGIBILITY REQUIREMENTS OF MORTGAGE

PART 293a—ARMED SERVICES HOUSING INSURANCE; RIGHTS AND OBLIGATIONS OF THE MORTGAGEE UNDER THE INSURANCE CONTRACT

MILITARY PERSONNEL; CIVILIAN EMPLOYEES

1. In Part 292a, §§ 292a.1 to 292a.40 are designated as Subpart A—Military Personnel. The references therein to "this part" shall be deemed to mean "this subpart." A new Subpart B is added as follows:

SUBPART B—CIVILIAN EMPLOYEES

Sec.
292a.50 Incorporation by reference.
292a.51 Certificate of need.
292a.52 Employment status certificate.
292a.53 Maximum mortgage amount; dollar limitation.
292a.54 Maximum mortgage amount; loan-to-value limitation.
292a.55 Mortgage obligation in multiples.
292a.56 Mortgagor's minimum investment.
292a.57 Eligible mortgagors.
292a.58 Requirements as to risk and economic soundness.
292a.59 Guarantee of fund from loss.
292a.60 Effective date.

AUTHORITY: §§ 292a.50 to 292a.60 issued under sec. 807, 69 Stat. 651; 12 U. S. C. 1748f. Interpret or apply sec. 809, Pub. Law 574, 84th Cong.

§ 292a.50 *Incorporation by reference.* (a) All of the provisions of Part 221 of this chapter concerning eligibility requirements of mortgages under section 203 of the National Housing Act apply with equal force and effect to mortgages insured pursuant to section 809, except the following provisions:

§ 221.17 Maximum mortgage amount and mortgagor's minimum investment.
§ 221.27 Economic soundness of project.
§ 221.41 Rental properties.
§ 221.42 Eligibility of miscellaneous type mortgages.
§ 221.44 Effective date.

(b) For the purposes of this part all references in Part 221 of this chapter to section 203 of the National Housing Act shall be deemed to refer to section 809 of the National Housing Act.

§ 292a.51 *Certificate of need.* No mortgage shall be insured unless the Secretary of Defense, or his designee, shall have certified to the Commissioner that the housing is necessary to provide adequate housing for civilians employed in connection with a research or development installation of one of the military departments of the United States or a contractor thereof, and that there is no present intention to substantially curtail the number of such civilian personnel assigned or to be assigned to such installation. Such certification shall be conclusive evidence to the Commissioner of the need for such housing.

§ 292a.52 *Employment status certificate.* No mortgage shall be insured unless the Secretary of Defense, or his designee, has issued a certificate indicating that the mortgagor: (a) Requires housing; (b) is, on the date of the certificate, a civilian employee at a research or development installation of one of the military departments of the United States, or contractor thereof, at a research or development installation; and (c) is considered by the military department to be an essential, nontemporary, employee at such date. Such certificate shall be conclusive evidence to the Commissioner of the employment status of the mortgagor and of the mortgagor's need for housing.

§ 292a.53 *Maximum mortgage amount; dollar limitation.* The mortgage shall involve a principal obligation in a dollar amount not in excess of:

(a) $20,000 in the case of dwellings designed principally for one- or two-family residences; or

(b) $27,500 in the case of a three-family residence; or

(c) $35,000 in the case of a four-family residence.

In addition to the dollar limitation prescribed in this section the mortgage amount is subject to a loan-to-value limitation as provided in § 292a.54.

§ 292a.54 *Maximum mortgage amount; loan-to-value limitation.* In addition to meeting the dollar limitation as set forth in § 292a.53, the mortgage shall be in an amount not in excess of:

(a) 95 percent of $9,000 of the Commissioner's estimate of the appraised value of the property, as of the date the mortgage is accepted for insurance if the dwelling is approved for mortgage insurance prior to the beginning of construction and 75 percent of the Commissioner's estimate of the appraised value in excess of $9,000; or

(b) 90 percent of $9,000 of the appraised value as of the date the mortgage is accepted for insurance if the mortgaged property was not approved for mortgage insurance prior to the beginning of construction and 75 percent of the appraised value in excess of $9,000.

§ 292a.55 *Mortgage obligation in multiples.* The mortgage shall involve a principal obligation computed in multiples of $100 except that a mortgage having a principal obligation of less than $10,000 may be in multiples of $50.

§ 292a.56 *Mortgagor's minimum investment.* At the time the mortgage is insured the mortgagor shall have paid on account of the property at least five percent of the Commissioner's estimate of the cost of acquisition, or such larger amount as the Commissioner may determine, in cash or its equivalent.

§ 292a.57 *Eligible mortgagors.* No mortgage shall be insured unless executed by a mortgagor who meets the employment status requirements as set forth in § 292a.52 and who at the time of insurance is the owner of the property and either occupies the property or certifies that his failure to do so is the result of a change of his employment.

§ 292a.58 *Requirements as to risk and economic soundness.* A mortgage may be accepted for insurance by the Commissioner without regard to any requirement that the property or project be economically sound or an acceptable risk.

§ 292a.59 *Guarantee of fund from loss.* If the Commissioner determines that insurance of mortgages on housing as certified by the Secretary of Defense pursuant to § 292a.51 is not an acceptable risk, he may require the Secretary to guarantee the Armed Services Housing Insurance Fund from loss with respect to mortgages insured under this subpart.

§ 292a.60 *Effective date.* The provisions of this subpart are effective as to all mortgages on which a commitment to insure is issued on or after June 13, 1956.

2. In Part 293a, §§ 293a.1 to 293a.14 are designated as Subpart A—Military Personnel and a new Subpart B is added as follows:

SUBPART B—CIVILIAN EMPLOYEES

Sec.
293a.25 Incorporation by reference.
293a.26 Insurance endorsement.
293a.27 Effective date.

AUTHORITY: §§ 293a.25 to 293a.27 issued under sec. 807, 69 Stat. 651, 12 U. S. C. 1748f. Interpret or apply sec. 809, Pub. Law 574, 84th Cong.

§ 293a.25 *Incorporation by reference.* (a) All of the provisions of Part 222 of this chapter covering mortgages insured under section 203 of the National Housing Act, apply with full force and effect to mortgages insured under section 809 of the National Housing Act except the following provisions:

§ 222.5 Form of endorsement.
§ 222.7 Mutual Mortgage Insurance Fund.
§ 222.8 Distribution of participation shares.
§ 222.9 Rights to participation shares.
§ 222.18 Effective date.

(b) For the purposes of this subpart all references in Part 222 of this chapter to section 203 of the National Housing Act shall be deemed to refer to section 809 of the National Housing Act and all references to the Mutual Mortgage Insurance Fund or the Fund shall be construed to refer to the Armed Services Housing Mortgage Insurance Fund.

§ 293a.26 *Insurance endorsement.* Upon compliance, satisfactory to the Commissioner, with the terms of a commitment to insure, the Commissioner will:

(a) Endorse the original credit instrument as follows:

No. ------

Insured under section 809 of the National Housing Act and Regulations of the Federal Housing Commissioner thereunder dated June 13, 1956, as amended.

FEDERAL HOUSING COMMISSIONER,
By ----------
(Authorized agent)

Date: ----------

(b) Evidence insurance of an open-end advance by delivering to the mortgagee a certificate in form as follows:

No. ------

Insured as an additional advance in the principal amount of $---------- under section 809 of the National Housing Act and the

Regulations of the Federal Housing Commissioner thereunder, dated June 13, 1956, as amended.

FEDERAL HOUSING COMMISSIONER,
By ----------
(Authorized agent)

Date: ----------

§ 293a.27 *Effective date.* The provisions of this subpart are effective as to all mortgages on which a commitment to insure is issued on or after June 13, 1956.

Issued at Washington, D. C., June 13, 1956.

NORMAN P. MASON,
*Federal Housing Commissioner.*

[F. R. Doc. 56-4753; Filed, June 13, 1956; 4:30 p. m.]

## TITLE 49—TRANSPORTATION

### Chapter I—Interstate Commerce Commission

**Subchapter B—Carriers by Motor Vehicles**

[Ex Parte MC-40]

PART 193—PARTS AND ACCESSORIES NECESSARY FOR SAFE OPERATION

QUALIFICATIONS AND MAXIMUM HOURS OF SERVICE AND EMPLOYEES OF MOTOR CARRIERS AND SAFETY OF OPERATIONS AND EQUIPMENT

JUNE 6, 1956.

The Commission's report and order of May 21, 1956, in the above entitled case was served on May 29, 1956. A typographical error occurred in the reproduction of § 193.43 (b) of the order.

In its correct form § 193.43 (b) reads as follows:

(b) Every truck-tractor and truck used for towing other vehicles equipped with vacuum brakes, in operations other than driveaway and towaway, on and after January 1, 1957, shall have, in addition to the single control required by § 193.49 to operate all brakes of the combination, a second control device independent of brake air, hydraulic, or other pressure and independent of other controls, which can be used to operate the brakes on the towed vehicles in emergencies. Such second control is not required by this section to provide modulated or graduated braking.

[SEAL] HAROLD D. McCOY,
*Secretary.*

[F. R. Doc. 56-4713; Filed, June 14, 1956; 8:46 a. m.]

## PROPOSED RULE MAKING

### FEDERAL COMMUNICATIONS COMMISSION

[ 47 CFR Part 18 ]

[Docket No. 11467]

RADIO FREQUENCY STABILIZED ARC WELDERS

NOTICE OF PROPOSED RULE MAKING

In the matter of amendment of Part 18 of the Commission's rules and regulations with respect to those portions governing radio frequency stabilized arc welders.

The Commission having under consideration a petition filed June 4, 1956 on behalf of the Joint Industry Committee on High Frequency Stabilized Arc Welders requesting an extension of time in which to submit comments directed to the Commission's Notice of Proposed Rule Making in the above-captioned matter issued on May 17, 1956:

It appearing that the above mentioned Committee is widely dispersed throughout the eastern part of the United States and the earliest time that a meeting could be scheduled for was June 14, 1956; and

It further appearing, that the Committee expects to make further technical investigations and a further meeting may be required to develop the comments to the Commission's proposal; and

It further appearing that the request is a reasonable one and the public interest would be served by extending the time for reception of comments in this Docket in the manner requested:

*It is ordered,* This 11th day of June 1956, that, pursuant to authority contained in section 0.332 (b) of the Commission's rules, the subject petition is granted and the time for filing comments in the above-captioned matter is hereby extended from June 18, 1956 to August 20, 1956.

Released: June 11, 1956.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
*Secretary.*

[F. R. Doc. 56-4725; Filed, June 14, 1956; 8:48 a. m.]

## NOTICES

### DEPARTMENT OF THE TREASURY

**Foreign Assets Control**

IMPORTATION OF TEXTILE NOVELTIES DIRECTLY FROM HONG KONG

AVAILABLE CERTIFICATIONS BY GOVERNMENT OF HONG KONG

Notice is hereby given that certificates of origin issued by the Department of Commerce and Industry of the Government of Hong Kong under procedures agreed upon between that government and the Foreign Assets Control are now available with respect to the importation into the United States directly, or on a through bill of lading, from Hong Kong of the following commodity:

Novelties, textile.

### DEPARTMENT OF THE INTERIOR

**Bureau of Land Management**

[Classification No. 56-2]

OREGON

SMALL TRACT OPENING

JUNE 8, 1956.

1. Pursuant to authority delegated to me by Bureau Order No. 541, dated April 21, 1954 (19 F. R. 2473) as amended, I hereby classify the following described public land totaling 40 acres in Clackamas County, Oregon, as suitable for lease and sale for homesite purposes under the Small Tract Act of June 1, 1938 (52 Stat. 609; 43 U. S. C. 682a), as amended, subject to the provisions of section 24 of the Federal Power Act, as amended; and subject to the conditions that in the event the said tract is required for power purposes, any improvements or structures placed thereon which shall be found to interfere with such development shall be removed or relocated as may be necessary to eliminate interference with power development with no cost to the United States, its permittees or licensees:

WILLAMETTE MERIDIAN, OREGON

T. 2 S., R. 7 E.,
Sec. 33: NW¼SW¼.

2. Classification of the above described land by this order segregates it from all appropriation, including locations under the mining laws except as to applications under the Small Tract Act and applications under the mineral leasing laws.

3. The land is located about ¼ mile north of Welches School on the Mt. Hood Loop Highway No. 50. Sandy River intersects the 40 acre subdivision. That portion of the land situated north of the river may be reached by way of the E. Truman Road which passes through the subdivision. Schools, stores, and other facilities are situated within reasonable distances.

The land is at an elevation of about 1400 feet above sea level. The topography is generally level and the soil is rocky. Vegetative cover consists of Douglas fir, associated species and native shrubs. The snowfall is heavy, but the main highway is open through most of the winter. There is no evidence of metallic or nonmetallic minerals.

4. A plat showing the tract numbers, situation, acreage, and value has been filed in the Land Office, and in the District Forester's Office, 215 N. Front Street, Salem, Oregon. A copy of the plat may be secured for $1.00 from the Manager of the Land Office, 1001 N. E. Lloyd Blvd., P. O. Box 3861, Portland 8, Oregon.

The individual tracts designated on the plat, contain 0.625 acres or 1.25 acres, depending on their situation. The appraised value varies from $131.00 to $176.00 per tract as shown on the plat. Annual rental of each tract is $10.00. Rights of way, 33 feet in width for street and road purposes or for public utilities, will be reserved as shown below and on the plat. All minerals in the land will be reserved to the United States.

Tract Numbers 8 and 9, are reserved for public parking and for access by the general public to the Sandy River and are not by this order opened to small tract applications. A passageway will also be reserved along the shores of the river for the purpose of fishing in all tracts abutting or including the river.

| No. | Tract description | Acres | Advance rentals, 3 years | Sandy River and Road right-of-way, width, and location | Appraised value |
|---|---|---|---|---|---|
| 1 | E½NE¼NE¼NW¼SW¼ | 1.25 | $24.00 | 16½' S. boundary, E. Truman Road crosses. | $156.00 |
| 2 | W½NE¼NE¼NW¼SW¼ | 1.25 | 24.00 | E. Truman Road, NE. corner, 33' N. boundary, 16½' S. boundary. | 156.00 |
| 3 | E½NW¼NE¼NW¼SW¼ | 1.25 | 24.00 | 33' N. boundary, 16½' S. boundary | 156.00 |
| 4 | W½NW¼NE¼NW¼SW¼ | 1.25 | 24.00 | 33' N. boundary, 16½' S. boundary | 156.00 |

| 33 | S½SW¼SE¼NW¼SW¼ | 1.25 | 24.00 | 16½' W. boundary, 33' S. boundary, 8¼' E. boundary. | 156.00 |
| 34 | SW¼SE¼SE¼NW¼SW¼ | 0.625 | 22.50 | 8¼' W. boundary, river E. boundary | 131.00 |
| 35 | SE¼SE¼SE¼NW¼SW¼ | 0.625 | 22.50 | River W. boundary | 131.00 |

5. Leases will be issued for a term of 3 years, and will contain an option to purchase in accordance with 43 CFR 257.13. Lessees who comply with the general terms of their leases will be permitted to purchase their tracts at the price listed below provided that during the period of their lease, they either (a) construct the improvements specified in paragraph 7, or (b) file a copy of an agreement in accordance with 43 CFR 257.13 (d). Leases will be renewable at the discretion of the Bureau of Land Management and the renewal lease will be subject to such terms and conditions as are deemed necessary in the light of the circumstances and the regulations existing at the time of renewal; however, a lease will not be renewable unless failure to construct the required improvements is justified under the circumstances and renewal would work an extreme hardship on the lessee.

6. Persons who have previously acquired a tract under the Small Tract Act are not qualified to secure a tract unless they can make a showing satisfactory to the Bureau of Land Management that the acquisition of another tract is warranted in the circumstances.

7. The improvements referred to in paragraph 5 above, must conform with health, sanitation and construction requirements of local ordnances and must, in addition, meet the following standards: (a) The dwelling must be suitable for year around use; on a permanent foundation, preferably concrete, brick, pumice block or stone masonry; with a minimum of 500 square feet of floor space, and have at least two doors as a means of access; (b) the dwelling must be constructed in a workmanlike

manner of attractive, properly finished materials in harmony with the surroundings; (c) adequate disposal and sanitary facilities, equal or better than those required by State law, must be installed. All lessees must comply with laws of the State of Oregon, as to fire protection and no burning of debris may be done during the fire season without authority of the State Forest Patrol.

8. Applicants must file in duplicate with the Manager of the Land Office, on application Form No. 4–776, filled out in compliance with the instructions on the Form and accompanied by any showing or documents required by those instructions. Copies of the application Form can be secured from the above-named official whose address is given in paragraph 10.

The applications must be accompanied by a filing fee of $10.00 plus the advance rental for three years specified above. Failure to transmit these payments with the application will render the application invalid.

Advance rentals will be returned to unsuccessful applicants. All filing fees will be retained by the United States.

9. The lands are now subject to application under the Small Tract Act. All valid applications from persons entitled to veteran's preference, filed after June 8, 1956, and prior to 10:00 a. m. July 14, 1956, will be considered as simultaneously filed at that time. All valid applications from persons entitled to veterans preference, filed after that time will be considered in the order of filing. All valid applications for other persons, filed after June 8, 1956, and prior to 10:00 a. m. October 13, 1956, will be considered as simultaneously filed at that time. All valid applications filed after that time will be considered in the order of filing.

10. Inquiries concerning these lands shall be addressed to the Manager, Land Office, 1001 NE. Lloyd Boulevard, P. O Box 3861, Portland 8, Oregon.

ELTON M. HATTAN,
*Acting State Supervisor.*

JUNE 8, 1956.

## National Park Service

[Region 2, Order 3, Amdt. 2]

SUPERINTENDENTS, REGION 2

DELEGATION OF AUTHORITY WITH RESPECT TO CONSTRUCTION PLANS

MAY 16, 1956.

A new subsection (f) is hereby added to section 1; a new subsection (g) is hereby added to section 2; and a new subsection (m) is hereby added to section 3 of Order No. 3, issued February 17, 1956 (21 F. R. 1494). Each new subsection reads as follows:

*Construction plans.* Approval of preliminary plans for concessioners' projects, plans which establish the architectural theme of newly developed areas or a departure from previously established theme in established areas, and plans for LP-gas installations which have not been recommended by the Safety Engineer of the Eastern or Western Office, Division of Design and Construction.

(National Park Service Order No. 14; 39 Stat. 535; 16 U. S. C., 1952 ed., sec. 2)

## DEPARTMENT OF COMMERCE

### Office of the Secretary

[Appeals Board Docket No. FC–33]

CONFIDENTIAL OVERSEAS FORWARDING, INC.

APPEALS BOARD DECISION

In the matter of Confidential Overseas Forwarding, Inc., Guy Sorrentino, 15 Whitehall Street, New York, New York; Appeals Board Docket No. FC–33, B. F. C. Case No. 209.

This appeal is from an Order of the Director of the Office of Export Supply, Bureau of Foreign Commerce, Revoking Export Licenses and Denying Export Privileges of the appellant dated May 14, 1956.

The Appeals Board has held a hearing on this appeal, has considered the record and, giving the weight felt appropriate to the entire record, finds that the appellant did violate export control regulations.

While the Board does not believe that the suspension imposed by the Order against this appellant was improper, the Board is of the opinion that in view of information contained in the appeal record, and clarified at the hearing, a reduction in the effective suspension period is warranted due to the circumstances peculiar to this case. It is noted that this case does not involve, in any way, transshipment or diversion of exported goods contrary to the national interest.

*Therefore, it is ordered,* That the Order Revoking Export Licenses and Denying Export Privileges dated May 14, 1956, be and hereby is modified so that the period of suspension shall be from May 30, 1956 through June 15, 1956, the balance of the suspension period imposed by the Order appealed from being held in abeyance subject to the appellant's complying with the regulations during the period covered by the Order of May 14, 1956. Should there be a further violation of Export Control regulations prior to July 30, 1956, the Bureau of Foreign Commerce is authorized to immediately reimpose the suspension for a period of not more than 45 days, corresponding to the aforesaid abeyance period. This decision is without prejudice to other and further suspensions by reason of any further violation.

FREDERIC W. OLMSTEAD,
*Chairman, Appeals Board.*

JUNE 11, 1956.

## CIVIL AERONAUTICS BOARD

[Docket No. 7913]

TRANSPORTES AEREOS NACIONALES, S. A.

NOTICE OF POSTPONEMENT OF PREHEARING CONFERENCE

In the matter of the complaint and petition of Transportes Aereos Nacionales, S. A. against certain excursion fares between points in the U. S. A. and points in Peru, Bolivia, Rio de Janeiro, Brazil and points south thereof as published in the tariff of R. C. Lounsbury, Agent, C. A. B. No. 258 effective April 23, 1956.

Notice is hereby given that the prehearing conference in the above-entitled matter now assigned for June 15 is postponed to June 18, 1956, 10:00 a. m., e. d. s. t., Room E–210, Temporary Building No. 5, Sixteenth Street and Constitution Avenue NW., Washington, D. C., June 11, 1956.

[SEAL] FRANCIS W. BROWN,
*Chief Examiner.*

[F. R. Doc. 56–4741; Filed, June 14, 1956; 8:52 a. m.]

## FEDERAL COMMUNICATIONS COMMISSION

[Docket Nos. 6584, 6585; FCC 56M–581]

ALBUQUERQUE BROADCASTING CO. (KOB)

ORDER SCHEDULING CONFERENCE AND HEARING

In re applications of Albuquerque Broadcasting Company (KOB) Albuquerque, New Mexico, Docket No. 6584, File No. BMP–1738; for modification of construction permit; Albuquerque Broadcasting Company (KOB), Albuquerque, New Mexico, Docket No. 6585, File No. BL–1799, BZ–1583; for license to cover construction permit as modified and authority to determine operating power by direct measurement.

The Hearing Examiner having under consideration the record of the hearing conference in the above-entitled proceeding, which was held in the offices of this Commission, Washington, D. C., on May 24, 1956, and attended by counsel for all of the parties thereto; and

It appearing that the question arose therein as to whether the evidence to be presented at the hearing in the said proceeding under Issues Nos. 20, 21 and 22, promulgated by the Commission in its Memorandum Opinion and Order adopted March 21, 1956, and released on March 23, 1956, should be prepared on the basis of the directional operation of Station WBZ, as specified in the said issues, from its present transmitter site at Hull, Massachusetts, or from the so-called "representative" site (which the Hearing Examiner had previously ruled would serve as the basis for the preparation of evidence under Issues Nos. 9, 10, 11 and 12, in the same proceeding); and that the Hearing Examiner was requested to make a ruling in this matter, but directed counsel for Westinghouse Broadcasting Company, Inc., (WBZ), American Broadcasting Company (WABC), and the Commission's Broadcast Bureau to file memoranda in support of their respective positions on this question in order to give the matter further study before ruling thereon; and that such memoranda were subsequently filed by these parties on June 6, 1956; and

It further appearing from a review of the oral arguments on this question presented on behalf of Westinghouse Broadcasting Company, Inc. (WBZ), and the American Broadcasting Company, (WABC), the memoranda submitted by these parties and the Commission's Broadcast Bureau, the "Case II" and "Case III" proposals set forth in various petitions and other pleadings previously filed in this proceeding by the American Broadcasting Company (WABC), and the Commission's Memorandum Opinion and Order issued on March 23, 1956, in which Issues Nos. 20, 21 and 22 were promulgated in the light of the said proposals by WABC, that it was clearly the intent of the Commission that such issues should be resolved on the basis of the directional operation of Station WBZ at its present site at Hull, Massachusetts;

*It is ordered,* This 11th day of June 1956, that the evidence required to be presented under Issues Nos. 20, 21 and 22 in this proceeding shall be prepared on the basis of the directional operation of Station WBZ at its present site at Hull, Massachusetts, but that none of the parties to the said proceeding shall be precluded from presenting, if they so desire, competent evidence to show the effects of the operation by Station WBZ, using a directional pattern radiating about 50 kilowatts toward Albuquerque, as contemplated by these issues, from the so-called "representative" site.

*It is further ordered,* That the rulings of the Hearing Examiner at the said conference scheduling the next hearing conference in the above-entitled proceeding to be held in the offices of this Commission, at 2:00 o'clock p. m., on June 22, 1956, and retaining the date of July 16, 1956, for the commencement of the hearing therein, are hereby affirmed.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
*Secretary.*

[F. R. Doc. 56–4726; Filed, June 14, 1956; 8:49 a. m.]

[Docket Nos. 11364, 11663; FCC 56M–574]

RCA COMMUNICATIONS, INC., & WESTERN UNION TELEGRAPH CO.

ORDER SCHEDULING HEARING

In the matter of RCA Communications, Inc. v. The Western Union Telegraph Company, Docket No. 11364; complaint with respect to Area "C" Pacific traffic under the international formula.

In the matter of RCA Communications, Inc., Docket No. 11663; request for appropriate Commission action with respect to alleged illegal practices of The Western Union Telegraph Company in handling traffic destined to various Far Eastern points.

The Hearing Examiner having under consideration the above-entitled proceeding;

*It is ordered,* This 8th day of June 1956, that the hearing heretofore scheduled for May 15, 1956 and continued indefinitely by order of April 20, 1956, is now scheduled to commence on September 11, 1956, at 10 o'clock a. m. at the Commission's offices in Washington, D. C.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
*Secretary.*

[F. R. Doc. 56–4727; Filed, June 14, 1956; 8:49 a. m.]

[Docket Nos. 11727–11729]

SOUTHWESTERN BELL TELEPHONE CO.

ORDER ASSIGNING MATTERS FOR CONSOLIDATED PUBLIC HEARING

In the matter of the application of Southwestern Bell Telephone Company, Docket No. 11727 (File No. P–C–3775), for a certificate under section 221 (a) of the Communications Act of 1934, as amended, to acquire certain telephone plant and properties being operated by Pearl Maus, as Receiver for the Auburn-Vidette Mutual Telephone Company, a corporation, at Auburn, Kansas.

In the matter of the application of Southwestern Bell Telephone Company, Docket No. 11728 (File No. P–C–3776); for a certificate under section 221 (a) of the Communications Act of 1934, as amended, to acquire certain telephone plant and properties of Derrell Buckner, d/b as McNeil Telephone Company at McNeil, Arkansas.

In the matter of the application of Southwestern Bell Telephone Company, Docket No. 11729 (File No. P–C–3784); for a certificate under section 221 (a) of the Communications Act of 1934, as amended, to acquire certain telephone plant and properties of C. M. Dowd, d/b as Winona Telephone Company at Winona, Texas.

The Commission having under consideration applications filed by Southwestern Bell Telephone Company for certificates under section 221 (a) of the Communications Act of 1934, as amended, that the proposed acquisition by Southwestern Bell Telephone Company of certain telephone plant and properties being operated by Pearl Maus, as Receiver for the Auburn-Vidette Mutual Telephone Company, a corporation, and plant and properties of Derrell Buckner, d/b as McNeil Telephone Company and C. M. Dowd, d/b as Winona Telephone Company, respectively, furnishing telephone service in and around Auburn, Kansas; McNeil, Arkansas; and Winona, Texas, respectively will be of advantage to the persons to whom service is to be rendered and in the public interest;

*It is ordered,* This 11th day of June 1956, that pursuant to the provisions of section 221 (a) of the Communications Act of 1934, as amended, the above applications are assigned for public hearing in a consolidated proceeding for the purpose of determining whether the proposed acquisitions will be of advantage to the persons to whom service is to be rendered and in the public interest;

*It is further ordered,* That the hearing upon said applications be held at the offices of the Commission in Washington, D. C. beginning at 10:00 a. m. on the 6th day of July 1956, and that a copy of this Order shall be served upon the Governors of the States of Kansas, Arkansas and Texas; State Corporation Commission of the State of Kansas; Arkansas Public Service Commission; Southwestern Bell Telephone Company; Pearl Maus, as Receiver for the Auburn-Vidette Telephone Company; Derrell Buckner, d/b as McNeil Telephone Company; C. M. Dowd, d/b as Winona Telephone Company; and the Postmasters of Auburn, Kansas, McNeil, Arkansas, and Winona, Texas;

*It is further ordered,* That within fifteen days after the receipt from the Commission of a copy of this Order, the applicant herein shall cause a copy hereof to be published in a newspaper or newspapers having general circulation in and around Auburn, Kansas; McNeil, Arkansas; and Winona, Texas, and shall furnish proof of such publication at the hearing herein.

Released: June 11, 1956.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
*Secretary.*

## SECURITIES AND EXCHANGE COMMISSION

[File No. 7–1799]

KAISER ALUMINUM & CHEMICAL CORP.

NOTICE OF APPLICATION FOR UNLISTED TRADING PRIVILEGES, AND OF OPPORTUNITY FOR HEARING

JUNE 8, 1956.

In the matter of application by the Boston Stock Exchange for unlisted trading privileges in Kaiser Aluminum & Chemical Corporation, common stock, File No. 7–1799.

The above named stock exchange, pursuant to section 12 (f) (2) of the Securities Exchange Act of 1934 and Rule X–12F–1 promulgated thereunder, has made application for unlisted trading privileges in the specified security, which is listed and registered on the San Francisco, Los Angeles, Midwest and New York Stock Exchanges.

Upon receipt of a request, on or before June 26, 1956, from any interested person, the Commission will determine whether to set the matter down for hearing. Such request should state briefly the nature of the interest of the person making the request and the position he proposes to take at the hearing. In addition, any interested person may submit his views or any additional facts bearing on this application by means of a letter addressed to the Secretary of the Securities and Exchange Commission,

Washington 25, D. C. If no one requests a hearing on this matter, this application will be determined by order of the Commission on the basis of the facts stated in the application and other information contained in the official file of the Commission pertaining to the matter.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

## INTERSTATE COMMERCE COMMISSION

[MC-C-1978]

RATES ON QUANTITY SHIPMENTS—MIDDLE ATLANTIC TERRITORY

NOTICE OF INVESTIGATION

At a session of the Interstate Commerce Commission, Board of Suspension, held at its office in Washington, D. C., on the 8th day of June A. D. 1956.

There being under consideration the matter of rates and charges, and the rules, regulations and practices affecting such rates and charges, applicable on interstate or foreign commerce of quantity shipments, as set forth in Rules 55 of tariffs MF-I. C. C. No. 23 of Metropolitan Motor Carriers Conference, Inc., Agent, and MF-I. C. C. No. 6 of Hudson Transportation Company, or as same may be amended or reissued;

It appearing that upon consideration of the tariff schedules and protests thereto, there is reason to institute an investigation to determine whether they result in rates and charges, rules or regulations and practices that are unjust and unreasonable in violation of the Interstate Commerce Act; and good cause appearing therefore:

*It is ordered*, That an investigation be, and it is hereby, instituted, upon the Commission's own motion, into and concerning the lawfulness of the rates, charges, rules, regulations and practices contained in said schedules, with a view to making such findings and orders in the premises as the facts and circumstances shall warrant.

*It is further ordered*, That the investigation in this proceeding shall not be confined to the matters and issues hereinbefore stated as the reason for instituting this investigation, but shall include all matters and issues with respect to the lawfulness of the said rates, charges, rules, regulations and practices under the Interstate Commerce Act.

*It is further ordered*, That carriers parties to said schedules be, and they are hereby, made respondents to this proceeding; that a copy of this order be forthwith served upon the said respondents; and that notice of this proceeding be given the public by posting a copy of this order in the Office of the Secretary of the Commission, and by filing a copy with the Director, Division of the Federal Register.

*And it is further ordered*, That this matter be assigned for hearing at a time and place to be hereafter fixed.

By the Commission, Board of Suspension.

[SEAL] HAROLD D. MCCOY, *Secretary.*

## TITLE 3—THE PRESIDENT

### PROCLAMATION 3140

CARRYING OUT THE SIXTH PROTOCOL OF SUPPLEMENTARY CONCESSIONS TO THE GENERAL AGREEMENT ON TARIFFS AND TRADE AND FOR OTHER PURPOSES

BY THE PRESIDENT OF THE UNITED STATES OF AMERICA

A PROCLAMATION

1. WHEREAS, pursuant to the authority vested in the President by the Constitution and the statutes, including section 350 of the Tariff Act of 1930, as amended (48 Stat. (pt. 1) 943, ch. 474, 57 Stat. (pt. 1) 125, ch. 118, 59 Stat. (pt. 1) 410, ch. 269), on October 30, 1947, he entered into a trade agreement with certain foreign countries, which trade agreement consists of the General Agreement on Tariffs and Trade (hereinafter referred to as "the General Agreement"), including a schedule of United States concessions (hereinafter referred to as "Schedule XX (Geneva—1947)", and the Protocol of Provisional Application of the General Agreement on Tariffs and Trade, together with a Final Act (61 Stat. (pts. 5 and 6) A7, A11, and A2050);

2. WHEREAS the trade agreement specified in the first recital of this proclamation has been supplemented by several subsequent agreements, including:

(a) The Protocol Modifying Part I and Article XXIX of the General Agreement on Tariffs and Trade, of September 14, 1948, (3 UST (pt. 4) 5355),

(b) The Annecy Protocol of Terms of Accession to the General Agreement on Tariffs and Trade, of October 10, 1949, (64 Stat. (pt. 3) B139), including a supplemental schedule of United States concessions (hereinafter referred to as "Schedule XX (Annecy—1949)"),

(c) The Torquay Protocol to the General Agreement on Tariffs and Trade, of April 21, 1951, (3 UST (pts. 1 and 2) 615 and 1841), including a supplemental schedule of United States concessions (hereinafter referred to as "Schedule XX (Torquay—1951)"),

(d) The Declaration on the Continued Application of Schedules to the General Agreement on Tariffs and Trade, of March 10, 1955, (TIAS 3437), and

(e) The Protocol of Terms of Accession of Japan to the General Agreement on Tariffs and Trade, of June 7, 1955, (TIAS 3438), including a supplemental schedule of United States concessions;

3. WHEREAS by the following proclamations the President has proclaimed such modifications of existing duties and other import restrictions of the United States, or such continuance of existing customs or excise treatment of articles imported into the United States as were found to be required or appropriate to carry out the trade agreement specified in the first recital of this proclamation or agreements supplemental thereto, or has terminated in whole or in part proclamations specified in this recital:

Proclamation 2761A, of December 16, 1947, (61 Stat. (pt. 2) 1103), Proclamation 2769, of January 30, 1948, (62 Stat. (pt. 2) 1479), Proclamation 2782, of April 22, 1948, (62 Stat. (pt. 2) 1500), Proclamation 2784, of May 4, 1948, (62 Stat. (pt. 2) 1505), Proclamation 2790, of June 11, 1948, (62 Stat. (pt. 2) 1515), Proclamation 2791, of June 12, 1948, (62 Stat. (pt. 2) 1519), Proclamation 2792, of June 25, 1948, (62 Stat. (pt. 2) 1520), Proclamation 2798, of July 15, 1948, (62 Stat. (pt. 2) 1528), Proclamation 2809, of September 7, 1948, (62 Stat. (pt. 2) 1553), Proclamation 2829, of March 8, 1949, (63 Stat. (pt. 1) 1261), Proclamation 2865, of November 30, 1949, (64 Stat. (pt. 2) A376), Proclamation 2867, of December 22, 1949, (64 Stat. (pt. 2) A380), Proclamation 2874, of March 1, 1950, (64 Stat. (pt. 2) A390), Proclamation 2884, of April 27, 1950, (64 Stat. (pt. 2) A399), Proclamation 2888, of May 13, 1950, (64 Stat. (pt. 2) A405), Proclamation 2895, of June 17, 1950, (64 Stat. (pt. 2) A416), Proclamation 2901, of September 6, 1950, (64 Stat. (pt. 2) A427), Proclamation 2908, of October 12, 1950, (64 Stat. (pt. 2) A443), Proclamation 2912, of October 30, 1950, (64 Stat. (pt. 2) A450), Proclamation

| Chapter V: | |
| Part 689 (proposed) | 4260 |

Republic of Finland, the French Republic, the Federal Republic of Germany, the Republic of Haiti, the Republic of Italy, Japan, the Grand Duchy of Luxembourg, the Kingdom of the Netherlands, the Kingdom of Norway, Peru, the Kingdom of Sweden, the Republic of Turkey, and the United Kingdom of Great Britain and Northern Ireland, all being contracting parties to the General Agreement, are unduly burdening and restricting the foreign trade of the United States of America and that the purposes declared in section 350 of the Tariff Act of 1930, as amended, will be promoted by a trade agreement between the Government of the United States of America and the Governments of some or all of the other countries referred to in this recital;

5. WHEREAS, pursuant to section 3 (a) of the Trade Agreements Extension Act of 1951 (65 Stat. 72, ch. 141), I transmitted to the United States Tariff Commission for investigation and report lists of all articles imported into the United States of America to be considered for possible modification of duties and other import restrictions, imposition of additional import restrictions, or continuance of existing customs or excise treatment in the trade agreement negotiations with the governments of the foreign countries referred to in the fourth recital of this proclamation, and the Tariff Commission made an investigation in accordance with section 3 of the said Trade Agreements Extension Act and thereafter reported to me its determinations made pursuant to the said section within the time period specified in the said section 3;

6. WHEREAS reasonable public notice of the intention to conduct trade agreement negotiations was given, the views presented by persons interested in such negotiations were received and considered, and information and advice with respect to such negotiations were sought and obtained from the Departments of State, Agriculture, Commerce, and Defense, and from other sources;

7. WHEREAS, the period for the exercise of the authority of the President to enter into foreign trade agreements under section 350 of the Tariff Act of 1930, as amended, having been extended by section 2 of the Trade Agreements Extension Act of 1955 (69 Stat. 162, ch. 169) from June 12, 1955, until the close of June 30, 1958, on May 23, 1956, as a result of the finding specified in the fourth recital of this proclamation, I entered, through my duly empowered plenipotentiary, into a trade agreement providing for the application of the relevant provisions of the General Agreement to additional schedules of tariff concessions relating to the countries named in the said fourth recital of this proclamation, which trade agreement consists of the Sixth Protocol of Supplementary Concessions to the General Agreement on Tariffs and Trade, dated May 23, 1956, including the Annex thereto containing a supplemental schedule of United States concessions (hereinafter referred to as "Schedule XX (Geneva—1956)"), and which trade agreement is authentic in the English and French languages as indicated therein, and a copy of which in the English language is annexed to this proclamation;[1]

8. WHEREAS, the Protocol of Supplementary Concessions specified in the seventh recital of this proclamation having been signed on behalf of the Government of the United States of America on May 23, 1956, and the notification of the intention to apply the concessions provided for in Schedule XX (Geneva—1956) having been given on May 31, 1956, to the Executive Secretary to the Contracting Parties to the General Agreement pursuant to paragraph 2 of the said Protocol of Supplementary Concessions, the said Schedule XX (Geneva—1956) will become a schedule to the said General Agreement relating to the United States of America on June 30, 1956, and the concessions provided for in the said Schedule XX (Geneva—1956) shall then enter into force as specified therein;

9. WHEREAS, under the authority of subsection (a) (3) (D) of section 350 of the Tariff Act of 1930, as amended, and of subsection (b) (2) thereof by reference to that subsection, I have determined, in the case of those modifications of existing duties proclaimed in Parts I (a) and II (a) of this proclamation which reflect decreases in duties exceeding the limitations specified in subsection (a) (2) (D) or (a) (3) (B) of the said section 350, or in subsection (b) (2) thereof by reference to those subsections, that such decreases will simplify the computation of the amount of duty imposed with respect to the articles concerned;

10. WHEREAS I have made the determinations regarding the ad valorem equivalent of specific rates of duty (and combinations of rates including a specific rate) and regarding representative periods, under the authority of subsection (a) (2) (D) (ii) of section 350 of the Tariff Act of 1930, as amended, and of subsections (a) (3) (D) and (b) (2) thereof by reference, directly or indirectly, to the said subsection (a) (2) (D) (ii), in the case of each modification of existing duties proclaimed in this proclamation for which such a determination was relevant, using, to the maximum extent practicable, the standards of valuation contained in section 402 of the said Tariff Act of 1930;

11. WHEREAS I find that each modification of existing duties and other import restrictions of the United States of America and each continuance of existing customs or excise treatment of articles imported into the United States of America which is proclaimed in Part I (a) of this proclamation will be required or appropriate, on and after the date specified in the said Part, to carry out the trade agreement specified in the seventh recital of this proclamation;

12. WHEREAS, pursuant to the authority vested in the President by the Constitution and the statutes, including section 350 of the Tariff Act of 1930, as amended in the manner referred to in the first recital of this proclamation, on October 30, 1947, he entered into an exclusive trade agreement with the Government of the Republic of Cuba (61 Stat. (pt. 4) 3699), which exclusive trade agreement includes certain portions of other documents made a part thereof and provides for the treatment in respect of ordinary customs duties of products of the Republic of Cuba imported into the United States of America;

13. WHEREAS by the following proclamations the President has proclaimed, in respect of products of the Republic of Cuba, such modifications of existing duties and other import restrictions of the United States, or such additional import restrictions of the United States, or such continuance of existing customs or excise treatment of articles imported into the United States as were found to be required or appropriate to carry out the exclusive trade agreement specified in the twelfth recital of this proclamation, or has terminated in whole or in part proclamations specified in this recital:

Proclamation 2764, of January 1, 1948, (62 Stat. (pt. 2) 1465), Proclamation 2946, of October 4, 1951, (65 Stat. C39), Proclamation 3099, of June 25, 1955, (69 Stat. C36), and the proclamations of January 30, 1948, April 22, 1948, May 4, 1948, June 11, 1948, June 25, 1948, July 15, 1948, March 8, 1949, November 30, 1949, December 22, 1949, March 1, 1950, April 27, 1950, May 13, 1950, September 6, 1950, October 12, 1950, June 2, 1951, December 24, 1953, and July 22, 1955, specified in the third recital of this proclamation;

14. WHEREAS Part II of Schedule XX (Geneva—1947), which was made a part of the exclusive trade agreement specified in the twelfth recital of this proclamation, is supplemented by Part II of the Schedule XX (Geneva—1956), and I determine that it is required or appropriate, on and after the date specified in Part II (a) of this proclamation, to carry out the said exclusive trade agreement that Part II of the said Schedule XX (Geneva—1947) be applied as supplemented by the said Part II of Schedule XX (Geneva—1956);

15. WHEREAS I determine that, in view of the finding set forth in the eleventh recital of this proclamation, it will not be required or appropriate to carry out the exclusive trade agreement specified in the twelfth recital of this proclamation on and after June 30, 1956, to include the items identified below in this recital in the list set forth in the sixteenth recital of the proclamation of July 22, 1955, specified in the third recital of this proclamation:

[1] Not printed in the FEDERAL REGISTER. The text of the protocol is being published at Geneva, Switzerland, by the Contracting Parties to the General Agreement on Tariffs and Trade, in separate volumes in English and French. The title of the English volume is "General Agreement on Tariffs and Trade: Sixth Protocol of Supplementary Concessions". The English text of Schedule XX (United States of America) is being reproduced in Treasury Decisions (Customs). The text in languages in which authentic, together with an English translation of those portions authentic in French only, will be published in Treaties and Other International Acts Series and in the bound volumes of United States Treaties and Other International Agreements.

17. WHEREAS, agreement for such withdrawal and modifications having been reached pursuant to Article XXVIII of the General Agreement, and pursuant to the procedures provided for in paragraph 1 (b) of the Declaration on the Continued Application of the Schedules to the said General Agreement specified in the second recital of this proclamation, I determine that it is required or appropriate to carry out the trade agreement specified in the first recital of this proclamation that Part I of Schedule XX (Annecy—1949) be applied as though item 502 [first] were withdrawn therefrom, and that the value-bracket subclassifications preceding the subclassification for articles valued at more than $30 per dozen in item 1526 (a) in Part I of Schedule XX (Geneva—1947), item 502 [first] in Part II of the said Schedule XX (Geneva—1947), and item 502 in Part I of Schedule XX (Torquay—1951) be applied as though the said subclassifications and items read as follows:

PART I OF SCHEDULE XX (GENEVA—1947)

| Tariff Act of 1930, paragraph | Description of Products | Rates of Duty |
|---|---|---|
| 1526 (a) | Valued at not more than $9 per dozen | 55% ad val., but not less than $1.25 per doz. |
| | Valued at more than $9 and not more than $12 per dozen: | |
| | If for men or boys | 55% ad val. |
| | Other | 85% ad val. |
| | Valued at more than $12 and not more than $18 per dozen: | |
| | If for men or boys | 47½% ad val. |
| | Other | 85% ad val. |
| | Valued at more than $18 and not more than $24 per dozen: | |
| | If for men or boys | 40% ad val. |
| | Other | 85% ad val. |
| | Valued at more than $24 and not more than $30 per dozen | 40% ad val. |

PART II OF SCHEDULE XX (GENEVA—1947)

| | | |
|---|---|---|
| 502 | Molasses and sugar sirups, not specially provided for and not containing soluble non-sugar solids (excluding any foreign substance that may have been added or developed in the product) equal to more than 6% of the total soluble solids | 0.53 cents per pound of total sugars. |

PART I OF SCHEDULE XX (TORQUAY—1951)

| | | |
|---|---|---|
| 502 | Molasses and sugar sirups, not specially provided for and not containing soluble non-sugar solids (excluding any foreign substance that may have been added or developed in the product) equal to more than 6% of the total soluble solids | 0.6625 cents per pound of total sugars. |
| | NOTE: This item shall be effective only during such time as Title II of the Sugar Act of 1948 or substantially equivalent legislation is in effect in the United States, whether or not the quotas, or any of them, authorized by such legislation, are being applied or are suspended. | |

18. WHEREAS I determine that, upon the effectiveness of the modification of the concession provided for in item 1526 (a) in Part I of Schedule XX (Geneva—1947) set forth in the seventeenth recital of this proclamation, the termination of the proclamation of December 16, 1947 specified in the third recital of this proclamation insofar as it related to a part of the said item 1526 (a), by the proclamation of October 30, 1950, specified in the said third recital of this proclamation, will no longer be in the public interest;

19. AND WHEREAS the following item was inadvertently omitted from the list set forth in the sixteenth recital of the proclamation of July 22, 1955, specified in the third recital of this proclamation, and I determine that the addition of the said item to the said list in its correct numerical order is required or appropriate to carry out the exclusive trade agreement specified in the twelfth recital of this proclamation on and after September 10, 1955:

| Tariff Act of 1930, paragraph | Description of Products | Rate of Duty |
|---|---|---|
| 397 | Articles or wares not specially provided for, if composed wholly or in chief value of gold, or if plated with gold, or colored with gold lacquer, whether partly or wholly manufactured | 52% ad val. |

NOW, THEREFORE, I, DWIGHT D. EISENHOWER, President of the United States of America, acting under and by virtue of the authority vested in me by the Constitution and the statutes, including section 350 of the Tariff Act of 1930, as amended, do proclaim as follows:

*Part I*

To the end that the trade agreement specified in the seventh recital of this proclamation may be carried out:

(a) Subject to the provisions of subdivision (b) of this Part, such modifications of existing duties and other import restrictions of the United States of America and such continuance of existing customs or excise treatment of articles imported into the United States as are specified or provided for in paragraphs 1 to 6, inclusive, of the Protocol of Supplementary Concessions specified in the said seventh recital of this proclamation and in Part I of Schedule XX (Geneva—1956) contained in the Annex thereto shall be effective as follows:

(1) The rates of duty and import tax specified in column A at the right of the respective descriptions of products in Part I of the said Schedule XX (Geneva—1956), on and after June 30, 1956;

(2) The rates of duty and import tax specified in columns B and C, respectively, at the right of the respective descriptions of products in Part I of said Schedule XX (Geneva—1956), on and after the appropriate dates determined in accordance with the provisions of paragraph 2 of the "General Notes" at the end of the said Schedule XX (Geneva—1956):

*Provided*, That in the case of a product which is described in both Part I and Part II of the said Schedule XX (Geneva—1956), the rate in Part I, when lower, shall be applied to the product of the Republic of Cuba.

(b) The application of the provisions of subdivision (a) of this Part and of subdivision (a) of Part II of this proclamation shall be subject to the right of withdrawal of concessions and to the other applicable terms, conditions, and qualifications set forth in paragraphs 1 to 6, inclusive, of the said Protocol of Supplementary Concessions, in Schedule XX (Geneva—1956), including the General Notes, contained in the Annex thereto, in Parts I, II, and III of the General Agreement, including any applicable amendments and rectifications thereof, and in the Protocol of Provisional Application specified in the first recital of this proclamation, and the application of the provisions of subdivision (a) of this Part and of subdivision (a) of Part II of this proclamation shall also be subject to the exception that no rate of duty or import tax shall be applied to a particular article by virtue of this proclamation if, when the article is entered, or withdrawn from warehouse, for consumption more favorable customs treatment is prescribed for the article by any of the following then in effect:

(1) A proclamation pursuant to section 350 of the Tariff Act of 1930, as amended, but the application of such more favorable treatment shall be subject to the qualifications set forth in the third paragraph of the general notes in Schedule XX (Geneva—1956);

(2) any other proclamation, a statute, or an executive order, which proclamation, statute, or order either provides for an exemption from duty or import tax or became effective subsequent to May 23, 1956.

*Part II*

To the end that the exclusive trade agreement specified in the twelfth recital of this proclamation may be carried out:

(a) Subject to the qualifications and exceptions provided for in subdivision (b) of Part I of this proclamation and to the qualifications set forth in the exclusive trade agreement with the Republic of Cuba specified in the twelfth recital of this proclamation, such modifications of existing duties and other import restrictions of the United States of America in respect of products of the Republic of Cuba and such continuance of existing customs or excise treatment of products of the Republic of Cuba imported into the United States as are specified or provided for in paragraphs 1 to 6, inclusive, of the Protocol of Supplementary Concessions specified in the seventh recital of this proclamation and in Part II of Schedule XX (Geneva—1956) contained in the Annex thereto shall be effective as follows:

(1) The rates of duty and import tax specified in column A at the right of the respective descriptions of products in Part II of the said Schedule XX (Geneva—1956), on and after June 30, 1956;

(2) The rates of duty and import tax specified in columns B and C, respectively, at the right of the respective descriptions of products in Part II of said Schedule XX (Geneva—1956), on and after the appropriate dates determined in accordance with the provisions of paragraph 2 of the "General Notes" at the end of the said Schedule XX (Geneva—1956):

*Provided*, That in the case of a product which is described in both Part I and Part II of the said Schedule XX (Geneva—1956), the rate in Part I, when lower, shall be applied to the product of the Republic of Cuba.

(b) The list set forth in the sixteenth recital of the proclamation of July 22, 1955, specified in the third recital of this proclamation shall be amended (i) as provided in the fifteenth recital of this proclamation, effective June 30, 1956, and (ii) as provided in the nineteenth recital of this proclamation, effective September 10, 1955.

*Part III*

To the end that the trade agreement specified in the first recital of this proclamation may be carried out, effective June 30, 1956:

(a) The references to Article I of the General Agreement in the sixth and seventh recitals of the proclamation of January 30, 1948, specified in the third recital of this proclamation, and the list set forth in the seventh recital of the said proclamation of January 30, 1948, shall be amended as provided in the sixteenth recital of this proclamation.

(b) The value-bracket subclassifications preceding the subclassification for articles valued at more than $30 per dozen in item 1526 (a) in Part I of Schedule XX (Geneva—1947) shall be applied as though the said subclassifications read as set forth in the said seventeenth recital of this proclamation.

(c) Item 502 [first] in Part II of Schedule XX (Geneva—1947) shall be applied as though the said item read as set forth in the seventeenth recital of this proclamation: *Provided*, That pending further proclamation by the President, the rate of duty for products described in this item testing less than 74.6 per centum total sugars shall be 0.15 cents per gallon plus 0.165 cents additional for each 1 per centum of total sugars over 48 per centum and fractions of 1 per centum in proportion.

(d) Item 502 in Part I of Schedule XX (Torquay—1951) shall be applied as though the said item read as set forth in the seventeenth recital of this proclamation: *Provided*, That pending further proclamation by the President, the rate of duty for products described in this item testing less than 56.8 per centum total sugars shall be 0.375 cents per gallon plus 0.4125 cents additional for each 1 per centum of total sugars over 48 per centum and fractions of 1 per centum in proportion.

*Part IV*

So much of the proclamations of December 22, 1949, and May 13, 1950, specified in the third recital of this proclamation, and of any other proclamations specified therein, which give effect to the concession provided for in item 502 [first] in Part I of Schedule XX (Annecy—1949) specified in the seventeenth recital of this proclamation, and the proclamation of October 30, 1950 specified in the third and eighteenth recitals of this proclamation are terminated, effective at the close of business June 29, 1956.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the seal of the United States of America to be affixed.

DONE at the City of Washington this 13th day of June in the year of our Lord nineteen hundred and fifty-six,
[SEAL] and of the Independence of the United States of America the one hundred and eightieth.

DWIGHT D. EISENHOWER

By the President:

JOHN FOSTER DULLES,
*Secretary of State.*

[F. R. Doc. 56-4830: Filed, June 15, 1956; 11:29 a. m.]

*Items in the 16th recital of the Proclamation of July 22, 1955 to be deleted effective June 30, 1956*

| 778 | |
| 802 | |
| 1530 (e) | |
| 1541 (a): | |

16. WHEREAS, in view of the amendment of Article I of the General Agreement by section A (iii) of paragraph 1 of the Protocol Modifying Part I and Article XXIX of the said General Agreement specified in the second recital of this proclamation, of the inclusion of certain products in Part I of Schedule XX (Torquay—1951) and in Part I of Schedule XX (Geneva—1956), and of the inclusion of item 774 in Part II of Schedule XX (Geneva—1956), it is required or appropriate that, effective June 30, 1956, the references to Article I of the said General Agreement in the sixth and seventh recitals of the proclamation of January 30, 1948, specified in the third recital of this proclamation be amended to refer to the fourth instead of the third paragraph of the said Article I, and that the list set forth in the seventh recital of the said proclamation of January 30, 1948, as amended, be further amended to read as follows:

| Tariff Act of 1930, paragraph | Description of Products | Rate of Duty |
|---|---|---|
| 408 | Boxes, barrels, and other articles containing oranges, lemons, limes, grapefruit, shaddocks or pomelos | 12½% ad val. |
| 743 | Grapefruit: | |
| | When entered during the period from August 1 to September 30, inclusive, in any year | 1½¢ per lb. |
| | When entered during the month of October in any year | 9/10¢ per lb. |
| 743 | Limes, in their natural state, or in brine | 1¢ per lb. |
| 747 | Pineapples, not in crates and not in bulk | 27¢ per crate of 2.45 cu. ft. |
| 752 | Watermelons, in their natural state, not specially provided for | 20% ad val. |
| 765 | Beans, not specially provided for: | |
| | Lima beans: | |
| | When entered during the period from December 1 in any year to the following May 31, inclusive | 2½¢ per lb. |
| | When entered during the month of November in any year | 2½¢ per lb. |
| 772 | Tomatoes in their natural state: | |
| | When entered during the period from March 1 to July 14, inclusive, or during the period from September 1 to November 14, inclusive, in any year | 2.1¢ per lb. |
| | When entered during the period from November 15, in any year, to the last day of the following February, inclusive | 1½¢ per lb. |
| 774 | Vegetables in their natural state: | |
| | Cauliflower, when entered during the period from December 1, in any year, to the last day of the following February, inclusive | 2½¢ per lb. |
| | Squash | 1½¢ per lb. |
| 774 | Eggplant in their natural state, when entered during the period from December 1 in any year to the following March 31, inclusive: | |
| | When the rate applied to the product of Cuba is 0.57 cent per pound | 1.17¢ per lb. |
| | When the rate applied to the product of Cuba is 0.5 cent per pound | 1.14¢ per lb. |
| | When the rate applied to the product of Cuba is 0.5 cent per pound | 1.1¢ per lb. |
| 775 | Plimientos, packed in brine or in oil, or prepared or preserved in any manner | 4½¢ per lb. |
| 802 | Ethyl alcohol for beverage purposes | $2.25 per proof gal. |
| 1005(a) (1) | Cordage, including cables, tarred or untarred, composed of three or more strands, each strand composed of two or more yarns: | |
| | Wholly or in chief value of henequen: | |
| | Smaller than ¾ inch in diameter | 1¢ per lb. and 71.5% ad val. |
| | Other | 1¢ per lb. |
| 1406 | Labels, flaps, and cigar bands, composed wholly or in chief value of paper lithographically printed in whole or in part from stone, gelatin, metal, or other material, but not printed in whole or in part by means of a process of which the essential feature is the electrodeposition of metal, and not exceeding 10 square inches in dimensions, if embossed or die-cut): | |
| | Printed in less than eight colors (bronze printing to be counted as two colors): | |
| | Labels and flaps | 2½¢ per lb. |
| | Cigar bands | 3½¢ per lb. |
| | Printed in eight or more colors (bronze printing to be counted as two colors): | |
| | Labels and flaps | 2¢ per lb. |
| | Cigar bands | 3½¢ per lb. |
| 1538 | Banana flour and plantain flour | 14½% ad val. |

# RULES AND REGULATIONS

## TITLE 15—COMMERCE AND FOREIGN TRADE

### Subtitle A—Office of the Secretary of Commerce

PART 5—OPERATION OF VENDING STANDS

Insofar as the Administrative Procedure Act may be applicable: Because of the nature of this notice, I find, for good cause shown, that it would be impracticable and unncessary, and no good reason would be served to give preliminary notice, engage in public rule-making procedure or postpone the effective date thereof.

The effective date of these regulations is May 7, 1956.

Sec.
5.1 Purpose.
5.2 Policy.
5.3 Assignment of functions and authorities.
5.4 Permits.
5.5 Vending machines.
5.6 Approval of regulations.

AUTHORITY: §§ 5.1 to 5.6 issued under sec. 4, 68 Stat. 663; 20 U. S. C. 107.

§ 5.1 *Purpose.* This part prescribes regulations to assure the granting of preference to blind persons licensed under the provisions of the Randolph-Sheppard Vending Stand Act (49 Stat. 1559, as amended by an act of August 3, 1954, 68 Stat. 663) for the operation of vending stands (which term as used in this part includes vending machines).

§ 5.2 *Policy.* (a) The Department adopts the Federal policy announced in the Randolph-Sheppard Vending Stand Act, as amended, to provide blind persons with remunerative employment, to enlarge the economic opportunities of the blind and to stimulate the blind to greater efforts in striving to make themselves self-supporting.

(b) It shall be the policy of the Department to authorize blind persons licensed under the provisions of the Randolph-Sheppard Vending Stand Act, as amended, to operate vending stands without any charge for space or necessary utilities on properties owned and occupied by the Department or on which the Department controls maintenance, operation, and protection.

(c) The Department will cooperate with the Department of Health, Education, and Welfare and State licensing agencies in making surveys to determine whether and where vending stands may be properly and profitably operated by licensed blind persons.

(d) The application of a State licensing agency for a permit may be denied or revoked if it is determined that the interests of the United States would be adversely affected or the Department would be unduly inconvenienced by the issuance of a permit or its continuance.

§ 5.3 *Assignment of functions and authorities.* (a) The Director, Office of Administrative Operations, shall carry out the Department's responsibility to provide, in accordance with applicable law and regulation, the maximum opportunity for qualified blind persons to operate vending stands.

(b) Subject to instructions issued by the Director, Office of Administrative Operations, the head of each primary organization unit shall be responsible for implementing this program within his area.

(c) The Director, Office of Administrative Operations for the primary organization units located in the main Commerce building and the head of each other primary organization unit will make the final determination with respect to the terms of permits including the location and operation of vending stands and machines in their respective areas.

(d) Unresolved differences and significant violations of the terms of permits shall be reported to the State licensing agency. Where no corrective action is forthcoming, the matter shall be referred to the Office of Vocational Rehabilitation, Department of Health, Education, and Welfare for consideration prior to final decision.

§ 5.4 *Permits.* (a) No permit, lease, or other arrangement for the operation of a vending stand on property under control of the Department shall be entered into or renewed without first consulting the State licensing agency or equivalent authority.

(b) The permit shall be conditioned upon the vending stand meeting specified standards, including standards relating to appearance, safety, sanitation, maintenance, and efficiency of operation. Due regard shall be given to laws and regulations for the public welfare which are applicable, or would be applicable, if the property involved was not owned or controlled by the Federal Government.

(c) The permit shall specify the types of articles specified in section 2 (a) (4) of the act as amended (newspapers, periodicals, confections, tobacco products, articles dispensed automatically or in containers or wrappings in which they are placed before delivery to the vending stand). Such other related articles as the State licensing agency asks to be included shall be permitted to be sold, unless such factors as inadequacy of available facilities, safety, health, public welfare, or legal requirements demand otherwise.

(d) The permit shall contain a provision that alterations made by other than the United States shall be approved by and conducted under the supervision of an appropriate official of the Department or the primary organization unit concerned.

(e) The permit may contain other reasonable conditions necessary for the protection of the Government and prospective patrons of the stand.

(f) The permit shall describe the location of the stand proper and the location of any vending machines which are operated in conjunction with it.

§ 5.5 *Vending machines.* (a) The income from any vending machines which are located within reasonable proximity to and are in direct competition with a vending stand for which a permit has been issued under this part shall be assigned to the operator of such stand.

(b) If a vending machine vends articles of a type authorized by the permit and is so located that it attracts customers who would otherwise patronize the vending stand, such machine shall be deemed to be in reasonable proximity to and direct competition with the stand.

§ 5.6 *Approval of regulations.* The provisions of this part have been approved by the Director, Bureau of the Budget pursuant to Executive Order No. 10604, signed on April 22, 1955.

[SEAL] W. M. MARTIN,
*Director,*
*Office of Administrative Operations.*

Approved:

GEO. T. MOORE,
*Assistant Secretary for Administration.*

## TITLE 14—CIVIL AVIATION

### Chapter II—Civil Aeronautics Administration, Department of Commerce

[Amdt. 200]

PART 609—STANDARD INSTRUMENT APPROACH PROCEDURES

PROCEDURE ALTERATIONS

The standard instrument approach procedure alterations appearing hereinafter are adopted to become effective when indicated in order to promote safety. Compliance with the notice, procedures, and effective date provisions of section 4 of the Administrative Procedure Act would be impracticable and contrary to the public interest, and therefore is not required.

Part 609 is amended as follows:

NOTE: Where the general classification (LFR, VAR, ADF, ILS, GCA, or VOR), location, and procedure number (if any) of any procedure in the amendments which follow, are identical with an existing procedure, that procedure is to be substituted for the existing one, as of the effective date given, to the extent that it differs from the existing procedure; where a procedure is canceled, the existing procedure is revoked; new procedures are to be placed in appropriate alphabetical sequence within the section amended.

1. The low frequency range procedures prescribed in § 609.6 are amended to read in part:

LFR STANDARD INSTRUMENT APPROACH PROCEDURES

Bearings, headings, and courses are magnetic. Distances are in nautical miles unless otherwise indicated, except visibilities which are in statute miles. Elevations and altitudes are in feet, MSL. Ceilings are in feet above airport elevation.

If an LFR instrument approach is conducted at the below named airport, it shall be in accordance with the following instrument approach procedure, unless an approach is conducted in accordance with a different procedure for such airport authorized by the Administrator of Civil Aeronautics. Initial approaches shall be made over specified routes. Minimum altitude(s) shall correspond with those established for en route operation in the particular area or as set forth below.

| City and State; airport name, elevation; facility; class and identification; procedure No.; effective date | Initial approach to facility from— | Course and distance | Minimum altitude (ft.) | Procedure turn (—) side of final approach course; outbound and inbound altitudes; limiting distances | If visual contact not established at authorized minimums after passing facility within distance specified or if landing not accomplished |
|---|---|---|---|---|---|
| 1 | 2 | 3 | 4 | 5 | 6 |
| DETROIT, MICH. Detroit City, 628'. SBRAZ-T-QG. Procedure No. 5. Amendment No. 4. Effective date: July 14, 1956. Supersedes Amendment dated March 22, 1955. Major changes: (1) Transition added QG-VOR, deleted all other transitions as airways go over facility; (2) revise columns 1 and 6; (3) viability revised column 10; (4) column 12 revised; (5) revise to new form. | Windsor VOR | 061—3.0 | 2,000 | E side of course: 142° outbound. 322° inbound. 2,000' within 10 miles. | Within 7.8 miles, climb to 2,300' on NW course Windsor LFR to Warren Intersection. •300-1 takeoff authorized on runway 33 only. AIR CARRIER NOTE: Sliding scale not applicable. Detroit Radiobeacon 2.3 miles SE Detroit City Airport. |
| DETROIT, MICH. Detroit City, 628', SBRAZ-T-QG. Procedure No. 2. Amendment No. 3. Effective date: July 14, 1956. Supersedes Amendment 2, dated Mar. 22, 1955. Major changes: (1) Revise to new form; (2) add transition from QG-VOR; (3) procedure turn revised to E; (4) column 10 visibility revised; (5) column 12 revised. | Salem VOR to #Warren Intersection. | 089—23.0 | 2,700 | E side of course: 329° outbound. 149° inbound. 2,300' within 10 miles. All turns will be made on E side of course. High obstructions W side of course. | Within 4.5 miles, climb to 2,300', proceed to QG-LFR or when directed by ATC. Climb in holding pattern to 2,300'. Proceed back to #Warren Intersection. •300-1 takeoff authorized on runway 33 only. AIR CARRIER NOTE: Sliding scale not applicable. #Warren Intersection: Intersection NW course Windsor LFR and 092R Salem. |
| | Pontiac Intersection to #Warren Intersection. | 149—9.5 | Final 1,800 | | |
| | Windsor VOR to #Warren Intersection. | 343—13.5 | 2,300 | | |

Major changes: Nautical miles; change circling ceiling for 2-engine or less aircraft (less than 4 engines) to 900' because of obstruction. | Hollywood Hills FM | 143—11.5 | 3,000 | S side of E course: 079° outbound. 259° inbound. 2,000' within 9 miles. (E of Downey Radiobeacon not authorized.) Procedure turn S for better terrain. | Within 3.4 miles, climb to 2,000' on W. course within 25 miles. •Maintain 1,500' until over LAX LOM inbound. |
| | Downey FM/Radiobeacon (final). | 238—9.5 | 1,500 | | |
| | Los Angeles LOM (final) | 238—1.7 | 1,000 | | |
| | San Pedro Intersection | 340—21.0 | 3,000 | | |
| | Radar vectoring to final approach course authorized. | | | | |

2. The high frequency visual aural range (VAR) procedures prescribed in § 609.7 are amended to read in part:

VAR STANDARD INSTRUMENT APPROACH PROCEDURE

Bearings, headings, and courses are magnetic. Distances are in nautical miles unless otherwise indicated, except visibilities which are in statute miles. Elevations and altitudes are in feet, MSL. Ceilings are in feet above airport elevation.

If a VAR instrument approach is conducted at the below named airport, it shall be in accordance with the following instrument approach procedure, unless an approach is conducted in accordance with a different procedure for such airport authorized by the Administrator of Civil Aeronautics. Initial approaches shall be made over specified routes. Minimum altitude(s) shall correspond with those established for en route operation in the particular area or as set forth below.

| City and State; airport name, elevation; facility: class and identification; procedure No.; effective date | Initial approach to facility from— | Course and distance | Minimum altitude (ft.) | Procedure turn (—) side of final approach course (outbound and inbound); altitudes; limiting distances | Minimum altitude over facility on final approach course (ft.) | Course and distance, facility to airport | Ceiling and visibility minimums | | | | If visual contact not established at authorized minimums after passing facility within distance specified, or if landing not accomplished |
|---|---|---|---|---|---|---|---|---|---|---|---|
| | | | | | | | Condition | 2 engines or less | | More than 2 engines; more than 65 knots | |
| | | | | | | | | 65 knots or less | More than 65 knots | | |
| 1 | 2 | 3 | 4 | 5 | 6 | 7 | 8 | 9 | 10 | 11 | 12 |
| HICKORY, N. C. Municipal, 1,180'. HKY-VAR. Procedure No. 1. Amendment No. 4. Effective date: February 2, 1953. | PROCEDURE CANCELED MAY 16, 1956. FACILITY UNUSABLE. | | | | | | | | | | |

3. The automatic direction finding procedures prescribed in § 609.8 are amended to read in part:

ADF STANDARD INSTRUMENT APPROACH PROCEDURE

Bearings, headings, and courses are magnetic. Distances are in nautical miles unless otherwise indicated, except visibilities which are in statute miles. Elevations and latitudes are in feet, MSL. Ceilings are in feet above airport elevation.

If an ADF instrument approach is conducted at the below named airport, it shall be in accordance with the following instrument approach procedure, unless an approach is conducted in accordance with a different procedure for such airport authorized by the Administrator of Civil Aeronautics. Initial approaches shall be made over specified routes. Minimum altitude(s) shall correspond with those established for en route operation in the particular area or as set forth below.

| City and State; airport name, elevation; facility: class and identification; procedure No.; effective date | Initial approach to facility from— | Course and distance | Minimum altitude (ft.) | Procedure turn (—) side of final approach course (outbound and inbound); altitudes; limiting distances | Minimum altitude over facility on final approach course (ft.) | Course and distance, facility to airport | Ceiling and visibility minimums | | | | If visual contact not established at authorized landing minimums after passing facility within distance specified, or if landing not accomplished |
|---|---|---|---|---|---|---|---|---|---|---|---|
| | | | | | | | Condition | 2 engines or less | | More than 2 engines (more than 65 knots) | |
| | | | | | | | | 65 knots or less | More than 65 knots | | |

| | QG VOR | 357—6.0 | 2,300 | | | | | | | | |

4. The very high frequency omnirange (VOR) procedures prescribed in § 609.9 are amended to read in part:

VOR STANDARD INSTRUMENT APPROACH PROCEDURE

Bearings, headings, courses, and radials are magnetic. Distances are in nautical miles unless otherwise indicated, except visibilities which are in statute miles. Elevations and altitudes are in feet, MSL. Ceilings are in feet above airport elevation.

If a VOR instrument approach is conducted at the below named airport, it shall be in accordance with the following instrument approach procedure, unless an approach is conducted in accordance with a different procedure for such airport authorized by the Administrator of Civil Aeronautics. Initial approaches shall be made over specified routes. Minimum altitude(s) shall correspond with those established for en route operation in the particular area or as set forth below.

| City and State; airport name, elevation; facility: class and identification; procedure No.; effective date | Initial approach to facility from— | Course and distance | Minimum altitude (ft.) | Procedure turn (—) side of final approach course (outbound and inbound); altitudes; limiting distances | Minimum altitude over facility on final approach course (ft.) | Course and distance, facility to airport | Ceiling and visibility minimums | | | | If visual contact not established at authorized minimums after passing facility within distance specified or if landing not accomplished |
|---|---|---|---|---|---|---|---|---|---|---|---|
| | | | | | | | Condition | 2 engines or less | | More than 2 engines; more than 65 knots | |
| | | | | | | | | 65 knots or less | More than 65 knots | | |
| 1 | 2 | 3 | 4 | 5 | 6 | 7 | 8 | 9 | 10 | 11 | 12 |
| LA GRANGE, GA. Callaway, 700'. BVOR-LGC. Procedure No. 1. Amendment No. 2. Effective date: April 22, 1954. | CANCELED JUNE 14, 1956. PROCEDURE SUPERSEDED BY COMBINED BVOR/DME. PROCEDURE AMENDMENT NO. ORIGINAL. EFFECTIVE MAY 12, 1956. | | | | | | | | | | |
| LOS ANGELES, CALIF. International, 125'. BVOR-LAX. Procedure No. 1. Amendment No. 1. Effective date: July 14, 1956. Supersedes Amendment Original, dated December 10, 1955. Major changes: Nautical miles; add radar vectoring note to transitions. | Los Angeles LFR | 246—6.1 | 1,500 | S side of course: 250° outbound. 070° inbound. 1,500' within 10 miles. | 600 | 070—1.2 | T–dn | 300–1 | 300–1 | 200–½ | Within 1.2 miles, climb to 2,000' on E course LAX LFR or LAX radial 074°, no farther E than Downey FM/Radiobeacon. |
| | | | | | | | C–dn | 800–1 | 600–1 | 600–1½ | |
| | Hollywood Hills FM | 173—11.3 | 3,000 | | | | S–dn | | | | |
| | | | | | | | Runway 7R | 400–1 | 400–1 | 400–1 | |
| | 6 nautical miles from LAX VOR on radial 250° as reported by LAX radar or by DME fix (final). | 070—6.0 | 600 | | | | A–dn | 800–2 | 800–2 | 800–2 | |
| | Radar vectoring to final approach course authorized. | | | | | | | | | | |

5. The instrument landing system procedures prescribed in § 609.11 are amended to read in part:

ILS STANDARD INSTRUMENT APPROACH PROCEDURE

Bearings, headings, and courses are magnetic. Distances are in nautical miles unless otherwise indicated, except visibilities which are in statute miles. Elevations and altitudes are in feet, MSL. Ceilings are in feet above airport elevation.

If an ILS instrument approach is conducted at the below named airport, it shall be in accordance with the following instrument approach procedure, unless an approach is conducted in accordance with a different procedure for such airport authorized by the Administrator of Civil Aeronautics. Initial approaches shall be made over specified routes. Minimum altitude(s) shall correspond with those established for en route operation in the particular area or as set forth below:

| City and State; airport name, elevation; facility; class and identification; procedure No.; effective date | Transition to ILS: From— | To— | Course and distance | Minimum altitudes (ft.) | Procedure turn (—) side of final approach course (outbound and inbound); altitudes; limiting distances | Minimum altitude at glide slope interception inbound (ft.) | Altitude of glide slope and distance to approach end of runway at— Outer marker | Middle marker | Ceiling and visibility minimums: Condition | 2 engines or less: 65 knots or less | 2 engines or less: More than 65 knots | More than 2 engines (more than 65 knots) | If visual contact not established upon descent to authorized landing minimums or if landing not accomplished— |

| | Truax radiobeacon | LOM | 177—6.2 | 2,400 | | | | | | | | | |

6. The ground controlled approach procedures prescribed in § 609.13 are amended to read in part:

GCA STANDARD INSTRUMENT APPROACH PROCEDURE

Bearings, headings, and courses are magnetic. NOTE: Distances are in nautical miles unless otherwise indicated, except visibilities which are in statute miles. Elevations and altitudes are in feet, MSL. Ceilings are in feet above airport elevation.

If a GCA instrument approach is conducted at the below named airport, it shall be in accordance with the following instrument procedure, unless an approach is conducted in accordance with a different procedure for such airport authorized by the Administrator of Civil Aeronautics. Initial approaches shall be made over specified routes. Minimum altitude(s) shall correspond with those established for en route operation in the particular area or as set forth below. Positive identification must be established with the radar controller. From initial contact with GCA to final authorized landing minimums, the instructions of the radar controller are mandatory except when (A) visual contact is established on final approach at or before descent to the authorized landing minimums, or (B) at pilot's discretion if it appears desirable to discontinue the approach. Except when the radar controller may direct otherwise prior to final approach, a missed approach shall be executed as provided below when (A) communication on final approach is lost for more than 5 seconds during a PAR approach, or for more than 30 seconds during an ASR approach; (B) directed by radar controller; (C) visual contact is not established upon descent to authorized landing minimums; or (D) if landing is not accomplished.

| City and State; airport name; airport elevation; effective date | Radar terminal area; maneuvering altitudes by sectors and limiting distances | Runway No. | Condition | Ceiling and visibility minimums: Precision approach (PAR): 2 engines or less: 65 knots or less | Precision approach (PAR): 2 engines or less: Over 65 knots | Precision approach (PAR): More than 2 engines: Over 65 knots | Surveillance approach (ASR): 2 engines or less: 65 knots or less | Surveillance approach (ASR): 2 engines or less: Over 65 knots | Surveillance approach (ASR): More than 2 engines: Over 65 knots | Missed approach procedure |

# TITLE 6—AGRICULTURAL CREDIT

## Chapter IV—Commodity Stabilization Service and Commodity Credit Corporation, Department of Agriculture

### Subchapter B—Loans, Purchases, and Other Operations

[1956 C. C. C. Grain Price Support Bulletin 1, Supp. 1, Grain Sorghums]

### PART 421—GRAINS AND RELATED COMMODITIES

### SUBPART—1956 CROP GRAIN SORGHUMS LOAN AND PURCHASE AGREEMENT PROGRAM

A price support program has been announced for the 1956 crop of grain sorghums. The 1956 C. C. C. Grain Price Support Bulletin 1 (21 F. R. 3997), issued by the Commodity Credit Corporation and containing the regulations of a general nature with respect to price support operations for grains and certain other commodities produced in 1956 is supplemented as follows:

Sec.
421.1826 Purpose.
421.1827 Availability of price support.
421.1828 Eligible grain sorghums.
421.1829 Warehouse receipts.
421.1830 Determination of quantity.
421.1831 Determination of quality.
421.1832 Maturity of loans.
421.1833 Determination of support rates.
421.1834 Warehouse charges.
421.1835 Settlement.

AUTHORITY: §§ 421.1826 to 421.1835 issued under sec. 4, 62 Stat. 1070, as amended; 15 U. S. C. 714b. Interpret or apply sec. 5, 62 Stat. 1072; secs. 301, 401, 63 Stat. 1053; 15 U. S. C. 714; 7 U. S. C. 1447, 1421.

§ 421.1826 *Purpose.* Sections 421.1826 to 421.1835 state additional specific regulations which, together with the general regulations contained in the 1956 C. C. C. Grain Price Support Bulletin 1 (§§ 421.1601 to 421.1622), apply to loans and purchase agreements under the 1956-Crop Grain Sorghums Price Support Program.

§ 421.1827 *Availability of price support*—(a) *Method of support.* Price support will be made available through farm-storage and warehouse-storage loans and through purchase agreements.

(b) *Area.* Farm-storage and warehouse-storage loans and purchase agreements will be available wherever grain sorghums are grown in the continental United States, except that farm-storage loans will not be available in areas where the State committee determines that grain sorghums cannot be safely stored on the farm.

(c) *Where to apply.* Application for price support should be made at the office of the county committee which keeps the farm-program records for the farm.

(d) *When to apply.* Loans and purchase agreements will be available from the time of harvest through January 31, 1957, and the applicable documents must be signed by the producer and delivered to the county committee not later than such date. Applicable documents include the Producer's Note and Loan Agreement for warehouse-storage loans, the Producer's Note and Supplemental Loan Agreement and the Commodity Chattel Mortgage for farm-storage loans, and the Purchase Agreement for purchase agreements.

(e) *Eligible producer.* An eligible producer shall be an individual, partnership, association, corporation, estate, trust, or other business enterprise, or legal entity, and wherever applicable, a State, political subdivision of a State, or any agency thereof producing grain sorghums in 1956 as landowner, landlord, tenant, or sharecropper. Two or more eligible producers may obtain a joint loan on eligible grain sorghums harvested by them if stored in the same farm-storage facility. In the case of joint loans, each person signing the note shall be held jointly and severally responsible for the loan. Where the county office has experienced difficulties in settling farm-storage loans with a producer, the county committee shall determine that he is not eligible for a farm-storage loan. He shall be eligible, however, to obtain a warehouse-storage loan or sign a purchase agreement.

§ 421.1828 *Eligible grain sorghums.* Grain sorghums, to be eligible for price support, must meet all of the applicable requirements set forth in this section.

(a) The grain sorghums must have been produced in the continental United States in 1956 by an eligible producer.

(b) At the time the grain sorghums are placed under loan or delivered under a purchase agreement:

(1) The beneficial interest in the grain sorghums must be in the person tendering the grain sorghums for loan or for delivery under a purchase agreement, and must always have been in him, or must have been in him and a former producer whom he succeeded before the grain sorghums were harvested.

(2) To meet the requirements of succession to a former producer, the rights, responsibilities and interest of the former producer with respect to the farming unit on which the grain sorghums were produced shall have been substantially assumed by the person claiming succession. Mere purchase of the crop prior to harvest, without acquisition of any additional interest in the farming unit, shall not constitute succession. The county committee shall determine whether the requirements with respect to succession have been met.

(c) Grain sorghums, at the time they are placed under loan, and grain sorghums under purchase agreement which are in approved warehouse storage prior to notification by the producer of his intention to sell to CCC, must meet the following requirements:

(1) The grain sorghums must be of any class grading No. 4 or better, No. 4 "Smutty" or better, or No. 4 "Discolored" or better, and contain not in excess of 13 percent moisture.

(2) Grain sorghums grading "Weevily," or containing mercurial compounds or other substances poisonous to man or animals, or containing in excess of 13 percent moisture, shall not be eligible, except that grain sorghums represented by warehouse receipts which indicate that the grain sorghums are ineligible because of moisture content only, will be eligible if the warehouseman certifies on the supplemental certificate or on a statement attached to the warehouse receipt that "the grain sorghums have been processed at the request of the eligible producer, and delivery will be made of eligible grain sorghums containing not in excess of 13-percent moisture content and no lien for processing will be claimed by the warehouseman from Commodity Credit Corporation or any subsequent holder of said warehouse receipt."

(3) If offered as security for a farm-storage loan, the grain sorghums must have been stored in the granary at least 30 days prior to inspection for measurement, sampling, and sealing, unless otherwise approved by the State Committee.

(d) Grain sorghums under purchase agreement stored in other than approved warehouse storage must, in order to be eligible for sale to CCC, meet the requirements of paragraph (c) (1) and (2) of this section on the basis of a pre-delivery inspection performed by a representative of the county committee in accordance with regulations to be subsequently issued. Grain sorghums which do not meet the requirements of paragraph (c) (1) and (2) on the basis of the pre-delivery inspection referred to above shall also be eligible for sale to CCC only if the producer complies with the conditions to be specified in § 421.1835 and the grain sorghums on the basis of the inspection made at the time of delivery meet the requirements set forth in paragraph (c) (1) and (2) of this section.

§ 421.1829 *Warehouse receipts.* Warehouse receipts, representing grain sorghums in approved warehouse storage to be placed under loan or delivered under a purchase agreement, must meet the following requirements:

(a) Warehouse receipts must be issued in the name of the producer, must be properly endorsed in blank so as to vest title in the holder and must be receipts issued on a warehouse approved by CCC under the Uniform Grain Storage Agreement which indicate that the grain sorghums are insured, or must be receipts issued on warehouses operated by Eastern common carriers under tariffs approved by the Interstate Commerce Commission for which custodian agreements are in effect.

(b) (1) Each warehouse receipt or the warehouseman's supplemental certificate (in duplicate) properly identified with the warehouse receipt must show (i) gross weight, (ii) class, (iii) grade (including special grades), (iv) test weight, (v) moisture, (vi) dockage, (vii) any other grading factor(s) when such factor(s) and not test weight, determine the grade and (viii) whether the grain sorghums arrived by rail, truck or barge. In the case of warehouse receipts issued for grain sorghums delivered by rail or barge, the grading factors on the warehouse receipt must agree with the inbound inspection certificate for the car or barge when such certificate is issued.

(2) If the warehouseman has processed the grain sorghums as provided in § 421.1828 (c) (2), the supplemental certificate must show the numerical grade and grading factors resulting from the grain sorghums being processed. When the grade and grading factors shown on the supplemental certificate do not agree with the warehouse receipt, the factors shown on the supplemental certificate shall take precedence.

(c) A separate warehouse receipt must be submitted for each grade and class of grain sorghums.

(d) The warehouse receipt may be subject to liens for warehouse charges only to the extent indicated in § 421.1834.

(e) Warehouse receipts representing grain sorghums which have been shipped by rail or water from a country shipping point to a designated terminal point, or shipped by rail or water from a country shipping point and stored in transit to a designated terminal point must be accompanied by registered freight bills, or by a certificate containing similar information in a form prescribed by the CSS commodity office which shall be signed by the warehouseman and which may be a part of the supplemental certificate.

§ 421.1830 *Determination of quantity.* (a) The quantity of grain sorghums placed under farm-storage loan may be determined either by weight or by measurement. The quantity of grain sorghums placed under a warehouse storage loan or delivered under a farm-storage loan or under a purchase agreement shall be determined by weight.

(b) When a quantity is determined by weight, a unit of 100 pounds shall be determined to be 100 pounds of grain sorghums free of dockage. In determining the quantity of sacked grain sorghums by weight, a deduction of three-fourths of a pound for each sack shall be made.

(c) When the quantity of grain sorghums is determined by measurement, 100 pounds shall be 2.25 cubic feet of grain sorghums testing 56 pounds per bushel. The quantity determined by measurement of grain sorghums having a test weight of less than 56 pounds per bushel shall be adjusted by applying the applicable percentage as shown in the following table:

| For grain sorghums testing: | Percent |
|---|---|
| 56 pounds or over | 100 |
| 55 pounds or over, but less than 56 pounds | 98 |
| 54 pounds or over, but less than 55 pounds | 96 |
| 53 pounds or over, but less than 54 pounds | 95 |
| 52 pounds or over, but less than 53 pounds | 93 |
| 51 pounds or over, but less than 52 pounds | 91 |
| 50 pound or over, but less than 51 pounds | 89 |
| 49 pounds or over, but less than 50 pounds | 87 |

(d) The percentage of dockage shall be determined and the weight of such dockage shall be deducted from the gross weight of the grain sorghums in determining the net quantity available for loan or purchase.

§ 421.1831 *Determination of quality.* The class, subclass, grade, grading factors, and all other quality factors shall be determined in accordance with the methods set forth in the Official Grain Standards of the United States for Grain Sorghums, whether or not such determinations are made on the basis of an official inspection.

§ 421.1832 *Maturity of loans.* Loans mature on demand but not later than March 31, 1957.

§ 421.1833 *Determination of support rates.* Basic support rates for grain sorghums will be set forth in 1956 C. C. C. Grain Price Support Bulletin 1, Supplement 2, Grain Sorghums. Support rates will be established for grain sorghums stored in approved warehouse storage at designated terminal markets, and for grain sorghums stored in approved country warehouses and in approved farm storage. The support rate for the quality of grain sorghums placed under loan or delivered under a purchase agreement shall be the applicable basic support rate adjusted in accordance with the provisions of this section and 1956 C. C. C. Grain Price Support Bulletin 1, Supplement 2, Grain Sorghums.

(a) *Support rates at designated terminal markets.* (1) Grain sorghums eligible for loan or purchase at the support rates established for designated terminal markets must have been shipped on a domestic interstate freight rate basis. On any grain sorghums shipped at other than the domestic interstate freight rate, the support rate at the designated terminal market shall be reduced by the difference between the rate of the freight paid (plus tax) and the domestic interstate freight rate (plus tax).

(2) The support rates established for designated terminal markets apply to grain sorghums which have been shipped by rail or water from a country shipping point to one of the designated terminal markets, as evidenced by paid freight bills duly registered for transit privileges: *Provided,* That in the event the amount of paid-in freight is insufficient to guarantee the minimum proportional domestic interstate freight rate from the terminal market, there shall be deducted from the applicable terminal support rate the difference between the amount of freight actually paid in and the amount required to be paid in to guarantee outbound movement at the minimum proportional domestic interstate freight rate.

(3) When shipped by rail or water and stored at any designated terminal market grain sorghums for which neither registered freight bills nor registered freight certificates are presented to guarantee outbound movement at the minimum proportional domestic interstate freight rate, shall have a support rate equal to the terminal rate minus 14 cents per 100 pounds.

(4) For grain sorghums received by truck and stored at any designated terminal market, the support rate shall be determined by making a deduction from the terminal rate as follows:

| Terminal market: | Amount of deduction (cents per 100 pounds) |
|---|---|
| Los Angeles, Calif., San Francisco, Calif. | 22 |
| Omaha, Nebr., Sioux City, Iowa, Kansas City, Mo., St. Louis, Mo., Saint Joseph, Mo. | 23 |
| Corpus Christi, Tex., Galveston, Tex., Houston, Tex., Port Arthur, Tex., New Orleans, La., Memphis, Tenn | 25 |

(b) *Support rates for grain sorghums in approved warehouse storage at other than designated terminal markets.* (1) Except for grain sorghums stored in New Mexico, the support rates for grain sorghums stored in approved warehouses (other than those situated in the designated terminal markets) which are shipped by rail or water, shall be determined by deducting from the appropriate designated terminal market rate an amount equal to the transit balance, if any (plus tax) of the through-freight rate from point of origin for such grain sorghums to such terminal market: *Provided,* That on any grain sorghums shipped at other than the domestic interstate freight rate, the support rate shall be further reduced by the difference between the rate of freight paid (plus tax) and the domestic interstate freight rate (plus tax) from the point of origin of such grain sorghums to the point of storage: *And provided further,* That in the case of grain sorghums stored at any railroad transit point taking a penalty by reason of out-of-line movement, or for any other reason to the appropriate designated market, there shall be added to such transit balance an amount equal to any out-of-line costs or other costs incurred in storing grain sorghums in such position.

(2) In the State of New Mexico, the CSS commodity office shall upon request of the county committee, determine the support rate for grain sorghums stored in approved warehouses (except those situated at designated terminal markets) which were shipped by rail in the movement of natural market direction as approved by CCC, by adding to the county rate for the county from which the grain sorghums were shipped an amount per 100 pounds equal to the receiving and loading-out charges computed in accordance with the applicable rates of the Uniform Grain Storage Agreement for the 1956 crop and an amount equal to the transit value of the freight paid (plus tax) from points of origin to markets designated by CCC. The warehouse receipts must be accompanied by the original paid freight bills or a certificate signed by the warehouseman as set forth in § 421.1829 (e). If the grain sorghums are stored in approved warehouses located at transit points, taking a penalty by reason of backhaul, or out-of-line of normal market movements, such penalty or other costs by reason of such movement, as determined by CCC shall be deducted from the support rates as determined in this paragraph.

(c) *Discounts.* The basic support rates shall be adjusted by all applicable discounts listed in 1956 CCC Grain Price Support Bulletin 1, Supplement 2, Grain Sorghums.

§ 421.1834 *Warehouse charges.* (a) Warehouse receipts and the grain sorghums represented thereby stored in approved warehouses operating under the Uniform Grain Storage Agreement may be subject to liens for warehouse handling and storage charges at not to exceed the Uniform Grain Storage Agreement rates from the date the grain is deposited in the warehouse for storage.

Where the date of deposit (the date of the warehouse receipt if the date of deposit is not shown) on warehouse receipts representing grain sorghums stored in warehouses operating under the Uniform Grain Storage Agreement is on or before March 31, 1957, there shall be deducted in computing the amount of the loan or purchase price the storage charges per hundredweight as shown in the following table unless written evidence is submitted with the warehouse receipt that all warehouse charges, except receiving and loading out charges have been prepaid through March 31, 1957:

| Amount of deduction (cents per hundredweight) | Date of deposit (all dates inclusive) | | |
|---|---|---|---|
| | Area I [1] | Areas II,[2] III,[3] and IV [4] | Area V [5] |
| 28 | | | Prior to May 19, 1956. |
| 27 | | Prior to May 18, 1956 | May 19–May 30, 1956. |
| 26 | Prior to May 4, 1956 | May 18–May 29, 1956 | May 31–June 11, 1956. |
| 25 | May 4–May 16, 1956 | May 30–June 10, 1956 | June 12–June 23, 1956. |
| 24 | May 17–May 29, 1956 | June 11–June 22, 1956 | June 24–July 5, 1956. |
| 23 | May 30–June 11, 1956 | June 23–July 4, 1956 | July 6–July 17, 1956. |
| 22 | June 12–June 24, 1956 | July 5–July 16, 1956 | July 18–July 29, 1956. |
| 21 | June 25–July 7, 1956 | July 17–July 28, 1956 | July 30–Aug. 10, 1956. |
| 20 | July 8–July 20, 1956 | July 29–Aug. 9, 1956 | Aug. 11–Aug. 22, 1956. |
| 19 | July 21–Aug. 2, 1956 | Aug. 10–Aug. 21, 1956 | Aug. 23–Sept. 3, 1956. |
| 18 | Aug. 3–Aug. 15, 1956 | Aug. 22–Sept. 2, 1956 | Sept. 4–Sept. 15, 1956. |
| 17 | Aug. 16–Aug. 28, 1956 | Sept. 3–Sept. 14, 1956 | Sept. 16–Sept. 27, 1956. |
| 16 | Aug. 29.–Sept. 10, 1956 | Sept. 15–Sept. 26, 1956 | Sept. 28–Oct. 9, 1956. |
| 15 | Sept. 11–Sept. 23, 1956 | Sept. 27–Oct. 8, 1956 | Oct. 10–Oct. 21, 1956. |
| 14 | Sept. 24–Oct. 6, 1956 | Oct. 9–Oct. 20, 1956 | Oct. 22–Nov. 1, 1956. |
| 13 | Oct. 7–Oct. 19, 1956 | Oct. 21–Nov. 1, 1956 | Nov. 2–Nov. 12, 1956. |
| 12 | Oct. 20–Nov. 1, 1956 | Nov. 2–Nov. 13, 1956 | Nov. 13–Nov. 23, 1956. |
| 11 | Nov. 2–Nov. 14, 1956 | Nov. 14–Nov. 25, 1956 | Nov. 24–Dec. 4, 1956. |
| 10 | Nov. 15–Nov. 27, 1956 | Nov. 26–Dec. 7, 1956 | Dec. 5–Dec. 15, 1956. |
| 9 | Nov. 28–Dec. 10, 1956 | Dec. 8–Dec. 19, 1956 | Dec. 16–Dec. 26, 1956. |
| 8 | Dec. 11–Dec. 23, 1956 | Dec. 20–Dec. 31, 1956 | Dec. 27, 1956–Jan. 6, 1957. |
| 7 | Dec. 24, 1956–Jan. 5, 1957 | Jan. 1, 1957–Jan. 12, 1957 | Jan. 7–Jan. 17, 1957. |
| 6 | Jan. 6–Jan. 18, 1957 | Jan. 13–Jan. 24, 1957 | Jan. 18–Jan. 28, 1957. |
| 5 | Jan. 19–Jan. 31, 1957 | Jan. 25–Feb. 5, 1957 | Jan. 29–Feb. 8, 1957. |
| 4 | Feb. 1–Feb. 13, 1957 | Feb. 6–Feb. 17, 1957 | Feb. 9–Feb. 19, 1957. |
| 3 | Feb. 14–Feb. 26, 1957 | Feb. 18–Mar. 1, 1957 | Feb. 20–Mar. 2, 1957. |
| 2 | Feb. 27–Mar. 11, 1957 | Mar. 2–Mar. 13, 1957 | Mar. 3–Mar. 13, 1957. |
| 1 | Mar. 12–Mar. 31, 1957 | Mar. 14–Mar. 31, 1957 | Mar. 14–Mar. 31, 1957. |

[1] Area I includes: Arizona, California, Idaho, Nevada, Oregon, Utah, Washington.
[2] Area II includes: Minnesota, Montana, North Dakota, South Dakota (also Superior, Wisconsin).
[3] Area III includes: Colorado, Illinois, Iowa, Kansas, Missouri, Nebraska, Wyoming, Wisconsin (except Superior).
[4] Area IV includes: Arkansas, Connecticut, Delaware, Indiana, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Michigan, New Hampshire, New Jersey, New Mexico, New York, Ohio, Oklahoma, Pennsylvania, Rhode Island, Texas, Vermont, Virginia, West Virginia.
[5] Area V includes: Alabama, Florida, Georgia, Mississippi, North Carolina, South Carolina, Tennessee.

(b) Warehouse receipts and the grain sorghums represented thereby stored in approved warehouses operated by Eastern common carriers may be subject to liens for warehouse elevation (receiving and delivering) and storage charges from the date of deposit at rates approved by the Interstate Commerce Commission. There shall be deducted in computing the loan or purchase price, the amount of the approved tariff rate for storage (not including elevation), which will accumulate from the date of deposit through March 31, 1957 unless written evidence is submitted with the warehouse receipt that the storage charges have been prepaid. The county committee shall request the CSS commodity office to determine the amount of such charges. Where the producer presents evidence showing that elevation charges have been prepaid, the amount of the storage charges to be deducted shall be reduced by the amount of the elevation charges prepaid by the producer.

§ 421.1835 *Settlement*—(a) *Settlement value.* (1) (i) In the case of eligible grain sorghums delivered to CCC from farm-storage under the loan program, settlement shall be made at the applicable support rate determined in accordance with §§ 421.1618 (d) and 421.1833. The support rate shall be for the grade and quality of the total quantity of grain sorghums eligible for delivery.

(ii) If, upon delivery, the grain sorghums under farm-storage loans are of a grade or quality for which no support rate has been established, the settlement value shall be computed at the support rate established for the grade and quality of the grain sorghums placed under loan, less the difference, if any, at the time of delivery, between the market price for the grade and quality placed under loan and the market price of the grain sorghums delivered, as determined by CCC: *Provided, however,* That if such grain sorghums are sold by CCC in order to determine their market price the settlement value shall not be less than such sales price and: *Provided further,* That if upon delivery the grain sorghums contain mercurial compounds or other substances poisonous to man or animals, such grain sorghums shall be sold for seed (in accordance with applicable State seed laws and regulations), fuel, or industrial uses where the end product will not be consumed by man or animals, and the settlement value shall be the same as the sales price, except that if CCC is unable to sell such commodity for the use specified above, the settlement value shall be the market value, if any, as determined by CCC, as of the date of delivery.

(2) Provisions applicable to the predelivery inspection of grain sorghums under purchase agreement and the basis for settlement with the producer on grain sorghums delivered to CCC under purchase agreement will be issued as an amendment to this subpart.

(b) *Storage deduction for early delivery.* No deduction for storage shall be made for farm-stored grain sorghums under loan or purchase agreement authorized to be delivered to CCC prior to the loan maturity date, except where it is necessary to call the loan through fault or negligence on the part of the producer or where the producer requests early delivery and the county committee approves the early delivery and determines such early delivery is solely for the convenience of the producer. The deduction for storage shall be made in accordance with the schedule of deductions for warehouse charges in § 421.1834.

(c) *Refund of prepaid handling charges.* In case a warehouseman charges the producer for the receiving or the receiving and loading out charges on grain sorghums under loan or purchase agreement stored in a warehouse under the Uniform Grain Storage Agreement, the producer shall, upon delivery of the grain sorghums to CCC, be reimbursed or given credit by the county office for such prepaid charges in an amount not to exceed the charges authorized under the Uniform Grain Storage Agreement, provided the producer furnishes to the county committee written evidence signed by the warehouseman that such charges have been paid.

(d) *Storage payment where CCC is unable to take delivery of grain sorghums stored in other than an approved warehouse under loan or purchase agreement.* The producer may be required to retain grain sorghums stored in other than an approved warehouse under loan or purchase agreement for a period of 60 days after the maturity date without any cost to CCC. However, if CCC is unable to take delivery of such grain sorghums within the 60-day period after maturity, the producer shall be paid a storage payment upon delivery of the grain sorghums to CCC: *Provided, however,* That a storage payment shall be paid a producer whose grain sorghums are stored in other than an approved warehouse under purchase agreement only if he has properly given notice of his intention to sell the grain sorghums to CCC and delivery cannot be accepted within the 60-day period after maturity. The period for earning such storage payment shall begin the day following the expiration of the 60-day period after the maturity date and extend through the final date of delivery, or the final date for delivery as specified in the delivery instructions issued to the producer by the county office, whichever is earlier. The storage payment shall be computed at the rate of $0.00077 per 100 pounds per day in Area I; $0.00080 per 100 pounds per day in Area II; $0.00082 per 100 pounds per day in Area III; $0.00084 per 100 pounds per day in Area IV; and $0.00087 per 100 pounds per day in Area V for the grain sorghums accepted for delivery or sale to CCC.

(e) *Track-loading payment.* A track-loading payment of 6 cents per 100 pounds shall be made to the producer on grain sorghums delivered to CCC on track at a country point.

Issued this 12th day of June 1956.

[SEAL] WALTER C. BERGER,
*Acting Executive Vice President,*
*Commodity Credit Corporation.*

[F. R. Doc. 56-4758; Filed, June 15, 1956; 8:48 a. m.]

## TITLE 7—AGRICULTURE

### Chapter III—Agricultural Research Service, Department of Agriculture

[P. P. C. 616, Rev.]

PART 301—DOMESTIC QUARANTINE NOTICES

SUBPART—MEDITERRANEAN FRUIT FLY

REVISED ADMINISTRATIVE INSTRUCTIONS EXEMPTING CERTAIN ARTICLES FROM SPECIFIC REQUIREMENTS, INTERPRETATION RE CERTAIN PRODUCTS

Pursuant to the authority conferred on him by the fourth sentence of the Mediterranean fruit fly quarantine (Notice of Quarantine No. 78, 7 CFR 301.78, 21 F. R. 3213), under sections 8 and 9 of the Plant Quarantine Act of 1912, as amended (7 U. S. C. 161, 162), and pursuant to other delegations of authority (19 F. R. 515, as amended) the Chief of the Plant Pest Control Branch hereby issues revised administrative instructions exempting certain regulated articles from the requirements of §§ 301.78–3 (b), 301.78–4 and 301.78–5 of the regulations supplemental to the said notice of quarantine (7 CFR 301.78–3 (b), 301.78–4, 301.78–5; 21 F. R. 3214, 3215), and an interpretation re certain other products, to appear as § 301.78a in Title 7, Code of Federal Regulations, as follows:

§ 301.78a *Administrative instructions exempting certain articles from specified requirements; interpretation re nursery stock, cut flowers, bulbs, etc.* It has been found that facts exist as to the pest risk involved in the movement of the following regulated articles under the regulations in this subpart which make it safe to make less stringent the requirements of the regulations with respect to the movement of such articles from any regulated area, as hereinafter provided. The following articles are hereby exempted from the requirements of §§ 301.78–3 (b), 301.78–4 and 301.78–5:

(a) *Fruits.* (1) Coconuts.
(2) Lemons, when picked green and commercially packed.
(3) Sour limes, when picked green and commercially packed.
(4) Strawberries, blackberries, and dewberries.
(b) *Vegetables.* (1) Beans.
(2) Broccoli.
(3) Brussels sprouts.
(4) Cabbage.
(5) Carrots.
(6) Cauliflower.
(7) Celery, when free of soil.
(8) Corn.
(9) Gourds.
(10) Kohlrabi.
(11) Lettuce, endive (escarole), chicory and other leafy (salad) vegetables.
(12) Onions.
(13) Peas, field, English or garden.
(14) Peppers, chili and cayenne (not including bell peppers).
(15) Potatoes (Irish).
(16) Pumpkins.
(17) Radishes.
(18) Spinach, collards, mustard and other leafy greens.
(19) Squash.
(20) Sweet potatoes.
(21) Tomatoes, green, when commercially packed.
(22) Turnips.
(23) Watermelons.

Nursery stock, without fruit or berries and free of soil; bulbs, corms, tubers, and rhizomes, other than vegetables, when free of soil; and cut flowers; are not considered as being regulated articles within the meaning of the regulations in this subpart.

These revised instructions shall be effective on June 16, 1956, and on that day shall supersede P. P. C. 616, which was effective May 16, 1956 (7 CFR 301.78a, 21 F. R. 3216).

The chief purpose of this revision is to add to the kinds of vegetables that are exempt from the requirements of the Mediterranean fruit fly quarantine and regulations. It has been determined that movement of such vegetables will not result in the spread of the Mediterranean fruit fly and that the restrictions provided by the quarantine and regulations upon such movement are unnecessary. In order to be of maximum benefit to affected shippers, the revised instructions relieving such restrictions should be made effective as soon as possible. Therefore, under section 4 of the Administrative Procedure Act (5 U. S. C. 1003) it is found upon good cause that notice and other public rule making procedure with respect to the revised instructions are impracticable and unnecessary.

Since the instructions relieve restrictions, they are within the exception in section 4 (c) of the Administrative Procedure Act and may properly be made effective less than 30 days after their publication in the FEDERAL REGISTER.

(Sec. 9, 37 Stat. 318; 7 U. S. C. 162. Interprets or applies sec. 8, 37 Stat. 318, as amended; 7 U. S. C. 161)

Done at Washington, D. C., this 13th day of June 1956.

[SEAL] E. D. BURGESS,
*Chief,*
*Plant Pest Control Branch.*

### Chapter VIII—Commodity Stabilization Service (Sugar), Department of Agriculture

PART 801—RULES OF PRACTICE AND PROCEDURE GOVERNING PROCEEDINGS TO ALLOT SUGAR QUOTAS, AND TO DETERMINE PROCESSES AND QUALITIES DISTINGUISHING RAW SUGAR AND DIRECT-CONSUMPTION SUGAR

REVISION OF PART

*Basis and purpose.* The regulations in §§ 801.1 through 801.20 issued pursuant to the Sugar Act of 1948, as amended, hereinafter referred to as the "act," prescribe the rules of practice and procedure governing proceedings, including the holding of public hearings, for the allotment of sugar quotas or prorations thereof pursuant to section 205 of the act, and for the issuance of determinations or regulations regarding processes and qualities of sugar pursuant to paragraph (n) of section 101 of the act, which paragraph has been added by section 4 of Public Law 545, 84th Congress, 2d Session.

This amendment of Part 801 extends its provisions to govern the proceedings authorized under section 101 (n) of the act so that the same rules of practice and procedure will apply thereto as apply to proceedings for allotment of quotas under section 205 of the act. This amendment also adds a new subparagraph (1) to § 801.4 (b) so that in accordance with the provisions of that section allotments may be adjusted to reflect changes in quotas that may arise under section 202 (a) (2) of the act through changes in total sugar requirements as determined by the Secretary. Subparagraphs in § 801.4 (b) formerly numbered (1) and (2) are renumbered (2) and (3), respectively. For clarity and convenient reference, the entire part is republished, as revised.

The provisions of section 205 of the Sugar Act of 1948, as amended, indicate that the Secretary's decision establishing allotments of a quota be made upon the record of the hearing involved. In such cases, the Administrative Procedure Act (60 Stat. 237, 5 U. S. C. 1001 et seq.) requires that certain procedures, as set forth therein, be followed with respect to the conduct of the hearing and the issuance of a decision. The rules of practice and procedure set forth in §§ 801.1 to 801.20 are designed to give effect to such required procedures in connection with a proceeding to allot a quota under section 205 of the Sugar Act. No provision is made in paragraph (n) of section 101 of the Sugar Act of 1948, as amended, which requires that the determinations or regulations of the Secretary authorized therein, be made on the record of the hearing involved. However, the rules of practice and procedure set forth in §§ 801.1 to 801.20 at this time seem suitable for making available all pertinent information necessary to assist the Secretary in promulgating the determinations or regulations authorized under paragraph (n) of section 101 of the Sugar Act of 1948, as amended.

Under the provisions of paragraph (n) of section 101 of the act, the Secretary of Agriculture, after notice and hearing, is authorized to make certain determinations which, to be effective, require that regulations setting forth such determinations be promulgated as soon as possible. The proceedings, including notice and hearing, preliminary to the issuance of such regulations cannot be undertaken, however, until rules of practice and procedure governing such proceedings have been established. Accordingly, it is found that the timely exercise of the authority vested in the Secretary by section 4 of Public Law 545, 84th Congress, 2d Session, requires that the rules of practice and procedure contained in §§ 801.1 to 801.20, inclusive, become effective 10 days after publication in the FEDERAL REGISTER.

By virtue of the authority vested in the Secretary of Agriculture by the Sugar Act of 1948, as amended (61 Stat. 922; 65 Stat. 318; Public Law 545, 84th Congress, 2d Session, 7 U. S. C. 1100 et seq.) and in accordance with the Administrative Procedure Act (60 Stat. 237, 5 U. S. C. 1001 et seq.), Part 801 is hereby amended to read as follows:

Sec.

801.1 Definitions.
801.2 Proceedings which are subject to this part.
801.3 Petitions for institution of proceedings.
801.4 Institution of proceedings.
801.5 Notice of hearing.
801.6 Docket number.
801.7 Presiding officer.
801.8 Motions and requests.
801.9 Conduct of the hearing.
801.10 Arguments and proposed findings and conclusions.
801.11 Certification of the transcript.
801.12 Copies of the transcript.
801.13 Administrator's recommended decision.
801.14 Submission to Secretary.
801.15 Decision by Secretary.
801.16 Hearing before Secretary.
801.17 Final determination or regulation.
801.18 Filing; extension of time; effective date of filing; and computation of time.
801.19 Discussion of issues, etc., of proceedings prohibited.
801.20 Revision or amendment of existing allotments.

AUTHORITY: §§ 801.1 to 801.20 issued under sec. 403, 61 Stat. 932; 7 U. S. C. 1153. Interpret or apply sec. 205, 61 Stat. 926, sec. 4, Pub. Law 545, 84th Cong.; 7 U. S. C. 1115.

§ 801.1 *Definitions.* As used in the regulations in this part:

(a) The term "act" means the Sugar Act of 1948, as amended (61 Stat. 922; 65 Stat. 318; Public Law 545, 84th Congress, 2d Session; 7 U. S. C. 1100 et seq.).

(b) The term "Department" means the United States Department of Agriculture.

(c) The term "Secretary" means the Secretary of Agriculture or any officer or employee of the Department to whom the Secretary has heretofore lawfully delegated, or to whom the Secretary may hereafter lawfully delegate, the authority to act in his stead.

(d) The term "Administrator" means the Administrator of the Commodity Stabilization Service of the Department.

(e) The term "Examiner" means any examiner in the Office of Hearing Examiners, United States Department of Agriculture.

(f) The term "proceeding" means a proceeding before the Secretary, arising under paragraph (n) of section 101, or section 205 of the act.

(g) The term "hearing" means that part of the proceeding which involves the submission of evidence.

(h) The term "presiding officer" means the examiner conducting a proceeding under the act.

(i) The term "Hearing Clerk" means the Hearing Clerk, United States Department of Agriculture, Washington, D. C.

(j) The term "FEDERAL REGISTER" means the publication provided for by the act of July 26, 1935 (49 Stat. 500), and acts supplementary thereto and amendatory thereof.

§ 801.2 *Proceedings which are subject to this part.* The provisions of this part set forth the rules of practice and procedure applicable to proceedings for the issuance by the Secretary of determinations and regulations, including amendments or revisions thereto, establishing:

(a) The allotment of any sugar quota or proration thereof as provided in section 205 of the act;

(b) The specific processes to which sugars are subjected which are sufficient to meet the requirements of paragraph (n) of section 101 of the act; or

(c) The sugars of specific qualities which are raw sugar within the meaning of paragraph (d), or direct-consumption sugar within the meaning of paragraph (e), of section 101 of the act.

§ 801.3 *Petitions for institution of proceedings.* Any interested person may petition the Secretary in writing for the issuance, amendment, or repeal of a determination made upon a proceeding which is subject to the provisions of this part. Such petition shall be filed with the Administrator and shall be accompanied by a written statement, in quadruplicate, setting forth the facts and reasons in support thereof. Upon receipt of such petition, the Administrator shall cause such investigation to be made and such consideration thereof to be given as, in his opinion, are warranted. If, after such investigation and consideration, the Administrator concludes that such petition should be denied, he shall give prompt notice of such denial, which shall be accompanied by a brief, simple statement of the reasons for such denial. If, after such investigation and consideration, the Administrator concludes that some action should be taken, he shall recommend that the Secretary institute proceedings.

§ 801.4 *Institution of proceedings.* (a) Whenever, pursuant to a petition filed under § 801.3, or on his own initiative, the Secretary (1) finds that the allotment of any quota or proration thereof is necessary to assure an orderly and adequate flow of sugar or liquid sugar in the channels of interstate or foreign commerce, or to prevent disorderly marketing or importation of sugar or liquid sugar, or to afford all interested persons an equitable opportunity to market sugar or liquid sugar; or (2) decides that it is necessary to determine whether specific processes to which sugars are subjected are sufficient to meet the requirements of paragraph (n) of section 101 of the act, or whether sugars of specific qualities are raw sugar within the meaning of paragraph (d), or direct-consumption sugar within the meaning of paragraph (e) of section 101 of the act, he shall institute a proceeding by issuing a notice of hearing.

(b) In any proceeding instituted pursuant to paragraph (a) of this section, for the allotment of a quota or proration thereof, the notice of hearing issued and the hearing held with respect thereto shall, where the notice of hearing so states, constitute the notice of hearing and the hearing upon which the Secretary may revise or amend the allotment of the quota or proration thereof for the purposes of (1) giving effect to any changes in quota made by the Secretary pursuant to the provisions of section 202 (a) (2) of the act, (2) allotting any additional quota resulting from proration of area deficits, or allotting any deficit in the allotment for any allottee, and (3) substituting revised estimates of data or final actual data for estimates of such data wherever estimates are used in the formulation of an allotment of a quota.

§ 801.5 *Notice of hearing*—(a) *Filing and giving notice.* (1) Upon the issuance of a notice of hearing by the Secretary, it shall be filed with the Hearing Clerk, who shall promptly mail a true copy thereof to each of the persons known to be interested in the proceeding. The Hearing Clerk shall give or cause to be given further notice of the hearing in the following manner:

(i) By publication of such notice in the FEDERAL REGISTER; and

(ii) By issuing a press release containing the complete text or a summary of the contents of such notice.

(2) Legal notice of the hearing shall be deemed to be given if notice is given in the manner provided in subparagraph (1) (i) of this paragraph; and failure to give notice in the manner otherwise provided in subparagraph (1) of this paragraph shall not affect the legality of the notice.

(b) *Proof of mailing or of giving notice.* Proof of the mailing of the notice of hearing or of other means of giving notice shall be by affidavit or certificate of the person mailing or giving the same. Such affidavit or certificate shall be filed with the Hearing Clerk and the filing thereof shall be noted on the docket of the proceeding.

(c) *Contents.* The notice of the hearing shall contain a reference to the authority under which the proceeding is proposed; shall define the scope of the hearing as specifically as may be practicable; shall contain either the terms or substance of the proposed determination or regulation, or a description of the subjects and issues involved; and shall state the time and place of such hearing and the place where copies of any proposal may be obtained or examined. The time of the hearing shall not be less than ten days after the date of publication of the notice in the FEDERAL REGISTER, unless the Secretary shall determine that an emergency exists which requires a shorter period of notice, in which case the period of notice shall be that which the Secretary may determine to be reasonable in the circumstances.

§ 801.6 *Docket Number.* Each proceeding, immediately following its institution, shall be assigned a docket number by the Hearing Clerk, and thereafter the proceeding shall be referred to by such number.

§ 801.7 *Presiding officer*—(a) *Assignment.* No presiding officer who has any pecuniary interest in the outcome of a proceeding shall serve as a presiding officer in such proceeding.

(b) *Powers.* Subject to review by the Secretary, as provided elsewhere in this part, the presiding officer shall have power to:

(1) Rule upon motions and requests;

(2) Change the time and place of hearing, and adjourn the hearing from time to time or from place to place;

(3) Administer oaths and affirmations and take affidavits;

(4) Examine and cross-examine witnesses and receive evidence;

(5) Admit or exclude evidence;

(6) Hear oral argument on facts or law;

(7) Hold conferences for the simplification of the issues by consent of the parties;

(8) Do all acts and take all measures necessary for the maintenance of order and the efficient conduct of the proceeding.

(c) *Who may act in absence of presiding officer.* In case of the absence of the presiding officer or his inability to act, the powers and duties to be performed by him under this part may be assigned to any other presiding officer without abatement of the proceeding unless otherwise ordered by the Secretary.

(d) *Disqualification of presiding officer.* The presiding officer may, at any time, withdraw as presiding officer in a proceeding if he deems himself to be disqualified. Upon the filing by an interested person in good faith of a timely and sufficient affidavit of personal bias or disqualification of a presiding officer, the Secretary shall determine the matter as a part of the record and decision in the proceeding, after making such investigation or holding such hearings, or both, as he may deem appropriate in the circumstances.

§ 801.8 *Motions and requests*—(a) *General.* All motions and requests shall be filed with the Hearing Clerk, except that those made during the course of the hearing may be filed with the presiding officer or may be stated orally and made a part of the transcript. Except as provided in § 801.18, such motions and requests shall be addressed to, and ruled on by, the presiding officer if made prior to his certification of the transcript pursuant to § 801.11 or by the Secretary if made thereafter.

(b) *Certification to Secretary.* The presiding officer may, in his discretion, submit or certify to the Secretary for decision any motion, request, objection, or other question addressed to the presiding officer.

§ 801.9 *Conduct of the hearing*—(a) *Time and place.* The hearing shall be held at the time and place fixed in the notice of hearing, unless the presiding officer shall have changed the time or place, in which event the presiding officer shall file with the Hearing Clerk a notice of such change, which notice shall be mailed and published in the same manner as hereinbefore provided in § 801.5 (a) (relating to the mailing and the publication of the notice of hearing): *Provided,* That, if the change in time or place of hearing is made less than 5 days prior to the date previously fixed for the hearing, the presiding officer, either in addition to or in lieu of causing the notice of the change to be given as aforesaid, shall announce, or cause to be announced, the change at the time and place previously fixed for the hearing.

(b) *Appearances*—(1) *Representation*—(i) *Department.* The Department shall be represented at the hearing by the Director of the Sugar Division, Commodity Stabilization Service, or such employee of that Division as the Director may designate, who shall be heard with respect to matters relevant and material to the proceeding.

(ii) *Interested persons.* At the hearing, any interested person shall be given an opportunity to appear, either in person or through his authorized counsel or representative, and to be heard with respect to matters relevant and material to the proceeding. If such person desires to be heard through his counsel or representative, such person or such counsel or representative shall, before proceeding to testify or otherwise to participate in the hearing, state for the record the authority to act as such counsel or representative, and the names and addresses and occupations of such person and such counsel or representative. Any such person or such counsel or representative shall give such other information respecting his appearance as the presiding officer may request.

(2) *Debarment of counsel or representative.* (i) Whenever, while a proceeding is pending before him, the presiding officer finds that a person, acting as counsel or representative for any interested person participating in the proceeding, is guilty of unethical or unprofessional conduct, the presiding officer may order that such person be precluded from further acting as counsel or representative in such proceeding. An appeal to the Secretary may be taken from any such order, but the proceeding shall not be delayed or suspended pending disposition of the appeal: *Provided,* That, the presiding officer may suspend the proceeding for a reasonable time for the purpose of enabling the client to obtain other counsel or other representative.

(ii) In case the presiding officer has ordered that a person be precluded from further acting as counsel or representative in the proceeding, the presiding officer, within a reasonable time thereafter, shall submit to the Secretary a report of the facts and circumstances surrounding such order and shall recommend what action the Secretary should take respecting the appearance of such person as counsel or representative in other proceedings before the Secretary. Thereafter the Secretary may, after notice and an opportunity for hearing, issue such order, respecting the appearance of such person as counsel or representative in proceedings before the Secretary, as the Secretary finds to be appropriate.

(3) *Failure to appear.* If any interested person, after being duly notified, fails to appear at the hearing, he shall be deemed to have waived the right to be heard in the proceeding. Failure to appear at a hearing shall not be deemed to be a waiver of the right of any interested person otherwise to participate in the proceeding.

(c) *Order of procedure.* (1) At the beginning of the hearing, the presiding officer shall have noted on the record his designation as presiding officer and the notice of the hearing as filed with the Division of the Federal Register. This shall be done by filing as an exhibit for the record a copy of the FEDERAL REGISTER containing such designation and such notice. If the designation has not been published in the FEDERAL REGISTER, the presiding officer shall file as an exhibit a copy of the order of the Secretary designating him to preside.

(2) Evidence shall then be received with respect to the matters specified in the notice of hearing. Unless the presiding officer determines otherwise, the representative of the Department shall proceed first at the hearing. Such representative shall submit for the record such data and other information available to the Department which he deems relevant and material to the subjects and issues involved in the proceeding. The representative of the Department shall, unless he states for the record that he deems such action impractical, unnecessary, or contrary to the public interest, also present a proposed determination of specific processes or qualities of sugar, or a method or methods of allotment, together with a statement of the facts and reasons in support thereof.

(d) *Evidence*—(1) *In general.* The hearing shall be publicly conducted and the testimony given at the hearing shall be reported verbatim. Every witness shall, before proceeding to testify, be sworn or make affirmation. Interested persons shall be permitted to present oral and documentary evidence, to submit rebuttal evidence, and to conduct such cross-examination as may be required for a full and true disclosure of the facts. When necessary, in order to prevent undue prolongation of the hearing, the presiding officer may limit the number of times any witness may testify to the same matter, or the amount of corroborative or accumulative evidence. The presiding officer shall, insofar as practicable, exclude evidence which is immaterial, irrelevant, or unduly repetitious or which is not of the sort upon which responsible persons are accustomed to rely.

(2) *Objections.* (i) If a person objects to the admission or rejection of any evidence or to the limitation or the scope of any examination or cross-examination, he shall state briefly the grounds of such objection, whereupon an automative exception will follow if the objection is over-ruled by the presiding officer. The transcript shall not include argument or debate thereon except as ordered by the presiding officer. The ruling of the presiding officer on any objection shall be a part of the transcript.

(ii) Only objections made before the presiding officer may subsequently be relied upon in the proceeding.

(3) *Proof and authentication of official records or documents.* An official record or document, when admissible for any purpose, shall be admissible as evidence without the production of the person who made or prepared the same. Such record or document shall, in the discretion of the presiding officer, be evidenced by an official publication thereof or by a copy attested by the person having the legal custody thereof and accompanied by a certification that such person has the custody.

(4) *Exhibits.* All written statements, charts, tabulations, or similar data offered in evidence at the hearing shall, after identification by the proponent and upon satisfactory showing of the authenticity, relevancy, and materiality of the contents thereof, be numbered as exhibits and received in evidence and made a part of the record. Such exhibits shall be submitted in quadruplicate and in documentary form. In case the required number of copies is not made available, the presiding officer shall exercise his discretion as to whether said exhibits shall, when practicable, be read in evidence or whether additional copies shall be required to be submitted within a time to be specified by the presiding officer. Where the testimony of a witness refers to a statute, or to a report or document, the presiding officer, after inquiry relating to the identification of such statute, report or document, shall determine whether the same shall be produced at the hearing and physically be made a part of the evidence as an exhibit, or whether it shall be incorporated into the evidence by reference. Where relevant and material matter offered in evidence is embraced in a report or document containing immaterial or irrelevant matter, such immaterial or irrelevant matter shall be excluded and shall be segregated insofar as practicable, subject to the direction of the presiding officer.

(5) *Official notice.* Official notice may be taken of such matters as are judicially noticed by the courts of the United States and of any other matter of technical, scientific, or commercial fact of established character: *Provided,* That the interested persons shall be given adequate notice, at the hearing or subsequent thereto, of matters so noticed and shall be given adequate opportunity to show that such facts are inaccurate or are erroneously noticed.

(6) *Offer of proof.* Whenever evidence is excluded from the record, the person offering such evidence may make an offer of proof, which shall be included in the transcript. The offer of proof shall consist of a brief statement describing the evidence to be offered. If the evidence consists of a brief oral statement or of an exhibit, it shall be inserted into the transcript in toto. In such event, it shall be considered a part of the transcript if the Secretary decides that the presiding officer's ruling in excluding the evidence was erroneous. The presiding officer shall not allow the insertion of such evidence in toto if the taking of such evidence will consume a considerable length of time at the hearing. In the latter event, if the Secretary decides that the presiding officer erred in excluding the evidence and that such error was substantial, the hearing shall be reopened to permit the taking of such evidence.

§ 801.10 *Arguments and proposed findings and conclusions—*(a) *Oral argument before presiding officer.* Oral argument before the presiding officer shall be in the discretion of the presiding officer. Such argument when permitted may be limited by the presiding officer to an extent that he finds necessary for the expeditious disposition of the proceeding and shall be reduced to writing and made a part of the transcript.

(b) *Briefs, proposed findings, and conclusions.* The presiding officer shall announce at the hearing a reasonable period of time within which interested persons may file with the Hearing Clerk written arguments or briefs, and proposed findings and conclusions, based upon the evidence received at the hearing, citing, where practicable, page or pages of the transcript of the testimony where such evidence appears. Factual material other than that adduced at the hearing or subject to official notice shall not be alluded to therein, and in any case shall not be considered in the formulation of the determination or regulation made pursuant to a proceeding under this part. If the person filing a brief desires the Secretary to consider any objection made by such person to a ruling of the presiding officer, as hereinbefore provided in § 801.9 (d), he shall include in the brief a concise statement concerning each such objection, referring, where practicable, to the pertinent pages of the transcript.

§ 801.11 *Certification of the transcript.* The presiding officer shall notify the Hearing Clerk of the close of the hearing as soon as possible thereafter and of the time for filing written arguments, briefs, proposed findings and proposed conclusions, and shall furnish the Hearing Clerk with such other information as may be necessary. As soon as possible after the hearing, the presiding officer shall transmit to the Hearing Clerk an original and three copies of the transcript of the testimony and the original and all copies of the exhibits not already on file in the office of the Hearing Clerk. He shall attach to the original transcript of testimony his certificate stating that, to the best of his knowledge and belief, the transcript is a true transcript of the testimony given at the hearing except in such particulars as he shall specify; and that the exhibits transmitted are all of the exhibits as introduced at the hearing with such exceptions as he shall specify. A copy of such certificate shall be attached to each of the copies of the transcript of testimony. In accordance with such certificate, the Hearing Clerk shall note upon each copy of the transcript each correction detailed therein by adding or crossing out (but without obscuring the text as originally transcribed) at the appropriate place any words necessary to make the same conform to the correct meaning, as certified by the presiding officer.

§ 801.12 *Copies of the transcript.* A copy of the transcript shall be kept on file in the office of the Hearing Clerk where it shall be available for examination during official hours of business, but such copy shall remain the property of the Department and may not be removed from said office. If a personal copy of the transcript is desired, such copy may be obtained upon written application filed with the reporter and upon payment of fees at the rate (if any) provided in the contract between the reporter and the Secretary.

§ 801.13 *Administrator's recommended decision—*(a) *Preparation.* As soon as practicable following the termination of the period allowed for the filing of written arguments or briefs and proposed findings and conclusions, the Administrator shall file with the Hearing Clerk a recommended decision.

(b) *Contents.* The Administrator's recommended decision shall include (1) a preliminary statement containing a description of the history of the proceedings, a brief explanation of the material issues of fact, law or discretion presented on the record, and proposed findings and conclusions with respect to such issues as well as the reasons or basis therefor; (2) a ruling upon each proposed finding or conclusion submitted by interested persons; and (3) an appropriate proposed determination or regulation.

(c) *Exceptions to recommended decision.* Immediately following the filing of his recommended decision, the Administrator shall give notice thereof, and opportunity to file exceptions thereto, to all interested persons in the same manner as hereinbefore provided in § 801.5 (a) (relating to the giving of notice of the hearing). Within a period of time specified in such notice (to be fixed by the Administrator but not to exceed ten days) after the filing of the recommended decision with the Hearing Clerk, any interested person may then file with the Hearing Clerk exceptions to the Administrator's recommended decision and supporting reasons for such exceptions. Such exceptions shall be in writing, shall refer, where practicable, to the related pages of the transcript, and may suggest appropriate changes in the proposed determination or regulation.

(d) *Omission of recommended decision.* The procedure provided in this section may be omitted only if the Secretary finds on the basis of the record that due and timely execution of his functions imperatively and unavoidably requires such omission.

§ 801.14 *Submission to Secretary.* Upon the expiration of the period allowed for filing exceptions to the recommended decision, or upon request of the Secretary, the Hearing Clerk shall transmit to the Secretary the Record of the proceeding. Such record shall include (a) all motions and requests filed with the Hearing Clerk and rulings thereon; (b) the certified transcript; (c) any proposed findings or conclusions or written arguments or briefs that may have been filed; and (d) the Administrator's recommended decision, if any, and such exceptions thereto as may have been filed.

§ 801.15 *Decision by Secretary.* After due consideration of the entire record of the proceeding, the Secretary shall render a decision. Such decision shall be based upon and made in accordance with reliable, probative, and substantial evidence adduced at the hearing, and shall include (a) a statement of his findings and conclusions, as well as the reasons or basis therefor, upon all the material issues of fact, law, or discretion presented on the record; (b) a ruling upon each proposed finding and proposed conclusion not previously ruled upon in the record; (c) a ruling upon each exception filed by interested persons; and (d) a final determination or regulation.

§ 801.16 *Hearing before Secretary.* The Secretary may act in the place and stead of a presiding officer in any proceeding. When he so acts the Hearing Clerk shall transmit the record to the Secretary at the expiration of the period provided for the filing of written arguments or briefs and proposed findings and conclusions, and the Secretary shall thereupon, after due consideration of the entire record, issue his final decision in the proceeding: *Provided,* That he may issue a tentative decision, in which event the parties shall be afforded an opportunity to file exceptions and supporting reasons therefor before the issuance of the final decision.

§ 801.17 *Final determination or regulation—*(a) *Effective date.* No final determination or regulation shall become effective less than 30 days after its publication in the FEDERAL REGISTER, unless the Secretary, upon good cause found and published with such determination or regulation, fixes an earlier effective date therefor.

(b) *Notice of issuance.* After issuance of a determination or regulation, the same shall be filed with the Hearing Clerk and notice thereof, together with notice of the effective date, shall be given in the same manner as hereinbefore provided in § 801.5 (a) (relating to the giving of notice of hearing).

§ 801.18 *Filing; extension of time; effective date of filing; and computation of time—*(a) *Filing; number of copies.* Except as provided otherwise herein, all documents or papers required or authorized by the foregoing provisions of this part to be filed with the Hearing Clerk shall be filed in quadruplicate. Any document or paper, so required or authorized to be filed with the Hearing Clerk, shall, during the course of an oral hearing, be filed with the presiding officer.

(b) *Extension of time.* The time for the filing of any document or paper required or authorized by the foregoing provisions of this part to be filed may be extended by the presiding officer (before the record is certified by the presiding officer) or by the Administrator (after the record is so certified by the presiding officer but before it is transmitted to the Secretry), or by the Secretary (after the record is transmitted to the Secretary), upon request filed, and if, in the judgment of the presiding officer, Administrator, or the Secretary, as the case may be, there is good reason for the extension. All rulings made pursuant to this paragraph shall be filed with the Hearing Clerk.

(c) *Effective date of filing.* Any document or paper required or authorized by the foregoing provisions of this part to be filed shall be deemed to be filed when it is postmarked or when it is received by the Hearing Clerk.

(d) *Computation of time.* Sundays and Federal holidays shall be included in computing the time allowed for the filing of any document or paper: *Provided,* That when such time expires on a Sunday or legal holiday, such period shall be extended to include the next following business day.

§ 801.19 *Discussion of issues, etc., of proceeding prohibited.* Except as may be provided otherwise in this part, no officer or employee of the Department shall, following the close of the hearing in a proceeding and prior to the issuance of the final determination or regulation therein, discuss the issues, merits, or evidence involved in the proceeding with any person interested in the result of the proceeding or with any representative of such persons: *Provided,* That the provisions of this section shall not preclude an officer or employee who has been duly assigned to, or who has supervision over, a proceeding from discussing with interested persons or their representatives matters of procedure in connection with such proceeding. Insofar as the provisions of this section are inconsistent with the provisions of section 448 of the publication entitled "Regulations of the U. S. Department of Agriculture," the provisions of this section shall prevail.

§ 801.20 *Revision or amendment of existing allotments.* The provisions of this part shall be applicable to a proceeding for the purpose of revising or amending any existing allotment determination.

Done at Washington, D. C., this 13th day of June 1956. Witness my hand and the seal of the Department of Agriculture.

[SEAL] TRUE D. MORSE,
*Acting Secretary.*

## Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders), Department of Agriculture

[Valencia Orange Reg. 73]

PART 922—VALENCIA ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

LIMITATION OF HANDLING

§ 922.373 *Valencia Orange Regulation 73—*(a) *Findings.* (1) Pursuant to Order No. 22 (7 CFR Part 922), regulating the handling of Valencia oranges grown in Arizona and designated part of California, effective March 31, 1954, under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and upon the basis of the recommendations and information submitted by the Valencia Orange Administrative Committee, established under the said order, and upon other available information, it is hereby found that the limitation of handling of such Valencia oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The Valencia Orange Administrative Committee held an open meeting on June 14, 1956, after giving due notice thereof, to consider supply and market conditions for Valencia oranges and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein was promptly submitted to the Department after such meeting was held; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such Valencia oranges; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period herein specified; and compliance with this section will not require any special preparation on the part of persons subject thereto which cannot be completed on or before the effective date hereof.

(b) *Order.* (1) The quantity of Valencia oranges grown in Arizona and designated part of California which may be handled during the period beginning at 12:01 a. m., P. s. t., June 17, 1956, and ending at 12:01 a. m., P. s. t., June 24, 1956, is hereby fixed as follows:

(i) District 1: Unlimited movement;

(ii) District 2: 831,600 cartons;

(iii) District 3: Unlimited movement.

(2) Valencia oranges handled pursuant to the provisions of this section shall be subject to any size restrictions applicable thereto which have heretofore been issued on the handling of such oranges and which are effective during the period specified herein.

(3) As used in this section, "handled," "handler," "District 1," "District 2," and "District 3," have the same meaning as when used in said order; and "carton" means the standard one-half orange, grapefruit or lemon box set forth as standard container number 58 in section 828.83, as amended, of the Agricultural Code of California.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Dated: June 15, 1956.

[SEAL] S. R. SMITH,
*Director, Fruit and Vegetable Division, Agricultural Marketing Service.*

[Lemon Reg. 646]

## PART 953—LEMONS GROWN IN CALIFORNIA AND ARIZONA

### LIMITATION OF SHIPMENTS

§ 953.753 *Lemon Regulation 646*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 53, as amended (7 CFR Part 953; 20 F. R. 8451), regulating the handling of lemons grown in the State of California or in the State of Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and upon the basis of the recommendation and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of the quantity of such lemons which may be handled, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. Shipments of lemons, grown in the State of California or in the State of Arizona, are currently subject to regulation pursuant to said amended marketing agreement and order; the recommendation and supporting information for regulation during the period specified herein was promptly submitted to the Department after an open meeting of the Lemon Administrative Committee on June 13, 1956, such meeting was held, after giving due notice thereof to consider recommendations for regulation, and interested persons were afforded an opportunity to submit their views at this meeting; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such lemons; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period hereinafter specified; and compliance with this section will not require any special preparation on the part of persons subject thereto which cannot be completed by the effective time thereof.

(b) *Order.* (1) The quantity of lemons grown in the State of California or in the State of Arizona which may be handled during the period beginning at 12:01 a. m., P. s. t., June 17, 1956, and ending at 12:01 a. m., P. s. t., June 24, 1956, is hereby fixed as follows:

(i) District 1: Unlimited movement;
(ii) District 2: 511,500 cartons;
(iii) District 3: Unlimited movement.

(2) As used in this section, "handled," "District 1," "District 2," and "District 3" have the same meaning as when used in the said amended marketing agreement and order; and "carton" means the standard one-half orange, grapefruit or lemon box set forth as standard container number 58 in section 828.83, as amended, of the Agricultural Code of California.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Dated: June 14, 1956.

[SEAL] S. R. SMITH,
*Director, Fruit and Vegetable Division, Agricultural Marketing Service.*

[Lime Order 1, Amdt. 6]

## PART 1001—LIMES GROWN IN FLORIDA

### QUALITY AND SIZE REGULATION

*Findings.* Pursuant to the marketing agreement and Order No. 101 (7 CFR Part 1001; 20 F. R. 4179) regulating the handling of limes grown in Florida, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.; 68 Stat. 906, 1047), and upon the basis of the recommendations of the Florida Lime Administrative Committee, established under the aforesaid marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of limes, as hereinafter provided, will tend to effectuate the declared policy of the act.

It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this amendment until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) in that, as hereinafter set forth, the time intervening between the date when information upon which this amendment is based became available and the time when this amendment must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective not later than June 17, 1956. Shipments of designated varieties of Florida limes are currently subject to quality regulation pursuant to Lime Order 1, as amended (§ 1001.301; 20 F. R. 4711, 4897, 6676; 21 F. R. 1819, 2650, 3872), and, unless sooner modified or terminated, will continue to be so regulated until May 1, 1957; determinations as to the need for, and extent of, continued regulation of Florida lime shipments must await the development of the crop and the availability of information on the demand for such fruit; the recommendation and supporting information for regulation of lime shipments subsequent to June 16, 1956, and in the manner herein provided, were promptly submitted to the Department after an open meeting of the Florida Lime Administrative Committee on June 12; such meeting was held to consider recommendations for regulation, after giving due notice of such meeting, and interested persons were given an opportunity to submit their views at this meeting; the provisions of this amendment are identical with the aforesaid recommendation of the committee, and information concerning such provisions has been disseminated among handlers of Florida limes; it is necessary, in order to effectuate the declared policy of the act, to make this amendment effective during the period hereinafter set forth; and compliance with this amendment will not require any special preparation on the part of the persons subject thereto which cannot be completed by the effective time hereof.

It is, therefore, ordered that the provisions in paragraph (b) of § 1001.301 (Lime Order 1, as amended; 20 F. R. 4711, 4897, 6676; 21 F. R. 1819, 2650, 3872) are hereby amended to read as follows:

(b) *Order.* (1) During the period beginning at 12:01 a. m., e. s. t., June 17, 1956, and ending at 12:01 a. m., e. s. t., May 1, 1957, no handler shall handle:

(i) Any limes, including the group known as true limes (also known as Mexican, West Indian, and Key limes and by other synonyms) and the group known as large fruited or Persian limes (including Tahiti, Bearss, and similar varieties), grown in the State of Florida, except the area west of the Suwannee River, unless such limes grade at least U. S. No. 2: *Provided,* That the requirement of such grade that the limes shall have good green color shall be applicable only to limes known as large fruited or Persian limes (including Tahiti, Bearss, and similar varieties).

(ii) Any limes, grown in the State of Florida, except the area west of the Suwannee River, of the group known as large fruited or Persian limes (including Tahiti, Bearss, and similar varieties) which are more than slightly shriveled: *Provided,* That any portion of the tolerance specified in the U. S. No. 2 grade may be used for limes failing to meet this requirement; or

(iii) Any container of limes, grown in the State of Florida, except the area west of the Suwannee River, of the group known as large fruited or Persian limes (including Tahiti, Bearss, and similar varieties) which contains more than five percent, by count, of limes smaller than 1¾ inches in diameter ("diameter" to be measured midway at a right angle to a straight line running from the stem to the blossom end of the fruit), unless the limes in such container have an average juice content of not less than 46 percent, by volume.

(2) As used in this section "handler" and "handle" shall have the same meaning as when used in said marketing agreement and order; the term "U. S. No. 2" and "good green color" shall have the same meaning as when used in the United States Standards for Persian (Tahiti) Limes, as recodified (§ 51.1001 of this title; 18 F. R. 7107); and the term "slightly shriveled" shall mean that the skin of the lime is slightly wrinkled or wilted from loss of moisture.

*Effective time.* The provisions of this amendment shall become effective at 12:01 a. m., e. s. t., June 17, 1956.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Dated: June 14, 1956.

[SEAL] S. R. SMITH,
*Director, Fruit and Vegetable Division, Agricultural Marketing Service.*

## PART 1067—AVOCADOS

### IMPORTATION

§ 1067.3 *Avocado Regulation No. 3.* (a) On and after the effective time of this section, the importation into the United States of any avocados is prohibited unless:

(1) During the period beginning at 12:01 a. m., e. s. t., June 20, 1956, and ending at 12:01 a. m., e. s. t., July 16, 1956, (i) such avocados grade at least No. 2 grade, as defined in § 969.130 (c) [1] of the supplementing rules and regulations, as amended (21 F. R. 2409), effective under the marketing agreement and Order No. 69 (7 CFR Part 969; 20 F. R. 4177) regulating the handling of avocados grown in South Florida, and (ii) the individual fruit in each lot of such avocados weighs at least 12 ounces: *Provided,* That not to exceed 10 percent, by count, of the individual fruit in each lot may weigh less than 12 ounces but not less than 10 ounces, and not to exceed double such tolerance percentage shall be permitted for an individual container in a lot if the entire lot is within the tolerance;

(2) On and after 12:01 a. m., e. s. t., July 16, 1956, (i) such avocados grade at least No. 2 grade, as set forth in subdivision (i) of subparagraph (1) of this paragraph, and (ii) the individual fruit in each lot of such avocados weighs at least 10 ounces: *Provided,* That not to exceed 10 percent, by count, of the individual fruit in each lot may weigh less than 10 ounces but not less than 8 ounces and not to exceed double such tolerance percentage shall be permitted for an individual container in a lot if the entire lot is within the tolerance.

(3) Each such importation is made in conformance with the general regulations (7 CFR Part 1060; 19 F. R. 7707, 8012) applicable to the importation of listed commodities and the requirements of this section; and

(4) Notwithstanding the provisions of subparagraphs (1) (ii) and (2) (ii) of this paragraph that all avocados imported must meet the specified weight requirements, any person may import any lot of avocados if (i) the exterior seed coat of the individual fruit is of a brown color characteristic of a mature avocado, or (ii) such avocados, when mature, normally change color to any shade of red or purple and any portion of the skin of the individual fruit has changed to the color normal for that fruit when mature.

(b) Inspection by the Federal or Federal-State Inspection Service, or such other governmental inspection service as may be designated or approved by the Administrator, with appropriate evidence thereof in the form of an official inspection certificate, issued by the respective service, applicable to the particular shipment of avocados, is required on all imports of avocados pursuant to § 1060.3 *Eligible imports* of this chapter.

(c) Inspection certificates shall cover only the quantity of avocados that is being imported at a particular port of entry by a particular importer.

(d) The inspection performed, and certificates issued, by the Federal or Federal-State Inspection Service shall be in accordance with the rules and regulations of the Department governing the inspection and certification of fresh fruits, vegetables, and other products (7 CFR Part 51). The cost of any inspection and certification shall be borne by the applicant therefor.

(e) Each inspection certificate issued with respect to any avocados to be imported into the United States shall set forth, among other things:

(1) The date and place of inspection;
(2) The name of the shipper, or applicant;
(3) The name of the importer (consignee);
(4) The commodity inspected;
(5) The quantity of the commodity covered by the certificate;
(6) The principal identifying marks on the containers;
(7) The railroad car initials and number, the truck and trailer license number, the name of the vessel, or other identification of the shipment; and
(8) The following statement, if the facts warrant: Meets U. S. import requirements under section 8e of the Agricultural Marketing Agreement Act of 1937.

(f) Notwithstanding any other provision of this section, any importation of avocados which, in the aggregate, does not exceed 55 pounds may be imported without regard to the restrictions specified herein.

(g) It is hereby determined, on the basis of the information currently available, that the requirements set forth in this section are comparable to the maturity and quality regulations (Avocado Order 12, 21 F. R. 3307; and Avocado Order 13, 21 F. R. 3488) now in effect for avocados grown in South Florida.

(h) The provisions of Avocado Regulation No. 1, as amended (§ 1067.1; 20 F. R. 3793, 4898), and the provisions of Avocado Regulation No. 2, as amended (§ 1067.2; 20 F. R. 4149, 4461, 4898), are hereby terminated as of the effective date of this section.

(Sec. 401, 68 Stat. 907, as amended; 7 U. S. C. 608e-1)

It is hereby found that it is impracticable and contrary to the public interest to postpone the effective time of this regulation beyond that hereinafter specified (5 U. S. C. 1001 et seq.) because (a) Maturity and quality restrictions governing the shipment of avocados produced in South Florida are now in effect and the requirements of section 8e of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.; 68 Stat. 906, 1047), makes such import regulation mandatory; (b) such domestic and import restrictions should become effective at as near the same time as is reasonably practicable; (c) notice that regulation of the imports of avocados was being considered was published in the FEDERAL REGISTER (21 F. R. 3328; 3579) and no written data, views, or arguments in connection therewith were received within the prescribed time; (d) compliance with this import regulation will not require any special preparation which cannot be completed by the effective time; (e) notice hereof in excess of three days, the minimum that is prescribed by said section 8e, is given with respect to this import regulation; and (f) such notice is hereby determined, under the circumstances, to be reasonable.

Done at Washington, D. C., this 15th day of June 1956, to become effective at 12:01 a. m., e. s. t., June 20, 1956.

[SEAL] S. R. SMITH,
*Director, Fruit and Vegetable Division, Agricultural Marketing Service.*

[F. R. Doc. 56-4827; Filed, June 15, 1956; 11:35 a. m.]

[1] Copies of said § 969.130, as amended, may be obtained by writing Mr. William B. Cantrell, c/o Agricultural Attache, American Embassy, Havana, Cuba, or the Fruit and Vegetable Division, Agricultural Marketing Service, United States Department of Agriculture, Washington 25, D. C.

# PROPOSED RULE MAKING

## DEPARTMENT OF AGRICULTURE

### Agricultural Marketing Service

### [ 7 CFR Part 29 ]

TOBACCO INSPECTION

ANNOUNCEMENT OF REFERENDA IN CONNECTION WITH PROPOSED DESIGNATIONS UNDER TOBACCO INSPECTION ACT OF TOBACCO AUCTION MARKETS OF SWAINSBORO, GEORGIA, THOMASVILLE, GEORGIA, AND MADISON, FLORIDA

Pursuant to the provisions of The Tobacco Inspection Act (7 U. S. C. 511 et seq.) and in accordance with the applicable regulations (7 CFR 29.74) issued thereunder by the Secretary, notice is given that referenda of tobacco growers will be conducted from June 21 through June 23, 1956, to determine whether growers favor the designations of the Swainsboro, Georgia, Thomasville, Georgia, and Madison, Florida, tobacco auction markets for free and mandatory inspection of tobacco sold on these markets.

Growers who sold tobacco on the aforesaid markets during the 1955 marketing season shall be eligible to vote in the referendum relevant to the market on which their sales were accomplished. Ballots for use in said referenda will be mailed to all eligible voters insofar as their names and addresses are known. Eligible voters who do not receive ballots by mail may obtain them from the county agent or the office of the county ASC committee at the above points.

All completed ballots shall be mailed to the Tobacco Division, Agricultural Marketing Service, United States Department of Agriculture, P. O. Box 549, Raleigh, North Carolina, and, in order to be counted in said referendum, must be postmarked not later than midnight, June 23, 1956.

Done at Washington, D. C., this 13th day of June 1956.

[SEAL] ROY W. LENNARTSON,
*Deputy Administrator.*

[F. R. Doc. 56-4747; Filed, June 15, 1956; 8:46 a. m.]

### [ 7 CFR Part 984 ]

WALNUTS GROWN IN CALIFORNIA, OREGON, AND WASHINGTON

SIZE GRADE SPECIFICATIONS

Notice is hereby given that the Department is considering the issuance of an amendment to the Administrative rules and regulations, as amended (7 CFR 984.401 et seq.; 20 F. R. 6675), heretofore issued pursuant to the provisions of Marketing Agreement No. 105 and Order No. 84, as amended (7 CFR Part 984; 20 F. R. 5387), regulating the handling of walnuts grown in California, Oregon, and Washington. Said marketing agreement and order are effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.).

All interested persons who desire to submit written data, views, or arguments for consideration in connection with the proposals should file the same with the Director, Fruit and Vegetable Division, Agricultural Marketing Service, United States Department of Agriculture, Washington 25, D. C., not later than 12 days after publication of this notice in the FEDERAL REGISTER.

The Walnut Control Board, the administrative agency operating the aforesaid agreement and order, at its April 17, 1956, meeting in San Francisco, California, unanimously passed a resolution recommending modifications of the size grade specifications for mechantable unshelled walnuts that are set forth in § 984.402 (a) and § 984.403 (a) of the aforesaid Administrative rules and regulations. Such specifications are effective pursuant to § 984.43.

The Board recommended that the minimum diameter requirements for walnuts of certain size classifications be reduced. The Board's recommendation is based on evidence that there has been a shift in the production of walnut varieties so that the more oval types, particularly the Franquette variety, now comprise a larger percentage of the crop than formerly. A Franquette, or a walnut of similar type, has a greater volume than a shorter walnut of the same diameter. The Board believes that the increase in proportion of Franquette walnuts in the crop justifies the recommended changes. Data covering about 80 to 85 percent of the merchantable walnut production of each of the crops of 1951 through 1955 show that for the Franquette variety about 45 percent graded Large size as compared with 67 percent for all other varieties. These data indicate that about 35 percent of the 1955 production of merchantable walnuts was Franquette variety. The claim that the proportion of the Franquette variety is increasing and that the Placentia, a rounder type variety, is decreasing is substantiated by reports of the California Crop and Livestock Reporting Service which show that the bearing acreage of the Franquette variety increased from 16 percent of the total walnut bearing acreage in 1945 to 26 percent in 1954, and during the same period Placentia bearing acreage decreased from 36 percent of the total bearing acreage to 18 percent. In two of the last three marketing years the percentage of Large size in the merchantable production has approximated 52 percent, compared with the average for 1936–45 of 63 percent. The Board's view is that a reduction in the minimum diameter specification of Large size would result in a higher percentage of Large size walnuts more in line with the historical size-out of the crop.

The proposed reduction in the respective minimum diameter for Medium and Jumbo size walnuts as well as in the maximum diameters for Medium and Baby size walnuts are designed to effect appropriate conforming changes in the various size grade classifications. Estimates presented at the Board meeting indicated that if the proposed size modifications had been in effect 1955–56 approximately 7 percent more of the merchantable production would have classified as Large size.

Therefore, it is proposed that § 984.402 (a) and § 984.403 (a) of the Administrative rules and regulations, as amended (7 CFR 984.401 et seq.; 20 F. R. 6675), be amended to read respectively, as follows:

§ 984.402 *Pack specifications for merchantable (unshelled) walnuts, including minimum standards of size, quality and maturity; (part I) for walnuts produced in California*—(a) *Size grade specifications.* To be certified as merchantable, any lot of walnuts must meet the specifications of one of the following size classifications: *Provided,* That any lot of walnuts which the Walnut Control Board finds will be used solely for shelling, and which is subsequently used solely for that purpose, may be certified with respect to size, at the option of the particular handler, without reference to such size classifications, if not over 3 percent, by count, pass through a round opening $^{66}/_{64}$ inch in diameter.

(1) *Mammoth Size.* Walnuts of which not over 12 percent, by count, pass through a round opening $^{96}/_{64}$ inches in diameter.

(2) *Jumbo Size.* Walnuts of which not over 12 percent, by count, pass through a round opening $^{86}/_{64}$ inches in diameter.

(3) *Large Size.* Walnuts of which not over 12 percent, by count, pass through a round opening $^{77}/_{64}$ inches in diameter, except that, for walnuts of the Eureka variety and type, such limiting dimension as to diameter shall be $^{76}/_{64}$ inches.

(4) *Medium Size.* Walnuts of which at least 88 percent, by count, pass through a round opening $^{77}/_{64}$ inches in diameter and of which not over 12 percent, by count, pass through a round opening $^{73}/_{64}$ inches in diameter.

(5) *Standard Size.* Walnuts of which not over 12 percent, by count, pass through a round opening $^{73}/_{64}$ inches in diameter. This size is customarily obtained when lots of walnuts are graded for removal of Baby Size.

(6) *Baby Size.* Walnuts of which at least 88 percent, by count, pass through a round opening $^{73}/_{64}$ inches in diameter and of which not over 10 percent, by count, pass through a round opening $^{66}/_{64}$ inch in diameter.

§ 984.403 *Pack specifications for merchantable (unshelled) walnuts, including minimum standards of size, quality and maturity; (part II) for walnuts produced in Oregon and Washington*—(a) *Size grade specifications.* To be certified as merchantable, any lot of walnuts must meet the specifications of one of the following size classifications: *Provided,* That any lot of walnuts which the Walnut Control Board finds will be used solely for shelling, and which is subsequently used solely for that purpose, may be certified with respect to size, at the option of the particular handler, without reference to such size classifications, if not over 3 percent, by count, pass through a round opening $^{66}/_{64}$ inch in diameter.

(1) *Mammoth Size.* Walnuts of which not over 12 percent, by count, pass through a round opening $^{96}/_{64}$ inches in diameter.

(2) *Jumbo Size.* Walnuts of which not over 12 percent, by count, pass through a round opening $^{86}/_{64}$ inches in diameter.

(3) *Large Size.* Walnuts of which not over 12 percent, by count, pass through a round opening $^{77}/_{64}$ inches in diameter.

(4) *Medium Size.* Walnuts of which at least 88 percent, by count, pass through a round opening $^{77}/_{64}$ inches in diameter and of which not over 12 percent, by count, pass through a round opening $^{73}/_{64}$ inches in diameter.

(5) *Standard Size.* Walnuts of which not over 12 percent, by count, pass through a round opening $^{73}/_{64}$ inches in diameter. This size is customarily obtained when lots of walnuts are graded for removal of Baby Size.

(6) *Baby Size.* Walnuts of which at least 88 percent, by count, pass through a round opening $^{73}/_{64}$ inches in diameter and of which not over 10 percent, by count, pass through a round opening $^{66}/_{64}$ inch in diameter.

Done at Washington, D. C., this 13th day of June 1956.

[SEAL] FLOYD F. HEDLUND,
*Acting Director,*
*Fruit and Vegetable Division.*

### Agricultural Research Service

### [ 9 CFR Parts 114, 118, 119 ]

VIRUSES, SERUMS, TOXINS, AND ANALOGOUS PRODUCTS, AND CERTAIN ORGANISMS AND VECTORS

NOTICE OF PROPOSED RULE MAKING

Notice is hereby given, in accordance with section 4 (a) of the Administrative Procedure Act (5 U. S. C. 1003 (a)), that pursuant to the provisions of the Virus-Serum Toxin Act of March 4, 1913 (21 U. S. C. 151 et seq.), it is proposed to amend §§ 114.2, 118.3 and 119.25 of the regulations relating to viruses, serums, toxins, and analogous products, and to certain organisms and vectors (9 CFR 114.2, 118.3, 119.25, as amended) in the following respects:

1. After the first sentence in § 114.2 (b) a new sentence would be added to read as follows: "An outline with respect to the preparation of hog-cholera virus for inoculating purposes shall also be submitted to the Branch in accordance with § 118.3."

2. Section 118.3 would be amended to read:

§ 118.3 *Virus for inoculating purposes.* (a) Pigs for the production of inoculating virus at a licensed establishment shall weigh not less than 40 pounds nor more than 125 pounds each and shall be inoculated only with highly virulent hog-cholera virus. Except as provided in paragraph (b) of this section, no hog-cholera virus shall be used for inoculating pigs for the production of inoculating virus, hyperimmunizing virus, or simultaneous virus, or for inoculating pigs in serum or vaccine tests, unless it has been produced, processed, tested and held in the frozen state by a licensee in accordance with an outline acceptable to the Chief. Virus for such use shall be held under Branch lock or seal and shall be released by the inspector as needed for such use.

(b) Hog-cholera virus obtained from the Animal Disease and Parasite Research Branch of the Department, simultaneous virus produced by a licensee and purchased on the open market, and hog-cholera virus from outbreaks on farms which is admitted to a licensed establishment and passed through pigs as provided in § 121.3 of this subchapter, may be prepared thereafter in accordance with an acceptable outline as provided in paragraph (a) of this section and may then be used for the purposes specified in paragraph (a) of this section. The virus produced in the course of passage through pigs inoculated with the virus from such sources, except that needed for further passage to meet the requirements of an outline under paragraph (a) of this section may be used as hyperimmunizing virus, if the pigs so inoculated reacted as prescribed in § 118.4.

(c) Frozen virus for inoculating purposes under paragraph (a) of this section must be held in containers acceptable to the Chief. When glass containers are used, they shall be of borosilicate type of high resistance and low alkalinity, shall meet the tests developed by the Branch for determining these qualities, shall be properly marked for identification, and shall be guaranteed by the manufacturer to be acceptable to the Branch.

3. The heading of § 119.25 would be amended to read: § 119.25 *Preservatives.*

4. Paragraph (c) of § 119.25 would be amended to read:

(c) Phenolization of anti-hog-cholera serum must be accomplished with accuracy, and in a manner which will prevent occurrence of undesirable changes in the product.

5. A new paragraph (d) would be added to § 119.25 to read:

(d) Merthiolate may also be added to anti-hog-cholera serum in a solution in such proportions that the merthiolate will equal a 1–10,000 concentration of the serum recovered gross. Such addition must be compensated for by using a higher concentration of phenol solution as prescribed in this section. The quantity of product obtained by the addition of phenol solution plus the merthiolate shall not exceed the maximum amount permissible by the use of seven and one-half percent phenol solution alone or 83 percent of the defibrinated blood, whichever is less.

6. A new paragraph (e) would be added to § 119.25 to read:

(e) In every case the concentration and quantity of each solution used in preserving the serum shall be recorded by the licensee.

The purposes of the proposed amendments are to improve the procedures in producing, processing, testing, and storing hog-cholera virus used for inoculating purposes in the production of anti-hog-cholera serum and hog-cholera virus and vaccine and to permit the addition of merthiolate to anti-hog-cholera serum as an aid in maintaining the purity of the product.

Any person who wishes to submit written data, views, or arguments concerning the proposed amendments may do so by filing them with the Chief of the Animal Inspection and Quarantine Branch, Agricultural Research Service, U. S. Department of Agriculture, Washington 25, D. C., within thirty days after the date of publication of this notice in the FEDERAL REGISTER.

Done at Washington, D. C., this 12th day of June 1956.

[SEAL] M. R. CLARKSON,
*Acting Administrator,*
*Agricultural Research Service.*

AIRLINE TRANSPORT PILOT RATING

AERONAUTICAL EXPERIENCE

Notice is hereby given that the Administrator contemplates the adoption of the following rules. These rules specify those persons considered to hold the equivalent of a United States Commercial Pilot Rating Certificate.

All interested persons who desire to submit comments and suggestions for consideration in connection with these proposed rules shall send them to the Director, Office of Aviation Safety, Washington 25, D. C., within 30 days after publication of this notice in the FEDERAL REGISTER.

Section 21.16–1 is revised to read as follows:

§ 21.16–1 *Aeronautical experience (CAA rules which apply to § 21.16).* (a) The following shall be considered to hold the equivalent of a United States Commercial Pilot Rating Certificate:

(1) Pilots of the U. S. armed services whose military experience qualifies them for commercial certificates under § 20.55 (b) of this subchapter.

(2) Holders of foreign airline transport pilot or commercial pilot licenses without limitations issued by member states of ICAO.

(b) The holding of the equivalent of a commercial pilot rating shall permit the holder thereof to meet the requirements of § 21.17 (a) (1) through (7) and § 21.18 (b) of this part.

(Sec. 205, 52 Stat. 984, 49 U. S. C. 425. Interpret or appply secs. 601, 602, 52 Stat. 1007, 1008, as amended; 49 U. S. C. 551, 552)

SUGAR MANUFACTURING INDUSTRY IN PUERTO RICO

AMENDED PROCEDURE FOR INDUSTRY COMMITTEE NO. 21

Administrative Order No. 462 dated May 15, 1956 (21 F. R. 3328) appointing Industry Committee No. 21 to investigate conditions and recommend the minimum rate or rates of wages for the sugar manufacturing industry in Puerto Rico directs that the procedure be governed by 29 CFR Part 511, "as revised and published in the November 4, 1955, issue of the FEDERAL REGISTER (20 F. R. 8285)". The purpose of the quoted words was to call attention to the fact that substantial amendments to the regulations had been effected on November 4, 1955. These regulations were further amended effective May 30, 1956 (21 F. R. 3678) to require, among other things, that persons wishing to appear as witnesses or parties, file certain documents within 10 days prior to the hearing.

Accordingly, pursuant to authority under the Fair Labor Standards Act of 1938 (52 Stat. 1060, as amended; 29 U. S. C. 201 et seq.), and Reorganization Plan No. 6 of 1950 (5 U. S. C. 611), notice is hereby given that the amendments to 29 CFR Part 511 effective May 30, 1956 (21 F. R. 3678) will have application to the procedure of Industry Committee No. 21.

Signed at Washington, D. C., this 12th day of June 1956.

JAMES P. MITCHELL,
*Secretary of Labor.*

## FEDERAL POWER COMMISSION

[Docket Nos. G-10345, G-9444]

TRANS-PENN TRANSIT CORP. AND MANUFACTURERS LIGHT AND HEAT CO.

APPLICATION, CONSOLIDATION OF PROCEEDINGS, AND DATE OF HEARING

JUNE 12, 1956.

Take notice that Trans-Penn Transit Corporation (Trans-Penn), a Pennsylvania corporation, having its principal place of business at 125 Main Street, Bradford, Pennsylvania, filed on May 3, 1956, an application for a certificate of public convenience and necessity under section 7 of the Natural Gas Act, authorizing it to continue to operate certain natural gas transmission facilities, all as more fully represented in the application in Docket No. G-10345, which is on file with the Commission and open for public inspection.

The facilities, which Trans-Penn alleges it operates under lease, but does not presently own, and for which it seeks authority to continue to operate, are described in the application as follows:

Approximately 54.6 miles of 6-inch pipeline, including 4.1 miles of loop line, extending from a point in the Village of Hyner, Clinton County, Pennsylvania, in a northwesterly direction to a point in the town of Colegrove, McKean County, Pennsylvania, and approximately 54.3 miles of 8-inch pipeline extending from the Wykoff Meter Station in Hammersley Fort, Clinton County, Pennsylvania, in a northwesterly direction to the Lewis Run Meter Station at Lewis Run, McKean County, Pennsylvania. Applicant owns and operates approximately 4.7 miles of 8-inch and 10-inch pipeline extending from a point near Renovo, Pennsylvania, in a northwesterly direction to an interconnection with the aforesaid 6-inch pipeline. Applicant leases the aforesaid 6-inch and 8-inch pipeline facilities and a Compressor Station located in Emporium, Cameron County, Pennsylvania, from the Trustees of The Sixty Trust.

No new facilities are proposed to be constructed in connection with this application.

Trans-Penn's facilities are capable of transporting 22,450 Mcf per day. They are expected to transport a maximum of 21,300 Mcf per day during the winter of 1956-57.

On October 7, 1955, The Manufacturer's Light and Heat Company filed an application and on January 18, 1956, a supplement thereto, Docket No. G-9444, for a certificate of public convenience and necessity under section 7 of the Natural Gas Act for authority to operate its existing Clinton County transmission facilities and to install and operate certain additional facilities to be attached thereto.

Trans-Penn receives gas from Manufacturers' Clinton County line and transports it about 55 miles to Manufacturers' system in McKean County, Pennsylvania, from which point a portion of the gas is transported by Manufacturers to Home Gas Company for resale in the State of New York.

The application of Manufacturers Light and Heat Company, Docket No. G-9444 was set for hearing on March 15, 1956, after due notice was published in the FEDERAL REGISTER but was recessed on that date subject to further order of the Commission.

These related matters should be heard on a consolidated record and disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on July 17, 1956, at 10:00 a. m., e. d. s. t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved and the issues presented by such applications.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before July 5, 1956.

[SEAL] LEON M. FUQUAY,
*Secretary.*

[F. R. Doc. 56-4755; Filed, June 15, 1956; 8:47 a. m.]

## SECURITIES AND EXCHANGE COMMISSION

[File No. 54-218]

CENTRAL OHIO LIGHT & POWER CO. ET AL.

SUPPLEMENTAL ORDER RELEASING JURISDICTION OVER FEES AND EXPENSES IN CONNECTION WITH PLAN

JUNE 11, 1956.

In the matter of Central Ohio Light & Power Company, Ohio Power Company, American Gas and Electric Company.

The Commission by order issued herein on December 14, 1954 (Holding Company Act Release No. 12730), having approved a plan filed by American Gas and Electric Company, a registered holding company, and two of its public-utility subsidiary companies, Central Ohio Light & Power Company ("Central Ohio") and Ohio Power Company ("Ohio Power"), pursuant to section 11 (e) of the Public Utility Holding Company Act of 1935 ("act"), which plan provided, among other things, for the merger of Central Ohio and Ohio Power and that Ohio Power would pay all fees and expenses in connection with the plan; and

The Commission in said order having reserved jurisdiction over, among other things, the fees and expenses in connection with the plan; the plan having been approved and enforced by order of the United States District Court for the Northern District of Ohio, Western Division, entered January 21, 1955 (Civil No. 7308); the plan having been consummated; and

Ohio Power having requested approval of the payment of and release of jurisdiction over the following fees and expenses incurred in connection with the plan:

| | Fees | Expenses | Total |
|---|---|---|---|
| Simpson, Thacher & Bartlett, counsel for Applicants | $21,500.00 | $1,005.38 | $22,505.38 |
| Pomerene, Burns & Milligan, Ohio, counsel for Applicants | 2,400.00 | 487.26 | 2,887.26 |
| Jones, Day, Cockley & Reavis, counsel for Ohio Power, indenture trustee | 730.00 | 4.51 | 734.51 |
| Costs of printing merger agreement, plan, supplemental indenture, notices, etc | 4,815.25 | | 4,815.25 |
| Total | 29,445.25 | 1,497.15 | 30,942.40 |

It appearing that the above claims are on account of services and expenditures necessary in effectuating a section 11 (e) plan, and that the requested fees and expenses are reasonable in amount;

*It is ordered*, That said fees and expenses be, and they are hereby, approved, and that the jurisdiction heretofore reserved in respect of said fees and expenses be, and it is hereby, released.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
*Secretary.*

[F. R. Doc. 56-4742; Filed, June 15, 1956; 8:45 a. m.]

[File No. 70-3483]

MICHIGAN WISCONSIN PIPE LINE CO.

NOTICE OF FILING OF APPLICATION REGARDING THE ISSUANCE OF SHORT TERM NOTES TO BANKS

JUNE 11, 1956.

Notice is hereby given that Michigan Wisconsin Pipe Line Company ("Michigan Wisconsin"), a non-utility subsidiary of American Natural Gas Company ("American"), a registered holding company, has filed an application with this Commission pursuant to the Public Utility Holding Company Act of 1935 ("act"") and has designated the third sentence of section 6 (b) of the act as applicable to the proposed transactions.

All interested persons are referred to the application on file in the offices of the Commission for a statement of the transactions therein proposed, which are summarized as follows:

Michigan Wisconsin proposes to enter into a Credit Agreement providing for the borrowing from banks at one or more times subsequent to June 30, 1956, of up to $25,000,000 on notes maturing January 1, 1957. The names of the banks and their respective commitments are as follows:

| Name of bank | Amount of commitment |
|---|---|
| The First National City Bank of New York | $7,000,000 |
| The Hanover Bank, New York | 7,000,000 |
| Mellon National Bank & Trust Co., Pittsburgh, Pa. | 7,000,000 |
| National Bank of Detroit | 4,000,000 |
| Total | 25,000,000 |

The Credit Agreement will commit the banks to lend to the company from time to time, on and after July 1, 1956, sums aggregating a maximum of $25,000,000 and will provide that the company shall pay a stand-by charge calculated at the rate of one-fourth of one percent per annum on the average daily unused balance of the commitment from July 1, 1956, until the entire $25,000,000 shall have been taken down or the Agreement terminates, whichever is earlier. The company may reduce the amount of the commitment at any time without penalty.

The notes issued pursuant to the Credit Agreement will mature January 1, 1957 and will bear interest at the prime rate prevailing at the First National City Bank of New York for commercial loans on the date of each borrowing. The company will have the right to prepay at any time without penalty, in amounts of $1,000,000 or multiples thereof, notes so issued, except that a prepayment penalty of one-fourth of one percent per annum for the unexpired terms of the notes will apply in case of prepayment from the proceeds of borrowings from banks other than those participating in the Credit Agreement.

Michigan Wisconsin will covenant in the Credit Agreement, among other things, that it will not without prior consent of the banks pay dividends on its common stock in excess of the amount permitted by the company's Mortgage and Deed of Trust; incur other borrowings unless subordinated to the notes issued under the Credit Agreement except first mortgage bonds issued under said mortgage or any mortgage indenture supplementing or replacing the same; or merge or consolidate with or into any other company.

At March 31, 1956, Michigan Wisconsin had outstanding $14,000,000 of notes to banks due July 1, 1956, issued pursuant to a Credit Agreement dated June 17, 1955. The first borrowing under the proposed Credit Agreement will be on July 1, 1956, and the company will apply the proceeds therefrom, to the extent required, to the retirement of notes issued and then outstanding under the 1955 Credit Agreement.

The proposed borrowings will provide Michigan Wisconsin with funds for the construction of additional facilities, the cost of which, together with normal construction, is estimated to be approximately $12,500,000. Thus, a total of about $26,500,000 is required to finance construction this year and retire the presently outstanding bank loans.

The company states that it will file shortly an application regarding the issue and sale, pursuant to the competitive bidding requirements of Rule U-50, of $25,000,000 principal amount of First Mortgage Bonds, __ percent Series due 1976. To provide sufficient time to carry out the bond financing and obtain adequate protection against unforeseeable contingencies, the company desires, in its present application, to have authorization to execute the proposed Credit Agreement for a period of six months, with the right of the company at its option and with the approval of the Commission, to renew the notes for a period of six months beyond January 1, 1957. The notes issued under the proposed Credit Agreement will be retired with proceeds from the sale of the new bonds.

The declaration states that no State commission and no Federal commission other than this Commission has jurisdiction over the proposed transactions.

Notice is further given that any person may, not later than June 27, 1956, at 5:30 p. m., e. d. s. t., request the Commission in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said filing which he desires to controvert, or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington 25, D. C. At any time after said date, the application as filed or as it may hereafter be amended, may be granted as provided in Rule U-23 of the rules and regulations promulgated under the act, or the Commission may grant exemption from its rules as provided in Rules U-20 (a) and U-100 or take such other action as it may deem appropriate.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[F. R. Doc. 56-4743; Filed, June 15, 1956; 8:45 a. m.]

---

[File No. 70-3484]

CENTRAL PUBLIC UTILITY CORP.

NOTICE OF FILING REGARDING RENEWAL OF GUARANTY BY PARENT OF SHORT-TERM NOTE OF SUBSIDIARY

JUNE 12, 1956.

Notice is hereby given that Central Public Utility Corporation ("Central"), a registered holding company under the Public Utility Holding Company Act of 1935 ("act"), as to which an application for exemption is pending pursuant to section 3 (a) (5) of the act (File No. 31-626), has filed a declaration designating sections 6 (a) and 7 of the act and Rule U-45 of the general rules and regulations promulgated under the act as applicable thereto, with respect to the following proposed transactions:

By order issued on December 16, 1955 (Holding Company Act Release No. 13066), the Commission authorized Central to lend its credit as guarantor of a short-term promissory note to be issued by its wholly owned subsidiary The Islands Gas and Electric Company ("Islands"), an exempt intermediate holding company; pursuant to which authorization, Islands on December 28, 1955, issued its 90-day promissory note to The Hanover Bank in the principal amount of $2,000,000, bearing interest at the rate of 3½ percent per annum and secured by Central's pledge to said bank of a 90-day Time Deposit Open Account in the amount of $2,000,000 bearing interest at the rate of 2 percent per annum, and by order issued on March 26, 1956, the Commission authorized Central to continue this arrangement for a further 90-day period until June 25, 1956.

Central states that Islands has not yet received the funds with which it had expected to pay the note and that Islands intends to renew such note for an additional period of ninety days from June 25, 1956, in identical amount and on identical terms, the renewal note to be payable by Islands at its election at any time after sixty days without penalty or prepayment charge. Central proposes to guaranty the renewal note and pledge as security the aforesaid Open Account. Central further states Islands expects to pay the renewed note prior to its maturity date.

Declarant represents that no other regulatory commission has jurisdiction over the proposed transactions, and estimates that its expenses in connection therewith will not exceed $300 including attorney's fees not exceeding $250.

Notice is further given that any interested person may, not later than June 22, 1956, at 5:30 p. m., request the Commission in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law, if any, raised by said declaration which he desires to controvert, or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington 25, D. C. At any time after said date said declaration, as filed or as amended, may be permitted to become effective as provided in Rule U-23 of the rules and regulations promulgated under the act, or the Commission may grant exemption from its rules as provided in Rules U-20 (a) and U-100, or take such other action as it may deem appropriate.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

## UNITED STATES TARIFF COMMISSION

[Investigation 54]

CERTAIN COTTON CLOTH

INVESTIGATION INSTITUTED AND PUBLIC HEARING ORDERED

*Investigation instituted.* Upon application from the Association of Cotton Textile Merchants of New York received June 5, 1956, the United States Tariff Commission instituted an investigation on June 12, 1956, under the authority of section 7 of the Trade Agreements Extension Act of 1951, as amended, and section 332 of the Tariff Act of 1930, to determine whether cotton cloth, printed, dyed, or colored, containing yarns the average number of which exceeds 20 but does not exceed 50, woven with 2 or more colors or kinds of filling, provided for in paragraph 904 (c) and (d) of the Tariff Act of 1930 is, as a result in whole or in part of the duty or other customs treatment reflecting concessions granted thereon under the General Agreement on Tariffs and Trade, being imported into the United States in such increased quantities, either actual or relative, as to cause or threaten serious injury to the domestic industry producing like or directly competitive products.

*Hearing ordered.* A public hearing in this investigation was ordered by the Tariff Commission to begin at 10 a. m., e. s. t., on October 23, 1956, in the Hearing Room of the Tariff Commission, Eighth and E Streets, NW., Washington, D. C., at which hearing all interested parties will be given opportunity to be present, to produce evidence, and to be heard.

*Requests to appear and testify.* Interested parties desiring to appear and give testimony at the hearing should notify the Secretary of the Commission, in writing, at least three days in advance of the date of the hearing.

*Inspection of application.* The application filed in this case is available for public inspection at the office of the Secretary, United States Tariff Commission, Eighth and E Streets NW., Washington, D. C., and in the New York City office of the Tariff Commission, located in Room 437 of the Custom House, where it may be read and copied by persons interested.

Issued: June 13, 1956.

By order of the Commission.

[SEAL] DONN N. BENT, *Secretary.*

## INTERSTATE COMMERCE COMMISSION

FOURTH SECTION APPLICATIONS FOR RELIEF

JUNE 13, 1956.

Protests to the granting of an application must be prepared in accordance with Rule 40 of the general rules of practice (49 CFR 1.40) and filed within 15 days from the date of publication of this notice in the FEDERAL REGISTER.

LONG-AND-SHORT HAUL

FSA No. 32202: *Petroleum coke—Lockport, Ill., to Sault Ste. Marie, Mich.* Filed by R. G. Raasch, Agent, for interested rail carriers. Rates on petroleum coke, carloads, from Lockport, Ill., to Sault Ste. Marie, Mich.

Grounds for relief: Circuitous routes.

Tariff: Supplement 47 to Agent Raasch's I. C. C. 767.

FSA No. 32203: *Substituted service—Motor-rail-motor, Pennsylvania R. R.* Filed by Motor Carriers Tariff Bureau, Inc., Agent, for interested motor carriers and the Pennsylvania Railroad Company. Rates on various commodities, moving on class and commodity rates loaded in or on highway trailers and transported on railroad flat cars between Chicago, Ill., on the one hand, and Pittsburgh, Pa., on the other.

Grounds for relief: Competition with all-motor truck carriers.

FSA No. 32204: *Import and export rates from and to North Atlantic and Canadian Ports.* Filed jointly by C. W. Boin and O. E. Swenson, Agents, for interested rail carriers. Rates on various commodities, moving on import and export class and commodity rates from New York, N. Y., and other specified North Atlantic and Canadian ports as to import traffic and to such ports as to export traffic to points in official territory as destinations on import traffic and as origins as to export traffic to the ports.

Grounds for relief: Port equalization and circuity.

Tariffs: Tariff schedules of individual lines and agents listed in exhibit 2 of the application.

FSA No. 32205: *Old whiskey barrels—Kentucky to Official Territory.* Filed by R. E. Boyle, Jr., Agent, for interested rail carriers. Rates on barrels, old whiskey, carloads, from specified points in Kentucky to base points in official (including Illinois), territory, and points grouped therewith, as taking same rates.

Grounds for relief: Short-line distance formula and circuity.

Tariffs: Supplement 2 to Agent C. W. Boin's I. C. C. A-1099; Supplement 3 to Agent R. G. Raasch's I. C. C. 861.

FSA No. 32206: *Caustic soda—Evans City, Ala., to Official Territory.* Filed by O. W. South, Jr., Agent, for interested rail carriers. Rates on liquid caustic soda, tank-car loads from Evans City, Ala., to specified points in Indiana, New Jersey, New York, Ohio, and Pennsylvania.

Grounds for relief: Short-line distance formula, market competition, and circuitous routes.

Tariffs: Supplement 213 to Agent Spaninger's I. C. C. 1351; Supplement 184 to Agent Spaninger's I. C. C. 1324.

FSA No. 32207: *Furniture and parts—Atlanta, Ga., to Gulf Ports.* Filed by O. W. South, Jr., Agent, for interested rail carriers. Rates on furniture and furniture parts, carloads, from Atlanta, Ga., to New Orleans, La., Gulfport, Miss., Mobile, Ala., and Pensacola, Fla., for export.

Grounds for relief: Circuitous routes.

Tariff: Supplement 90 to Agent Spaninger's I. C. C. 1418.

FSA No. 32208: *Petroleum and products—Iowa to Illinois.* Filed by W. J. Prueter, Agent, for interested rail carriers. Rates on petroleum and petroleum products, tank-car loads, from Coralville, Des Moines, Iowa City and Julien, Iowa to specified points in Illinois.

Grounds for relief: Motor truck competition and circuity.

Tariffs: Agent Prueter's tariff I. C. C. A-4157; Supplement 1 to Agent Prueter's A-4157.

By the Commission.

FOURTH SECTION APPLICATIONS FOR RELIEF

JUNE 12, 1956.

Protests to the granting of an application must be prepared in accordance with Rule 40 of the general rules of practice (49 CFR 1.40) and filed within 15 days from the date of publication of this notice in the FEDERAL REGISTER.

LONG-AND-SHORT HAUL

FSA No. 32192: *Lumber—Pacific Coast to Lake Charles, La.* Filed by W. J. Prueter, Agent, for interested rail carriers. Rates on lumber and related articles, carloads, from Pacific coast points to Lake Charles, La.

Grounds for relief: Circuitous routes.

Tariff: Supplement 64 to Agent Prueter's I. C. C. 1556.

FSA No. 32193: *Grain and products—St. Louis, Mo., group to Omaha, Nebr.* Filed by W. J. Prueter, Agent, for interested rail carriers. Rates on grain and grain products and related articles, also seeds, carloads from St. Louis, Mo., and East St. Louis, Ill., to Omaha, Nebr.

Grounds for relief: Circuitous routes.

Tariff: Supplement 95 to Agent Prueter's I. C. C. A-3866.

FSA No. 32194: *Gravel—Dickason Pit, Ind., to Mocassin, Ill.* Filed by R. G. Raasch, Agent, for the Chicago & Eastern Illinois Railroad Company. Rates on Gravel, carloads from Dickason Pit, Ind., to Mocassin, Ill.

Grounds for relief: Motor-truck competition from wayside pit.

Tariff: Chicago & Eastern Illinois Railroad tariff I. C. C. No. 144.

FSA No. 32195: *Petroleum and products—Montana to North Dakota.* Filed by the Northern Pacific Railway Company, for itself. Rates on petroleum and petroleum products, carloads, as described in exhibit 1 of the application, from Billings, East Billings, and Laurel,

Mont., to Bolack, Kelly and Mekinock, N. D.

Grounds for relief: Grouping and carrier competition.

Tariff: Supplement 5 to Northern Pacific tariff I. C. C. 9906.

FSA No. 32196: *Sulphuric acid—Delaware and Pennsylvania to Hopewell, Va.* Filed by C. W. Boin, Agent, for interested rail carriers. Rates on sulphuric acid, tank-car loads from North Claymont, Del., and Chester-Marcus Hook, Pa., to Hopewell, Va.

Grounds for relief: Barge competition and circuitous routes.

Tariffs: Supplement 27 to Pennsylvania Railroad I. C. C. 3441; Supplement 211 to Reading Company's I. C. C. 2323.

FSA No. 32197: *Petroleum cresylic acid—Oklahoma and Texas to Missouri and Illinois.* Filed by F. C. Kratzmeir, Agent, for interested rail carriers. Rates on petroleum cresylic acid, tank-car loads from Tulsa, Okla., Atreco, Big Spring, Chaison, Colorado City, Houston, and Texas City, Tex., to St. Louis, Mo., East St. Louis and Chicago, Ill.

Grounds for relief: Short-line distance formula, market competition, and circuity.

Tariffs: Supplement 140 to Agent Kratzmeir's I. C. C. 4109; Supplement 199 to Agent Kratzmeir's I. C. C. 4139.

FSA No. 32198: *Carbon dioxide—Luling and Boutte, La., to Memphis, Tenn.* Filed by F. C. Kratzmeir, Agent, for interested rail carriers. Rates on carbon dioxide, solidified, carloads, from Luling and Boutte, La., to Memphis, Tenn.

Grounds for relief: Circuitous routes.

Tariff: Supplement 148 to Agent Kratzmeir's I. C. C. 4087.

FSA No. 32199: *Iron and steel articles—Chicago, Ill., to Michigan City, Ind.* Filed by H. R. Hinsch, Agent, for interested rail carriers. Rates on manufactured iron and steel articles, carloads from Chicago, Ill., to Michigan City, Ind.

Grounds for relief: Circuitous routes.

Tariff: Supplement 221 to Agent Hinsch's I. C. C. 3388.

FSA No. 32200: *Malt liquors—New Orleans, La., to New Mexico and Texas.* Filed by F. C. Kratzmeir, Agent, for interested rail carriers. Rates on malt liquors, viz., ale, beer, beer tonic, porter or stout, carloads from New Orleans, La., to La Cruces, Santa Rose and Tucumcari, N. Mex., and El Paso, Tex.

Grounds for relief: Modified short-line distance formula and circuity.

Tariff: Supplement 174 to Agent Kratzmeir's I. C. C. 4090.

FSA No. 32201: *Beet pulp—Sidney, Mont., to South Dakota and Minnesota.* Filed by The Northern Pacific Railway Company, for itself. Rates on beet pulp, carloads, from Sidney, Mont., to specified stations in South Dakota and Minnesota.

Grounds for relief: Circuitous routes and cross-country competition to certain destinations.

Tariff: Supplement 33 to Northern Pacific Railway Tariff I. C. C. 9753.

AGGREGATE-OF-INTERMEDIATES

FSA No. 32191: *Petroleum products—Superior, Wis., to Minnesota.* Filed by The Duluth, Missabe and Iron Range Railway Company for itself and interested rail carriers. Rates on blended gasolines, petroleum distillate, fuel oil, gasoline, except natural gasoline, naphtha and illuminating or burning refined oil, carloads from Superior, Wis., to specified points in Minnesota.

Grounds for relief: Maintenance of depressed rates from and to above described points without observing such rates as factors in constructing combination rates from beyond.

Tariff: Duluth, Missabe and Iron Range Railway Tariff I. C. C. A-133.

By the Commission.

## TITLE 6—AGRICULTURAL CREDIT

### Chapter III—Farmers Home Administration, Department of Agriculture

Subchapter E—Account Servicing

[FHA Instruction 456.1]

PART 364—SETTLEMENT

SETTLEMENT WITHOUT APPLICATION

Section 364.8 (e) (7), Title 6, Code of Federal Regulations (16 F. R. 11803) is revised to provide for settlement of debts in certain cases in which applications cannot be obtained and to read as follows:

§ 364.8 *State Office handling.* • • •

(e) • • •

(7) It is impossible or impracticable for legal or other reasons to obtain the application of the obligor (or of all obligors if more than one) and all other applicable requirements of this part have been met; except when the applicable requirements of § 364.6 (c) (1), (2) or (3) have been met with respect to any obligor from whom an application is not received.

(Sec. 41 (1), 60 Stat. 1066; 7 U. S. C. 1015 (i))

Dated: June 13, 1956.

### Chapter IV—Commodity Stabilization Service and Commodity Credit Corporation, Department of Agriculture

Subchapter B—Loans, Purchases, and Other Operations

[1956 C. C. C. Grain Price Support Bulletin 1, Supp. 1, Flaxseed]

PART 421—GRAINS AND RELATED COMMODITIES

SUBPART—1956-CROP FLAXSEED LOAN AND PURCHASE AGREEMENT PROGRAM

A price support program has been announced for the 1956 crop of flaxseed. The 1956 C. C. C. Grain Price Support Bulletin 1 (21 F. R. 3997), issued by the Commodity Credit Corporation and containing the regulations of a general nature with respect to price support operations for certain grains and other commodities produced in 1956 is supplemented as follows:

Sec.
421.2076 Purpose.
421.2077 Availability of price support.
421.2078 Eligible flaxseed.
421.2079 Warehouse receipts.
421.2080 Determination of quantity.
421.2081 Determination of quality.
421.2082 Maturity of loans.
421.2083 Support rates.
421.2084 Warehouse charges.
421.2085 Settlement.

AUTHORITY: §§ 421.2076 to 421.2085 issued under sec. 4, 62 Stat. 1070, as amended; 15 U. S. C. 714b. Interpret or apply sec. 5, 62 Stat. 1072; secs. 301, 401, 63 Stat. 1054; 15 U. S. C. 714c, 7 U. S. C. 1447, 1421.

§ 421.2076 *Purpose.* Sections 421.2076 to 421.2085 state additional specific regulations which, together with the general regulations contained in the 1956 C. C. C. Grain Price Support Bulletin 1 (§§ 421.1601 to 421.1622), apply to loans and purchase agreements under the 1956-Crop Flaxseed Price Support Program.

§ 421.2077 *Availability of price support*—(a) *Method of support.* Price support will be made available through farm-storage and warehouse-storage loans and through purchase agreements.

(b) *Area.* Farm-storage and warehouse-storage loans and purchase agreements will be available wherever flaxseed is grown in the continental United States, except in Texas counties designated under the 1956-Texas Flaxseed Purchase Program (§§ 421.2126 to 421.2139). Farm-storage loans will not be available in areas where the State committee determines that flaxseed cannot be safely stored on the farm.

(c) *Where to apply.* Application for price support should be made at the office of the county committee which keeps the farm-program records for the farm.

(d) *When to apply.* Loans and purchase agreements will be available from the time of harvest through October 31, 1956, in Arizona and California, and from the time of harvest through January 31, 1957, in all other States. The applica-

ble documents must be signed by the producer and delivered to the county committee not later than such final dates. Applicable documents include the Producer's Note and Loan Agreement for warehouse-storage loans, the Producer's Note and Supplemental Loan Agreement and the Commodity Chattel Mortgage for farm-storage loans, and the Purchase Agreement for purchase agreements.

(e) *Eligible producer.* An eligible producer shall be an individual, partnership, association, corporation, estate, trust, or other business enterprise, or legal entity, and wherever applicable, a State, political subdivision of a State, or any agency thereof producing flaxseed in 1956 as landowner, landlord, tenant, or sharecropper. Two or more eligible producers may obtain a joint loan on eligible flaxseed harvested by them if stored in the same farm-storage facility. In the case of joint loans, each person signing the note shall be held jointly and severally responsible for the loan. Where the county office has experienced difficulties in settling farm-storage loans with a producer, the county committee shall determine that he is not eligible for a farm-storage loan. He shall be eligible, however, to obtain a warehouse-storage loan or sign a purchase agreement.

§ 421.2078 *Eligible flaxseed.* Flaxseed, to be eligible for price support, must meet all of the applicable requirements set forth in this section.

(a) The flaxseed must have been produced in the continental United States (excluding the Texas counties designated under the 1956-Texas Flaxseed Purchase Program) in 1956 by an eligible producer.

(b) At the time the flaxseed is placed under loan or delivered under a purchase agreement:

(1) The beneficial interest in the flaxseed must be in the eligible producer tendering the flaxseed for loan or for delivery under a purchase agreement and must always have been in him, or must have been in him and a former producer whom he succeeded before the flaxseed was harvested.

(2) To meet the requirements of succession to a former producer, the rights, responsibilities and interest of the former producer with respect to the farming unit on which the flaxseed was produced shall have been substantially assumed by the person claiming succession. Mere purchase of the crop prior to harvest, without acquisition of any additional interest in the farming unit, shall not constitute succession. The county committee shall determine whether the requirements with respect to succession have been met.

(c) Flaxseed, at the time it is placed under loan, and flaxseed under purchase agreement which is in approved warehouse storage prior to notification by a producer of his intention to sell to CCC, must meet the following requirements:

(1) The flaxseed must grade No. 1 or No. 2.

(2) The flaxseed must not contain mercurial compounds or other substances poisonous to man or animals.

(3) If offered as security for a farm-storage loan, the flaxsed must have been stored in the granary at least 30 days prior to its inspection for measurement, sampling and sealing, unless otherwise approved by the State committee.

(d) Flaxseed under purchase agreement stored in other than approved warehouse storage must, in order to be eligible for sale to CCC, meet the requirements of paragraph (c) (1) and (2) of this section on the basis of a pre-delivery inspection performed by a representative of the county committee in accordance with regulations to be subsequently issued. Flaxseed which does not meet the requirements of paragraph (c) (1) and (2) on the basis of the pre-delivery inspection referred to above shall also be eligible for sale to CCC only if the producer complies with the conditions to be specified in § 421.2085 and the flaxseed on the basis of the inspection made at the time of delivery meets the requiremenst set forth in paragraph (c) (1) and (2) of this section.

§ 421.2079 *Warehouse receipts.* Warehouse receipts, representing flaxseed in approved warehouse storage to be placed under loan or delivered under a purchase agreement, must meet the requirements below:

(a) Warehouse receipts must be issued in the name of the producer, must be properly endorsed in blank so as to vest title in the holder, and must be receipts issued on a warehouse approved by CCC under the Uniform Grain Storage Agreement which indicate that the flaxseed is insured, or must be issued on warehouses operated by Eastern common carriers under tariffs approved by the Interstate Commerce Commission for which custodian agreements are in effect.

(b) Each warehouse receipt or the warehouseman's supplemental certificate (in duplicate), properly identified with the warehouse receipt, must show: (1) Gross weight or bushels, (2) grade, (3) test weight, (4) dockage, (5) percentage of damage when such factor, and not test weight, determines the grade and (6) whether the flaxseed arrived by rail, truck or barge. In the case of flaxseed delivered by rail or barge, the grading factors on the warehouse receipt or warehouseman's supplemental certificate must agree with the inbound inspection certificate for the car or barge if such certificate is issued.

(c) A separate warehouse receipt must be submitted for each grade of flaxseed.

(d) The warehouse receipt may be subject to liens for warehouse charges only to the extent indicated in § 421.2084.

(e) Warehouse receipts representing flaxseed which has been shipped by rail or water from a country shipping point to a designated terminal point, or shipped by rail or water from a country shipping point and stored in transit to a designated terminal point, must be accompanied by registered freight bills, or by a certificate containing similar information in a form prescribed by the CSS commodity office which shall be signed by the warehouseman and which may be part of the supplemental certificate.

§ 421.2080 *Determination of quantity.* (a) The quantity of flaxseed placed under farm-storage loan may be determined either by weight or by measurement. The quantity of flaxseed placed under warehouse-storage loan or delivered under a farm-storage loan or under a purchase agreement shall be determined by weight.

(b) When the quantity is determined by weight, a bushel shall be 56 pounds of flaxseed free of dockage. In determining the quantity of sacked flaxseed by weight, a deduction of ¾ of a pound for each sack shall be made.

(c) When the quantity of flaxseed is determined by measurement, a bushel shall be 1.25 cubic feet of flaxseed testing 56 pounds per bushel. The quantity determined shall be adjusted by the following percentages of the quantity determined for 56-pound flaxseed:

| For flaxseed testing: | *Percentage* |
|---|---|
| 56 pounds or over | 100 |
| 55 pounds or over, but less than 56 pounds | 98 |

(d) The percentage of dockage shall be determined and the weight of such dockage shall be deducted from the gross weight of the flaxseed in determining the net quantity available for loan or purchase.

§ 421.2081 *Determination of quality.* The grade, grading factors, and all other quality factors shall be determined in accordance with the method set forth in the Official Grain Standards of the United States for Flaxseed, whether or not such determinations are made on the basis of an official inspection.

§ 421.2082 *Maturity of loans.* Loans mature on demand but not later than January 31, 1957, on flaxseed stored in Arizona and California, and not later than April 30, 1957, on flaxseed stored in all other States.

§ 421.2083 *Support rates.* Basic support rates for flaxseed placed under loan or delivered under a purchase agreement will be set forth in this section.

(a) *Basic support rates at designated terminal markets.* (1) Basic support rates per bushel for No. 1 flaxseed stored in approved warehouses at terminal markets listed below are as follows:

| Terminal market: | *Rate per bushel for No. 1* |
|---|---|
| Los Angeles, Calif. | $3.64 |
| San Francisco, Calif. | 3.58 |
| Chicago, Ill. | 3.39 |
| Duluth, Minn., and St. Paul, Minn. | 3.39 |
| Superior, Wis. | 3.39 |
| Corpus Christi and Houston, Tex. | 3.14 |

(2) Flaxseed eligible for loan or purchase at the support rates shown in the above schedule must have been shipped on a domestic interstate freight rate basis. On any flaxseed shipped at other than the domestic interstate freight rate, the support rate at the designated terminal market shall be reduced by the difference between the rate of the freight paid (plus tax) and the domestic interstate freight rate (plus tax).

(3) The support rates established for the designated terminal markets apply to flaxseed which has been shipped by rail or water from a country shipping point to one of the designated terminal markets, as evidenced by paid freight bills duly registered for transit privileges: *Provided,* That in the event the amount of paid-in freight is insufficient to guarantee the minimum proportional domestic interstate freight rate from the terminal market, there shall be deducted from the applicable terminal support rate the difference between the amount of freight actually paid in and the amount required to be paid in to guarantee outbound movement at the minimum proportional domestic interstate freight rate.

(4) When shipped by rail or water and stored at any designated terminal market, flaxseed for which neither registered freight bills nor registered freight certificates are presented to guarantee outbound movement at the minimum proportional domestic interstate freight rate, shall have a support rate equal to the terminal rate minus 8 cents per bushel.

(5) For flaxseed received by truck and stored at any designated terminal market, the support rate shall be the terminal rate minus 12½ cents per bushel.

(b) *Support rates for flaxseed in approved warehouse-storage at other than designated terminal markets.* (1) The support rate for flaxseed stored in approved warehouses (other than those situated in the designated terminal markets) which is shipped by rail or water, shall be determined by deducting from the appropriate designated terminal market rate an amount equal to the transit balance, if any (plus tax), of the through-freight rate from point of orgin for such flaxseed to such terminal market: *Provided,* That on any flaxseed shipped at other than the domestic interstate freight rate, the support rate shall be further reduced by the difference between the rate of the freight paid (plus tax) and the domestic interstate freight rate (plus tax) from the point of origin of such flaxseed to the point of storage: *And provided further,* That in the case of flaxseed stored at any railroad transit point taking a penalty by reason of out-of-line movement to the appropriate designated market, or for any other reason, there shall be added to such transit balance an amount equal to any out-of-line costs or other costs incurred in storing flaxseed in such position.

(2) The warehouse receipts must be accompanied by the original paid freight bills or certificates of the warehouseman and other required documents as set forth in § 421.2079.

(c) *County support rates.* (1) The basic county support rates for No. 1 flaxseed are as follows: (Farm-storage loans and county warehouse-storage loans, except as otherwise provided in paragraph (b) of this section, will be based on the support rate established for the county in which the flaxseed is stored. If two or more approved warehouses are located in the same or adjoining towns, villages, or cities having the same interstate freight rate, such towns, villages, or cities shall be deemed to constitute one shipping point and the same support rate shall apply even though such warehouses are not all located in the same county. Such support rate shall be the highest support rate of the counties involved.)

WYOMING

All counties $2.78

(2) Where the State committee determines that State or district weed control laws affect the flaxseed crop, the support rate will be 15 cents below the applicable county support rate set forth in the schedule under subparagraph (1) of this paragraph. If, upon delivery of the flaxseed to CCC, the producer supplies a certificate indicating that the flaxseed complies with the weed control laws, the producer will be credited with the amount of the differential in determining the settlement value.

(d) *Discount.* The support rate for No. 2 flaxseed shall be 6 cents per bushel less than the support rate for No. 1 flaxseed.

§ 421.2084 *Warehouse charges.* (a) Warehouse receipts and the flaxseed represented thereby stored in approved warehouses operating under the Uniform Grain Storage Agreement may be subject to liens for warehouse handling and storage charges at not to exceed the Uniform Grain Storage Agreement rates from the date the flaxseed is deposited in the warehouse for storage.

(1) In Arizona and California, where the date of deposit (the date of the warehouse receipt if the date of deposit is not shown) on warehouse receipts representing flaxseed stored in warehouses operating under the Uniform Grain Storage Agreement is on or before January 31, 1957, there shall be deducted in computing the loan rate or purchase price the storage charges per bushel as shown in the following table, unless written evidence has been submitted with the warehouse receipt that all warehouse charges except receiving and loading out charges have been prepaid through the maturity date, January 31, 1957.

| Date of deposit (all dates inclusive): | *Amount of deduction (cents per bushel)* |
|---|---|
| Prior to Apr. 17, 1956 | 15 |
| Apr. 17, 1956–May 6, 1956 | 14 |
| May 7, 1956–May 26, 1956 | 13 |

| Mar. 12, 1957–Mar. 31, 1957 | 2 |
| Apr. 1, 1957–Apr. 30, 1957 | 1 |

(b) Warehouse receipts and the flaxseed represented thereby stored in approved warehouses operated by Eastern common carriers may be subject to liens for warehouse elevation (receiving and delivering) and storage charges from the date of deposit at rates approved by the Interstate Commerce Commission. There shall be deducted in computing the loan rate or in computing the purchase price the amount of the approved tariff rate for storage (not including elevation), which will accumulate from the date of deposit through the program maturity date, unless written evidence has been submitted with the warehouse receipt that the storage charges have been prepaid. The county committee shall request the CSS commodity office to determine the amount of such charges. Where the producer presents evidence showing that elevation charges have been prepaid, the amount of the storage charges to be deducted shall be reduced by the amount of the elevation charges prepaid by the producer.

§ 421.2085 *Settlement*—(a) *Settlement value.* (1) In the case of eligible flaxseed delivered to CCC from farm storage under the loan program, settlement shall be made at the applicable support rate determined in accordance with §§ 421.2083 and 421.1618 (d). The support rate shall be for the grade and quality of the total quantity of flaxseed eligible for delivery.

(2) If, upon delivery, the flaxseed under farm-storage loan is of a grade or quality for which no support rate has been established, the settlement value shall be computed at the support rate established for the grade and quality placed under loan, les the difference, if any, at the time of delivery, between the market price for the grade and quality placed under loan and the market price of the flaxseed delivered, as determined by CCC: *Provided, however,* That if such flaxseed is sold by CCC in order to determine its market price, the settlement value shall not be less than such sales price: *And provided further,* That if upon delivery the flaxseed contains mercurial compounds or other substances poisonous to man or animals, such flaxseed shall be sold for seed (in accordance with applicable State seed laws and regulations), fuel, or industrial uses where the end product will not be consumed by man or animals, and the settlement value shall be the same as the sales price, except that if CCC is unable to sell such commodity for the use specified above, the settlement value shall be the market value, if any, as determined by CCC, as of the date of delivery.

(2) Provisions applicable to the predelivery inspection of flaxseed under purchase agreement and the basis for settlement with the producer on flaxseed delivered to CCC under purchase agreement will be issued as an amendment to this supplement.

(b) *Storage deduction for early delivery.* No deduction for storage shall be made for farm-stored flaxseed under loan or purchase agreement authorized to be delivered to CCC prior to the loan maturity date, except where it is necessary to call the loan through fault or negligence on the part of the producer or where the producer requests early delivery and the county committee approves the early delivery and determines such early delivery is solely for the convenience of the producer. The deduction for storage shall be made in accordance with the schedule of deductions for warehouse charges in § 421.2084.

(c) *Refund of prepaid handling charges.* In case a warehouseman charges the producer for the receiving or the receiving and loading out charges on flaxseed under loan or purchase agreement stored in a warehouse under the Uniform Grain Storage Agreement, the producer shall, upon delivery of the flaxseed to CCC, be reimbursed or given credit by the county office for such prepaid charges in an amount not to exceed the charges authorized under the Uniform Grain Storage Agreement, provided the producer furnishes to the county committee written evidence signed by the warehouseman that such charges have been paid.

(d) *Storage payment where CCC is unable to take delivery of flaxseed stored in other than an approved warehouse under loan or purchase agreement.* The producer may be required to retain flaxseed stored in other than an approved warehouse under loan or purchase agreement for a period of 60 days after the maturity date without any cost to CCC. However, if CCC is unable to take delivery of such flaxseed within the 60-day period after maturity, the producer shall be paid a storage payment upon delivery of the flaxseed to CCC: *Provided, however,* That a storage payment shall be paid a producer whose flaxseed is stored in other than an approved warehouse under purchase agreement only if he has properly given notice of his intention to sell the flaxseed to CCC and delivery cannot be accepted within the 60-day period after maturity. The period for earning such storage payment shall begin the day following the expiration of the 60-day period after the maturity date and extent through the final date of delivery, or the final date for delivery as specified in the delivery instructions issued to the producer by the county office, whichever is earlier. The storage payment shall be computed at the rate of $0.00049 per bushel per day for the flaxseed accepted for delivery or sale to CCC.

(e) *Track-loading payment.* A track-loading payment of 3 cents per bushel will be made to the producer on flaxseed delivered to CCC on track at a country point.

Issued this 13th day of June 1956.

[SEAL] EARL M. HUGHES,
*Executive Vice President,*
*Commodity Credit Corporation.*

## TITLE 7—AGRICULTURE

### Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders), Department of Agriculture

[Lemon Reg. 645, Amdt. 2]

PART 953—LEMONS GROWN IN CALIFORNIA AND ARIZONA

LIMITATION OF SHIPMENTS

*Findings.* 1. Pursuant to the marketing agreement, as amended, and Order No. 53, as amended (7 CFR Part 953; 19 F. R. 7175; 20 F. R. 2913), regulating the handling of lemons grown in the State of California or in the State of Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and upon the basis of the recommendation and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of the quantity of such lemons which may be handled, as hereinafter provided, will tend to effectuate the declared policy of the act.

2. It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice and engage in public rule making procedure, and postpone the effective date of this amendment until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this amendment is based became available and the time when this amendment must become effective in order to effectuate the declared policy of the Agricultural Marketing Agreement Act of 1937, as amended, is insufficient, and this amendment relieves restriction on the handling of lemons grown in the State of California or in the State of Arizona.

*Order, as amended.* The provisions in paragraph (b) (1) (ii) of § 953.752 (Lemon Regulation 645; 21 F. R. 3967) are hereby amended to read as follows:

(ii) District 2: 604,500 cartons.

(Sec. 5, 49 Stat. 753; as amended; 7 U. S. C. 608c)

Dated: June 14, 1956.

[SEAL] S. R. SMITH,
*Director, Fruit and Vegetable Division, Agricultural Marketing Service.*

[F. R. Doc. 56-4801; Filed, June 18, 1956; 8:53 a. m.]

## TITLE 10—ATOMIC ENERGY

### Chapter I—Atomic Energy Commission

PART 7—ADVISORY BOARDS

PURPOSE

Notice is hereby given that § 7.1 of the regulations contained in Part 7 of Title 10 of the Code of Federal Regulations, entitled "Advisory Boards" is amended to read as follows:

§ 7.1 *Purpose.* The regulations in this part set forth the scope, procedure and limitations of the authority of advisory boards established by the Atomic Energy Commission pursuant to section 161 a. of the Atomic Energy Act of 1954 (68 Stat. 919), except the Patent Compensation Board, the Advisory Board on Contract Appeals, the Personnel Security Review Board, and the Personnel Security Boards.

(Sec. 161, 68 Stat. 948; 42 U. S. C. 2201)

Dated at Washington, D. C., this 12th day of June 1956.

K. E. FIELDS,
*General Manager.*

[F. R. Doc. 56-4765; Filed, June 18, 1956; 8:45 a. m.]

## TITLE 14—CIVIL AVIATION

### Chapter II—Civil Aeronautics Administration, Department of Commerce

[Amdt. 10]

PART 600—DESIGNATION OF CIVIL AIRWAYS

ALTERATIONS

The civil airway alterations appearing hereinafter have been coordinated with the civil operators involved, the Army, the Navy and the Air Force, through the Air Coordinating Committee, Airspace Panel, and are adopted to become effective when indicated in order to promote safety. Compliance with the notice, procedures and effective date provisions of section 4 of the Administrative Procedure Act would be impracticable and contrary to public interest and therefore is not required.

Part 600 is amended as follows:

1. Section 600.107 *Amber civil airway No. 7 (Key West, Fla., to United States-Canadian Border)* is amended between Key West, Fla., and Miami, Fla., radio range stations to read: "From the Key West, Fla., radio range station via the Marathon, Fla., nondirectional radio beacon; Homestead, Fla., AFB nondirectional radio beacon; Miami, Fla., radio range station;".

2. Section 600.648 is added to read:

§ 600.648 *Blue civil airway No. 48 (Marathon, Fla., to Miami, Fla.).* From the Marathon, Fla., nondirectional radio beacon via the intersection of the northeast course of the Key West, Fla., radio range and the Southeast course of the Miami, Fla., radio range to the Miami, Fla., radio range station.

3. Section 600.6054 *VOR civil airway No. 54 (Texarkana, Ark., to Charlotte, N. C.)* is amended by deleting the portion which reads: "to the Muscle Shoals, Ala., omnirange station. From the Chattanooga, Tenn., omnirange station via the Spartanburg, S. C., omnirange station; to the Charlotte, N. C., omnirange station." and by adding the following portion in lieu thereof: "Muscle Shoals, Ala., omnirange station; Huntsville, Ala., omnirange station; Chattanooga, Tenn., omnirange station; Spartanburg, S. C., omnirange station; to the Charlotte, N. C., omnirange station."

(Sec. 205, 52 Stat. 984, amended; 49 U. S. C. 425. Interpret or apply sec. 302, 52 Stat. 985, as amended; 49 U. S. C. 452)

This amendment shall become effective 0001 e. s. t. July 2, 1956.

[SEAL] JAMES T. PYLE,
*Acting Administrator of Civil Aeronautics.*

[F. R. Doc. 56-4766; Filed, June 18, 1956; 8:45 a. m.]

[Amdt. 10]

PART 601—DESIGNATION OF CONTROL AREAS, CONTROL ZONES, AND REPORTING POINTS

ALTERATIONS

The control area, control zone and reporting point alterations appearing hereinafter have been coordinated with the civil operators involved, the Army, the Navy and the Air Force, through the Air Coordinating Committee, Airspace Panel, and are adopted to become effective when indicated in order to promote safety. Compliance with the notice, procedures, and effective date provisions of section 4 of the Administrative Procedure Act would be impracticable and contrary to public interest and therefore is not required.

Part 601 is amended as follows:

1. Section 601.648 is added to read:

§ 601.648 *Blue civil airway No. 48 control areas (Marathon, Fla., to Miami, Fla.).* All of Blue civil airway No. 48.

2. Section 601.1234 is amended to read:

§ 601.1234 *Control area extension (Marathon, Fla.).* Within 5 miles either side of a line bearing 219° True extending from the Marathon, Fla., nondirectional radio beacon to the northern boundary of the Havana, Cuba, Control Area excluding the portion below 2,000 ft. between Amber civil airway No. 7 and the Havana Control Area boundary, and within 5 miles either side of a direct line extending from the Marathon, Fla., nondirectional radio beacon to the Tamiami, Fla., nondirectional radio beacon.

3. Section 301.1408 is added to read:

§ 601.1408 *Control area extension (Miami, Fla.).* That airspace south of Miami bounded on the east by Miami control area extension (§ 601.1232), on the south by Blue civil airway No. 48 and Amber civil airway No. 7, and on the northwest by Blue civil airway No. 19; that airspace southwest of Miami bounded on the north by Blue civil airway No. 3, on the southeast by Blue civil airway No. 19 and on the west by the Marathon control area extension (§ 601.1234).

4. Section 601.1409 is added to read:

§ 601.1409 *Control area extension (Huntsville, Ala.).* Within 5 miles either side of the 341° True and 161° True radials of the Huntsville omnirange extending from the omnirange station to points 15 miles northwest and southeast excluding the portion which overlaps the Redstone Arsenal restricted area (R–112).

5. Section 601.2381 is added to read:

§ 601.2381 *Homestead, Fla., control zone.* Within a 5-mile radius of the Homestead Air Force Base and within 2 miles either side of the centerline of the northeast-southwest runway extending from the runway end to a point 10 miles southwest of the Homestead AFB nondirectional radio beacon.

6. Section 601.2382 is added to read:

§ 601.2382 *Huntsville, Ala., control zone.* Within a 6-mile radius of the Huntsville Municipal Airport excluding the portion which overlaps the Redstone Arsenal restricted area (R–112).

7. Section 601.4107 *Amber civil airway No. 7 (Key West, Fla., to United States-Canadian Border)* is amended by changing all before Miami, Fla., radio range station to read: "Key West, Fla., radio range station; Marathon, Fla., nondirectional radio beacon; Homestead, Fla., AFB nondirectional radio beacon; Miami, Fla., radio range station;".

8. Section 601.4648 is added to read:

§ 601.4648 *Blue civil airway No. 48 (Marathon, Fla., to Miami, Fla.).* The intersection of the southeast course of the Miami, Fla., radio range and the northeast course of the Key West, Fla., radio range.

9. Section 601.5001 *Other reporting points* is amended by adding the following reporting point:

Sable intersection: The intersection of the southwest course of the Perrine, Fla., radio range and the centerline of the Marathon control area extension (§ 601.1234).

(Sec. 205, 52 Stat. 984, as amended; 49 U. S. C. 425. Interpret or apply sec. 601, 52 Stat. 1007, as amended; 49 U. S. C. 551).

This amendment shall become effective 0001 e. s. t. July 2, 1956.

[SEAL] JAMES T. PYLE,
*Acting Administrator of Civil Aeronautics.*

# TITLE 16—COMMERCIAL PRACTICES

## Chapter I—Federal Trade Commission

[Docket 6236]

PART 13—DIGEST OF CEASE AND DESIST ORDERS

MITCHELL S. MOHR ET AL.

Subpart—*Furnishing means and instrumentalities of misrepresentation or deception:* § 13.1055 *Furnishing means and instrumentalities of misrepresentation or deception.* Subpart—*Misrepresenting oneself and goods*—Business status, advantages or connections: § 13.1425 *Government connection;* § 13.1450 *Individual or private business as educational, religious or research institution;* § 13.1490 *Nature, in general.* Subpart—*Securing information deceptively:* § 13.2168 *Securing information deceptively.* Subpart—*Using misleading name*—vendor: § 13.2380 *Government connection;* § 13.2410 *Individual or private business being educational, religious or research institution or organization;* § 13.2425 *Nature, in general.*

(Sec. 6, 38 Stat. 721; 15 U. S. C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended; 15 U. S. C. 45) [Cease and desist order, Mitchell S. Mohr dba National Research Company (Washington, D. C.) et al., Docket 6236, June 1, 1956]

*In the Matter of Mitchell S. Mohr, an Individual Trading and Doing Business as National Research Company, and Sydney Floersheim, an Individual Trading and Doing Business as S. Floersheim Sales Company*

This proceeding was heard by a hearing examiner on the complaint of the Commission, charging two individuals with operating schemes for obtaining information concerning delinquent debtors by subterfuge under which they sold printed mailing forms to collection agencies and merchants, certain of which, mailed from Washington, D. C., purported to emanate from an agency of the United States Government, others of which represented that certain amounts of money were due the addressee, and others of which represented that research projects were being carried forward to ascertain the brand of cigarettes or gasoline used by the addressee.

Following hearings in due course, the hearing examiner made his initial decision, including findings, conclusions, and order to cease and desist, which the Commission, in an opinion by the Chairman denying an appeal therefrom, adopted on June 1, 1956, as the decision of the Commission.

The order to cease and desist is as follows:

*It is ordered,* That respondents Mitchell S. Mohr, individually and trading as National Research Company, and Sydney Floersheim, individually and trading as S. Floersheim Sales Company, or trading under any other name or trade designation, jointly or severally, their representatives, agents and employees, directly or through any corporate or other device, in connection with the business of obtaining information concerning delinquent debtors, or the offering for sale, sale or distribution of forms, or other material, for use in obtaining information concerning delinquent debtors, in commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from:

1. Using or placing in the hands of others for use, any form, questionnaire, or other material, printed or written, which represents, directly or by implication, that the purpose for which the information is requested is other than that of obtaining information concerning delinquent debtors;

2. Representing, or placing in the hands of others any means of representing, directly or by implication, that money is being held for or is due, persons concerning whom information is sought, or is collectible by such persons, unless money is in fact due and collectible by such persons and the amount of such money is accurately stated;

3. Using the terms "Claims Office," "Reverification Office," or "United States Credit Control Bureau," or the picturization of an eagle, or any other word or phrase, or picturization of similar import to designate, describe or refer to respondents' business; or otherwise representing, directly or by implication, that requests for information concerning delinquent debtors are from the United States Government or any agency or branch thereof, or that their business is in any way connected with the United States Government;

4. Using the name "New Employment Status Questionnaire," or any other name of similar import to designate, describe or refer to Respondents' business; or otherwise representing directly or by implication that Respondents' business is that of gathering and furnishing information relative to employment;

5. Using the name "Disbursements Office," or any other name of similar import to designate, describe or refer to Respondents' business; or otherwise representing, directly or by implication, that money has been deposited with them for persons from whom information is requested, unless or until the money has in fact been so deposited, and then only when the amount so deposited is clearly and expressly stated;

6. Using the name "Cigarette and Tobacco Research Bureau," or "National Gasoline Research Bureau," or any other name of similar import to designate, describe or refer to Respondents' business; or otherwise representing, directly or by implication, that Respondents are a research bureau, or are engaged in research.

By "Final Order," report of compliance was required as follows:

*It is ordered* That the respondents, Mitchell S. Mohr and Sydney Floersheim, shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing, setting forth in detail the manner and form in which they have complied with the order contained in the aforesaid initial decision.

Issued: June 1, 1956.

By the Commission.

[SEAL] ROBERT M. PARRISH, *Secretary.*

[Docket 6505]

PART 13—DIGEST OF CEASE AND DESIST ORDERS

FUR & WOOL MILLS, INC., ET AL.

Subpart—*Misrepresenting oneself and goods*—Goods: § 13.1590 *Composition;* § 13.1685 *Nature.* Subpart—*Using misleading name*—Goods: § 13.2280 *Composition;* § 13.2315 *Nature.*

(Sec. 6, 38 Stat. 721; 15 U. S. C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended; 15 U. S. C. 45) [Cease and desist order, Fur & Wool Mills, Inc., et al., Danbury, Conn., Docket 6505, May 31, 1956]

*In the Matter of Fur & Wool Mills, Inc., a Corporation, Platt Wool Corporation, a Corporation, Richard Becker and William Mond, Individually and as Officers of Said Corporations, S. Rosenfelder & Son, Inc., a Corporation, and William Mond, Individually and as an Officer of Said Corporation*

This proceeding was heard by a hearing examiner on the complaint of the Commission—charging three corporations and their officers, occupying the same premises in Danbury, Conn., and closely related by stock ownership, common officers, and business relationships, with violating the Federal Trade Commission Act, through falsely invoicing fur fibers to mills and other purchasers as "Natural Guanaco," "Guanaco Fur Blend," "Mink Fur Blend," and "Beaver Fur Blend," when the predominant fiber in the product so described was not guanaco, mink, or beaver, respectively—and an agreement between the parties containing consent order to cease and desist.

On this basis, the hearing examiner made his initial decision and order to cease and desist, which became, on May 31, 1956, the decision of the Commission.

The order to cease and desist is as follows:

*It is ordered,* That respondent Fur & Wool Mills, Inc., a corporation, and its officers; respondent Platt Wool Corporation, a corporation, and its officers; respondent S. Rosenfelder & Son, Inc., a corporation, and its officers; and respondents Richard Becker and William Mond, individually and as officers of Fur & Wool Mills, Inc., and Platt Wool Corporation; and William Mond, individually and as an officer of S. Rosenfelder & Son, Inc., and respondents' representatives, agents and employees, directly or through any corporate or other device, in connection with the offering for sale, sale or distribution of fur fiber products, or any other products, in commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from: Misrepresenting the constituent fibers of which their products are composed, or the percentages or amounts thereof, in sales invoices or in any other manner.

By "Decision of the Commission," etc., report of compliance was required as follows:

*It is ordered,* That respondents Fur & Wool Mills, Inc., a corporation, Platt Wool Corporation, a corporation, Richard Becker and William Mond, individually and as officers of said corporations, S. Rosenfelder & Son, Inc., a corporation, and William Mond, individually and as an officer of said corporation, shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with the order to cease and desist.

Issued: May 31, 1956.

By the Commission.

(Sec. 6, 38 Stat. 721; 15 U. S. C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended; sec. 8, 65 Stat. 179; 15 U. S. C. 45, 69f) [Cease and desist order, Buckspan's et al., Dallas, Tex., Docket 6514, May 30, 1956]

*In the Matter of Buckspan's, a Corporation, and H. M. Buckspan, Individually and as an Officer of Said Corporation*

This proceeding was heard by a hearing examiner on the complaint of the Commission—charging a corporation and its officers, with place of business in Dallas, Tex., with violating the Fur Products Labeling Act and the Federal Trade Commission Act, through false labeling and false invoicing which failed to disclose that certain fur products were composed of flanks, and failed to set forth information as required; and with false advertising in newspapers which failed to disclose the names of animals producing the fur, the country of origin, the fact that fur contained in the products was artificially colored, consisted of paws, tails, bellies or waste fur, or of flanks; which abbreviated required information; and which misrepresented prices and value—and an agreement consenting to issuance of an order to cease and desist.

On this basis, the hearing examiner made his initial decision and order to cease and desist which, by order of May 29, 1956, became, on May 30, the decision of the Commission.

The order to cease and desist is as follows:

*It is ordered,* That respondents, Buckspan's, a corporation, and its officers, and H. M. Buckspan, individually and as an officer of said corporation, and respondents' representatives, agents, and employees, directly or through any corporate or other device, in connection with the introduction into commerce, or the sale, advertising, or offering for sale in commerce, or the transportation or distribution in commerce, of fur products, or in connection with the sale, advertising, offering for sale, transportation, or distribution of fur products which have been made in whole or in part of fur which has been shipped and received in commerce, as "commerce", "fur", and "fur product" are defined in the Fur Products Labeling Act, do forthwith cease and desist from:

A. Misbranding fur products by:

1. Failing to affix labels to fur products showing:

a. The name or names of the animal or animals producing the fur or furs contained in the fur product as set forth in the Fur Products Name Guide and as prescribed under the rules and regulations;

b. That the fur product contains or is composed of used fur when such is a fact;

c. That the fur product contains or is composed of bleached, dyed, or artificially colored fur when such is a fact;

d. That the fur product is composed in whole or in substantial part of paws, tails, bellies, or waste fur when such is a fact;

e. The name, or other identification issued and registered by the Commission, of one or more persons who manufactured such fur product for introduction into commerce, introduced it into commerce, sold it in commerce, advertised or offered it for sale in commerce, or transported or distributed it in commerce;

f. The name of the country of origin of any imported furs used in the fur product;

2. Setting forth on labels attached to fur products:

a. Nonrequired information mingled with required information;

b. Required information in handwriting;

3. Failing to show on labels attached to fur products that the fur products are composed in whole or substantial parts of flanks when such is the fact;

B. Falsely or deceptively invoicing fur products by:

1. Failing to furnish invoices to purchasers of fur products showing:

a. The name or names of the animal or animals producing the fur or furs contained in the fur product, as set forth in the Fur Products Name Guide and as prescribed under the rules and regulations;

b. That the fur product contains or is composed of used fur, when such is a fact;

c. That the fur product contains or is composed of bleached, dyed, or otherwise artificially colored fur, when such is a fact;

d. That the fur product is composed in whole or in substantial part of paws, tails, bellies, or waste fur, when such is a fact;

e. The name and address of the person issuing such invoice;

f. The name of the country of origin of any imported fur contained in a fur product;

2. Setting forth required information in abbreviated form;

3. Failing to set forth on invoices pertaining to fur products that the fur products are composed in whole or in substantial part of flanks, when such is the fact;

C. Falsely or deceptively advertising fur products, through the use of any advertisement, representation, public announcement, or notice which is intended to aid, promote, or assist, directly or indirectly, in the sale or offering for sale of fur products, and which:

1. Fails to disclose:

a. The name or names of the animal or animals producing the fur or furs contained in the fur product as set forth in the Fur Products Name Guide, and as prescribed under the rules and regulations;

b. That the fur products contain or are composed of bleached, dyed, or otherwise artificially colored fur when such is a fact;

c. That the fur products are composed in whole or in substantial part of paws, tails, bellies, or waste fur when such is the fact;

d. The country of origin of imported furs as required by the Fur Products Labeling Act or in the manner and form permitted by Rule 38 (b) of the rules and regulations promulgated thereunder (§ 301.38 (b) of this chapter);

e. Setting forth required information in abbreviated form;

f. That fur products are composed in whole or substantial part of flanks, when such is the fact;

2. Represents, directly or by implication, that the regular or usual price of any fur product is any amount which is in excess of the price at which the respondents have usually and customarily sold such products in the recent regular course of their business;

3. Makes use of comparative prices or percentage savings claims unless such compared prices or claims are based upon current market value of the fur product or upon a bona fide compared price at a designated time;

4. Makes pricing claims or representations of the type referred to in paragraphs C 2 and C 3 above, unless there is maintained by respondents an ade-

quate record disclosing the facts upon which such claims or representations are based.

By "Decision of the Commission", etc., report of compliance was required as follows:

*It is ordered*, That respondents Buckspan's, a corporation, and H. M. Buckspan, individually and as an officer of said corporation, shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with the order to cease and desist.

Issued: May 29, 1956.

PART 4—VESSELS IN FOREIGN AND DOMESTIC TRADES

WAIVER OF COASTWISE TOWING LAWS

JUNE 14, 1956.

Upon written recommendation in the interest of national defense by the Secretary of the Army, acting under the delegation of August 18, 1955 (20 F. R. 6361), of certain powers of the Secretary of Defense with respect to matters concerning the St. Lawrence Seaway Power Project or the St. Lawrence Seaway Navigation Project, and by virtue of the authority vested in me by the act of December 27, 1950 (64 Stat. 1120), and Revised Treasury Department Order No. 165, as amended (T. D.'s 53654 and 53966), I hereby waive compliance with section 316, title 46, United States Code, to the extent necessary to permit the Canadian tugs "Harbor Master," "Radel," and "Newfie Queen" to tow the barges "Walsh Construction Company No. 51," "Walsh Construction Company No. 52," and "Walsh Construction Company No. 55" from Hawkins Point (near Massena), New York, to Cornwall, Ontario, and to permit the Canadian tug "Salvage Prince" to tow the barges from Cornwall, Ontario, to Alexandria Bay, New York, on one voyage, including a layover in Cornwall, the towing operation to commence on or about the date notification of the issuance of this waiver is received by the Tecon Corporation or its attorney.

(R. S. 161, 251, secs. 2, 3, 23 Stat. 118, as amended, 119 as amended, sec. 624, 46 Stat. 759; 5 U. S. C. 22, 19 U. S. C. 66, 1624, 46 U. S. C. 2, 3)

[SEAL] C. A. EMERICK, *Acting Commissioner of Customs.*

[F. R. Doc. 56-4796; Filed, June 18, 1956; 8:52 a. m.]

[1] Filed as part of the original document.

## TITLE 32—NATIONAL DEFENSE

### Chapter V—Department of the Army

Subchapter G—Procurement

PART 590—GENERAL PROVISIONS

PART 591—PROCUREMENT BY FORMAL ADVERTISING

PART 592—PROCUREMENT BY NEGOTIATION

PART 594—INTERDEPARTMENTAL PROCUREMENT

PART 596—CONTRACT CLAUSES

PART 598—PATENTS AND COPYRIGHTS

PART 602—GOVERNMENT PROPERTY

PART 603—INSPECTION AND ACCEPTANCE

PART 605—PROCUREMENT FORMS

PART 606—SUPPLEMENTAL PROVISIONS

MISCELLANEOUS AMENDMENTS

1. Revoke §§ 590.251 and 590.252, revise § 590.253-1 and in § 590.253-2, revise portions under heading "Chemical Corps", "Quartermaster Corps", and "Transportation Corps", as follows:

§ 590.251 *Appropriated funds.* [Revoked.]

§ 590.252 *Change orders and supplemental agreements.* [Revoked.]

§ 590.253-1 *Purchasing office.* The term "purchasing office" when used in this procedure means any installation or activity, or any division, office, branch, section, unit, or other organizational element of an installation or activity within the Army Establishment (including post, camp, and station), charged with the functions of buying, purchasing, or contracting for supplies or services.

§ 590.253-2 *Principal purchasing offices.* • • •

CHEMICAL CORPS

Fort Detrick, Frederick, Maryland.

BW Laboratories, Army Chemical Center Procurement Agency, Army Chemical Center, Maryland.

Chicago Chemical Procurement District, Chicago, Illinois.

New York Chemical Procurement District, New York, New York.

• • • • •

QUARTERMASTER CORPS

Philadelphia QM Depot, Philadelphia, Pennsylvania.

Headquarters, QM Market Center System, Chicago, Illinois.

Columbus General Depot, United States Army, Columbus, Ohio.

• • • • •

TRANSPORTATION CORPS

Transportation Supply and Maintenance Command, St. Louis, Missouri.

2. Section 590.456 is revoked and § 590.457 is redesignated as § 590.456.

3. In § 591.403, revise paragraphs (f) and (i); and revise §§ 591.405-3 and 591.405-50 as follows:

§ 591.403 *Rejection of bids.* • • •

(f) *Unreasonable bids.* Bids may be rejected if the Contracting Officer determines that such bids are not reasonable. The Contracting Officer may make partial award to low bidders whose prices are considered reasonable and reject all other bids as unreasonable.

• • • • •

(i) *Not responsible bidders.* (1) The lowest bid as to price may be rejected by the Contracting Officer if the bidder is determined to be not responsible. For the elements to be considered in determining responsibility see § 590.307 of this subchapter.

(2) Prior to rejecting the lowest bid when it has been received from a firm believed not to be a source of supply, as defined in § 1.201-9 of this title and § 590.201-9 of this subchapter, a request will be submitted to the Head of the Procuring Activity concerned for (i) a review of the facts and (ii) authority to reject the bid on the basis that the bidder does not qualify as a "source of supply." In forwarding such requests, Contracting Officers will be careful to verify all statements contained therein which are given as the basis for rejection, in order that there may be no just cause for complaint.

• • • • •

§ 591.405-3 *Disclosure of mistakes after award.* (a) In cases where alleged mistakes in bid are disclosed after award has been made, the case will be forwarded through normal channels to the Head of the Procuring Activity concerned, and will include the data listed in § 2.405-2 (e) (1) through (4) of this title. The following additional data will also be included:

(1) A copy of the contract and any supplemental agreements thereto.

(2) A signed statement by the contracting officer (i) describing the supplies or services involved (ii) specifying how and when the mistake was alleged (iii) summarizing the evidence submitted by the contractor (iv) disclosing the status of performance and payments under the contract (v) submitting any additional evidence considered pertinent (vi) setting forth his opinion as to whether a bona fide mistake was made (vii) recommending either approval or denial of the contractor's request.

(b) Heads of Procuring Activities are authorized to rescind or reform contracts provided that:

(1) The original contract price is under $500 or a resultant increase in price does not exceed $500 and the resultant price does not exceed that of the next higher bid or proposal, if such a higher bid or proposal was submitted; and

(2) There is a determination and findings made by the Head of the Procuring Activity concerned, upon advice of legal counsel, that the evidence is clear and convincing that a mistake in bid or proposal was made by the Contractor and that the resulting contract price should be increased in the amount determined by the Head of the Procuring Activity or that the contract should be rescinded.

(c) The Contracting Officer will attach a copy of such determination and findings to all copies of the contract modification and distribute such determination and findings as required by §§ 591.405-50 (b) and 591.406-5 (a); and

(d) The Contracting Officer will fully document the contract file for such review of the action as may be required by the Comptroller General of the United States in his audit of accounts.

(e) Where the request for rescission or reformation, if granted, would exceed the limitations set forth in paragraph (b) of this section, or where the request is not granted by the Head of the Procuring Activity concerned, the case will be forwarded to the Deputy Chief of Staff for Logistics, Department of the Army, ATTN: Chief, Purchases Branch. In such cases, the file will contain a statement of the Head of the Procuring Activity, setting forth his recommendation in the matter.

(f) Notice of significant change in contract status affecting a mistake in bid case being considered at a higher echelon will be forwarded promptly through normal channels to the office which will render the decision in the case.

§ 591.405-50 *Reports—(a) Determinations pursuant to delegated authority.* (1) The Chief of Engineers, the Chief of Ordnance, and The Quartermaster General will furnish to the Chief, Purchases Branch, Office of the Deputy Chief of Staff for Logistics, by the 10th of each month the following information relative to each administrative determination made during the preceding calendar month under the delegation of authority referred to in § 591.405-2 (a): (i) Copy of the Contracting Officer's statement described in § 2.405-2 (e) (5) of this title; (ii) copy of the determination referred to in § 2.405-2 (a) of this title; and (iii) such additional data as are material to the determination.

(2) Heads of Procuring Activities will furnish to the Chief, Purchases Branch, Office of the Deputy Chief of Staff for Logistics, by the 10th of each month the following information relative to each administrative determination made during the preceding calendar month under the delegation of authority referred to in § 591.405-3 (b): (i) Copy of the Contracting Officer's statement described in § 591.405-3 (a) (2); (ii) copy of the determination referred to in § 591.405-3 (b) (2); and (iii) such additional data as are material to the determination.

(b) *To Disbursing Officer.* The Contracting Officer will furnish a copy of the administrative determination, or a copy of the decision of the Comptroller General, if any, respecting a mistake in bid, to the Disbursing Officer to support any payment made or to be made by him.

4. Subparts B, C, and F of Part 592 are revised as follows:

SUBPART B—CIRCUMSTANCES PERMITTING NEGOTIATION

| Sec. | |
|---|---|
| 592.200 | Scope of subpart. |
| 592.200-50 | Limitation. |
| 592.201 | National emergency. |
| 592.201-1 | Authorization. |
| 592.201-50 | Limitation. |
| 592.202 | Public exigency. |
| 592.202-2 | Application. |
| 592.202-3 | Limitation. |
| 592.203 | Purchases not in excess of $1,000. |
| 592.203-2 | Application. |
| 592.204 | Personal or professional services. |
| 592.204-50 | Approval of award. |
| 592.205 | Services of educational institutions. |
| 592.205-2 | Application. |
| 592.207 | Medicines or medical supplies. |
| 592.207-2 | Application. |
| 592.208 | Supplies purchased for authorized resale. |
| 592.208-2 | Application. |
| 592.209 | Perishable subsistence supplies. |
| 592.209-2 | Application. |
| 592.210 | Supplies or services for which it is impracticable to secure competition by formal advertising. |
| 592.210-2 | Application. |
| 592.211 | Experimental, developmental, or research work. |
| 592.211-2 | Application. |
| 592.211-3 | Limitation. |
| 592.211-4 | Records and reports. |
| 592.212 | Classified purchases. |
| 592.212-2 | Application. |
| 592.213 | Technical equipment requiring standardization and interchangeability of parts. |
| 592.213-2 | Application. |
| 592.213-3 | Limitation. |
| 592.214 | Technical or specialized supplies requiring substantial initial investment or extended period of preparation for manufacture. |
| 592.214-2 | Application. |
| 592.214-3 | Limitation. |
| 592.215 | Negotiation after advertising. |
| 592.215-2 | Limitation. |
| 592.216 | Purchases in the interest of national defense or industrial mobilization. |
| 592.216-2 | Application. |
| 592.216-3 | Limitation. |
| 592.216-4 | Records and reports. |
| 592.217 | Otherwise authorized by law. |
| 592.217-2 | Application. |
| 592.218 | Construction work. |

AUTHORITY: §§ 592.200 to 592.218 issued under 62 Stat. 21; 41 U. S. C. 151-162.

§ 592.200 *Scope of subpart.* Subpart B, Part 3 of this title and this subpart are not applicable to purchases by negotiation specifically authorized by the Secretary under the authority of Title II, First War Powers Act, 1941, as amended by Public Law 921, 81st Congress. Negotiations under this authority will be governed by the procedures set forth in Subpart D, Part 606 of this subchapter.

§ 592.200-50 *Limitation.* (a) In those cases where negotiation is contemplated and a Determination and Findings by the Secretary is required, the request for proposals or request for quotations will not be issued until the Determination and Findings has been signed by the Assistant Secretary of the Army (Logistics), with the exception set forth in § 592.211-3 (a).

(b) When a separate facilities contract will be necessary to support a contract for supplies or services, and when the contract for supplies or services will require a determination by the Secretary, one Determination and Findings will be prepared to cover both contracts. The same section of the Armed Services Procurement Act of 1947 will be cited as the authority to negotiate both the supply or service contract and the supporting facilities contract.

(c) A determination by the Secretary is not required for the negotiation of any contract modification resulting from changes under the Changes Article of the basic contract, or for the modification of a cost type contract to provide additional funds only, without change in the scope of the contract.

§ 592.201 *National emergency.*

§ 592.201-1 *Authorization.* (a) A national emergency having been declared by the President on December 16, 1950, the Secretary has made the determination set forth below:

DEPARTMENT OF THE ARMY

DETERMINATION

*Authority to Negotiate during Period of National Emergency*

18 DEC. 1950.

1. A National Emergency having been declared by the President of the United States on 16 December 1950, I hereby determine in accordance with section 2 (c) (1) of the Armed Services Procurement Act of 1947, that it is necessary in the public interest that, to the extent provided in paragraph 2 hereof, purchases and contracts under said act be negotiated without formal advertising during the period of said National Emergency.

2. Accordingly, I hereby authorize the negotiation of purchases and contracts for supplies and services by the Department of the Army under section 2 (c) (1) of the Armed Services Procurement Act of 1947 during the period of said National Emergency.

(Signed) ARCHIBALD S. ALEXANDER, *Under Secretary of the Army.*

§ 592.201-50 *Limitation.* (a) See § 592.211-3 (a) and (b).

(b) This authority will be used only to the extent authorized in § 3.201-2 of this title.

(c) Section 2 (c) (1) of the Armed Services Procurement Act of 1947 will be cited as specific authority to negotiate a contract and each amendment thereof, for experimental, developmental, or research work, or for the manufacture or furnishing of supplies for experimentation, development, research, or test, when the estimated cost of either is $100,000 or less (§ 3.201-2 (b) of this title), except that this authority will not be used to negotiate a contract or an amendment thereof, regardless of amount, for experimental, developmental, or research work, or for the manufacture or furnishing of supplies for experimentation, development, research, or test, where the contract is entered into with an educational institution (§§ 592.205-2 (a) and 592.211-2).

§ 592.202 *Public exigency.*

§ 592.202–2 *Application.* (a) Section 2 (c) (2) of the Armed Services Procurement Act of 1947 may be used as authority for negotiating a contract if the compelling and urgent need for the supplies or services to be purchased is within the limitations of § 3.202 of this title and this section. In using this authority, Contracting Officers will assure themselves that the need for negotiating is sufficiently compelling and of unusual urgency, and that the emergency situation requires an immediate purchase for which delivery cannot be effected within the time required by means of formal advertising.

(b) When negotiating under this authority, competition to the maximum extent practicable within the time allowed will be obtained.

(c) A procurement of material to effect necessary and emergency repairs to a broken water main would be appropriate under § 3.202 of this title and this section, provided that the emergency conditions require immediate replacement of defective materials. This authority could also properly be cited for the emergency procurement of packing material required to effect an emergency air or rail shipment. The facts bearing on the emergency situation, must clearly be shown in the justification in sufficient detail to explain clearly the necessity for purchasing without formal advertising. The Contracting Officer's justification must be supported by the existence of specific emergency circumstances which in themselves relate to the particular purchase being effected.

(d) A short delivery or performance requirement in itself is not a sole justification for the use of section 2 (c) (2) of the Armed Services Procurement Act of 1947. The reasons for effecting delivery or performance by a certain date must be of such a nature that they will fully support the Contracting Officer's action in the event he finds it necessary to use this authority. When delivery requirements are of the utmost importance, officials supervising the issuance of procurement directives to Contracting Officers will be responsible for clearly indicating in the directives the exigent importance for having the supplies delivered by certain dates, including pertinent data as to the reasons therefor. In this connection, Contracting Officers should not be expected or required to negotiate contracts under this authority unless facts sufficient to support their actions can be presented to them in writing by responsible persons in positions of higher authority.

(e) Section 2 (c) (2), Armed Services Procurement Act of 1947, and § 3.202 of this title will not be used as authority to negotiate supplemental agreements to basic contracts supported by a Determination and Findings signed by the Secretary, except (1) when all the requirements of § 3.202 of this title and this section have been satisfied, and (2) when the supplemental agreement is for the purpose of expediting delivery or performance, such as through the use of overtime or extra-pay shifts.

§ 592.202–3 *Limitation.* A copy of the Contracting Officer's signed statement justifying the use of this authority required by § 3.202–3 of this title will be attached to the request for approval of award, if such approval is required by § 606.204 of this subchapter.

§ 592.203 *Purchases not in excess of $1,000.*

§ 592.203–2 *Application.* Purchases of contracts aggregating $1,000 or less shall be made in accordance with Subpart F, Part 3 of this title and Subpart F of this Part and section 2 (c) (3) of the Armed Services Procurement Act of 1947 shall be cited as the authority for negotiation (§ 592.602 (a)).

§ 592.204 *Personal or professional services.*

§ 592.204–50 *Approval of award.* (a) The requirements for approval of higher authority of contracts involving personal and professional services are set forth in § 606.204–1 (a) of this subchapter.

(b) The requirements for approval of higher authority of contracts containing provisions closely related to personal services contracts are set forth in § 606.204–1 (b) of this subchapter.

§ 592.205 *Services of educational institutions.*

§ 592.205–2 *Application.* (a) Section 2 (c) (5) of the Armed Services Procurement Act of 1947 will be cited as specific authority to negotiate all contracts and amendments thereof, regardless of amounts, including contracts for experimental, developmental, or research work, or for the manufacture or furnishing of supplies for experimentation, development, research, or test, and for supplies or services classified CONFIDENTIAL or higher, including Confidential Modified Handling Authorized, where the contract is entered into with an educational institution.

(b) For use as general guide, the phrase "other educational institution," as used in § 3.205 of this title and this section, is defined as follows: Any legal entity in the field of education organized and operated for the purpose of advancement of knowledge through study, training, or investigation, and which is not operated for a profit or no part of the earnings of which inure to the benefit of any individual directly or indirectly, may be considered as an educational institution.

(c) In negotiating a contract under this authority with a prospective Contractor who may qualify under the "other educational institution" provision, a statement, supported by conclusive evidence of his contention, will be obtained from the prospective Contractor as to whether he can qualify as an educational institution. The following are illustrative of supporting evidence which may be furnished:

(1) Acceptance by the Bureau of Internal Revenue as an educational institution.

(2) State recognition as an educational institution.

(3) Charter of the institution.

(4) Other evidence of the nonprofit character of the institution.

§ 592.207 *Medicines or medical supplies.*

§ 592.207–2 *Application—(a) Competition.* When supplies identified by brand or trade names are required (no specification being applicable thereto), and when such supplies cannot be purchased direct from the sole manufacturer, the solicitation for proposals should extend to as many known wholesale sources of supply handling the particular brand required as practicable.

(b) *Advance publicity.* In those purchases exceeding $10,000 negotiated under this authority, the form and extent of suitable advance publicity (which will be given for a period of at least 15 days whenever practicable) will be determined in accordance with instructions prescribed by each respective Procuring Activity.

§ 592.208 *Supplies purchased for authorized resale.*

§ 592.208–2 *Application—(a) Competition.* In negotiating under this authority, the Contracting Officer shall insure that full and free competition is solicited.

(b) *Advance publicity.* In those purchases exceeding $10,000 negotiated under this authority, the form and extent of suitable advance publicity (which will be given for a period of at least 15 days whenever practicable) will be determined in accordance with instructions prescribed by each respective Procuring Activity.

§ 592.209 *Perishable subsistence supplies.*

§ 592.209–2 *Application.* In negotiating under this authority, "perishable subsistence" shall be construed to mean those items of food determined to be of a perishable nature (as distinguished from nonperishable subsistence) by The Quartermaster General (see § 3.201–2 (b) (3) of this title) for nonperishable subsistence procurement.

§ 592.210 *Supplies or services for which it is impracticable to secure competition by formal advertising.*

§ 592.210–2 *Application.* (a) Section 2 (c) (10) of the Armed Services Procurement Act of 1947 may be used as an authority for negotiating a contract if the circumstances involved in the particular procurement are similar to those set forth in § 3.210 of this title. Care and sound judgment, however, will be exercised to prevent abusive use of this authority.

(b) The signed statement of justification required by § 3.210–3 of this title need not be in the form of a formal Determination and Findings. A simple narrative statement or certificate signed by the Contracting Officer will fulfill the requirement. A copy of such statement or certificate will be attached to requests for approval of awards, if such approval is required by § 606.204 of this subchapter.

§ 592.211 *Experimental, developmental, research work.*

§ 592.211–2 *Application.* Section 2 (c) (11) of the Armed Services Procurement Act of 1947 shall be cited as specific authority to negotiate a contract or an amendment thereof for new procurement for experimental, developmental, or research work, or for the manufacture or furnishing of supplies for experimentation, development, research, or test, when the estimated cost of either is over $100,000, except that this authority shall not be used to negotiate a contract or an amendment thereof, regardless of amount, for experimental, developmental, or research work, or for the manufacture or furnishing of supplies for experimentation, development, research or test, where the contract is entered into with an educational institution. (§§ 592.201–2 (a) and 592.205–2 (a)).

§ 592.211–3 *Limitation.* (a) If the negotiation of a contract or an amendment thereof for new procurement pursuant to the authority contained in § 3.201–2 (b) (4) of this title contemplates the obligation of $100,000 or less, but, after negotiations are completed, the contract or amendment for new procurement to be entered into will obligate more than $100,000 such contract or amendment for new procurement must be supported by a Determination and Findings signed by the Secretary as required by § 3.302 of this title.

(b) Subsequent to the time a research and development project is initially established and approved by the appropriate Technical Committee, the Secretary, pursuant to section 7 (a) of the Armed Services Procurement Act of 1947, will consider for approval and signature those Class Determinations and Findings submitted under this authority which pertain to such approved projects and which involve multiple purchases. At the time of requesting such a determination, the estimated total cost and number of all the negotiated contracts proposed to be executed under the authority of the class determination will be specified. Such determinations will cover a specified period of time and be prepared and submitted in the manner and form prescribed by § 592.305 (a).

(c) All requests for authority to negotiate contracts for experimental, developmental, or research work submitted for approval and signature of the Secretary will be supplemented by the following information:

(1) If the authority to negotiate pertains to an extension of a contract, the date of original contract, together with total funds obligated under previous contracts, shall be stated.

(2) A summary shall be furnished of what has been completed to date under previous contracts and what is anticipated under the proposed contract.

(3) An estimate of the time necessary to complete the work.

(4) Department of the Army project number.

(5) In those cases where the work covered by the proposed contract is in a field for which primary cognizance has been assigned to another technical service, a statement will be required that the cognizant service concurs in the proposed contract.

(6) If additional extensions are anticipated, a statement will be furnished as to the amount of the estimated additional expenditure. If extensions are not anticipated, it will be so stated.

§ 592.211–4 *Records and reports.* Reports required by § 3.211–4 of this title shall be made in the form and manner prescribed by Subpart C, Part 606 of this subchapter.

§ 592.212 *Classified purchases.*

§ 592.212–2 *Application* (a) As a matter of general procurement policy, Contracting Officers shall negotiate, rather than procure by formal advertising, when the proposed contract or purchase order or the supplies or services being procured are classified CONFIDENTIAL or higher, including Confidential Modified Handling Authorized except that, this authority shall not be used to negotiate a contract or an amendment thereof, regardless of dollar amount for experimental, development, or research work, or for the manufacture or furnishing of supplies for experimentation, development, research, or test, where the contract is entered into with an educational institution. §§ 592.205–2 and 592.211–2).

(b) In addition to the requirements of § 605.1608–5 of this subchapter, DD Form 254 (Security Requirements Check List) will be used in precontract negotiations when it is necessary for proposed contractors and subcontractors to have access to classified matter.

§ 592.213 *Technical equipment requiring standardization and interchangeability of parts.*

§ 592.213–2 *Application.* (a) The term "standardization," as used in connection with this authority, is that uniformity considered necessary to accomplish maximum interchangeability of parts, as distinguished from the general definition of standardization established in SR 715–50–20 (Special regulations concerning Department of Defense military specifications).

(b) Negotiation under this authority will be limited to purchases of items of technical equipment which must be taken into the field with troops and will not be applied to items of commercial equipment used exclusively in installations in the United States.

(c) Determinations and Findings supporting procurement by negotiation under this authority will be for a stated period of time, which period, in general, will be in ratio to the life of the item being procured.

§ 592.213–3 *Limitation.* Procurements will not be negotiated under this authority unless the supplies to be purchased have been approved for standardization by the Secretary. Requests for standardization shall be submitted to the Advisory Committee On Procurement Without Advertising of Technical Equipment and Components, which committee will act in an advisory capacity to the Secretary. Additional procedures with respect to the standardization of technical equipment may be issued by the committee. In the case of formal advertising contemplating subsequent negotiation of procurements of the same equipment from the successful bidder in the interest of standardization of equipment and interchangeability of parts, see § 591.201 (i) of this subchapter.

§ 592.214 *Technical or specialized supplies requiring substantial initial investment or extended period of preparation for manufacture.*

§ 592.214–2 *Application.* The propriety of a proposed negotiation under this authority cannot be adequately judged unless the accompanying justification indicates the relative size of the previous dollar investment compared to the total of the proposed purchase, what the previous dollar investment or previous preparation consists of (with respect to such factors as facilities, tooling, equipment, training and the like), and what the already accomplished period of preparation is (in years and months). The investment and period of preparation necessary should exclude those costs and preparations such as research and development costs and production preparation, which have already been accomplished as a result of previous Department of Defense or commercial contracts provided those results can be made available to other suppliers. In giving weight to the term "substantial initial investment," justification of "substantial" in this respect must be more than the mere fact that a manufacturer accomplished the initial tooling in a particular instance.

§ 592.214–3 *Limitation.* In submitting a request for approval and signature of the Determinations and Findings required by § 3.302 of this title, a justification for the use of this authority will be presented. The following are illustrative of facts to be considered and information to be included in such a justification:

(a) The advantage which will accrue to the Government by avoiding the duplication should be emphasized.

(b) The requirement "may require duplication of investment" should be invoked only when the preceding requirement of "substantial investment" has been substantiated.

(c) The requirement "may require duplication of preparation already made" should be invoked only when the preceding requirement of "requiring an extended period of preparation for manufacture" has been substantiated.

(d) The requirement "will unduly delay procurement" should be substantiated by statements that the supplier being considered can deliver by a certain date, other suppliers cannot deliver before a specified later date, delivery by a designated earlier date is necessary for military or logistical reasons, and therefore, the proposed supplier is the only supplier who can meet the required delivery terms of the proposed contract.

(e) The name of the supplier or suppliers with whom negotiations are to be conducted will be furnished.

§ 592.215 *Negotiation after advertising.*

§ 592.215–2 *Limitation.* (a) In the event that the Contracting Officer believes that the bid prices after advertis-

ing therefor are not reasonable he shall submit to the Deputy Chief of Staff for Logistics (Chief, Purchases Branch), before negotiation a request for determination together with the following information:

(1) A list of all bidders and their bid price or prices (Abstract of Bids);

(2) A statement as to the price or prices the Contracting Officer considers to be reasonable, and

(3) A statement by the Contracting Officer why the procurement cannot or should not be readvertised.

(b) In the event the Contracting Officer believes that the bid prices have not been independently arrived at in the open competition he will, in addition to the requirements in paragraph (a) of this section, submit the information required in § 591.406–4 of this subchapter.

§ 592.216 *Purchases in the interest of national defense or industrial mobilization.*

§ 592.216–2 *Application.* (a) Section 2 (c) (16) of the Armed Services Procurement Act of 1947 will be cited as specific authority to negotiate all contracts for Phase II and Phase III Industrial Preparedness Measures in connection with the Industrial Mobilization Programs.

(b) Industrial preparedness measures are measures accomplished by private or Government facilities to provide munitions more rapidly and economically during an emergency by reducing conversion or reactivation time, production time, production equipment, critical materials, manpower, and costs. These measures are divided into the three following groups. The scope indicated for each of the three types of measures is not all inclusive but is intended as a guide for the degree of preparedness to be obtained.

(1) *Phase I; exploratory measures.* (i) Studies to determine areas where major obstacles to required buildup exist, and to recommend action to reduce them.

(ii) Studies to determine the production capacity of a facility.

(2) *Phase II; engineering measures.* (i) Redesign of an item for mass production.

(ii) Redesign of an item or other means to reduce or eliminate critical materials.

(iii) Improvement of manufacturing processes by development of new methods, techniques, or production equipment.

(iv) Steps preparatory to production in a specified plant, including plant layout, list of production equipment, flow charts, routing sheets, bills of materials, names of suppliers, and other necessary elements.

(v) Establishment of pilot production lines.

(3) *Phase III; production measures.* (i) Pilot production to test manufacturing processes.

(ii) Educational orders, the primary purpose of which is to expand the mobilization base.

(c) Section 2 (c) (16) of the Armed Services Procurement Act provides for three alternative determinations by the Secretary, any one or more of which may be used to authorize negotiation, subject to the limitation in § 592.216–3 (b). Under these alternative determinations the Secretary is required to determine that:

(1) It is in the interest of the national defense that any plant, mine, or facility or any producer, manufacturer, or other supplier be made or kept available for furnishing supplies or services in the event of a national emergency, or

(2) The interest of industrial mobilization in case of such an emergency is subserved, or

(3) The interest of national defense in maintaining active engineering, research and development is subserved.

(d) The first alternate determination (paragraph (c) (1) of this section) must be based on particular named suppliers which are to be made or kept available. This alternate may be used when:

(1) Mobilization planned base suppliers have been established, and competition is to be restricted to such suppliers, and the contract or contracts are to be placed with one or more of them, or

(2) Mobilization planned base suppliers have not been established, and the proposed procurement is to be used to establish such a base, and competition is to be restricted to those suppliers known to meet mobilization base qualifications.

(e) The second alternate determination (paragraph (c) (2) of this section) may be used when:

(1) It is desired to consider improvement in an established mobilization base through the acceptance of proposals from suppliers not in the planned base, or

(2) Mobilization planned base suppliers have not been established and the proposed procurement is to be used to establish such a base among suppliers all of whom are not presently known to meet mobilization base qualifications, and

(3) The interest of industrial mobilization in the event of a national emergency is thereby subserved.

(f) The third alternate determination (paragraph (c) (3) of this section), may be used either with or without relation to an established mobilization base, when the maintenance of active engineering, research, and development is essential in the interest of national defense.

(g) Supporting data transmitted with a Determination and Findings under section 2 (c) (16) of the act, for the procurement of supplies, must clearly demonstrate that the supplies to be procured are of such a nature that procurement must be effected by negotiation in order to meet the objectives stated in the applicable determinations. This data should include, as a minimum, the following information entered in subparagraph (2) of the transmittal form prescribed in § 592.306 (a).

(1) Statement that the supplies appear in the DOD "Preferential Planning List of End Items," or "Department of the Army Planning List" (or statement of pending action to enter).

(2) Initial and reorder lead times for the supplies.

(3) Minimum quantity required for economical production of the supplies.

(4) Number of planned mobilization suppliers.

(5) Number of current producers of the supplies.

(6) Government investment in facilities and tooling in plants of planned mobilization suppliers.

§ 592.216–3 *Limitation.* (a) When a Determination and Findings is prepared to include the first alternate determination in § 592.216–2 (c) (1), the suppliers must be named with whom negotiations will be conducted, and the planned number of suppliers to be awarded contracts must be shown. This information will be included in the Determination and Findings as a continuation of paragraph 1 (a) of the form illustrated in § 592.305, and may be entered in the following manner:

---------- proposes to procure ---------- through negotiation with the following suppliers and award a contract or contracts to (insert number) of these suppliers: (list names of all suppliers). It is usually unnecessary to name suppliers in the Determination and Findings when the second or third alternate determinations in § 592.216–2 (c) (2) and (3) alone, are included therein.

(b) When the proposed procurement of mobilization base items is substantially larger than the quantity which must be awarded in order to meet the objectives stated in the applicable determinations under section 2 (c) (16) of the act, that portion not required to meet such objectives shall ordinarily be obtained through formal advertising, or by negotiation under another appropriate section of the act.

§ 592.216–4 *Records and reports.* Reports required by § 3.216–4 of this title shall be made in the form and manner prescribed by Subpart C, Part 606 of this subchapter.

§ 592.217 *Otherwise authorized by law.*

§ 592.217–2 *Application.* Section 2 (c) (17) of the Armed Services Procurement Act of 1947 preserves the authority to negotiate contracts specifically conferred by statute other than the Armed Services Procurement Act of 1947 and not repealed therein. Contracts will not be negotiated under this authority without the prior approval of the Chief, Purchases Branch, Office of the Deputy Chief of Staff for Logistics. Requests for such approvals, with respect to either individual or classes of contracts, will contain a statement of pertinent facts and reasons therefor, including the citation of the applicable statute, and will be submitted through the Head of the Procuring Activity concerned to the Chief, Purchases Branch, Office of the Deputy Chief of Staff for Logistics.

§ 592,218 *Construction work.* Since the authority contained in § 3.218 of this title is not completely self-sufficient and can be used only in conjunction with other statutory exceptions to formal advertising, § 3.218 of this title and this section will not be cited as authority for negotiating the procurement of construction work. Only sections 2 (c) (1), (2), (3), (6), (10), (11), (12), or (15) of the Armed Services Procurement Act of 1947 will be used as authority to negotiate construction work.

### SUBPART C—DETERMINATIONS AND FINDINGS

Sec.
592.301 Nature of determination and findings.
592.302 Determinations and findings by the Secretary.
592.303 Determinations and findings by the Head of a Procuring Activity Signing as "a chief officer responsible for procurement".
592.305 Forms of determinations and findings.
592.306 Procedure with respect to determinations and findings.
592.307 Distribution of copies of determinations and findings.
592.308 Retention of copies of determinations and findings and of other records.

AUTHORITY: §§ 592.301 to 592.308, issued under 62 Stat. 21; 41 U. S. C. 151–162.

§ 592.301 *Nature of determinations and Findings—(a) Individual determination and findings.* Each proposed form of an individual Determinations and Findings will be prepared in accordance with §§ 592.200–50 and 592.305.

(b) *Class determinations and findings.* (1) Determinations and Findings, referred to throughout Part 3 of this title, and this part, may be made with respect to classes of purchases or contracts only by the Secretary. In each such case the proposed form of a Determination and Findings will provide that such class of purchases or contracts may be negotiated during a special period only. Each proposed form of a class Determination and Findings will be prepared in accordance with § 592.305. The policy of the Department of the Army is to make determinations with respect to the negotiation of classes of purchases or contracts when justified by special circumstances.

(2) Class Determinations and findings are generally appropriate only when multiple purchases are to be made within the designated class for a specified period of time. The data supporting the designation of a class should include all facts which establish the relationship of the supplies, services, or contracts within the class. The following circumstances are listed as a guide in determining whether a Class Determination and Findings is appropriate:

(i) The supplies or services are so related as to constitute a logical and distinctive class within the general category described by the applicable section of the Armed Services Procurement Act of 1947.

(ii) The circumstances justifying negotiation of all purchases under the class are of a continuing nature.

(iii) Numerous purchase actions under each class are expected for the time period covered by the Determination and Findings. For further guidance relating to identity of research and development classes, see § 592.211–3 (b).

§ 592.302 *Determinations and findings by the Secretary.* In addition to the Determinations and Findings required by § 3.302 of this title, Determination and Findings with respect to procurement actions effected pursuant to Title II, First War Powers Act, 1941, as amended, except as otherwise specifically authorized in Subpart D, Part 606 of this subchapter, shall be made only by the Secretary. Action taken by the Army Contract Adjustment Board in this regard is deemed to be the action of the Secretary.

§ 592.303 *Determinations and findings by the Head of a Procuring Activity signing as "a chief officer responsible for procurement."* (a) In addition to the determinations, and written findings in support thereof, authorized to be made by the Head of a Procuring Activity by § 3.303 of this title, the Head of a Procuring Activity, signing as "a chief officer responsible for procurement" may make determination required by § 592.407 (b) with respect to the use of a Time and Materials Contract.

(b) The Head of a Procuring Activity may delegate authority to make the determinations and written findings required by §§ 3.403–4, 3.404–1 and 3.404–3 of this title to the Deputy Head, Assistant Head, or Chief of Staff of the Procuring Activity, and to chiefs of principal purchasing offices. He also may personally select one alternate for each such delegate, provided, however, that such alternate will be empowered to make the required determination only during periods of official absence of the delegate for whom he has been selected as alternate. Neither delegates nor alternates may redelegate this authority.

(c) Determinations and Findings which may be made by the Head of a Procuring Activity in connection with procurement actions effected under the authority of Title II of the First War Powers Act, 1941, as amended, are set forth in § 606.403–4 of this subchapter. Such authority may not be delegated below the level of the Head of a Procuring Activity unless specifically authorized by the Assistant Secretary of the Army (Logistics).

§ 592.305 *Forms of determinations and findings—(a) Authority to negotiate an individual contract—(1) Form.* Individual Determinations and Findings with respect to the negotiation of contracts under the authority of §§ 3.211 to 3.216, inclusive, of this title and as otherwise required by this subchapter shall be prepared for the signature of the Assistant Secretary of the Army (Logistics) (or where authorized by § 3.211 of this title for the signature of the Head of the Procuring Activity signing as "a chief officer responsible for procurement") substantially in the form set forth below and in the manner prescribed in § 592.306 (signed certificate required only on the original copy when approval of the Secretary is required).

DEPARTMENT OF THE ARMY

DETERMINATION AND FINDINGS

*Authority to Negotiate an Individual Contract*

1. I hereby find that:

a. The (insert name of Procuring Activity) proposes to procure (describe briefly, the scope of the work, or the nature of the supplies or services called for).

b. The estimated cost of the proposed procurement is $----------, chargeable to fiscal year ------ funds.

c. The procurement of the above described supplies (services) by formal advertising is not feasible because (summarize such pertinent facts as are available and relevant to support the determination to be made in paragraph 2).

2. Upon the basis of the findings set forth above, I hereby determine that (insert statement of required determination under applicable paragraph of Subpart B, Part 3 of this title or Subpart B, Part 592).

3. Providing that the above supplies (or services) have otherwise been authorized for procurement, they may, therefore, be procured by negotiation pursuant to Section 2 (c) (insert applicable subparagraph) of the Armed Services Procurement Act of 1947 (Public Law 413, 80th Congress), and paragraph (insert applicable ASPR authority) of the Armed Services Procurement Regulation.

I certify that the statements made herein (and in the attachments hereto) are correct to the best of my knowledge and belief.

Signature is recommended.

----------
(Signature)
(Title: Head of procuring activity, his deputy or chief of staff)

(2) *Scope of determinations and findings.* In general, each Determination and Findings will be confined to a single page, setting forth the necessary findings as briefly as possible. Facts will be limited to those which are necessary and relevant to support the determinations to be made. With respect to the determination, it is important to set forth only that one which is most responsive to the various findings, and necessarily to confine it to the requirements and the particular language set forth under the applicable exception in the act; further in this connection, it is important to guard against a determination in the alternative (except possibly for the one relating to "experimental, developmental, or research work"). If certain requirements are optional, however, it is desired that the Determination and Findings list only those requirements of the exception which are essential and can be strongly supported. All other pertinent information should be included in the request for approval and signature of the Determination and Findings by the Secretary.

(b) *Authority to negotiate a class of purchase or contracts.* Determinations and Findings with respect to the negotiation of classes of purchases or contracts, as referred to in § 3.301 of this title and § 592.301, shall be prepared as set forth in paragraph (a) of this section, with appropriate modifications to make it applicable to a class of purchases or contracts. All such class Determinations and Findings will be prepared for the signature of the Assistant Secretary of the Army (Logistics).

(c) *Advance payments.* Determinations and Findings with respect to advance payments is set forth in Subpart E, Part 3 of this title and Subpart E of this Part.

(d) *Method of contracting.* Determinations and Findings with respect to the use of a cost, cost-plus-a-fixed-fee, or incentive type contract, as set forth in Subpart D, Part 3 of this title and Sub-

part D of this part, will be prepared for the signature of the Head of the Procuring Activity, or the officer or individual to whom authority to sign such a determination and findings has been delegated pursuant to § 592.303 (b), substantially in the following form. (Heads of Procuring Activities and Contracting Officer may use the form set forth below as a guide in making the determination required by § 592.407. If such use is made of the form, change the citation "section 4 (b)" to "section 4 (a)" in paragraph 2):

DEPARTMENT OF THE ARMY

DETERMINATION AND FINDINGS

*Method of Contracting*

1. I hereby find that:

a. The (insert name of Procuring Activity) proposes to procure (describe briefly the scope of the work, or the nature of the supplies or services called for).

b. The estimated cost of the proposed procurement is $------ (including, when applicable, a statement as to the percentage of proposed fixed fee), chargeable to fiscal year ------ funds.

c. The use of a (insert type of a contract to be used) contract is the most practicable and likely to be the least costly method of contracting because (summarize such pertinent facts as are available and relevant to support the determination to be made in paragraph 2).

2. Upon the basis of the findings set forth above, I hereby determine that pursuant to Section 4 (b) of the Armed Services Procurement Act of 1947 (Public Law 413, 80th Congress), and paragraph (insert applicable ASPR authority of the Armed Services Procurement Regulation, that the use of a (insert type of contract) contract (a) is likely to be less costly than other methods of contracting, or (b) that it is impracticable to secure supplies (or services) of the kind or quality required without the use of a (insert type of contract) contract.

---
(Title)

§ 592.306 *Procedure with respect to determinations and findings.* (a) Requests for approval of Determinations and Findings, referred to throughout Part 3 of this title and this part, and requiring the signature of the Secretary, will contain a complete statement of facts and recommendations and be accompanied by the Determination and Findings prepared for the appropriate signature, as well as such supporting data as are necessary to demonstrate the applicability of the cited section of the Armed Services Procurement Act of 1947.

(b) Request for approval of Determinations and Findings of authority to negotiate submitted for the signature of the Assistant Secretary of the Army (Logistics) will be signed by or for the Head of the Procuring Activity and will include the following information in support of the requested determination:

(1) Complete statement of facts on the proposed procurement(s). The statement of facts should contain sufficient descriptive information to enable the Assistant Secretary of the Army (Logistics) to make determination required by the cited section of the act. The following minimum data should be contained in this statement of facts, except that additional data required by § 592.211 (c) (1) through (6) will be included when the determination is under § 3.211 of this title and § 592.211:

(i) Brief description of the supplies or services to be procured.

(ii) Description of any production or industrial mobilization characteristics of the supplies or services, the procurement of which requires limited competition.

(iii) Expected starting and completion dates of the contract(s), and the estimated dollar amount of the purchase(s), for individual Determinations and Findings. For Class Determinations and Findings, the estimated total number of purchases with the estimated total dollar amount, for the time period to be covered by the determination.

(iv) Date of the original contract, name of the Contractor, and total funds obligated to date, when the purchase action submitted for a Determination and Findings is a contract modification.

(v) Type of contract which it is anticipated will be utilized, e. g., fixed-price, incentive, cost-plus-a-fixed-fee, etc. (unnecessary for Class Determinations and Findings).

(vi) Name and location of firm, when solicitation is limited to a single source, with brief explanation therefor.

(2) Data indicating applicability of the cited section of the Armed Service Procurement Act of 1947. This data should demonstrate that the supplies, work, and circumstances are of the nature described by the pertinent section of the act. Department of the Army approved programs and projects should be cited if they serve to identify the procurement as research and development, interests of industrial mobilization, etc. Previous contracts, status of government tooling and facilities, and mobilization planning status are examples of other data which serve to identify the procurement with the cited section of the act.

(3) Data supporting designation of any classes for Class Determinations and Findings.

(4) Recommendation for signature of the Determination and Findings.

(c) The Determination and Findings, request for approval and signature, and all supporting documents will be submitted in an original and five copies (if Military Interdepartmental Purchase Requests or similar documents relating to the transfer of funds are being submitted, duplicate copies of such documents will be sufficient) to the Deputy Chief of Staff for Logistics, Department of the Army.

(d) Requests for approval and signature by the Secretary in connection with Determinations and Findings authorizing procurement by negotiation may be accompanied by a request for approval of award in those cases requiring such award approval pursuant to § 606.204 of this subchapter.

(e) Determinations and Findings in connection with procurement actions effected under authority of Title II, First War Powers Act, 1941, as amended, will be requested as prescribed in Subpart D, Part 606 of this subchapter.

§ 592.307 *Distribution of copies of determinations and findings*—(a) *Individual determinations.* One authenticated copy of each Determination and Findings required by Subpart C, Part 3 of this title will be sent to the United States General Accounting Office, citing the original assigned contract number of each contract negotiated and executed thereunder. The original signed copy of each Determination and Findings will be filed with the signed copy of the contract retained in the official files of the purchasing office or Procuring Activity concerned. Additional copies may be distributed in accordance with instructions issued by the Head of the Procuring Activity concerned. When one Determination and Findings covers both a supply or service contract and a supporting facilities contract (§ 592.200–50 (b)), the original signed copy will be filed with the supply or services contract, and an authenticated copy will be filed with the facilities contract.

(b) *Class determinations.* One authenticated copy of each Determination and Findings made with respect to classes of purchases or contracts will be sent to the United States General Accounting Office citing the original assigned number of the first contract negotiated thereunder. Each subsequent contract negotiated thereunder shall refer on its face to the particular class Determination and Findings on file with the General Accounting Office, citing the number of the original contract. The original signed copy of each class Determination and Findings will be filed with the signed copy of the first contract negotiated thereunder retained in the files of the purchasing office or Procurement Activity concerned. Additional copies may be distributed in accordance with instructions issued by the Head of the Procuring Activity concerned.

§ 592.308 *Retention of copies of determinations and findings and of other records*—(a) *Preaward transaction file.* (1) Each purchasing office or installation which initiates or effects procurement by negotiation will maintain a master file for each procurement initiated. This file will contain the original or a certified copy of each paper related to the procurement, beginning with the procurement directive or other paper initiating the procurement. The purpose of the file is to provide a complete resume of the transaction prior to and including the award. This master file will be preserved in the office or installation which initiated the procurement for a period of 6 years following final payment on the contract or contracts entered into under the directive. As a minimum in negotiated procurement, a memorandum for record, signed by the Contracting Officer briefly setting forth facts, conclusions, and actions taken regarding the transaction will be included in the contract file in cases where such facts, conclusions, and actions taken are not otherwise reflected in the summary of negotiations and contract award data where such summary is required. Memorandum for record and summary of negotiations as mentioned above are not a mandatory requirement for negotiated purchases under $1,000. Exceptions to the requirement of this subparagraph to maintain a master file for each procurement initiated are permitted only if responsibility for the file is transferred to another office, or, if early retirement or destruction is authorized under the provisions of AR 345–280 (Army Regulations pertaining to maintenance and disposition of supply administration files).

(2) In the event the resulting contract or contracts are transferred to other offices or installations for administration, only those records that are necessary for the administration of the contract are required to be forwarded to the administering office or installations. The cover sheet for the contract administration file maintained by the office or installation administering the contract (§ 592.308 (b)) will identify the master file and give the name of the installation where the contract was initiated and where all records not transferred are maintained. Original or authenticated copies of correspondence pertinent to the contract and all required determinations and findings with supporting data, such as are involved in mistakes in proposals, preaward surveys, etc., pertaining to a particular contract will accompany such contract at all times.

(3) The file containing the records and documents of negotiations referred to in subparagraph (1) of this paragraph shall be identified by a cover sheet designated as "Summary of Negotiation and Contract Award Data." The Head of each Procuring Activity is authorized to publish an appropriate form of such designation and to delegate authority for local reproduction. The form so published shall include as a minimum a check list and certification substantially as detailed below. Additional items and/or reductions of monetary limits separating Parts I and II of the form, determined by the Head of a Procuring Activity to be necessary or appropriate to its contract procedure or records thereof, may be included in the form promulgated by the Procuring Activity.

SUMMARY OF NEGOTIATION AND CONTRACT AWARD DATA

The purpose of this summary, pursuant to § 592.308, is to present a brief statement of basic data as to which complete detail in narrative or documentary form are contained in the assembled file underlying this cover sheet. Each pertinent item on this form is to be completed either by filling in blanks or by the insertion of data appropriate to the purpose of the item and as to which supporting papers are contained in the file.

Contract date _____ Contract No. _____
Name of Contractor _____

Part I. Items 1 to 8 below will be completed for all negotiated contracts, except those covering small purchase.

1. (Copy of procurement order, requisition, or document upon which procurement is based, or reference thereto.)
2. (Complete justification for negotiation.)
3. (Copy of request for proposals, including drawings and specifications or reference thereto.)
4. Number of requests for proposals distributed _____
   Date of distribution _____
   Number of proposals received _____
   Date of awards _____
5. (Statement relative to contingent fees, signed by the Contractor.)
6. (Special contract provisions, or reference thereto.)
7. Small business _____ (Yes or No)
8. Regular dealer _____ or manufacturer _____ (Yes or No)

---

Part II. Items 9 to 14 below will be completed for negotiated contracts which are expected to exceed $25,000 (except the Head of each Procuring Activity may reduce the dollar value if desired.)

9. Labor area classification _____
10. Amount of work to be subcontracted $_____ percent.
11. (Explanation of any Government financial assistance required by the Contractor.)
12. (Detail of survey or other determination of Contractor's ability to consumate the contract.)
13. (Justification for this award, and determination if required.)
14. (Summary of proposal received, with comparative information on all factors entering into total costs.)

---

---

I certify that I have this date reviewed this contract file and that it contains papers in support of the above data and is otherwise considered to provide a clear and complete record of the negotiation and award of this contract.

Signature _____
(Contracting officer, or contracting officer's representative)

(Date) _____

(b) *Contract administration file.* Each purchasing office or installation administering contracts awarded by negotiation will maintain files which will provide a complete résumé of the administration of each contract. Unless these files are set up on an individual contract basis they must be so organized that they will provide an accurate and complete identification and cross-reference to related files. Upon final payment, all papers pertaining to the administration of a particular contract will be consolidated into a single file. This file will be preserved in such office or installation for a period of 6 years following the final payment on the contract unless retired under AR 345–280.

592.601 Purpose.
592.602 Policy.
592.604 Imprest Fund (petty cash) method.
592.605 Order-invoice-voucher method (Standard Form 44).
592.605–50 Instructions for use.
592.605–51 Preparation.
592.605–52 When Standard Form 1034 (Public Voucher for Purchases and Services Other Than Personal) is used in conjunction with Standard Form 44.
592.650 Order and voucher for purchase of supplies or services (DD Form 738 and 738–1).
592.650–1 General.
592.650–2 Use as a purchase order or delivery order.
592.650–3 Use in conjunction with monthly charge accounts.
592.650–4 Use for consolidation of deliveries into one order.
592.650–5 Use as a receiving and inspection report.
592.650–6 Use as a vendor's invoice.
592.650–7 Use as a voucher.
592.650–8 Limitations.
592.650–9 General instructions.
592.650–10 Termination for default.
592.650–11 Use in postal channels—APO shipments.
592.650–12 Use for shipment to Army attachés.
592.650–13 Use of reproducible masters.
592.650–14 Additional instructions.

AUTHORITY: §§ 592.601 to 592.650–14 issued under 62 Stat. 21; 41 U. S. C. 151–162.

§ 592.601 *Purpose.* (a) The Department of the Army has established four procedures authorized by the Department of Defense, to simplify small purchases, namely, the use of Imprest Funds, Standard Form 44 (Purchase Order—Invoice—Voucher), DD Form 738 (Order and Voucher for Purchase of Supplies or Services), and Charge Accounts. These forms and procedures are designed so that proper utilization thereof will simplify the small purchase procedure and reduce administrative costs and workload. In addition to these four procedures, negotiated procurements may be made, where deemed necessary by the Contracting Officer, by the use of other approved purchase forms not specifically designed for small purchases. It is incumbent upon the Contracting Officer to choose that method which best fits the requirements of any particular purchase and to make use of the form or method which will involve the least paper work and expense to the Government.

(b) This subpart is to be considered as a general guide in the making of small purchases except where specific action is directed. It is anticipated that procedures at individual installations or commands will vary slightly according to local conditions and to meet specific situations. In this connection audits, inspections, requests for copies of purchase documents, completeness of contract files, and normal procurement safeguards in general must be considered with respect to the objectives to be attained.

(c) When an additional voucher copy of Standard Form 44 or DD Form 738 is required for the Finance and Accounting Officer to support the "Transactions for Others" the Contracting or Ordering Officers will use a blank manifold sheet of paper interleaved with carbon for this purpose.

(d) Only the minimum adequate protection should be established in the small purchase area. Any additions tend to increase the administrative costs and workload. The extent of such protection to the Government is a command decision at each successive echelon.

§ 592.602 *Policy.* (a) Small purchases as defined in § 3.600 of this title shall be made by negotiation and section 2 (c) (3), Armed Services Procurement Act of 1947, will be cited as the authority for such purchases (§ 592.203).

(b) Sections 590.307 and 592.150 and § 606.204–11 of this subchapter are not applicable to small purchases.

(c) Quotations by vendors incident to small purchases will be solicited in accordance with § 3.603 of this title. See also § 606.201 (b) of this subchapter.

§ 592.604 *Imprest Fund (petty cash) method.* (a) The Imprest Fund is the method preferred for accomplishing small purchases when cash payment is

contemplated. In addition to the instruction in § 3.604 of this title the details of its operation are contained in AR 35–350 (Army Regulations pertaining to imprest funds for small purchases). It is the only authorized cash small purchase procedure, except for cash payments by Accountable Disbursing Officers.

(b) The Imprest Fund may be used to pay for items ordered from open-end contracts including the Federal Supply Schedules if the vendor concurs.

(c) On Standard Form 1165 (Receipt for Cash-Subvoucher) there is space to list only four items. If more space is necessary in a purchase transaction using the Imprest Fund, a plain sheet of paper may be used as a continuation sheet. The total amount of the transaction must appear on the Standard Form 1165.

(d) For transactions utilizing the Imprest Fund, an individual other than the Contracting Officer may be appointed as an Ordering Officer in the same manner and under the same conditions as prescribed in § 592.605–50 (a).

§ 592.605 *Order-invoice-voucher method (Standard Form 44).* (a) Standard Form 44 (U. S. Government Purchase Order—Invoice—Voucher) is printed as a carbon interleaved form (five sheets per set) and provides in one document a purchase (or delivery) order, a receiving report, a property voucher, and a payment voucher.

(b) The requisition of Standard Form 44 will be made by one office at each installation for control purposes. Blank forms will be issued only to authorized Ordering Officers.

(c) Requisitions will be submitted to the appropriate adjutant general publications depot for the necessary forms.
